REGULATIONS

COMMISSION REGULATION (EU) No 1210/2011

of 23 November 2011

amending Regulation (EU) No 1031/2010 in particular to determine the volume of greenhouse gas emission allowances to be auctioned prior to 2013

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2003/87/EC of the European Parliament and of the Council of 13 October 2003 establishing a scheme for greenhouse gas emission allowance trading within the Community and amending Council Directive 96/61/EC ⁽¹⁾, and in particular Articles 3d(3) and 10(4) thereof,

Whereas:

(1) Commission Regulation (EU) No 1031/2010 of 12 November 2010 on the timing, administration and other aspects of auctioning of greenhouse gas emission allowances pursuant to Directive 2003/87/EC of the European Parliament and of the Council establishing a scheme for greenhouse gas emission allowances trading within the Community ⁽²⁾ provides for determining the volumes of any allowances to be auctioned in 2011 and 2012 as soon as practicable following its adoption. The volumes so determined are to be listed in an Annex to that Regulation. The foremost objective in specifying the volume is to ensure a smooth transition from the second to the third trading period of the Union Emissions Trading Scheme that underpins the proper functioning of the secondary market.

(2) When determining the volumes to be auctioned in 2011 and 2012, due account should be taken of factors determining demand for and supply of allowances, notably hedging needs for compliance in the early years of the third trading period in particular from the power sector; the volume of allowances valid for the second trading period not needed for compliance in the said trading period and which is held largely by the industrial sectors; the share of those allowances that has been and is likely to be sold on the market in the second trading period; the volume of certified emission reductions and emission reduction units stemming from

emission reduction projects under the Clean Development Mechanism or under Joint Implementation provisions available for hedging or for surrendering by operators covered by the Union Emissions Trading Scheme; and the monetisation of allowances from the new entrant reserve for the third trading period for support of demonstration projects of carbon capture and sequestration and innovative renewable energy technologies (NER300) pursuant to Commission Decision 2010/670/EU of 3 November 2010 laying down criteria and measures for the financing of commercial demonstration projects that aim at the environmentally safe capture and geological storage of CO₂ as well as demonstration projects of innovative renewable energy technologies under the scheme for greenhouse gas emission allowance trading within the Community established by Directive 2003/87/EC of the European Parliament and of the Council ⁽³⁾. Although all these factors are subject to different degrees of uncertainty, it is important to determine the volume to be auctioned in 2012 in a timely manner.

(3) The assessment based on those factors concludes that no allowances valid for the third trading period should be auctioned in 2011.

(4) The auction calendars for the auctioning of allowances in 2012 should be determined such as to limit the impact of the auctions on the functioning of the secondary market, whilst ensuring that auctions are large enough to attract sufficient participation. There should be a smooth transition from the auctioning on transitional auction platforms to the auctioning on later auction platforms. Moreover, adjustment of a published auction calendar could be justified in certain additional precisely specified situations.

(5) Since delivery of the allowances to be auctioned can be expected to be enabled in time, there is no need for transitionally auctioning forwards and futures. The procurement of a transitional auction platform remains, however, desirable in order to mitigate risk inherent to the procurement of the auction platform to which the Regulation will apply in full. Given the importance of the full application of the Regulation, transitional auction

platforms should conduct auctions no longer than necessary. The appointment of a transitional auction platform should be facilitated by imposing fewer requirements on the conduct of its auctions, as was already foreseen for the auctioning of forwards and futures. In this way, the services to be procured can remain more aligned to services already existing in the market. In addition, the application of the national measures transposing Title III of Directive 2004/39/EC of the European Parliament and of the Council⁽¹⁾ to the auctions conducted by a transitional auction platform is not indispensable. Similarly, it would be disproportionate to require the authorisation of the transitional auction platform to be updated in accordance with the requirements of the Auctioning Regulation. However, in order to ensure effective market oversight, the provisions in the present Regulation relating to the prohibition of market abuse should apply to auctions conducted on a transitional auction platform from the moment the Member State concerned has implemented the relevant provisions in national law. This encourages a level playing field between candidate auction platforms without making the start of the auctions dependent on such implementation. This applies to the transitional auction platform to be procured by means of a joint procurement procedure, as well as to transitional auction platforms to be appointed by Member States that do not join the joint action and appoint their own auction platform.

