REGULATIONS

COMMISSION IMPLEMENTING REGULATION (EU) No 321/2011

of 1 April 2011

amending Regulation (EU) No 10/2011 as regards the restriction of use of Bisphenol A in plastic infant feeding bottles**(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC ⁽¹⁾, and in particular Article 18(3) thereof,

After consulting the European Food Safety Authority,

Whereas:

- (1) Commission Directive 2011/8/EU ⁽²⁾ amended Directive 2002/72/EC ⁽³⁾ relating to plastic materials and articles intended to come into contact with foodstuffs restricting the use of Bisphenol A (2,2-bis(4-hydroxyphenyl)propane) in polycarbonate infant feeding bottles.
- (2) From 1 May 2011 Directive 2002/72/EC will be replaced by Commission Regulation (EU) No 10/2011 of 14 January 2011 on plastic materials and articles intended to come into contact with food ⁽⁴⁾.
- (3) Regulation (EU) No 10/2011 does not contain the restrictions concerning Bisphenol A that were introduced in Directive 2002/72/EC by Directive 2011/8/EU.
- (4) Regulation (EU) No 10/2011 should therefore be amended to reflect the restrictions of use of Bisphenol A.

- (5) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Article 1

In Table 1 of Annex I to Regulation (EU) No 10/2011, the entry concerning substance number 151, named '2,2-bis(4-hydroxyphenyl)propane', in column 10 (Restrictions and specifications), the following text is inserted:

'Not to be used for the manufacture of polycarbonate infant (*) feeding bottles (**).

(*) Infant as defined in Article 2 of Directive 2006/141/EC.

(**) This restriction is applicable from 1 May 2011 as regards the manufacture and from 1 June 2011 as regards the placing on the market and importation into the Union.'

Article 2

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Union*.

It shall apply from 1 May 2011 to prohibit the manufacture of plastic materials and articles intended to come into contact with food and which do not comply with this Regulation.

It shall apply as from 1 June 2011 to prohibit the placing on the market and importation into the Union of plastic materials and articles which do not comply with this Regulation.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 1 April 2011.

For the Commission

The President

José Manuel BARROSO

COMMISSION REGULATION (EU) No 322/2011**of 31 March 2011****establishing a prohibition of fishing for anglerfish in VIIIc, IX and X; EU waters of CECAF 34.1.1 by vessels flying the flag of France**

THE EUROPEAN COMMISSION,

HAS ADOPTED THIS REGULATION:

Having regard to the Treaty on the Functioning of the European Union,

*Article 1***Quota exhaustion**

Having regard to Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Community control system for ensuring compliance with the rules of the common fisheries policy ⁽¹⁾, and in particular Article 36(2) thereof,

The fishing quota allocated to the Member State referred to in the Annex to this Regulation for the stock referred to therein for 2011 shall be deemed to be exhausted from the date set out in that Annex.

Whereas:

*Article 2***Prohibitions**

(1) Council Regulation (EU) No 57/2011 of 18 January 2011 fixing for 2011 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in EU waters and, for EU vessels, in certain non-EU waters ⁽²⁾, lays down quotas for 2011.

Fishing activities for the stock referred to in the Annex to this Regulation by vessels flying the flag of or registered in the Member State referred to therein shall be prohibited from the date set out in that Annex. In particular it shall be prohibited to retain on board, relocate, tranship or land fish from that stock caught by those vessels after that date.

(2) According to the information received by the Commission, catches of the stock referred to in the Annex to this Regulation by vessels flying the flag of or registered in the Member State referred to therein have exhausted the quota allocated for 2011.

*Article 3***Entry into force**

(3) It is therefore necessary to prohibit fishing activities for that stock,

This Regulation shall enter into force on the day following its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 31 March 2011.

*For the Commission,
On behalf of the President,*

Lowri EVANS

Director-General for Maritime Affairs and Fisheries

COMMISSION REGULATION (EU) No 323/2011**of 31 March 2011****establishing a prohibition of fishing for deep-sea sharks in EU and international waters of V, VI, VII, VIII and IX by vessels flying the flag of France**

THE EUROPEAN COMMISSION,

HAS ADOPTED THIS REGULATION:

Having regard to the Treaty on the Functioning of the European Union,

*Article 1***Quota exhaustion**

Having regard to Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Community control system for ensuring compliance with the rules of the common fisheries policy ⁽¹⁾, and in particular Article 36(2) thereof,

The fishing quota allocated to the Member State referred to in the Annex to this Regulation for the stock referred to therein for 2011 shall be deemed to be exhausted from the date set out in that Annex.

Whereas:

*Article 2***Prohibitions**

(1) Council Regulation (EU) No 1225/2010 of 13 December 2010 fixing for 2011 and 2012 the fishing opportunities for EU vessels for fish stocks of certain deep-sea fish species ⁽²⁾, lays down quotas for 2011 and 2012.

