Part of this appropriation is intended to foster common approaches to key global challenges, such as energy security and resource scarcity, by pooling resources and fostering the exchange of best practices for the advancement of research and development in the field of energy. Measures will aim at improving the efficacy of actions by the international community and will be complementary to existing mechanisms. The appropriations will be used to fund innovative ventures between European and third countries that are beyond the scope of a single country to undertake and beyond the scope of current tools available under existing legal instruments. In implementing this action the Commission will ensure a balanced distribution of subsidies. It will help actors at a global level to engage in research partnerships in order to foster innovation in the field of secure, clean and efficient energy.

Remarks

Environmental research within the Seventh Framework Programme will be implemented through the 'Environment (including climate change)' theme. The objective is to promote sustainable management of the natural and human environment and its resources by advancing our knowledge of the interactions between the biosphere, ecosystems and human activities, and developing new technologies, tools and services, in order to address in an integrated way global environmental issues. Emphasis will be put on prediction of climate, ecological, earth and ocean systems changes and on tools and technologies, for monitoring, prevention and mitigation of environmental pressures and risks including on human health, and for the sustainability of the natural and man-made environment.

Research on this theme will contribute to the implementation of international commitments and initiatives such as Global Earth Observation (GEO). In addition, it will support the research needs arising from the existing and future Union legislation and policies, associated thematic strategies and the action plans on environmental technologies and on environment and health. Research will also contribute technological developments that will improve the market positioning of European enterprises, in particular of small and medium-sized enterprises, in areas such as environmental technologies.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. Remarks

For the Seventh Framework Programme for the period 2007 to 2013, an integrated approach has been proposed which links all transport modes (aeronautics, road, rail, waterborne), addresses the socio-economic and technological dimensions of research and knowledge development, and encapsulates both innovation and the policy framework. It is in line with the White Paper on transport and the updated versions of the strategic research agendas of the four technology platforms in the field of transport. Based on technological advances, the general objective is to develop integrated, 'greener', 'smarter' and safer pan-European transport systems for the benefit of citizens and society, respecting the environment and natural resources and securing and further developing the competitiveness and the leading role attained by the European industries in the global market.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

The Clean Sky Joint Undertaking shall contribute to the implementation of the Seventh Framework Programme, and in particular the 'Transport (including Aeronautics)' theme of the specific 'Cooperation' programme.

The objectives of the Clean Sky Joint Undertaking shall be the following:

— accelerating in the Union the development, validation and demonstration of clean air transport technologies for the earliest possible deployment,

— ensuring coherent implementation of European research efforts aiming at environmental improvements in the field of air transport,

— creating a radically innovative air transport system based on the integration of advanced technologies and full scale demonstrators, with the target of reducing the environmental impact of air transport through significant reduction of noise and gaseous emissions, and improvement of the fuel economy of aircrafts,

— accelerating the generation of new knowledge, innovation and the uptake of research proving the relevant technologies and fully integrated system of systems, in the appropriate operational environment, leading to strengthened industrial competitiveness.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

The aim of actions carried out in this area is to mobilise, as part of a coherent effort, the wealth and diversity of research capacities in the economic, political, historical, social and human sciences that are necessary to understand and manage issues relating to the emergence of a knowledge-based society and new forms of interpersonal relations and relations between individuals and institutions.

Part of the actions should analyse, from a historical perspective, the legal, social, economic and political issues relating to the development of the European integration process (the constitutional cultures and the legal traditions of the Member States and the Union, the development of a European civil society, national economic policies and European economic governance, the national political cultures and Europe).

Part of the appropriations should be used to carry out research on the scope, scale and composition of volunteer work in the Union.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

The objective of the risk-sharing finance facility (RSFF) is to foster private investment in research by improving access to debt financing for participants in large European research projects. RSFF will enable the European Investment Bank to expand, directly and indirectly (via its network of intermediary banks), its portfolio of loans to participants in such projects.

RSFF will contribute to the implementation of the Europe 2020 Strategy, in particular to the achievement of the 3 % investment in research objective, by helping overcome market deficiencies, increasing the total amount of funds available for research and diversifying its sources.

In line with the outcome of the mid-term review of RSFF, the Commission is encouraged to test new risk-sharing models with the EIB Group, based on a portfolio first loss piece approach, allowing more risky research and innovation intensive projects to be supported. A dedicated instrument should also be introduced within RSFF, based on the same risk-sharing approach in order to support research-intensive and innovative SMEs and small mid-caps investing in research, development and innovation. This should facilitate access to finance to a key target group.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

The general aim of the activities carried out as part of the specific 'Ideas' programme, through the creation of the European Research Council, is to identify the best research teams in Europe and to stimulate research at the frontiers of knowledge by funding high-risk and multi-disciplinary projects evaluated according to the sole criteria of excellence as judged by peers at European level, while encouraging in particular the creation of networks among research groups in different countries in order to promote the development of a European scientific community.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

This appropriation will also cover expenditure corresponding to revenue giving rise to the provision of additional appropriations from (non-European Economic Area) third parties or third countries participating in projects in the field of research and technological development.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 0 1 3, 6 0 1 5, 6 0 1 6, 6 0 3 1 and 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations.

Remarks

The objective of the specific activities in favour of European small and medium-sized enterprises, carried out in order to support European competitiveness and enterprise and innovation policy, is to help them boost their technological capacities in conventional or new fields and develop their ability to operate at European and international level. These activities will supplement research in priority thematic areas. They should focus on ideas that can ultimately be applied to the development of innovative products and services that benefit SMEs.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

In order to help researchers and institutions of the regions eligible for financing by the Structural Funds under the Convergence objective and outermost regions in the Union to contribute to the overall European research effort, while taking advantage of the knowledge and experience existing in other regions of Europe, this action aims at establishing the conditions that will allow them to exploit their potential and will help to fully realise the European Research Area in the enlarged Union.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. Remarks

The general objective of the international cooperation activities carried out under the 'Capacities' heading of the Seventh Framework Programme is to help create a strong and coherent science and technology policy of the Union by developing strategic partnerships with third countries and by addressing the specific problems of third countries as well as global ones. These activities will involve the following groups of third countries: the candidate countries, associated and industrialised countries, as well as international cooperation partner countries (Asia, Latin America, Eastern Europe and Central Asia, African, Caribbean and Pacific countries, Mediterranean partner countries and countries in the western Balkans).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Part of this appropriation is intended to foster common approaches to key global challenges, such as an ICT strategy that not only competes with rapidly emerging ICT markets, e.g. in Asia, but also sets standards for global ICT policy-making in the interest of European values, by pooling resources and fostering the exchange of best practices for the advancement of research, development and innovation in the field of ICT. Measures will aim at improving the efficacy of actions by the international community and be complementary to existing mechanisms and successful working relationships. Part of this appropriation is also intended to foster common approaches to key global challenges, such as energy security and resource scarcity, by pooling resources and fostering the exchange of best practices for the advancement of research and development in the field of energy. The appropriations will be used to fund innovative ventures between European and third countries that are beyond the scope of a single country to undertake and beyond the scope of current tools available under existing legal instruments. In implementing this action the Commission will ensure a balanced distribution of subsidies. It will help actors at a global level to engage in research partnerships in order to foster innovation in the field of ICT, prepare the Union and its partners for a leading role in setting future ICT standards and foster innovation in the field of secure, clean and efficient energy.

Remarks

The objective of the risk-sharing finance facility (RSFF) is to foster private investment in research by improving access to debt financing for participants in European research infrastructures. RSFF will enable the European Investment Bank to expand, directly and indirectly (via its network of intermediary banks), its portfolio of loans to participants in such infrastructures.

RSFF will contribute to the implementation of the Europe 2020 Strategy, in particular to the achievement of the 3 % investment in research objective, by helping overcome market deficiencies, increasing the total amount of funds available for research and diversifying its sources.

In line with the outcome of the mid-term review of the RSFF, the Commission is encouraged to test new risk-sharing models with the EIB Group, based on a portfolio first-loss piece approach, facilitating access to debt financing for strategic Union research infrastructure

Remarks

Increasing investment in research and development up to the 3 % objective and improving its effectiveness is a top priority under the Europe 2020 Strategy. Thus, the development of a coherent mix of policies to leverage public and private research investments is a major concern for public authorities. Actions under this heading will support the development of effective and coherent research policies at regional, national and Union level, through the provision of structured information, indicators and analyses, and through actions aimed at coordinating research policies, in particular application of the open method of coordination to research policy.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. Remarks

Fusion offers the prospect of an almost limitless supply of clean energy, with ITER being the crucial next step in the progress towards this ultimate goal. The realisation of the ITER project therefore lies at the heart of the present Union strategy. It must be accompanied by a strong and focused European research and development programme to prepare for the exploitation of ITER and to develop the technologies and knowledge base that will be needed during ITER operation and beyond.

Remarks

Fusion offers the prospect of an almost limitless supply of clean energy, with ITER being the crucial next step in the progress towards this ultimate goal. To this end, the European Organisation for ITER and the Development of Fusion Energy, in the form of a Joint Undertaking was established. This European Joint Undertaking for ITER and the Development of Fusion Energy (Fusion for Energy) has the following tasks:

(a) to provide the contribution of Euratom to the ITER International Fusion Energy Organization;

(b) to provide the contribution of Euratom to broader approach activities with Japan for the rapid realisation of fusion energy;

(c) to implement a programme of activities in preparation for the construction of a demonstration fusion reactor and related facilities including the International Fusion Materials Irradiation Facility (IFMIF).

This article is intended to cover earlier commitments.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The contributions from EFTA States relate exclusively to their participation in the non-nuclear activities of the framework programme.

This article is also intended to cover other annual actions outside the framework programme.

Remarks

This appropriation is intended to cover expenditure on a set of measures designed to:

— carry out the Union's policy on electronic communication networks and services with a view to launching initiatives designed to meet the challenges in this sector;

— promote and monitor the implementation of the regulatory framework for communication services (including the mechanism provided for in Article 7 of Directive 2002/21/EC of the European Parliament and of the Council of 7 March 2002 on a common regulatory framework for electronic communications networks and services (Framework Directive) (OJ L 108, 24.4.2002, p. 33);

— facilitate the transition to the information society, in relation with electronic communications networks and services, particularly as a follow-up to the Lisbon summit;

— enable third countries to pursue a policy of opening up their markets to the same extent as in the Union.

The specific objectives of these measures are:

— the formulation of a Union policy and strategy in the field of communication services and networks (including convergence between electronic communications and audiovisual environments, aspects related to the Internet, etc.);

— the development of radio spectrum policy in the Union;

— the development of activities in the mobile and satellite communications sector, particularly as regards frequencies;

— an analysis of the situation and the legislation adopted in these areas;

— the coordination of these policies and initiatives as regards the international environment (e.g. WRC, CEPT, etc.);

— the development of activities and initiatives in relation to the information society.

These measures consist, inter alia, of preparing analyses and progress reports, consulting stakeholders and the public, preparing legislative proposals and monitoring the application of legislation, and translations of notifications and consultations under Article 7 of the Framework Directive for electronic communications.

CHAPTER 09 02 — REGULATORY FRAMEWORK FOR THE DIGITAL AGENDA *(cont'd)*

09 02 01 *(cont'd)*

This appropriation is intended to cover, in particular, contracts for analysis and expert reports, specific studies, evaluation reports, coordination activities, grants and the part-financing of certain measures.

Legal basis

Tasks resulting from the Commission's prerogatives at institutional level pursuant to Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This action is geared, in a balanced manner, to the implementation of operational and technical measures designed to promote safer use of the Internet and other communication technologies, particularly for children, and to fight against illegal content and harmful conduct online. In line with this objective, the programme will focus on practical help for the end user and in particular children, parents, carers, teachers and educators.

The specific objectives of this programme are:

— tackling illegal content and harmful conduct online by supporting actions aiming at reducing the amount of illegal content circulated online and dealing adequately with harmful conduct online, with particular focus on online distribution of child sexual abuse material, grooming and bullying,

— promoting a safer online environment by bringing together stakeholders to find ways to promote a safer online environment and to protect children from content and conduct that may be harmful for them. The aim is to encourage stakeholders to cooperate, take responsibility and develop and implement systems of self-regulation and foster privacy-by-design,

— ensuring public awareness by providing contact points where the public and in particular children, parents, carers, teachers and educators can be informed about opportunities and risks related to the use of online technologies and means of staying safe online,

— establishing a knowledge base in order to set up and continue to develop a base for dealing adequately both with existing and emerging uses, risks and consequences, and mapping both quantitative and qualitative aspects in this context. The acquired knowledge will feed into the implementation of the proposed programme as well as into the design of adequate and proportional actions for ensuring online safety for all users.

The programme will seek to involve and bring together the different stakeholders whose cooperation is essential, but who do not necessarily always come together unless the appropriate structures are put in place.

Those stakeholders include content providers, Internet service providers, mobile network operators, regulators, standards bodies, industry self-regulatory bodies, national, regional and local authorities responsible for industry, education, consumer protection, families, law enforcement, children's rights and child welfare and non-governmental organisations active in consumer protection, families, children's rights and child welfare.

CHAPTER 09 02 — REGULATORY FRAMEWORK FOR THE DIGITAL AGENDA *(cont'd)*

09 02 02 *(cont'd)*

09 02 02 01 *(cont'd)*

These measures will be implemented by means of the following shared-cost actions:

— pilot projects and best practice actions; ad-hoc projects in areas relevant to the programme, including projects demonstrating best practice or involving innovative uses of existing technology, especially for data protection purposes and the protection of fundamental rights,

— networks and national actions bringing together a variety of stakeholders to ensure action throughout Europe and to facilitate coordination activities and the transfer of knowledge,

— Europe-wide investigation carried out on a comparable basis into the way adults and children use online technologies, the resulting risks for children and the effects of harmful practices on children, and behavioural and psychological aspects with emphasis on child sexual abuse related to the use of online technologies, investigation on upcoming risk situations due to transforming behaviours or technological developments, etc.

Accompanying measures will contribute to the implementation of the programme or the preparation of future activities. Those measures will include:

— benchmarking and opinion surveys to produce reliable data on safer use of online technologies for all Member States collected through comparable methodologies,

— technical assessment of technologies such as filtering designed to promote safer use of the Internet and new online technologies;

— studies in support of the programme and its actions,

— exchange of information through conferences, seminars, workshops or other meetings and the management of clustered activities,

— dissemination, information and communication activities.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Part of the appropriation under this budget item will be used to support projects for analysing and spreading good practices throughout the Union and reflecting on a framework for the assessment of media literacy levels and activities. Particular attention may be given to projects which analyse media representations and media values, encourage the production and distribution of media literacy related content, stimulate the use of media in order to improve participation in social and community life and concentrate on the implementation of media literacy initiatives bridging the media industry and the education world. Beneficiaries may be organisations from the public and private sectors which have expertise and European experience in media literacy issues.

Remarks

This appropriation is intended to cover the staff and administrative expenditure of the European Network and Information Security Agency (Titles 1 and 2).

The Agency was set up to enhance the capability of the Union, the Member States and, as a consequence, the business community to prevent, address and respond to network and information security problems. In order to achieve this goal, the Agency will be developing a high level of expertise and stimulating broad cooperation between actors from the public and private sectors.

The Agency's aim is to provide assistance and to deliver advice to the Commission and the Member States on issues related to network and information security falling within its competencies and to assist the Commission, where called upon, in the technical preparatory work for updating and developing Union legislation in the field of network and information security.

Remarks

This appropriation is intended for the implementation of the Media Pluralism Tool. The tool was developed through an independent study at the request of the European Commission: 'Indicators for Media Pluralism in the Member States — Towards a Risk-Based Approach'. It is a monitoring tool for assessing risks for media pluralism in Member States and identifying threats to such pluralism based on a set of indicators, covering pertinent legal, economic and socio-cultural considerations.

The specific objective of this action is to launch a further study that update these indicators in light of the growing importance of the internet and that applies the indicators in practice for obtaining a broad understanding of the risks to media pluralism in Member States. The assessment of the risks is best carried out in a transparent manner in consultation with stakeholders.

Remarks

The ICT PSP is one of the three specific programmes under the Competitiveness and Innovation Framework Programme (CIP).

Actions will be stepped up at Union level for stimulating wider uptake of information and communication technologies (ICTs). Synergistic actions at Union level aim to reduce uncertainties and the risks of duplication by sharing and replicating experiences and lessons learned and foster the internal market dimension of services triggered by ICTs promoting interoperability and combating fragmentation. They aim also to stimulate the regulatory and technological environments necessary to promote innovation and to overcome potential barriers (e.g. cultural, linguistic, technical, legal and disability- or 'dys' condition-related).

COMMISSION

TITLE 09 — COMMUNICATIONS NETWORKS, CONTENT AND TECHNOLOGY

CHAPTER 09 03 — INFORMATION AND COMMUNICATION TECHNOLOGIES TAKE-UP *(cont'd)*

09 03 01 *(cont'd)*

As indicated in the legal basis, the ICT PSP shall provide for the following actions:

(a) development of the single European information space and strengthening of the internal market for ICT products and services;

(b) stimulation of innovation through a wider adoption of and investment in ICTs;

(c) development of an inclusive information society and more efficient and effective services in areas of public interest, and improvement of the quality of life, particularly for persons with disabilities and persons suffering from 'dys' conditions (dyslexia, dyspraxia, dysphasia, dyscalculia, etc.).

This will be done in particular by supporting the development of ICT-based services and the development and use of digital content in areas of public interest, including in the areas of ICT for health and inclusion; ICT for government and governance; ICT for energy efficiency, smart mobility and environment; digital libraries, and publicly accessible online Books in Print catalogues, better exploitation of public sector information, education and learning.

Part of ICT PSP appropriations in the CIP may be used to ensure testing, and support deployment across the Union, of the next-generation 112, innovative services for interoperable emergency services and 112 for all citizens, enabling quicker, more efficient reactions and life-saving, inter alia, through remodelling the traditional technical architecture for emergency calling and lowering its cost and complexity, with the ultimate aim of providing an optimum response to 112 calls made by all citizens, including users with disabilities. Furthermore, dissemination, information and education actions should promote the knowledge and appropriate use of '112'. In addition, an SMS SOS service should be developed and tested to enable people with disabilities to send requests for help to the emergency services.

The ICT PSP in the CIP will stimulate wider uptake of ICT for improved services. It will also ensure that European businesses and in particular small and medium-sized enterprises can benefit from the new opportunities brought by the increasing demand for these ICT-based services. As indicated in the CIP legal basis, the support to the development and use of digital content is fully integrated in the ICT PSP from 2009 on. During a transition phase for 2007 and 2008, this has been done under the eContent plus programme (through its own legal basis).

The main part of the support will go to a limited number of high-impact pilot projects and best practice actions per year. Accompanying measures, such as thematic networks bringing together a variety of stakeholders around specific objectives, will also be launched. They will be complemented by the monitoring of the European information society, by measures providing the background knowledge that is needed for policy decision-making, and by actions for promoting and raising awareness of the benefits brought by ICT to citizens, businesses (in particular small and medium-sized enterprises) or public organisations.

The ICT PSP in the CIP should contribute to testing the design of new financial instruments such as the Project Bond Initiative in the area of ICT, and in particular high-speed broadband. It should contribute to the preparation of new financial instruments for the forthcoming multiannual financial framework 2014-2020. It should in particular, test how private and public long-term investors can invest in favour of the deployment of ICT broadband infrastructure. The Commission is invited to work with the EIB Group as well as other long-term investors to develop innovative ways of attracting funding for infrastructure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Remarks

The objective of the Seventh Framework Programme of the European Community for research, technological development and demonstration activities (2007-2013) and the 'Information and Communication Technologies' theme of the specific 'Cooperation' programme is to improve the competitiveness of European industry and to enable Europe to master and shape the future developments in ICTs in accordance with a long-term European ICT strategy so that the demands of its society and economy are met and European standards help shape the global ICT developments rather than being overtaken by other growing global markets.

Activities will strengthen Europe's scientific and technology base and ensure its global leadership in ICTs, help drive and stimulate innovation through ICT use and ensure that ICT progress is rapidly transformed into benefits for Europe's citizens, businesses, industry and governments.

The ICT theme prioritises strategic research around key technology pillars, ensures end-to-end integration of technologies and provides the knowledge and the means to develop a wide range of innovative ICT applications.

The activities leverage industrial and technological advances in the ICT sector and improve the competitive edge of important ICT-intensive sectors — both through innovative high-value ICT-based products and services and from new or improved organisational processes in businesses and administrations alike. The ICT theme also supports other policies of the Union by mobilising ICTs to meet public and societal demands.

Activities cover collaboration and exchange of best practices with a view to setting common standards for the Union that are compatible with, or set, a global standard, networking actions and national programme coordination initiatives. This appropriation is also intended to cover the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programmes and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Part of these appropriations is intended to foster common approaches to key global challenges, such as an ICT strategy that is not only able to compete with rapidly emerging ICT markets (e.g. in Asia), but that can also set standards for global ICT policy-making in the interest of European values, by pooling resources and fostering the exchange of best practices for the advancement of research, development and innovation in the field of ICT. Measures will aim at improving the efficacy of actions by the international community and will be complementary to existing mechanisms and successful working relationships. The appropriations will be used to fund innovative ventures between European and third countries. The scope of such ventures will go beyond what could be undertaken by a single country and will benefit both the Union and its partners in preparing their leading role for setting future ICT standards. In implementing this action, the Commission will ensure a balanced distribution of subsidies. It will help actors at a global level to engage in research partnerships in order to foster innovation in the field of ICT.

Remarks

The ARTEMIS Joint Undertaking shall contribute to the implementation of the Seventh Framework Programme of the European Community for research, technological development and demonstration activities (2007-2013) and the 'Information and Communication Technologies' theme of the specific 'Cooperation' programme. It shall, in particular:

— define and implement a Research Agenda for the development of key technologies for Embedded Computing Systems across different application areas in order to strengthen European competitiveness and sustainability and allow the emergence of new markets and societal applications,

— support the implementation of research and development (R&D) activities in particular by awarding funding to participants in selected projects following competitive calls for proposals,

— promote a public-private partnership aiming at mobilising and pooling Union, national and private efforts, increasing overall R&D investments in the field of Embedded Computing Systems, and fostering collaboration between the public and private sectors,

— ensure the efficiency and durability of the Joint Technology Initiative on Embedded Computing Systems,

— achieve synergy and coordination of European R&D efforts in the field of Embedded Computing Systems including the progressive integration into the ARTEMIS Joint Undertaking of the related activities in this field currently implemented through intergovernmental R&D schemes (Eureka).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. Remarks

Investing in knowledge is the best way for Europe to foster sustainable growth in a global economy and the research programme is the cornerstone of Europe's knowledge policy. The specific programme 'Capacities' under the Seventh Framework Programme for research, technological development and demonstration activities aims to enhance research and innovation capacity throughout Europe and beyond through the emergence and reinforcement of multidisciplinary European poles of excellence. In particular, research infrastructures play a key role in supporting the creation of knowledge, its dissemination, application and exploitation, thus fostering innovation.

This activity addresses more specifically the deployment of ICT-based infrastructures, or e-infrastructures. These infrastructures provide services to research communities by bringing the power of distributed ICT-based resources (computing, connectivity, storage, data and instrumentation) to virtual communities. The reinforcement of a European approach in this domain establishes synergies between national infrastructures or initiatives, ensures that critical masses are reached, rationalises new investments, and strives for world leadership. It can make a significant contribution to boosting European research potential and its exploitation, and consolidating e-infrastructures as a cornerstone of the European Research Area, a 'forerunner' of cross-discipline innovation and a driver in changing the way science is conducted.

Also entered in this article are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, grants, monitoring and evaluation of the specific programmes and of the framework programmes, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for EU action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes. In this context, actions of coordination of, and support to, strategies of international collaboration with developing and leading regions are promoted for global research communities and towards the new e-Science paradigm.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Remarks

These remarks apply to all the budget headings in the 'Direct research' policy area (with the exception of Chapter 10 05).

The appropriations cover not only expenditure on operations and staff covered by the Staff Regulations, but also other expenditure on staff, contracting, infrastructure, information and publications and any other administrative expenditure arising from research and technological development operations, including exploratory research.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 2 2 4 and 6 2 2 5 of the statement of revenue may give rise to the provision of additional appropriations.

Miscellaneous revenue may give rise to the provision of additional appropriations to be used in Chapters 10 02, 10 03 or 10 04 or Article 10 01 05, depending on their purpose.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The possibility of third countries or organisations from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Item 6 0 1 3 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

The additional appropriations will be provided under Articles 10 02 02 and 10 03 02.

The appropriations in this title cover the cost of the staff working in the financial and administrative departments of the Joint Research Centre and of the support which they need (approximately 15 % of the cost).

Remarks

In accordance with Article 21 and Article 183(2) of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 6 of the statement of revenue may give rise to the provision of additional appropriations.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 2 2 1, 6 2 2 4 and 6 2 2 5 of the statement of revenue may give rise to the provision of additional appropriations. Such revenue will be used to cover, inter alia, expenditure incurred on staff and resources in respect of work for third parties carried out by the Joint Research Centre.

The appropriations could be supplemented by Joint Research Centre's participation on a competitive basis in indirect action and in scientific and technical activities in support of Union policies.

Remarks

This appropriation is intended to cover all other staff expenditure not covered by Items 10 01 05 01 and 10 01 05 02. It is intended for expenditure not directly proportional to the staff present.

It also covers expenditure on organising competitions and interviewing candidates, vocational training, missions, receptions and representation, and expenditure on social and medical infrastructure.

This appropriation is also intended to cover expenditure in respect of all resources used for the implementation of the Joint Research Centre activities.

This includes:

— expenditure on scientific and technical support for the institutes of the Joint Research Centre (workshops, computer centres, nuclear support activities, radiation protection, irradiation equipment (reactors, cyclotron, particle accelerators), hot cells, research departments, stores, etc.), including that directly associated with the operation of the scientific divisions,

— all expenditure on administrative and technical infrastructure, including that for the Directorate-General of the Joint Research Centre, incurred in providing support for its institutes,

— specific expenditure relating to the units concerned at the Geel, Ispra, Karlsruhe, Seville and Petten sites, including the Directorate-General of the Joint Research Centre divided between Brussels and Ispra (purchases of all types and contracts).

The breakdown of appropriations for other management expenditure (research) is as follows:

Remarks

This appropriation is intended to cover the scientific and technical support and research activities carried out by the Joint Research Centre in accordance with the non-nuclear specific programme for the following themes:

— prosperity in a knowledge-intensive society,

— solidarity and the responsible management of resources,

— security and freedom,

— Europe as world partner.

It covers specific expenditure relating to the research and support activities in question (purchases of all types and contracts). This includes expenditure on scientific infrastructure directly incurred for the projects concerned.

This appropriation is also intended to cover expenditure of any type concerning research activities relating to activities under this article entrusted to the Joint Research Centre within the framework of its participation on a competitive basis in indirect actions.

In accordance with Article 21 and Article 183(2) of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 6 of the statement of revenue may give rise to the provision of additional appropriations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

This appropriation is intended to cover commitments entered into prior to the Seventh Framework Programme concerning the non-nuclear activities of the JRC.

In accordance with Article 21 and Article 183(2) of the Financial Regulation, any revenue entered in Item 6 2 2 3 and 6 2 2 6 of the statement of revenue may give rise to the provision of additional appropriations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item.. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to the 'European Economic Area' Annex to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Remarks

This article is intended to receive the appropriations required for the expenditure specific to the various tasks performed on behalf of outside bodies, which is evaluated jointly with the outside body in question in each individual case.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 4 of the statement of revenue may give rise to the provision of additional appropriations.

Additional appropriations will be provided for this article, in accordance with Article 21 and Article 183(2) of the Financial Regulation, to cover specific expenditure for each contract with an outside body to the amount of the revenue to be entered in Item 6 2 2 3 of the statement of revenue.

The services planned are, in particular, the following:

— supplies, the provision of services and work carried out in general against payment,

— the operation, for the benefit of Member States, of facilities or the performance of research that is additional to the specific research programmes,

— the performance of research activities or the provision of services within the industrial clubs for which the partners from industry must pay an enrolment fee and annual subscriptions,

— in-cyclotron irradiation,

— chemical decontamination,

— radiation protection,

— metallography,

— cooperation contracts relating to radioactive waste,

— training,

— outside customers of the Ispra data-processing centre,

— certified reference materials,

— irradiation for outside bodies in the high-flux reactor (HFR) at the Petten establishment of the Joint Research Centre.

Remarks

This appropriation is intended to cover part of expenses of any kind incurred during the implementation of HFR programmes and not covered by the payment appropriations available for previous financial years.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Item 6 2 2 1 of the statement of revenue may give rise to the provision of additional appropriations.

The main objectives of the programme are as follows:

— to ensure over 250 days operation of the HFR per annum in order to guarantee the availability of neutrons for experimental purposes,

— to ensure the rational use of this reactor according to the needs of research institutes requesting the assistance of the HFR in areas such as:

  — improving the safety of existing nuclear reactors,

  — health, and in particular the development of medical isotopes for medical research and the testing of therapeutic techniques,

  — fusion,

  — basic research and training,

  — waste management, and in particular the possibility of developing nuclear fuels for the elimination of weapons-grade plutonium.

In accordance with Article 21 of the Financial Regulation, this article will, in the course of the financial year, be provided with additional appropriations within the limits of the revenue from Member States concerned (currently the Netherlands, Belgium and France) to be entered in Item 6 2 2 1 of the statement of revenue.

Remarks

The main objectives of the programme are primarily:

— to ensure the safe and reliable operation of the high flux reactor (HFR), in order to guarantee the availability of the neutron flux for experimental purposes,

— to allow an efficient use of HFR by research institutes in a broad range of disciplines: improvement of the safety of existing nuclear reactors, health including the development of medical isotopes to answer the questions of medical research, nuclear fusion, fundamental research and training, and waste management including the possibility to study the safety behaviour of nuclear fuels for the new generation of reactor systems.

In accordance with Article 21 of the Financial Regulation, this item will, in the course of the financial year, be provided with additional appropriations within the limits of the revenue from, notably, the three Member States concerned (currently the Netherlands, Belgium and France) to be entered in Item 6 2 2 1 of the statement of revenue.

Remarks

This appropriation is intended to finance an action programme to reduce and dispose of nuclear liabilities resulting from activities conducted by the Joint Research Centre since its establishment.

It is intended to cover the decommissioning of plants that have been shut down and waste from such plants.

This appropriation is also intended to finance operations undertaken by the Commission on the basis of the powers conferred on it by Article 8 of the Euratom Treaty in conformity with the provisions of the Interinstitutional Agreement of 17 May 2006 between the European Parliament, the Council and the Commission on budgetary discipline and sound financial management (OJ C 139, 14.6.2006, p. 1).

Remarks

This appropriation is intended to cover the introduction of a system to monitor and observe the price formation and evaluation process for fishery and aquaculture products.

The monitoring centre will partner and complement the monitoring system for food product prices which is being developed by the Union, ensuring that the large market for Union fishery products is not left outside the general price monitoring system.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

Commercial designations fall within the remit of each Member State's national authorities; a single instrument should be put in place to give European consumers guarantees that the various designations are transparent and coherent, and to make it easier to verify the information concerned.

The purpose of a pilot project would be to set up:

— a database containing all information in connection with commercial designations (codes from FAO nomenclatures, combined nomenclatures, customs nomenclatures, health nomenclatures or INN); the scientific names of species according to the FishBase system; names of species in the official languages of the Member States and, possibly, accepted regional or local designations),

— an expert system to analyse consistency between the various designations and nomenclatures,

— a dedicated Internet site.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to finance the following under the action plan for closer dialogue with the fishing industry and those affected by the common fisheries policy and the integrated maritime policy:

— grants to Regional Advisory Councils (RACs) to cover operational costs as well as interpretation and translation costs of RAC meetings,

— the implementation of measures to provide documentation about and explain the common fisheries policy aimed at the fishing industry and those affected by the common fisheries policy, as well as the integrated maritime policy.

The Commission will continue supporting the functioning of the RACs with a financial contribution and by participating in meetings, preparing relevant documents and ensuring that all RAC opinions are included when drafting new legislation. If the Commission does not include the RAC opinion or only parts of the opinion, the Commission should state why and where it deviates from the RAC opinion. The involvement of people working in fisheries and other interest groups in the common fisheries policy process will be strengthened, so that greater account of specific regional characteristics is taken.

Part of the appropriation is earmarked also for information and communication activities linked to the common fisheries policy and the integrated maritime policy as well as for communication activities addressed to the interested parties. Efforts will continue to be made to inform the stakeholders and the specialised media in the new Member States as well as in the countries joining the European Union in the forthcoming enlargement about the common fisheries policy and the integrated maritime policy.

Any revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Legal basis

Remarks

Article 39 of Regulation (EC) No 1260/1999 provides for financial corrections, any revenue from which is entered in Item 6 5 0 0 of the statement of revenue. That revenue may give rise to the provision of additional appropriations, in accordance with Article 21 of the Financial Regulation, in specific instances where they are necessary to cover risks of cancellation or of reductions in corrections previously decided upon.

Regulation (EC) No 1260/1999 determines the conditions for repayment of an advance without having the effect of reducing the contribution from the Structural Funds towards the assistance concerned. Any revenue from the repayment of advances entered in Item 6 1 5 7 of the statement of revenue will give rise to the provision of additional appropriations in accordance with Articles 21 and 178 of the Financial Regulation.

Remarks

This appropriation is intended to cover EFF technical assistance measures as provided for in Article 46 of Regulation (EC) No 1198/2006. The technical assistance measures include studies, evaluations, measures aimed at the partners, measures to disseminate information, installation, operation and interconnection of computerised systems for the management, monitoring, audit, inspection and evaluation, improvements in evaluation methods and the exchange of information on practices in this field and the establishment of trans-national and Union networks of actors in the sustainable development of coastal fishing zones.

Technical assistance covers preparatory, monitoring, audit, evaluation, supervision and management measures required to implement the EFF.

This appropriation may, in particular, be used to cover:

— support expenditure (representation expenses, training, meetings, missions),

— information and publishing expenditure,

— expenditure on information technology and telecommunications,

— contracts for the provision of services,

— support for networking and exchange of best practices.

Remarks

This appropriation is intended to cover the operational programmes of the European Fisheries Fund (EFF) convergence objective for the 2007-2013 programming period.

Particular importance will be attached to the economic diversification of regions affected by a reduction in fishing activity, to the adjustment of fleet capacity and to fleet renewal, without involving an increase in fishing efforts, as well as to the sustainable development of the fishing zones.

Actions financed under this article should take into account the need to maintain a stable and enduring balance between the capacity of the fishing fleets and the resources available, and the need to promote a safety culture within fishing.

This appropriation is also intended to cover the financing of actions to improve fishing gear selectivity.

Remarks

This appropriation is intended to cover the financing of a pilot project to develop collaborative research between scientists and stakeholders and tools for a common governance and sustainable fisheries management. The common fisheries policy reform presented in July 2011 identifies a number of priorities aimed at achieving ecological sustainability as well as orientating governance of fisheries towards a regionalised implementation of principles, defined at Union level. Regulations (EC) No 2371/2002 (OJ L 358, 31.12.2002, p. 59) and (EC) No 1967/2006 (OJ L 409, 30.12.2006, p. 11) set out the need to adopt management plans at national and Union levels. Those management plans should be focused mostly on basins with limited international waters and bordered by both Member States and third countries; basins where the exchange of information and experience among countries has already been undertaken, within multilateral operating entities, and basins where morphological, environmental and economic conditions allow a comparison of similar experiences, according to common parameters. As a good example, the north-central Adriatic area, corresponding to the geographical sub-area (GSA) 17 of FAO classification, demonstrates all three abovementioned basin characteristics.

The objective of this pilot project is to foster collaborative policy-oriented research in the fisheries sector involving scientists and stakeholders, particularly fishermen, at the geographical level of sea-basins and fisheries and aiming at improving the scientific knowledge underpinning decisions on fisheries management strategies and options.

The following tasks could be suitable for support under such a pilot framework:

— collecting, storing and analysing of qualitative and quantitative data and information which would appear to be necessary to carry out assessments on fish stock and fisheries and which would be complementary to those that are compulsory under the Data Collection Framework; to that end, creating an important tool to support decisions of the Union and national governments through the construction of a Geographic Informative System (GIS); with this tool it will be possible to develop models, which should represent best practice, hereby facilitating the activities of regional planning and governance of the basins; the project seeks to ensure the implementation and updating of the GIS, at various stages of acquisition, loading, processing and analysis of data, with definition of procedures for extraction and consultation of the basic components, using all data available from every level, nationally and regionally; the basic requirement of the GIS to unify existing databases held by different governments in order to improve the interconnection and the flow of information now and in the future; the dissemination and access to different levels and contents of the geodatabase will be determined and adjusted on indications of the European Commission: any authorised entity may have a series of information that allow evaluating the temporal variation of different parameters,

— building methodologies, models, approaches, etc. allowing improvements in assessment of fish stocks, assessment of fisheries and evaluation and assessment of management options, and/or further developments to make an ecosystem approach to fisheries management operational and operable,

— running evaluation and assessment processes, particularly when backing the design and the follow-up of multiannual management plans,

— building up of forums where scientists and fishermen can exchange knowledge in order to reduce the gap between their diverging approaches.

CHAPTER 11 07 — CONSERVATION, MANAGEMENT AND EXPLOITATION OF LIVING AQUATIC RESOURCES *(cont'd)*

11 07 03 *(cont'd)*

The pilot project should fulfil some specific conditions, such as:

— being built at sea-basin or fishery levels,

— favouring an integrated approach among scientific fields linked to ecology, biology, technology and humanities,

— favouring an inclusive, collaborative and iterative way of working,

— being oriented towards results that are likely to be directly usable in the scientific expertise process and allowing policy-makers to make relevant and reliable choices in the decision-making process,

— not being duplicated with research projects or studies already funded by or eligible for funding by the Seventh Framework programme (FP7) or DG MARE's scientific studies programme.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover expenditure incurred by Member States in implementing the monitoring and control systems applicable to the common fisheries policy for:

— investments relating to control activities carried out by administrative bodies or by the private sector including implementation of new control technologies such as electronic recording systems (ERS), vessel monitoring systems (VMS), automatic identification systems (AIS) connected with vessels detection systems (VDS) and the purchase and modernisation of control means,

— training and exchange programmes for civil servants responsible for monitoring control and surveillance tasks is the fisheries area,

— implementation of pilot inspection and observer schemes,

— cost/benefit analysis, assessment of expenditure and audits incurred by competent authorities in carrying out monitoring, control and surveillance,

— initiatives, including seminars and media tools, aimed at enhancing awareness both among fishermen and other players such as inspectors, public prosecutors and judges, and among the general public of the need to fight irresponsible and illegal fishing and on the implementation of the rules of the common fisheries policy,

— implementation of systems and procedures to enable traceability and instruments to control fleet capacity through the monitoring of engine power,

— pilot projects such as CCTV (closed circuit television).

Remarks

This appropriation is intended to cover study work needed to underpin the developing maritime policy with sound facts and analyses, as far as there are gaps and as far as this is necessary as a basis for impact assessment and the preparation of future policy decisions. This is notably the case regarding socio-economic and legal matters in the maritime domain.

Three cross-cutting areas have been identified so far for potential future action: 'Maritime spatial planning', 'Integration and convergence of marine data collection systems' and 'Maritime surveillance'. This appropriation is also intended to cover expenditure for carrying out feasibility studies with a view to elaborating future proposals in these areas.

This appropriation is also intended to promote integration of various systems for the monitoring and surveillance of the seas, collate scientific data on the sea, and disseminate networks and best practices in the field of maritime policy and the coastal economy.

Legal basis

Preparatory actions within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover expenditure arising from the programme to support the further development of the integrated maritime policy.

This appropriation is also intended to cover, inter alia:

— the European Marine Observation and Data Network,

— implementation of the road map for the Common Information Sharing Environment,

— pilot studies on cross-border maritime spatial planning,

— information technology applications such as the maritime forum and the European Atlas of the Seas,

— events and conferences,

— studies, to be carried out at a European and sea-basin scale, in order to identify barriers to growth, assess new opportunities and determine human impact on the marine environment.

Remarks

This appropriation is intended to be used to:

— assess the feasibility for making the best possible use of active fishing vessels which need to be decommissioned from the Community fleet and of fishermen's' experience and practical know-how to benefit both of the fishermen themselves and society at large;

— test under close to real-life conditions the technical and economical viability of redeploying — from fishing to maritime activities — individuals who have been active in the sector as crew members and who can no longer make their living from fishing and possess maritime experience and knowledge at risk of being lost in case alternative sources of income are sought in land-based activities;

— test under close to real-life conditions the feasibility of converting fishing vessels into vessels operating as a platform for a number of environmental and maritime activities outside fishing, in particular collecting marine litter;

— identify under close to real-life conditions the necessary operating costs of a vessel operating under such conditions and the potential sources of funding; however, any such funding should be limited to supporting the start-up of activities that are self-sustaining in the long term;

— identify the appropriate training needed for fishermen in order to perform new duties and achieve useful results;

— support reduction of fishing capacity in line with CFP reform objectives by providing positive incentives for vessel-owners and fishermen who leave the sector and encouraging them to find/develop alternative activities at sea and/or in coastal areas;

— encourage activities complementing fishing for those fishermen staying in the sector;

— identify the necessary administrative and legal framework for collaborating with the relevant authorities and/or relevant administrative bodies and for coordinating 'Guardians of the Sea' activities with them;

— test under close to real-life conditions the implementation of the 'Guardians of the Sea' concept in the next programming period.

Remarks

This appropriation is intended to cover expenditure on studies, surveys, meetings of experts, information, activities and publications directly linked to the achievement of the objective of the programme or measures coming under this item, plus any other expenditure on technical and administrative assistance.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

This appropriation is intended to cover expenditure arising in connection with measures contributing to the completion of the internal market and its operation and development, and measures contributing, in particular, to:

— greater proximity to citizens and businesses, including the development and strengthening of dialogue with citizens and businesses: via measures intended to make the operation of the internal market more effective, and to ensure that citizens and businesses are able to gain access to the most extensive rights and opportunities resulting from the opening up and deepening of the internal market without borders and able to exercise those rights and opportunities in full; and via monitoring and evaluation measures relating to the practical exercise by citizens and businesses of their rights and opportunities with a view to identifying and facilitating the removal of any obstacles which may be preventing them from exercising those rights in full,

CHAPTER 12 02 — INTERNAL MARKET POLICY *(cont'd)*

12 02 01 *(cont'd)*

— implementing and monitoring the provisions governing public contracts with a view to ensuring their optimum operation and the genuine openness of tenders, including the awareness-raising and training of the various parties to these contracts; the introduction and use of new technologies in the various fields of operation of these contracts; the continuous adaptation of the legislative and regulatory framework in the light of developments arising from these contracts, particularly the globalisation of markets and existing or future international agreements,

— improvement, through the European business test panel (EBTP), of the legal environment for citizens and businesses, for which promotion activities, awareness-raising and training actions could be envisaged; fostering cooperation, development and coordination of legislation in the field of company law and assistance with the creation of European limited companies and European economic interest groupings,

— strengthening administrative cooperation through, inter alia, the Internal Market Information System (IMI), the deepening of knowledge of internal market legislation in the Member States and its sound application by them, and support for administrative cooperation between the authorities responsible for implementing legislation relating to the internal market with a view to achieving the Lisbon strategic goals as set out in the annual policy strategy,

— the setting-up of a system that can effectively and efficiently deal with problems faced by citizens or businesses, arising from the misapplication of internal market legislation by a public administration in another Member State; production of feedback information through the Solvit system by use of an online database system which is accessible to all coordination centres and which will also be made accessible to citizens and businesses; support for the initiative through training measures, promotion campaigns and targeted actions with a particular focus on the new Member States,

— interactive policymaking (IPM), in so far as it concerns the completion, development and operation of the internal market, makes up part of the Commission's governance and of the regulatory policy initiatives to better respond to the demands of citizens, consumers and business. The appropriations entered in this item will also cover training, awareness-raising and network actions to the benefit of such participants with a view to making Union policymaking on the internal market more comprehensive and effective, and as part of the process of assessing the actual impact of internal market policies (or the lack of them) on the ground,

— a comprehensive review of regulations with a view to making necessary changes and producing an overall analysis of the effectiveness of the measures taken with a view to the sound operation of the internal market and the evaluation of the overall impact of the internal market on businesses and the economy, including the purchase of data and access by Commission departments to external databases, as well as targeted actions aimed at improving understanding of the functioning of the internal market and rewarding active participation in fostering the functioning of the internal market,

— guaranteeing the completion and management of the internal market, especially in the fields of pensions, free movement of services, recognition of professional qualifications, and intellectual and industrial property: the development of proposals for putting in place a Union patent,

— broadening the strategy regarding the development of statistics on service sectors and statistical development projects in cooperation with Eurostat and the Organisation for Economic Cooperation and Development (OECD),

— monitoring the effects of removing obstacles to the internal market for services,

— the development of a unified area for security and defence, with action working towards the coordination of public procurement procedures for these products at Union level; appropriations may cover devising studies and awareness-raising measures regarding the application of the legislation adopted,

COMMISSION
TITLE 12 — INTERNAL MARKET

CHAPTER 12 02 — INTERNAL MARKET POLICY *(cont'd)*

12 02 01 *(cont'd)*

— strengthening and developing financial and capital markets and financial services provided to business and private individuals; adapting the market framework especially as regards the monitoring and regulation of the activities of operators and of transactions, so as to take account of changes at Union and world levels, of the reality of the euro and of new financial instruments, by putting forward new initiatives intended to consolidate, and provide a detailed analysis of, the results of the first Financial Services Action Plan,

— improvement of payment systems and retail financial services in the internal market; reduction in the cost of, and time needed for, such transactions, taking into account the internal market dimension; development of the technical aspects so as to establish one or more payment systems on the basis of the follow-up in respect of Commission communications; carrying out studies in this area,

— developing and strengthening the external aspects of the directives applicable in respect of financial institutions, the mutual recognition of financial instruments vis-à-vis third countries, international negotiations and assistance for third countries in establishing a market economy,

— implementing the many measures put forward in the Action Plan on Company Law and Corporate Governance which could lead to studies on a number of targeted subjects, with a view to drawing up the necessary legislative proposals,

— analysis of the effect of measures in place as part of the follow-up to the progressive liberalisation of postal services, coordination of Union policies on postal services with regard to international systems and in particular with regard to participants in Universal Postal Union (UPU) activities; cooperation with central and eastern European countries; practical implications of the application of the General Agreement on Trade (GATS) provisions to the postal sector and overlap with UPU regulations,

— implementing of the law of the Union and international provisions in the field of money laundering, including participation in intergovernmental or ad hoc measures in this field; contributions relating to Commission participation as a member of the Financial Action Task Force (FATF) on money laundering created under the OECD,

— active participation in meetings held by international associations such as the International Association of Insurance Supervisors (IAIS/AICA) and the International Organisation of Securities Commission (IOSCO); this also comprises expenses related to the Commission's participation as a member of the group,

— development of evaluations and impact studies on the various aspects of the policies covered by this chapter for the purpose of devising new measures or revising existing measures relating to them,

— creation and maintenance of systems directly linked to putting into place and monitoring policies launched within the framework of the internal market for services,

— support of activities which seek to contribute to the achievement of the Union's policy objectives by enhancing supervisory convergence and cooperation, and in the field of financial reporting, both inside and outside the Union.