- (6) It is not necessary to distribute the share of the costs of the auction monitor attributable to services procured by the Commission over the number of auction platforms.
- (7) For efficient and adequate preparation and conduct of the joint procurement procedure to appoint a common auction platform, it is desirable to have timely clarity on participation by Member States in that joint action. Therefore, in certain situations, it should be possible that a Member State that starts making use of the common auction platform at a later stage bears costs attributable to services provided by an auction platform not borne by Member States participating in the joint action from the start.
- (8) The appointment of the auctioneers and the auction monitor is of crucial importance for the proper conduct of the auctions and it would generally not be possible to conduct auctions without the conclusion and entry into force of the arrangements between the auctioneers and the auction monitor on the one side and the auction platforms on the other. These arrangements should be properly implemented, but the non-implementation, or a dispute on the implementation, should not in all situations lead to withholding allowances from the auctions.
- (9) The auction monitor is to be appointed following a joint procurement procedure between the Commission and the Member States. Although it is foreseen that all Member

States participate in this joint action from the outset, it is appropriate to provide rules in case a Member State joins only at a later stage. Moreover, Member States that have decided to appoint an auction platform of their own should be able to join the joint action for the sole purpose of making use of a common auction platform in the absence of listing of the auction platform of their own, without prejudice to their observer status in that joint action.

- (10) The risk of insider trading by withdrawing a bid should be mitigated. Where such behaviour is not covered by Directive 2003/6/EC of the European Parliament and of the Council⁽²⁾, the relevant provisions in the Auctioning Regulation should apply.
- (11) A limited number of technical clarifications and corrections to the Auctioning Regulation should be provided for in this Amendment.
- (12) Regulation (EU) No 1031/2010 should therefore be amended accordingly.
- (13) In order to ensure predictable and timely auctions, this Regulation should enter into force as a matter of urgency.
- (14) The measures provided for in this Regulation are in accordance with the opinion of the Climate Change Committee,

HAS ADOPTED THIS REGULATION:

The foregoing shall also apply where the appointment of the auction monitor has been delayed until no later than 1 January 2013, or until no later than 1 July 2013 where the first procurement procedure does not result in an appointment of the auction monitor and the conduct of a second procurement procedure is necessary.’;

(b) the following paragraph is added:

(18) Article 26 is amended as follows:

- (b) the third paragraph is replaced by the following:

'3. Without prejudice to paragraphs 4 and 5, Article 16(2) and (3), Articles 17 and 19 to 21, Articles 36 to 43, Articles 54 to 56, Articles 60(3) and 63(4), and Article 64 shall not apply with respect to the auctions conducted by an auction platform appointed pursuant to Article 26(2) or 30(2).

4. 5. Paragraph 3 shall not preclude Article 36(2) and Articles 37 to 43 from being applicable with respect to the auctions of allowances in the form of two-day spot or five-day futures that are not a financial instrument within the meaning of Article 1(3) of Directive 2003/6/EC conducted by an auction platform appointed pursuant to Article 26(2) or 30(2) where the Member State where the auction platform is established has implemented Article 43 of this Regulation or where such implementation is not necessary for the application of Article 43 of this Regulation.';

5. Any Member State not participating in the joint action as provided in Article 26(1) and (2) shall select its own auction platform appointed pursuant to paragraphs 1 and 2 of this Article on the basis of a selection procedure compliant with Union and national procurement law where a public procurement process is required by either Union or national law, respectively. 4. With regard to the information sent by OLAF to the national judicial authorities and previously notified to the Supervisory Committee, the Committee shall examine compliance with fundamental rights and procedural guarantees during the investigation.