Fishing activities for the stock referred to in the Annex to this Regulation by vessels flying the flag of or registered in the Member State referred to therein shall be prohibited from the date set out in that Annex. In particular it shall be prohibited to retain on board, relocate, tranship or land fish from that stock caught by those vessels after that date.

(2) According to the information received by the Commission, catches of the stock referred to in the Annex to this Regulation by vessels flying the flag of or registered in the Member State referred to therein have exhausted the quota allocated for 2011.

*Article 3***Entry into force**

(3) It is therefore necessary to prohibit fishing activities for that stock,

This Regulation shall enter into force on the day following its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 31 March 2011.

COMMISSION IMPLEMENTING REGULATION (EU) No 324/2011**of 1 April 2011****establishing the standard import values for determining the entry price of certain fruit and vegetables**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation) ⁽¹⁾,

Having regard to Commission Regulation (EC) No 1580/2007 of 21 December 2007 laying down implementing rules for Council Regulations (EC) No 2200/96, (EC) No 2201/96 and (EC) No 1182/2007 in the fruit and vegetable sector ⁽²⁾, and in particular Article 138(1) thereof,

Whereas:

Regulation (EC) No 1580/2007 lays down, pursuant to the outcome of the Uruguay Round multilateral trade negotiations, the criteria whereby the Commission fixes the standard values for imports from third countries, in respect of the products and periods stipulated in Annex XV, Part A thereto,

HAS ADOPTED THIS REGULATION:

Article 1

The standard import values referred to in Article 138 of Regulation (EC) No 1580/2007 are fixed in the Annex hereto.

Article 2

This Regulation shall enter into force on 2 April 2011.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 1 April 2011.

DECISIONS

COMMISSION DECISION

of 29 March 2011

establishing a specific control and inspection programme related to the recovery of bluefin tuna in the eastern Atlantic and the Mediterranean*(notified under document C(2011) 1984)*

(2011/207/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Community control system for ensuring compliance with the rules of the common fisheries policy ⁽¹⁾, and in particular Article 95 thereof,

Whereas:

- (1) In 2006 the International Commission for the Conservation of Atlantic Tunas (ICCAT) adopted a multiannual recovery plan for bluefin tuna in the eastern Atlantic and Mediterranean. That plan was transposed into Union law by Council Regulation (EC) No 1559/2007 ⁽²⁾.
- (2) ICCAT amended the recovery plan on 24 November 2008 by Recommendation 08-05. The plan thus amended was transposed into Union law by Council Regulation (EC) No 302/2009 ⁽³⁾.
- (3) To ensure the success full implementation of the amended multiannual recovery plan, Commission Decision 2009/296/EC ⁽⁴⁾ established a specific control and inspection programme covering a period of two years, from 15 March 2009 to 15 March 2011.
- (4) The specific control and inspection programme related to the recovery of bluefin tuna in the eastern Atlantic and the Mediterranean, as established by Decision 2009/296/EC, is to expire on the 15 March 2011. A new Commission Decision should be adopted with a

view of ensuring the continuity of that programme and implementing immediately certain provisions of ICCAT Recommendation 10-04, notably those on the early submission of required fishing and inspection plans.

- (5) The new specific control and inspection programme should be set up for the period from 15 March 2011 to 15 March 2014. The results obtained through its application should be periodically evaluated in cooperation with the Member States concerned.
- (6) In order to harmonise the control and inspection of the bluefin tuna fishery at Union level, it is appropriate to draw up common rules for the control and inspection activities to be carried out by the competent authorities of the Member States concerned, and that Member States adopt national control action programmes in order to comply with such common rules. To that end, benchmarks for the intensity of control and inspection activities should be fixed, as well as control and inspection priorities and procedures.
- (7) To ensure the follow-up of infringements, this Decision should set up amongst others, the procedures under which the authorities concerned may exchange relevant information in accordance with Article 117 of Regulation (EC) No 1224/2009.
- (8) Joint inspection and surveillance activities should be carried out in accordance with joint deployment plans established by the Community Fisheries Control Agency (CFCA) set up by Council Regulation (EC) No 768/2005 ⁽⁵⁾.
- (9) The measures provided for in this Decision are in accordance with the opinion of the Committee for Fisheries and Aquaculture,

⁽¹⁾ OJ L 343, 22.12.2009, p. 1.

⁽²⁾ OJ L 340, 22.12.2007, p. 8.

⁽³⁾ OJ L 96, 15.4.2009, p. 1.

⁽⁴⁾ OJ L 80, 26.3.2009, p. 18.

⁽⁵⁾ OJ L 128, 21.5.2005, p. 1.