In order to achieve these objectives, this appropriation covers the costs of consultation, studies, surveys, evaluations, participation, production and the development of publicity, awareness-raising and training materials (printed matter, audiovisual material, assessments, computer tools, the collection and dissemination of information, information and advice measures for citizens and businesses).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Part of this appropriation is intended to cover expenditure incurred by the Commission for ensuring the effective functioning of the European Counterfeiting and Piracy Observatory.

CHAPTER 12 02 — INTERNAL MARKET POLICY *(cont'd)*

12 02 01 *(cont'd)*

These appropriations are also intended for setting up a central coordination body assisting the Member States with market surveillance cooperation, building on existing structures and experience. This coordination body would support the cooperation, pooling of know-how and sharing of best practices between Member States to ensure the same high level of market surveillance throughout the European Union, in accordance with Regulation (EC) No 765/2008 of the European Parliament and of the Council of 9 July 2008 setting out the requirements for accreditation and market surveillance relating to the marketing of products (OJ L 218, 13.8.2008, p. 30). To this end, regular joint trainings for representatives of national market surveillance authorities from all Member States will be organised, focusing on relevant practical aspects of market surveillance such as follow-up of complaints, monitoring accidents, verifying that corrective action has been taken, follow-up of scientific and technical knowledge concerning safety issues and coordination with customs authorities. Furthermore, exchanges of national officials and joint visit programmes will foster the exchange of experiences between Member States. In addition, comparative data on the resources dedicated to market surveillance in the different Member States will be collected and discussed at the appropriate level with national authorities. The aim is to create awareness for the adequate resources needed to guarantee efficient, comprehensive and consistent market surveillance throughout the internal market, and contribute to the upcoming revision of the Union product safety rules, particularly those concerning market surveillance, and the preparation of the follow-up to the Customs 2013 programme.

Conditions for releasing the reserve

The appropriations shall be released when the Commission delivers a detailed list of studies it will undertake under this article in 2013 and provides the method for calculating the amounts allocated for each study. The Commission shall also present a set of formal criteria for the selection of these studies.

Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover expenditure arising in connection with measures for the management and development of Solvit and for the implementation of the single market assistance services action plan.

The Solvit system has proved to be one of the most effective out-of-court dispute settlement mechanisms.

It can effectively and efficiently deal with problems faced by citizens or businesses, arising as a result of the misapplication of internal market legislation by a public administration in another Member State. Furthermore, the Solvit system is able to produce feedback information by using an online database system which is accessible to all coordination centres and to which citizens and business can directly submit their problems.

COMMISSION
TITLE 12 — INTERNAL MARKET

CHAPTER 12 02 — INTERNAL MARKET POLICY *(cont'd)*

12 02 02 *(cont'd)*

However, Solvit like many other public assistance services relating to Union issues is still not widely known among potential users of the system. At the same time citizens and businesses are often very confused about the right address for their requests for information, assistance or problem solving. To remedy this, the Commission has announced, as part of the single market review, that it will endeavour to create a single web-based access point guiding citizens and business to the right service. In October 2010 the Commission launched a new website, Your Europe, which provides citizens and businesses with information, and sends them directly to relevant services such as Solvit in the event that they need help. Your Europe, together with the Europe Direct call centre, represents the single contact point for the Solvit system. The Commission shall inform the competent committee of the European Parliament in a yearly report about the frequency of use of the contact point and possible measures to further improve it.

Member States should be urged to take appropriate measures to notify their citizens about the provision of such a single contact point.

Moreover, in the Commission's action plan of 8 May 2008 on an integrated approach for providing Single Market Assistance Services to citizens and businesses, a range of actions was proposed to increase cooperation between the existing assistance services so that they can offer a better, faster and more streamlined overall service to citizens and businesses.

Promotion of all these services also needs to take place in a more coordinated way to avoid citizens and businesses being confused by too many brand names.

Additionally, the Commission shall inform the competent committee of the European Parliament about the concrete measures which have been undertaken in this field.

Remarks

The Single Market Forum (SMF) is an annual event organised by the Commission with the European Parliament, which takes place in the Member State holding the Union presidency, and brings together representatives of citizens, businesses and consumer organisations as well as representatives of the Member States and the Union institutions in order to improve coordination and better governance of the single market. The debates and workshops held during the SMF should deal with transposition, application and enforcement of single market legislation, and should allow for exchange of best practices between stakeholders and for informing citizens of their rights in the single market.

Legal basis

Remarks

The financial and economic crisis has significantly shaken the confidence of consumers, retail investors and SMEs in the regulations that are meant to protect them from failings in the financial system. Therefore, it is more essential than ever that the concerns of end users and other non-industry stakeholders are taken into account in designing initiatives that aim to restore citizens' confidence in the soundness of the financial sector and in the ability of financial integration to deliver concrete benefits to them.

This pilot project aims to enhance the capacity of civil society organisations to participate in Union policymaking in the area of financial services, with a view to providing policymakers with a counterweight to the lobbies of the financial services sector and inform the wider public of the issues at stake in the regulation of financial markets for consumers, end-users, retail investors and other non-industry stakeholders.

Legal basis

Remarks

The Single Market Forum should be an annual event, held preferably in the Member State holding the Presidency of the Council, which could be preceded by a number of regional content-oriented preparatory events, organised jointly by the European Parliament, the Commission and the Member State holding the Presidency of the Council. The event should be an important platform for the exchange of best practice between stakeholders, informing citizens about their rights in the single market and examining the state of the single market. It should bring together representatives of citizen, business and consumer organisations as well as representatives of the Member States and the Union institutions in order to establish a clear commitment to the transposition, application and enforcement of single market legislation. This should be a platform for discussing the Commission's legislative proposals in the area of the single market and for presenting the expectations of citizens, businesses and other stakeholders with regard to future legislative proposals. The aim of this event should also be to tackle the incorrect transposition, misapplication and lack of enforcement of single market legislation by improving coordination and governance of the single market. A steering committee should be created, comprised of Members of the European Parliament and representatives of the Commission and the Council Presidency-in-office at the time of the event, which should work out the organisational details for the Single Market Forum.

Remarks

This pilot project implements the main conclusions of the public hearing held in the European Parliament on 22 March 2012, which underlines the need to collect accurate data about the different national legislation on employee ownership and participation. This data collection will aim at setting up a European Centre for Employee Ownership in each Member State, to deliver information, training and advice to employees, enterprises and the public in order to facilitate the promotion and implementation of appropriate legislation to better develop employee ownership and participation in the Union, the benefits of which to society are underlined in the European Economic and Social Committee's own-initiative opinion Soc/371 on employee financial participation in Europe.

Remarks

The general objective of this programme is to improve the conditions for the functioning of the internal market by supporting the operations, activities or actions of certain bodies in the fields of financial services, financial reporting and auditing.

Union funding is vital in order to ensure the efficient and effective supervision of the internal market in financial services, particularly in view of the recent financial crisis.

The following activities are covered by the programme:

(a) activities supporting the implementation of Union policies aimed at supervisory convergence, in particular by means of training of personnel of national supervisory authorities and management of information technology projects in the field of financial services;

(b) activities developing or providing input to the development of standards, applying, assessing or monitoring standards or overseeing standard setting processes in support of the implementation of Union policies in the field of financial reporting and auditing.

Remarks

This appropriation is intended to cover the Authority's staff and administrative expenditure (Titles 1 and 2).

The Authority must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The establishment plan of the European Banking Authority (EBA) is set out in the part entitled 'Establishment plan staff' of Section III — Commission (Volume 3).

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 114 thereof, as well as to the European Supervisory Authority (European Banking Authority), established by Regulation (EU) No 1093/2010, the European Supervisory Authority is to form part of a European System of Financial Supervision (ESFS). The main objective of the ESFS is to ensure that the rules applicable to the financial sector are adequately implemented to preserve financial stability and to ensure confidence in the financial system as a whole and sufficient protection for the customers of financial services.

Conditions for releasing the reserve

An amount of EUR 1 500 000 has been put into reserve which will be released when the European Banking Authority has provided to the budgetary authority, in accordance with Article 203(3) to (8) of the Financial Regulation, all relevant documentation regarding the building project in London. Second, the respective project contract(s) have been negotiated with reasonable conditions which will have an effect on the Union budget and the subsidies given to the Authority. Third, the Authority shall provide complete information on the tasks which will remain within the Authority if the banking supervision is transferred to the European Central Bank.

This appropriation is intended to cover the technical assistance measures for the Instrument for Pre-Accession Assistance provided for in Article 16 of Council Regulation (EC) No 1085/2006 of 17 July 2006 establishing an Instrument for Pre-Accession Assistance (IPA) (OJ L 210, 31.7.2006, p. 82):

— expenditure linked to the preparation, appraisal, approval, follow-up, control, audit and evaluation of multiannual programmes and/or individual operations and projects under IPA regional development component. These actions may include technical assistance contracts, studies, short-term expertise, meetings, exchange of experience, networking, information and publicity and awareness creation events, training activities and publications directly linked to the achievement of the objective of the programme and any other support measures carried out at the level of the Commission central services or the delegations in the beneficiary countries,

— expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the benefit of beneficiary countries and the Commission,

— expenditure on external staff in delegations (contract agents, local agents or seconded national experts) for the purposes of devolved programme management in the Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as for the additional logistical and infrastructure cost, such as cost of training, meetings, missions, information technology and telecommunications and of renting directly caused by the presence in the delegation of the external staff remunerated from the appropriations of this item,

— installation, operation and interconnection of computerised systems for management, inspection and evaluation,

— improvements in evaluation methods and the exchange of information on practices in this field.

This appropriation is also intended to support administrative learning and cooperation with non-governmental organisations and social partners.

This appropriation covers administrative expenditure under Chapter 13 05.

Remarks

Article 39 of Regulation (EC) No 1260/1999 provides for financial corrections for which any revenue is entered in Item 6 5 0 0 of the statement of revenue. This revenue may be used to provide additional appropriations in accordance with Article 21 of the Financial Regulation in specific cases where they are required to cover the risk of corrections adopted earlier being cancelled or reduced. Regulation (EC) No 1083/2006 provides for financial corrections for the period 2007 to 2013.

Regulation (EC) No 1260/1999 lays down the conditions for the repayment of payments on account which does not have the effect of reducing the contribution from the Structural Funds to the operation concerned. Any revenue arising from the repayment of payments on account entered in Item 6 1 5 7 of the statement of revenue will be used to provide additional appropriations in accordance with Articles 21 and 178 of the Financial Regulation. Regulation (EC) No 1083/2006 lays down the conditions for reimbursement of pre-financing for the period 2007 to 2013.

Measures to combat fraud are funded from Article 24 02 01.

Remarks

This appropriation is intended to cover the financing of commitments remaining to be settled from the period 2000 to 2006 for the special programme for peace and reconciliation in Northern Ireland and the border counties of Ireland. The special programme for peace and reconciliation was continued, in accordance with the decisions of the Berlin European Council, mentioned below, to provide EUR 500 000 000 (1999 prices) for the new period of validity of the programme (2000 to 2004). Following the request in the conclusions of the Brussels European Council of 17 and 18 June 2004, an additional EUR 105 000 000, to be allocated in 2005 and 2006, was added to align operations under the programme with the other programmes under the Structural Funds that came to an end in 2006. Additionality is to be fully observed. The Commission is to submit an annual report to the European Parliament on this measure.

Remarks

This appropriation is intended to cover the ERDF commitments for the innovative measures and technical assistance remaining to be settled from the programming period 2000 to 2006 as provided for in Articles 22 and 23 of Regulation (EC) No 1260/1999. The innovative measures include studies, pilot projects and exchanges of experience. They were intended in particular to bring about a qualitative improvement in Structural Fund measures. Technical assistance covers preparatory, monitoring, evaluation, supervision and management measures required for implementation the ERDF. The appropriation may, in particular, be used to meet:

— support expenditure (representation expenses, training, meetings, missions),

— information and publishing expenditure,

— expenditure on information technology and telecommunications,

— contracts for the provision of services and studies,

— grants.

This appropriation is also intended to fund measures taken by partners in preparation for the next programming period.

Remarks

This appropriation is intended to finance the preparatory, monitoring, administrative and technical support, evaluation, audit and inspection measures necessary for implementing Regulation (EC) No 1083/2006, as provided for in Article 45 of that Regulation. In particular, it may be used to cover:

— support expenditure (representation expenses, training, meetings, missions),

— information and publishing expenditure,

— development of 'how-to guides' and toolkits regarding applications for grants and implementation of projects,

— expenditure on information technology and telecommunications,

— contract for the provision of services and studies,

— grants.

This appropriation is also intended to fund measures approved by the Commission in the context of the preparation of the next programming period.

This appropriation is also intended to support administrative learning and cooperation with non-governmental organisations and social partners.

In order to provide help and support for local actors in the Union involved in running Structural Funds and Cohesion Fund programmes — especially in the new Member States — the Commission should propose a training and mobility scheme which would allow them to strengthen their skills in running programmes and exchange best practices and ideas on the problems they encounter on a regular basis. This would improve overall governance and institutional capacity building for the management of programmes and territorial policies.

Remarks

The aim of the pilot project is to produce a complex analysis based on current understanding of the Roma community's situation in the Union, emphasising the entire complex and synergetic spectrum of education and training, beginning with preschool children, through the further education of young mothers up to training for older people.

The pilot project should also reflect the proper preparation and implementation of the institutional process in terms of consultations, networking, data collection, evaluation, field visits, research, etc. A number of Member States have taken measures to promote Roma integration. Examples both of good and of bad practice are numerous, alongside a growing corpus of sociological, legal and policy-oriented research.

A Roma Unit could be set up to explore, from a Union policy implementation point of view, sectoral issues and propose appropriate actions and measures to be included in the proposals for a Roma Inclusion Action Plan.

It could also take on the task of examining cross-sector cooperation and use of the existing different financial instruments, proposing pilot projects and detecting transferable and sustainable good practice which can then contribute to producing concrete policy proposals.

In this context, reference can be made to the need for long-term proposals on the housing and urban development aspects (linked to issues of segregation, ghettoisation, etc., when badly prepared) in connection with innovative use of regional funds and EIB/EBRD support, or the huge issue of data collection (and protection), statistics, etc., but also the obviously related issues of combating crime and trafficking, as well as basic registration problems.

Particular attention has to be given to the issue of media coverage and communication in general.

As an essential prerequisite for success, a process of structured dialogue with Roma civil society has to be developed at local, national and Union level.

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS *(cont'd)*

13 03 21 *(cont'd)*

The European Parliament has been a pioneer in promoting Roma rights; its first resolution on the issue goes back to 1984. During the sixth parliamentary term, the European Parliament has adopted a number of resolutions on the specific situation of Roma in Europe. In particular, in its resolution of 31 January 2008 on a European strategy on the Roma (OJ C 68 E, 21.3.2009, p. 31), the European Parliament urged 'the Commission to develop a European Framework Strategy on Roma Inclusion aimed at providing policy coherence at Union level as regards the social inclusion of Roma and urges the Commission at the same time to comprehensively shape a Community Action Plan on Roma Inclusion with the task of providing financial support for realising the objective of the European Framework Strategy on Roma Inclusion'. Also, in its resolution of 10 July 2008 on the census of the Roma on the basis of ethnicity in Italy (OJ C 294 E, 3.12.2009, p. 54), the European Parliament reiterated those requests and again called on the Commission and the Member States, within the framework of a European Union Roma Strategy and in the context of the Decade of Roma Inclusion 2005-2015, to enact legislation and policies to support Roma communities while promoting their integration in all fields, to launch anti-racism and anti-discrimination programmes in schools, employment and the media and to enhance the exchange of expertise and best practices.

The European Parliament reiterates in this context the importance of developing strategies at Union and national level, making full use of the opportunities provided by Union funds, to abolish Roma segregation in education, to ensure equal access to quality education for Roma children (participation in mainstream education, introduction of special scholarship and trainee programmes, additional and concrete measures to promote pre-school education for Roma children and postgraduate studies at national and international level for Roma students as well as educating an effective group of 'Roma diplomats' able to bridge the gap between Roma communities and public institutions), to ensure and improve Roma access to labour markets, to provide equal access to health care and social security benefits, to combat discriminatory practices in the provision of housing, and to increase the participation of the Roma in social, economic, cultural and political life.

The European Parliament reaffirms the need to set up a network of academic and civil experts with a clear mandate to propose specific pilot projects and elaborate projects triggering immediate changes.

The aim of the pilot project is also to ensure the integrated education of Roma families, focusing simultaneously on the early integration of children in pre-school education, the training of parents and the conducting of community activities for the whole family, also with a view to improving adults' passive skills.

In its conclusions of 14 December 2007, the European Council, 'conscious of the very specific situation faced by the Roma across the Union', invited 'Member States and the Union to use all means to improve their inclusion'. In its conclusions of 19 and 20 June 2008, it stated that '… it looks forward to the results (…) of the forthcoming conference on this issue to be held in September [2008]. It invites the Council to take this into account in its examination of the revised Social Agenda. The European Council will return to this issue before the end of the year'.

TITLE 13 — REGIONAL POLICY

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS *(cont'd)*

13 03 22 *(cont'd)*

The first principle of the pilot project is to encourage and support the mobility of both elected local and regional representatives within the Union. The second principle of the pilot project is that the mobility element is included in an agreed programme of on-the-spot training and sharing of experience with focus on 'economic and social cohesion'.

Goals are:

— to encourage multilateral cooperation between territorial and local and regional institutions on a political level,

— to support the mobility of elected local and regional representatives,

— to stimulate common research and exchange of ideas on the problems they encounter on a regular basis by means of on-the-spot training and the sharing of experience,

— to promote the exchange of best practices.

The pilot project is thus a tool to enhance the learning and experience of elected local and regional representatives; and to increase the capacity of local and regional councils in regard to the application of concepts, democratic principles and strategies.

Remarks

This project aims to develop a comprehensive strategy that would promote knowledge of, and experience from, Union regional policy for third countries. This strategy should include the organisation of international events, information activities, network building between regional and local stakeholders, development of joint projects and new regional partnerships, as well as the exchange of good practices between regions. By promoting the Union cohesion policy model as a success story through a number of regional dialogues, the Union will use these actions to exemplify and advance its values, fundamental principles, organisational structures and policies on a global scale. Cooperation with international organisations active in this field — Forum of Global Associations of Regions (FOGAR) and United Cities and Local Government (UCLG) — will prove to be particularly beneficial to that end.

Remarks

The Council has on several occasions (in 2000 and in March 2003) acknowledged the advantages of micro-finance for small firms. The European Council has, for the first time, asked Member States to pay particular attention to using micro-credit to foster the establishment and growth of small firms. Micro-credit was one of the focuses of the European multiannual programme (MAP/2002 to 2006) financial instruments which the Council adopted in December 2001, defining 'micro-loan' as a loan of less than EUR 25 000.

The Competitiveness and Innovation Programme (CIP), which has been in operation since 2006, also deals with micro-credit, including under the second facility (SME Guarantee Facility). This facility, which is administered by the European Investment Fund (EIF), seeks to encourage financial institutions to play a more important role in offering small loans, which normally carry with them proportionally high loan management costs for borrowers unable to provide adequate security. In addition to guarantees and counter-guarantees, financial intermediaries are entitled to subsidies to reduce the high administrative costs associated with micro-loans.

The aim of this preparatory action is to foster the development of micro-credit in Europe, in line with the Europe 2020 Strategy growth and employment targets and the recommendations set out in the European Parliament resolution of 11 July 2007 on financial services policy (2005 to 2010) — White Paper (OJ C 175 E, 10.7.2008, p. 392), with particular reference to the need for a micro-credit action plan.

The purpose of the preparatory action is to:

— ensure that the micro-credit business in Europe becomes self-financing in the medium term by building up the equity of micro-finance institutions, particularly non-banking institutions. The project could be administered by the EIF, the Union financial institution which specialises in small and medium-sized enterprise and micro-enterprise funding and which also administers the Union financial instruments,

— foster greater synergy between existing financial instruments covering inter-related areas (CIP, Joint European Resources for Micro to Medium Enterprises (Jeremie), ERDF, EDF),

— foster social inclusion through entrepreneurship and the economic growth it brings. Associations working with less-favoured groups may be recipients of the funding made available.

The purpose of the appropriation is to cover the implementation of the preparatory action adopted for 2008; it will be used, in particular, to develop a seed fund for non-banking institutions.

Remarks

The pilot project aims to support the demolition and reconstruction of obsolete and deteriorated buildings within the suburbs of European cities, testing the introduction of innovative and advanced criteria for constructive safety, engineering quality, sustainability and energy efficiency. The main objective is to promote social integration in the suburbs through an intervention in housing policy.

The project should finance:

— the selection of at least five testing suburbs of European cities, highly populated, in which there is a strong need for building regeneration interventions,

— the definition of advanced safety requirements with a view to each specific context (i.e. anti-seismic measures) and of quality requirements for the residential structures, engineering and construction, including the design of private and common spaces, the selection of materials, technical solutions, etc.,

— the definition of energy saving targets and energy mix with a higher usage of renewable sources for the new residential buildings,

— the selection of the most effective mix of financial tools to promote the regeneration of deteriorated urban areas and the innovation in the construction industry (revolving funds, regional aid, tax rates bonification, public-private partnership, etc.),

— the definition of a set of measures to offer temporary housing alternatives to the residents of the testing sites areas and the involvement of them and of the local communities in the redesigning process,

— the definition of an evaluation model to monitor and evaluate the project outcome,

— the start-up of regeneration programmes in the testing areas.

Remarks

The aim of this preparatory action is to develop a partnership model(s) for towns or cities and rural areas surrounding them, to achieve better cooperation between different actors in developing and implementing common urban-rural initiatives based on the integrated approach. The model(s) could be used in the next programming period for urban-rural development projects co-funded by the Union.

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS *(cont'd)*

13 03 27 *(cont'd)*

More specifically, the preparatory action should aim to:

— identify common challenges and potentials of urban and rural areas,

— review existing urban-rural partnerships in the Member States, identify areas of cooperation and local/regional actors involved (public, private, non-governmental organisations, etc.),

— identify innovative good practice examples of urban-rural cooperation in existing partnerships,

— create a model/models for an urban-rural partnership and elaborate a practical guide for this partnership to be possibly used in the Commission's Strategic Guidelines on cohesion for the next programming period after 2013.

The preparatory action should be implemented in the years 2011-2012.

Remarks

This preparatory action aims to develop a comprehensive strategy that would promote knowledge of, and disseminate experience gained from, Union regional policy for third countries, on the basis of the successful implementation of the earlier pilot project, as well as to address the specific needs of the Union's ultra-peripheral territories which do not have the status of outermost regions during switchover to the status of outermost regions. The international dimension of cohesion policy matured considerably since 2009 as a result, largely, of the additional opportunities afforded by the resources provided under the pilot project and the 2012 preparatory action. The current preparatory action needs to be continued in 2013 with an appropriate allocation, as the policy dialogues with main partners (Brazil, China and Russia), as well as support for implementation of the Eastern Partnership have to be constantly developed in order to advance the principles, organisational structures and mechanisms of EU cohesion policy on a global scale. It will focus more particularly on developing regional governance, running training programmes in place-based policy design and strategic planning, as well as on procedural questions regarding control mechanisms and good financial management.

Remarks

Starting date of the project: 1 January 2011.

End date of the project: 31 December 2013.

The European Council of 19 June 2009 has formally asked the Commission to present a European Union Strategy for the Danube Region before the end of 2010. The strategy, which was launched under the Hungarian Presidency of the European Union, at the beginning of 2011, was accompanied by an action plan, which has been permanently developed and updated taking into account the proposal from the Member States. Article 3 of the Treaty on European Union improves the Union's ability to promote economic, social and territorial cohesion, and solidarity among Member States. This preparatory action is needed in order to develop the necessary capacity building and to speed up the coordination process to ensure the right governance model for the implementation of the European Union Strategy for the Danube Region.

The Danube Region has an established history of networking and co-operation in many policy areas. The strategy and its action plan will offer the opportunity to move from words to action and to deliver real benefits for the region as a whole. There is a need for a common strategic vision to guide future territorial development for the Danube Region. It is clear that no one acting alone can apply the range of measures necessary to confront the challenges and exploit the opportunities of the region. A strategy for the Danube Region, consisting of detailed and consistent actions, with an appropriate financial support are essential to develop the Danube Region and to fully exploit the opportunities open to the region.

The Danube links ten European countries — Germany, Austria, the Slovak Republic, Hungary, Croatia, Serbia, Romania, Bulgaria, the Republic of Moldova and Ukraine — six of which are Member States, and in a broader territorial context the region also comprises the Czech Republic, Slovenia, Bosnia and Herzegovina, and Montenegro.

The Danube region is an important crossover point between the Union's Cohesion Policy programmes, programmes for countries covered by the European Neighbourhood Policy and potential candidates for accession, and therefore represents an area where enhanced synergies between different Union policies can be developed: cohesion, transport, tourism, agriculture, fisheries, economic and social development, energy, environment, enlargement and neighbourhood policy and the European Union Strategy for the Danube Region is to be developed in the following cooperation areas: social development and protection, sustainable economic development, transport and energy infrastructure, environmental protection, culture and education.

The European Union Strategy for the Danube Region should be implemented by making use of all available funding resources, from the Union, Member States and other riparian countries, International Financial Institutions (IFI), as well as private capital. The focus should be on improved, more efficient and effective ways to coordinate the different funding instruments and the proposed specific actions. It is expected that the European Union Strategy for the Danube Region through a better cooperation between Member States and Danube riparian countries, will boost the social and economic development of the region. This will create new business opportunities, will accelerate the development of sustainable, more efficient and intermodal transport system as well as for a sustainable transport and tourism and will improve the quality of life of all citizens living in the Danube river basin with full respect of the environment.

The preparatory action thus shall promote or create a governance model to be implemented in the specific areas concerning the Danube Region.

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS *(cont'd)*

13 03 29 *(cont'd)*

The funding is intended to finance activities related to the definition of the governance model required by the development and implementation of the European Union Strategy for the Danube Region. The governance model will improve the cooperation between all participant countries and regions to common flagship projects in the field of:

— environmentally friendly use of the Danube by inland navigation, intermodality with other transport modes along the Danube through the improvement of all infrastructures (with priority for the better use of existing infrastructure) and by creating a multi-modal transport system all along the river, environmentally-friendly use of water power along the Danube, preservation and improvement of Danube water quality in accordance with the Directive 2000/60/EC of the European Parliament and of the Council of 23 October 2000 establishing a framework for Community action in the field of water policy (OJ L 327, 22.12.2000, p. 1), stringent vessel safety requirements,

— sustainable tourism: ecotourism, the development of the cycle routes along almost the entire Danube, development of the conventional mass cultural tourism, urban and rural tourism, business and cruise tourism, sports tourism,

— joint projects (to promote and implement) in order to increase cooperation in the field of energy, especially on energy efficiency and renewable energy resources, in the light of the region's potential as a source of bioenergy, and to encourage the use of biomass, solar, wind and hydro energy,

— promoting research infrastructure tailored to the specific strengths of the regions and of specific clusters of excellence for product innovation and marketing,

— a common research and development programme in, and for, the Danube Region and which is aimed at supporting scientific development and innovation by ensuring cooperation between Danube states in fields of environmental research, fisheries, agriculture, infrastructure (including the energy field), transport, training and mobility for researchers and socio-economic aspects,

— university exchange programmes within the region and university networks in order to foster centres of excellence capable of competing at international level and to strengthen the Danube identity through training and improving governance, life long learning,

— ensuring the security of the region.

The European Union Strategy for the Danube Region — Not just a strategy

There must be — concrete, visible actions — to overcome the challenges facing the region. In its action plan, the Commission should insist that Member States and other stakeholders take responsibility as lead partners for specific priority areas and flagship projects, for example, by developing a specific and integrated governance in line with a common and integrated approach to the European Union Strategy for the Danube Region adopted by the Commission on 8 December 2010.

The Commission will fulfil the need for an independent, multi-sector body/approach that can guarantee the necessary co-ordination, monitoring and follow-up of the action plan, as well as a regular updating of the plan and strategy as necessary. The Commission is not proposing additional funding or other resources at this time. However, some of the specific actions and projects will require financial support. A major source is the Structural Funds available in the region — most programmes already allow actions envisaged in the strategy. Programming authorities can review the allocation criteria and facilitate the selection of projects aligned with the strategy. In addition, Member States will examine funding projects and actions aligned with the strategy priorities from their own resources. The European Investment Bank and other international and regional financial institutions could also contribute.

Enhanced efforts through the action plan should be carried out in close coordination with any such ongoing developments (in particular new regulations), including at Union level, to ensure coherence and efficiency.

The on-going economic crisis implies a less-favourable climate for investment, affecting both public sectors and private business generally. This makes it all the more essential that the European Union Strategy for the Danube Region allows the partners in the region to take a longer perspective, recognising that when this crisis has passed the regions that have best prepared will be those best equipped to take advantage of the new opportunities and innovations.

CHAPTER 13 03 — EUROPEAN REGIONAL DEVELOPMENT FUND AND OTHER REGIONAL OPERATIONS *(cont'd)*

13 03 29 *(cont'd)*

This preparatory action, established on the initiative of the European Parliament, is to have a duration of three years, from January 2011 to December 2013, and the amount to be allocated is EUR 1 500 000 per year.

The above projects will require time-intensive preparations with the Member States concerned and with relevant authorities of the third countries. First disbursements took place in 2011.

Based upon the existing legal framework, this preparatory action, presents solutions for the sustainable cooperation between Member States and other riparian countries. It substantiates the development of the European Union Strategy for the Danube Region and its integration into the overall policy of the Union.

This appropriation should also be used to organise or develop:

— training programmes, seminars for young people with the aim of emphasising the common regional identity of the nations living in the Danube macro-region; the programmes should stress civic education and opportunities for cultural exchanges which will contribute to a progressive, sustainable European future-oriented dimension of coexistence by addressing the questions of understanding each other's regional presence, togetherness and the need for cooperation; and by providing scope for dialogues and reconciliation,

— the improvement and development of new solutions for handling expertise by means of accessible common platforms and project information as well as building networks. The preparatory action will promote social and economic stability in the regions concerned, including actions to develop cohesion between communities by means of opening space for familiarising with, and giving due acknowledgement to, each other's cultures and histories and will also highlight the added value of transnational cooperation. This should create a sustainable basis for a common platform giving access to regional expertise and increasing regional cooperation and should in addition allow lessons to be drawn from the experience of a macro-region strategy.

The eligible area shall be the Danube macro-region and the surrounding countries in line with the European Neighbourhood Policy. The organisation of programmes should involve nongovernmental organisations, civil society organisations, in order to ensure that reconciliation efforts go also beyond the governmental sphere. The programmes eligible for funds shall involve participants from at least three Member States from the region.

This appropriation is intended to ensure:

— the proper circulation of information through newsletters (including on-line), reports and conferences, and specifically an annual forum,

— the organisation of on-site events to familiarise all interested European regions with the Baltic Sea approach and the principles of macro-regions,

— successful governance of the strategy through the decentralised system that has been established and, in particular, the operation of the system of priority area coordinators and flagship project leaders,

— technical and administrative support for planning and coordination of activities related to the European Union Strategy for the Baltic Sea Region,

— availability of seed money for planning and preparing projects supporting the strategy,

— support for civil society participation,

— the continued helping of priority area coordinators in their coordination activity,

— participation in an implementation facility with the EIB, if requested by Baltic Member States,

— the development of a more ambitious communication strategy on the European Union Strategy for the Baltic Sea Region.

The continuation of the support to the technical assistance action in 2013 should be used to:

— keep on helping Priority Area Coordinators in their coordination activity,

Remarks

Union institutions support the drafting of a European strategy for the Atlantic area. A cross-cutting action plan with concrete priorities needs to be defined in order to implement this strategy from 2014 onwards. Atlantic stakeholders should be involved in the drafting of this action plan.

The action plan should be closely linked to regional policy and the Integrated Maritime Policy, and should also facilitate synergies with other Union policy areas such as trans-European transport networks, the common fisheries policy, climate and environment actions, the research and development framework programme, and energy policy, etc.

The preparatory action will finance a stakeholder dialogue platform, called the Atlantic Forum, to define the priority projects and governance of the Atlantic Strategy.

Funding for the preparatory action will serve to:

— put in place the Atlantic Forum, encouraging key stakeholders to work together within workshops and ensuring adequate publicity and broad participation,

— engage forum members in a process leading to the adoption of the cross-cutting action plan for the Atlantic Strategy in accordance with the needs of the regions concerned and a clear focus on sustainable growth in Atlantic coastal regions and maritime sectors,

— support the technical work necessary to identify, and test the feasibility of, concrete priority actions to be included in the action plan.

A subcontractor will assist stakeholders in drafting the action plan. The subcontractor will be in charge of implementing the preparatory action and will work under the supervision of the Commission.

The preparatory action has financed a platform for stakeholder dialogue (the Atlantic Forum), with a view to defining the priority projects and governance of the Atlantic Strategy.

After adoption of the action plan at the end of 2012, the Forum will seek to prepare stakeholders to implement that plan. It is therefore necessary to extend the preparatory action until 2013.

The preparatory action funding will serve to:

— put in place the Atlantic Forum by encouraging key stakeholders to work together within workshops, and by ensuring adequate publicity and broad participation;

— engage Forum members in a process leading towards the adoption of the transversal action plan, to be provided for by the Atlantic Strategy, in accordance with the needs of the regions and a clear focus on sustainable growth in the coastal regions and the maritime sectors in the Atlantic;

— support the technical work necessary to identify and test the feasibility of concrete priority actions to be included in the action plan;

Remarks

The plan to change Mayotte's status from overseas country or territory to outermost region is the first of its kind for the Union. The process of making this status change has been simplified by the entry into force of the Treaty on the Functioning of the European Union, Article 355(6) of which provides for a unanimous vote on the matter in the European Council. The French Government is currently drawing up an application for Mayotte to be granted outermost region status from 2014. This places Mayotte in a similar situation to that of pre-accession countries, which are required to carry out essential structural reforms in connection with which the Union provides various types of support intended to facilitate the transposition of the *acquis* and the implementation of Union policies. As a result of the change of status, the local authorities in Mayotte will be required to handle new types of Union funding involving different amounts and different procedures from those applying under the European Development Fund (EDF), their current source of funding. This preparatory action will focus primarily on technical assistance measures for the training of Mayotte administrative staff who will be responsible for drawing up, managing, following up and monitoring future operational programmes. As a territory of a Member State, Mayotte is not entitled to pre-accession instrument funding; at the same time, given that it is not yet a region as referred to in the general provisions on the Structural Funds, it is not entitled to technical assistance either.

The aim of the preparatory action is to provide the department of Mayotte with support with its changeover to the status of outermost region.

A number of measures are needed:

— the training of local staff who will be responsible for drawing up, managing, following up and monitoring future operational programmes,

— carrying out of studies prior to drawing up future operational programmes, plus *ex-ante* evaluation so as to produce an analysis of the area and provide support for local actors in order to lay down a regional strategy and programme priorities,

— setting up of a Europe unit within Mayotte's economic and regional affairs secretariat for information gathering and circulation to public partners, for setting up and implementing operational programmes and for informing and supporting project promoters.

This preparatory action may apply to any other territory in a similar position.

Remarks

The objective of this preparatory action is to provide help and support for local and regional councils in the Union.

The first principle of the preparatory action is to encourage and support the mobility of both elected local and regional representatives within the Union. The second principle of the preparatory action is that the mobility element is included in an agreed programme of on-the-spot training and sharing of experience with focus on 'economic and social cohesion'.

Goals are:

— to encourage multilateral cooperation between territorial and local and regional institutions on a political level,

— to support the mobility of elected local and regional representatives,

— to stimulate common research and exchange of ideas on the problems they encounter on a regular basis by means of on-the-spot training and the sharing of experience,

— to promote the exchange of best practices.

The preparatory action is thus a tool to enhance the learning and experience of elected local and regional representatives, and to increase the capacity of local and regional councils in regard to the application of concepts, democratic principles and strategies.

Remarks

This appropriation should be used to organise or develop:

— training programmes, seminars for young people with the aim of emphasising the common regional identity of the nations living in the Danube macro-region; the programmes should stress civic education and opportunities for cultural exchanges which will contribute to a progressive, sustainable European future-oriented dimension of coexistence by addressing the questions of understanding each other's regional presence, togetherness and the need for cooperation; and by providing scope for dialogues and reconciliation,

— the improvement and development of new solutions for handling expertise by means of accessible common platforms and project information as well as building networks.

The preparatory action will promote social and economic stability in the regions concerned, including actions to develop cohesion between communities by means of opening space for familiarising with, and giving due acknowledgement to, each other's cultures and histories and will also highlight the added value of transnational cooperation. This should create a sustainable basis for a common platform giving access to regional expertise and increasing regional cooperation and should in addition allow lessons to be drawn from the experience of a macro-region strategy. The eligible area shall be the Danube macro-region and the surrounding countries in line with the European Neighbourhood Policy. The organisation of programmes should involve non-governmental organisations, civil society organisations, in order to ensure that reconciliation efforts go also beyond the governmental sphere. Remarks

This article is intended to finance the risk sharing instruments from the ERDF Regional competitiveness and employment envelope for Member States which are experiencing, or threatened with, serious difficulties with respect to their financial stability.

Reflows and amounts left-over after the completion of an operation covered by a risk sharing instrument may be reused within the risk-sharing instrument if the Member State still meets the conditions set out in Article 77(2) of Regulation (EC) No 1083/2006. If the Member State no longer meets those conditions, reflows and amounts left-over shall be considered to be assigned revenue.

Any assigned revenue resulting from repayment of reflows or amounts left-over entered in Item 6 1 4 4 of the statement of revenue shall give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation. At the request of the Member State concerned, additional commitment appropriations generated by this assigned revenue shall be added the following year to the cohesion policy financial allocation of the Member State concerned.

Legal basis

Council Regulation (EC) No 1083/2006 of 11 July 2006 laying down general provisions on the European Regional Development Fund, the European Social Fund and the Cohesion Fund and repealing Regulation (EC) No 1260/1999 (OJ L 210, 31.7.2006, p. 25), and in particular Article 36a thereof.

Remarks

Annex II to Council Regulation (EC) No 1164/94 of 16 May 1994 establishing a Cohesion Fund (OJ L 130, 25.5.1994, p. 1) determines the conditions under which advances which do not have the effect of reducing the contribution of the Fund to the operation concerned are to be repaid. Any revenue resulting from such repayments of advances entered in Item 6 1 5 7 of the statement of revenue will give rise to the provision of additional appropriations in accordance with Articles 21 and 178 of the Financial Regulation. Regulation (EC) No 1083/2006 lays down the conditions for reimbursement of pre-financing for the period 2007 to 2013.

Remarks

This article is intended to record appropriations resulting from the mobilisation of the European Union Solidarity Fund in the event of major disasters in the Member States. Assistance should be provided mainly in connection with natural disasters, but may also be provided, where warranted by the urgency of the situation, to the Member States concerned, with a deadline being laid down for use of the financial assistance awarded and provision being made for beneficiary states to substantiate the use made of the assistance they receive. Assistance received which is subsequently offset by third-party payments, under the 'polluter pays' principle, for example, or received in excess of the final valuation of damage should be recovered.

Allocation of the appropriations will be decided on in an amending budget with the sole purpose of mobilising the European Union Solidarity Fund.

Remarks

This appropriation is intended to cover expenditure arising in connection with measures contributing to the completion, operation and development of the internal market.

It supports Union customs policy and taxation policy and includes actions which cannot be financed by the Customs 2013 and Fiscalis 2013 programmes.

In the field of taxation and customs, this appropriation is intended primarily to cover:

— the costs of consultations, studies, analyses and impact assessments,

— activities in customs classification, and the acquisition of data,

— investment in software,

— the production and development of publicity, awareness-raising and training materials.

Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover expenditure on the implementation of the Community customs action programme, and in particular the financing of joint actions, information technology actions as well as other actions.

It covers in particular:

— the travel and subsistence expenses of people from participating countries attending seminars and workshops, exchanges of officials, training, follow-up and comparative analysis operations,

— costs involved in organising seminars, workshops and other similar meetings,

— the cost of purchasing and developing any material required for training,

— the maintenance, development and running costs of current information exchange and communication systems, the operating costs of the network and the running costs of Community components installed on Commission premises (or on the premises of a designated subcontractor). The systems and networks concerned are: the common communications network/common systems interface (CCN/CSI) to the extent necessary to support the functioning of the systems listed here, the data dissemination system (DDS), the new computerised transit system (NCTS/NSTI), the information system on the integrated tariff of the Community (TARIC), the information system for transfer of origin stamps and the transmission of transit stamps (TCO/TCT), the European customs inventory of chemical substances (ECICS), the European binding tariff information system (EBTI/RTCE), the tariff quota surveillance management system (TQS), the inward-processing relief system (IPR), the unit values system, the suspensions information system and actions connected with customs computerisation (eCustoms and customs modernisation),

— as regards the communication and information exchange systems, set up by the management procedure laid down in Article 4 of Decision 1999/468/EC: the costs of design, installation, operation and development, principally the hardware, software and network connections which must be common to all Member States to ensure the interconnection and interoperability of the systems,

— the cost of user assistance, maintenance, operation and development of the anti-fraud information system (AFIS),

— costs connected with other actions which may be necessary to meet the objectives of the programme.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

This appropriation is intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures coming under this budget item, plus any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution from the Swiss Confederation for participating in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

This appropriation is intended to cover the Erasmus Mundus II programme (2009-2013), as well as the completion of actions started during the previous phase of the Erasmus Mundus programme 2004-2008. The objectives of the Erasmus Mundus II programme are:

— to foster structured cooperation between higher education institutions and academic staff in Europe and third countries with a view to creating poles of excellence and providing highly trained human resources,

— to contribute to the mutual enrichment of societies by developing a pool of well-qualified, open-minded and internationally experienced women and men through promoting mobility in order for the most talented students and academics from third countries to obtain qualifications and/or experience in the Union and for the most talented European students and academics to do the same in third countries,

— to contribute to the development of human resources and the international cooperation capacity of higher education institutions in third countries through increased mobility streams between the Union and third countries,

— to improve accessibility and enhance the profile and visibility of European higher education in the world as well as its attractiveness for third-country nationals,

— to foster cooperation between higher education institutions and to improve exchanges of academic staff and students in Europe and European Neighbourhood Policy countries — equally from the South and East.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution from the Swiss Confederation for participating in Union programmes entered under Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

On the basis of the cooperation agreements between the Union and the United States of America and Canada, this appropriation is in particular intended to cover:

— comparative studies on respective education policies, qualifications and skills,

— establishment of exchange programmes for students, learners, teachers and administrators,

— promotion of interinstitutional cooperation,

— aid for the establishment of links between the industrial sectors concerned and universities,

— promotion of cooperation with the private sector in developing and broadening the programmes,

— development of policy dialogue; complementary measures and prompt dissemination of results.

Assistance is to be increased for European students for studying in the United States and Canada, in particular at universities.

Remarks

In accordance with the decision for an integrated programme in the field of lifelong learning, this appropriation is intended to cover the following specific programmes and horizontal actions:

— Comenius: for general education activities concerning schools up to and including upper-secondary level,

— Erasmus: for education and advanced training activities at higher education level, increase in the number of scholarships and funding for them under the Erasmus programmes,

— Leonardo da Vinci: for all aspects of vocational education and training,

— Grundtvig: for adult education,

— Jean Monnet: projects stimulating teaching, research and debate on the European integration process at higher education institutions and operating grants to certain key institutions and associations,

— a cross-cutting programme: incorporating four key activities to cover policy issues, to make specific provision for language learning and activity related to information and communication technologies where these fall outside the specific programmes, and to provide a better dissemination service.

  Special education needs for persons suffering from disabilities or 'dys' conditions can be addressed in all the abovementioned sectoral programmes.

— *Brain trust*: One part of the increase is intended to support Brain trust, an online knowledge-sharing tool for university students where each student can have a profile page displaying his or her 'academic CV', including study courses, publications, references used and keywords to indicate interests of the student. Brain trust platform will give students an overview of their studies and an opportunity to communicate and cooperate based on their academic interests across countries, universities, disciplines and levels of education, regardless of their current institutional affiliation and geographical location. The platform contributes to the strengthening of a pan-European identity and awareness among the young generation of European citizens. It will create an online European dimension to national systems of higher education, supporting the aims of developing the Community as a knowledge society, as set out in the Lifelong Learning Programme 2007-2013, and contributing to the creation of a European Area of Higher Education as part of the Bologna Process;

— *Early Science and Technology Education in Europe*: One part of the increase is intended to support a project or action for the enhancement of Early Science and Technology Education in Europe. Vision: In the first formative period (age 3 to 6) all children make first experiences with basic science concepts in order to feed their intrinsic curiosity. The action is aimed at supporting Member States in the development of national strategies in the field of early science education;

— *European University Institute (EUI)*: One part of the increase is intended to cover, inter alia, supplementary expenditures relating to the activities of the EUI in accordance with Article 36(2)(b) of Decision No 1720/2006/EC establishing the Lifelong Learning Programme. A complementary contribution should be allocated to the EUI's Global Governance Programme. The Programme started in 2010 and is now consolidating and expanding its activities. The increase will further improve and widen the PhD training with respect to global governance and world affairs at the EUI; enlarge the European Academy of Global Governance devoted to top level training, discussion and debates; enhance the community of junior post-doctoral fellows specialised in these areas; attract to the EUI a significant number of senior scholars drawn from Member States' universities and research centres and from international institutions; further increase the number of interrelated strands of basic and applied research on issues of global governance; promote and support a variety of events, conferences and High-Level Policy Seminars on issues of global governance; and further consolidate the European Network of Global Governance as well as the dissemination activities of the programme.

