COMMISSION IMPLEMENTING REGULATION (EU) No 926/2011**of 12 September 2011****for the purposes of Council Decision 2009/470/EC as regards Union financial aid to the EU reference laboratories for feed and food and the animal health sector**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Decision 2009/470/EC of 25 May 2009 on expenditure in the veterinary field ⁽¹⁾, and in particular Article 31(2) thereof,

Whereas:

- (1) Decision 2009/470/EC lays down the procedures governing the Union's financial contribution towards inspection measures in the veterinary field. Pursuant to that Decision, the Union is to contribute towards improving the efficiency of veterinary inspections by granting financial aid to EU liaison and EU reference laboratories. It provides that any EU liaison or EU reference laboratory designated as such in accordance with Union veterinary legislation and fulfilling the duties and requirements laid down therein, may receive Union aid.
- (2) Regulation (EC) No 882/2004 of the European Parliament and of the Council of 29 April 2004 on official controls performed to ensure the verification of compliance with feed and food law, animal health and animal welfare rules ⁽²⁾ lays down the general tasks, duties and requirements for EU reference laboratories for food and feed and for animal health and live animals. EU reference laboratories for food and feed are listed in Part I while EU reference laboratories for animal health and live animals are listed in Part II of Annex VII to that Regulation.
- (3) Commission Regulation (EC) No 1754/2006 of 28 November 2006 laying down detailed rules for the granting of Community financial assistance to Community reference laboratories for feed and food and the animal health sector ⁽³⁾ lays down the detailed rules for the granting of Union financial aid for the operation of EU reference laboratories, as provided for in Article 31 of Decision 2009/470/EC and Article 32 of Regulation (EC) No 882/2004, and for the organisation of workshops.
- (4) Under Regulation (EC) No 1754/2006, the relationship between the Commission and individual EU reference laboratories is to be laid down in partnership agreements. Partnership agreements are to run for 5 years and be supported by a multiannual work programme.
- (5) EU reference laboratories are listed in Annex VII to Regulation (EC) No 882/2004. The Joint Research Centre was designated for some of them. As it is a directorate-general of the Commission, this Regulation does not apply. Rules governing the Union financial aid for the Joint Research Centre are laid down in an annual administrative arrangement.
- (6) The level of the annual Union financial aid for the activity of certain EU reference laboratories is decided on a yearly basis by annual financing decisions relating to feed and food safety and animal health and live animals.
- (7) In 2008, the Commission's Internal Audit Service (IAS) performed an audit on grant management in food safety, animal health and welfare and plant health activity. The IAS concluded that the detailed rules for the granting of Union financial aid to EU reference laboratories for feed and food and the animal health sector should be simplified. To simplify the rules, the IAS suggested that the Commission continue adopting annual financing decisions on a yearly basis but without the need for partnership agreements between the Commission and each individual EU reference laboratory.
- (8) Meetings and training activities held by EU reference laboratories need to be regularly organised. Therefore, meetings and training activities should be added to the list of eligible expenditure of this Regulation.
- (9) For financial control purposes, Articles 9, 36 and 37 of Council Regulation (EC) No 1290/2005 of 21 June 2005 on the financing of the common agricultural policy ⁽⁴⁾ are applicable.
- (10) Since a number of changes are to be made to Regulation (EC) No 1754/2006, that Regulation should be repealed and replaced by this Regulation in the interests of clarity, while taking into account Regulation (EC) No 882/2004.

⁽²⁾ OJ L 165, 30.4.2004, p. 1.

⁽³⁾ OJ L 331, 29.11.2006, p. 8.

⁽⁴⁾ OJ L 209, 11.8.2005, p. 1.

(11) This Regulation is to apply to all EU reference laboratories whose framework partnership agreements come to an end in 2011 and for EU reference laboratories whose framework partnership agreements are terminated by mutual agreement. For EU reference laboratories whose framework partnership agreements are not terminated, Regulation (EC) No 1754/2006 remains applicable.

(12) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

ANNEX IV

Eligibility rules applicable to expenditure relating to workshops

(see Article 15(4))

I. TRAVEL COSTS**1. TICKETS AND TRAVEL EXPENSES****1.1. General rules**

Participants must use the most appropriate and cost-effective means of transport. As far as possible, public or shared transport is to be used taking account, among other things, of the environmental impact.

All travel is deemed to start on the premises of the laboratories. Participants are directly responsible for any detours made for private reasons, including departures from and/or returns to any other place, and must indicate such detours and pay the excess cost involved.

Travel expenses incurred for the participation in the workshop are to be reimbursed exclusively based on the most appropriate and cost-effective means of transport between the laboratories' premises and the place where the workshop is organised.

Reimbursement must take into account the meetings' duration and must be based on the best rates available from the preferential rates negotiated and other promotional fares available on the market.

1.2. Travel by rail

Travel expenses are to be reimbursed for first-class travel by the shortest and most cost-effective route.

1.3. Travel by air

(1) Air travel is to be booked, at the lowest available rates, taking into account the duration of meetings:

(a) in economy class or equivalent;

(b) in business class or equivalent, if the journey includes at least one segment involving at least 4 hours continuous flying time.

(2) Where the fare conditions require a weekend stay (Sunday rule), additional daily allowances may be paid if cost-effective overall.

Participants are to request and retain from the approved travel agency the different rates available (including/excluding a weekend stay) so that the most cost-effective decision is reached. Nevertheless, participants are not under an obligation to spend the weekend at the place of workshop for the sole purpose of more cost-effective travel arrangements.

Used tickets, original boarding cards and hotel invoices are to be provided to the Commission upon its request.