HAS ADOPTED THIS DECISION:

CHAPTER I

GENERAL PROVISIONS

Article 1

Subject matter

This Decision establishes a specific control and inspection programme in order to ensure the harmonised implementation of the multiannual recovery plan for bluefin tuna in the eastern Atlantic and the Mediterranean adopted by the International Commission for the Conservation of Atlantic Tunas (ICCAT) in 2006 as transposed by Regulation (EC) No 302/2009 as last amended by ICCAT Recommendation 10-04 of 27 November 2010.

Article 2

Temporal and territorial scope

The specific control and inspection programme shall apply until 15 March 2014 in the ICCAT Convention area.

Article 3

Material scope

The specific control and inspection programme shall cover the following activities:

1. all fishing activities, including by-catches, by fishing vessels and traps, including joint fishing operations;
2. all catches, landings, transfers, transshipments and caging operations;
3. all related activities of farms and operators engaged in caging, fattening, farming, harvesting or processing of bluefin tuna and/or in trade of bluefin tuna products, including domestic trade, importation, exportation and re-exportation, transport and storage;
4. sport and recreational fisheries.

CHAPTER II

OBJECTIVES, PRIORITIES, BENCHMARKS AND PROCEDURES

Article 4

Objectives

Control and inspection activities shall aim at ensuring compliance with the following provisions:

1. annual fishing plans, as provided for by Article 4 of Regulation (EC) No 302/2009;
2. the prohibition to use spotting aircrafts and helicopters, as provided for by Article 8 of Regulation (EC) No 302/2009;

3. measures on fishing and farming capacities, as provided for by Articles 5 and 6 of Regulation (EC) No 302/2009;
4. the implementation of any observer programme in the Union, including the Member States' observer programme, and the ICCAT Regional Observer Programme, as provided for by points 90, 91, 92 and Annex 7 of ICCAT Recommendation 10-04;
5. rules on recording of authorised catching vessels and other fishing vessels, as provided for by Articles 14 and 15 of Regulation (EC) No 302/2009;
6. specific technical measures and conditions for fishing for bluefin tuna as provided in ICCAT Recommendation 10-04, in particular minimum size rules and associated conditions;
7. quantitative restrictions on catches and any specific conditions associated therewith, including the monitoring of quota uptake, as provided for by ICCAT Recommendation 10-04;
8. documentation rules applicable to bluefin tuna, as provided for by ICCAT Recommendation 10-04.

Article 5

Priorities

Different gear categories shall be subject to different levels of prioritisation, according to the annual fishing plan. For that reason, each Member State shall set specific priorities.

Article 6

Benchmarks

The inspection benchmarks are set out in Annex I.

Article 7

Procedures

Control and inspection activities shall be carried out in accordance with the following procedural provisions:

1. the ICCAT Scheme of Joint International Inspection, as provided for by points 99, 100, 101 and Annex 8 of ICCAT Recommendation 10-04;
2. the methodology of inspection as provided for by ICCAT Recommendation 10-04, and in particular its Annex 8;
3. the procedures to be followed by officials as laid down in the Annex II to this Decision;
4. the procedures to be followed by Member States as laid down in Articles 8 to 13 of this Decision.

*Article 8***Joint procedures**

Member States referred to in Article 12 shall ensure that officials from other Member States concerned are invited to participate in joint inspection and surveillance activities and establish joint operational procedures applicable to their surveillance crafts.

*Article 9***Notification of surveillance and inspection activities**

1. A Member State intending to conduct surveillance and inspect fishing vessels in the waters under the jurisdiction of another Member State in the framework of a Joint Deployment Plan shall notify its intentions to the contact point of the coastal Member State concerned, as referred to in Article 3 of Commission Regulation (EC) No 1042/2006 ⁽¹⁾, and to the CFCA.

2. The notification referred to in paragraph 1 shall contain the following information:

- (a) type, name and call sign of the inspection vessels and inspection aircraft on the basis of the list referred to in Article 6 of Regulation (EC) No 1042/2006;
- (b) the areas where the surveillance and inspection operations shall be carried out;
- (c) the duration of the surveillance and inspection activities.

*Article 10***Information of infringements**

In addition to Articles 82 and 83 of Regulation (EC) No 1224/2009, Member States whose officials detect any infringement while carrying out an inspection of the activities listed in Article 3 shall inform without delay the third country and the Commission of the date of inspection and the details of the infringement.

*Article 11***Immediate enforcement measures in case of serious infringements**

1. If a serious infringement is discovered onboard a Union fishing vessel, the flag Member State shall ensure that, following the inspection, the fishing vessel flying its flag ceases all fishing activities and shall inform the Commission in a timely manner.

2. If the Union fishing vessel is not called to port, the flag Member State shall provide due justification to the Commission within 72 hours.