CHAPTER 15 02 — LIFELONG LEARNING, INCLUDING MULTILINGUALISM *(cont'd)*

15 02 22 *(cont'd)*

Part of this appropriation should be used for the promotion of the university education of students with a Roma ethnic background in order to provide them comprehensive support to address their unique challenges and to prevent their drop-out in tertiary education; the support should include scholarships, mentoring, tutoring and additional training in professional development and language competences.

A part of this appropriation should also fund Qualified Master Degree within eligible European universities, which shall be an important tool in the frame of the automatic recognition by all Member States and which must implement a common Master core curriculum. A European label of Qualified Master Degree will be delivered on the basis of the compliance with quality criteria of excellence. The initiative will foster academic recognition of Master degrees across the EU and will represent an important instrument in the goal of the realisation of an effective European Higher Education Area, as it's been stressed by the recent Bologna Process Ministerial Conference of Bucharest in April 2012 and by the EP initiative report of March 2012. It will be implemented by universities of different Member States and will have, as a side outcome, the comparability of curricula, programs and learning outcomes of the corresponding bachelor degrees.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution from the Swiss Confederation for participating in Union programmes entered under Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

This appropriation is intended to cover the costs of studies for persons coming from the ENP countries and those specialising in the European Neighbourhood Policy (ENP) and for related academic activities including the sustainable functioning of the ENP Chair in the College of Europe, Natolin campus and other educational modules

The recently revised European Neighbourhood Policy, in the light of the Arab Spring, as projected by the Commission, the Council and the European Parliament in their respective decisions and resolutions, and in view of the Union for the Mediterranean and the Eastern Partnership, both of which relate directly to the Southern and Eastern Neighbourhood respectively, requires preparing, on a regular bases future European and neighbouring countries interlocutors, i.e. personnel for EU-ENP-related jobs. They should be fully and professionally acquainted on regular basis with the substance and spirit of Union policies, Union law and Union institutions and the *acquis communautaire*, and thus the ENP. This necessitates a focused and sophisticated offer, which can be delivered only by a highly recognised academic institution already specialising in this field that is the College of Europe. The two campuses of the College of Europe — one in Bruges, Belgium, close to the Brussels institutions and expertise, the other in Natolin/Warsaw, Poland, specialising in neighbourhood and border policies (with the Frontex agency being based in Warsaw) in the framework of the ENP Chair, already established thanks to the Union funding, are best-placed to offer tailor-made programs and other educational modules in this regard.

In a view of the accumulated and positive experience of this preparatory action the European Commission should guarantee that under new Multiannual Financial Framework this budgetary line with its own specific aims will continue in a sustainable way.

Remarks

This appropriation is intended to cover the completion of measures supported before 2007 under the following budget headings:

— subsidies for European interest organisations,

— framework programme in support of culture.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this Item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Creating a European Platform for festivals the European Union:

— adds value by increasing participation of festivals and citizens in Europe,

— aids the efforts of festivals in developing the Europe 2020 Strategy of growth and jobs,

— gives visibility to festival work at the local and regional levels and to moments of cultural heritage,

— promotes cultural tourism as part of the new Treaty,

— ensures sustainable networking and a broad communication process with citizens.

This pilot project multiplies the energy of festivals and contributes to the promotion of a smart, inclusive and sustainable Europe.

The European Heritage Label will be awarded to sites which have strong symbolic value for the Union and which highlight European history, the building of Union and European values and human rights that underpin the process of European integration. The aim is to bring citizens, especially young people, closer to the Union. However, the Label is also expected to act as an incentive to increase cultural tourism, bringing possible economic benefits.

This appropriation is intended to cover the costs of:

— the attribution of the Label through a selection procedure by a European panel of independent experts,

Remarks

This appropriation is intended to cover the following measures:

— support for the pre-production phase:

  — favour the acquisition of skills and qualifications for audiovisual professionals in the fields of scriptwriting, management and new technologies. For example: support the mobility of trainers; scholarships for professionals from the new Member States,

  — support the development of audiovisual works, in respect of the creative (scripts) as well as economical aspects (production strategies, distribution and promotion). For example: support the development of individual projects or catalogues of projects; support intended to facilitate access to financing by small and medium-sized enterprises, including the MEDIA Production Guarantee Fund,

— support for the post-production phase:

  — support the transnational distribution of European works, to improve the circulation of non-national European works. For example: support cinema and video distribution of non-national European films; automatic and selective support for distributors of non-national European films, support for promotion kits, support to digitisation,

  — improve the promotion of European works. For example: ensuring access by professionals to European and international markets; ensuring access by the audience to works reflecting European cultural diversity,

— support innovation and enable the programme to adapt to technological changes. Action: support pilot projects, notably in respect of digital technologies, including support to the digitisation of cinema theatres,

— support a network of information offices (MEDIA desks) throughout Europe,

— support for the European Audiovisual Observatory.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Special Annual Event: The European MOVE Week

Commitments: EUR 1 000 000

The European MOVE Week, organised by ISCA (International Sport and Culture Association), is a Europe-wide event promoting sport and physical activity and their positive impact on European societies. As part of the vision to get 100 million more Europeans to be active in sport and physical activity by 2020, the MOVE Week 2013 will display the true nature of grassroots sport and engage European citizens from all walks of life in activities right where they are — in the local communities. MOVE Week 2013 will thus feature a minimum of 200 events from all 27 Member States and a minimum of 100 cities in a large-scale celebration of sport and physical activity, introducing new sport and physical activity initiatives and highlighting the myriad of successful existing actions. The European MOVE Week 2013 will be the first week-long Europe-wide campaign using physical activity events in diverse settings to promote and celebrate active lifestyles.

Special Annual Event: Preparation of European Special Olympics Summer Games in Antwerp, Belgium 2014

Commitments: EUR 500 000

This appropriation is allocated to co-finance the essential preparation for the multi-annual event of the European Special Olympics Summer Games in Antwerp, Belgium (9 to 20 September 2014). This funding will allow participating athletes from all 27 Member States to train, to prepare and to attend the games in Belgium. The event will see 2 000 athletes and their delegations from 58 countries competing over 10 days. More than 4 000 volunteers will help to make this multi-sport event unique. Along with the sport activities, other events (scientific, educational and family programmes) will be set up. Antwerp will host the event and about 30 Belgian cities will host the athletes.

European University Championships

Commitments: EUR 500 000

The first European University Championships will be held in Italy in 2014, in Rome and in different cities of the Lazio Region and in other neighbouring regions and has received the complete approval of the Italian Government and the Italian Olympic Committee. For the first time a really new and remarkable Sport Event addressed to student athletes from all Member States will be organised. This event will contribute to the implementation of the Europe 2020 Strategy and to the achievement of the aims set out in the European Community 2007 White Paper on Sport promoting sports values. In order to encourage sports practice in harmony with the university spirit, the event aims to promote friendship, fraternity, cultural exchanges among students who one day may hold key positions in the society, to fight any form of violence and to carry out a permanent struggle against doping. In addition, sport practice promotes among university students a good healthy lifestyle and a development which is not just intellectual but also moral and physical. Seminars will be organised within the framework of the event to emphasise the role of sport as an important tool for improving people's psycho-physical well-being. Furthermore, the European University Championships gather together some of the most important targets of European policy: education/university networks, sport and youths.

The organisation of the Championships will follow the same schema of the Universiadi and in the world classification is in second position just after the Olympic Games.

The programme of Universiadi currently includes 10 compulsory sports (13 compulsory disciplines) and up to three optional sports.

Competitions of disabled people will also be included.

The expected number of university student athletes to attend the competitions is about 5 000 to 7 000.

The realisation of the event scheduled for summer 2014, will be preceded during 2013 by an intensive period of promotion through conferences, street events and media campaign.

This special event received the agreement and the support of FISU (International University Sports Federation) and EUSA (European University Sport Association).

Remarks

This appropriation is intended to cover completion costs of the preparatory action — European partnerships on sport.

This preparatory action will prepare for a programme in the field of sport for the period after 2013. It will test the feasibility and usefulness of existing ideas and concepts, with a view to creating a European dimension in sport.

The objective of this preparatory action is to test European partnerships, networks and the exchange of good practices. It will, in particular, focus on the following:

— fairness in sport competitions by supporting measures that prevent phenomena such as match-fixing,

— the physical and moral integrity of sportsmen and sportswomen, and training conditions for minors,

— the role of sport as an health-enhancing physical activity, in particular for elderly people,

— awareness-raising for the protection of the health of young athletes through monitoring and medical check-ups,

— mobility in sport, namely of volunteers, coaches and staff of non-profit sport organisations,

— awareness-raising activities as regards the social and educational function of sport,

— cross-border joint sport competitions in neighbouring regions and Member States,

— raising awareness of, and gathering of information on, 'indigenous sports' that form part of the shared cultural heritage in Europe,

— social inclusion and projects that support the local community; a sport organisation can prove its added value also outside sports-related issues.

In all of these areas, local needs with regard to population and age structure, inclusion, integration, accessibility, social isolation, fitness and health must be taken into consideration.

Part of the appropriations should support the European Capital of Sport initiative, set up by ACES Europe (Association of European Capitals and Cities of Sport), namely with a view of improving the governance of the organisation, especially the selection and award procedures, enlarging the geographical coverage and raising the profile of this initiative.

Remarks

In accordance with the 'Youth in Action programme 2007-2013', this appropriation is intended to cover the following measures:

— Youth for Europe: the aim of this action is to support exchanges between young people in order to increase their mobility and youth initiatives, projects and activities concerning participation in democratic life, in order to develop young people's citizenship and mutual understanding,

— European Voluntary Service: the aim of this action is to boost young people's participation in various forms of voluntary activities, both within and outside the Union,

— Youth of the World: the aim of this action is to support projects with the partner countries mentioned in Article 5 of Decision No 1719/2006/EC, in particular exchanges of young people and youth workers, and to support initiatives that reinforce young people's mutual understanding, sense of solidarity and the development of cooperation in the field of youth and civil society in these countries,

— youth workers and support systems: the aim of this action is to support bodies active at European level in the field of youth, in particular the operation of youth non-governmental organisations, their networking, the exchange, training and networking of youth workers, encouraging innovation and quality in the action undertaken, providing young people with information and developing the structures and activities needed for the programme to meet these goals,

— support for policy cooperation: the aim of this action is to organise dialogue between the various actors in the field of youth, in particular the young people themselves, youth workers and policymakers, to contribute to the development of policy cooperation in the youth field and to take the necessary steps and establish the networks necessary to better understand youth.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. Remarks

Europe needs to become more attractive to researchers, in order to increase its capacity and performance in research and technological development, while consolidating and further developing the European Research Area. Against the background of growing competition at world level, the development of an open and competitive European labour market for researchers with diverse, attractive career prospects is needed.

The added value of the support provided by the specific 'People' programme (implemented through the Marie Curie Actions, the Researchers' Night and the EURAXESS action) is the promotion of the international, interdisciplinary and intersectoral mobility of researchers as a key driver for European Innovation. Marie Curie Actions also foster stronger cooperation between education, research and businesses from different countries in the training and career development of researchers to broaden their skills and prepare them for the jobs of tomorrow. The Marie Curie Actions reinforce a closer partnership between education and businesses in order to increase knowledge exchange and enhance PhD training adapted to the needs of industry. By promoting employment conditions in line with the European researchers' charter and code, they contribute to making a research career in Europe more attractive.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

This appropriation will also cover expenditure corresponding to revenue giving rise to the provision of additional appropriations from (non-European Economic Area) third parties or third countries participating in projects in the field of research and technological development.

Any revenue entered in Items 6 0 1 3, 6 0 1 5, 6 0 1 6, 6 0 3 1 and 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Legal basis

Regulation (EC) No 1906/2006 of the European Parliament and of the Council of 18 December 2006 laying down the rules for the participation of undertakings, research centres and universities in actions under the Seventh Framework Programme and for the dissemination of research results (2007-2013) (OJ L 391, 30.12.2006, p. 1).

Remarks

This appropriation is intended to fund general information operations concerning the Union, for the purpose of increasing the visibility of the work of the Union institutions, the decisions taken and the stages in the building of Europe. It concerns essentially the funding or co-funding of the production and/or dissemination of multimedia (radio, TV, internet, etc.), information products, including pan-European networks made of local and national media, as well as the tools necessary to develop such a policy.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 50 000.

Irrespective of the beneficiary, no administrative expenditure against this article is authorised.

The Commission, when implementing this budget article, should take duly into account the outcome of the meetings of the Interinstitutional Group on Information (IGI).

Legal basis

Tasks resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover the Union's communication-related expenditure, focusing mainly on the media. The tools developed for better understanding and reporting of topical issues covers mainly:

— multimedia (photo, video, etc.) information material to feed the media and other platforms, including their publication/broadcasting,

— seminars and support for journalists organised by the Commission Representations or central services.

The Commission, when implementing this budget article, should take duly into account the outcome of the meetings of the Interinstitutional Group on Information (IGI).

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Remarks

This preparatory action for European research grants for journalists is intended to facilitate and develop serious cross-border journalistic research at Union level. Calls for tenders will be organised with a view to selecting common investigation projects involving journalists from at least two Member States, with a cross-border or European dimension resulting from a national, regional or local perspective. The results of the journalistic investigation selected will be published in at least all the Member States involved.

For this purpose, a feasibility study will be set-up in order to find new ways to launch this project. The study must look at ways in which independent, critical journalism can be funded by the Union, while ensuring the independence of information.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

Social media and the internet have drastically changed access to information and communication between people. The Union institutions should improve the way they use these groundbreaking tools. The Union institutions are not, as yet, very present on social media networks such as Twitter and Facebook and there is no joint communication policy between the various institutions on the use of these tools.

This pilot project aims at refocusing the Union's communication strategy towards social networks, internet and mobile services. Its objective is to improve access to information on Union policies, to involve Union citizens in sharing their Union experience and to involve Union citizens in the Union's decision-making process.

With this pilot project, the intention is to invest in a joint new media strategy on access to information and communication by the three main Union institutions.

Implementation of this project should take place on the basis of jointly agreed working methods between the involved Union institutions.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover the Union's expenditure on decentralised communication. The aim of local communication activities is in particular to provide target groups with the tools to gain a better understanding of burning topical issues.

These activities are implemented mainly via the Commission Representations in the Member States through:

— seminars and conferences,

— organisation of or participation in European events, exhibitions and public-relations activities, organisation of individual visits, etc.,

— direct communication measures targeted at the general public (e.g. citizens' advice services),

— direct communication measures targeted at opinion multipliers, in particular stepped-up measures involving the regional daily press, which is a major information outlet for a large number of Union citizens,

— the management of information centres for the general public in the Commission Representations.

This appropriation also covers the repayment of travel and related expenses of persons invited to follow the work of the Commission.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 5 000.

Remarks

This appropriation is intended to cover specifically the opening and management of 'European Public Spaces' (EPS) in the Europe Houses that are formally hosting the EPS. The Commission is to manage the logistical arrangements for the EPS for the benefit of both institutions (the European Parliament and the Commission), including operational costs and the organisation of contracted services. The EPS must be run jointly by the two institutions on the basis of an assessment report on the management and the functioning of the EPS, as well as of a working programme for the year to come. Both these documents, which are drafted jointly by the two institutions and constitute the fundamental elements for allocation of funds for the following year, are to be presented to the budgetary authority in time to be taken into account in the budgetary procedure.

Remarks

This appropriation is intended to fund communication activities mainly around communication priorities at Commission level and at Union level.

This appropriation is intended primarily to cover the provision of information to citizens, as far as possible in their mother tongue, about the Union's present and future options and involving them in a debate on this subject.

It covers in particular activities such as:

— communication operations linked to specific annual or multiannual communication priorities,

— ad hoc communication operations on a national or international scale that fit in with the communication priorities,

— communication operations organised in partnership with the European Parliament and/or the Member States in order to create synergies between the means of each partner and to coordinate their information and communication activities on the European Union. One of the privileged tools to address this approach is the management partnership.

This appropriation also covers the repayment of travel and related expenses of persons invited to follow the work of the Commission.

Implemented in close cooperation between the Union institutions and the authorities in the Member States and/or civil society, these activities take account of specific national and regional features.

The Interinstitutional Group on Information (IGI), co-chaired by the European Parliament, the Council and the Commission, lays down common guidelines for interinstitutional cooperation in matters of the Union's information and communication policy. It coordinates the central and decentralised public information activities on European topics. Each year the IGI gives its opinion on the priorities for the following years based on a report drawn up by the Commission.

Irrespective of the beneficiary, no administrative expenditure against this article is authorised.

This appropriation is intended to cover the analysis of trends in public opinion, mainly by means of opinion polls (e.g. general-public 'Eurobarometer' surveys, 'flash' surveys, by telephone, of specific populations on particular subjects, at regional, national, or European level, or qualitative surveys), together with quality control of these surveys.

It also covers qualitative media monitoring analysis.

The Commission, when implementing this budget article, should take duly into account the outcome of the meetings of the Interinstitutional Group on Information (IGI).

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Irrespective of the beneficiary, no administrative expenditure against this article is authorised.

Legal basis

Tasks resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover online multimedia and written information and communication tools concerning the European Union, for the purpose of providing all citizens with general information on the work of the Union institutions, the decisions taken and the stages in the building of Europe. Online tools make it possible to gather citizens' questions or reactions on European issues. This is a public service task. The information covers all the Union institutions. These tools must be made accessible to people with disabilities, in accordance with Web Accessibility Initiative (WAI) guidelines.

The main types of tool concerned are:

— the Europa site, which must constitute the main point of access to the existing information and websites concerning the administrative information which Union citizens might need in their daily lives and which therefore must be better structured and made more user-friendly,

— the *Europe Direct* contact centre (00800-67891011),

— the internet sites, multimedia and written products of the Commission Representations in the Member States,

— online press releases, speeches, memos, etc. (RAPID).

This appropriation is intended to fund the restructuring of the Europa site in a more coherent way. It is also intended to cover information campaigns for facilitating access to these sources of information, especially for the Europe Direct telephone number.

It also covers the expenditure relating to the production for various target groups of written publications concerning the Union's activities that are often distributed through a decentralised network, mainly:

— the Representations' publications (paper newsletters and periodicals): each Representation produces one or more publications that are distributed among multipliers and cover various fields (social, economic and political),

— the dissemination (also through a decentralised network) of specific basic information on the European Union (in all the official Union languages) for the general public, coordinated from headquarters, and promotion of the publications,

— the production and distribution of the 2013/2014 Europa Diary for school pupils.

Publishing costs cover, among other things, preparation and drafting (including authors' fees), freelance editing, use of documentation, reproduction of documents, data purchase or management, editing, translation, revision (including checking the concordance of texts), printing, posting on the internet or installation in any other electronic medium, distribution, storage, dissemination and promotion of the publications.

Remarks

1. *Objective*

The goal of this project is to develop a service concept and later a technology platform and service that can be used by any deaf or hard-of-hearing citizen within the Union to assist them with real-time live sign language interpretation by a certified sign language interpreter or a real-time captioning service (financed by the respective Member State or Union institution) in order to enable independent communication with the Union institutions, such as the European Parliament or the Commission. This entails that the overall goal is to develop an internet- and hand-held-device-based service and IT application that connects deaf and hard-of-hearing people to accredited sign language interpreters and captioners during their interaction with the Union institutions, such as the European Parliament and the Commission.

COMMISSION
TITLE 16 — COMMUNICATION

CHAPTER 16 04 — ANALYSIS AND COMMUNICATION TOOLS *(cont'd)*

16 04 05 *(cont'd)*

Justification for the project relates to the fact that there is currently no direct communication access for deaf citizens, including deaf or hard-of-hearing MEPs and administrators, with the institutions of the Union, and a sign language interpreter is almost always needed to enable a deaf or hard-of-hearing citizen to access the institutions. Usually an interpreter would accompany such citizens during a visit to the institution, requiring huge organisational efforts and incurring very high costs for everyone involved.

This pilot project shall ensure the direct communication access to all Union institutions for the almost one million deaf citizens and 60 to 80 million hard-of-hearing people using different sign languages in all Member States.

This pilot project is suggested in regards to the European Parliament resolution of 18 July 1988 on sign language for the deaf (OJ C 187, 18.7.1988, p. 236), the resolution of 18 November 1998 on sign languages (OJ C 379, 7.12.1998, p. 66) as well as the resolution of 25 October 2011 on mobility and inclusion of people with disabilities and the European Disability Strategy 2010-2020 (P7_TA(2011)0453).

2. *Implementation*

The project should first extract insights into the current communication situation of deaf and hard-of-hearing citizens with public institutions, as well as research relevant state-of-the-art communication technologies.

The project should then apply a collaborative and participative approach to create concepts such as an interactive interpretation and captioning service by involving deaf and hard-of-hearing citizens from all over the Union with the involvement and active partnership of the European Union of the Deaf (EUD), in this project, resulting in a service concept created by the actual end users.

Finally, the project should implement the developed concept into a live and freely launched application, resulting in a real-time translation system that can be accessed free of charge from the web, smart phones, or other hand-held devices.

The service platform and application can first be used for the institutions of the Union, such as the European Parliament and the Commission, and can later be offered to participating member states on a voluntary basis for use within their own public institutions.

3. *Forecast for 2013*

The overall timeline for this Pilot Project is estimated at 14 months and a total budget of EUR 1 100 000, which includes full implementation of the IT application and building up of the service platform free of charge.

The completion of the project, including implementation of the real-time system, is scheduled for January 2014. This would benefit the over 1 million deaf and hard-of-hearing citizens in Europe, as they can use the system prior to the upcoming European Parliament election in June 2014, enabling them to communicate directly with institutions of the Union and fully participate in the democratic process.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

The pilot project will initiate a process in which central figures and opinion makers from the creative sector will be brought together to formulate a new narrative on Europe. The task will be to qualify and reinterpret the existing narrative of peace through trade across borders — to identify a new vision for the European Union that is not solely about economy and growth, but also about cultural unity (community) and values. The task is to identify the European values and cultural aspects that unite citizens. This is needed if citizens are to believe in the Union project and if we are to strengthen public support.

The group will examine what the current perception of Europe is and come up with concrete suggestions on how to create a new identity for Europe containing a new narrative. This narrative should correspond to the history and core values of the Union and describe the cultural aspects that unite citizens in Europe.

The process should be administered professionally so as to make sure that the work of the group is carried out in a controlled manner, with the aim of coming up with a manifesto.

Aims of the pilot project:

— to produce a new narrative on Europe founded on the narrative of peace through trade,

— to create a narrative which will place Europe in a global context according to the new world order,

— to revive the European spirit and bring the Union closer to its citizens,

— to show the value of the European Union to its citizens,

— to identify the cultural values that unite citizens across borders,

— to finally formulate this narrative in a manifesto.

New item

The general purpose of the European Year shall be to enhance awareness of the rights attached to Union citizenship, in order to help citizens make full use of their right to move and reside freely within the territory of the Member States.

In this context, the European Year shall focus, among others, on the opportunities for civic participation and access to rights by Union citizens residing in another Member State than their own, by students, workers, consumers, and providers of goods and services across the Union.

On this basis, the specific objectives of the European Year shall be:

— to raise Union citizens' awareness of their right to move and reside freely within the Union and more generally the rights guaranteed to Union citizens in cross-border situations, including their right to participate in the democratic life of the Union,

— to raise Union citizens' awareness of how they can tangibly benefit from Union rights and policies while living in another Member State, and to stimulate their active participation in civic forums on Union policies and issues,

— to stimulate a debate about the impact and potential of the right to free movement, as an inalienable aspect of Union citizenship, in particular in terms of strengthening societal cohesion and mutual understanding between Union citizens and the bond between citizens and the Union.

Legal basis

Decision No 1093/2012/EU of the European Parliament and of the Council of 21 November 2012 on the European Year of Citizens (2013) (OJ L 325, 23.11.2012, p. 1).

Remarks

The objective of the preparatory action is to enable the establishment of the European Civil Society House (ECSH) physically as a resource centre and advice bureau on European rights and civic participation for both citizens and civil society organisations and as a user-friendly space for brainstorming, the exchange of ideas and networking of like-minded individuals concerned about Europe's future. In order to achieve this goal there is a need to:

— broaden the ECSH partnership base with key organisations at Union and national level that are interested in sharing the physical space of the ECSH or become national contact points providing services in different languages,

CHAPTER 16 05 — FOSTERING EUROPEAN CITIZENSHIP *(cont'd)*

16 05 09 *(cont'd)*

— implement wide spread consultations and outreach activities with citizens, local authorities and other stakeholders to expand ECSH supporters, create an enabling environment for its operation and define its services for the benefit of the communities and of Union citizens,

— plan the use of the physical premises of the ECSH in terms of a Union citizens' advice bureau, temporary work space for civil society organisations visiting Brussels, more permanent offices and sharing of facilities and know-how and ensuring a Union-wide place for citizens to meet and debate among themselves and with the institutions of the Union.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

Decision No 1926/2006/EC establishes a general framework for financing Union action in support of consumer policy (2007-2013) as defined in the multiannual strategy. The decision and the strategy entail two strategic objectives in the medium term:

— ensuring a high level of consumer protection, notably through improved evidence, better consultation and better representation of consumers' interests, and

— ensuring the effective application of consumer protection rules notably through enforcement cooperation, information, education and redress.

The consumer programme consolidates and expands the action areas of the 2002-2006 consumer programmes. It considerably expands Union activities on developing the knowledge and evidence base, enforcement cooperation, market surveillance and product safety, consumer education and capacity building for consumer organisations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

The overall objective of this pilot project is to better understand the functioning of the internal market from a consumer and demand-side perspective. This will be pursued through the collection of data and analysis of consumer behaviour.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

The purpose of the pilot project is to promote consumer empowerment, efficiency and stability of European financial markets, notably through consumer empowerment in financial services via training actions and the provision of advice to consumers.

The project includes:

— the mapping in each Member State of the non-profit entities that provide general advice on financial services to consumers, including the assessment of best practices for the provision of general financial advice,

— the identification of training needs relating to the financial advice of those entities,

— training courses in financial services for consumer associations and other interested non-profit parties who provide information and advice to end users of financial services.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover the Centre's personnel and administrative expenditure. In particular, Title 1 covers the salaries of permanent staff and seconded experts, the costs relating to recruitment, interim services, staff training and mission expenses. Title 2 'Expenditure' relates to the renting of the ECDC office facilities, the fitting-out of premises, information and communication technology, technical installations, logistics and other administrative costs.

The Centre must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

During the budgetary procedure and even during the financial year, when an amending letter or an amending budget is submitted, the Commission shall inform the budgetary authority beforehand of any changes in the Centre's budget, in particular concerning the establishment plans published in the budget, for which the budgetary authority's prior agreement is required. Such a procedure is in accordance with the provisions on transparency set out in the Interinstitutional Declaration of 17 November 1995 and implemented in the form of a code of conduct agreed by the European Parliament, the Commission and the agencies.

The Centre's establishment plan is set out in Annex 'Staff' to this section.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Remarks

The second health programme replaces the previous programme established by Decision No 1786/2002/EC and covers the period 2008-2013.

Since 2008, as far as the health area is concerned, the programme has been focusing on three pillars where action at Union level is essential:

(1) *Health information*

The objective of this pillar is to strengthen the collection, analysis, exchange and dissemination of health-related information in the Union — including on disabilities and 'dys' conditions — which is necessary to provide a solid foundation for health policymaking and is also needed by professionals for their work and by citizens to enable them to make healthy lifestyle choices.

Actions will further include research into multiple sclerosis, with special attention being paid to identifying the factors behind the difference in the incidence of the disease between northern and southern parts of Europe.

Actions should also include measures to help boost research into the possible causes of amyotrophic lateral sclerosis (ALS), with particular attention being paid to professional sports and the possible influence of substance abuse in the world of sport.

(2) *Health security*

The overall objective is to protect citizen against health threats.

An effective rapid response capability is needed to avoid threats to public health, for example arising from communicable diseases or chemical or biological attacks. Tackling such threats needs to be coordinated effectively at Union level. Union integration based on the principle of free movement increases the need for vigilance, in order to respond to major cross-border health threats such as avian flu, or bioterrorism.

COMMISSION
TITLE 17 — HEALTH AND CONSUMER PROTECTION

CHAPTER 17 03 — PUBLIC HEALTH *(cont'd)*

17 03 06 *(cont'd)*

Actions will further include the development of a pan-European sentinel network for the early detection of new threats in allergies, with particular attention being paid to the monitoring of allergy trends in patients, the reporting of all cases of rare or novel allergies in the field of inhalant, food, drug or contact allergy, to the dissemination of scientific results to policymakers, health care professionals and the general public, as well as the development of a sustainable system for a better awareness in identifying and correctly treating the dramatically increasing number of European citizens suffering from allergic diseases and asthma.

(3) *Promote health to improve prosperity and solidarity*

The overall objective is to contribute to the prosperity of the Union by fostering healthy ageing and bridging inequalities as well as to enhance solidarity between national health systems.

Actions will include initiatives to increase healthy life years and promote healthy ageing, to explore health's impact on productivity and labour participation, and to support the reduction of inequalities between Member States and investment in health, thus contributing to the Europe 2020 Strategy, and to productivity and growth. Actions will also enhance solidarity between health systems, including cooperation on shared challenges, thus facilitating the development of a Union framework for safe, high-quality and efficient health services. Actions should also include initiatives to evaluate, by independent organisations, the quality of service provided by emergency medical services from the moment an alert is launched by citizens (e.g. through emergency call numbers) until the victim is transferred to hospital care; the aim is to help improve emergency medical services on the basis of comparable data and the identification of best practices to be exchanged between Member States.

Actions will further include the promotion of health by tackling environmental, addiction and lifestyle determinants.

Non-governmental organisations are key players in the implementation of the programme. Therefore, they should be allocated adequate funds.

Actions will also include appropriate initiatives to follow up on the recommendations obtained through the Green Paper consultation on mental health, and in particular on strategies to prevent suicide across the lifespan.

The objective is also for the Commission to implement the Health In All Policies strategy under the Structural Funds. Such a project should cover proposals for methods on how health issues could be incorporated — in accordance with the Health In All Policies strategy — into regional development projects. The project aims to enhance overall health in the Union by means of capacity building in the context of regional development agencies.

The budget should cover training courses, international events, exchange of experiences, good practices, and international collaboration with a view to the practical use of Health Impact Assessment (HIA) both for local government and development agencies and for individuals or companies willing to apply for a grant provided by the Union.

With regard to the crucial importance of small and medium-sized enterprises in the Union, they should be provided with professional support for compliance with environmental health rules, and to help them make positive changes to environmental health affecting company operation.

A Union database on health issues and a database on environment issues should be interconnected so that further research could be improved for analysing the link between environment quality and state of health.

Remarks

This appropriation is intended to cover the Authority's operational expenditure relating to the work programme (Title 3).

It covers in particular:

— costs associated with supporting and holding meetings of the scientific committee and the scientific groups, working groups, the advisory forum, the Management Board and meetings with the scientific partners or interested parties,

— costs associated with the establishment of scientific opinions using external resources (contracts and subsidies),

— costs associated with the creation of data collection networks and the integration of the existing information systems,

— costs associated with the scientific and technical assistance to the Commission (Article 31),

— costs associated with the identification of logistical support measures,

— costs associated with technical and scientific cooperation,

— costs associated with the dissemination of scientific opinions,

— costs associated with communication activities.

The Authority must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

During the budgetary procedure and even during the financial year, when an amending letter or an amending budget is submitted, the Commission shall inform the budgetary authority beforehand of any changes in the budget of the agencies, in particular concerning the establishment plans published in the budget. Such a procedure is in accordance with the provisions on transparency set out in the Interinstitutional Declaration of 17 November 1995 and implemented in the form of a code of conduct agreed by the European Parliament, the Commission and the agencies.

The Union contribution for 2013 amounts to a total of EUR 76 000 000. An amount of EUR 1 666 000 coming from the recovery of surplus is added to the amount of EUR 74 334 000 entered in the budget.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. Remarks

This appropriation is intended to fund initiatives which help deal with the new employment situation in the health sector, particularly in relation to professional qualifications and duties carried out by healthcare workers, healthcare assistants and lower-skilled nurses and which help examine the effects of cross-border mobility both in the host country and the country of origin. Measures covered will include:

— analysing factors and policies with a view to better meeting the need for measures to increase the supply and improve the qualifications of health care staff in the long run,

— promoting exchanges on policies and best practices with a view to coping with the increase in care consumption due to demographic change,

— funding initiatives which help examine cross-border effects on health services,

— paying attention to the effects of different levels of remuneration, which may come to light in this context,

— studies, meetings with experts and information campaigns; a solution should also be found to maintain the level of care in national healthcare systems,

— analysing the relationship between healthcare and social care and work on producing comparable data. A solid database, which also includes gender and diversity aspects, will be crucial to enhance the open method of coordination when it has been extended to healthcare.

Remarks

Environment and health are important cross-sector fields in the European Environment and Health process connecting environmental policies and approaches. This process is vital for good quality of life and sustainable development. The objectives of the project are that the nine countries involved (Austria, Bosnia and Herzegovina, Finland, Hungary, Italy, the Netherlands, Norway, Serbia and Slovakia) should:

— assess the associations between the school environment and children's (respiratory) health,

— assess the associations between the impact of transport on the school environment and children's (respiratory) health,

— assess the associations between the impact of climate change on the school environment and children's (respiratory) health,

— issue recommendations for improving the quality of the school environment for the better health of children and a Guideline for Healthy European Schools.

This article has had no new commitment allocations since 2009. The funded initiatives are currently ongoing and completion is expected by the end of 2012.

Remarks

The pilot project aims at underlining the importance of a correct and healthy diet with a focus on the ageing population.

The ageing of the population of Europe is a demographic phenomenon that is due to a decrease in fertility and to an increase of life expectancy among European citizens.

The population of Europe is expected to age over the next 40 years and this phenomenon is closely related to nutrition issues.

As recognised in various studies, nutrition has a strong and important impact in the treatment and prevention of several diseases and in maintaining good health and quality of life in an ageing population.

With advancing age, there is a high incidence of chronic diseases. Evidence points to the important effect of nutrition and, in particular, of a balanced and healthy diet based on fruit and vegetables, and on one's susceptibility to such diseases and their development and outcome.

This project also seeks to provide parents and children with information on nutrition. It will focus on the early years of life, and could therefore cover prenatal nutrition, breastfeeding, and childhood nutrition. The project has two main objectives, namely to educate parents on the importance of good nutrition for their children, and to educate children so they consciously make healthy lifestyle choices throughout their lives. The project will operate within the framework of the Health Programme and will specifically address two of the programme's overarching objectives: that of promoting health and reducing health inequalities, and that of disseminating health information.

This pilot project will try to reach its target audiences through a range of channels, such as pre-natal classes, hospitals, nurseries and pre-school establishments, and schools. It should involve appropriate civil society organisations, such as health-orientated NGOs, as well as healthcare professionals such as, for instance, paediatric doctors and midwives, and national and regional health authorities. Cooperation between these different actors should aim to deliver targeted education about nutrition, independently of the food industry, to both parents and children. Information campaigns could be launched in the form of leaflets (to be given, for example, to pregnant mothers by midwives, or to parents by paediatric doctors) or presentations in schools.

Remarks

Diabetes mellitus type 2 is a chronic disease and one of Europe's biggest public health challenges. Over 30 000 000 European citizens are living with diabetes and this number clearly indicates that diabetes has reached the dimensions of a social and economic disaster. The average Union prevalence rate in the adult population of the Union is of 8,6 % and it is expected to grow to over 10 % by 2025. Diabetes is one of the top ten causes of disability, and leads to devastating complications such as cardiovascular disease, blindness and renal failure. As a result, a large proportion of healthcare budgets in the Union is currently spent on treating and managing diabetes and its complications. For example in 2010, an average of 10 % of the healthcare budgets in the Union was spent on diabetes.

Both the occurrence and consequences of type 2 diabetes have been shown to be preventable through various measures, such as timely identification of people at risk, development of awareness campaigns and educational programmes focused on encouraging healthy living habits and good quality preventive care. However, to ensure success in preventing diabetes, the burden of this growing epidemic must be addressed in a collaborative manner by all relevant stakeholders — healthcare professionals, people with diabetes, the general population, the media, the food industry, local market chains, and policymakers.

This pilot project proposes a two-phase innovative approach for diabetes prevention. The first phase will include the development of systematic approaches to the early diagnosis of people who already have diabetes and for the identification of those at risk, such as those with the metabolic syndrome. The second phase will consist of the development and evaluation of structured action programmes for diabetes prevention for those at risk.

(1) Population screening will be carried out on a small scale (3 000 to 10 000 people), meaning that screening will involve the whole population living in a certain village or town within five selected Member States. This innovative approach is proposed in order to:

— ensure maximum precision of the data evaluation,

— avoid the burden of administrative approvals that may be necessary for population screening at national level,

— efficiently manage the data acquired via screening and the impact of the implemented prevention measures,

— generate local enthusiasm towards the project's objectives and engage the attention of all relevant stakeholders.

(2) All relevant local stakeholders will be involved in the project and will work together in a coordinated manner:

— healthcare professionals will be involved in screening, monitoring/data collection, and in the development of educational programmes,

— the local population will be encouraged to develop a collaborative and an open attitude towards the screening programmes and to actively participate in educational activities on diabetes,

— the media will be involved in developing awareness campaigns and will help to disseminate the information about the objectives and status of the project,

— the food industry and local market chains will promote and encourage the consumption of food products with low content of saturated fats, trans-fats, salt and sugar,

— local government policymakers will translate the results of the project into guidelines and strategies for the prevention of diabetes.

CHAPTER 17 03 — PUBLIC HEALTH *(cont'd)*

17 03 13 *(cont'd)*

Objectives:

— to establish a coordinated collaboration between physicians and other healthcare professionals (nurses, nutritionists, psychologists, researchers), the general population, the food industry, local market chains, the media and local policymakers with a view to preventing type 2 diabetes,

— to develop small-scale screening programmes for the early diagnosis of people with diabetes and for the timely identification of people at risk. Population screening will be divided into four groups:

  — new-born screening for babies at risk (e.g. blood tests if one or both parents have diabetes),

  — screening of all school children and teenagers (e.g. blood tests, clinical examinations, evaluation of dietary habits, evaluation of physical activity, smoking, alcohol consumption, excess of fast-food, and others to be determined),

  — screening of the whole adult population (e.g. blood tests, clinical examinations, evaluation of food habits and relevant lifestyle factors),

  — screening of elderly people,

— to identify innovative approaches in order to involve the food industry and local public administration in the educational programmes,

— to develop educational programmes for the general population and especially for people diagnosed with type 2 diabetes, for those at risk and for the parents of new-borns or children suffering from diabetes or who are at risk,

— to establish standard screening programmes by identifying and selecting the best indicators/parameters to be measured, such as blood tests, food habits, physical activity, and others to be determined,

— to create a local food market which contribute to preventing the consumption of foods and drinks with high levels of sugar, salt, saturated fats and trans-fats,

— to organise workshops and seminars in order to educate the local population on the importance of food quality and food content. The activities of the workshops and seminars can be linked to campaigns promoting the consumption of fruit and vegetables. For instance, local market chains could sponsor such events by offering fruit and vegetables to participants.

Involved regions or countries: a selection of five towns or villages (3 000 to 10 000 citizens) from five Member States.

Expected outcomes

The overall project goal is to identify and develop best practices for the prevention of type 2 diabetes. It is expected that some of the villages or towns participating in the project will be able to develop and implement a successful local strategy for preventing type 2 diabetes. The most successful strategies may be then translated or incorporated into future Union and national initiatives on diabetes (e.g. guidelines or recommendation on diabetes, National Diabetes Plans). The impact of the prevention measures developed during the project can be only assessed after a period of approximately two years from the beginning of the project. This impact assessment will be done by closely monitoring the health status of the local population participating in the project.

Starting date of the project: June 2012.

End date of the project: June 2014.

Remarks

In 2009, based on bacteria most frequently isolated from blood cultures in Europe, the European Centre for Disease Prevention and Control estimated that each year these selected multidrug-resistant bacteria resulted in about 25 000 patient deaths and in extra healthcare costs and productivity losses of at least EUR 1,5 billion each year. Over the past few decades, the irresponsible and incorrect use of antibiotics has accelerated this trend. Antimicrobial resistance is therefore a phenomenon which clearly has cross-border implications and the occurrence of an outlier effect, which would most probably not be manageable with the current resources and knowledge, cannot be excluded.

Aims of the preparatory action:

— to study the issue of the inappropriate use and sale of antimicrobial agents with or without prescription throughout the chain — from the doctor and the pharmacist to the patient — in terms of behaviour of all actors involved, by choosing as study-cases the key Member States with the highest degree of access to antibiotics without prescription. The action will seek to better evaluate the reasons for the inappropriate use of antibiotics, assess the level of antibiotics sold without prescription in the target countries (including the countries where the enforcement of legislation is poor), identify the reasons for such high levels of sales without prescription, assess whether there is enough information reaching the relevant actors, identifying their motives, incentives, practices and the perception of the overall threat of antimicrobial resistance and make recommendations on how to best address this situation,

— to contribute and lead to a comprehensive and integrated Union policy against AMR.

Specific actions:

— thorough surveys in the groups to which this preparatory action is addressed,

— in-depth discussions,

— identification of study-cases in each key Member State.

Remarks

This appropriation is intended to cover the creation of a Union network of experts that will promote and sustain innovative and adapted care structures for adolescents with psychological problems (houses for teens). It will collect, exchange, develop and share experience, knowledge and best practices in this field. The network must be seen as a follow-up action to the European Mental Health Pact and the series of conferences organised by the Commission in this field (on the agenda of the interministerial meeting of employment, social policy, health and consumers affairs of 6 and 7 June 2011).

Remarks

Of those affected by intellectually debilitating diseases, children suffering from autistic spectrum disorders (ASD) are most likely to profit from a Union added value, and should therefore constitute a primary focus for action. At present, the lack of Union and national efforts regarding ASD patients who have reached adulthood and who are first diagnosed in adulthood negatively impacts/affects the Healthy Life Years and active ageing of that specific subpopulation.

The creation of a shared European perspective on autism spectrum disorders necessitates the encouragement of advocacy, transcultural and cost-effective clinical practices, research, and exchange of information and expertise. The ability of adults with autism to take care, or even provide for themselves depends on their intellectual properties and their ability to cope with the social and communicative demands of modern society. Patients first diagnosed in adulthood tend to have high intellectual capacities but still fail due to poor social and communicative skills. Specific support relies on the existence of tested protocols in order to detect the ASD symptoms/behavioural patterns that arise not only in severe forms of autism generally diagnosed in childhood but also in milder forms first diagnosed in adulthood. If properly taught social responses and accepted behaviours, autistic adults can function as contributing members of society. Presently, the majority of such high functioning autistic adults live socially isolated and rely on social support due to a lack of recognition of the specific form of high functioning autism and specific means to support these people.

Aim of the project

The objectives of this project should focus on the major issue surrounding ASD in adulthood, namely early detection of high functioning ASD and developments of means to support such people. The strategic objective is the improvement of the quality of life, social and vocational reintegration of individuals affected by ASD and avoidance of social disintegration and early retirement.

CHAPTER 17 03 — PUBLIC HEALTH *(cont'd)*

17 03 16 *(cont'd)*

Description of the project

The proposed action will build on the progress yielded by the European Autism Information System (EAIS) project (http://www.eais.eu/) via implementation of the protocols developed. This proposal is particularly focused on applying a public health model to ASD, with work packages on prevalence, screening, diagnosis and intervention.

There are three specific achievements to be reached for this project, The European Prevalence Protocol for early detection of Autism Spectrum Disorders in Europe. These are as follows:

(1) To estimate the prevalence of ASD in 6 to 9 pilot areas, to be located in different Member States, using the harmonised European Autism Prevalence Protocol developed by the EAIS project, and to validate aforementioned protocol in different languages and cultural settings. This will lead to the first continental study of autism prevalence and will ideally supply the European Commission with an accurate estimate of the number of ASD-afflicted individuals in Europe.

(2) To implement and, as much as possible validate a strategy for early identification of ASD in 6 to 9 pilot areas via the utilisation of the harmonised protocol developed by the EAIS project. This is to include a component of translating and adapting autism screening tools into different languages and cultural settings and to compare the results. Furthermore, this objective will aim to increase awareness of autism amongst public and professional communities, and aid in the training of health care professionals in order to improve their familiarity of and ability to recognise ASD in childhood and also high functioning variants in adulthood.

(3) To review current best practices on early intervention, diagnosis and clinical management on ASD, to collaborate with partners in order to review what is currently delivered by their services regarding early intervention for children and adults with ASD, and to identify specific needs and to then design a training program in intervention appropriate for that community and to make recommendations about staff training.

At the end of the project period, a clear picture of comparable, population-based prevalence rates in the Member States will exist. Moreover, the medical community will have guidelines on how to recognize ASD at an early stage and low and high functioning variants, and how best to diagnose and to medically intervene in order to assure best individually possible outcomes. The envisioned multicultural, poly-lingual experience will provide a unique opportunity for future expansion, both in Europe and worldwide, in order to improve the quality of life of people suffering from ASD. This project will lay a strong focus on disseminating the findings of this holistic public health approach broadly across European member countries, so that the potential benefits may be reaped by as many afflicted individuals and families as possible.

Project's interest: the identification of the cost, benefit of self care oriented health care systems in Europe, exchange of best practices, and potential areas for collaboration. Develop a deeper understanding of the opportunity offered by self care in the current economic and social context in the Union and identify barriers to present uptake. Test the possibility to implement best practices in certain Member States.

17 03 17 *(cont'd)*

Project objective: to put in place a framework for action to enhance self care at Union level and to develop strategies to support the broader implementation of effective self care.