1.4. Travel by car for professional reasons

Travel by car is authorised if cost-effective compared to travel by air or rail, particularly where the car is shared by a number of participants.

Travel by private car for professional reasons is authorised. However, travel expenses relating to the distance covered are to be reimbursed up to a maximum of EUR 0,22 per km.

1.5. Taxis – Parking – Tolls – Public transport (bus, tram, metro)

The daily allowance is normally considered to cover all expenditure incurred by the participants attending a workshop. Expenses relating to public transport, taxi fares, tolls and parking are not eligible costs for reimbursement.

II. DAILY ALLOWANCES**Calculation**

Daily allowances are to be calculated as follows:

Length of mission:

- 6 hours or less: 20 % of the daily allowance and any travel costs on the basis of supporting documents,
- more than 6 hours but not more than 12 hours: half the daily allowance,

- more than 12 hours, but not more than 30 hours: the daily allowance,
- more than 30 hours but not more than 36 hours: one and a half times the daily allowance,
- more than 36 hours but not more than 54 hours: two times the daily allowance,
- more than 54 hours but not more than 60 hours: two and a half times the daily allowance,
- more than 60 hours but not more than 78 hours: three times the daily allowance,
- more than 78 hours but not more than 84 hours: three and a half times the daily allowances, and so on.

Method of length calculation

The hours taken into account to calculate the daily allowance are:

- for air travel: including 2 hours before the flight departure and 2 hours after the flight arrival,
- for train travel: including 0,5 hour before train departure and 0,5 hour after the train arrival.

Expenses covered

The daily allowance is to be paid at a flat-rate amount and is considered to cover breakfast, two main meals and all other sundries, travel means as stipulated under point 1.5 and the cost of telecommunication tools.

Amount of the daily allowance

COMMISSION IMPLEMENTING DECISION

of 16 September 2011

on establishing a common fiscal marker for gas oils and kerosene

(notified under document C(2011) 6422)

(2011/544/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 95/60/EC of 27 November 1995 on fiscal marking of gas oils and kerosene ⁽¹⁾, and in particular Article 2(2) thereof,

Whereas:

- (1) For the proper functioning of the internal market, and in particular to prevent tax evasion, Directive 95/60/EC provides for a common marking system to identify gas oils, falling within CN code 2710 00 69, and kerosene, falling within CN code 2710 00 55, which have been released for consumption exempt from excise duty, or subject to a reduced excise duty rate. Since 2002, the first code has been split into CN codes 2710 19 41, 2710 19 45 and 2710 19 49, in order to take into account the sulphur content of gas oil, and the second code has been transposed as CN code 2710 19 25.
- (2) Commission Decision 2006/428/EC of 22 June 2006 establishing a common fiscal marker for gas oils and kerosene ⁽²⁾ established the product identified by the scientific name N-ethyl-N-[2-(1-isobutoxyethoxy)ethyl]-4-(phenylazo)aniline (Solvent Yellow 124) as the common fiscal marker provided for by Directive 95/60/EC, for the marking of gas oils and kerosene which have not borne duty at the full rate applicable to such energy products used as propellant.
- (3) Article 2 of Decision 2006/428/EC requires that Decision 2006/428/EC be reviewed by 31 December 2011 at the latest, in the light of technical developments in the field of marking systems and taking into account the need to counteract fraudulent use of mineral oils exempt from excise duty, or subject to a reduced excise duty rate.
- (4) As part of the review process, a consultation of the Member States was undertaken. Member States are generally satisfied that Solvent Yellow 124 has met its objectives of counteracting fraudulent use of mineral oils exempt from excise duty, or subject to a reduced excise duty rate.
- (5) No problems have been reported with regard to the health and environmental effects of the use of Solvent Yellow 124.
- (6) No alternative product, as a potential replacement for Solvent Yellow 124, meeting all the criteria under which Solvent Yellow 124 was selected as the common fiscal marker, has been presented or supported so far with the relevant scientific information.
- (7) Solvent Yellow 124 should continue to be used as the common fiscal marker within the meaning of Directive 95/60/EC and subject to the conditions set out in that Directive.
- (8) This Decision does not release any undertaking from its obligations under Article 102 of the Treaty.
- (9) The opportunities offered by future developments in science should be taken into account by setting a time limit for the review of this Decision.
- (10) However, a review of this Decision should be undertaken at any time prior to this time limit if Solvent Yellow 124 is found to be giving rise to increased tax evasion or to be causing additional health or environmental damage.
- (11) In the interests of clarity and transparency, Decision 2006/428/EC should be replaced.
- (12) The measures provided for in this Decision are in accordance with the opinion of the Committee on Excise Duty,

HAS ADOPTED THIS DECISION:

Article 1

The common fiscal marker provided for by Directive 95/60/EC for the marking of all gas oils falling within CN codes 2710 19 41, 2710 19 45, and 2710 19 49, as well as of kerosene falling within CN code 2710 19 25, shall be Solvent Yellow 124, as specified in the Annex to this Decision.

Member States shall fix a marking level of at least 6 mg and not more than 9 mg of marker per liter of mineral oil.

Article 2

This Decision shall be reviewed by 31 December 2016 at the latest, taking into account technical developments in the field of

⁽¹⁾ OJ L 291, 6.12.1995, p. 46.

⁽²⁾ OJ L 172, 24.6.2006, p. 15.

marking systems and the need to counteract fraudulent use of energy products exempt from excise duty or subject to a reduced excise duty rate.

Article 4

This Decision is addressed to the Member States.

An earlier review shall be undertaken if it is found that Solvent Yellow 124 is giving rise to increased tax evasion or causing additional health or environmental damage.