⁽¹⁾ OJ L 187, 8.7.2006, p. 14.

CHAPTER III

IMPLEMENTATION*Article 12***National control action programmes**

1. The specific control and inspection programme shall be implemented through the national control action programmes, as referred to in Article 46 of Regulation (EC) No 1224/2009, adopted by Greece, Spain, France, Italy, Cyprus, Malta and Portugal.

2. National control action programmes shall be set up in accordance with the objectives, the priorities, the benchmarks and procedures laid down in this Decision and shall contain all data listed in Annex III.

3. National control action programmes shall be accompanied by annual implementation schedules which shall include details as regards the human and material resources allocated and the zones where those resources are to be deployed. The annual implementation schedules shall take into account the benchmarks set out in Annex I.

4. For the 2012 and 2013 fishing seasons, Member States shall submit their national control action programmes and annual implementation schedules respectively by 15 September 2011 and 2012. They shall make them available on the secure part of their website by the 1 January 2012 and 2013.

*Article 13***Cooperation between Member States**

All Member States shall cooperate with the Member States referred to in Article 12(1) in the implementation of the specific control and inspection programme.

*Article 14***Joint inspection and surveillance activities**

Part or the whole of the national control action programmes referred to in Article 12 may be implemented by way of a joint deployment plan adopted by the Community Fisheries Control Agency (CFCA) in accordance with Regulation (EC) No 768/2005.

*Article 15***Report on the implementation of national control action programmes**

1. Member States referred to in Article 12(1) shall communicate to the Commission and to the CFCA a report indicating the implementation of their national control action programme referred to in Article 12.

2. Interim reports shall be communicated on 1 July and 15 September every year and a final report on the 15 December of the same year.

3. This report shall contain the following information, in accordance with the table set out in Annex II:

- (a) the inspection and control activities carried out on a monthly basis;
- (b) all infringements detected, including for each infringement the identification of:
 - (i) the fishing vessel (name, flag and external identification code), the trap, the farm or the enterprise engaged in the processing and/or trade of bluefin tuna products concerned;
 - (ii) the date, time and location of the inspection;
 - (iii) the nature of the infringement, including information on serious infringements or violations referred to in Articles 10 and 11;
 - (iv) the current state of play concerning the follow-up of infringements detected (e.g. case pending, under appeal, still under investigation);
 - (v) the description, in specific terms, of any penalties imposed (e.g. level of fines, value of forfeited fish and/or gear, written warning given), together with the supportive documents;
 - (vi) an explanation if no action has been taken;
- (c) any relevant coordination and cooperation actions between Member States.

4. An infringement shall continue to be listed on each subsequent report until the action is concluded under the law of the Member State concerned.

Article 16

Additional information

Member States shall provide the Commission with any additional information that may be requested on the implementation of this Decision.

Article 17

Union inspection plan and report

1. Based on the current Decision and on national control action programmes, and after consultation with the Member States, the Commission shall submit the Union inspection plan to the ICCAT Commission one month before its annual meeting according to point 9 of ICCAT Recommendation 10-04.

2. The Commission shall convene once a year a meeting of the Committee for Fisheries and Aquaculture to evaluate the compliance with and the results of the specific control and inspection programme with a view to prepare the report the Union is required to provide to the ICCAT Secretariat on 15 October each year.

CHAPTER IV

FINAL PROVISIONS

Article 18

Addressees

This Decision is addressed to the Member States.

Done at Brussels, 29 March 2011.

For the Commission

Maria DAMANAKI

Member of the Commission

ANNEX I

BENCHMARKS

The benchmarks set out in this Annex shall be implemented so as to ensure in particular:

- (a) the full monitoring of caging operations taking place in the Community waters;
- (b) the full monitoring of transfer operations;
- (c) the full monitoring of joint fishing operations;
- (d) the control of all documents required by the legislation applicable to bluefin tuna, in particular verifying the reliability of the information recorded.