(1) Undertaking by the Commission of an independent cost/benefit analysis of self care in the Union and the current frameworks in place to enhance self care and patients' empowerment:

— the Commission should launch a call for tender to conduct the Study and the mandate should be attributed to a respected academic,

— objective of the study:

  — review of available studies and data,

  — analysis of self care in the Union and Member States,

  — identification of advantages and barriers of patient empowerment uptake,

  — identification of the level of healthcare systems resources dealing with minor and self-limiting conditions that could be effectively managed through self care by motivated, empowered, and informed patients given the right support,

  — identification of best practices on self-care between Member States and testing of transferability.

— Based on the result of the study the Commission should identify different opportunities for action to promote self-care.

(2) Creation of a platform of experts in self care and healthcare gathering cross-functional stakeholders.

Model:

— Union and national policy makers, policy influencers, governments, academics, healthcare professionals, patients groups, consumers associations, industry, public and private healthcare insurers to take part,

— agenda with clear objectives, deliverables, and timeline,

— platform to be set up by the organization selected in the call for tender,

— objective of the platform:

  — identification of the gaps in the available data and the information that hinder present understanding of self care,

  — review and identification of the opportunities and barriers as identified in the Commission study,

  — identification of the scope and the priorities for action:

  — disease areas where the promotion of a self care system could bring an added value in the prevention and effective management of the disease,

  — relevant tools and mechanisms to promote a self care model,

  — publication of a Union guideline by the platform on how to promote self care on the agreed scope taking into account the results of the testing of best practices transfers in different Member States,

  — proposal of scenarios for Union collaboration in this field,

  — preparation of adapted communication tools to patient/consumers on prevention and disease management: awareness leaflets, interactive tools at the point of healthcare delivery,

  — increase access to diagnosis tools at the point of healthcare delivery, e.g.: blood pressure meter, spirometer, diet evaluation tools.

Remarks

Coronary artery disease (CAD) is one of the most frequent killers in women and men in Europe. Our study aims at establishing a best practice scheme across the Union, improving diagnosis and therapy by considering sex specific manifestations of the disease. This will largely improve diagnosis and treatment in women and men and basic principles may be translated to other diseases.

The objectives of the program are for the involved countries:

— to increase medical and public awareness about gender differences in CAD regarding clinical manifestations and incidence,

— to establish Union guidelines on gender specific manifestations of CAD and treatments,

— to examine gender implications on health determinants and risk factors,

— to disseminate the best practice plan in Member States.

Remarks

The Union's financial assistance helps accelerate the eradication or control of animal diseases by providing funds to supplement national financial resources and contributes to harmonising measures at Union level. The bulk of these diseases or infections are zoonoses communicable to man (BSE, brucellosis, avian influenza, salmonellosis, tuberculosis, etc.). Moreover, the persistence of the diseases in question hampers the smooth operation of the internal market; fighting them helps to improve the level of public health and to boost food safety in the Union.

Remarks

This appropriation is intended to cover the setting up of a European coordinated network for animal welfare, as called for by the European Parliament resolution of 5 May 2010 on the evaluation and assessment of the Animal Welfare Action Plan 2006-2010 (OJ C 81 E, 15.3.2011, p. 25). It should perform the tasks referred to in the Commission communication of 28 October 2009 on options for animal welfare labelling and the establishment of a European Network of Reference Centres for the protection and welfare of animals (COM(2009) 584 final).

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover the Union's contribution to measures for eliminating obstacles to the free movement of goods in these sectors, for veterinary support and as back-up action.

It consists in providing financial assistance:

— for the purchase, storage and formulation of foot-and-mouth antigens and of different vaccines,

— for an information policy in the field of animal protection, including information campaigns and programmes to inform the public about the harmlessness of consumption of meat from vaccinated animals, as well as information campaigns and programmes emphasising the humane aspects of vaccination strategies in the fight against contagious animal diseases,

— for the monitoring of compliance with animal-protection provisions during the transport of animals for slaughter,

— for the development of marker vaccines or tests that can distinguish between sick and vaccinated animals,

— for the establishment and maintenance of a rapid alert system, including a worldwide rapid alert system, for the notification of direct or indirect risks to human and animal health deriving from food or feed,

Remarks

The outbreak of some animal diseases in the Union could possibly have a major impact on the operation of the internal market and on the Union's commercial relations with third countries. Thus, it is important for the Union to make a financial contribution in order to allow the fastest eradication possible of any outbreak of a serious infectious disease in Member States by deploying Union resources to fight these diseases.

Remarks

This preparatory action was launched in 2008 to cover the costs of developing improved control posts (resting points) for animals during long journeys. In the interests of animal health and welfare, it has been necessary to introduce specific measures to avoid stress, for example, when animals are unloaded and reloaded, and to prevent the spread of infectious diseases.

Remarks

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2), including those stemming from the revision of the Agency's mandate, notably the establishment of the European Border Guard Teams, the task of providing fundamental rights training, the creation of a post of Fundamental Rights Officer and the setting up of a consultative forum.

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The budget of the Agency will be subject to amendment in 2013 when the Eurosur Regulation enters into force if additional resources are needed by the Agency to fulfil its new tasks under that regulation.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Any revenue from the contributions of Iceland, Norway, Switzerland and Liechtenstein entered in Item 6 3 1 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The Agency's establishment plan is set out in Annex 'Staff' to this section.

Remarks

This appropriation is intended to cover the Agency's operational expenditure relating to the work programme (Title 3), including those stemming from the revision of the Agency's mandate, notably the establishment of the European Border Guard Teams, the task of providing fundamental rights training, the creation of a post of Fundamental Rights Officer and the setting up of a consultative forum.

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure. The budget of the Agency will be subject to an amendment in 2013 when the Eurosur Regulation enters into force, if additional resources are needed by the Agency to fulfil its new tasks under this Regulation.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Any revenue from the contributions of Iceland, Norway, Switzerland and Liechtenstein entered in Item 6 3 1 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The Union contribution for 2013 amounts to a total of EUR 79 500 000. An amount of EUR 541 000 coming from the recovery of surplus is added to the amount of EUR 78 959 000 entered in the budget.

The appropriations foreseen in the operational budget would enable the Agency to sustain the commitment to permanent missions, notably at the southern borders of the Union (Hera, Nautilus and Poseidon), as from 2010 and to assist Member States with implementing the operational aspects of external border management, including return of third-country nationals illegally present in the Member States in accordance with common standards guaranteeing that they are returned with dignity and full respect for their human rights.

Remarks

This appropriation will provide support for Member State measures in the following areas:

— efficient organisation of control covering both checks and surveillance tasks relating to external borders,

— efficient management by the Member States of the flow of persons at the external borders, in order to ensure both a high level of border protection and smooth crossing of external borders in accordance with the Schengen *acquis*, including the principle of respectful treatment and dignity,

— uniform application by the border guards of Union law on the crossing of external borders,

— improvement of the management of activities organised by the consular and other services of the Member States in third countries as regards the flow of third-country nationals into the territory of the Member States and cooperation between Member States in this regard.

In particular, this appropriation is intended to support the following actions in the Member States:

— border crossing infrastructures and related buildings, such as border stations, helicopter landing places or lanes or booths for the queuing of vehicles and persons at border crossing points,

— infrastructure, buildings and systems required for surveillance between border crossing points and for protection against illegal crossing of the external border,

— operating equipment,

— means of transport for the surveillance of external borders, such as vehicles, vessels, helicopters, and light aircraft, specially equipped with electronic equipment for the surveillance of the border and the detection of persons in means of transport,

— equipment for the real-time exchange of information between relevant authorities,

— information and communication technology systems,

— programmes for the detachment and exchange between Member States of staff such as border guards, immigration officers and consular officers,

— training and education of staff in relevant authorities, including language training,

— investments in the development, testing and instalment of state of the art technology,

— studies and pilot projects implementing recommendations, operational standards and best practices resulting from operational cooperation between Member States in the field of border control,

— studies and pilot projects designed to stimulate innovation, facilitate exchanges of experience and good practice and improve the quality of the management of activities organised by the consular and other services of the Member States in third countries as regards the flow of third-country nationals in the territory of the Member States and cooperation between Member States in this regard,

— create a common Schengen visa Internet site in order to improve the visibility and uniform image of the common visa policy.

CHAPTER 18 02 — SOLIDARITY — EXTERNAL BORDERS, RETURN, VISA POLICY AND FREE MOVEMENT OF PEOPLE *(cont'd)*

18 02 06 *(cont'd)*

In the framework of the Kaliningrad Transit Scheme, this appropriation is intended to cover foregone fees from transit visas and additional costs (investment in infrastructures, training of border guards and rail staff, additional operational costs) incurred in implementing the Facilitated Transit Document and Facilitated Rail Transit Document scheme in accordance with Council Regulation (EC) No 693/2003 (OJ L 99, 17.4.2003, p. 8) and Council Regulation (EC) No 694/2003 (OJ L 99, 17.4.2003, p. 15).

At the Commission's initiative, it is also intended to cover transnational actions or actions of interest to the Union as a whole (Union actions) serving the general objective of contributing to the improvement of the activities organised by the consular and other services of the Member States in third countries as regards the flow of third-country nationals into the territory of the Member States and cooperation between Member States in this regard, including the activities of Asylum Liaison Officers and Immigration Liaison Officers, and the objective of promoting the progressive inclusion of customs, veterinary and phytosanitary controls in integrated border management activities according to policy developments in this field. These actions can also be used to provide supporting services to Member States in duly substantiated emergency situations requiring urgent action at the external borders of the Member States.

Moreover, each year the Commission will draw up a list of specific actions to be implemented by the Member States and, where appropriate, in cooperation with the Agency, that contribute to the development of the common integrated border management system by addressing weaknesses at strategic border points identified in risk analyses carried out by the Agency.

Any revenue from the contributions of Iceland, Norway, Switzerland and Liechtenstein entered in Item 6 3 1 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Conditions for releasing the reserve

The reserve will be released when a satisfactory outcome is achieved between the European Parliament and the Council on Schengen governance.

Remarks

This appropriation will provide support for Member State measures to improve the management of return in all its dimensions while respecting fundamental rights through the use of the concept of integrated management, taking account of Union legislation in this field, in the following areas:

— the introduction and improvement of the organisation and implementation of integrated return management by Member States,

— the enhancement of the cooperation between Member States in the framework of integrated return management and its implementation,

— the promotion of an effective and uniform application of common standards on return according to the policy development in the field, with priority for voluntary return schemes,

— the organisation of information campaigns in countries of origin and of transit for prospective displaced persons, refugees and asylum seekers. These campaigns can take place in the framework of better cooperation with third countries that combat irregular migration and promote legal migration.

At the Commission's initiative, this appropriation is also intended to cover transnational actions or actions of interest to the Union as a whole (Union actions) concerning return policy. Studies to determine the existence of and evaluate mechanisms to support reintegration in selected third countries and examine the patterns of social and professional reintegration in the most relevant countries of origin, specifically in immediate eastern and southern neighbourhoods, are also covered.

This appropriation is also intended to finance a Union action to compile data for collaboration and exchange of best practices among childcare workers in closed detention centres for asylum seekers and immigrants.

Remarks

This appropriation is intended to cover earlier commitments.

The purpose of the action is to test hypotheses in the field of migration management. On the basis of its evaluation, it could lead to the development of a global approach, an objective set by the Union. The action will be based on three related components.

Component 1: Financial assistance for the employment of immigrants returning to their countries of origin with which there are readmission agreements.

Component 2: Organising information campaigns, in countries of origin, for applicants for immigration into the Union so as to inform them in particular about the dangers of illegal immigration.

Component 3: Reception in dignity and solidarity — Assistance to Member States in coping with the reception of irregular migrants arriving by sea. Measures are intended to:

— assist Member States affected by sudden arrivals of migrants, e.g. by improving and exchanging good/best practices and providing interpreters and medical and legal teams,

— assist Member States to enhance reception quality and capacity, including temporary capacity, reception of irregular migrants at arrival points, e.g. by providing first aid and transport to adequate reception centres and improving/increasing reception facilities and conditions at those facilities,

— assist Member States in pooling resources to address particular pressures on their asylum systems, in particular through activities where specific expertise is needed, sharing knowledge and promoting joint approaches to address mass arrivals of asylum seekers at the external border of the Union.

For component 3, recipients of funding should be national authorities. Projects may include partnerships with other Member State authorities, international organisations and non-governmental organisations.

For all components, part of the appropriations should be used by the Commission to help in the management of this action (external experts, studies, etc.).

Legal basis

Remarks

This appropriation is intended to finance, as regards structural measures, projects and measures concerning the reception of refugees, displaced persons and asylum seekers which meet the conditions governing eligibility for Union financial aid.

It is intended to support Member States' efforts to integrate refugees and other persons granted supplementary support, and to allow displaced persons to lead a life for which they themselves are responsible, through measures taken chiefly in the following areas:

— facilitating access to employment, including vocational training,

— acquisition of knowledge of the language, society, culture and institutions of the host country,

— facilitating access to housing and to the medical and social infrastructure of the host country,

— support for persons in particular need of protection, such as women refugees, unaccompanied minors and torture victims, including victims of forced abortion, female genital mutilation or coerced sterilisation and rape victims,

— integration into local structures and activities,

— improvement in public awareness and understanding of refugees' situation,

— analysis of the situation of refugees in the Union,

— training on gender issues and child protection for officials, healthcare workers and police officers at reception centres,

— separate accommodation for single women and girls.

Moreover, it is intended to support efforts of the voluntary burden sharing operations by Member States, such as the resettlement, reception and integration by Member States of refugees coming from third countries and recognised by the United Nations High Commissioner for Refugees (UNHCR) and transfers of applicants and beneficiaries of international protection from one Member State to another which grants them equivalent protection.

Part of this appropriation will be used for supporting the Member States in direct cooperation with United Nations humanitarian and other agencies which on a voluntary basis extend resettlement in a flexible manner in acute refugee situations. The focus will be on the most vulnerable groups and cases where other durable solutions are regarded as having been ruled out.

CHAPTER 18 03 — MIGRATION FLOWS — COMMON IMMIGRATION AND ASYLUM POLICIES *(cont'd)*

18 03 03 *(cont'd)*

Particular attention should be given to when the appropriation can be used to demonstrate a significant and tangible act of solidarity at European level which can produce added value as part of a broader approach on delivery of humanitarian support to a country or region.

At the Commission's initiative, this appropriation is also intended to cover transnational actions or actions of interest to the Union as a whole (Union actions) concerning asylum policy and measures applicable to the target population of the Fund, in particular to offer adequate support to joint efforts by Member States to identify, share and promote best practices and establish effective cooperation structures in order to enhance the quality of decision making.

This appropriation is also intended to cover earlier commitments from ERF I and II, including those regarding voluntary repatriation.

It is also intended to finance a Union action to compile data for collaboration and exchange of best practices among childcare workers in closed detention centres for asylum seekers and immigrants.

A solidarity mechanism will be established to facilitate the voluntary reallocation of refugees and beneficiaries of international protection from Member States which are facing severe pressure from immigration flows to other Member States. The mechanism would be established at Union level and brought into operation on a trial basis so that it may eventually be continued under a Common European Asylum System. Member States would freely determine all aspects of the selection process on a voluntary basis. The Commission would set the framework, issue guidelines, encourage participation and facilitate management and coordination.

The mechanism should be established in line with the European Council Conclusions of 18 and 19 June 2009. The conclusions note that, in view of the present humanitarian emergency, concrete measures need to be quickly put in place and implemented. The European Council called for the coordination of voluntary measures for internal reallocation of beneficiaries of international protection present in the Member States exposed to specific and disproportionate pressures and highly vulnerable persons and welcomed the intention of the Commission to take initiatives in this respect, starting with a pilot project.

Remarks

In the event of mass influxes of refugees or displaced persons, emergency measures in the following areas can be taken under this article:

— reception and accommodation,

— provision of subsistence funds,

— medical, psychological and other assistance, aimed in particular at minors and including specialised assistance to women and girls who have fallen victim to harassment in any form or to criminal acts (rape, violence or specific forms of torture such as forced abortion, female genital mutilation or coerced sterilisation) or have suffered because of poor conditions as refugees,

— necessary staffing and administrative costs in connection with reception and carrying out the measures,

— expert missions and ancillary technical assistance for the identification of displaced persons,

— logistical and transport costs.

Under this provision, emergency measures can also be taken to address situations of particular pressure, characterised by the sudden arrival at particular points on the borders of a large number of third-country nationals who may be in need of international protection, where this places exceptionally heavy and urgent demands on the reception facilities, the asylum system or the infrastructure of the Member State(s) concerned and may give rise to risks to human life, well-being or access to protection provided for under Union legislation.

The duration of such measures must not exceed six months. Besides the measures listed above, emergency measures may include legal aid and language assistance and the provision of translation and interpretation services, country of origin information or expertise and other measures contributing to the rapid identification of persons who may be in need of international protection and to the fair and efficient processing of asylum applications.

Legal basis

Council Directive 2001/55/EC of 20 July 2001 on minimum standards for giving temporary protection in the event of a mass influx of displaced persons and on measures promoting a balance of effort between Member States in receiving such persons and bearing the consequences thereof (OJ L 212, 7.8.2001, p. 12).

Remarks

In view of the general objective of supporting the efforts of Member States to enable third-country nationals to fulfil the conditions of residence and to facilitate their integration into European societies, in accordance with the Common Basic Principles for immigrant integration policy in the European Union as adopted by the Council in November 2004 and with the European Parliament's resolution of 6 July 2006 on strategies and means for the integration of immigrants in the European Union (OJ C 303 E, 13.12.2006, p. 845), this appropriation will support measures in the following areas:

— facilitating the development and implementation of admission procedures relevant to and supportive of the integration process of third-country nationals,

— developing and implementing the integration process for third-country nationals in Member States,

— increasing the capacity of Member States to develop, implement, monitor and evaluate policies and measures for the integration of third-country nationals,

— exchanging information, best practice and cooperation in and between Member States in developing, implementing, monitoring and evaluating policies and measures for the integration of third-country nationals that will help, inter alia, to reduce the employment gap between immigrants and others, improve immigrant participation and performance in education, advance the education and employment prospects of immigrant women, language and introductory programmes, health, housing and urban living and enhancing civic participation by immigrants.

At the Commission's initiative, it is also intended to cover transnational actions or actions of interest to the Union as a whole (Union actions) concerning immigration and integration policy.

Legal basis

Remarks

The main objective of this pilot project is to establish a network of contacts and discussion between targeted municipalities and local authorities in Member States which have just started a resettlement programme, or wish to participate in the near future, and Member States which are experienced in resettlement, drawing on UNHCR and non-governmental organisation (NGO) experiences and best practices in the resettlement and reintegration of refugees. The pilot project will cover the following actions:

— identifying municipalities or local authorities in Member States that have just started resettlement programmes (e.g. Portugal, Romania) or are about to do so (e.g. Spain) and arranging meetings with selected municipalities or local authorities in resettlement countries (e.g. the UK and the Netherlands) with a view to strengthening 'new' resettlement programmes and ensuring that they are of a high quality and sustainable,

— identifying municipalities or local authorities or NGOs in Member States not yet participating in resettlement programmes, but wishing to join the network with a view to future participation in such programmes,

— holding meetings of representatives of the targeted local authorities and municipalities involved, along with the UNHCR, participating NGOs and representatives of resettled refugees, to lay down the activities to be developed jointly, including visits, exchanges of experience, training and thematic meetings focusing on issues such as housing, education and employment,

— designing a form for collecting information from the various stakeholders on procedures, types of monitoring prior to resettlement, types of information collected on the refugees to be resettled (including cultural, health and educational issues and diet), infrastructure, human resources, accommodation, reception, actions taken after resettlement for the integration of refugees, community participation in the process, any economic, legal or educational aid, the role of refugees already resettled in the integration process, and cooperation with NGOs,

— creating a task force, with the necessary human and technical resources, to make the practical arrangements for the project and in particular to provide for the necessary meetings, collect available information, create a website and content for it, thus increasing the exchange of information between the stakeholders in the resettlement process, and create links with existing resettlement-related projects and/or websites. This website will also allow information on past and future meetings between municipalities or local authorities to be made available to all interested parties on a systematic basis,

— collating the information gathered by the task force, which will then circulate it for discussion on the network, in order to draw conclusions on best practices.

The experience gained from the pilot project will be recorded and passed on to the Resettlement Unit in the European Asylum Support Office (EASO).

Remarks

The main objective of this pilot project is to create a new line of funding for the final benefit of victims of torture (EU or non-EU citizens) present in the Union. The pilot project will cover the following actions:

— to create rehabilitation centres for victims of torture or to support the existing ones by providing funds for their rehabilitation costs (premises, therapeutical staff, administrative staff, etc.) and their other activities (prevention, advocacy, training, legal support, etc.),

COMMISSION

— to provide access to multidisciplinary support and counselling, including physical and psychotherapeutic treatment, psychosocial counselling, legal services, and socio-economic support to the victims,

— to support international networking between rehabilitation centres (within and outside the Union) in order to build capacities, support the exchange of good practices among specialists, allow peer supervision as a means of prevention of vicarious trauma, etc.,

— to support activities which aim to empower torture victims themselves and, in general, to support the ability of torture victims to integrate into society in European countries.

Remarks

This preparatory action aims to create a new line of funding to support the resettlement of refugees in emergency conditions that are not covered by the current European Refugee Fund (ERF) rules, and will not be covered in the near future as the current Fund, in its third iteration (ERF III), lapses in 2014. The activities carried out in the framework of this preparatory action, and the experiences collected within that framework, could then be integrated in the revision of the ERF planned for 2014.

The following actions are covered by this preparatory action:

— to support persons already recognised as refugees by UNHCR and ERF falling victim to natural disasters, armed attacks, etc.,

— to support emergency action in the case of groups of refugees, identified as priorities according to ERF and UNHCR rules, who are under armed attack, that have been victims of a natural disaster, or that face other conjunctures of extreme vulnerability and of a life-threatening nature,

— to fund rapid resettlement procedures of the Member States in conditions replicated from the routine resettlement activities funded by the ERF,

— to guarantee financing for emergency procedures without disruption of the ongoing ERF resettlement procedures,

— to provide, where needed, extra financial support during emergencies to the Office of UNHCR and to its liaison organisations in the Member States and at Union level,

— to strengthen the activities of the European Asylum Support Office.

Remarks

The aim of this pilot project is to identify good practices on prevention, reception, protection and integration policies for unaccompanied minors. The child may be returned to his or her country of origin where it will be necessary to guarantee reintegration or may be given the status of international protection or other legal status that allows the child to integrate in the Member State of residence; alternatively, the child may be resettled in the Union. In all these cases it is important that the best interests of the child will be guaranteed. The pilot project should contribute to the implementation of the 2010 Commission action plan on unaccompanied minors (2010-2014) and actions specified thereof:

— identifying prevention actions and policies vis-à-vis the group to which the unaccompanied minors belong (e.g., asylum seekers, victims of trafficking, children who enter illegally into the Union) and/or the country or region of origin,

— identifying best practices on child reception and protection, and in particular on issues such as procedures at first encounter, legal representation, appointment of a guardian, access to and adequacy of reception facilities, initial interviews, education and medical care,

— identifying good practices in specific measures and procedural guarantees for unaccompanied minors in the Union,

— evaluating the various experiences of combating the phenomenon of missing children and identifying best practices,

— identifying best practices on restoring family unity and reintegration of unaccompanied minors in their countries of origin.

Remarks

Regarding the prevention and preparedness to terrorist attacks, this appropriation is intended to support the following areas:

— to stimulate, promote, and support risk and threat assessments on critical infrastructure, including evaluations on site, to identify possible targets of terrorist attacks and the possible need for upgrading their security,

— to promote and support the development of common security standards including cyber security, and an exchange of know-how and experience on protection of critical infrastructure,

— to promote and support Union wide coordination and cooperation on critical infrastructure protection.

Regarding the consequence management in case of terrorist attacks, this appropriation is intended to support the following areas:

— to stimulate, promote and support the exchange of know-how, experience and technology on the potential consequences of terrorist attacks,

— to stimulate, promote and support the development of relevant methodology and contingency plans, including with regard to a European cyber security strategy,

— to ensure real-time input of specific expertise on terrorism matters within overall crisis management, rapid alert and civil protection mechanisms.

In particular, this appropriation is intended to cover the following actions:

— actions on operational cooperation and coordination (strengthening networking, mutual confidence and understanding, development of contingency plans, exchange and dissemination of information, experience and best practice),

— analytical, monitoring, evaluation, audit and inspection activities,

— development and transfer of technology and methodology, particularly regarding information sharing and interoperability,

— training, exchange of staff and experts,

— awareness and dissemination activities, and

— provision of financial support for projects to help victims of terrorism and/or their families recover from their ordeal by availing themselves of social or psychological support offered by organisations and/or networks, and for projects to mobilise public opinion against all forms of terrorism.

Part of the appropriation will be used primarily to improve the legal assistance and advice provided to victims of terrorism and their families.

Conditions for releasing the reserve

The reserve will be released when a satisfactory outcome is achieved between the European Parliament and the Council on Schengen governance.

Remarks

This appropriation is intended to support the following areas:

— to promote and develop coordination, cooperation and mutual understanding among law enforcement agencies, and other institutions (in particular organisations active in preventing violence and crime), other national authorities and related Union bodies,

— to stimulate, promote and develop horizontal methods and tools necessary for strategically preventing and fighting crime and cybercrime, such as prevention of urban violence, in particular urban violence affecting minors, or measures to prevent and combat juvenile delinquency through exchanges of best practice, networking of the authorities responsible and the implementation of pilot projects, also in the field of rehabilitation of minors former prisoners, public-private partnerships, best practices in crime prevention, comparable statistics and applied criminology,

— to improve cooperation as regards the confiscation and seizure of assets and of proceeds from illegal activities of criminal organisations between the national agencies competent for the recovery of assets, and

— to promote and develop best practices for the protection of crime victims including victims with specific needs such as victims of gender based violence, victims of violence in close relationships and witnesses.

In particular, this appropriation is intended to cover the following actions:

— actions on operational cooperation and coordination (strengthening networking, mutual confidence and understanding, exchange and dissemination of information, experience and best practices),

— analytical, monitoring and evaluation activities,

— development and transfer of technology and methodology,

Remarks

This appropriation is intended to cover the funding of priority information measures in the field of home affairs.

It covers information and communication measures in the field of home affairs in relation to the establishment of an area of freedom, security and justice (internal web sites, public events, communication products, Eurobarometer surveys, etc.). These measures are designed to be an effective channel of communication and dialogue between Union citizens, stakeholders, and the Union institutions and take account of specific national, regional and local characteristics, in close cooperation with the Member State authorities.

The Commission has adopted a series of communications to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions on a new framework for cooperation in activities concerning the information and communication policy of the European Union (COM(2001) 354 final and COM(2002) 350 final). These communications propose an interinstitutional framework for cooperation extended to Member States for the development of a communication and information policy strategy for the Union.

The Interinstitutional Group on Information (IGI), co-chaired by the European Parliament, the Council and the Commission, lays down common guidelines for interinstitutional cooperation in matters of Union information and communication policy. It coordinates the central and decentralised public information activities on European topics. Each year the IGI gives its opinion on the priorities for the following years on the basis of information provided by the Commission.

Legal basis

Tasks resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of the Financial Regulation.

Remarks

This appropriation is intended to cover:

— expenditure on technical and administrative assistance which the Commission may delegate to an implementing agency governed by Union law,

— expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the beneficiaries and the Commission,

— expenditure on external staff at headquarters (contract agents, seconded national experts or agency staff) intended to take over the tasks previously conferred on dismantled technical assistance offices; expenditure on external staff at headquarters is limited to EUR 4 337 552. This estimate is based on a provisional annual unit cost per man-year, of which 93 % is accounted for by remuneration for the staff concerned and 7 % by the additional cost of training, meetings, missions, information technology (IT) and telecommunications relating to those staff members,

— expenditure on external staff in Union delegations (contract agents, local agents or seconded national experts) for the purposes of devolved programme management in the Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as the additional logistical and infrastructure cost, such as the cost of training, meetings, missions, IT and telecommunications and of renting directly caused by the presence in the delegation of the external staff remunerated from the appropriations in this item,

— expenditure on studies, meetings of experts, information systems and publications directly linked to the achievement of the objective of the programme.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Chapters 19 02, 19 09 and 19 10.

Remarks

As part of the rationalisation and simplification of the instruments for external actions for the Multiannual Financial Framework 2007-2013, the Aeneas programme, which provides for financial and technical assistance to third countries in the areas of migration and asylum, and was adopted on 10 March 2004 — and which followed the preparatory actions for 2001 to 2003 and the Communication from the Commission to the Council and the European Parliament of 3 December 2002 entitled 'Integrating migration issues in the European Union's relations with third countries' (COM(2002) 703 final) — was replaced by a thematic programme for cooperation with third countries in these fields under the financing instrument for development cooperation (DCI) (Regulation (EC) No 1905/2006).

The general aim of the DCI is to make the Union's external assistance more effective. Under this programme, the objective of the thematic programme on cooperation with third countries in the areas of migration and asylum is to support third countries in their efforts to ensure better management of migratory flows in all their dimensions. Appropriations are used to provide, in a specific and complementary way, technical and financial assistance for third countries to support them in these efforts.

The Union programme for the cooperation with third countries and regions of origin and transit has the objective of fostering the links between migration and development, as well as to mitigate the brain drain from south to north in the process, to promote well-managed labour migration, to fight illegal migration, to fight smuggling and the trafficking of human beings and facilitate re-admission, to protect migrants and to help third countries to improve their capacities to fulfil their international obligations in the field of asylum and migration.

This Union cooperation programme will finance appropriate actions which will join in a coherent way national and regional Union cooperation and development strategies regarding the third countries concerned and complete the actions — in particular in the fields of migration, asylum, border control, refugees and displaced people — provided for in the implementation of these strategies and financed from other Union instruments in the field of cooperation and development.

This thematic programme will, in the context of its new strategy, also take into account migration that results from climate change. The respect of democratic principles and the rule of law, as well as of human rights and of fundamental freedoms, will constitute an essential element for the application of this instrument. If necessary, and as far as possible, the actions financed will be associated with measures aimed at strengthening democracy and the rule of law and compliance with international instruments in this field, including the 1951 Geneva Convention relating to the status of refugees.

Partners eligible for financial support under this appropriation may include regional and international organisations and agencies (in particular, United Nations agencies), non-governmental organisations or other non-State actors, federal, national, provincial and local governments of third countries, their departments and agencies, institutes, associations and public and private operators.

CHAPTER 19 02 — COOPERATION WITH THIRD COUNTRIES IN THE AREA OF MIGRATION AND ASYLUM *(cont'd)*

19 02 01 *(cont'd)*

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

Remarks

The High Representative of the Union for Foreign Affairs and Security Policy must ensure that the European Parliament is closely involved in all stages of the decision-making process. The joint consultation meetings provided for under point 43 of the Interinstitutional Agreement of 17 May 2006 between the European Parliament, the Council and the Commission on budgetary discipline and sound financial management (OJ C 139, 14.6.2006, p. 1), which are to be further intensified on the basis of the Declaration by the High Representative on political accountability (OJ C 210, 3.8.2010, p. 1), must enhance a continuous dialogue between the High Representative and the European Parliament on the main choices for and aspects of the Union's CFSP, including consultations prior to the adoption of mandates and strategies.

19 03 01 ***Crisis management operations, conflict prevention, resolution and stabilisation, monitoring and security processes***

Remarks

Common Foreign and Security Policy (CFSP) crisis management measures and operations in the area of monitoring and verification of peace processes, conflict resolution and other stabilisation activities, rule of law and police missions fall under this article. Operations may be established to monitor border crossings, peace or cease-fire agreements or more generally political and security developments. As with all actions financed under the budget chapter, relevant measures must be civilian in nature.

Remarks

This appropriation is intended to cover the financing of preparatory measures to establish the conditions for Union actions in the field of the CFSP and the adoption of the necessary legal instruments. It may cover evaluation and analysis measures (*ex ante* evaluation of means, specific studies, organisation of meetings, fact-finding on the ground). In the field of Union crisis management operations and for European Union Special Representatives (EUSRs), in particular, preparatory measures may, inter alia, serve to assess the operational requirements for an envisaged action, to provide for a rapid initial deployment of personnel and resources (e.g. mission expenses, purchase of equipment, pre-financing of running and insurance costs in the start-up phase), or to take the necessary measures on the ground to prepare for the launching of the operation. It may also cover experts supporting Union crisis management operations on specific technical issues (e.g. identification and assessment of procurement needs) or security training for staff to be deployed to a CFSP mission/EUSR team.

It covers the following costs related to the warehouse for civilian CSDP missions: initial stock of the equipment, replenishment of the equipment, other services (procurement, reception and inspection, freight forwarding with export-import administration and insurance provision, preparation of equipment for shipping).

It also covers follow-up measures and audits of common foreign and security policy measures and the financing of any expenditure on the regularisation of previously closed measures.

This appropriation is also intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the measures coming under Articles 19 03 01, 19 03 02 and 19 03 06.

Legal basis

Remarks

The expenditure connected with the appointment of European Union Special Representatives (EUSRs) in accordance with Article 33 of the Treaty on European Union falls under this article.

EUSRs should be appointed with due regard for gender equality and gender mainstreaming policies, and the appointment of women EUSRs should therefore be promoted.

This appropriation covers expenditure on the salaries of EUSRs and on setting up their teams and/or support structures, including staff costs other than those relating to staff seconded by Member States or Union institutions. It also covers the costs of any projects implemented under the direct responsibility of an EUSR, and measures covering conflict prevention, mediation and support to peace processes.

Remarks

The general objective will be to contribute to the development and consolidation of democracy and respect for human rights, in accordance with Union policies and guidelines and in close cooperation with civil society.

Key areas of activity will include:

— enhancing respect for human rights and fundamental freedoms in countries and regions where they are most at risk, as well as promoting the rule of law,

— strengthening the role of civil society in promoting human rights and democratic reform, while ensuring the protection of human rights defenders and defenders of freedom of speech and freedom of the press, in supporting the peaceful conciliation of group interests and in consolidating political participation and representation,

— supporting actions on human rights and democracy issues in areas covered by Union guidelines, including on human rights dialogues, on human rights defenders, on the death penalty, on torture, including forced abortion, female genital mutilation or coerced sterilisation and on childhood and armed conflicts,

— strengthening the international framework for the protection of human rights, the rule of law and the promotion of democracy, in particular international criminal justice mechanisms and core legal instruments, with part of this support being provided to give legal advice and investigate the murders of human rights defenders and defenders of freedom of speech.

In order to ensure full financial transparency under Articles 53 to 56 of Regulation (EC, Euratom) No 1605/2002, the Commission, when entering into joint management with international organisations, will — upon request — undertake to make available to its Internal Auditor as well as to the European Court of Auditors all internal and external audits which concern the use of Union funds.

COMMISSION
TITLE 19 — EXTERNAL RELATIONS

CHAPTER 19 04 — EUROPEAN INSTRUMENT FOR DEMOCRACY AND HUMAN RIGHTS (EIDHR) *(cont'd)*

19 04 01 *(cont'd)*

Part of this appropriation will be devoted to the European Inter-University Centre for Human Rights and Democratisation, providing a European Master's Degree in Human Rights and Democratisation and an EU-UN Fellowship Programme, beyond the expiry by the end of 2006 of Decision No 791/2004/EC of the European Parliament and of the Council of 21 April 2004 establishing a Community action programme to promote bodies active at European level and support specific activities in the field of education and training (OJ L 138, 30.4.2004, p. 31).

Part of this appropriation will be devoted to fund independent initiatives promoting internet freedom, including the development of circumvention technologies and software to distribute to (online) human rights defenders with the goal of protecting themselves; to fund training for human rights defenders about technologies and human rights, and to organise regular and systematic contacts between Union politicians, the business community and civil society members to share knowledge and discuss policy plans related to technologies and human rights.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation is also intended to finance support for non-governmental organisations and human rights defenders working in the North Caucasus.

It is also intended to support organisations which, like the Club of Madrid, actively engage in fostering democratic leadership and values through high-level dialogue and peer-to-peer counsel with leaders in countries undergoing reform and transition towards democracy, as well as by addressing issues of global concern from a democratic perspective.

Part of this appropriation will be used for reinforced support for neighbouring countries that are members of the Council of Europe to meet Council of Europe standards on democracy and the rule of law, including support on strengthening the organisation of free and fair elections.

Part of this appropriation will be used to assist neighbouring countries that are members of the Council of Europe to abide by and adjust their legal and judicial systems in line with rulings of the European Court of Human Rights.

Part of this appropriation is intended to finance a European Union Global Internet Freedom Fund which would aim:

— to foster recognition that new communication technologies are used to advance tolerance and freedom of expression but can also be instrumental in repression or violence. To highlight that internet freedom is a major force in international affairs and should become an integral and mainstreamed part of the Union's foreign and security, trade and other relevant policy areas,

— to fund successful independent initiatives which develop circumvention technologies and software to distribute to human rights defenders with the goal of protecting themselves,

— to fund training for human rights defenders on technologies and human rights,

— to organise regular and systematic contacts between Union politicians, the business community and civil society members to share knowledge and discuss policy plans related to technologies and human rights.

Remarks

This appropriation covers completion of former cooperation under the European Initiative for Democracy and Human Rights.

This appropriation covers support for the establishment and maintenance of rehabilitation centres for torture victims — taking into account the gender-specific aspects of torture against women and girls — and their families and for other organisations offering concrete help to victims of human rights abuses. Support for the rehabilitation of torture victims must remain a priority. Projects may also include prevention activities when relevant.

This appropriation is intended to cover grant aid to projects undertaken in third countries and in the Union with the following objectives:

— the promotion and defence of human rights and fundamental freedoms,

— support for the democratisation process, strengthening of the rule of law and good governance,

— support for measures promoting respect for human rights and democratisation,

— support for efforts to foster the establishment of groupings of democratic countries within United Nations bodies, specialised agencies and regional organisations.

This appropriation covers financial support for building confidence in, and enhancing the reliability and transparency of, democratic electoral processes through deployment of European Union Election Observation Missions and support for observation capacity at regional and national level.

It is also intended to enable, in the Staff Regulations, the use of external staff providing support to electoral observation missions, including the financing of the chief observer contract with the Commission as special adviser under Articles 5 and 82 of the Conditions of Employment of Other Servants of the European Union.

This appropriation is intended to cover the financing of measures designed to improve the functioning of the United Nations International Court for the former Yugoslavia and the International Criminal Court for Rwanda, as well as support to the Special International Court for Sierra Leone.

CHAPTER 19 04 — EUROPEAN INSTRUMENT FOR DEMOCRACY AND HUMAN RIGHTS (EIDHR) *(cont'd)*

19 04 05 *(cont'd)*

It is also intended to cover funding for the operation of the International Criminal Court, including support for international, regional or local organisations, including non-governmental organisations, in order to promote further ratifications of the Statute of the Court, to provide legal expertise to transpose the Statute into national legislation, to enhance public support for the Court and to provide training regarding the Court's developments.

Legal basis

Council Regulation (EC) No 975/1999 of 29 April 1999 laying down the requirements for the implementation of development cooperation operations which contribute to the general objective of developing and consolidating democracy and the rule of law and to that of respecting human rights and fundamental freedoms (OJ L 120, 8.5.1999, p. 1).

Remarks

The aim of the EU-Russia Civil Society Forum is to establish regular and systematic contacts between civil society and non-governmental organisations in Russia and counterparts in the Member States. The forum will give the European and Russian civil society actors an opportunity to make their voice heard on topics of common interest. Forum meetings are to be held on the fringes of the biannual EU-Russia summits. The pilot project is intended to enhance a bottom-up approach in European and Russian policy processes.

Remarks

Cooperation with industrialised and other high-income countries and territories is aimed at engaging with partners which share similar political, economic and institutional structures and values to the Union and which are important bilateral partners and players in multilateral forums and in global governance. The cooperation also covers newly industrialised or high-income countries and territories with whom the Union has a strategic interest in promoting links.

Specific attention shall be paid to measures, which may include a regional dimension, in the following areas of cooperation:

— the promotion of cooperation, partnerships and joint undertakings between economic, academic and scientific actors in the Union and partner countries,

— the stimulation of bilateral trade, investment flows and economic partnerships,

— the promotion of dialogue between political, economic and social actors and other non-governmental organisations in relevant sectors in the Union and partner countries,

— the promotion of people-to-people links, education and training programmes and intellectual exchanges and the enhancement of mutual understanding between cultures and civilisations,

— the promotion of cooperative projects in areas such as research, science and technology, energy, transport and environmental matters — including climate change, customs and financial issues and any other matter of mutual interest between the Union and the partner countries,

— the enhancement of awareness about and understanding of the Union and of its visibility in partner countries,

— support for specific initiatives, including research work, studies, pilot schemes or joint projects destined to respond in an effective and flexible manner to cooperation objectives arising from developments in the Union's bilateral relationship with the partner countries or aiming to provide impetus to the further deepening and broadening of bilateral relationships with them.

Funding will be made available and prioritised for projects organised by European organisations aimed at enhancing the awareness and understanding of European issues and perspectives in the United States of America.

Remarks

This pilot project is intended to foster common transatlantic approaches to key international policy challenges. Measures under this pilot project will aim at improving the efficacy of actions by the international community and be complementary to existing mechanisms. The pilot project will be used to fund innovative ventures between European and US policymakers that are beyond the scope of the current tools available under existing legal instruments. In implementing this action the Commission will ensure a balanced distribution of subsidies. It will also help engage the US administration to strengthen the transatlantic partnership. Finally, it will provide an opportunity for presenting Union thinking to US academics.

Remarks

The quick release of financing through the Instrument for Stability is designed to address situations of urgency, crisis or emerging crisis, a situation posing a threat to democracy, law and order, to the protection of human rights and fundamental freedoms, to the security and safety of individuals, situations threatening to escalate into armed conflict or to destabilise the country concerned and where such situations are likely to jeopardise the beneficial effects of assistance and cooperation policies and programmes, their effectiveness and/or conditions for their proper implementation.

This appropriation is intended to cover an integrated programme of response measures designed to re-establish the minimum conditions necessary for the conduct of assistance under the Union's long-term assistance instruments. Such programmes will ensure a smooth link between relief, rehabilitation and development. They shall also provide complementary measures falling under Community competence relating to measures adopted under the CFSP, as part of a comprehensive Union approach to crises.

The appropriation is also intended to cover response measures to prevent and reduce climate-change-induced hazards, in particular management of water resources, in cases where these hazards risk escalating into security threats.

Operations covered will include, inter alia:

— the setting up of a network and facility for mediation and dialogue services and experience sharing that could be considered integral to the establishment of a European Initiative or Institute for Peace,

— technical and logistical support for the efforts of international and regional organisations, state and non-state actors in promoting confidence-building, mediation, dialogue and reconciliation,

— the relaunch of basic public services and economic activity,

— the initial physical and operational rehabilitation of basic infrastructure, including mine clearance,

— social reintegration, in particular of refugees, displaced persons and demobilised combatants,

— the restoration of the institutional capacities needed for good governance and ensuring the rule of law and democracy,

— assisting with the special needs of women and children affected by armed conflict, particularly rehabilitation of children affected by war, including child soldiers, also in cooperation with the UN under Under-Secretary-General, Special Representative for Children and Armed Conflict,

— preparedness measures aimed at strengthening the capacity of international, regional and sub-regional organisations, state and non-state actors in relation to their efforts in promoting early warning, confidence-building, mediation and reconciliation and addressing emerging inter-community tensions, and in improving post-conflict and post-disaster recovery. In this regard, the Commission will also enhance the capacity of civil society organisations, building upon previous support under the conflict prevention network preparatory action,

— support for international criminal tribunals and ad hoc national tribunals, truth and reconciliation commissions, and mechanisms for the legal settlement of human rights claims,

— support for measures to address, in the context of Union cooperation policies and their objectives, the impact on the civilian population of the illicit use of and access to firearms,

— support for measures to promote and defend respect for human rights,

— support for measures to support the development and organisation of civil society.

Implementing partners may include authorities of the Member States or of beneficiary countries and their agencies, regional and international organisations and their agencies, non-governmental organisations, public and private operators and individual organisations or operators (including staff seconded from Member State administrations) with appropriate specialised expertise and experience.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Remarks

This appropriation is intended to cover, in addition to the funding allocated to anti-personnel mine schemes under cooperation programmes with the beneficiary countries concerned, Community contribution to projects against anti-personnel landmines, in particular schemes relating to implementation of the Ottawa Treaty (Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction).

It is also intended to cover actions aimed at the rehabilitation of victims of anti-personnel mines.

It is intended to cover a whole range of actions such as mine clearance, stockpile destruction, mine risk education, survey of suspected areas and victim assistance.

It also includes financing of activities of non-governmental organisations to raise the issue of the landmine problem with non-State armed groups which are 'part of the problem' and therefore should also be 'part of the solution'.

Remarks

This appropriation is intended to cover actions aiming to help safeguard countries and populations against critical technological threats. This may, inter alia, include:

— the promotion of civilian research activities as an alternative to defence-related research, and support for the retraining and alternative employment of scientists and engineers having formerly been employed in weapons-related areas,

— support for measures to enhance safety practice related to civilian facilities where sensitive chemical, biological, radiological or nuclear materials or agents are stored, or are handled in the context of civilian research programmes,

— support, within the framework of Union cooperation policies and their objectives, for the establishment of civil infrastructure and relevant civilian studies necessary for the dismantlement, remediation or conversion of weapons-related facilities and sites where these are declared as no longer belonging to a defence programme,

— strengthening the capacity of the competent civilian authorities involved in the development and enforcement of effective control of the trafficking in chemical, biological, radiological and nuclear materials or agents (including the equipment for their production or delivery), including through the installation of modern logistical evaluation and control equipment,

— the development of the legal framework and institutional capacities for the establishment and enforcement of effective export controls on dual-use goods, including measures of regional cooperation,

— the development of effective civilian disaster preparedness, emergency planning, crisis response, and capabilities for clean-up measures in relation to possible major environmental incidents in this field.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Remarks

This appropriation is intended to cover new actions aimed at furthering cooperation between the Union and third countries in relation to global and regional trans-border challenges affecting the security and fundamental rights of the citizen.

Measures in the field of counter terrorism shall fully respect a third country's international human rights obligations and applicable humanitarian law in line with the Commission's declaration annexed to Regulation (EC) No 1717/2006.