5. The Supervisory Committee shall ensure that the information and documents provided by OLAF are treated confidentially.

6. The Supervisory Committee shall exercise its functions and powers in accordance with the provisions of Title III of the current Rules of Procedure.

TITLE II

Article 5

Chairmanship

1. The Supervisory Committee shall elect a chairman from among its members by a majority of its members.

2. The chairman shall be elected for a term of 1 year and may be re-elected. The election shall be held at the last meeting chaired by the outgoing chairman.

3. Where the chairman is prevented for any reason from performing his duties over a long period, he shall inform the Committee members of his situation. In that event, a new chairman shall be elected by the procedure set out in paragraph 1.

4. The chairman shall represent the Supervisory Committee and chair its meetings. He shall ensure that its proceedings are properly conducted. 1. The Supervisory Committee shall exercise its powers when meeting as a body. It shall meet at least 10 times per year. It shall be quorate only if the majority of its members are present. It shall also meet on the initiative of the chairman or at the request of a majority of its members.

2. Other than in cases which the chairman considers urgent, notices of meetings shall be sent in sufficient time to reach the recipients at least 1 week before the meeting in question. The notice shall include the draft agenda and the documents required for the meeting, unless the nature of the documents is such that they cannot be attached. In either of those cases, he shall forward a draft decision to the Committee members. If the members raise no objections to the draft decision within a time limit to be specified by the chairman, namely 5 working days following receipt of the proposal, the proposal shall be deemed to have been adopted. If, within 5 working days of receipt of the draft decision, a member requests that it be discussed by the Committee, the written procedure shall be suspended.

Article 8

Rapporteurs

1. To prepare for its discussions or proceedings, the Supervisory Committee, on a proposal by the chairman, may appoint one or more rapporteurs from among its members.

2. If the matter to be dealt with is urgent, the chairman may make the appointment on his own initiative. In that event, he shall inform the Committee members forthwith.

3. The rapporteur shall consider matters entrusted to his responsibility and submit a draft report to the Supervisory Committee. Where necessary, he shall be assisted by the Committee Secretariat.

4. Once the minutes have been adopted, the chairman and the person responsible for the Secretariat shall sign them and they shall be archived in the records of the Committee Secretariat. The minutes may be made public if the Committee so decides.

3. In any case, the Head of the Secretariat shall inform the Supervisory Committee about the candidates for membership of the Secretariat. 4. The Head of the Secretariat shall report to the chairman of the Supervisory Committee. He coordinates the Secretariat's work and is responsible for the administrative and budgetary management of the Committee and its Secretariat.

The Supervisory Committee shall appoint from its members those who are to participate in the process of selecting the Head of the Secretariat. 7. The Secretariat shall contribute to the efficient performance of the tasks assigned to the Supervisory Committee with a view to reinforcing OLAF's independence, in particular with regard to its monitoring function. It shall in that respect assist the chairman in the preparation for and the conduct of meetings. It shall draw up a draft agenda for each meeting, draw up draft minutes of meetings, supply Committee members with information and documents relating to every sphere of their activities, assist, under the chairman's responsibility, in the drafting of texts, and assist Committee members, especially when they act as rapporteurs. For that purpose, members of the Secretariat shall attend meetings as necessary with rapporteurs in order to carry out those tasks.

EXERCISE OF POWERS

Article 12

Article 13

Action to be taken on information supplied by the Director-General

1. The Supervisory Committee, after examining the programme of activities forwarded to it by the Director-

General of OLAF each year, may deliver an opinion setting out relevant comments on any area that falls within its remit.

It shall also study the information sent to it regularly by the Director-General concerning OLAF's activities, and shall deliver opinions on that information in conformity with the second subparagraph of Article 11(1) of Regulation (EC) No 1073/1999.

2. In accordance with Article 11(7) of Regulation (EC) No 1073/1999, the Supervisory Committee shall be kept regularly informed of OLAF's investigations, the results thereof and the action taken on them. The Committee may make appropriate comments without, however, interfering with the conduct of investigations in progress.