Place of inspection	Benchmark
Caging activities (including harvest)	All caging operation into a farm must have been authorised by the flag Member State of the catching vessel within 48 hours following the submission of the information required for the caging operation; All caging for farming or fattening BFT shall be accompanied by accurate, complete and validated documentation as required by ICCAT (as provided for by point 84 of ICCAT Recommendation 10-04); Each caging operation and harvesting process shall be inspected, including by the relevant authorities of the port; All caging operations shall be monitored by video camera in the water (as provided for by point 86 of ICCAT Recommendation 10-04); Fish shall be caged before 31 July unless valid reason as per Rec. 10-04 (as provided for by point 83 of ICCAT Recommendation 10-04).
Inspection at sea	Benchmark, to be set after a detailed analysis of the fishing activity in each area; Benchmarks at sea shall refer to the number of patrol days at sea in the bluefin tuna recovery specific area and shall refer as well to the number of patrol days identifying the fishing season and the type of fishing activity targeted.
Transfer operation	Any transfer operations must have been authorised previously by the flag States on the basis of a prior transfer notification (as provided for by point 75 of ICCAT Recommendation 10-04); An authorisation number shall be assigned to each transfer operation (as provided for by point 76 of ICCAT Recommendation 10-04); A transfer shall be authorised within 48 hours following the submission of the prior transfer notification (as provided for by point 76 of ICCAT Recommendation 10-04); An ICCAT transfer declaration shall be sent to the flag State at the end of the transfer operation (as provided for by point 77 of ICCAT Recommendation 10-04); All transfer operations must be monitored by video camera in the water (as provided for by point 79 of ICCAT Recommendation 10-04).
Transhipments	All vessels shall be inspected on arrival before the transhipment operations start, as well as before departure after the transhipment operations. Random checks shall be made in non designated ports; A transhipment declaration shall be transmitted to the Flag States no later than 48 hours after the date of transhipment in port (as provided for by point 69 of ICCAT Recommendation 10-04).
Joint fishing operation	All joint fishing operations must have been authorised previously by the flag States; Member States shall then establish and maintain a record of all joint fishing operations authorised by them.
Aerial surveillance	Flexible benchmark, to be set after a detailed analysis of the fishing activity conducted in each area and taking into consideration the available resources at the Member State's disposal.

Place of inspection	Benchmark
Landings	All vessels entering a designated port for the purpose of landing bluefin tuna shall be inspected; Random checks shall be made in non designated ports; The relevant authority shall send a record of the landings to the flag State authority of the fishing vessel within 48 hours after the landing has ended (as provided for by point 68 of ICCAT Recommendation 10-04).
Marketing	Flexible benchmark, to be set after a detailed analysis of the marketing activity conducted.
Sport and recreational fisheries	Flexible benchmark, to be set after a detailed analysis of the sport and recreational fisheries activities conducted.
Traps	All trap operations, including transfer and harvesting, shall be inspected.

ANNEX II

PROCEDURES TO BE FOLLOWED BY OFFICIALS**1. Inspection tasks****1.1. General inspection tasks**

An inspection report shall be drawn up for each control and inspection, in the format set out in point 2 of this Annex. Officials shall in any case verify and note in their report the following information:

- (1) the details of the identity of the responsible persons, as well as those of the vessel, farm personnel etc. involved in the activities inspected;
- (2) the authorisations, licences and fishing authorisation;
- (3) relevant vessel documentation such as the logbooks, transfer and transshipment declarations, ICCAT bluefin tuna catch documents, re-export certificates and other documentation examined for the purpose of the control and inspection as provided for by ICCAT Recommendation 10-04;
- (4) detailed observation of the sizes of bluefin tuna caught, trapped, transferred, transhipped, landed, transported, farmed, processed or traded in the context of compliance with the provisions of the recovery plan;
- (5) the by-catch percentage of bluefin tuna retained on board vessels not fishing actively for bluefin tuna.

The information referred to all relevant findings from the inspection done at sea, by aerial surveillance, in ports, traps, farms or in any other enterprise concerned shall be noted in the inspection reports. In case of an inspection in the framework of the ICCAT Scheme of Joint International Inspection, the official should register the inspections undertaken and any infringements detected in the vessel log.

Those findings shall be compared with the information made available to the officials by other competent authorities, including Vessel Monitoring System (VMS) information, lists of authorised vessels, observer's reports, video records and all documents related to fishing activities.

1.2. Inspection tasks for aerial surveillance

Officials shall report on surveillance data for cross-checking purposes, and in particular verify sightings of fishing vessels against VMS and authorised lists.

Officials shall sight and report on Illegal Unidentified and Unreported (IUU) fishing activities, and on the use of spotting aircrafts or helicopters.

Particular attention shall be devoted to closure areas, fishing season's periods and to the activities of fleets for which derogations apply.

1.3. Inspection tasks at sea**1.3.1. General inspection tasks**

Where dead fish are taken onboard the catching vessel or are present onboard a processing or a transport vessel, officials shall always verify the quantities of fish retained on board and compare them with the quantities recorded in the relevant documentation on board.

Where live fish are being transferred, officials shall seek to identify the means used by the parties involved to estimate the quantities of live bluefin tuna transferred. Where video footage is available, officials shall gain access to, and verify the quantities transferred, as observed by the video footage.

A series of 'spot check' inspections inside the towing cages will be undertaken by EU / Member State diving inspectors who will check that the number and estimated weight caught and transferred corresponds with that in the ICCAT transfer declaration on board of the tug boats.