Such measures will cover:

— strengthening the capacity of law enforcement and judicial and civil authorities involved in the fight against terrorism and organised crime, including illicit trafficking of people, drugs, firearms and explosive materials, and in the effective control of illegal trade and transit,

— support for measures to address threats to international transport, and critical infrastructure, including passenger and freight traffic,

— ensuring an adequate response to major threats to public health, such as epidemics with a potential trans-national impact,

— support for measures aimed at fostering the implementation of, and compliance with, the Ottawa Convention on Anti-Personnel Landmines (APL) and the Oslo Convention on Cluster Munitions (CCM); part of this appropriation is to be used for actions to control and remove anti-personnel landmines, cluster munitions and explosive remnants of war (ERW), including research, education, training and assistance to victims.

Such measures may be adopted under this instrument in the context of stable conditions, where they aim to address specific global and trans-regional threats having a destabilising effect, and only to the extent that an adequate and effective response cannot be provided under related Union instruments for external assistance. This appropriation is also intended to cover completion of payments for measures funded under former Article 19 02 11 'North-south cooperation schemes in the campaign against drugs and drug addiction'.

This appropriation is intended to cover the financing of:

— the promotion of an effective nuclear safety culture at all levels, in particular through:

  — continuous support for regulatory bodies, technical support organisations, and the reinforcement of the regulatory framework, notably concerning licensing activities,

  — drawing notably on the experience of the operators, on site and external assistance programmes as well as consulting and related activities aiming at safety improvements of the design, operation and maintenance of nuclear power plants that are currently licensed and other existing nuclear installations so that high safety levels can be achieved,

  — support for the safe transport, treatment and disposal of spent nuclear fuel and radioactive waste, and

  — the development and implementation of strategies for decommissioning existing installations and the remediation of former nuclear sites,

— the promotion of effective regulatory frameworks, procedures and systems to ensure adequate protection against ionising radiations from radioactive materials, in particular from high activity radioactive sources, and their safe disposal,

— the establishment of the necessary regulatory framework and methodologies for the implementation of nuclear safeguards, including for the proper accounting and control of fissile materials at State and operators level,

— the establishment of effective arrangements for the prevention of accidents with radiological consequences as well as the mitigation of such consequences should they occur, and for emergency-planning, preparedness and response, civil protection and rehabilitation measures,

— measures to promote international cooperation (including in the framework of relevant international organisations, notably IAEA) in the abovementioned fields, including the implementation and monitoring of international conventions and treaties, exchange of information and training and research.

Remarks

This appropriation, which is complementary to the capacity building activities as provided for by the Peacebuilding Partnership under the Instrument for Stability, is intended to finance a programme of NGO-led peacebuilding activities in order to support the Union's commitments to prevent conflict and build peace outside its borders.

Activities to be financed under this pilot project will include: research on and analysis of specific conflicts; support for peace processes, mediation and dialogue; support to disarmament, demobilisation and reintegration (DDR) processes and broader post-conflict economic development; support to local actor participation in peace settlements; civil society involvement in security sector reform (SSR), justice sector reform and transitional justice processes; promotion of conflict-sensitive development practices; international and national-level advocacy work to encourage peacebuilding and the prevention of violent conflict; the development and management of early warning systems; the promotion of the role of women in peacebuilding; unarmed civilian peacekeeping; and the deployment of professionals to sustain local actors by reducing and preventing violence, and by supporting dialogue, sustainable peace and a conflict-resilient society.

The pilot project could also serve as a test case for Union support for NGO-led peacebuilding activities and could thus lead to the eventual establishment of a permanent mechanism for short-, medium- and long-term financing in this area.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

The Union aims to establish an area of prosperity and friendly neighbourliness involving Member States and the neighbouring partner countries (1). To that effect the Union has established agreements with most neighbouring countries as well as European Neighbourhood Policy Action Plans to implement such agreements. This negotiated framework is aimed at developing a stronger and deeper relation based on shared values and mutual interest and involving a significant degree of economic integration and political cooperation. The Union has also engaged with Russia in a genuine strategic partnership, founded on common interests and shared values and based on the creation of four 'common spaces'. The appropriations under this chapter are intended to cover cooperation measures aimed at supporting the implementation of such agreements. Cooperation with those countries with whom such agreements are not yet signed or do not exist — such as for Belarus, Libya or Syria — will be based on Union policy objectives.

Remarks

Part of this appropriation is intended to be used, with due regard to the provisions of the Financial Regulation, for operations carried out by senior volunteer experts from the European Union who come under the European Senior Services Network (ESSN), including technical assistance, advisory services and training in selected public or private sector enterprises.

This appropriation is intended in particular to finance cooperation measures aimed primarily at supporting the implementation of the Multiannual Indicative Programmes covering periods 2007-2010 and 2011-2013 of the ENP Action Plans concluded with the Union's Mediterranean neighbours. It will also be used to support the implementation of the Regional Indicative Programme for 2011-2012 as well as certain measures in the framework of the Union for the Mediterranean which was launched at the Paris summit on 13 July 2008. This will cover, inter alia, the following areas of cooperation:

— promoting political dialogue and reform,

— promoting legislative and regulatory approximation and encouraging the progressive participation of partner countries in the internal market and the intensification of trade,

(1) This includes 17 countries, of which seven (Armenia, Azerbaijan, Belarus, Georgia, Moldova, the Russian Federation and Ukraine) located to the east of the Union and 10 (Algeria, Egypt, Jordan, Israel, Lebanon, Libya, Morocco, the Palestinian Authority, Syria and Tunisia) located to the south of the Union.

— strengthening the national institutions responsible for the development and implementation of policies in the areas covered by the association agreements,

— promoting respect for human rights and fundamental freedoms and enhanced respect for minority rights, combating anti-semitism, promoting gender equality and non-discrimination, and promoting good governance,

— promoting sustainable development and contributing to poverty reduction,

— supporting the modernisation of the economy, promoting investments in the region and strengthening small- and medium-sized enterprises,

— establishing better transport and energy interconnections between the Union and neighbouring countries and among neighbouring countries themselves and addressing threats to our common environment,

— promoting actions contributing to conflict resolution,

— fostering the development of civil society, inter alia, to promote social inclusion and encourage under-represented groups to gain a voice and participate in civil society and the political system,

— promoting people-to-people contacts and exchanges in the field of education, research and culture,

— contributing to the financing of the operations of the United Nations Relief and Works Agency for Palestine Refugees (UNRWA) in Lebanon, Syria and Jordan, in particular its health, education and social services programmes,

— supporting regional integration within the context of the Euro-Mediterranean Partnership and in particular the promotion of regional cooperation, the creation of networks and partnerships of public and private not-for-profit organisations with a view to exchanging knowledge and best practices in all the relevant fields,

— supporting actions in the field of migration, designed inter alia to promote links between migration and development, to combat illegal immigration and to facilitate readmission. These actions will be supplemented by actions financed from the ENPI allocation from Article 19 02 01 'Cooperation with third countries in the areas of migration and asylum'.

— supporting programs and campaigns aiming at the promotion of non-violence as an appropriate method for conflict prevention, the protection of minorities and the enhancement of free and fair societies; the support of initiatives promoting, through non-violent means, the respect of legality and rule of law. The promotion of non-violence is implemented namely by supporting: non-violent empowerment (disseminating best practices to populations and training activists), and information to oppressed peoples, especially ethnic and other minorities through radio programmes,

— horizontal visibility of Union assistance and information actions and measures directly linked to achievement of the objectives of Union action in Mediterranean third countries.

The allocation of funds between beneficiary countries and areas of cooperation should be based on the 'more for more' principle, and individual allocations should be increased or decreased if necessary in order to reflect the level of political progress made by partner governments.

Should there be a serious deterioration in a given country in the field of liberty, democracy, respect for fundamental rights and fundamental freedoms and the rule of law, Union assistance may be scaled down and used primarily to support non-state actors for measures aimed at promoting human rights and fundamental freedoms. With the exception of humanitarian aid, and implementation aid by NGOs, the United Nations' agencies or by impartial operators, assistance to governments should not be provided if the governments are responsible for a clear worsening of the situation in the field of democracy, the rule of law and respect for fundamental rights and freedoms.

19 08 01 01 *(cont'd)*

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

This appropriation is also intended to cover the following expenditure:

— studying the effects of climate change on the quality of water in the Mediterranean,

— studying pollution along the Mediterranean coastline,

— examining the state of the underwater energy infrastructure (gas pipelines, oil pipelines, electricity cables, etc.),

— promoting the networking of public and private research centres engaged in monitoring the water of the Mediterranean and the condition of the coastline with a view to exchanging data, sharing research findings, and developing joint proposals for intervention and protection policies.

Remarks

In the framework of the emerging democratisation in the Southern Mediterranean neighbours, the two-way flow of young professionals from both sides of the Mediterranean at professional level is an essential feature for the consolidation of democracy and the inclusion of young professionals in the job market.

The main aim of the preparatory action is to promote and enhance the mutual exchange of young professionals on both sides of the Mediterranean. The activities will also cover vocational traineeships.

Remarks

The new enhanced European Neighbourhood Policy, as projected by the European Parliament and the Council in their respective decisions and resolutions, especially in the light of the two major neighbourhood political projects, namely the Union for the Mediterranean and the Eastern Partnership, makes it necessary to prepare future Union contact points, i.e. personnel for EU-ENP-related jobs in the neighbourhood countries from Morocco to Belarus. They should be made fully acquainted in a professional manner with the substance and spirit of Union policies and institutions and the *acquis* of the Union.

TITLE 19 — EXTERNAL RELATIONS

CHAPTER 19 08 — EUROPEAN NEIGHBOURHOOD POLICY AND RELATIONS WITH RUSSIA *(cont'd)*

19 08 02 Cross-border cooperation (CBC) — European Neighbourhood and Partnership Instrument (ENPI)

Remarks

Cross-border cooperation on the Union's external borders is a key priority both in the European Neighbourhood Policy and in the Union's Strategic Partnership with Russia, as well as within the Black Sea Synergy. The adoption of the European Neighbourhood and Partnership Instrument (ENPI) has considerably enhanced the scope for cross-border cooperation, both qualitatively and quantitatively. Under the new approach, cross-border cooperation programmes established on the Union's external border will draw on funds from both the external and internal headings of the general budget of the Union and be implemented in accordance with a single set of rules, namely those established under Regulation (EC) No 1638/2006 of the European Parliament and of the Council of 24 October 2006 laying down general provisions establishing a European Neighbourhood and Partnership Instrument (OJ L 310, 9.11.2006, p. 1). The global amounts of the contributions from the two headings are provided in the two budget items presented under this article.

This appropriation is intended to fund a number of cross-border cooperation programmes, established along all the land and maritime borders. Such programmes will provide a tangible signal that the Union does not want to establish new dividing lines and they will also strengthen the partnership among border regions of the Union and neighbouring countries and help them to deal with common development problems. They will focus on the following five main objectives:

— promoting economic and social development in regions on both sides of common borders,

— working together to address common challenges, in fields such as the environment, public health and the prevention of and the fight against organised crime,

— ensuring efficient and secure borders,

— promoting local, cross-border 'people-to-people' actions,

— fostering the development of civil society, inter alia, to promote social inclusion.

Appropriations under this article will also be used for actions aimed at improving the level and capacity of implementation as well as for actions aimed at informing the general public and the potential beneficiaries of assistance and at increasing the visibility of Union assistance.

The allocation of funds between beneficiary countries and areas of cooperation should be based on the 'more for more' principle, and individual allocations should be increased or decreased if necessary in order to reflect the level of political progress made by partner governments.

Should there be a serious deterioration in a given country in the field of liberty, democracy, respect for fundamental rights and fundamental freedoms and the rule of law, Union assistance may be scaled down and used primarily to support non-state actors for measures aimed at promoting human rights and fundamental freedoms. With the exception of humanitarian aid, and implementation aid by NGOs, the United Nations' agencies or by impartial operators, assistance to governments should not be provided if the governments are responsible for a clear worsening of the situation in the field of democracy, the rule of law and respect for fundamental rights and freedoms.

Remarks

The purpose of development cooperation under this heading is primarily its contribution to support the promotion of democracy, good governance, respect for human rights and for the rule of law, and fostering sustainable development and economic integration, as well as to achieving the Millennium Development Goals.

In accordance with the Commission Declaration concerning Article 5 of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41) (DCI), for countries defined as Official Development Assistance (ODA) recipients by the OECD Development Assistance Committee (DAC), the Commission will continue to report annually on the benchmark, used in the past but now superseded, of 35 % of assistance to developing countries to be allocated to social infrastructure and services, recognising that the Union contribution must be seen as part of the overall donor support to the social sectors and that a degree of flexibility must be the norm. Moreover, also in accordance with that Commission Declaration, the Commission will endeavour to ensure that a benchmark of 20 % of its allocated assistance under country programmes covered by the DCI will be dedicated to basic and secondary education and basic health, through project, programme or budget support linked to these sectors, taking an average across all geographical areas and recognising that a degree of flexibility must be the norm, such as in cases where exceptional assistance is involved.

Before July each year, the Commission will provide to the European Parliament and the Council an annual report on the Union's development policy and external assistance, meeting all the Commission's regulatory reporting requirements and giving full details of development cooperation, especially the extent to which it has met its objectives. In particular, the report will:

— present the strategic objectives of the Union's development policy and its contribution towards the previous 35 % benchmark for social infrastructure and services and the current 20 % benchmark for basic and secondary education and basic health, in the context of the geographical cooperation under the DCI, and assess the efficiency and effectiveness of cooperation, including progress made in coordinating aid, in improving the coherence of the Union's strategy in its external actions, and in integrating the cross-cutting issues such as gender, human rights, conflict prevention and the environment,

— present the main results of evaluation and monitoring reports, as an indication of the extent to which its actions are achieving their objectives,

— summarise the key features and events of cooperation in each geographical region, and

— provide financial information on the support given to each sector, in accordance with OECD reporting criteria.

Remarks

This appropriation is intended to cover cooperation schemes in developing countries in Latin America in order to:

— assist institutional support to good governance and help consolidate democracy, human rights and the rule of law,

— promote social cohesion, combat poverty and social exclusion, with particular attention being paid to the poverty trap faced by people with disabilities,

— promote an SME-friendly business climate through legal property rights, cutting red tape and improving access to credit as well as improving associations of small and medium-sized enterprises,

— support regional integration,

— improve the standard of education and health,

— promote the increased use of information and communications technologies,

— support capacity-building, in particular in the least-developed countries, to help them to integrate better into the multilateral trading system, including improving their ability to participate in the WTO,

— encourage the transfer of know-how and promote contact and collaboration between business players on both sides,

— promote a more favourable climate for economic expansion and hence development in the countries concerned,

— promote the sustainable use of natural resources, sustainable energy and the combating of climate change,

— support disaster prevention and risk reduction, including climate-change-related hazards,

— support trade unions, non-governmental organisations (NGOs) and local initiatives to monitor the impact of European investments on the national economy, particularly codes of conduct and sector agreements incorporating respect for labour, environmental, social and human rights standards,

— foster the development of civil society, encourage less well represented groups to gain a voice and participate in civil society and the political system, combat all forms of discrimination, and strengthen the rights of women and children and other particularly vulnerable groups, including persons with disabilities and older persons,

Part of this appropriation is intended to be used to fund international programmes in favour of gender equality and the empowerment of women, including through the framework of UN WOMEN.

With the exception of humanitarian aid, assistance to governments should not be provided if the governments are responsible for clear worsening of the situation in the field of democracy, the rule of law and respect for fundamental rights and freedoms.

This appropriation also covers capacity-building actions to assist agricultural producers in developing countries to meet Union sanitary and phytosanitary standards necessary for access to the Union market.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight and audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006. Part of this appropriation is intended to support, amongst others, initiatives such as the EU-ALC Foundation (decided at the summit of EU-ALC Heads of States and Governments) and the Biarritz Forum.

COMMISSION
TITLE 19 — EXTERNAL RELATIONS

CHAPTER 19 09 — RELATIONS WITH LATIN AMERICA *(cont'd)*

19 09 01 *(cont'd)*

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Part of this appropriation is intended to be used, with due regard for the Financial Regulation, for operations carried out by senior volunteer experts from the Union who come under the European Senior Services Network (ESSN), including technical assistance, advisory services and training in selected public or private sector enterprises.

Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

With the exception of humanitarian aid, and implementation aid by NGOs or by the United Nations' agencies or by impartial operators, assistance to governments should not be provided if the governments are responsible for clear worsening of the situation in the field of democracy, the rule of law and respect for fundamental rights and freedoms.

Legal basis

Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41).

Remarks

This appropriation is intended to cover cooperation measures for middle income countries and other developing countries in Latin America.

This appropriation is intended to finance cooperation measures which do not fulfil the criteria for Official Development Assistance (ODA) as established by the Development Assistance Committee of the Organisation for Economic Cooperation and Development (OECD/DAC) and which therefore fall outside the scope of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41) (Article 2(4)), in particular measures for cooperation in sectors capable of developing independently, the result being that the investment from the general budget of the Union makes no contribution towards combating poverty in Latin American countries.

19 10 01 Cooperation with developing countries in Asia

Remarks

This appropriation is intended to cover the financing of development schemes in Asian developing countries, in particular the poorest of them, aimed at improving human and social development as well as tackling macroeconomic and sectoral problems. Emphasis is placed on operations influencing economic organisation and institutional development, improving the human rights situation, including freedom of worship, the strengthening of civil society, including operations concerning democratisation, education, vocational training, lifelong learning, academic and cultural exchange, scientific and technological exchange, the environment, tropical forests, anti-drugs campaigns, regional cooperation, disaster prevention and reconstruction measures, as well as the promotion of sustainable energy and information and communications technology.

The Commission produces an annual report covering all its external aid activities.

Also charged to this article is expenditure on operations and other measures of a horizontal nature to enhance the profile or increase awareness of Union cooperation with Asian developing countries.

It is also intended to cover support for the development of civil society and, in particular, support for the activities of non-governmental organisations promoting and defending the rights of vulnerable groups, such as women, children, ethnic minorities and people with disabilities.

This appropriation is also intended to cover the promotion of an SME-friendly business climate through legal property rights, cutting red tape and improving access to credit as well as improving associations of small and medium-sized enterprises.

Utilisation of this appropriation is dependent on observance of the principles underpinning Union action.

The appropriation is also intended, with a view to the mutual interest of the Union and its partners, to cover various kinds of operation involving technical assistance, training, technology transfer and institutional back-up in the fields of trade promotion, energy (notably renewable energy), environment, management, etc., in order to:

— improve the economic, social, cultural, legal and regulatory context and facilitate economic relations and trade between the Union and Asia,

— foster regional integration,

— support capacity-building, in particular in the least developed countries, to help them to better integrate into the multilateral trading system, including their abilities to participate in the WTO,

— encourage the transfer of know-how and promote contact and collaboration between business players on both sides,

— promote a more favourable climate for economic expansion and hence development in the countries concerned,

— promote social development, social cohesion and fair income distribution,

— promote the increased use of information and communications technologies.

This appropriation is also intended to cover future Union initiatives to support and promote a continuous dialogue and cooperation between the private sector and research communities in the Union and India in a wide range of fields, by strengthening and encouraging partnership and exchanges and supporting joint initiatives and by improving the information flow with regard to market access in trade and investment, most notably in the context of a future EU-India free-trade agreement.

It also covers education for children affected by war or natural disasters.

These measures may be financed jointly with non-governmental organisations and international organisations.

This appropriation is also intended to support disaster prevention and risk reduction, including climate-change-related hazards.

This appropriation is intended to also cover Union operations in the framework of the Afghanistan reconstruction process.

The Commission will monitor compliance with the conditions for the Union contribution to this process, notably full implementation of the letter and the spirit of the Bonn-Petersberg Agreement. It will keep the budgetary authority informed about its findings and conclusions.

This appropriation is also intended to support the Afghanistan national drug control strategy, including halting the production of opium in Afghanistan, and the disruption and destruction of the opium networks and illegal export routes to European countries.

Part of this appropriation is intended to be used, with due regard for the Financial Regulation, to improve the situation of women, with priority for actions in the fields of health and education, and to support their active involvement in all areas and at all levels of decision-making.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

This appropriation is intended to cover development schemes in Asian developing countries, in particular the poorest of them, aimed at improving human and social development as well as tackling macroeconomic and sectoral problems. In accordance with the Commission Declaration concerning Article 5 of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41) (DCI), the Commission will endeavour to ensure that a benchmark of 20 % of its allocated assistance under country programmes covered by the DCI will be dedicated to basic and secondary education and basic health, through project, programme or budget support linked to these sectors, taking an average across all geographical areas and recognising that a degree of flexibility must be the norm, such as in cases where exceptional assistance is involved.

Emphasis is placed on operations influencing economic organisation and institutional development, improving the human rights situation, including freedom of worship, the strengthening of civil society, including operations concerning democratisation, universal access for children of both sexes and women as well as children with disabilities to primary and secondary education, the environment, and the sustainable management of natural resources, including tropical forests, regional cooperation, disaster prevention and risk reduction, including climate-change-related hazards, and reconstruction measures, as well as the promotion of sustainable energy, the fight against climate change and information and communications technology.

This appropriation is also intended to cover measures promoting conflict prevention, conflict resolution and reconciliation.

This appropriation is also intended to cover expenditure on operations and other measures of a horizontal nature to enhance the profile or increase awareness of Union cooperation with Asian developing countries.

It is also intended to cover support for the development of civil society and, in particular, support for the activities of non-governmental organisations promoting and defending the rights of vulnerable groups, such as women, children, ethnic minorities and people with disabilities.

It is also intended to cover support for microcredit schemes.

This appropriation is also intended to cover capacity-building actions to assist agricultural producers in developing countries to meet Union sanitary and phytosanitary standards necessary for access to the Union market.

Utilisation of this appropriation is dependent on observance of the principles underpinning Union action.

It is also intended to cover measures influencing economic organisation and institutional development.

This appropriation is also intended to cover technical assistance, training, technology transfer and institutional back-up in the fields of trade promotion, energy (notably renewable energy), environment, management, etc., in order to:

— foster regional integration,

— support capacity-building, in particular in the least developed countries, to help them to better integrate into the multilateral trading system, including their abilities to participate in the WTO,

— encourage the transfer of know-how and promote contact and collaboration between business players on both sides,

— promote social development, social cohesion and fair income distribution,

— promote the increased use of information and communications technologies,

— foster the development of civil society, encouraging less well-represented groups to gain a voice and participate in civil society and the political system, combating all forms of discrimination, and strengthen the rights of women and children and other particularly vulnerable groups, including persons with disabilities and older persons.

It is also intended to cover education for children affected by war or natural disasters.

These measures may be financed jointly with non-governmental organisations and international organisations.

Part of this appropriation is intended to be used, with due regard for the Financial Regulation, to improve the situation of women, with priority for actions in the fields of health and education, and to support their active involvement in all areas and at all levels of decision-making.

Part of this appropriation is intended to be used for actions to control and remove anti-personnel landmines (APL), explosive remnants of war (ERW) and illicit small arms and light weapons (SALW).

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight and audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006. Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Part of this appropriation is intended to be used on the improvement of the position of Christian and other religious minorities in Pakistan.

Remarks

This appropriation is intended to cover Union operations in the framework of the Afghanistan reconstruction process. It is supplemented by expenditure from other chapters and articles, to which different procedures apply.

The Commission will monitor compliance with the conditions for the Union contribution to this process, notably full implementation of the post-Bonn process. It will keep the budgetary authority informed on its findings and conclusions.

This appropriation is intended to support basic social services and economic development in Afghanistan.

This appropriation is also intended to support the Afghanistan national drug control strategy, including halting the production of opium in Afghanistan, and the disruption and destruction of the opium networks and illegal export routes to European countries.

A relevant part of this appropriation must be exclusively devoted to fund the start up of the five-year plan for phasing out opium cultivation by replacing it with alternative production in order to obtain a verifiable outcome in this field, in line with the demands expressed in the European Parliament resolution of 16 December 2010 on a new strategy for Afghanistan (OJ C 169 E, 15.6.2012, p. 108).

This appropriation is also intended to support the Union contribution to the processes for the return of Afghan refugees and displaced persons to their country and regions of origin in accordance with the commitments entered into by the European Community at the Tokyo Conference in January 2002.

This appropriation is also intended to finance activities of women's organisations which have worked for a long time for Afghan women's rights.

The Union should increase its financial assistance in Afghanistan for areas such as health (construction and renovation of hospitals, prevention of child mortality) and small and medium-sized infrastructure projects (repairing of road network, embankments, etc.), as well as effectively implementing job security and food security schemes.

Part of this appropriation is intended to be used for mainstreaming of disaster risk reduction, based on ownership and national strategies of disaster-prone countries.

Part of this appropriation is intended to be used, with due regard for the Financial Regulation, to improve the situation of women, with priority for actions in the fields of health and education, and to support their active involvement in all areas and at all levels of decision-making.

Particular attention will also be paid to the situation of women and girls in all other actions and projects supported by this appropriation.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Remarks

This preparatory action is intended to support exchanges between European and Indian businesses and industries, as well as research institutions. This is important in the context of improving links between Union businesses and researchers in fast-growing economies such as India. The action is in line with paragraph 4 of the European Parliament resolution of 18 May 2006 on the 2007 budget: the Commission's Annual Policy Strategy report (APS) (OJ C 297 E, 7.12.2006, p. 357), which noted that 'insufficient attention has been given … to the vast and very rapid changes underway in the global economy, notably in emerging economies such as India and China'.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover cooperation measures, in middle income countries and other developing countries in Asia, which do not fulfil the criteria for Official Development Assistance (ODA) as established by the Development Assistance Committee of the Organisation for Economic Cooperation and Development (OECD/DAC) and which therefore fall outside the scope of Article 2(4) of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41), in particular measures for cooperation in sectors capable of developing independently, the result being that the investment from the general budget of the Union makes no contribution towards combating poverty in Asian countries.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover the financing or part-financing of assistance measures at government, institutional, non-governmental organisation and private sector level designed to support poverty reduction, promotion and protection of human rights, transition to a market economy, strengthen democracy and the rule of law and promoting conflict prevention, conflict resolution and reconciliation in the partner States.

The abovementioned measures cover, inter alia, support for institutional, legal and administrative reform, support to the private sector and assistance for economic development, support in addressing the social consequences of transition, including social sectors reforms, the development of infrastructure networks, the promotion of environmental protection and management of natural resources, sustainable energy, the combat against climate change, disaster prevention and risk reduction, including climate-change-related hazards and development of the rural economy.

This appropriation is also intended to cover actions in the areas of basic social services, including basic education, basic health, reproductive health, including HIV/AIDS, combating forced abortion, female genital mutilation and coerced sterilisation, basic drinking water supply and basic sanitation.

Remarks

This appropriation is intended to cover the financing of evaluations, monitoring and support measures during the programming, preparation, implementation stages of development operations, strategies and policies, including the following:

— effectiveness, efficiency, relevance, impact and viability studies,

— monitoring of operations in the course of implementation and after their completion,

— support measures to improve the quality of monitoring systems, methodologies and practices concerning ongoing operations and the preparation of future operations,

— feedback of and information activities on findings, conclusions and recommendations of evaluations into the decision making cycle,

— methodological developments to improve the quality and utility of evaluations, including research, feedback, information and training activities thereon.

This appropriation also covers the financing of audit activities concerning the management of programmes and projects implemented by the Commission in the external aid field. It will also cover the financing of training activities, based on the special rules governing Union external aid and organised for external auditors.

Furthermore, this appropriation is also intended to support continued efforts to develop further development cooperation impact measurements and indicators.

Finally, this appropriation is intended to cover expenditure on studies and development of methodological tools, meetings of experts, information and publications, as well as knowledge-sharing and training activities concerning the design and implementation of external assistance programmes, in particular on the project and programme cycle management and on capacity development.

Remarks

The information activities to be carried out under this article fall into two broad categories: horizontal activities and logistical support from headquarters, and activities carried out by Union delegations in third countries and vis-à-vis international organisations.

Measures carried out from headquarters:

— the European Union visitors programme (EUVP), carried out jointly by the European Parliament and the Commission, provides some 170 participants a year, chosen by the Union delegations, with the opportunity of experiencing contact with the Union by visiting the European Parliament and the Commission as part of a made-to-measure individual programme of visits based on a theme,

— the production and distribution of publications on priority themes as part of an annual programme,

— the production and dissemination of audiovisual material,

— the development of information delivered via electronic media (the internet and electronic message systems),

— the organisation of visits for groups of journalists,

— the support for the information activities of opinion leaders that are consistent with the Union's priorities,

The Commission will continue to fund news broadcasts in Farsi.

Decentralised measures carried out by Union delegations in third countries and vis-à-vis international organisations

In accordance with the communication goals laid down for each region and each country, the Union delegations propose an annual communication plan, which, once approved by headquarters, is assigned a budgetary allocation covering the following activities:

— websites,

— relations with the media (press conferences, seminars, radio programmes, etc.),

— information products (other publications, graphic material, etc.),

— organisation of events, including cultural activities,

— newsletters,

— information campaigns.

Remarks

This appropriation is intended to cover the funding of priority information and communication activities directed towards the citizens of the Union and dealing with the Union's external policies as a whole.

The areas which will be covered by information activities include those below, but may embrace other aspects of the Union's external relations, particularly in relation to the future of the Union's external policy:

— addressing the weak public perception of external assistance. The objective is to make clear that external assistance is an integral part of what the Union does and is one of the crucial policies that define the Union and its role in the world, and to raise awareness of the fact that the Union is delivering tangible results on behalf of Union citizens to fight poverty and to provide high-quality sustainable development worldwide,

— the 'European Neighbourhood Policy' (ENP). The (ENP) was launched on the basis of a communication from the Commission to the Council and the European Parliament of 11 March 2003 entitled 'Wider Europe — Neighbourhood: A new framework for relations with our eastern and southern neighbours' (COM(2003) 104 final). The actions which are part of this activity will continue to provide information on the activities of the Union in the framework of its 'European Neighbourhood Policy',

— information activities, to be carried out in cooperation with the Council, on the aims and development of the common foreign and security policy,

— the organisation of visits for groups of representatives of civil society.

The Commission has adopted two communications to the European Parliament, the Council, the Economic and Social Committee and the Committee of the Regions on a new framework for cooperation in activities concerning the information and communication policy of the European Union (COM(2001) 354 final and COM(2002) 350 final). They propose an interinstitutional framework for cooperation between the institutions and with the Member States for the development of a communication and information policy strategy for the Union.

The Interinstitutional Group on Information (IGI), co-chaired by the European Parliament, the Council and the Commission, lays down common guidelines for interinstitutional cooperation in matters of Union information and communication policy. It coordinates the central and decentralised public information activities on European topics. Each year the IGI gives its opinion on the priorities for the following years on the basis of information provided by the Commission.

Irrespective of the beneficiary of the measure, no administrative expenditure against this article is authorised.

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002(OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to support the following actions:

Activities supporting the conduct of ongoing and new multi- and bilateral trade negotiations

Actions aim to strengthen the Union's negotiating position in ongoing multilateral trade negotiations (in the context of the Doha Development Agenda) as well as ongoing and new bilateral and regional trade negotiations, to ensure that Union policy conception is based on comprehensive and up-to-date expert information and to build coalitions for their successful completion, including:

— expert studies and seminars in connection with the preparation of policy and negotiating positions and with the conduct of ongoing as well as new trade negotiations,

— development and implementation of a consistent and comprehensive communication and information strategy, promoting the Union's trade policy and raising awareness of the detail and objectives of the Union's trade policy and ongoing negotiation positions, both within and outside the Union.

Studies, evaluations and impact assessments in relation to trade agreements and policies

Actions to ensure that the Union's trade policy is underpinned by, and takes proper account of, ex-ante and ex-post evaluation results, including:

— impact assessments carried out in view of possible new legislative proposals and sustainable impact assessments carried out in support of ongoing negotiations and designed to assess the impact of trade negotiations on sustainable development and, where necessary, propose flanking measures to combat any negative outcomes for specific countries or sectors,

— evaluations of DG Trade's policies and practices to be carried out following the DG's multiannual evaluation plan.

Trade-related technical assistance, training and other capacity-building actions towards developing countries

Actions aiming to strengthen the capacity of developing countries to participate in international, bilateral or bi-regional trade negotiations, to implement international trade agreements and to participate in the world trading system, including:

— projects involving training and capacity-building actions aimed at developing country officials and operators, mainly in the field of sanitary and phytosanitary measures,

COMMISSION
TITLE 20 — TRADE

CHAPTER 20 02 — TRADE POLICY *(cont'd)*

20 02 01 *(cont'd)*

— expenditure incurred by Member State experts advising developing country officials and operators on compliance with sanitary, phytosanitary and other trade-related measures,

— reimbursement of the expenses of participants in forums and conferences designed to build awareness and expertise in trade affairs among developing country nationals,

— management, further development and promotion of the Exports helpdesk that provides industry in developing countries with information on access to Union markets, and facilitates efforts by such industry to take advantage of market access opportunities offered by the international trading system,

— trade-related technical assistance programmes arranged in the forum of the World Trade Organisation (WTO) and other multilateral organisations, in particular WTO Trust Funds,

— information and promotion activities and seminars in developing countries for State and non-State actors (including civil society and business actors) to explain the state of play of ongoing negotiations and/or implementation of existing agreements,

— research on the impact of trade-related sustainability assurance schemes on producers and workers in developing countries (including comparative analysis of costs and benefits of certification schemes), as well as their perception by consumers,

— provision of technical assistance and capacity-building for producers and producer associations or cooperatives with a view to increasing market access (for instance with regard to compliance with standards and regulations),

— provision of advice to policymakers on how best to ensure that the specific interests of small producers and workers in developing countries are reflected across all policy areas and promotion of an enabling environment for producers' access to trade-related sustainability assurance schemes.

Market access activities supporting the implementation of the Union's market access strategy

Actions in support of the Union's market access strategy, which aims at removing or lowering barriers to trade, identifying trade restrictions in third countries and, where appropriate, removing obstacles to trade. These actions may include:

— maintenance and further development of the market access database, available to economic operators via the Internet, listing trade barriers and other information affecting Union exports and Union exporters; purchase of the necessary information, data and documentation for this database,

— specific analysis of the various obstacles to trade in key markets, including analysis of the implementation by third countries of their obligations under international trade agreements in connection with the preparation of negotiations,

— conferences, seminars and other information activities (e.g. production and distribution of studies, information packs, publications and leaflets) to inform businesses, Member States officials and other actors about trade barriers and trade policy instruments aimed at protecting the Union against unfair trading practices such as dumping or export subsidies,

— support to the European industry for the organisation of activities specifically geared towards market access issues.

Activities supporting the implementation of existing rules and monitoring of trade obligations

Actions to support the implementation of existing trade agreements and the enforcement of related systems that enable effective implementation of these agreements as well as the conduct of investigations and inspection visits to ensure third countries are respecting the rules, including:

— exchange of information, training, seminars and communication activities to support the implementation of existing Union legislation in the area of dual use export controls and in particular of the new rules introduced in Council Regulation (EC) No 428/2009 of 5 May 2009 setting up a Community regime for the control of exports, transfer, brokering and transit of dual-use items (OJ L 134, 29.5.2009, p. 1),

CHAPTER 20 02 — TRADE POLICY *(cont'd)*

20 02 01 *(cont'd)*

— activities to facilitate investigations carried out in the context of the trade defence investigations with the aim of defending Union producers against unfair trade practices by third countries (anti-dumping, anti-subsidy and safeguards instruments) that can be harmful to the economy of the Union. In particular, activities will focus on the development, maintenance and security of information technology systems supporting trade defence activities, the production of communications tools, the purchase of legal services in third countries and the conducting of expert studies,

— actions relating to the development and progressive maintenance of the management systems developed for the Integrated system for the management of licences for imports of textiles, clothing, footwear and steel to the Union (SIGL), the wood-export-quota management support system (TRQ-RW: support wood-export-quota management) developed as a result of the accession of Russia to the WTO and referring to conditions for imports of wood from Russia into the Union as well as the Anti-Counterfeiting Rapid Intelligence Service System (ACRIS) supporting the participation of Union companies in reporting infringements of intellectual property rights. This includes the implementation and operation of these systems and the definition of common guidelines for training and technical assistance for implementation. The appropriation also covers expenditure on contributions to the functioning of systems (hardware, software, maintenance), the financing of information and training measures for system users, the financing of technical assistance as well as, where applicable, the provision of helpdesk facilities, which are mainly used by Member States.

Activities with a view to promoting the Union's external trade policy through a process of structured dialogue with key opinion formers, civil society and other stakeholders (including small and medium-sized enterprises)

Action to support the Union's trade policy by the organisation of specific forums and meetings with a view to promoting dialogue with key opinion formers, civil society and other stakeholders (including small and medium-sized enterprises) on external trade issues.

The Commission support for these actions may involve conference or event-related services, as well as the reimbursement of the travel expenses incurred by individuals taking part in these actions, especially in the context of DG Trade's Civil Society Dialogue as well as seminars and meetings with Member States, third countries, small and medium-sized enterprises and business stakeholders to exchange views on trade policy, in particular in the area of trade defence policy.

Legal and other expert assistance required in implementation of existing trade agreements

Actions to ensure that the Union's trading partners effectively adhere to and comply with obligations arising under the WTO and other multilateral and bilateral agreements, including:

— expert studies, including inspection visits, as well as specific investigations, and seminars on implementation by third countries of their obligations under international trade agreements,

— legal expertise, especially on questions of foreign law, required to facilitate defence by the Union of its position in WTO dispute-settlement cases, other expert studies necessary for the preparation, management and follow-up to WTO dispute settlement cases,

— arbitration costs, legal expertise and fees incurred by the Union as party to the disputes arising from the implementation of international agreements concluded under Article 207 of the Treaty on the Functioning of the European Union.

Investor to state dispute settlement as established by international agreements

The following expenditure is to support:

— arbitration costs, legal expertise and fees incurred by the Union as party to the disputes arising from the implementation of international agreements concluded under Article 207 of the Treaty on the Functioning of the European Union,

— payment of a final award or of an award settlements paid to an investor in the context of such international agreements.

Remarks

This appropriation is intended to fund multilateral programmes and initiatives in the field of trade-related assistance to strengthen the capacity of developing countries to participate effectively in the multilateral trading system and regional trading arrangements and to improve their trade performance.

Multilateral initiatives and programmes to be funded under this appropriation will support the following actions:

Assistance for trade policy, participation in negotiations and implementation of trade agreements

Actions to strengthen the capacity of developing countries to formulate their trade policy and to strengthen the institutions involved in trade policy, including comprehensive and updated trade reviews and assistance in integrating trade into their respective policies for economic growth and development.

Actions to strengthen the capacity of developing countries to participate effectively in international trade negotiations and to implement international trade agreements.

Research to advise policymakers how best to ensure that the specific interests of small producers and workers in developing countries are reflected across all policy areas and promote an enabling environment for producers' access to trade-related sustainability assurance schemes.

This assistance is primarily targeted at the public sector.

Trade development

Actions to reduce supply-side constraints which impact directly on the ability of developing countries to exploit their international trading potential, including, in particular, private-sector development.

This appropriation complement the Union's geographical programmes and should only cover multilateral initiatives and programmes that offer real added value to the Union's geographical programmes, in particular the Integrated Framework for Least Developed Countries.

The Commission will provide a bi-annual report on implementation and results obtained and on the main outcomes and effects of aid for trade assistance. The Commission will provide information on a total figure for all aid for trade finance coming from within the general budget of the Union, and a total figure for aid for trade from within all 'trade-related assistance' provided.

Legal basis

Tasks resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

Union assistance should not be given to any authority, organisation or programme which supports or participates in the management of an action which involves such human rights abuses as coercive abortion, involuntary sterilisation or infanticide, especially where such actions apply their priorities though psychological, social, economic or legal pressure, thus finally implementing the specific Cairo International Conference on Population and Development (ICPD) prohibition on coercion or compulsion in sexual and reproductive health matters. The Commission should present a report on the implementation of the Union's external assistance covering this programme.

— expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the beneficiaries and the Commission,

— expenditure on external staff at headquarters (contract agents, seconded national experts or agency staff) intended to take over the tasks previously conferred on dismantled technical assistance offices; expenditure on external staff at headquarters is limited to EUR 3 653 300. This estimate is based on a provisional annual unit cost per man-year of which 93 % is accounted for by remuneration for the staff concerned and 7 % by the additional cost of training, meetings, missions, information technology (IT) and telecommunications relating to those staff members,

— expenditure on external staff in Union delegations (contract agents, local agents or seconded national experts) for the purposes of devolved programme management in the Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as the additional logistical and infrastructure cost, such as cost of training, meetings, missions, IT and telecommunications and of renting directly caused by the presence in the Union delegation of the external staff remunerated from the appropriations of this item,

— expenditure on studies, meetings of experts, information systems and publications directly linked to the achievement of the objective of the programme.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions pursuant to Article 6 3 3 of the statement of revenue constitute assigned revenue in accordance with Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Chapters 21 02, 21 03, 21 04, 21 05 and 21 06.

Remarks

This appropriation is intended to contribute:

— to poverty and food insecurity reduction in chronic food-insecure developing countries,

— to mitigate the effects of crisis on the most vulnerable population.

As a bridging instrument between the short-term (crisis situations) and the long-term (development), the scope of this article includes protracted crises, rehabilitation and tackling structural food insecurity as a first step towards long-term poverty reduction.

More specifically, this appropriation is intended to contribute to the strategic priorities of the food security thematic programme including:

— research, technology and innovation related to food security,

— research to collect data on the impact of Fair Trade for marginalised producers and workers in the South, share best practices and carry out supply chain analyses, traceability and accountability assessments,

— research to advise policymakers how best to ensure that the specific interests of marginalised producers and poor workers in the South are reflected across all policy areas,

— food security governance at global, continental and regional levels, including linking information and decision-making to improve food security response strategies,

— addressing food security in exceptional situations of transition, and in fragile and failed states,

— support marginalised producers in developing countries to have access to prefinancing to help fund inputs and grants to work towards compliance with standards and regulations.

COMMISSION

TITLE 21 — DEVELOPMENT AND RELATIONS WITH AFRICAN, CARIBBEAN AND PACIFIC (ACP) STATES

CHAPTER 21 02 — FOOD SECURITY *(cont'd)*

21 02 01 *(cont'd)*

This programme is intended to benefit primarily the countries covered by the Financing instrument for development cooperation (DCI).

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions pursuant to Article 6 3 3 of the statement of revenue constitute assigned revenue in accordance with Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight, audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006. Appropriations pursuant to this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

In order to ensure full financial transparency pursuant to Articles 53 to 56 of Council Regulation (EC, Euratom) No 1605/2002, the Commission, when concluding or modifying agreements on the management and implementation of projects by international organisations, will make every effort to commit to sending all their internal and external audits to the European Court of Auditors and to the Internal Auditor of the Commission regarding the use of Union funds.

21 02 02 *(cont'd)*

As a bridging instrument between the short-term (crisis situations) and the long-term (development), the scope of this article includes protracted crises, rehabilitation and tackling structural food insecurity as a first step towards long-term poverty reduction.

More specifically, this appropriation is intended to finalise payments for ongoing food aid programmes and for ongoing budget support programmes establishing a foreign currency facility.

Legal basis

Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41).

Remarks

This appropriation is intended to support a rapid and direct response to the increased food prices in developing countries, addressing the period between emergency aid and medium- to long-term development cooperation. The primary objectives of the assistance and cooperation shall be to encourage a positive supply response of the agricultural sector in targeted countries and regions, to support activities to respond rapidly and to mitigate directly the negative effects of high food prices in line with global food security objectives and to strengthen the productive capacities and the governance of the agricultural sector to enhance the sustainability of interventions.

Taking into account the specific country-level conditions, the eligible support measures are:

— measures to improve access to agricultural inputs and services, including fertilisers and seeds, paying special attention to local facilities and availability,

— safety net measures aiming at maintaining or improving the agricultural productive capacity, and at addressing the basic food needs of the most vulnerable populations, including children,

— other small-scale measures aiming at increasing production based on country needs: microcredit, investment, equipment, infrastructure and storage; developing and strengthening associations and cooperatives so that they can build institutional and productive capacities; support for marginalised producers in developing countries so that they have access to prefinancing to help fund inputs and grants to work towards compliance with standards and regulations; as well as vocational training and support to professional groups in the agricultural sector.

The assistance shall benefit developing countries and their populations. Resources are concentrated on a limited list of 50 high-priority target countries.

Remarks

This pilot project is intended to facilitate access to smallholder farmers to financial resources which should be used to stimulate agricultural production in developing countries. These appropriations should be channelled through organisations specialised in microfinance, including local banks and associations, which conform to recognised international standards of transparency, accountability and financial probity.

Taking into account the worldwide economic crisis, microfinance is needed more than ever before. The Union should take responsibility and attach importance to facilitating microfinance in developing countries.

Remarks

This appropriation is intended to support initiatives in developing countries carried out by civil society organisations originating in the Union and partner countries in the area of development as well as to strengthen their capacity in contributing to the policymaking process, so as to:

— promote an inclusive and empowered society in order to (i) favour populations out of reach of mainstream services and resources and excluded from policymaking processes, (ii) strengthen the capacity of civil society organisations in partner countries, with a view to facilitating their participation in defining and implementing sustainable development strategies, (iii) facilitate interaction between state and non-state actors in different contexts,

— increase Europeans' awareness of development issues and mobilise active public support in the Union and acceding countries for poverty reduction and sustainable development strategies in partner countries and for fairer relations between developed and developing countries, and reinforce civil society's role as a factor of progress and transformation,

— achieve more efficient cooperation, foster synergies and ensuring a structured dialogue between civil society networks, within their organisations and with Union institutions.

These initiatives may also include:

— support to advocacy activities to inform policymakers at all levels on policies that best benefit marginalised producers and workers in developing countries,

— developing and strengthening associations and cooperatives in developing countries so that they can build institutional and productive capacities to be able to develop added value products and scale up,

— support to Southern Fair Trade producer networks which represent the voice of marginalised Fair Trade producers.