3. The Supervisory Committee shall examine the reasons why it has not been possible to wind up an investigation that has been in progress for more than 9 months and shall also examine the expected time for completion.

4. The Committee shall examine cases where an institution, body, office or agency has failed to act on the recommendations made by the Director-General. It shall at the same time consider situations in which the work of OLAF investigators has been obstructed, delayed or prevented, with a view to taking appropriate action.

5. Cases requiring information to be forwarded to the judicial authorities of a Member State shall be examined on the basis of the information provided by the Director-General of OLAF and in accordance with Regulation (EC) No 1073/1999. Follow-up shall also be carried out on this basis.

In particular, before the information is sent, the Supervisory Committee shall request access to the investigations in question in order to ascertain whether fundamental rights and procedural guarantees are being complied with. Once the Secretariat has obtained access to the documents within a time period guaranteeing compliance with this function, the rapporteurs appointed to examine the cases shall prepare their presentation at the Committee's plenary session. The responsible staff of OLAF may be invited to this session in order to obtain full information.

The Committee shall appoint rapporteurs to examine these investigations and, if necessary, issue an opinion.

2. Concerning the information received in accordance with Article 22a of the EU Staff Regulations, the Chairman of the Committee shall report to the Committee so that the information provided can be studied. Once this preliminary analysis has been conducted, the Committee shall, if necessary, send the information to the relevant service.

Article 15

Activity report

1. In accordance with Article 11(8) of Regulation (EC) No 1073/1999, the Supervisory Committee shall adopt at least one report on its activities per year and send it to the institutions. The report shall cover the activities pursued in the exercise of the Committee's powers and contain an assessment of OLAF's activities and the implementation of its annual programme.

2. The report shall be submitted to the Supervisory Committee by one or more rapporteurs.

3. It may include an annex listing the opinions delivered by the Committee.

It may also be accompanied by any reports which the Committee has submitted, pursuant to Article 11(8) of Regulation (EC) No 1073/1999, to the European Parliament, the Council, the Commission and the Court of Auditors on the results of OLAF's investigations and the action taken thereon.

4. The Supervisory Committee shall take the necessary steps to have its activity report published in the *Official Journal of the European Union*, after sending it to the European Parliament, the Council and the Commission.

Article 16

Opinion procedure for appointment of the Director-General

1. The Supervisory Committee shall examine the applications for the post of Director-General of OLAF and shall participate in the selection process through the members appointed for that purpose at the plenary session. After discussing the results of the selection boards, the Committee shall issue an opinion explaining the criteria used by it to assess the candidates' merits and suitability.

The opinion shall contain the Committee's opinion on the candidates as provided for by Article 12(2) of Regulation (EC) No 1073/1999 and shall be sent to the institutions.

2. If no candidate has been given a favourable opinion, the chairman shall inform the Commission that the Committee has voted against the applications submitted.

2. The Secretariat shall draw up annual budget proposals for the operating purposes of the Supervisory Committee, which shall be forwarded to the Director-General after they have been approved by the Committee.

Subscriptions to the *Official Journal of the European Union*, which is published in the official languages of the European Union, are available for 22 language versions. The Official Journal comprises two series, L (Legislation) and C (Information and Notices).

A separate subscription must be taken out for each language version.

In accordance with Council Regulation (EC) No 920/2005, published in Official Journal L 156 of 18 June 2005, the institutions of the European Union are temporarily not bound by the obligation to draft all acts in Irish and publish them in that language. Irish editions of the Official Journal are therefore sold separately.

Subscriptions to the Supplement to the Official Journal (S Series — tendering procedures for public contracts) cover all 23 official language versions on a single multilingual DVD.

On request, subscribers to the *Official Journal of the European Union* can receive the various Annexes to the Official Journal. Subscribers are informed of the publication of Annexes by notices inserted in the *Official Journal of the European Union*.