Officials shall systematically verify:

- (1) that the fishing vessels are authorised to operate (markings, identity, licence, fishing authorisation and ICCAT lists);
- (2) compliance with the vessel documentation requirements;

- (3) that the fishing vessels are equipped with an operational VMS and that requirements on VMS transmission are respected;
- (4) fishing vessels are not operating inside close areas and are respecting the closure of fishing seasons;
- (5) respect of quotas and by-catch limitations;
- (6) the size composition of catches of bluefin tuna on board;
- (7) the physical quantities of bluefin tuna on board, and their presentation;
- (8) the fishing gear on board;
- (9) the presence of an observer where it is relevant.

Officials shall sight and report on IUU fishing activities, and on the use of spotting aircrafts or helicopters.

1.3.2. Inspection tasks at transfer operations

Officials shall systematically verify:

- (1) compliance with the requirements regarding the prior transfer notification;
- (2) that the flag State has assigned and communicated to the master of the fishing vessel, or trap or farm as appropriate, an authorisation number for each transfer operation within 48 hours following the submission of the prior transfer notification;
- (3) compliance with the ICCAT transfer declaration requirements;
- (4) that the transfer declaration has been signed by the ICCAT regional observer on board and transmitted to the master of the tug vessel;
- (5) compliance with the video recording requirements.

1.3.3. Inspection tasks at joint fishing operations

Officials shall systematically verify:

- (1) compliance with the joint fishing operations' requirements regarding the information to be reported in the fishing logbook;
- (2) that a joint fishing operation authorisation has been delivered to the fishing vessels by their flag States authorities using the model set out in Annex V of Regulation (EC) No 302/2009;
- (3) the presence of an observer during the joint fishing operation.

1.4. Inspection tasks at landing

Officials shall systematically verify:

- (1) that the fishing vessels are authorised to operate (markings, identity, licence, fishing authorisation and ICCAT lists, if relevant);
- (2) that the pre-notification of arrival for landing was received by the competent authorities;
- (3) that the relevant authority has sent a record of the landings to the flag State authority of the fishing vessel, within 48 hours after the landing has ended;
- (4) that the fishing vessels are equipped with an operational VMS and that requirements on VMS transmission are respected;
- (5) compliance with the vessel documentation requirements;
- (6) the physical quantities of bluefin tuna on board, and presentation;

- (7) the total catches composition of bluefin tuna on board in order to verify by-catch rules;
- (8) the size composition of catches of bluefin tuna on board in order to verify the minimum size rules;
- (9) the fishing gears on board;
- (10) in the case of landing of processed products, the use of the ICCAT conversion factors to calculate the equivalent round weight of the processed bluefin tuna;
- (11) that the bluefin tuna offered for retail sale to the final consumer, from fishing vessels in the eastern Atlantic and the Mediterranean, is correctly marked or labelled;
- (12) that the bluefin tuna landed by the bait boats, longliners, hand liners or trolling boats in the eastern Atlantic and the Mediterranean is correctly tail tagged.

1.5. *Inspection tasks during transshipment*

Officials shall systematically verify:

- (1) that the fishing vessels are authorised to operate (markings, identity, licence, fishing authorisation and ICCAT lists);
- (2) that the pre-notification of arrival in port was sent and contained the correct information concerning the transshipment;
- (3) that transshipping fishing vessels wishing to tranship have received prior authorisation from their flag State;
- (4) that the quantities pre-notified to be transhipped are verified;
- (5) that a transshipment declaration has been transmitted to the flag States no later than 48 hours after the date of transshipment in port;
- (6) that the relevant documentation is on board is present and duly completed, including the transshipment declaration, the relevant and ICCAT bluefin tuna catch document and re-export certificate;
- (7) in the case of processed products, the use of the ICCAT conversion factors to calculate the equivalent round weight of the processed bluefin tuna.

1.6. *Inspection tasks on farm installations*

Officials shall systematically verify:

- (1) that the relevant documentation is present and duly completed and reported (bluefin tuna catch document and re-export certificate, transfer declaration, transshipment declaration);
- (2) that the caging operation has been previously authorised by the catching vessel flag State authorities;
- (3) that an ICCAT regional observer was present during all transfer and harvesting of bluefin tuna, and has validated the caging declarations;
- (4) that all the transfer activities from cages to the farm have been monitored by video camera in the water;
- (5) that the farming State will not accept caging of bluefin tuna where the quantity by number and/or weight above that authorised to be caged by the flag State.

A series of 'spot check' inspections in the farm cages will be undertaken by Member State diving inspectors to confirm the quantities of caged fish. This would be conducted by divers which in one Member State would also use a stereoscopic camera.

1.7. *Inspection tasks concerning transports and marketing*

Officials shall systematically verify:

- (1) as regards transport, in particular the relevant accompanying documents and check them against the physical quantities transported;
- (2) as regards marketing, that the relevant documentation is present and duly completed, including the relevant bluefin tuna catch document and re-export certificate.