This programme is intended to benefit primarily the countries covered by the Financing instrument for development cooperation (DCI). However, in line with Article 38 of Regulation (EC) No 1905/2006 allocating an amount to finance activities that benefit the European Neighbourhood and Partnership Instrument (ENPI) countries under the thematic programmes, an envelope equivalent to 3,9 % of this programme is foreseen for such countries.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight, audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006. Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

In order to ensure full financial transparency pursuant to Articles 53 to 56 of Council Regulation (EC, Euratom) No 1605/2002, the Commission, when concluding or modifying agreements on the management and implementation of projects by international organisations, will make all efforts that they commit to sending all their internal and external audits to the European Court of Auditors and to the Internal Auditor of the Commission regarding the use of Union funds.

Remarks

This appropriation is intended to support initiatives in developing countries carried out by local authorities originating in the Union and partner countries in the area of development as well as to strengthen their capacity in the policymaking process, so as to:

— promote an inclusive and empowered society in order to: (i) favour populations out of reach of mainstream services and resources and excluded from policymaking processes; (ii) strengthen the capacity of local and regional authorities in partner countries, with a view to facilitating their participation in defining and implementing sustainable development strategies; and (iii) facilitate interaction between state and local and regional authorities in different contexts, and support an increased role for local authorities in decentralisation processes,

— increase Europeans' awareness of development issues and mobilise active public support in the Union and acceding countries for poverty reduction and sustainable development strategies in partner countries and for fairer relations between developed and developing countries, including raising awareness of North-South trading relations and Union consumers' purchasing decisions and their impact on sustainable development and poverty reduction, and reinforce the roles of local and regional authorities for these purposes,

— achieve more efficient cooperation, foster synergies and ensure structured dialogue among local and regional authorities associations and with civil society, within their organisations and with Union institutions.

Remarks

This appropriation is intended to fund the establishment of an East-African regional network of Millennium Development Goal 5 organisations, bringing together existing national CSO platforms of advocacy and service-delivery organisations from Kenya, Tanzania, Uganda, Rwanda and Burundi — all countries with some of the worst maternal and reproductive health indicators worldwide. This Millennium Development Goal 5 network will aim at providing an informal forum for the exchange of ideas, information and experience in the field of maternal and reproductive health and at providing opportunities for member organisations to explore possibilities for multi-country collaboration and cooperation to highlight the urgent need for increased political and financial attention on Millennium Development Goal 5.

Activities carried out under this project include the establishment of a network secretariat in one of the member organisations, the establishment of virtual platform to disseminate and share information and best practices as well as the organisation of regional events with the aim of improving maternal and reproductive health outcomes in the region.

Remarks

Two fundamental issues the people and countries in the Horn of Africa suffer from are (1) the absence of participatory government and stability and (2) the absence of democracy and democratic processes and genuine participation of the people. Both are related to a fundamental and lasting crisis in governance in all countries of the Horn. In fact the impact of this crisis is felt in the whole of North-East Africa and as well as in Europe. Unless the issues are addressed by the Union and others with a comprehensive perspective, there is no hope for sustainable livelihoods, economic growth and a peaceful and stable region. An Arab Spring scenario in this region, without a long-term vision and long-term investment from the international community to underpin it, will lead nowhere.

The proposed pilot project will address these issues with a two-part strategy, each part building on the other. Both are essential in order to develop long-term, credible alternatives to the Horn's military dictatorial regimes:

(1) Ensure sufficient space for civil society, coupled with strategic investment in genuine civil society actors. Civil society in the Horn of Africa and its diaspora in Africa faces increasing challenges in terms of ability to function and human rights abuses. Government policy in the countries in the Horn is increasingly based on distrust and focused on control and containment rather than support or facilitation of civil society. Authorities in the Horn view civil society as a threat, if not a direct opponent, and do not allow their policies to be complemented, let alone challenged, by civil society. However civil society plays a key part in democratic systems and processes. The tightening environment for civil society therefore needs to be challenged at national and regional level to allow civil society to be part of democratic processes. Civil society actors themselves need to be strengthened to effectively deal with this increasingly difficult environment to operate in as well as deal with future democratic processes.

(2) Strengthen youth and youth movements in the Horn of Africa with a view to effectively preparing them for future democratic changes. Young people, both in the Horn and in the diaspora in Africa, are the future for their countries but lack skills and knowledge, as well as life experience in a peaceful and democratic environment. They also lack the means to develop those skills and their governments hardly invest in young people. They are often housed in refugee camps. The displacement and often unclear legal status mean that learning opportunities pass them by. In order to train future leaders and senior government officials and establish genuine democratic processes, external investment in the Horn's youth is essential. Investment in their skills, tapping effectively into their enthusiasm, dreams and hopes for the future is more strategic than investment in changing the current establishment.

This pilot project will invest in the following countries: Sudan and South Sudan, Eritrea, Ethiopia, Somalia (Somaliland, Puntland) and Djibouti. It will invest at national as well as (sub-)regional level but assumes that a regional approach takes primacy.

Remarks

This appropriation is intended to promote and implement the policy on the environment and on the sustainable management of natural resources, including energy, as it applies to the Union's relations with developing countries and with Europe's neighbours.

Financial support is provided to actions in five priority areas: (1) working upstream on Millennium Development Goal 7: promoting environmental sustainability; (2) promoting implementation of Union initiatives and helping developing countries to meet internationally agreed commitments, such as the United Nations Conference on Sustainable Development (Rio+20) and the United Nations Convention on Biological Diversity (COP 11 Hyderabad); (3) improving expertise for integration and coherence; (4) strengthening environmental governance and Union leadership; and (5) supporting sustainable energy options in partner countries and regions.

Part of this appropriation is to be used for the mainstreaming of disaster risk reduction, based on ownership and national strategies of disaster-prone countries.

Support for sustainable energy options in partner countries and regions also includes appropriations to cover the Union contribution to the Global Energy Efficiency and Renewable Energy Fund (GEEREF). The objective of GEEREF is to mobilise public and private finance to help solve the financing gridlock for economic renewable energy projects and businesses, in developing countries and in (non-Union) economies in transition.

Part of these appropriations will also be used to support the United Nations initiative entitled 'Sustainable Energy for All'.

CHAPTER 21 04 — ENVIRONMENT AND SUSTAINABLE MANAGEMENT OF NATURAL RESOURCES, INCLUDING ENERGY *(cont'd)*

Support for climate change adaptation in partner countries and regions includes a contribution to further strengthen the implementation of the European Union's Action Plan on Climate Change and Development through the Global Climate Change Alliance (GCCA). The GCCA is instrumental to enhance the cooperation between the Union and developing countries on climate change, particularly in the area of adaptation towards the impacts of climate change, which is most acute for many poor developing countries.

This programme is intended to benefit primarily the countries covered by the Financing instrument for development cooperation (DCI). However, in line with Article 38 of Regulation (EC) No 1905/2006 allocating an amount to finance activities that benefit the European Neighbourhood and Partnership Instrument (ENPI) countries under the thematic programmes, an envelope of EUR 63 000 000 is foreseen for such countries. This appropriation is also intended to cover the completion of payments for actions funded under the former Article 21 02 05 'Environment in Developing Countries'.

In order to ensure full financial transparency pursuant to Articles 53 to 56 of Council Regulation (EC, Euratom) No 1605/2002, the Commission, when concluding or modifying agreements on the management and implementation of projects by international organisations, will make all efforts that they commit to sending all their internal and external audits to the European Court of Auditors and to the Internal Auditor of the Commission regarding the use of Union funds.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions pursuant to Article 6 3 3 of the statement of revenue constitutes assigned revenue in accordance with Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight, audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006. Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

Remarks

This appropriation will be used to support the creation of the Global Energy Efficiency and Renewable Energy Fund (GEEREF), which aims at providing risk capital to different types of renewable energy and energy efficiency investment projects in developing countries, the Union and its neighbouring countries.

In the context of climate change, the Union needs to take the lead as regards measures to reduce the effects and causes of climate change. The exchange of good practices between the Member States in the area of energy efficiency will enable the Union to act in a coordinated fashion, thus helping to lay down joint energy policy strategies and actions. The Union should consider promoting energy efficiency as an instrument to combat the consequences of climate change and also stimulate the use of renewable energy resources in developing countries so as to make them less energy-dependent.

Appropriations under this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation.(OJ L 378, 27.12.2006, p. 41). These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

Overall objective

The aim of this initiative is to establish the basis for solid cooperation between Europe and Africa on research and innovation in the field of recycling and recovery of raw materials.

Improving waste management and avoiding environmental and health costs can help reduce the financial pressure on African governments and improve supply of raw materials. Private sector participation can significantly reduce the costs and enhance service delivery.

This would be achieved through two seminars organised in 2013 in Europe and Africa respectively.

The specific objectives in the field of recovery of raw materials and waste recycling include:

— providing knowledge exchange at policy and research level,

— providing a forum for European and African entrepreneurs and academia/research,

— engage the European and African Member governments.

The envisaged participants of the pilot project are:

— the European Union,

— the African Union,

— industry representatives from the raw materials and waste/recycling sectors,

— academia/research representatives involved in environmental technologies for resource efficiency and recycling.

Conclusions

The European Union has in the past successfully established similar political/research infrastructures with African countries, in a number of fields such as research networks (e-Infrastructures). These initiatives have ensured close links between both continents based always on objectives of mutual interest.

CHAPTER 21 04 — ENVIRONMENT AND SUSTAINABLE MANAGEMENT OF NATURAL RESOURCES, INCLUDING ENERGY *(cont'd)*

21 04 07 *(cont'd)*

On this basis, the pilot project is intended to address the following main issues:

— common policy on waste management: waste (raw materials) produced in Europe and exported to Africa should be treated in an effective and environmentally sound manner. In this context, the European Union and the African Union should develop a common waste management plan for these materials,

— knowledge transfer of innovative recycling technologies: while some solutions would definitely require breakthrough technologies, processes and services, a more urgent priority seems to be the exploitation of existing technologies, knowledge sharing and awareness. Research should encompass the collection, recovery and recycling of valuable materials, including raw materials, from urban and industrial waste streams. African countries need to cope with the waste being shipped for decades in their land and water. European research can help solve some current waste management issues,

— economy and jobs creation: investing in greening the waste sector can generate multiple economic and environmental benefits. For example, recycling creates more jobs than it replaces, making it one of the most important sectors in terms of employment creation. EU waste legislation is one of the most innovative and comprehensive of the world. Implementing it fully would result in cost savings of EUR 72 billion per year, an increase of EUR 42 billion per year in the turnover of waste management and recycling and the creation of 400 000 new jobs.

Financial support is provided to actions in four priority areas: (1) combating poverty and neglected diseases, targeting communicable diseases and diseases that can be prevented by vaccination; (2) improving maternal health, reproductive and sexual health in developing countries; (3) improving equitable access to health providers, commodities and health services; and (4) keeping a balanced approach between prevention, treatment and care, with prevention as a key priority.

This appropriation may not be made available to the Global Fund to Fight Aids, Tuberculosis and Malaria (GFATM). Part of the appropriation will be provided for technical aid in recipient countries. This allocation will complement the financing role of the GFATM by ensuring that a coordinated and effective technical support mechanism is in place, resulting in effective implementation of Global Fund appropriations.

This programme is intended to benefit primarily the countries covered by the Development Cooperation Instrument (DCI). However, in line with Article 38 of Regulation (EC) No 1905/2006 allocating an amount to finance activities that benefit European Neighbourhood and Partnership Instrument (ENPI) countries under the thematic programmes, an envelope equivalent to 6 % of this programme over the period 2007-2013 is foreseen for such countries.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions under Article 6 3 3 of the statement of revenue constitutes assigned revenue in accordance with Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter. This appropriation is also intended to cover zinc supplementation and other micronutrients for the treatment and prevention of diarrhoea and malnutrition in developing countries.

This appropriation is intended to provide financial support to actions in developing countries and in Europe's neighbouring countries under the 'Good health for all' component of the thematic programme 'Investing in people'.

In order to meet Millennium Development Goals 4, 5 and 6, continuous support to strengthen health systems, to fight maternal and child mortality and morbidity, and to achieve universal access to reproductive health is urgently needed. For this reason, increased funds should be allocated to these programmes within a continuum of prevention, care, information and services, including family planning services in line with the rights-based approach reflected in Programme of Action of the International Conference on Population and Development endorsed by Member States.

Appropriations under this title and within the second priority (improving reproductive and sexual health in developing countries) should specifically finance interventions in countries with critical indicators in maternal and reproductive health to reduce bottlenecks and promote good practices for the achievement of Millennium Development Goal 5 ('Improve maternal health') by 2015 and the advancement of the full implementation of the ICPD Programme of Action, notably by supporting capacity-building for the design and implementation of national maternal, reproductive health and family planning strategies within health systems strengthening.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight, audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006.

Remarks

This appropriation is intended to provide financial support to actions in developing countries and in Europe's neighbouring countries under the 'Education, knowledge and skills' component of the thematic programme 'Investing in people'.

Financial support is provided to actions in seven priority areas: (1) the Millennium Development Goal of achieving universal primary education by 2015 and the Dakar Framework for Action on Education for All; (2) basic, secondary and higher education plus vocational education and training, to improve access to education for all children and, increasingly, for women and men of all ages; (3) promotion of high-quality basic education, with particular focus on access for girls, children in conflict-affected areas and children from marginalised and more vulnerable social groups including children with disabilities; (4) developing ways to measure learning outcomes in order to better assess the quality of education; (5) promoting donor harmonisation and alignment to promote universal, compulsory, free and high quality education through international or multi-country initiatives; (6) supporting an inclusive knowledge-based society and contributing to bridging the digital divide, and knowledge and information gaps; and (7) improving knowledge and innovation through science and technology together with the development of, and access to, electronic communication networks.

The measures should take into consideration the fact that migration is reduced as a result of improved education and hence life prospects in countries of origin.

This programme is intended to benefit primarily the poorest and least developed countries and the most disadvantaged sections of the population in countries covered by Article 1(2) of Regulation (EC) No 1905/2006.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Remarks

This appropriation is intended to provide financial support to actions in developing countries and in Europe's neighbouring countries under the 'Other aspects of human and social development' component of the thematic programme 'Investing in people', which focuses on the core themes of good health for all, knowledge and skills, culture, employment and social cohesion, gender equality, children and youth. Action in the four areas should take into account cross-cutting issues such as gender equality, needs of people with disabilities and environmental protection.

Financial support is provided for actions in three priority areas: (1) culture; (2) employment and social cohesion; and (3) children and youth.

Part of the appropriation under the second priority area (employment and social cohesion) is to be used for improving access to social protection systems in developing countries. Measures should include the facilitation of policy dialogue with partner countries on social protection and support for partner countries in putting into place wide-coverage non-profit insurance schemes, including by enhancing national governments' institutional capacities, encouraging a transfer of expertise and supporting civil society initiatives.

This appropriation is also intended to support Tibetan civil society in China and in exile and the revitalisation of Tibetan communities in exile.

This programme is intended to benefit the poorest and least developed and the most disadvantaged sections of the population in countries covered by Article 1(2) of Regulation (EC) No 1905/2006. In line with Article 38 of Regulation (EC) No 1905/2006 allocating an amount to finance activities that benefit the European Neighbourhood and Partnership Instrument (ENPI) countries under the thematic programmes, a specific indicative envelope is foreseen under priorities (2) and (3) for such countries over the period 2007-2013.

This appropriation is intended to promote qualitative and quantitative monitoring of health and education expenditure and debate on health and education measures carried out by the Commission.

Implementation of specific projects is to be debated and monitored by experts and stakeholder groups so as to increase public awareness and knowledge of health and education measures.

Funding is also to cover measures to support the dissemination and exchange of results and best practices in developing countries.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This preparatory action was launched in 2008 and intended to create an action programme to support research and development on poverty-related, tropical and neglected diseases and to support research institutes willing to cooperate with public health initiatives dedicated to these efforts. The research should primarily take place in developing countries in order to help them to develop local knowledge and locally adapted solutions to the lack of access to medicines.

A study was launched in 2009 involving a large consultation of stakeholders on priority-setting, with particular emphasis on the active participation and pivotal roles of developing country scientists, decision-makers and institutions in this process.

In addition, the appropriations have been dedicated in 2009 and 2010 to financing specific actions, such as support to research networks and capacity building in developing countries. In all these projects, the consultation of developing countries' stakeholders (regional, national and local experts, scientists and institutions) and their leading role should be ensured.

Remarks

This appropriation is intended to cover completion of former cooperation under a number of programmes including health, basic education, cultural cooperation, additional contribution for the UN Millennium Development Goals, decentralised cooperation, information and communication technologies, sustainable energy and gender equality.

Health

This appropriation is intended to finance actions to improve reproductive and sexual health in developing countries and to secure respect for the rights related thereto.

Financial assistance shall be provided with a view to promoting the recognition of reproductive and sexual rights, safe motherhood and universal access to a comprehensive range of safe and reliable reproductive and sexual health services.

In the allocation of such funding and expertise, priority shall be given to the poorest and least developed countries and the most disadvantaged sections of the population within developing countries and to action that complements and reinforces both the policies and capacities of developing countries and the assistance provided through other instruments of development cooperation.

The purposes of the activities carried out shall be to:

— secure the right of women, men and adolescents to good reproductive and sexual health,

— enable women, men and adolescents to have access to a comprehensive range of safe and reliable reproductive and sexual healthcare services and products,

— reduce maternal mortality rates, with particular reference to the countries and populations where these are highest,

— combat female genital mutilation.

Financial support shall be given to projects or programmes specifically designed to attain the objectives described above.

This appropriation is intended to finance a preparatory action to combat poverty-related diseases other than HIV/AIDS, malaria and tuberculosis. It is in particular intended to contribute to immunisation programmes against illnesses such as measles, diphtheria, tetanus, pertussis, hepatitis B, haemophilus influenzae B, yellow fever, meningitis and pneumococcus-induced diseases by complementing vaccination efforts under way in some developing countries.

COMMISSION

TITLE 21 — DEVELOPMENT AND RELATIONS WITH AFRICAN, CARIBBEAN AND PACIFIC (ACP) STATES

CHAPTER 21 05 — HUMAN AND SOCIAL DEVELOPMENT *(cont'd)*

21 05 03 *(cont'd)*

The preparatory actions aim through targeted and innovative measures to identify and provide the conditions for better coordination between the Union, the Member States and the main international public-private partnerships involved in the field of public health and immunisation as well as to secure more effective investment in health systems (prevention, education, capacity-building) in developing countries.

This appropriation is intended to cover a Union contribution to the implementation of the Union action programme for targeting the three major communicable diseases, namely HIV/AIDS, malaria and tuberculosis, in developing countries.

Under that programme, the Union shall provide financial assistance and appropriate expertise with a view to promoting investment in health, poverty reduction and equitable economic growth in developing countries.

In the allocation of such funding and expertise, priority shall be given to the poorest and least developed countries and the most disadvantaged sections of the population, especially women and girls, within developing countries, and also to action that complements and reinforces both the policies and capacities of developing countries and the assistance provided through other instruments of development cooperation. These activities ought to contribute to innovative solutions which will improve the performance of current practices related to the fight against poverty-related diseases.

The purpose of all the activities carried out shall be to:

— optimise the impact of existing interventions, services, commodities and information targeted at the major communicable diseases affecting the poorest populations,

— increase the affordability of key pharmaceuticals,

— increase research and development, including vaccines and clinical trials, microbiocides and innovative treatments,

— increase activities in the area of disease prevention, including VCCT testing, targeted information campaigns and counselling among high-risk groups,

— promote awareness-raising campaigns, education, information and communication efforts aimed at reducing risk-taking behaviour,

— integrate gender sensitivity in HIV/AIDS programming and the development of female-initiated and female-controlled prevention methods as well as to integrate men into programmes focusing on the impact on women and girls,

— promote leadership awareness training.

This appropriation is also intended to fund malaria vaccination programmes.

Union financial support shall be given to specific projects designed to further the objectives described above, including support for global initiatives targeting the major communicable diseases in the context of poverty reduction, notably the Global Fund to fight HIV/AIDS, tuberculosis and malaria which came into operation on 29 January 2002.

Basic education

This appropriation is intended as a pilot project to support national programmes of aid for basic education in developing countries through relevant action and analyses.

Cultural cooperation

It is intended to promote cultural diversity by supporting cooperation in the field of culture, including:

— activities supporting mutual understanding between different cultures within partner countries,

— exchanges allowing for greater cultural understanding between developing countries and the Union.

Additional contribution for the UN Millennium Development Goals

This appropriation is intended to finance sectoral budget support targeted at ending school and uniform fees in primary education, especially for girls. The limited number of beneficiary countries will be chosen from the list of countries identified by the UN Millennium Project as potential candidates for Millennium Development Goal fast-tracking and in accordance with the rules applied by the Commission for the countries benefiting from budget support, with particular reference to their ability to fulfil criteria of good governance and sound financial management.

Part of this appropriation is intended to finance preparation of the beneficiary countries to offset the costs of ending the user fees by other means of public financing after the end of this temporary Union action.

This appropriation is intended to finance sectoral budget support targeted at school meals for children in primary schools. This measure complements the Quick Win action to end school and uniform fees and will be conducted with the same countries, chosen from the list of countries identified by the UN Millennium Project as potential candidates for Millennium Development Goal fast-tracking and in accordance with the rules applied by the Commission for the countries benefiting from budget support, in particular their ability to fulfil criteria of good governance and sound financial management.

Part of this appropriation is intended to finance preparation of the beneficiary countries to organise public financing for school meals after the end of this temporary Union action.

This appropriation is intended to finance aid to smallholder farmers for a massive replenishment of soil nutrients on land with nutrient-depleted soils, through free or subsidised distribution of chemical fertilisers and through agroforestry.

The countries benefiting from this action will be chosen from the list of countries identified by the UN Millennium Project as potential candidates for Millennium Development Goal fast-tracking.

Decentralised cooperation

This appropriation is intended to increase the capacity of civil society players and local authorities to act, mobilise and organise, to promote dialogue between government and non-governmental players. It is intended to cover the financing of social and economic development operations to benefit the poorest sections of the population in developing countries, in particular vulnerable groups. It supports sustainable development initiatives taken by the local public authorities, community-based organisations and associations or groupings in developing countries, possibly in association with their Union counterparts.

It is intended, in this context, mainly to cover information, educational, capitalisation and communication schemes so as to enable potential agents to better assimilate the decentralised cooperation approach and to take a more active role in consultations regarding Union programmes and in the implementation of decentralised cooperation.

Information and communication technologies and sustainable energy

This appropriation will fund information and communication technologies that can assist with the process of decentralised cooperation.

This appropriation was intended to enable the Commission to establish in 2002 a mechanism to support capacity-building in developing countries for information and communication technologies (ICT) and sustainable energy. The programme should be well coordinated with other donor initiatives on ICT and sustainable energy.

The sustainable energy component is addressed through Article 06 04 02, whereas the ICT component is addressed through national or regional programmes whenever relevant.

The Commission should also use this appropriation to work with the United Nations Development programme on joint pilot projects and ensure that the full benefits of ICT and sustainable energy technologies are explored and properly highlighted.

Remarks

For countries defined as Official Development Assistance (ODA) recipients by the OECD Development Assistance Committee (DAC), a benchmark of 35 % of annual commitments has in the past been allocated to social infrastructure, mainly education and health, but also including macroeconomic assistance with social sector conditionality, recognising that the Union contribution must be seen as part of the overall donor support to the social sectors and that a degree of flexibility should be the norm. The Commission will continue to report on this benchmark.

Moreover, in parallel with the Commission declaration concerning Article 5 of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (DCI) (OJ L L 378, 27.12.2006, p. 41), the Commission will endeavour to ensure that a benchmark of 20 % of its allocated assistance under country programmes covered by the DCI will be dedicated to basic and secondary education and basic health through project programme or budget support linked to these sectors, taking an average across all geographical areas and recognising that a degree of flexibility must be the norm, such as in cases where exceptional assistance is involved.

Before July each year, the Commission will provide the European Parliament and the Council with an annual report on the Union's development policy and external assistance, meeting all the Commission's regulatory reporting requirements and giving full details of development cooperation, especially the extent to which it has met its objectives. In particular, the report will:

— present the strategic objectives of the Union's development policy and its contribution towards the previous 35 % benchmark for social infrastructure and services and the current 20 % benchmark for basic and secondary education and for basic health, in the context of the geographical cooperation under the DCI, and assess the efficiency and effectiveness of cooperation, including progress made in coordinating aid, in improving the coherence of the Union's strategy in its external actions, and in integrating the cross-cutting issues such as gender, human rights, conflict prevention and the environment,

— present the main results of evaluation and monitoring reports, as an indication of the extent to which its actions are achieving their objectives,

— summarise the key features and events of cooperation in each geographical region, and

— provide financial information on the support given to each sector, in accordance with OECD reporting criteria.

COMMISSION

The report should also contain information on how budget support has contributed to the Millennium Development Goals. Budget support will depend on prior demonstration of sufficient institutional capacity and compliance with detailed criteria for the custody and use of funds in the recipient country. The criteria must be stated in the annual report, and compliance therewith must be assessed in the report.

After the report has been presented the European Parliament, the Council and the Commission will enter into a dialogue on the results and on how further progress can be made towards achieving the objectives.

Remarks

This appropriation is in accordance with the Trade, Development and Cooperation Agreement (TDCA) between the European Union and South Africa and Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41).

The programme is implemented through Country Strategy Papers (CSPs) and Multiannual Indicative Programmes (MIPs) under the TDCA in 2007-2013 and is financed from the general budget of the Union.

This appropriation is intended primarily to cover the financing of development cooperation projects and programmes with South Africa, which contribute:

— to South Africa's harmonious and sustainable economic and social development through programmes and measures designed to reduce poverty and encourage economic growth which benefits the poor,

— to its continued integration into the world economy,

— to consolidate the foundations laid for a democratic society and a State governed by the rule of law in which human rights and fundamental freedoms are fully respected,

— to improving social services and helping to achieve the Millennium Development Goals.

Programmes shall focus on the fight against poverty and achieving the Millennium Development Goals, taking into account the needs of the previously disadvantaged communities and integrate gender and environmental dimensions of development. Special attention shall be paid to the strengthening of institutional capacities.

Development cooperation focuses mainly on:

— strengthening capacity for and support to service delivery to the poor (including health, HIV/AIDS, education, housing, infrastructures such as water and sanitation, sustainable energy, communication, as well as public finance management reforms at all levels of government, capacity building and strengthened monitoring and evaluation),

— support to sustainable growth, with a specific view to employment generation (addressing both labour demand and supply issues, such as skills development), notably in the field of climate change adaptation and mitigation and, in general, in the green economy,

— support to governance (both in the public and non-public domains),

— regional and Pan-African support (including contributions to actions promoting peace and security, to intra-ACP programmes for science and technology and academic mobility, as well as support to regional interconnectivity through infrastructure and trade development.

CHAPTER 21 06 — GEOGRAPHICAL COOPERATION WITH AFRICAN, CARIBBEAN AND PACIFIC (ACP) STATES *(cont'd)*

21 06 02 *(cont'd)*

Given South Africa's environmental challenges and the country's role as the twelfth largest greenhouse gas emitter in the world, development cooperation will include an increased focus on environmental protection and climate-change-related measures.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions pursuant to Article 6 3 3 of the statement of revenue constitutes assigned revenue in accordance with Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Appropriations pursuant to this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006. These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight, audit capacities and transparency in line with Article 25(1)(b) of Regulation (EC) No 1905/2006.

Remarks

This appropriation is intended to cover measures to initiate the return to a normal life for people in developing countries, in particular the ACP States, in the aftermath of critical situations arising out of natural disasters, violent conflicts or other crises.

It also covers the collateral effects of those critical situations in neighbouring ACP countries, for example the Dominican Republic in the case of the earthquake in Haiti.

It covers, in particular, the following operations:

— the relaunch of production on a lasting basis,

— the physical and operational rehabilitation of basic infrastructure, including mine clearance,

— civil reconciliation through non-structural measures in societies which have been prey to a violent conflict,

— social reintegration, in particular of refugees, displaced persons and demobilised troops,

— the restoration of the institutional capacities needed in the rehabilitation period, especially at local level,

— assisting with the needs of children, particularly the rehabilitation of children affected by war, including child soldiers,

— raising awareness of the dangers posed by natural disasters and of measures designed to avoid them or to avoid or reduce their consequences,

— supporting people with disabilities and such people's organisations to further their human rights to ensure that older people benefit from disaster relief and reconstruction interventions and that adequate attention is paid to research and the collection of age-desegregated data to support programming and policies.

This appropriation also covers education for children affected by war or natural disasters.

In particular, operations should cover programmes and projects implemented by non-governmental development organisations and other civil society players favouring the participation of the beneficiary population at every level of the decision-making and implementation process.

Part of this appropriation is to be used for actions to control and remove anti-personnel landmines (APL), explosive remnants of war (ERW) and illicit small arms and light weapons (SALW).

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions pursuant to Article 6 3 3 of the statement of revenue constitutes assigned revenue in accordance with Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Remarks

This appropriation is intended to enable the meeting of commitments which have been entered into in the context of technical assistance and income support for ACP producers following the introduction of the common organisation of the market in bananas.

It is also intended to support capacity-building in ACP producer States to help them to integrate better into the multilateral trading system, including improving their ability to participate in the WTO.

Also charged to this article from 1 January 1999 is a programme of assistance intended to help ACP banana producers adapt to the new market conditions brought about by changes in the common organisation of the market in bananas.

Appropriations pursuant to this article are subject to evaluations as established in Article 33 of Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41). These evaluations shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

Legal basis

Council Regulation (EC) No 856/1999 of 22 April 1999 establishing a special framework of assistance for traditional ACP suppliers of bananas (OJ L 108, 27.4.1999, p. 2).

Remarks

This appropriation is intended to cover the financing of *ex ante* and *ex post* evaluations, monitoring and support measures during the programming, preparation and implementation stages of development operations, strategies and policies, including the following:

— effectiveness, efficiency, relevance, impact and viability studies and the development of impact measurements and indicators for development cooperation,

— monitoring of operations in the course of implementation and after their completion,

— support measures to improve the quality of monitoring systems, methodologies and practices concerning ongoing operations and the preparation of future operations,

— feedback of information and information activities on findings, conclusions and recommendations of evaluations into the decision-making cycle,

— methodological developments to improve the quality and utility of evaluations, including research, feedback, information and training activities thereon.

This appropriation also covers the financing of audit activities concerning the management of programmes and projects implemented by the Commission in the external aid field. It will also cover the financing of training activities, based on the special rules governing Union external aid and organised for external auditors.

Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

Budget financing provides the Commission with the means of support it needs to prepare, formulate and follow up coordination measures under its development policy. Policy coordination is crucial to the consistency, complementarity and aid and development effectiveness.

Coordination measures are essential in defining and shaping the Union development policy at a strategic and programming level. The specific nature of the Union development policy is directly enshrined in the Treaties (Articles 208 and 210 of the Treaty on the Functioning of the European Union). Union aid and the national policies of the Member States in the sphere of development cooperation need to complement and reinforce each other and this cannot work without coordination. Article 210 of the Treaty on the Functioning of the European Union calls on the Commission to act as coordinator of the Member States' and the Union's development policies and of action in development cooperation.

Coordination is not only a major factor in the Commission's value added vis-à-vis the policies of the Member States but also a priority in the work schedule at the point where the agendas of the Union and the international community intersect. It therefore reflects a steadily growing demand from the other European institutions, as recognised by the Member States and by the European Parliament at the European Council in Barcelona in March 2002.

This appropriation covers various forms of action:

Action A: Coordination at European and international level

— effectiveness, efficiency, relevance, impact and viability studies in the area of coordination, meetings of experts and exchanges between the Commission, Member States, and other international actors (US, emerging donors, etc.) and international forums such as South-South cooperation,

— monitoring of policies and operations in the course of implementation,

— support measures to improve the quality of the monitoring of ongoing operations and the preparation of future operations,

— measures to support external initiatives in the sphere of coordination,

— the preparation of common positions, statements and initiatives,

— the organisation of events relating to coordination,

— the Commission's membership fees to the international organisations and networks,

— the dissemination of information through the production of publications and the development of information systems.

This appropriation will also cover the financing of the initiative entitled 'Mobilising European Research on Development Policies' which aims to provide added value to the Union policymaking process on development issues by improving the quality and forward-looking perspective of Union policy formulation. The initiative seeks to enhance synergies between European researchers and policymakers by bringing them together in one common project. The main output of this initiative is the publication, on an annual basis, of a 'European Report on Development' (ERD). The ERD, together with other intermediary products (background papers, seminars and workshops), will play a catalytic role in strengthening and refining the European perspective on key development challenges and its influence on the international development agenda on the basis of independent knowledge excellence and innovative policy recommendations. This initiative is financed jointly by the Commission and Member States through contributions on a voluntary basis. In addition, the appropriation will finance the publication of the ERD, including its translation, printing, dissemination and a promotional campaign to disseminate the policy recommendations of the ERD to development actors.

Action B: Raising awareness

This appropriation covers the financing of activities designed to draw attention to action by the Union and the Member States in the development field and to raise public awareness of development issues. Every activity financed pursuant to this article must include the following two components, which are complementary in the Commission's view:

— an 'information' component, designed to promote the various activities which the Union undertakes in the development aid field and the activities which it conducts in partnership with the Member States and other international institutions,

— an 'awareness-raising' component, covering public opinion in the Union and in developing countries.

These activities consist mainly, though not exclusively, of financial support for schemes in the audiovisual, publications, seminars and events fields as applied to development, the production of information material, the development of information systems, and also the Lorenzo Natali prize for journalism in the development field.

These activities are directed at public and private sector partners, and at the Union's representations and delegations in the Member States.

Irrespective of the beneficiary of the measure, no administrative expenditure against this article is authorised.

Legal basis

Tasks resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover administrative costs directly linked to the implementation of the Instrument for Pre-Accession Assistance (IPA), in particular:

— expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the beneficiaries and the Commission,

— expenditure on external staff at headquarters (contract agents, seconded national experts or agency staff) intended to take over the tasks previously conferred on dismantled technical assistance offices; expenditure on external staff at headquarters is limited to EUR 3 245 024. This estimate is based on a provisional annual unit cost per man-year, of which an estimated 75 % is accounted for by remuneration for the staff concerned and 25 % by the additional cost of training, meetings, missions (including long-term missions), information technology (IT) and telecommunications relating to those staff members,

— expenditure on external staff in Union delegations (contract agents, local agents or seconded national experts) for the purposes of devolved programme management in Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as the additional logistical and infrastructure cost, such as the cost of training, meetings, missions, IT and telecommunications and of renting directly attributable to the presence in the Union delegation of the external staff remunerated from the appropriations in this item,

— expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme.

This appropriation covers expenditure on administrative management under Articles 22 02 01, 22 02 02, 22 02 03, 22 02 04, 22 02 05, 22 02 07 and 22 02 08.

Remarks

This appropriation is intended to cover the administrative costs of the phasing-out of the accession assistance programmes in the new Member States, namely:

— expenditure on short-term technical assistance, linked to the achievement of the objective of the programme (or measures coming under this item), as well as any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts,

— expenditure on external staff in the Commission's post-accession Transition Team remaining in the new Member States during the phasing-out period (contract agents, agency staff) working on tasks directly related to the completion of the accession programmes, as well as the additional logistical, administrative and infrastructure cost, such as the cost of training, meetings, missions, IT and telecommunications and of renting directly attributable to the presence in the Transition Team of the external staff remunerated from the appropriations in this item,

Remarks

Under the IPA, this appropriation is intended to cover the component 'transition and institution building' for candidate countries. The main objective is to develop an effective capacity to implement the *acquis* of the Union, in particular by means of:

— strengthening democratic institutions, as well as the rule of law, including its enforcement,

— the promotion and the protection of human rights and fundamental freedoms and enhanced respect for minority rights, the promotion of gender equality and non-discrimination,

— public administration reform, including the establishment of a system enabling decentralisation of assistance management to the beneficiary country in accordance with the rules set down in the Financial Regulation,

— economic reform,

— the development of civil society and social inclusion, encouraging less well represented groups to gain a voice and participate in civil society, combating all forms of discrimination, and strengthening the rights of women and children and other particularly vulnerable groups, including persons with disabilities and older persons,

— reconciliation, confidence-building measures and reconstruction.

This appropriation may cover any eligible cooperation measures that are not expressly covered by other components of Regulation (EC) No 1085/2006 and for cooperation between the components.

Legal basis

Remarks

Under the IPA, pre-accession financial assistance is available not only for candidate countries but is also extended to potential candidate countries. This appropriation is intended to cover the component 'transition and institution building' for potential candidate countries. The main objective is to support the participation of the potential candidate countries in the stabilisation and association process and their progression towards candidate country status given their enhanced European perspective following the Thessaloniki European Council (19 to 20 June 2003). This will involve supporting the gradual introduction of the *acquis* of the Union for all countries and the implementation of obligations under the Interim Agreement/Stabilisation and Association Agreements, in particular by means of:

— strengthening democratic institutions, as well as the rule of law, including its enforcement,

— the promotion and the protection of human rights and fundamental freedoms and enhanced respect for minority rights, the promotion of gender equality and non-discrimination,

— public administration reform, including the establishment of a system enabling decentralisation of assistance management to the beneficiary country in accordance with the rules set down in the Financial Regulation,

— economic reform,

— the development of civil society and social inclusion, encouraging less well represented groups to gain a voice and participate in civil society, combating all forms of discrimination, and strengthening the rights of women and children and other particularly vulnerable groups, including persons with disabilities and older persons,

— reconciliation, confidence-building measures and reconstruction.

Part of the appropriations will be used for additional support to the authorities in Kosovo to swiftly proceed in meeting criteria and benchmarks for visa liberalisation with the Union, so visa-free travel can be established with Kosovo without undue delay.

Remarks

The Union is to finance part of the operation of the Office of the High Representative (OHR) in Bosnia and Herzegovina. The financing is in the form of a contribution to its budgets.

The OHR was expected to close down after Bosnia and Herzegovina had fulfilled some important benchmarks, but due to political uncertainty the closure was postponed.

The OHR will report to the European Parliament on the political situation in Bosnia and Herzegovina, in particular as regards its impact on the implementation of Union financial assistance.

Part of this appropriation is intended to be used, with due regard for the provisions of the Financial Regulation, for operations carried out by senior volunteer experts from the Union who come under the ESSN (European Senior Services Network), including technical assistance, advisory services and training in selected public or private sector enterprises.

Legal basis

22 02 04 Cross-border and regional cooperation

Remarks

The cross-border cooperation (CBC) component of IPA will support CBC programmes at both terrestrial and maritime borders between candidate or potential candidate countries and adjacent Member States and at borders among candidate or potential candidate countries through two budgetary items: 'CBC with Member States' and 'CBC between IPA countries and participation in ERDF transnational/interregional programmes and ENPI sea basins programmes'.

Remarks

This appropriation is intended to cover technical assistance in the field of approximation of legislation for the entire *acquis* of the Union, helping all bodies involved in the implementation and enforcement of the *acquis*, including non-governmental organisations, to achieve their objectives and to monitor their rate of achievement.

The objective is to provide as rapidly as possible short-term assistance by means of seminars, workshops, study visits and expert visits, training arrangements, provision of tools and products, notably for information gathering and dissemination, translation/interpretation, as well as any other forms of technical assistance in the context of the approximation to the *acquis* of the Union.

The range of beneficiaries comprises representatives from all public and semi-public-sector bodies such as national administrations, parliaments, legislative councils, regional governments, regulatory and supervisory authorities, as well as those from social partners and representatives of commercial, professional and economic groupings which are involved in the transposition, implementation and enforcement of the *acquis* of the Union.

Remarks

This appropriation is intended to cover financial support for encouraging the economic development of the Turkish Cypriot community in order to maintain and deepen results achieved with earlier Union assistance. The assistance will focus particularly on the economic integration of the island and on improving contacts between the two communities and with the Union in order to facilitate the reunification of Cyprus.

The assistance may be used to support:

— the promotion of social and economic development, in particular concerning rural development, human resources development and regional development,

— the development and restructuring of infrastructure,

— reconciliation, confidence-building measures, and support to civil society,

— bringing the Turkish Cypriot community closer to the Union through, inter alia, information on the Union's political and legal order, promotion of youth exchanges and scholarships,

— progressive alignment with, and preparation for, implementation of the *acquis* of the Union,

— the implementation of the decisions of the bicommunal Technical Committee on Cultural Heritage, including projects of the minorities,

— the continuation of Union financial support and acceleration of the work of the Committee on Missing Persons.

— capacity building in order to improve the knowledge of civil society about the EU and its *acquis*, and in order to improve skills on how to apply for, and implement, Union funding.

Part of this appropriation is also intended to cover the support administrative expenditure necessary for implementation of the programme such as:

— expenditure on technical and administrative assistance which the Commission may delegate to an implementing agency governed by Union law,

— expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the beneficiaries and the Commission,

— expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme.

The appropriations are to be used, in particular, to sustain the outcome of works, supplies and grants being funded under earlier allocations. In addition, grant schemes addressed to a large variety of beneficiaries within the civil society of the community (non-governmental organisations (NGOs), students and teachers, schools, farmers, small villages, the private sector) will continue. These activities are reunification driven. Priority should be given, where possible, to reconciliation projects which create bridges between the two communities and build confidence. These measures underline the strong desire and commitment of the Union to a Cyprus settlement and reunification.

p.m.	932 000	p.m.	240 000	0,—	1 042 462,24

Remarks

This appropriation will be used for supporting non-profit organisations (such as civil society organisations at a local and international level and public institutions) in conducting sustainable preservation, restoration and development of sites concerning valuable cultural objects (churches, mosques, libraries, museums, monuments, etc.) in candidate and potential candidate countries.

Whenever possible, particular attention should be given to projects that support confidence-building processes by involving different ethnic and religious groups in joint projects, as well as competence building and awareness creation on a local and national level.

In the future, experience gained under this pilot project could also serve to develop a permanent legal basis and a wider approach for preserving and restoring cultural heritage in conflict areas in other geographical regions.

The European Parliament resolution of 29 March 2007 on the future of Kosovo and the role of the EU (OJ C 27 E, 31.1.2008, p. 207) stated that a Kosovo settlement should cover 'protection of all cultural and religious sites'.

A huge number of damaged buildings in the Balkans stand as physical reminders of earlier conflicts, creating mistrust. Different ethnic groups and local authorities are today engaged by NGOs in joint restoration projects, thereby promoting respect for the cultural values of others, but no Union funding is available. The IPA programme broadly covers 'reconstruction' and 'cooperation between communities' but does not make specific reference to restoring cultural heritage.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

p.m.	p.m.	3 000 000	2 000 000	500 000,—	652 457,61

Remarks

This appropriation will be used for supporting preservation and restoration projects for valuable cultural and religious objects (churches, mosques, libraries, museums, monuments, etc.) damaged or destroyed by war or other political conflicts in the Western Balkans. Appropriations may be used to support public organisations as well as NGOs conducting projects in this field. In this context, however, it is important to recognise the key role that NGOs often play in these preservation and restoration projects.

Particular attention should be given to projects that support the confidence-building process by involving different ethnic and religious groups to take part in joint projects and that support local education and development of restoration knowledge and skills of high cultural quality.

Best restoration practice shall serve as a guideline when selecting objects and, in the selection and evaluation of proposals and contractors, restoration expertise shall be allowed to participate.

Experiences from the pilot project 2008/2009, and the preparatory action 2010/2011 should serve to develop a wider approach for preserving and restoring cultural heritage in conflict areas both in the Western Balkans and in other geographical areas.

The intention of this preparatory action is to serve as a basis for integrating preservation and restoration of cultural heritage in conflict areas into existing financial instruments, not only the IPA programme (for the Western Balkans, Turkey, etc.) but also the ENPI programmes (the Middle East, North Africa, etc.).

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover the funding of priority information and communication activities on enlargement, mainly regarding Member States, including evaluation actions.

The amount of the proposed appropriations reflects the information and communication priorities under the enlargement timetable. The aim of the information and communication strategy is to promote support for accession and to raise public awareness across Europe about the enlargement of the Union, but especially in those target countries where public opinion is more sensitive to future enlargement.

Remarks

This appropriation is intended to cover the funding of priority information and communication activities on enlargement mainly regarding candidate and potential candidate countries, including evaluation actions.

The bulk of this appropriation will be allocated to cover information and communication activities devolved to Union liaison offices/delegations in candidate and potential candidate countries.

Information and communication actions will be directed at the general public, relevant specific audiences, especially youth, media and civil society organisations, and will seek to enhance support among opinion leaders for enlargement as well as the association and stabilisation process. The aim is also to strengthen the Union's profile and political leverage in those countries and generate public support for the reform process during the accession and pre-accession periods.

Legal basis

Council Regulation (EC) No 1085/2006 of 17 July 2006 establishing an Instrument for Pre-Accession Assistance (IPA), (OJ L 210, 31.7.2006, p. 82).

New article

This appropriation is intended, for the first year after accession, to provide temporary financial assistance to Croatia to develop and strengthen its administrative and judicial capacity to implement and enforce Union law, and to foster the exchange of best practice among peers. Such assistance shall fund institution-building projects and limited small-scale investments ancillary thereto. It shall address the continued need for strengthening institutional capacity in certain areas through action which cannot be financed by the Structural Funds or by the rural development funds.

Assistance under the transition facility shall be decided and implemented in accordance with Council Regulation (EC) No 1085/2006 of 17 July 2006 establishing an Instrument for Pre-Accession Assistance (IPA) (OJ L 210, 31.7.2006, p. 82) or on the basis of other technical provisions necessary for the operation of the transition facility, to be adopted by the Commission.

Legal basis

Tasks resulting from the specific powers assigned directly to the Commission by Article 30 of the Act of Accession of Croatia.

