REGULATIONS

COMMISSION IMPLEMENTING REGULATION (EU) No 760/2012

of 21 August 2012

amending Regulation (EC) No 595/2004 as regards the intensity of controls carried out by Member States in the framework of the milk quota system

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation) ⁽¹⁾, and in particular Article 85 in conjunction with Article 4 thereof,

Whereas:

(1) Article 22 of Commission Regulation (EC) No 595/2004 of 30 March 2004 laying down detailed rules for applying Council Regulation (EC) No 1788/2003 establishing a levy in the milk and milk products sector ⁽²⁾, provides for the intensity of controls which are to be performed by Member States on milk delivered under the quota system. If the total adjusted deliveries have been less than 95 % of the deliveries part of the national quota in each of the three preceding 12-month periods, the control intensity on deliveries may be reduced from 2 % to 1 % of the producers and from 40 % to 20 % of the quantity of milk declared after adjustment.

(2) The administrative complexity of those controls is relatively high and should be simplified.

(3) Member States have gained years of experience with those controls and use a general control plan on the basis of risk analyses.

(4) The results of the audits of the Commission in the Member States show that in almost all cases no corrections were required.

(5) In accordance with Annex IX to Regulation (EC) No 1234/2007, the milk quota system ends in 2015.

(6) It is therefore appropriate to fix the intensity of the controls on deliveries in all Member States at 1 % of the producers and at 20 % of the quantity of milk delivered declared after adjustment and to double the number of controls only in case of significant irregularities or discrepancies.

(7) Regulation (EC) No 595/2004 should therefore be amended accordingly.

(8) As the proposed amendments intend to decrease the intensity of the controls and thus to alleviate the administrative burden for Member States, they should apply in respect of the current 12-month period which has started on 1 April 2012. It is therefore necessary that this Regulation apply as from that date.

(9) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for the Common Organisation of Agricultural Markets,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EC) No 595/2004 is amended as follows:

(1) Article 19(3) is replaced by the following:

‘3. Controls shall be deemed to be completed once an inspection report of the controls is available.

⁽¹⁾ OJ L 299, 16.11.2007, p. 1.

⁽²⁾ OJ L 94, 31.3.2004, p. 22.

All inspection reports shall be completed no later than 18 months after the end of the 12-month period concerned.

However, where the controls provided for in Article 20 are combined with other controls, the time limits laid down for other controls and the establishment of the respective inspection reports shall be respected.;

(2) Article 22 is amended as follows:

(a) paragraph 1 is replaced by the following:

‘1. The controls referred to in Article 21(1) shall cover at least:

- (a) 1 % of the producers for each 12-month period;
- (b) 20 % of the quantity of milk declared after adjustment for the period concerned; and

(c) a representative sample of transport of milk between selected producers and purchasers.

The transport controls referred to in point (c) shall be carried out in particular at unloading at the dairies.’

(b) A new paragraph 4 is added:

‘4. If a control reveals significant irregularities or discrepancies in a region or part of a region, the competent authority shall double the number of controls during the 12-month period concerned and the following 12-month period in that region or part of that region.’

Article 2

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Union*.

It shall apply from 1 April 2012.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 21 August 2012.

DECISIONS

COMMISSION IMPLEMENTING DECISION

of 20 August 2012

amending Decision 2002/994/EC concerning certain protective measures with regard to the products of animal origin imported from China*(notified under document C(2012) 5753)***(Text with EEA relevance)**

(2012/482/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 97/78/EC of 18 December 1997 laying down the principles governing the organisation of veterinary checks on products entering the Community from third countries ⁽¹⁾, and in particular Article 22(6) thereof,

Whereas:

- (1) Commission Decision 2002/994/EC of 20 December 2002 concerning certain protective measures with regard to the products of animal origin imported from China ⁽²⁾ applies to all products of animal origin imported from China and intended for human consumption or for animal feed.
- (2) Under Article 3 of that Decision, Member States are to authorise imports of products listed in Part II of the Annex to that Decision which are accompanied by a declaration of the Chinese competent authority stating that each consignment has been subjected before dispatch to a chemical test in order to ensure that the products concerned do not present a danger to human health. That test is to be carried out, in particular, with a view to detecting the presence of chloramphenicol and nitrofurans and its metabolites.
- (3) The Chinese competent authority has provided an appropriate residue monitoring plan for honey intended for export to the Union. That plan has been approved by Commission Decision 2011/163/EU of 16 March 2011 on the approval of plans submitted by third countries in accordance with Article 29 of Council Directive 96/23/EC ⁽³⁾.

- (4) Honey and royal jelly are currently included in the list set out in Part II of the Annex to Decision 2002/994/EC. Propolis and bee pollen are products that also originate from apiculture and, given the specificities of the production process for those animal products, the risks to animal or public health posed by them is minimal. In addition, appropriate safety guarantees for those products are provided by the residue monitoring plan for honey intended for export submitted by China and approved by Decision 2011/163/EU. Propolis and bee pollen should therefore be included in the list of products set out in Part II of the Annex to Decision 2002/994/EC and that Decision should be amended accordingly.

- (5) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

In Part II of the Annex to Decision 2002/994/EC, the following indent is added:

‘— propolis and bee pollen’.

(2012/483/EU)

THE EUROPEAN COMMISSION,

Having regard to Directive 98/8/EC of the European Parliament and of the Council of 16 February 1998 concerning the placing of biocidal products on the market ⁽¹⁾, and in particular Article 16(2) thereof,

- (2) For a number of substance/product-type combinations included in that list, either all participants have discontinued their participation from the review programme, or no complete dossier was received within the time period specified in Article 9 and Article 12(3) of Regulation (EC) No 1451/2007 by the Member State designated as rapporteur for the evaluation.
- (3) Consequently, and pursuant to Articles 11(2), 12(1) and 13(5) of Regulation (EC) No 1451/2007, the Commission informed the Member States accordingly. That information was also made public by electronic means on 17 January 2011.

- (5) A new deadline should therefore be established for the submission of dossiers for those substances and product-types in accordance with the second subparagraph of Article 12(3) of that Regulation.