2. **Inspection reports**

1. For the inspections undertaken in the framework of the ICCAT Scheme of Joint International Inspection, officials shall use the template of Appendix 1 to this Annex.
 2. For the other inspections, officials shall use their national reports template pending the entry into force of rules implementing Article 76 of Regulation (EC) No 1224/2009.

SERIOUS VIOLATIONS OBSERVED

Vessel name:

Vessel flag:

ICCAT number:

- ☐ fishing without a licence, permit or authorisation issued by the flag CPC;
- ☐ failure to maintain sufficient records of catch and catch-related data in accordance with the Commission's reporting requirements or significant misreporting of such catch and/or catch-related data;
- ☐ fishing in a closed area;
- ☐ fishing during a closed season;
- ☐ intentional taking or retention of species in contravention of any applicable conservation and management measure adopted by the ICCAT;
- ☐ significant violation of catch limits or quotas in force pursuant to the ICCAT rules;
- ☐ use of prohibited fishing gear;
- ☐ falsification or intentional concealment of the markings, identity or registration of a fishing vessel;
- ☐ concealment, tampering with or disposal of evidence relating to investigation of a violation;
- ☐ multiple violations which taken together constitute a serious disregard of measures in force pursuant to the ICCAT;
- ☐ such other violations as may be determined by the ICCAT, once these are included and circulated in a revised version of these procedures;
- ☐ assault, resistance, intimidation, sexual harassment, interference with, or undue obstruction or delay of an authorised inspector or observer;
- ☐ intentional tampering with or disabling the vessel monitoring system;
- ☐ fishing with assistance of spotter planes;
- ☐ interference with the satellite monitoring system and/or operates without VMS system;
- ☐ transfer activity without transfer declaration;
- ☐ transshipment at sea.

ANNEX III

Contents of national control action programmes as referred to in Article 12

National control action programmes shall specify the following:

1. MEANS OF CONTROL**1. Human means**

The numbers of shore-based and seagoing officials and the periods and zones where these are available to be deployed.

2. Technical means

The numbers of patrol vessels and aircrafts, and the periods and zones where these are available to be deployed.

3. Financial means

The budgetary allocation for deployment of human resources, patrol vessels and aircrafts.

2. DESIGNATION OF PORTS

The list of the designated ports and designated times required under ICCAT Recommendation 10-04.

3. ANNUAL FISHING PLANS

The details of any system in place for allocation of quotas, monitoring and control of the fishing plan.

4. INSPECTION PROTOCOLS

Detailed protocols explaining the methodology for all inspection activities.

The protocols shall take into account the requirements as set out in Article 12 of this Decision.

Member States shall also ensure that the following points are included in their inspections activities:

1. Catches:

- (a) Quantity (biomass estimation) and precise number of specimens;
- (b) Verification that the quantities catch respect the quota allocation;
- (c) Verification that the minimum size requirements, with a tolerance of % in numbers.

2. Transfer:

- (a) Prior authorisation for transfers into towing cage and farming cage;
- (b) Accurate quantity and number of fish transferred into towing cage;
- (c) Mortality during towing operation and destination of fish dead.

3. Farm:

- (a) Confirmation of legitimacy of catch as well as pre-authorisation by flag Member State;
- (b) Accurate quantity and number of fish transferred into fattening cages;
- (c) Sampling/tagging programme to estimate weight gain.

4. Harvest and export:

- (a) Accurate quantity and number of fish harvested;
- (b) Coverage by ICCAT Regional Observer Programme;
- (c) Accurate quantity by product type (clearly indicating the conversion factors).

5. GUIDELINES

Explanatory guidelines for officials, producers' organisations and fishermen.

6. COMMUNICATION PROTOCOLS

Protocols for communication with the competent authorities designated by other Member States as being responsible for the specific control and inspection programme for bluefin tuna.

Monthly state of play of the bluefin tuna national control action programme

COMMISSION IMPLEMENTING DECISION**of 1 April 2011****on a financial contribution from the Union towards emergency measures to combat Newcastle disease in Spain in 2009***(notified under document C(2011) 2062)***(Only the Spanish text is authentic)**

(2011/208/EU)

THE EUROPEAN COMMISSION,

emergency measures. Pursuant to Articles 3(2) and 6(2) of that Decision, Member States shall obtain a financial contribution towards the costs of certain measures to eradicate Newcastle disease.

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Decision 2009/470/EC of 25 May 2009 on expenditure in the veterinary field ⁽¹⁾, and in particular Article 6(2) thereof,

(6) Article 3(6) of Decision 2009/470/EC lays down rules on the percentage of the costs incurred by the Member State that may be covered by the Community's financial contribution.