Remarks

This appropriation is intended to cover support expenditure directly linked to the achievement of the objectives of the humanitarian aid policy. This covers, inter alia:

— expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts,

— fees and reimbursable expenses incurred through service contracts to undertake audits and evaluations of Directorate-General for Humanitarian Aid partners and actions,

— expenditure on studies, information and publications, on public awareness and information campaigns, and on any other measure highlighting the Union character of the aid,

— expenditure on external staff at headquarters (contract agents, seconded national experts or agency staff), limited to EUR 1 800 000. This staff is intended to take over the tasks that were entrusted to external contractors handling the administration of individual experts and to manage programmes in third countries. That amount, based on an estimated annual cost per person/year, is intended to cover the remuneration of the external staff in question and training, meetings, missions, information technology (IT) expenditure and telecommunications expenditure related to their tasks,

Remarks

This appropriation is intended to cover:

— expenditure on technical and/or administrative assistance relating to the identification, preparation, management, monitoring, audit, supervision and evaluation of the Civil Protection Financial Instrument and the Community Civil Protection Mechanism,

— expenditure relating to the purchase and maintenance of security, specialised IT and communication tools and technical and human services necessary for the establishment and functioning of the Emergency Response Centre. This centre ('crisis room') will be operational on a 24 hour-basis and responsible for the coordination of the Union's civilian disaster response, in particular to ensure full consistency and efficient cooperation between humanitarian assistance and civil protection,

— expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

This appropriation is intended to cover the financing of humanitarian assistance to help people in countries outside the Union who are the victims of conflicts or disasters, both natural and man-made (wars, outbreaks of fighting, etc.), or comparable emergencies, for as long as is necessary to meet the humanitarian needs that such situations give rise to.

The aid is granted to victims without discrimination on the grounds of race, ethnic origin, religion, disability, sex, age, nationality or political affiliation.

This appropriation is also intended to cover the purchase and delivery of any product or equipment needed for the implementation of humanitarian aid operations, including the building of homes or shelters for affected groups of people, short-term rehabilitation and reconstruction work, particularly of infrastructure and facilities, the costs associated with external, expatriate or local staff, storage, international or national shipment, logistic support and distribution of relief and any other action aimed at facilitating freedom of access to the recipients of the aid.

This appropriation may also cover any other costs directly linked to the implementation of humanitarian aid operations.

It covers, inter alia:

— feasibility studies on humanitarian operations, evaluations of humanitarian aid projects and plans, and visibility operations and information campaigns linked to humanitarian aid operations,

— the monitoring of humanitarian aid projects and plans, the promotion and development of initiatives intended to increase coordination and cooperation so as to make aid more effective and improve the monitoring of projects and plans,

— the supervision and coordination of the implementation of aid operations forming part of the aid concerned,

Remarks

This appropriation is intended to cover food aid operations of a humanitarian nature and will be carried out in accordance with the rules on humanitarian aid under Regulation (EC) No 1257/96.

The Union's humanitarian aid provides assistance and relief on a non-discriminatory basis to help people outside the Union, particularly the most vulnerable among them, and as a priority those in developing countries who are the victims of natural disasters, man-made crises, such as wars and outbreaks of fighting, exceptional circumstances or circumstances comparable to natural or man-made disasters. That assistance is provided as long as it is necessary to meet the humanitarian needs to which such situations give rise.

This appropriation may be used to finance the purchase and delivery of food, seeds, livestock or any product or equipment needed for the implementation of the humanitarian food aid operations.

CHAPTER 23 02 — HUMANITARIAN AID INCLUDING AID TO UPROOTED PEOPLE, FOOD AID AND DISASTER PREPAREDNESS *(cont'd)*

23 02 02 *(cont'd)*

This appropriation is intended to cover the cost of the measures that are essential for implementing food aid operations of a humanitarian nature within the requisite timescale and in a way which meets the needs of the recipients, satisfies the requirement to achieve the greatest possible degree of cost-effectiveness and provides greater transparency. This includes:

— the transport and distribution of aid, including any related operations such as insurance, loading, unloading, coordination, etc.,

— back-up measures that are essential for the programming, coordination and optimum implementation of the aid, the cost of which is not covered by other appropriations, e.g. exceptional transport and storage operations, processing or preparation of foodstuffs on the spot, disinfection, consultants' services, technical assistance and equipment directly involved in providing the aid (tools, utensils, fuel, etc.),

— the supervision and coordination of food aid operations, notably the terms for the supply, delivery, distribution and use of the products involved, including the use of counterpart funds,

— pilot schemes concerning new forms of transport, packaging or storage, studies of food aid operations, visibility operations linked to the humanitarian operations, and information campaigns to increase public awareness,

— the storage of food (including administrative costs, future operations, with or without options, training of technicians, purchase of packaging and mobile storage units, cost of maintaining and repairing stores, etc.),

— the technical assistance necessary for the preparation and implementation of humanitarian food aid projects, in particular expenditure incurred covering the cost of contracts of individual experts in the field and the infrastructure and logistics costs, covered by imprest accounts and expenditure authorisations, of Directorate-General for Humanitarian Aid units deployed throughout the world.

In order to ensure full financial transparency under Articles 53 to 56 of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1), the Commission, when concluding or modifying agreements on the management and implementation of projects by international organisations, will make every effort to commit to sending all their internal and external audits regarding the use of Union funds to the European Court of Auditors and to the Internal Auditor of the Commission.

Remarks

This appropriation is intended to cover a preparatory action on the establishment of a European Voluntary Humanitarian Aid Corps (EVHAC), which is foreseen by Article 214(5) of the Treaty on the Functioning of the European Union.

In 2012, the Commission put forward a legislative proposal setting up EVHAC (COM(2012) 514 final). The aim of EVHAC is to create a framework for joint contributions from Europeans to humanitarian aid operations of the Union. It is a way of expressing the Union's solidarity with people in need. EVHAC will add visibility to Europe as a global player showing solidarity with the most vulnerable sections of the world population and ensuring involvement of a wide range of actors. An initial review of the European voluntary humanitarian aid sector identified gaps and areas where the EVHAC will add value. These include the identification and selection of volunteers, training through the development of common standards, good practices and possibly modules and deployment. In addition to giving a European form to the widely dispersed activities carried out by volunteers, the existence of EVHAC will also lead to a more efficient coordination of humanitarian activities, to the standardisation of procedures and practices applying to volunteers and to economies of scale.

This appropriation is intended to cover the following measures and items of expenditure:

— based on the 2011 preparatory work, the Commission will identify the areas requiring in-depth studies. Specific studies and evaluations further exploring issues linked to the establishment of EVHAC will be launched and will allow EVHAC's concrete features to be better defined,

— this work will be followed up by an extensive information and consultation process (publications, workshops, experts meetings, conferences) and the coordination and mobilisation of key stakeholders required by the legislative process. Seminars, working groups and conferences with stakeholders will facilitate the exchange of views on the future direction and structure of European volunteering in humanitarian aid,

— concrete 'pilot' actions in fields not covered in 2011 (e.g. civil protection) will be implemented to test concrete options and to generate lessons learned that will feed into the legislative proposal process,

— follow-up of 2011 concrete actions will be implemented to work with more partners, thereby exploring other options and responding to the expectations raised in 2011.

CHAPTER 23 02 — HUMANITARIAN AID INCLUDING AID TO UPROOTED PEOPLE, FOOD AID AND DISASTER PREPAREDNESS *(cont'd)*

23 02 04 *(cont'd)*

The implementation of concrete projects will include the technical assistance necessary for the preparation and implementation of projects, in particular the cost of contracts of volunteers and individual experts in the field and, where appropriate, the infrastructure and logistics costs (e.g. security, health, lodgings, insurance, daily and travel allowances) information and awareness-raising activities, including the promotion of volunteering to organisations which are not traditionally associated with this type of activity.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover expenditure on actions in the field of civil protection. It is aimed at supporting and complementing the efforts of the Member States, EFTA States and candidate countries having signed a memorandum of understanding with the Union on response, preparedness and prevention actions with regard to natural and man-made disasters, acts of terrorism and technological, radiological or environmental accidents. It also aims to facilitate closer cooperation between the Member States in the field of civil protection.

It covers, in particular:

— the creation and management of a genuine, fully-fledged 24/7 Emergency Response Centre (ERC). This covers the purchase and maintenance of security, specialised IT and communication tools and technical and human services necessary for the establishment and functioning of the Emergency Response Centre. This centre ('crisis room') will be operational on a 24-hour basis and responsible for the coordination of the Union's civilian disaster response, in particular to ensure full consistency and efficient cooperation between humanitarian assistance and civil protection. The Centre needs advanced technology to maximise the gathering of information and facilitate the dissemination of information to various stakeholders, partners and teams in the field during major emergencies. In a crisis situation, making more information rapidly available to decision-makers translates into saved lives,

CHAPTER 23 03 — CIVIL PROTECTION FINANCIAL INSTRUMENT *(cont'd)*

23 03 01 *(cont'd)*

— the creation of a 'stand-by' capability for resources and equipment to be made available to a Member State in the event of an emergency,

— the identification of intervention experts, modules and other support available in Member States for assistance interventions in case of emergencies,

— the mobilisation of experts to assess assistance needs and facilitate Union assistance in Member States or third countries in the event of disasters, and the basic logistical support for such experts,

— a programme of lessons learnt from civil protection interventions and exercises in the framework of the Community Civil Protection Mechanism,

— a training programme for intervention teams, external staff and experts, to provide the knowledge and tools needed to participate effectively in Union interventions and to develop a common European intervention culture,

— command post exercises and full-scale exercises to test interoperability, train civil protection officials and create a common intervention culture,

— exchanges of experts to enhance understanding of Union civil protection and to share information and experience,

— information and communication systems, in particular the Common Emergency Communication and Information System (CECIS), facilitating the exchange of information with Member States during emergencies, to improve efficiency and to enable the exchange of 'EU classified' information. This covers the costs of development, maintenance, operation and support (hardware, software and services) of the systems. It also covers the cost of project management, quality control, security, documentation and training linked to the implementation of such systems,

— the study and development of civil protection modules within the meaning of Article 3(5) of Decision 2007/779/EC, Euratom,

— the study and development of disaster detection and early warning systems,

— the provision of support to Member States in obtaining access to equipment and transport resources,

— the provision of additional transport resources and associated logistics, necessary for ensuring a rapid response to major emergencies and complementing the transport provided by the Member States, under the conditions laid down in Article 4(2)(c) of Decision 2007/162/EC, Euratom,

— support for consular assistance to the citizens of the Union in major emergencies in third countries regarding civil protection activities, upon request from the consular authorities of the Member States,

— workshops, seminars, projects, studies, surveys, modelling, scenario-building and contingency planning, capacity-building assistance, demonstration projects, technology transfer, awareness-raising, information, communication and monitoring, assessment and evaluation,

— other supporting and complementary actions necessary in the framework of the Community Civil Protection Mechanism.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

The aim of this pilot project is to improve mobilisation of operational resources and emergency support from Member States to assist a Member State in coping with forest fires too numerous and too intense to be handled by that Member State using its own logistical capacity and manpower.

The pilot project's objectives are, in particular, to:

— draw up a schedule of Member State emergency teams and logistical resources which can be mobilised in a contingency situation,

— develop standardised communication and information mechanisms in order to make assistance more effective and exchange information on best practices and best equipment and on drawing up operation plans for using both technical and human contingency resources.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover a preparatory action on a rapid response capability of the Union designed to respond immediately to critical needs arising from major disasters, including forest fires. It may consist of dedicated civil protection modules that Member States make available for European civil protection intervention and/or additional complementary capacities made available by the Monitoring and Information Centre (MIC) through standing arrangements with other parties.

CHAPTER 23 03 — CIVIL PROTECTION FINANCIAL INSTRUMENT *(cont'd)*

23 03 05 *(cont'd)*

The aim of this preparatory action is also to improve the mobilisation of additional operational resources and emergency support from Member States to assist other Member States or third countries in coping with forest fires too numerous and too intense to be handled within the constraints of national logistical capacity and manpower. It is designed to test innovative arrangements for making assistance available to Member States or third countries facing major forest fires. It covers in particular the setting-up by the Member States of a reserve of fire fighting capacities that may be made available in situations where Member States are unable to provide the assistance because they have engaged all their national fire fighting capacities to respond to forest fires or due to a high risk of forest fires on their territory.

By ensuring that key resources and essential equipment are on standby during relevant periods, in line with scenarios for responding to major disasters, this preparatory action is intended to enhance the collective preparedness of the Union for major disasters and paves the way for the European Union Civil Protection Force.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover expenditure relating to civil protection intervention in third countries under the Civil Protection Financial Instrument and the Community Civil Protection Mechanism:

— mobilisation of experts to assess assistance needs and facilitate European assistance in Member States or third countries in case of disasters,

— transportation of European civil protection assistance, including the provision of relevant information on transportation means, in the event of disaster as well as associated logistics.

Implementing partners may include authorities of the Member States or of beneficiary countries and their agencies, regional and international organisations and their agencies, non-governmental organisations, public and private operators and individual organisations or operators (including staff seconded from Member State administrations) with appropriate specialised expertise and experience.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contribution from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

This appropriation is intended to cover expenditure relating to the European Anti-Fraud Office (OLAF), including for OLAF staff posted in Union delegations, the objective of which is to combat fraud within an interinstitutional framework.

The amount of assigned revenue pursuant to Article 21(3) of the Financial Regulation is estimated at EUR 65 000.

Conditions for releasing the reserve

EUR 3 929 200 will be released from the reserve as soon as OLAF allows the Members of the European Parliament to inspect, in a secure reading room, how the appropriations co-financed by OLAF via the Hercule II programme are used in the Member States. When it does so, OLAF shall disclose what infrastructure has been co-financed, what technical equipment exists and whether it works correctly, and what results have been achieved.

Remarks

This appropriation is intended to cover actions or activities organised in the framework of the Hercule II programme in the field of the protection of the Union's financial interests, including in the field of the prevention of and the fight against cigarette smuggling and counterfeiting.

This appropriation covers:

— development and improvement of investigative methods and technical resources in the fight against fraud, and improvement in the quality of technical and operational support for investigations, more particularly technical assistance to national authorities involved in the fight against fraud, including the fight against cigarette smuggling,

— promotion and improvement of cooperation between the Member States and the Union and between practitioners and academics,

— provision of information and support for activities relating to data access.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

As foreseen in the Action Plan implementing the Stockholm programme, the Commission envisages presenting a 'Communication on a comprehensive policy against corruption in Member States, including the establishment of an evaluation mechanism as well as presenting modalities of cooperation with the Council of Europe's Group of States against corruption (GRECO) for that purpose'.

The anti-corruption policy and evaluation mechanism at the level of the Union would respond to: (i) the public perception across the Union (2007 and 2009 Eurobarometers: more than 75 % of the European citizens consider that corruption represents a major problem in their own Member State), and (ii) the high public expectation of strengthened Union action (public consultation for Stockholm programme: 88 % of consulted citizens required more Union action in the field of anti-corruption).

A concrete step towards establishing an evaluation mechanism is a pilot project with a particular focus on public procurement involving Union funds that could identify indicators of corruption in the field of public procurement, test them in a limited number of Member States and measure the costs of corruption in particular areas. This particular focus in the pilot project is required given the magnitude of Union funds involved across the Union and the fact that public procurement is a developed area of the *acquis* in which Union competence is well-established.

Considering that corruption has played an important role in the financial crisis and that it slows down the recovery, the pilot project and the action by the Union has become even more urgent.

As a prerequisite, a research component in the pilot project may advance common definitions of corruption in the area of public procurement, so that data in different Member States could be compared, and the costs of corruption could be identified based upon common criteria.

The pilot project could be implemented in a limited number of Member States, selected on the basis of whether the results would be relevant for follow-up at Union level and for future Union policy and legislative action. The findings of the pilot project could then be disseminated throughout the Union.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

The purpose of this pilot project was to set up an interinstitutional system identifying long-term trends on major policy issues that the Union faces and providing common analyses of probable outcomes on major issues to be available for policy-makers; this is coordinated between the European Parliament (involving policy departments), the Council and the Commission, using the already well established European Union Institute for Security Studies (EUISS) as a core for the system.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

The purpose of this preparatory action is to set up an interinstitutional system identifying long-term trends on major policy issues that the Union faces. The intention is to provide common analyses of probable outcomes on major issues to be available for policymakers. Furthermore, to achieve this goal, it would now be appropriate to explore in detail the design of specific mechanisms for promoting closer working cooperation between the research departments of the various Union institutions and bodies which are devoted to the analysis of medium- and long-term policy trends.

COMMISSION

TITLE 25 — COMMISSION'S POLICY COORDINATION AND LEGAL ADVICE

CHAPTER 25 01 — ADMINISTRATIVE EXPENDITURE OF THE 'COMMISSION'S POLICY COORDINATION AND LEGAL ADVICE' POLICY AREA *(cont'd)*

25 01 10 *(cont'd)*

The aim of this preparatory action will be:

— to create a European strategy and policy analysis system (ESPAS) with all Union institutions included by 2014 on the basis of a proposal from the Commission (Article 54 of the Financial Regulation). The European Union Institute for Security Studies (EUISS) could continue to provide facilities and technical back-up until such time as the system becomes operational. The system:

  — will be interinstitutional, focusing on global long-term trends, both external and internal, relating to the Union,

  — should be designed to provide regular input to the Union institutions to nourish long-term and medium-term strategic thinking, including reaching out to academics and other stakeholders to provide a broad perspective:

    — this input would include a detailed appraisal of long-term global trends and the submission of a report to the incoming presidents of the Union institutions looking at challenges options for the period 2014-2019,

    — further reports could include documents for the Union institutions for debate on forward-looking topics, helping foster and deepen cooperation between the Union institutions,

  — should develop links with other countries undertaking global trends work in order to benefit from their expertise and provide its own expertise to other countries trying to get a grip on strategic trends and changes,

— to build and maintain an open website, as a global repository for all relevant information, to facilitate citizens' access, and linked to other working websites on long-term trends across the globe.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this item, as well as any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, as the contracts of technical assistance offices expire during subsequent years.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Legal basis

— the purchase, hire, maintenance and repair of vehicles, and in particular:

  — new purchases of vehicles, including at least one vehicle adapted for transporting persons with reduced mobility,

  — the replacement of vehicles which, during the year, reach a total mileage such as to justify replacement,

  — the cost of hiring cars for short or long periods when demand exceeds the capacity of the vehicle fleet, or when the vehicle fleet does not cater for needs of passengers with reduced mobility,

  — the cost of maintaining, repairing and insuring official vehicles (fuel, lubricants, tyres, inner tubes, miscellaneous supplies, spare parts, tools, etc.),

  — various types of insurance (in particular third-party liability and insurance against theft) and the insurance costs referred to in Article 84 of the Financial Regulation,

Remarks

This appropriation is intended to cover the costs of:

— collecting, processing, publishing and disseminating notices of public contracts put up for tender in the Union and third countries on various media, and of incorporating them in the eProcurement services offered by the institutions to firms and contracting authorities. This includes the cost of translating the notices of public contracts published by the institutions,

— promoting the use of new techniques for collecting and disseminating notices of public contracts by electronic means,

— developing and exploiting eProcurement services for the various contract award stages.

The amount of assigned revenue pursuant to Article 21(3) of the Financial Regulation is estimated at EUR 403 100.

Remarks

On 29 September 2008 the Commission proposed a programme on 'Interoperability Solutions for European Public Administrations' (ISA) as a successor to the IDABC programme, which came to an end in December 2009.

The ISA programme aims at facilitating the efficient and effective electronic cross-border and cross-sector interaction between European public administrations in support of the delivery of electronic public services.

In order to do so, the ISA programme must contribute to establishing the related organisational, financial and operational framework by ensuring the availability of common frameworks, common services and generic tools and by increasing the awareness of information and communication technology aspects of Union legislation.

The ISA programme will thus contribute to the reinforcement and implementation of Union policies and legislation.

The programme is implemented in close cooperation and coordination with Member States and sectors, via studies, projects and accompanying measures.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

In accordance with Article 18 of the Financial Regulation, the balance from each financial year is to be entered in the budget for the following financial year as revenue in the case of a surplus or as a payment appropriation in the case of a deficit.

The estimates of such revenue or payment appropriations are entered in the budget during the budgetary procedure and in a letter of amendment submitted pursuant to Article 39 of the Financial Regulation. They are drawn up in accordance with Regulation (EC, Euratom) No 1150/2000.

After the close of accounts for each financial year, any discrepancy with the estimates is entered in the budget for the following financial year through an amending budget.

A surplus is entered in Article 3 0 0 of the statement of revenue.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the Swiss Confederation's contribution for participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Appropriations 2013	Appropriations 2012	Outturn 2011
280 000	250 000	383 568,—

Remarks

This appropriation is intended to cover:

— expenditure on technical and/or administrative assistance relating to the identification, preparation, management, monitoring, audit and supervision of the programme or projects,

— expenditure on studies, meetings of experts, missions, information and publications directly linked to the achievement of the objective of the programme or measures coming under this item, plus any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the Swiss Confederation's contribution for participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Legal basis

New item

This appropriation is intended to cover:

— expenditure on technical and/or administrative assistance relating to the identification, preparation, management, monitoring, audit and supervision of the programme or projects,

— expenditure on external staff at headquarters (contract agents, seconded national experts or agency staff), up to EUR 2 300 000. This amount is calculated on the basis of a unit annual cost per person/year, 97 % of the total comprising the remuneration for the staff in question and 3 % the costs of training, meetings, missions, information technology and telecommunications in connection with such staff,

— expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this item, plus any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contribution of the Swiss Confederation participating in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations pursuant to Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

This appropriation is intended to cover the following:

— statistical surveys, studies and development of indicators/benchmarks,

— quality studies and activities designed to improve the quality of statistics,

— subsidies to national statistical authorities,

— the processing, dissemination, promotion and marketing of statistical information,

— equipment, processing infrastructure and maintenance essential for statistical information systems,

— magnetically recorded statistical analysis and documentation,

— services rendered by external experts,

— joint-financing revenue for the public and private sectors,

— the financing of surveys by commercial undertakings,

— the organisation of advanced statistical technology training courses for statisticians,

— the cost of purchasing documentation,

— subsidies for the International Statistical Institute and subscriptions to other international statistical associations.

It is also intended to ensure the gathering of the information necessary to draw up annually a summary report on the economic and social state of the Union on the basis of economic data and structural indicators/benchmarks.

This appropriation is also intended to cover costs incurred in connection with the training of national statisticians and the policy of cooperation with developing countries, the countries of central and eastern Europe and southern Mediterranean countries; expenditure relating to exchanges of officials, the costs of information meetings, subsidies, and expenditure on payment for services rendered in connection with the adjustment of the remuneration of officials and other staff.

Also charged to this article is expenditure on the purchase of data and access for Commission departments to outside databanks. In addition, funding should be used to develop new, modular techniques.

CHAPTER 29 02 — PRODUCTION OF STATISTICAL INFORMATION *(cont'd)*

29 02 03 *(cont'd)*

It is also intended to cover the provision of the necessary statistical information, at the request of the Commission or of the other institutions of the Union, for the assessment, monitoring and evaluation of the Union's expenditure. This will improve the implementation of financial and budgetary policy (drawing-up of the budget and periodic review of the financial perspective) and make it possible to compile medium and long-term data for the financing of the Union.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the Swiss Confederation's contribution for participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

This appropriation is intended to cover expenditure relating to the implementation of the Programme for the Modernisation of European Enterprise and Trade Statistics (MEETS), the objectives of which are to develop target sets of indicators and a review of priorities, to streamline the framework of business-related statistics, to implement a smarter way of collecting data, and to modernise and simplify Intrastat.

This programme will cover the following actions:

— define priority areas and define target sets of indicators,

— identify areas of lesser importance,

— integrate concepts and methods within the legal framework,

— develop statistics on enterprise groups,

— conduct European surveys to minimise the burden on business,

— make better use of data that already exist in the statistical system including the possibility of estimations,

— make better use of data that already exist in the economy,

— develop tools for a more efficient extraction, transmission and treatment of data,

— harmonise methods to improve quality under a simplified Intrastat system,

— make better use of administrative data, and

— improve and facilitate the data exchange for Intrastat.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from contributions from third parties entered in Item 6 0 3 3 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this item, in accordance with the Financial Regulation.

Remarks

Since expenditure on staff and buildings is included in the appropriations entered in Items XX 01 01 01 and XX 01 03 01 and Article 26 01 23, the Commission contribution, together with the Agency's own revenue, is intended to cover expenditure incurred by the Agency in its activities.

CHAPTER 32 01 — ADMINISTRATIVE EXPENDITURE OF THE 'ENERGY' POLICY AREA *(cont'd)*

32 01 06 *(cont'd)*

At its 23rd session on 1 and 2 February 1960, the Euratom Council proposed unanimously that the Commission postpone not only the levying of the charge (intended to cover the operating expenditure of the Euratom Supply Agency) but also the actual introduction of the said charge. Since then a subsidy has been included in the budget to balance the revenue side against the Agency expenditure figures shown in the statement of estimates.

Remarks

This appropriation is intended to cover earlier commitments of the 'Intelligent Energy — Europe' programme (2003 to 2006).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of a European competitive, safe and sustainable energy policy, of the internal energy market and its extension to third countries, of the energy supply security for all aspects in a European and global perspective as well as the strengthening of the rights and protection of energy users by supplying quality services at transparent and comparable prices.

CHAPTER 32 04 — CONVENTIONAL AND RENEWABLE ENERGIES *(cont'd)*

32 04 03 *(cont'd)*

The principal endorsed objectives are to set up a progressive common European policy ensuring continuous energy supply security, good functioning of the internal energy market and access to transport networks of energy, observation of energy market, analysis of modelling including scenarios on the impacts of considered policies and the strengthening of the rights and protection of energy users, based on general and particular knowledge of global and European energy markets for all energy types.

This appropriation is also intended to cover experts' expenditure directly linked to the collection, validation and analysis of necessary information on energy market observation (peer review).

Remarks

This article is intended to provide funding for the European Strategic Energy Technology Plan (SET-Plan), as announced in the Commission Communication entitled 'A European Strategic Energy Technology Plan (SET-Plan): Towards a low carbon future' (COM(2007) 723 final). It aims to finance in particular support for low-carbon energy technologies in the research, development, demonstration and commercialisation phases.

Legal basis

Remarks

This appropriation is intended to finance actions or measures concerning:

— promotion and dissemination projects:

  — strategic studies on the basis of shared analysis and regular monitoring of market developments and energy trends for the preparation of future legislative measures or for the review of existing legislation, including as regards the functioning of the internal energy market, for the implementation of the medium and long-term strategy in the energy field to promote sustainable development, as well as for the preparation of long-term voluntary commitments with industry and other stakeholders and for the development of standards, labelling and certification systems, where appropriate also in cooperation with third countries and international organisations,

  — creation, enlargement or reorganisation of structures and instruments for sustainable energy development, including local and regional energy management and saving measures, and the development of adequate financial products and market instruments; building on the experience from past and present networks,

  — promotion of sustainable energy systems and equipment in order to further accelerate their penetration of the market and stimulate investment to facilitate the transition from demonstration to marketing of more efficient technologies, awareness campaigns and the creation of institutional capabilities,

  — development of information, education and training structures, the utilisation of results, the promotion and dissemination of know-how and best practices involving all consumers, dissemination of results of the actions and projects and cooperation with the Member States through operational networks,

  — monitoring of the implementation and the impact of Union legislative and support measures,

— market replication projects:

  — support to projects concerned with the market replication of innovative techniques, processes, products or practices of Union relevance which have already been technically demonstrated with success. These will be designed to promote their broader utilisation within the participating countries and facilitate their market uptake.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from contributions from third parties entered in Item 6 0 3 3 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this item, in accordance with the Financial Regulation.

To achieve the 20 % target put forward by the Commission, in its Communication of 10 January 2007 entitled 'An energy policy for Europe' (COM(2007) 1), for renewables in the Union's overall energy mix by 2020 — the current target is 12 % for 2010 — this preparatory action is intended to finance:

— projects to develop integrated renewable energy systems (marine, wind, solar, biomass and biogas) adapted to the climatic and specific socioeconomic conditions of island communities, including hybrid systems and desalination systems,

— projects to assess the social and economic impact of increased penetration and utilisation of renewable energies and energy efficiency measures on local island communities (economic development, employment, keeping young people in island communities, etc.),

— energy technology initiatives suitable for island communities, promoting research projects in the areas of renewable energy and energy efficiency technologies to maximise renewable energy use and to adapt to local circumstances,

— projects to develop efficient and environmentally friendly ways to transport this energy to the mainland, including the interconnection of peripheral island electricity networks to mainland grids,

— the exchange of best practices between island regions in Europe.

Remarks

This appropriation is intended to cover the costs of gas and electricity infrastructure projects having the highest Union added value.

It should serve to adapt and develop energy networks of particular importance to the Union in support of the operation of the internal energy market and, in particular, to increase interconnection capacity, security and diversification of supply and to overcome environmental, technical and financial obstacles. Special Union support is necessary to develop energy networks more intensively and to accelerate their construction, notably where the diversity of routes and sources of supply is low.

This appropriation should also serve to promote connection and integration of renewable energy resources and to strengthen economic and social cohesion with less-favoured and island regions of the Union.

Remarks

This appropriation is intended to cover the promotion of projects aiming at the Union's offshore wind grid system development, with a particular focus on:

— balancing the variability of wind electricity through integrative systems,

— large-scale storage systems,

— management of wind farms as virtual power plants (more than 1 GW),

— turbines placed further from the shore or in deeper waters (20 to 50 m) than is currently standard,

— novel sub-structure designs,

Remarks

The EEPR amended Regulation No 1233/2010 of the European Parliament and of the Council of 15 December 2010 enabled the creation of a new financial facility supporting energy efficiency and renewable energy sources. It is composed of an investment fund (the European Energy Efficiency Fund (EEE F) of a global amount of EUR 265 000 000 of which the EU contributed to EUR 125 000 000), a technical assistance (TA) of EUR 20 000 000 and awareness raising activities (EUR 1 300 000). The EEE F brings support to local, regional and (where justified) national public authorities; and public or private entities acting on behalf of public authorities.

Legal basis

Remarks

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the rules and measures required to improve the security of the energy sector, technical assistance and specific training.

The main objectives are to develop and apply security rules in the field of energy and in particular:

— measures to prevent malicious acts in the energy sector, with particular reference to the installations and infrastructures of the European system of energy generation and transmission,

— approximation of legislation, technical standards and administrative monitoring practices relating to energy security,

— definition of common indicators, methods and security objectives for the energy sector and collection of the data necessary for such definition,

— monitoring of measures taken on energy security by national authorities, operators and other key actors in the field,

— international coordination on energy security, including neighbouring supplier and transit countries and other world partners,

— promoting technology development in energy security.

Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This project will have as a general objective the drawing up of proposals to prepare for future action for investment in Member States in small-scale solar energy demonstration installations for heating, cooling and electricity. The specific objective should be to set up residential installations in those Member States and regions where there are no subsidies or very limited subsidies, in order to allow the presentation to a large audience of different technologies and possibilities for the generation of heat, cooling and electricity from the sun. As these are new technologies and the majority of the Union population is not well-informed about their advantages, private residential solar investments can be boosted by creating such demonstration installations closer to their place of residence.

TITLE 32 — ENERGY

The outcome of the project should be several solar installations installed in residential houses and buildings which are made to be functional and to be visited.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to fund pilot projects or other support activities aiming at analysing the public acceptance of the exploration and exploitation of shale gas and the introduction of a dialogue on it.

A public debate on shale gas, its merits and negative effects, has started in Europe, but it is not always based on concrete knowledge and information. It is important, therefore, to start a citizens' dialogue and information campaign before industrial production begins.

This appropriation should support this public dialogue on the social, environmental and economic effects of such projects at local, national and European level. Such dialogues should include national authorities, local communities, the general public, businesses and NGOs. The content of planned activities could include public hearings, conciliations, or other new methods of public consultation in the areas of shale gas development and within national capitals.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

In the framework of Directive 2009/28/EC of the European Parliament and of the Council of 23 April 2009 on the promotion of the use of energy from renewable sources (OJ L 140, 5.6.2009, p. 16), which sets national targets for the share of renewable energy sources in gross final energy consumption, a new mechanism is proposed for achieving the national targets, under which Member States can make use of national support schemes and of the cooperation mechanisms provided in the context of Directive 2009/28/EC. These mechanisms, which introduce flexibility for Member States on a voluntary cooperation basis, refer to statistical transfers between Member States (Article 6), joint projects between Member States (Articles 7 and 8), joint projects between Member States and third parties (Articles 9 and 10) and joint support schemes between Member States (Article 11).

32 04 19 *(cont'd)*

This preparatory action should aim to examine all the conditions for the successful implementation of these cooperation mechanisms and their interaction with other mechanisms or national support schemes, and to assess the need to develop a specific framework for the operation of this mechanism. Development of this operation framework should be given priority in Member States with limited cross-border network capacities as well as in areas that exhibit high potential for specific renewable energy sources projects.

Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

This appropriation is intended to finance, in particular:

— expenses for missions by inspectors carried out in accordance with pre-established six-monthly programmes, short-notice inspections (daily subsistence allowances and travel expenses),

— training of inspectors, and meetings with Member States and nuclear operators,

— purchases of equipment for use in inspections, particularly purchases of monitoring equipment such as digital video systems, gamma, neutron and infrared measurement devices, electronic seals and seal reader systems,

— procurement and renewal of information technology hardware for inspections,

— specific information technology projects for inspections (development and maintenance),

— replacement of monitoring and measurement devices which have reached the end of their service life,

— maintenance of equipment, including insurance of specific equipment at the Canberra, Ametek, Fork and GBNS sites,

— technical infrastructure measures, including waste management and sample transport,

— on-site analyses (labour costs and mission expenses for analysts),

— agreements on working premises on site (laboratories, offices, etc.),

— day-to-day management of on-site installations and central laboratories (repairs, maintenance, information technology hardware, purchases of supplies and consumables, etc.),

— information technology support and tests for applications for inspections.

The following will also give rise to the provision of additional appropriations in accordance with Article 21(3) of the Financial Regulation:

— paid insurance claims,

— repayment of sums unduly paid by the Commission for goods, work or services.

Legal basis

Commission Regulation (Euratom) No 302/2005 of 8 February 2005 on the application of Euratom safeguards (OJ L 54, 28.2.2005, p. 1).

Remarks

This appropriation is intended to cover:

— expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the common policy on nuclear safety and security, particularly in the new Member States and of the rules and measures in the field of radiation protection,

— expenditure on measures and actions relating to monitoring and protection against the effects of ionising radiation and aimed at ensuring the health protection of the population and the protection of the environment against the dangers of radiation and radioactive substances. These actions relate to specific tasks provided for under the Treaty establishing the European Atomic Energy Community,

— expenditure on the establishment and operation of a corps of inspectors to check protection against ionising radiation in the Member States. This expenditure includes, in addition to subsistence allowances and travel (mission) expenses, costs for training, for preparatory meetings and for purchases of equipment to be used for inspections,

— expenditure linked to the implementation of the Commission's tasks referred to in point 31 of the European Council conclusions (24 and 25 March 2011).

Legal basis

Task resulting from specific powers directly conferred on the Commission by the Treaty establishing the European Atomic Energy Community under Chapter 3 of Title II and Article 174.

Remarks

This appropriation is intended to finance the Ignalina (Lithuania), Bohunice (Slovakia) and the Kozloduy (Bulgaria) nuclear power plant decommissioning funds, in accordance with the agreements signed with the Member States concerned.

This expenditure also relates to the collection and processing of information of all kinds needed for the analysis, definition, promotion, monitoring and evaluation of the rules and measures in the field of decommissioning.

The Commission must submit, each year, a report on the implementation of funds committed under this article, as well as updated estimates of the costs and time schedules for operations to decommission the nuclear reactors concerned.

Legal basis

Task resulting from specific powers directly conferred on the Commission by the Accession Treaty of 2003 (Protocol No 4 on the Ignalina nuclear power plant in Lithuania and Protocol No 9 on Unit 1 and Unit 2 of the Bohunice V1 nuclear power plant in Slovakia, both annexed to the Accession Treaty of 2003).

Task resulting from specific powers directly conferred on the Commission by the Treaty establishing the European Atomic Energy Community under Article 203.

The task concerning the Kozloduy nuclear power plant in Bulgaria is similarly directly conferred upon the Commission by Article 30 of the 2005 Act of Accession.

Remarks

These remarks are applicable to all the budget lines in this chapter.

These appropriations will be used for the Seventh Framework Programme for research, technological development and demonstration activities, which covers the period 2007 to 2013.

This programme will be carried out in order to pursue the general objectives described in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

These appropriations also cover administrative expenditure, including expenditure on staff, information, publications, administrative and technical operation, and certain other expenditure items relating to internal infrastructure for achievement of the objective of the measure of which they form an integral part, including the action and measures necessary for the preparation and monitoring of the Union's strategy for research, technological development and demonstration activities.

TITLE 32 — ENERGY

CHAPTER 32 06 — RESEARCH RELATED TO ENERGY *(cont'd)*

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European cooperation in the field of scientific and technical research entered in Item 6 0 1 6 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be made available under Article 32 06 03.

Remarks

This appropriation is intended to support the European Strategic Energy Technology Plan (SET-Plan) objectives and initiatives. These are primarily: wind, solar, bioenergy, carbon capture and storage (CCS) and electricity grids. In recognition of their important contribution to future sustainable energy systems, two thirds of the budgetary appropriations will be allocated to the renewable and end-use energy efficiency policy areas from 2012 onwards.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

The Fuel Cells and Hydrogen Joint Undertaking shall contribute to the implementation of the Seventh Framework Programme for research, technology development and demonstration activities (2007-2013) and in particular the specific themes for 'Energy', 'Nanosciences, Nanotechnologies, Materials and new Production Technologies', 'Environment (including climate change)', and 'Transport (including Aeronautics)' in the 'Cooperation' programme. It shall, in particular: aim at placing Europe at the forefront of fuel cell and hydrogen technologies worldwide and at enabling the market breakthrough of fuel cell and hydrogen technologies, thereby allowing commercial market forces to drive the substantial potential public benefits; support research, technological development and demonstration (RTD) in the Member States and countries associated to the Seventh Framework Programme in a coordinated manner to overcome the market failure and focus on developing market applications and thereby facilitate additional industrial efforts towards a rapid deployment of fuel cells and hydrogen technologies; support the implementation of the RTD priorities of the Fuel Cells and Hydrogen Joint Technology Initiatives, notably by awarding grants following competitive calls for proposals; and aim to encourage increased public and private research investment in fuel cells and hydrogen technologies in the Member States and countries associated to the Seventh Framework Programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2).

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The Agency's establishment plan is set out in Annex 'Staff' to this section.

Regulation (EC) No 168/2007 entered into force on 1 March 2007. On that date, the Agency replaced the European Monitoring Centre on Racism and Xenophobia (EUMC) and legally succeeded it, assuming all the Centre's legal rights and obligations, financial commitments, liabilities, and employment contracts, as laid down in Article 23(4) of Regulation (EC) No 168/2007.

Legal basis

Council Regulation (EC) No 1035/97 of 2 June 1997 establishing a European Monitoring Centre on Racism and Xenophobia (OJ L 151, 10.6.1997, p. 1).

Remarks

This appropriation is intended to cover the operational expenditure (Title 3) of the European Union Agency for Fundamental Rights, which is responsible for providing the relevant Union institutions and authorities of the Member States when implementing Union law with assistance and expertise relating to fundamental rights in order to support them when they take measures or formulate courses of action within their respective spheres of competence to fully respect fundamental rights.

The Agency can be expected to achieve the following operational objectives/tasks:

— provision of assistance to Union institutions and the Member States,

— promotion of networking of stakeholders and dialogue at European level,

— promotion and dissemination of information and awareness-raising activities to enhance visibility on fundamental rights,

— effective functioning of the management structure and implementation of operations.

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Regulation (EC) No 168/2007 entered into force on 1 March 2007. On that date, the Agency replaced the European Monitoring Centre on Racism and Xenophobia (EUMC) and legally succeeded it, assuming all the Centre's legal rights and obligations, financial commitments, liabilities, and employment contracts, as laid down in Article 23(4) of Regulation (EC) No 168/2007.

The Union contribution for 2013 amounts to a total of EUR 21 246 000. An amount of EUR 221 600 from the recovery of surplus is added to the amount of EUR 21 024 400 entered in the budget.

Remarks

This appropriation is intended to support the following areas:

— to promote the development of a European society based on respect for fundamental rights as recognised in Article 6 of the Treaty on European Union, including rights derived from citizenship of the Union,

— to strengthen civil society and to encourage an open, transparent and regular dialogue with it in respect of fundamental rights,

CHAPTER 33 02 — FUNDAMENTAL RIGHTS AND CITIZENSHIP *(cont'd)*

33 02 04 *(cont'd)*

— to fight racism, xenophobia, anti-Romaism and anti-Semitism and to promote a better inter-faith and intercultural understanding and improved tolerance throughout the Union,

— to improve contacts, exchange of information and networking between legal, judicial and administrative authorities and the legal professions, including by way of support for judicial training, with the aim of better mutual understanding among such authorities and professionals.

In particular, this appropriation is intended to cover the following actions:

— specific actions taken by the Commission, such as studies and research, opinion polls and surveys, formulation of indicators and common methodologies, collection, development and dissemination of data and statistics, seminars, conferences and expert meetings, organisation of public campaigns and events; development and maintenance of websites, preparation and dissemination of information material, support for and management of networks of national experts, analytical, monitoring and evaluation activities,

— specific transnational projects of Union interest presented by at least three Member States under the conditions set out in the annual work programmes,

— support to the activities of non-governmental organisations or other entities pursuing an aim of general European interest in accordance with the general objectives of the programme under the conditions set out in the annual work programmes, including activities related to networking of non-governmental organisations promoting children's rights,

— an operating grant to co-finance expenditure associated with the permanent work programme of the Conference of the European Constitutional Courts and the Association of the Councils of States and Supreme Administrative Jurisdictions of the European Union which maintain certain databases providing for a European-wide collection of national judgments relating to the implementation of Union law, in so far as the expenditure is incurred in pursuing an objective of general European interest by promoting exchanges of views and experience on matters concerning the jurisprudence, organisation and functioning of their members in the performance of their judicial and/or advisory functions with regard to Union law.

This appropriation is also intended to cover an awareness campaign concerning Union anti-discrimination legislation.

This appropriation is also intended to promote and support Union action on detention conditions, in response to the dilapidated state of many prisons in the Member States and the difficult conditions in which inmates are having to live, owing, in particular, to overcrowding.

Thus it is also intended to cover:

— pooling of good practice among public, private and non-profit organisations working in the sector in the Member States,

— support measures (e.g. comparative studies within the Union) for Union action in this crucial sector, in line with the measures to be taken by the Commission (submission, on 14 June 2011, of a Green Paper on the application of Union criminal justice legislation in the field of detention), as set out in the Stockholm Action Plan.

Legal basis

Remarks

This appropriation is intended to support the following areas:

— to contribute to the protection of children, young people and women against all forms of violence and to attain a high level of health protection, well-being and social cohesion,

— to contribute, especially where children, young people and women are concerned, to the development of Union policies and, more specifically, to policies on public health, human rights and equality between men and women, to actions aimed at the protection of children's rights, and to the fight against forced abortion, coerced sterilisation, sex-selective abortion, female genital mutilation, forced marriage, trafficking of human beings and sexual exploitation.

In particular, this appropriation is intended to cover the following actions:

— specific actions taken by the Commission, such as studies and research, opinion polls and surveys, formulation of indicators and common methodologies, collection, development and dissemination of data and statistics, seminars, conferences and experts meetings, organisation of public campaigns and events, development and maintenance of websites, preparation and dissemination of information materials, support to and animation of networks of national experts, analytical, monitoring and evaluation activities,

— support to the activities of non-governmental organisations or other entities pursuing an aim of general European interest regarding the general objectives of the programme under the conditions set out in the annual work programmes,

— prevention of, and protection of children, adolescents and women from, all kinds of violence and commercial sexual exploitation, trafficking and other forms of abuse such as female genital mutilation, violence at school and juvenile delinquency, and promoting the rehabilitation of victims of such abuse,

— conducting information campaigns aimed at combating paedophilia, trafficking in human beings, sexual exploitation, forced abortion, female genital mutilation, or coerced sterilisation and forced marriage, and at preventing juvenile delinquency,

— promoting the introduction of instruments designed to encourage reporting of violence against women, children and adolescents and of forms of trafficking in women for the purpose of sexual exploitation,

— pilot projects and grants targeted at organisations which, as part of action to protect children and combat paedophilia on the internet, are involved in devising and/or adopting measures to prevent material and images that involve child pornography or constitute an offence against human dignity from being carried on the internet,

— exchange of best practices regarding action in response to violence at school, measures to prevent and combat juvenile delinquency, support for relevant non-governmental organisation initiatives and cross-border cooperation, pilot projects at local and regional level and the networking of the authorities responsible for dealing with cases of juvenile delinquency.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The appropriations intended for this action are to be used to implement the Union strategy on the rights of the child in line with the Commission communication 'Towards an EU Strategy on the Rights of the Child' (COM(2006) 367 final), e.g.:

— coordination of measures taken in the Union to combat child poverty,

— any direct measure to prevent social exclusion of children, trafficking in children and paedophile pornography on the internet.

These appropriations may also be used for any preparatory measure needed to pursue the abovementioned objectives.

Remarks

This article is intended to cover earlier commitments.

The aim of this article is to introduce throughout the Union a mechanism known as 'Amber Alert' (in the United States of America and Greece) and 'Alerte-Enlèvement' (in France), while stressing the need for cross-border interconnection.

Following the successful use, in France and Greece (and also in the USA and Canada), of systems alerting the public in cases of child abduction (or disappearance) and when children's health or lives may be at serious risk, the Commission would like to help Member States to put similar mechanisms in place nationally. If all Member States adopt such mechanisms, and communication schemes are put in place, resolving cross-border cases will be possible and easier.

This article is intended to finance the additional costs which might arise as a result of putting this mechanism in place. Costs involved in setting up round-the-clock contact points, free phone lines and information technology networks would be typical costs.

Remarks

This article is intended to cover earlier commitments.

It is intended to fund a preparatory action embodying the efforts which the Union has been making to promote preventive measures to combat violence against children and adolescents of both sexes and against women, with a view to standardising national legislation in this area. The objectives will be to:

— analyse the current national legislation on gender violence, with reference to all types of violence: domestic violence, sexual violence, prostitution and trafficking, female genital mutilation and crimes of honour,

Remarks

At Union level, there are major deficiencies and obstacles with regard to the collection of reliable and comparable statistics on children. A methodology therefore needs to be developed for devising indicators relating specifically to children.