Whereas:

(1) Newcastle disease is an infectious viral disease which causes high mortality in poultry.

(7) The payment of a financial contribution from the Union towards emergency measures to eradicate Newcastle disease is subject to the rules laid down in Commission Regulation (EC) No 349/2005 of 28 February 2005 laying down rules on the Community financing of emergency measures and of the campaign to combat certain animal diseases under Council Decision 90/424/EEC ⁽³⁾.

(2) In the event of an outbreak of Newcastle disease, there is a risk that the disease agent might spread to other poultry holdings within that Member State, but also to other Member States and to third countries through trade in live poultry or their products.

(8) An outbreak of Newcastle disease was confirmed in Spain on 26 November 2009. Spain took measures, in accordance with Directive 92/66/EEC and Article 3(2) of Decision 2009/470/EC, to combat this outbreak.

(3) An outbreak of that disease can therefore quickly take on epidemic proportions liable to reduce sharply the profitability of poultry farming.

(9) Spain has fully complied with its technical and administrative obligations as set out in Article 3(2) of Decision 2009/470/EC and Article 6 of Regulation (EC) No 349/2005.

(4) Council Directive 92/66/EEC of 14 July 1992 introducing Community measures for the control of Newcastle disease ⁽²⁾ sets out measures which in the event of an outbreak have to be immediately implemented by Member States as a matter of urgency to prevent further spread of the virus.

(10) On 23 December 2009, 26 January 2010 and 25 February 2010, Spain submitted an estimate of the costs incurred in taking measures to eradicate Newcastle disease.

(5) Decision 2009/470/EC lays down the procedures governing the Community financial contribution towards specific veterinary measures, including

(11) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

⁽¹⁾ OJ L 155, 18.6.2009, p. 30.

⁽²⁾ OJ L 260, 5.9.1992, p. 1.

⁽³⁾ OJ L 55, 1.3.2005, p. 12.

HAS ADOPTED THIS DECISION:

Article 2

Addressee

This Decision is addressed to the Kingdom of Spain.

Article 1

Financial contribution from the Union to Spain

1. A financial contribution from the Union may be granted to Spain towards the costs incurred by that Member State in taking measures pursuant to Articles 3(2) and 6(2) of Decision 2009/470/EC, to combat Newcastle disease in 2009.

Done at Brussels, 1 April 2011.

2. The financial contribution mentioned in paragraph 1 shall be fixed in a subsequent decision to be adopted in accordance with the procedure established in Article 40(2) of Decision 2009/470/EC.

For the Commission

John DALLI

Member of the Commission

CORRIGENDA**Corrigendum to Council Decision 2011/137/CFSP of 28 February 2011 concerning restrictive measures in view of the situation in Libya***(Official Journal of the European Union L 58 of 3 March 2011)*

2011 SUBSCRIPTION PRICES (excluding VAT, including normal transport charges)

EU Official Journal, L + C series, paper edition only	22 official EU languages	EUR 1 100 per year
EU Official Journal, L + C series, paper + annual DVD	22 official EU languages	EUR 1 200 per year
EU Official Journal, L series, paper edition only	22 official EU languages	EUR 770 per year
EU Official Journal, L + C series, monthly DVD (cumulative)	22 official EU languages	EUR 400 per year
Supplement to the Official Journal (S series), tendering procedures for public contracts, DVD, one edition per week	multilingual: 23 official EU languages	EUR 300 per year
EU Official Journal, C series — recruitment competitions	Language(s) according to competition(s)	EUR 50 per year

Subscriptions to the *Official Journal of the European Union*, which is published in the official languages of the European Union, are available for 22 language versions. The Official Journal comprises two series, L (Legislation) and C (Information and Notices).

A separate subscription must be taken out for each language version.

In accordance with Council Regulation (EC) No 920/2005, published in Official Journal L 156 of 18 June 2005, the institutions of the European Union are temporarily not bound by the obligation to draft all acts in Irish and publish them in that language. Irish editions of the Official Journal are therefore sold separately.

Subscriptions to the Supplement to the Official Journal (S Series — tendering procedures for public contracts) cover all 23 official language versions on a single multilingual DVD.

On request, subscribers to the *Official Journal of the European Union* can receive the various Annexes to the Official Journal. Subscribers are informed of the publication of Annexes by notices inserted in the *Official Journal of the European Union*.

Sales and subscriptions

Subscriptions to various priced periodicals, such as the subscription to the *Official Journal of the European Union*, are available from our sales agents. The list of sales agents is available at:

http://publications.europa.eu/others/agents/index_en.htm

EUR-Lex (<http://eur-lex.europa.eu>) offers direct access to European Union legislation free of charge. The *Official Journal of the European Union* can be consulted on this website, as can the Treaties, legislation, case-law and preparatory acts.