The objectives of the pilot project are:

— collection of statistics and best practices relating to children:

  — promoting the exchange of information, establishing best practices and publishing an overview of the state of play in the 27 Member States,

  — establishing a knowledge base on children's rights which will enable the Union institutions and Member States to adapt their policies on the basis of shared know-how,

  — analysing Member States' current legislation on safeguarding children's rights,

  — devising indicators (quantitative and qualitative) and benchmarks so as to enhance the comparability, objectivity and reliability of child-related data at European level with regard to:

    — child poverty and social exclusion,

    — abuse, sexual exploitation of children and paedophile pornography,

    — domestic violence,

    — sex tourism,

    — international abduction of children involved in disputes,

    — children with disabilities: policies to support the differently-abled and criticalities,

    — child trafficking,

    — gender discrimination (female genital mutilation, crimes of honour, forced marriages),

    — eating disorders,

    — addictions (alcohol, tobacco, drugs, medicines),

— juvenile delinquency,

— involving and consulting children:

— developing a methodology for involvement and consultation at European and national level which (a) enables children to be heard and (b) ensures the constructive and effective involvement of children in decisions affecting them, as set out in Article 12 of the United Nations Convention on the Rights of the Child,

— developing child-friendly communication and information systems for making Union measures known in a manner adapted to a younger audience.

Remarks

The proposed European Centre for Press and Media Freedom would follow on from the European Union Charter of Fundamental Rights and the European Charter for Freedom of the Press by acting as a European-level 'drop-in centre' for journalistic organisations or individuals and media actors alleging violations of those Charters. The Centre would monitor and document any such violations. It would also act as an alarm centre for acute cases, for instance by organising support for journalists who need help. The Centre would benefit from input from a wide range of sources, including academic centres, regional partners from all over Europe and various journalistic organisations.

The territorial coverage of the centre would be the 27 Member States, Croatia and the candidate countries.

This project would be complementary to existing actions supported by the Union budget. More specifically, it would constitute the practical hands-on counterpart of the academically oriented 'Centre for Media Pluralism and Media Freedom' based at the European University Institute in Florence. It would furthermore benefit from the momentum created by the High Level Group on Media Freedom and Pluralism set up by the Commission, and by its forthcoming report.

The pilot project would cover start-up costs for such a centre and co-financing of its annual running costs.

CHAPTER 33 02 — FUNDAMENTAL RIGHTS AND CITIZENSHIP *(cont'd)*

33 02 10 *(cont'd)*

Freedom and pluralism of the media, including independent media governance, are key elements for enabling the exercise of freedom of expression, which constitutes one of the cornerstones of the European Union. Media pluralism and freedom is vital for our democratic societies.

This pilot project aims to support journalistic organisations or individuals and media actors, in the 27 Member States and candidate and potential candidate countries, which allege violations of the European Charter for Freedom of the Press.

Remarks

This appropriation is intended to support the following areas:

— to promote judicial cooperation with the aim of contributing to the creation of a genuine European area of justice in criminal matters based on mutual recognition and mutual confidence,

— to promote the mutual recognition of judicial instruments in the Member States, with particular reference to orders of seizure and confiscation of assets derived from illegal activities of organised crime, taking into account the European Parliament recommendations,

— to promote the adjustment of the existing judicial systems in Member States to the Union being a territory without border controls, with a single currency, and with free movement of persons, services, goods and capital,

— to improve the daily life of individuals and businesses by enabling them to assert their rights throughout the Union, notably by fostering access to justice,

— to improve the contacts and exchange of information between legal, judicial and administrative authorities and the legal professions, and to foster the training of the members of the judiciary.

In particular, this appropriation is intended to cover the following actions:

— specific actions taken by the Commission, such as studies and research, creation and implementation of specific projects like the creation of a computerised system of exchange of information on criminal records, opinion polls and surveys, formulation of indicators and common methodologies, collection, development and dissemination of data and statistics, seminars, conferences and experts meetings, organisation of public campaigns and events, development and maintenance of websites, preparation and dissemination of information material, support to and animation of networks of national experts, analytical, monitoring and evaluation activities,

— specific transnational projects of Union interest presented by at least three Member States under the conditions set out in the annual work programmes,

CHAPTER 33 03 — JUSTICE IN CRIMINAL AND CIVIL MATTERS *(cont'd)*

33 03 04 *(cont'd)*

— support to the activities of non-governmental organisations or other entities pursuing an aim of general European interest in accordance with the general objectives of the programme under the conditions set out in the annual work programmes,

— an operating grant to co-finance expenditure associated with the permanent work programme of the European Judicial Training Network which pursues an aim of general European interest in the field of training of the judiciary.

Part of this appropriation is also intended to cover the costs of a project to set up a body of European criminal lawyers (Eurorights). The body should function as an ombudsman, investigating problems encountered by the defence in the context of European police and judicial cooperation.

Remarks

This appropriation is intended to improve the financial situation of SMEs that operate in their home Member State and across borders by supporting them in managing and enforcing outstanding claims. SMEs will be helped to optimise their business procedures by improving information access and dissemination in the area of credit and claims management instruments and options. The aim is also to improve the use, understanding and awareness of the legal instruments available. In this pilot project, multilingual practice-based guidelines will introduce the subject and methodology of credit and claims management and explain the application of existing legal instruments to the national and cross-border enforcement of claims (Regulation (EC) No 1896/2006 of the European Parliament and of the Council of 12 December 2006 creating a European order for payment procedure (OJ L 399, 30.12.2006, p. 1), Regulation (EC) No 861/2007 of the European Parliament and of the Council of 11 July 2007 establishing a European Small Claims Procedure (OJ L 199, 31.7.2007, p. 1), Regulation (EC) No 805/2004 of the European Parliament and of the Council of 21 April 2004 creating a European Enforcement Order for uncontested claims (OJ L 143, 30.4.2004, p. 15), Council Regulation (EC) No 44/2001 of 22 December 2000 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters (OJ L 12, 16.1.2001, p. 1), etc.). In addition, events will be arranged in a decentralised way throughout Europe, e.g. via the networks of chambers of commerce and industry, organisations representing SMEs or other facilities engaged in business promotion, to provide SMEs with information on credit and claims management and the available legal instruments available.

Events aiming to provide SMEs with information on credit and claims management and the legal instruments available will be continued and extended. There will also be events targeting students of professional training programmes and teaching modules will be developed whose content can be integrated and used in vocational advanced training and advanced training of young entrepreneurs. Furthermore, there will be awareness-raising activities to draw attention to information on credit and claims management and to familiarise SMEs with national and Union legal instruments and the possibilities offered by the e-Justice portal. This is supported by the dissemination of the multilingual practice-based guidelines that introduce the subject and methodology of credit and claims management and explain the application of existing legal instruments to the enforcement of claims. Moreover, this pilot project is extended to SMEs that operate in their home Member State.

Remarks

A specific pilot project on judicial training can help fulfil the goal of building a European judicial culture, as expressed in the Stockholm Programme and in several resolutions adopted by the European Parliament in 2009 and 2010. The resources of the pilot project will contribute to:

— identifying best practices in training of judges, prosecutors and professionals of justice in national legal systems and traditions as well as in Union law,

— identifying best practices to bring training in Union law as well as in national legal systems and traditions to judges, prosecutors and professionals of justice at local level and to promote the dialogue and coordination between Union judges and prosecutors,

— promoting exchanges of these best practices between the Union judicial training providers and disseminating them across the Union,

— improving cooperation between the European Judicial Training Network and the national judicial training institutions with judicial training providers such as the Academy of European Law and with the European level professional organisations such as the European Network of the Councils for the Judiciary, the Network of the Presidents of the Supreme Judicial Courts, the Association of the Councils of State and Supreme Administrative Jurisdictions and the Eurojustice network of European Prosecutors-General.

The pilot project could be coordinated by a minimum of three national judicial schools in cooperation with at least one European school of judicial training.

Remarks

According to the latest data available, 300 000 couples of different nationalities get married every year in Europe; 129 000 of these marriages end in a divorce or separation.

This phenomenon has led to a dramatic increase in recent years in conflicts of jurisdiction on the custody of children born to bi-national couples and an increase in cases of international abduction of minors.

The goal of the project is to create an information instrument for all bi-national couples on parental responsibilities and the rights of children in cases of separation or divorce of parents.

CHAPTER 33 03 — JUSTICE IN CRIMINAL AND CIVIL MATTERS *(cont'd)*

33 03 09 *(cont'd)*

This instrument aims to provide 'informed consent' to highlight the differences between the legal systems of Member States with regard to the consequences of separation and divorce, rules on the custody of minors under international conventions and the consequences of international child abduction, especial as concerns the impact on the children involved.

The experience of the European Parliament Mediator for cases of international child abduction has shown that a wide range of situations arise from the uncertainty of applicable law, conflicts of jurisdiction and the totally inadequate knowledge and awareness of rights and obligations of bi-national couples.

Actions:

— comparison of national laws of Member States as regards separation, divorce and child custody,

— development of information instruments (e.g. vade mecum, practical guides, brochures, etc.) to provide all necessary information (rights, duties and responsibilities of parents and towards the children),

— involvement of all the competent authorities of Member States in the distribution of this information,

— instruments to increase knowledge and awareness among bi-national couples.

Remarks

This appropriation is intended to support the following areas:

— to prevent and reduce drug use, dependence and drug-related harm,

— to contribute to the improvement of information on drug use,

— to support the implementation of the Union drugs strategy.

In particular, this appropriation is intended to cover the following actions:

— specific actions taken by the Commission, such as studies and research, opinion polls and surveys, formulation of indicators and common methodologies, collection, development and dissemination of data and statistics, seminars, conferences and experts meetings, organisation of public campaigns and events, development and maintenance of websites, preparation and dissemination of information materials, support to and animation of networks of national experts, analytical, monitoring and evaluation activities, or

— specific transnational projects of Union interest presented by at least two Member States, or at least one Member State and one other State which may either be an acceding or a candidate country under the conditions set out in the annual work programme, or

— support to the activities of non-governmental organisations or other entities pursuing an aim of general European interest regarding the general objectives of the programme under the conditions set out in the annual work programmes, or

— drug prevention and harm-reduction initiatives, and strategic activities to fight drug-related dependency.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

This appropriation is intended to cover the funding of priority information measures in the field of justice.

It covers information and communication measures in the field of justice in relation to the establishment of an area of freedom, security and justice (internal web sites, public events, communication products, Eurobarometer surveys, etc.). These measures are designed to be an effective channel of communication and dialogue between the people of the Union, stakeholders, and the Union institutions and take account of specific national, regional and local characteristics, in close cooperation with the Member State authorities.

The Commission has adopted a series of communications to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions on a new framework for cooperation in activities concerning the information and communication policy of the European Union (COM(2001) 354 final and COM(2002) 350 final). These communications propose an interinstitutional framework for cooperation extended to Member States for the development of a communication and information policy strategy for the Union.

The Interinstitutional Group on Information (IGI), co-chaired by the European Parliament, the Council and the Commission, lays down common guidelines for interinstitutional cooperation in matters of Union information and communication policy. It coordinates the central and decentralised public information activities on European topics. Each year the IGI gives its opinion on the priorities for the following years on the basis of information provided by the Commission.

Legal basis

Remarks

This appropriation is intended to support the effective implementation of the principle of non-discrimination and promote its mainstreaming in all Union policies by:

— improving the understanding of discrimination of all vulnerable groups, in particular of persons with disabilities, through analyses and studies and, where appropriate, the development of statistics and indicators as well as assessing the effectiveness and impact of existing legislation, policies and practices,

— supporting the implementation of Union anti-discrimination legislation through effective monitoring, holding seminars for those working in the field and networking amongst specialised bodies dealing with anti-discrimination as well as public information campaigns on the Union anti-discrimination Directives 2000/43/EC, 2000/78/EC and 2004/113/EC,

— raising awareness, disseminating information and promoting the debate about the key challenges and policy issues in relation to discrimination and the mainstreaming of anti-discrimination in all Union policies, including among non-governmental organisations in the field of anti-discrimination, regional and local actors, social partners and other stakeholders,

— developing the capacity of key Union networks to promote and further develop Union policy goals and strategies.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

In line with the Commission statement concerning Decision No 283/2010/EU of the European Parliament and of the Council of 25 March 2010 establishing a European Progress Microfinance Facility for employment and social inclusion (OJ L 87, 7.4.2010, p. 1), a sufficient unallocated margin under the expenditure ceiling of subheading 1a has been made available whereby the budgetary authority, i.e. the European Parliament and the Council, may decide to increase the amount of the Progress programme by a maximum of EUR 20 000 000 over the period 2011-2013 in conformity with point 37 of the Interinstitutional Agreement of 17 May 2006 between the European Parliament, the Council and the Commission on budgetary discipline and sound financial management (OJ C 139, 14.6.2006, p. 1).

Remarks

This appropriation is intended to support the effective implementation of the principle of gender equality and promote gender mainstreaming in all Union policies by:

— improving the understanding of the situation in relation to gender issues and gender mainstreaming, in particular through analyses and studies, exchanges of good practice and the development of statistics and, where appropriate, indicators, with a view inter alia to boosting work to promote equality, the aim being to promote pay equality between men and women, as well as assessing the effectiveness and impact of existing legislation, policies and practices,

— supporting the implementation of Union gender equality legislation through effective monitoring, holding seminars for those working in the field and networking amongst specialised equality bodies,

CHAPTER 33 06 — EQUALITY *(cont'd)*

33 06 02 *(cont'd)*

— raising awareness, disseminating information, strengthening communication and promoting the debate on the key challenges and policy issues in relation to gender equality, including the importance of reconciling work and family life (e.g. for informal carers), and gender mainstreaming in policies and gender budgeting as a good governance tool to improve efficiency and fairness,

— developing the capacity of key Union networks to support and further develop Union policy goals and strategies on gender equality.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

The objective of the pilot project is to fund initiatives which help develop policies for employment and social integration of people suffering from autism. The pilot project should therefore support innovative and integrated projects, addressing multiple disadvantages faced by people on the autistic spectrum, while taking account of the strengths they offer, and promoting their inclusion in the labour market and social and economic activities.

Measures to be financed will focus on:

— gaining better understanding of autism and of challenges and obstacles faced by people suffering from autism in entering the labour market,

— assessing what tangible labour market measures ought to be taken in order to prevent unemployment and raise the employment levels of people suffering from autism (according to some sources, 62 % of adults with autism do not have any work at all, while others show that only 6 % of adults on the autistic spectrum have full-time paid employment),

— identifying existing policy approaches in the Member States, and mapping the types of measures aimed at developing employment opportunities for people with autism and helping them access and sustain employment,

— assessing the effectiveness of the measures undertaken,

— promoting exchange of best practices.

Legal basis

Pilot project within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Remarks

The European Charter for Equality of Women and Men in Local Life demonstrates the potential for action by local authorities in the field of gender equality. To be politically effective, the various objectives stated in the Charter need to be defined in terms of relevant indicators, that are specifically and clearly measurable, thorough and comprehensive, realistic and modifiable, and that allow the current state of implementation to be benchmarked against the objectives of the Charter. The pilot project should finance actions geared towards the development of such indicators so as to assess implementation of the Charter (similar to the Union's follow-up to the UN Beijing process). In cooperation with local authorities, the European Institute for Gender Equality could be involved because of its expertise in developing indicators. The pilot project should last for two years, with a total budget of EUR 1 million, and enable local actors to better monitor implementation of the Charter.

Remarks

The aim of this reserve, in accordance with point 25 of the Interinstitutional Agreement of 17 May 2006, is to allow a rapid response to the specific aid requirements of third countries following events which could not be foreseen when the budget was established, first and foremost for humanitarian operations, but also for civil crisis management and protection where circumstances so require. The annual amount of this reserve is fixed at EUR 221 000 000 for the duration of the financial framework, in constant prices.

This reserve is entered in the general budget of the European Union as a provision. The corresponding commitment appropriations will be entered in the budget, if necessary, over and above the ceilings.

When the Commission considers that this reserve needs to be called on, it will present to the two arms of the budgetary authority a proposal for a transfer from this reserve to the relevant budget lines.

40 02 42 *(cont'd)*

At the same time as it presents its proposal for a transfer, the Commission will initiate a trialogue procedure, if necessary in a simplified form, to secure agreement of the two arms of the budgetary authority on the need to use this reserve and on the amount required.

Remarks

The aim of this reserve, in accordance with point 28 of the Interinstitutional Agreement of 17 May 2006, is to provide additional support for workers who suffer from the consequences of major structural changes in world trade patterns and to assist them with their reintegration into the labour market.

The methods for entering the appropriations in this reserve and for mobilising the Fund are laid down in point 28 of the Interinstitutional Agreement of 17 May 2006 and in Article 12 of Regulation (EC) No 1927/2006.

Legal basis

Regulation (EC) No 1927/2006 of the European Parliament and of the Council of 20 December 2006 on establishing the European Globalisation Adjustment Fund (OJ L 406, 30.12.2006, p. 1).

COMMISSION

EUROPEAN ECONOMIC AREA

Under the Agreement establishing the European Economic Area the EFTA States (with the exception of Switzerland) take part in a wide range of Union policies covered by subheadings 1a, 3a and 3b, and headings 4 and 5 of the Multiannual Financial Framework in exchange for a financial contribution to operating appropriations calculated by applying a 'proportionality factor'. This proportionality factor is equal to the sum of the ratios obtained by dividing the gross domestic product at market prices of each EFTA State by the gross domestic product at market prices of all the Member States plus that of the EFTA State concerned.

For 2013 the proportionality factor is estimated at 2,80 % (on the basis of 2011 figures).

These financial contributions will not be formally entered into the budget; each budget line relating to activities in which the EFTA States take part will refer to the EFTA contribution as a memorandum item. A summary table, listing the budget lines concerned and the amounts of the EFTA contribution for each budget line, is published as an Annex to the general budget of the Union. The total EFTA contribution for the operational part for 2013 is estimated at about EUR 369 914 677 in commitment appropriations. The EFTA States will also share in the administrative expenditure directly linked to the implementation of these policies. The figures and budget lines concerning the contributions by the EFTA States are still to be discussed with them and must therefore be regarded as provisional.

A. **INTRODUCTION**

This annex is drawn up in accordance with Article 35(1) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

It provides information on the amounts of the borrowing-and-lending operations guaranteed by the Union budget: loans for balance-of-payments support, borrowing operations to provide macro-financial assistance to third countries, Euratom borrowings to contribute to the financing required for improving the degree of efficiency and safety of nuclear power stations in certain third countries and European Investment Bank loans in certain third countries.

At 30 June 2012, outstanding operations covered by the Union budget totalled EUR 99 915 560 000; of that total EUR 73 029 800 000 was inside the Union and EUR 26 885 760 000 outside (rounded figures and exchange euro rate applicable at 30 June 2012).

B. BRIEF PRESENTATION OF THE VARIOUS CATEGORIES OF BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET

I. SINGLE FACILITY PROVIDING MEDIUM-TERM FINANCIAL ASSISTANCE FOR MEMBER STATES' BALANCES OF PAYMENTS

1. *Legal basis*

Council Regulation (EC) No 332/2002 of 18 February 2002 establishing a facility providing medium-term financial assistance for Member States' balances of payments (OJ L 53, 23.2.2002, p. 1).

Council Regulation (EC) No 1360/2008 of 2 December 2008 amending Regulation (EC) No 332/2002 (OJ L 352, 31.12.2008, p. 11).

Council Decision 2009/102/EC of 4 November 2008 providing Community medium-term financial assistance for Hungary (OJ L 37, 6.2.2009, p. 5).

Council Decision 2009/290/EC of 20 January 2009 providing Community medium-term financial assistance for Latvia (OJ L 79, 25.3.2009, p. 39).

Council Decision 2009/459/EC of 6 May 2009 providing Community medium-term financial assistance for Romania (OJ L 150, 13.6.2009, p. 8).

Council Regulation (EC) No 431/2009 of 18 May 2009 amending Regulation (EC) No 332/2002 (OJ L 128, 27.5.2009, p. 1).

Council Decision 2011/288/EU of 12 May 2011 providing precautionary EU medium-term financial assistance for Romania (OJ L 132, 19.5.2011, p. 15).

2. *Description*

In accordance with Regulation (EC) No 332/2002, the European Union may grant loans to Member States which are experiencing, or are seriously threatened with, difficulties in their balance of current payments or capital movements. Only Member States which have not adopted the euro may benefit from this facility. The outstanding amount of loans is limited to EUR 12 000 000 000 in principal.

On 2 December 2008, the Council decided to extend the facility to EUR 25 000 000 000.

On 4 November 2008, the Council decided to provide Community medium-term financial assistance for Hungary in the form of a medium-term loan of a principal of up to EUR 6 500 000 000 for a maximum average maturity of 5 years.

On 20 January 2009, the Council decided to provide Community medium-term financial assistance for Latvia in the form of a medium-term loan of a principal of up to EUR 3 100 000 000 for a maximum average maturity of 7 years.

On 6 May 2009, the Council decided to provide Community medium-term financial assistance for Romania in the form of a medium-term loan of a principal of up to EUR 5 000 000 000 for a maximum average maturity of 5 years.

On 18 May 2009, the Council decided to extend the facility to EUR 50 000 000 000.

On 12 May 2011, the Council decided to make available to Romania a precautionary medium-term assistance amounting to a maximum of EUR 1 400 000 000 in the form of a loan with a maximum average maturity of 7 years.

3. *Effect on the budget*

Since both parts of these borrowing-and-lending operations are carried out on identical terms, they affect the budget only if the guarantee is activated in case of default. As at 31 December 2012 the outstanding amount under this instrument is EUR 11 400 000 000.

II. EUROPEAN UNION GUARANTEE FOR UNION BORROWINGS FOR FINANCIAL ASSISTANCE UNDER THE EUROPEAN FINANCIAL STABILISATION MECHANISM

1. *Legal basis*

Council Regulation (EU) No 407/2010 of 11 May 2010 establishing a European financial stabilisation mechanism (OJ L 118, 12.5.2010, p. 1).

Article 122(2) of the Treaty on the Functioning of the European Union.

Council Implementing Decision 2011/77/EU of 7 December 2010 on granting Union financial assistance to Ireland (OJ L 30, 4.2.2011, p. 34).

Council Implementing Decision 2011/344/EU of 30 May 2011 on granting Union financial assistance to Portugal (OJ L 159, 17.6.2011, p. 88).

Council Implementing Decision 2011/682/EU of 11 October 2011 amending Implementing Decision 2011/77/EU on granting Union financial assistance to Ireland (OJ L 269, 14.10.2011, p. 31).

Council Implementing Decision 2011/683/EU of 11 October 2011 amending Implementing Decision 2011/344/EU on granting Union financial assistance to Portugal (OJ L 269, 14.10.2011, p. 32).

2. *Description*

Article 122(2) of the Treaty on the Functioning of the European Union provides for the possibility of the Union granting financial assistance to a Member State which is in difficulties or is seriously threatened with severe difficulties caused, inter alia, by exceptional occurrences beyond its control.

The guarantee provided by the Union is for borrowings raised on the capital markets or from financial institutions.

In accordance with Article 2(2) of Council Regulation (EU) No 407/2010, the outstanding amount of loans and credit lines granted to Member States under the European financial stabilisation mechanism shall be limited to the margin available under the Union's own resources for payment appropriations.

This item constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) shall apply.

On 7 December 2010, the Union decided to make available to Ireland a loan amounting to a maximum of EUR 22 500 000 000, with a maximum average maturity of 7,5 years (OJ L 30, 4.2.2011, p. 34).

On 30 May 2011, the Union decided to make available to Portugal a loan amounting to a maximum of EUR 26 000 000 000 (OJ L 159, 17.6.2011, p. 88).

On 11 October 2011, the Council decided to amend Implementing Decisions 2011/77/EU and 2011/344/EU by extending the maturities and applying the reduction of the interest rate margin to all the tranches that have already been disbursed (OJ L 269 of 14.10.2011, p. 31 regarding Ireland (2011/682/EU) and p. 32 regarding Portugal (2011/683/EU)).

At 31 October 2011 the outstanding amount under this instrument was EUR 28 000 000 000 (Ireland: EUR 13 900 000 000 and Portugal 14 100 000 000).

At 31 December 2012 the outstanding amount under this instrument is EUR 43 800 000 000.

3. *Effect on the budget*

On the expenditure side, the budget is affected if the guarantee is activated in the event of default.

On the revenue side, the provision on the interest income resulting from the interest differential between the loan and borrowing transactions paid by the beneficiary — initially made in Decisions 2011/77/EU and 2011/344/EU applying to each beneficiary country individually in Article 1(5) of those Decisions — has been repealed by Decisions 2011/682/EU and 2011/683/EU.

III. EUROPEAN UNION GUARANTEE FOR BORROWING PROGRAMMES CONTRACTED BY THE UNION TO PROVIDE FINANCIAL ASSISTANCE FOR MEDITERRANEAN THIRD COUNTRIES

1. *Legal basis*

Council Decision 2007/860/EC of 10 December 2007 providing macro-financial assistance to Lebanon (OJ L 337, 21.12.2007, p. 111).

2. *Description*

On 10 December 2007, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Lebanon in the form of a long-term loan for a maximum amount of EUR 50 000 000 in principal for a maximum duration of 10 years. The first tranche of EUR 25 000 000 was disbursed in 2009.

3. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

— one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,

— activation of the budget guarantee should the debtor default.

IV. EUROPEAN UNION GUARANTEE FOR BORROWING PROGRAMMES CONTRACTED BY THE UNION TO PROVIDE FINANCIAL ASSISTANCE FOR THIRD COUNTRIES IN CENTRAL AND EASTERN EUROPE

1. *Legal basis*

Council Decision 1999/732/EC of 8 November 1999 providing supplementary macro-financial assistance to Romania (OJ L 294, 16.11.1999, p. 29).

2. *Description*

On 8 November 1999, the Council decided to grant Romania macro-financial assistance in the form of a long-term loan of a principal of up to EUR 200 000 000 for a maximum period of 10 years (ROMANIA IV). The first tranche of EUR 100 000 000 was paid on 29 June 2000. A second tranche of EUR 50 000 000 was paid on 17 July 2003.

3. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

— one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,

— activation of the budget guarantee should the debtor default.

From 1 January 2007, loans with Bulgaria and Romania cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

Council Decision 2009/890/EC of 30 November 2009 providing macro-financial assistance for Armenia (OJ L 320, 5.12.2009, p. 3).

2. *Description*

On 17 November 1997, the Council decided to grant a European Union guarantee for an exceptional borrowing-and-lending operation for Georgia and Armenia (a loan to Georgia for a maximum amount of EUR 142 000 000 in principal and a loan to Armenia for EUR 28 000 000), with a maximum duration of 15 years.

The first tranche of EUR 110 000 000 was paid to Georgia on 24 July 1998. The second tranche is no longer to be made.

On 15 October 1998, the Council decided to grant a European Union guarantee for a third borrowing-and-lending operation for Ukraine (UKRAINE III). The loan was initially for a maximum amount of EUR 150 000 000 in principal with a maximum duration of 10 years. The first tranche of EUR 58 000 000 was paid on 30 July 1999. Disbursement of the balance, under Council Decision 2002/639/EC of 12 July 2002 providing supplementary macro-financial assistance to Ukraine (OJ L 209, 6.8.2002, p. 22), of EUR 110 000 000 is no longer planned.

On 20 March 2000, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Tajikistan. The loan is for a maximum amount of EUR 75 000 000 principal with a maximum duration of 15 years. A loan of EUR 60 000 000 was paid in 2001. The second tranche is no longer to be made.

On 30 November 2009, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Armenia in the form of a long-term loan for a maximum amount of EUR 65 000 000 in principal for a maximum duration of 15 years. The first tranche of EUR 26 000 000 was disbursed in 2011, the second and final one in 2012.

3. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

— one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,

— activation of the budget guarantee should the debtor default.

2. *Description*

On 22 July 1997, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for the former Yugoslav Republic of Macedonia (FYROM I).

The loan is for a maximum amount of EUR 40 000 000 in principal for a duration of 15 years.

The first tranche of EUR 25 000 000, for a maximum duration of 15 years, was paid to the former Yugoslav Republic of Macedonia on 30 September 1997. It will be repaid in five equal annual instalments from the 11th year.

The second tranche of EUR 15 000 000 was paid on 13 February 1998. It will be repaid in five equal annual payments from the 11th year.

On 10 May 1999, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Bosnia and Herzegovina in the form of a long-term loan for a maximum amount of EUR 20 000 000 in principal for a maximum duration of 15 years (Bosnia I).

The first tranche of EUR 10 000 000, for a maximum duration of 15 years, was paid to Bosnia and Herzegovina on 21 December 1999. The second tranche of EUR 10 000 000 was paid in 2001.

On 8 November 1999, the Council again decided to grant a European Union guarantee for a borrowing-and-lending operation for the former Yugoslav Republic of Macedonia in the form of a long-term loan for a maximum amount of EUR 50 000 000 in principal for a maximum duration of 15 years (FYROM II).

The first tranche of EUR 10 000 000, for a maximum duration of 15 years, was paid to the former Yugoslav Republic of Macedonia in January 2001, the second tranche of EUR 12 000 000 in January 2002, the third tranche of EUR 10 000 000 in June 2003 and the fourth tranche of EUR 18 000 000 in December 2003.

On 16 July 2001, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for the Federal Republic of Yugoslavia (Serbia and Montenegro I) in the form of a long-term loan for a maximum amount of EUR 225 000 000 in principal for a maximum duration of 15 years. The loan was paid in a single tranche in October 2001.

On 5 November 2002, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Bosnia and Herzegovina in the form of a long-term loan for a maximum amount of EUR 20 000 000 in principal for a maximum duration of 15 years (Bosnia II).

The first tranche of EUR 10 000 000, for a maximum duration of 15 years, was paid to Bosnia and Herzegovina in 2004, and the second tranche of EUR 10 000 000 in 2006.

On 5 November 2002, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Serbia and Montenegro (Serbia and Montenegro II) in the form of a long-term loan for a maximum amount of EUR 55 000 000 in principal for a maximum duration of 15 years.

The first tranche of EUR 10 000 000 and the second tranche of EUR 30 000 000, for a maximum duration of 15 years, were paid to Serbia and Montenegro in 2003, and the third tranche of EUR 15 000 000 in 2005.

The loan to Albania IV of EUR 9 000 000, for a maximum duration of 15 years, was fully disbursed in 2006.

On 30 November 2009, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Serbia in the form of a long-term loan for a maximum amount of EUR 200 000 000 in principal for a maximum duration of 8 years. The first tranche of EUR 100 000 000 was paid in 2011.

3. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

— one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,

— activation of the budget guarantee should the debtor default.

VII. EUROPEAN UNION GUARANTEE FOR EURATOM BORROWINGS TO IMPROVE THE DEGREE OF EFFICIENCY AND SAFETY OF NUCLEAR POWER STATIONS IN THE COUNTRIES OF CENTRAL AND EASTERN EUROPE AND THE COMMONWEALTH OF INDEPENDENT STATES

1. *Legal basis*

Council Decision 77/270/Euratom of 29 March 1977 empowering the Commission to issue Euratom loans for the purpose of contributing to the financing of nuclear power stations (OJ L 88, 6.4.1977, p. 9).

2. *Description*

Pursuant to Decision 94/179/Euratom (OJ L 84, 29.3.1994, p. 41), the European Union extends the scope of Euratom borrowings under Decision 77/270/Euratom to the improvement of the degree of efficiency and safety of nuclear power stations in the countries of central and eastern Europe and the Commonwealth of Independent States.

The maximum amount of Euratom borrowings for the Member States and third countries remains fixed at EUR 4 000 000 000.

In 2000 the Commission decided on a loan for Kozloduy in Bulgaria (EUR 212 500 000) and the last instalment was in 2006. In 2000 the Commission granted a loan to K2R4 in Ukraine but reduced the loan amount to the EUR equivalent of USD 83 000 000 in 2004. K2R4 was granted a loan of EUR 39 000 000 (first tranche) in 2007, USD 22 000 000 in 2008, and USD 10 335 000 in 2009 under the 2004 Commission Decision. In 2004 the Commission decided on a loan for Cernavodă in Romania (EUR 223 500 000). A first instalment of EUR 100 000 000 and a second one of EUR 90 000 000 were disbursed in 2005 and the last one of EUR 33 500 000 in 2006.

3. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

— one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,

— activation of the budget guarantee should the debtor default.

From 1 January 2007, loans with Bulgaria and Romania cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

2. *Union budget guarantee*

Pursuant to the Council Decision of 8 March 1977, the Union guarantees loans to be granted by the European Investment Bank as part of the Union's financial commitments towards the Mediterranean countries.

This decision was the basis for the contract of guarantee signed by the European Economic Community and the European Investment Bank on 30 October 1978 in Brussels and 10 November 1978 in Luxembourg introducing a global guarantee of 75 % of all appropriations made available for loans in the following countries: Malta, Tunisia, Algeria, Morocco, Portugal (Financial Protocol, emergency aid), Turkey, Cyprus, Egypt, Jordan, Syria, Israel, Greece, former Yugoslavia and Lebanon.

The contract of guarantee is extended for each new Financial Protocol.

Decision 97/256/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997 setting up a guarantee restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 1999/786/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 18 April 2000 and in Luxembourg on 23 May 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2000/24/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 19 July 2000 and in Luxembourg on 24 July 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sum. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk-operations).

3. ***Description***

Under the Financial Protocols concluded with Mediterranean third countries, global amounts are laid down for loans to be granted by the European Investment Bank from its own funds. The European Investment Bank grants the loans for purposes which may contribute to the economic and social development of the countries in question (transport infrastructures, ports, water supply, production and distribution of energy, agricultural projects and promotion of small and medium-sized businesses).

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 2 310 000 000 is for the abovementioned Mediterranean countries. It covered a period of three years beginning on 31 January 1997 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 29 November 1999, the Council decided to grant a Community guarantee to the European Investment Bank against losses under loans for projects for the reconstruction of the earthquake-stricken areas of Turkey. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 600 000 000 and covered a period of three years beginning on 29 November 1999 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 22 December 1999, the Council, acting on the basis of a Commission proposal and after consulting the European Parliament, decided once again to grant the European Investment Bank the Community guarantee against losses resulting from loans for projects carried out in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is limited to 65 % of the total value of the appropriations made available plus all the related amounts. It covers a period of seven years from 1 February 2000 to 31 January 2007. As at the end of that period the loans granted by the European Investment Bank had not reached the abovementioned total values, the period has automatically been extended by six months.

On 4 December 2000, the Council decided to establish a European Investment Bank special action programme in support of the consolidation and intensification of the EC-Turkey Customs Union. The value of those loans is limited to an overall ceiling of EUR 450 000 000.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Mediterranean countries: Algeria, Egypt, West Bank and Gaza, Israel, Jordan, Lebanon, Libya (eligibility to be decided by the Council), Morocco, Syria, Tunisia. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %.

Decision 2006/1016/EC has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

4. ***Effect on the budget***

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

— one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,

— activation of the budget guarantee should the debtor default,

— the granting, in a series of cases, of interest-rate subsidies of 2 % in non-repayable aid, subject to the overall amounts laid down by the Financial Protocols.

Loans with new Member States cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

3. *Description*

In response to a call made by the Council on 9 October 1989, the Board of Governors of the European Investment Bank decided on 29 November 1989 to authorise the Bank to provide loans from its own resources to finance investment projects in Hungary and Poland for a total amount not exceeding EUR 1 000 000 000. These loans are granted to finance investment projects which satisfy the Bank's usual requirements for loans from its own resources.

On 14 May 1991 and 15 March 1993, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided that this guarantee should be extended to any loans that the European Investment Bank might make in the other countries of central and eastern Europe (Czechoslovakia, Bulgaria and Romania) over a period of 2 years up to a maximum of EUR 700 000 000.

On 13 December 1993, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew for 3 years the Community guarantee for EUR 3 000 000 000 in European Investment Bank loans for projects in Poland, Hungary, the Czech Republic, the Slovak Republic, Romania, Bulgaria, Estonia, Latvia, Lithuania and Albania.

The budget guarantee covers all aspects of debt-servicing (repayment of capital, interest, related costs) in connection with these loans.

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in Albania, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 3 520 000 000 is for the abovementioned countries of central and eastern Europe. It covers a period of 3 years beginning on 31 January 1997. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

On 19 May 1998, the Council decided to grant a Community guarantee to the European Investment Bank against losses under loans for projects in the former Yugoslav Republic of Macedonia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 150 000 000 for a period of 2 years beginning on 1 January 1998. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET (BY WAY OF INDICATION)

On 14 December 1998, the Council decided to amend Decision 97/256/EC in order to extend the Community guarantee to the European Investment Bank to loans for projects in Bosnia and Herzegovina. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is EUR 100 000 000 for a period of two years beginning on 22 December 1998. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in Albania, the former Yugoslav Republic of Macedonia, Bosnia and Herzegovina, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 7 November 2000, the Council decided to extend the guarantee granted by the Community to the European Investment Bank to loans for projects in Croatia.

On 6 November 2000, the Council decided to extend the guarantee granted by the Community to the European Investment Bank to loans for projects in the Federal Republic of Yugoslavia.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following candidate countries: Croatia, Turkey, the former Yugoslav Republic of Macedonia and potential candidate countries: Albania, Bosnia and Herzegovina, Serbia, Kosovo. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of 6 months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

4. *Effect on the budget*

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

— one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,

— activation of the budget guarantee should the debtor default.

Loans with new Member States cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

3. ***Description***

Pursuant to Decision 93/115/EEC the Union guarantees, on a case-by-case basis, loans made by the European Investment Bank in third countries with which the European Union has concluded cooperation agreements.

Decision 93/115/EEC set an overall limit of EUR 250 000 000 a year for a period of 3 years.

On 12 December 1996 the Council granted the EIB a 100 % Community guarantee for loans for projects of mutual interest in certain third countries (Asian and Latin American developing countries) with which the Community has concluded cooperation agreements. This guarantee was restricted to an overall ceiling of EUR 275 000 000 to be granted in 1996 (with a possible extension of six months).

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Macao, Malaysia, Mongolia, Pakistan, Philippines, Singapore, Sri Lanka, Thailand and Vietnam. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 900 000 000 is for the abovementioned countries of Asia and Latin America. It covered a period of 3 years beginning on 31 January 1997 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Laos, Macao, Malaysia, Mongolia, Nepal, Pakistan, Philippines, Singapore, South Korea, Sri Lanka, Thailand, Vietnam and Yemen. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Latin America countries: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Uruguay, Venezuela and in the following Asia countries: Afghanistan*, Bangladesh, Bhutan*, Brunei, Cambodia*, China, India, Indonesia, Iraq*, South Korea, Laos, Malaysia, Maldives, Mongolia, Nepal, Pakistan, the Philippines, Singapore, Sri Lanka, Taiwan*, Thailand, Vietnam, Yemen and Central Asia countries: Kazakhstan*, Kyrgyzstan*, Turkmenistan*, Uzbekistan* (*: eligibility to be decided by the Council). The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

Technical notes on Tables

Exchange rate: the amounts in column 2 'Equivalent at date of signature' are converted at the rate applicable on the date of signature. As regards refinancing operations, Table 1 shows both the initial operation (e.g. in 1979) and the replacement operation (e.g. in 1986), the amount for the latter being converted at the rate of the initial operation. The resulting duplication affects the annual figures but is eliminated in the total.

All other amounts are converted at the rate applicable at 31 December 2012.

Column 3 'Initial amount received/paid up to 31 December 2012': with reference to 1986, for example, this column shows the cumulative total of all amounts received up to 31 December 2012 under loans signed in 1986 (Table 1), including refinancing (which produces some duplication).

Column 4 'Amount outstanding at 31 December 2012': these are net figures, with no duplication as a result of refinancing operations. They are obtained by subtracting from the column 3 figure the cumulative total of repayments made up to 31 December 2012, including repayments in respect of refinancing operations (total not given in the tables).

Column 7 = column 4 – column 5.

MFA 2011: following the Loan Agreement signed by Montenegro on 9 February 2010 pursuant to Council Decision 2008/784/EC of 2 October 2008 establishing a separate liability of Montenegro, the loans initially granted to Serbia and Montenegro have been re-initiated with a virtual starting date in 2011 in order to implement the splitting of the countries, which explains the different amounts between loans granted and loans raised, since the contracts with the lending banks were unchanged.

Total	38 639 000	38 543 000	36 931 517,73

Remarks

This appropriation is intended to cover, for officials and temporary staff holding posts on the establishment plan:

— salaries, allowances and payments related to salaries,

— accident and sickness insurance and other social security charges,

— unemployment insurance for temporary staff and payments by the institution to constitute or maintain pension rights for them in their country of origin,

— miscellaneous allowances and grants,

— travel expenses due to officials and temporary staff (including their families) on taking up duty, leaving the institution or transfer to another place of employment,

— installation and resettlement allowances due to officials and temporary staff obliged to change their place of residence on taking up duty, on transfer to a new place of employment and on finally leaving the institution and resettling elsewhere,

— removal expenses due to officials and temporary staff obliged to change their place of residence on taking up duty, on transfer to a new place of employment and on finally leaving the institution and resettling elsewhere,

— the cost of weightings applied to the remuneration of officials and temporary staff and the cost of weightings applied to the part of emoluments transferred to a country other than the country of employment,

— the cost of any adjustments to remuneration approved by the Council during the financial year.

Conditions for releasing the reserve

EUR 3 929 200 will be released from the reserve as soon as OLAF allows the Members of the European Parliament to inspect, in a secure reading room, how the appropriations co-financed by OLAF via the Hercule II programme are used in the Member States. When it does so, OLAF shall disclose what infrastructure has been co-financed, what technical equipment exists and whether it works correctly, and what results have been achieved.

Remarks

This appropriation is intended to cover all expenditure on measures to combat fraud which does not come under the Office's administrative operations.

It is intended, in particular, for:

— devising, developing, improving and managing information exchange systems and common infrastructures, while respecting confidentiality and security requirements,

— searching for, gathering, examining, utilising and passing on to national investigation departments all information which is useful for the detection and pursuit of fraud (e.g. via databases),

— supporting efforts by Member States, in particular in the case of international fraud, when action has to be taken at Union level,

— financing measures to increase the effectiveness of preventive measures, inspections and investigations,

— strengthening cooperation with national administrations, in particular to combat cigarette smuggling,

— organising and participating in monitoring and on-the-spot inspections,

— financing travel expenses and subsistence allowances for inspectors and national magistrates working abroad in connection with control visits, on-the-spot inspections, coordination meetings and for the purposes of an inspection in general,

— covering travel expenses, subsistence allowances and ancillary costs of experts employed by the Office in the course of its investigations to give a professional opinion on a specific matter,

Appropriations 2013	Appropriations 2012	Outturn 2011
330 000	340 000	239 862,98

Remarks

This appropriation is intended to cover the cost of information and communication measures undertaken by the Office.

The Office's external information and communication strategy is central to its work. The Office was set up as an independent investigative body and must therefore have its own communications strategy. The Office's work is often too technical to be immediately comprehensible to the general public. The Office has to inform its interlocutors and the public as a whole of its role and tasks. Public perception of the Office's work is of paramount importance.

As a Commission service, the Office also needs to take account of the democratic deficit existing between the Union institutions and the citizens of Europe. The Commission has recognised this deficit and drawn up an action plan to address it.

The communications strategy that the Office has developed and continues to implement must demonstrate its independence.

A4 02 01 Interinstitutional cooperation, interinstitutional services and activities

Remarks

Within the framework of the EPSO Development Programme, the Office has modernised its selection methods with the aim of meeting the institutions' current and future needs in a more cost-effective and efficient way by:

— improving the planning of competitions to select the right staff at the right time and to optimise the use of reserve lists,

— reducing the length of the selection process,

— considerably improving the quality of the selection process so that the institutions can recruit the best staff for a life-long career by selecting candidates on the basis of the competencies needed to do the job, and by professionalising the work of the selection boards,

— establishing a positive and modern image for the institutions as employers so as to enable them to attract the best staff in the context of an increasingly competitive employment market,

— providing all the necessary facilities to enable the participation of applicants with disabilities.

Remarks

This appropriation is intended to cover the costs of the general training organised by the European School of Administration (EUSA) for improving the staff skills and the performance and efficiency of the participating institutions, including:

— fees for experts employed to identify training needs, design, develop and hold courses and evaluate and monitor results,

— fees for consultants in various fields, in particular organisational methods, management, strategy, quality and personnel management,

— expenditure incurred in designing, coordinating and evaluating the training organised by the EAS in the form of courses, seminars and lectures (trainers/lecturers and their travel and subsistence costs together with teaching material),

— the cost of participating in outside training, and membership fees of the relevant professional organisations,

— the costs of networking the EAS, at European level, with national administration schools and university institutes active in the field, with a view to exchanging experiences, identifying examples of best practice and cooperating on the development of further training in European public administrations,

— expenditure related to the practical aspects of organising courses, the use of premises, transport, meals and accommodation for participants in residential courses,

— training expenditure related to publications and information, associated Internet sites and the purchase of teaching equipment, subscriptions and licences for distance teaching, books, press and multimedia products,

— the financing of teaching material.

EU Official Journal, L + C series, paper + annual DVD	22 official EU languages	EUR 1 420 per year
EU Official Journal, L series, paper edition only	22 official EU languages	EUR 910 per year
EU Official Journal, L + C series, monthly DVD (cumulative)	22 official EU languages	EUR 100 per year
Supplement to the Official Journal (S series), tendering procedures for public contracts, DVD, one edition per week	multilingual: 23 official EU languages	EUR 200 per year
EU Official Journal, C series — recruitment competitions	Language(s) according to competition(s)	EUR 50 per year

Subscriptions to the *Official Journal of the European Union*, which is published in the official languages of the European Union, are available for 22 language versions. The Official Journal comprises two series, L (Legislation) and C (Information and Notices).

A separate subscription must be taken out for each language version.

In accordance with Council Regulation (EC) No 920/2005, published in Official Journal L 156 of 18 June 2005, the institutions of the European Union are temporarily not bound by the obligation to draft all acts in Irish and publish them in that language. Irish editions of the Official Journal are therefore sold separately.

Subscriptions to the Supplement to the Official Journal (S Series — tendering procedures for public contracts) cover all 23 official language versions on a single multilingual DVD.

On request, subscribers to the *Official Journal of the European Union* can receive the various Annexes to the Official Journal. Subscribers are informed of the publication of Annexes by notices inserted in the *Official Journal of the European Union*.

Sales and subscriptions

Subscriptions to various priced periodicals, such as the subscription to the *Official Journal of the European Union*, are available from our sales agents. The list of sales agents is available at:
