REGULATIONS

COMMISSION REGULATION (EU) No 241/2013

of 14 March 2013

amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for chlorantraniliprole, fludioxonil and prohexadione in or on certain products**(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 14(1)(a) thereof,

Whereas:

- (1) For prohexadione, maximum residue levels (MRLs) were set in Annex II and Part B of Annex III to Regulation (EC) No 396/2005. For chlorantraniliprole and fludioxonil, MRLs were set in Part A of Annex III to Regulation (EC) No 396/2005.
- (2) In the context of a procedure for the authorisation of the use of a plant protection product containing the active substance chlorantraniliprole on carrots, parsnips, parsley root and celeriac an application was made under Article 6(1) of Regulation (EC) No 396/2005 for modification of the existing MRLs.
- (3) As regards fludioxonil, such an application was made for celery, celery leaves and radishes.
- (4) In accordance with Article 6(2) and (4) of Regulation (EC) No 396/2005 an application was made for prohexadione on peanuts. The applicant claims that the authorised use of prohexadione on peanuts in the United States leads to residues exceeding the MRLs in Regulation (EC) No 396/2005 and that higher MRLs are necessary to avoid trade barriers for the importation of this crop.
- (5) In accordance with Article 8 of Regulation (EC) No 396/2005 these applications were evaluated by the Member States concerned and the evaluation reports were forwarded to the Commission.
- (6) The European Food Safety Authority, hereinafter "the Authority", assessed the applications and the evaluation reports, examining in particular the risks to the consumer and where relevant to animals and gave reasoned opinions on the proposed MRLs ⁽²⁾. It forwarded these opinions to the Commission and the Member States and made them available to the public.
- (7) The Authority concluded in its reasoned opinion that, as regards the use of fludioxonil on radishes, the submitted residue trials were not performed according to the supported Good Agricultural Practice.
- (8) As regards all other applications, the Authority concluded that all requirements with respect to data were met and that the modifications to the MRLs requested by the applicants were acceptable with regard to consumer safety on the basis of a consumer exposure assessment for 27 specific European consumer groups. It took into account the most recent information on the toxicological properties of the substances. Neither the lifetime exposure to these substances via consumption of all food products that may contain these substances, nor the short-term exposure due to extreme consumption of the relevant crops and products

showed that there is a risk that the acceptable daily intake (ADI) or the acute reference dose (ARfD) is exceeded.

- (9) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (10) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (11) As regards chlorantraniliprole in carrots in order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been lawfully produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.
- (12) As regards chlorantraniliprole in carrots, a temporary MRL was inserted into Regulation (EC) No 396/2005 by Commission Regulation (EC) No 460/2011 ⁽¹⁾ an MRL which applies until 31 December 2012. In order to avoid obliging Member States and operators to adapt to changing MRLs twice within a few months, it is appropriate to set the MRL for chlorantraniliprole in carrots with effect from 1 January 2013.

- (13) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health and neither the European Parliament nor the Council has opposed them,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

Article 2

As regards chlorantraniliprole in carrots of code number 0213020, Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were lawfully produced before 1 January 2013.

Article 3

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

It shall however apply from 1 January 2013 as regards the MRL for chlorantraniliprole in carrots of code number 0213020.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

After consulting the European Union Eco-Labeling Board,

COMMISSION IMPLEMENTING DECISION

of 15 March 2013

terminating the investigation initiated by Implementing Decision 2012/161/EU with respect to the effective implementation of the United Nations Single Convention on Narcotic Drugs in Bolivia

(notified under document C(2013) 1422)

(2013/136/EU)

THE EUROPEAN COMMISSION,

to the Government of Bolivia a questionnaire on the implementation of the United Nations Single Convention on Narcotic Drugs ('the UN Single Convention').

Having regard to the Treaty on the Functioning of the European Union,

Having regard to the Council Regulation (EC) No 732/2008 of 22 July 2008 applying a scheme of generalised tariff preferences from 1 January 2009 and amending Regulations (EC) No 552/97, (EC) No 1933/2006 and Commission Regulations (EC) No 1100/2006 and (EC) No 964/2007 ⁽¹⁾, and in particular Article 19(2) thereof,

After consulting the Generalised Preferences Committee,

Whereas:

(1) On 20 March 2012 the Commission initiated an investigation pursuant to Article 17(2) of Regulation (EC) No 732/2008 (the 'GSP Regulation') with respect to the effective implementation of the United Nations Single Convention on Narcotic Drugs in the Plurinational State of Bolivia ('Bolivia') by the publication of Commission Implementing Decision 2012/161/EU ⁽²⁾.

(2) The scope of the investigation was to determine whether the special incentive arrangement for sustainable development and good governance which is granted to Bolivia should be withdrawn, according to the provisions that are contained in Article 15(2) of the current GSP Regulation.

(3) Pursuant to Article 18(1) of the GSP Regulation, a Notice of the initiation of the investigation has been published in the *Official Journal of the European Union* on 20 March 2012 ⁽³⁾.

(4) On 3 April 2012, the European Commission invited the Government of Bolivia to submit any information and comments relevant to the purpose of the investigation within four months from the date of publication of the Notice in the *Official Journal*. The Commission also sent

(5) The Government of Bolivia provided its comments in the form of a response to the questionnaire within the relevant time limit.

(6) The Commission analysed the content of the response to the questionnaire and sent to the Government of Bolivia a request for further clarification of certain elements. The Bolivian side responded in good time to this request and provided the clarifications requested.

(7) The Commission also sought all information it considered necessary, including the results of the 2012 United Nations Office on Drugs and Crime (UNODC) report on Coca Cultivation in Bolivia.

(8) In analysing the reply sent to the questionnaire and the available information, the Commission noted that no major change in the relevant legislation Bolivia has occurred since Bolivia's denunciation of the UN Single Convention, which took effect on 1 January 2012.

(9) From the analysis of the reply to the questionnaire and the available information, the Government of Bolivia has not changed its approach towards the treatment of illicit drugs production, trade and use in the period of time which followed its denunciation of the UN Single Convention.

(10) According to the information which is included in the reply to the questionnaire and all available information to the Commission, Bolivia has in place a set of legislative tools and institutions to fight the production, trade and use of illicit drugs. Bolivia is party to international agreements whose aim is to fight production and supply of illicit drugs.

(11) Therefore, it is concluded that there are no elements at the disposal of the Commission that would suggest that the legislation and the practice of the Bolivian authorities would prevent them from implementing the rules of the UN Single Convention.

⁽²⁾ OJ L 80, 20.3.2012, p. 30.

⁽³⁾ OJ C 81, 20.3.2012, p. 5.

- (12) The Commission has received information that, on 10 January 2013, more than two-thirds of the State Parties of the UN Single Convention have not opposed the request that Bolivia had deposited to re-accede the UN Single Convention with a reservation on the traditional use of coca leaves (in particular chewing and medicinal uses). Therefore, Bolivia has re-acceded the UN Single Convention as from 10 February 2013.
- (13) The Commission considers that national legislation of Bolivia incorporates the UN Single Convention and that the Government of Bolivia is effectively implementing its legislation concerning illicit drugs.
- (14) Consequently, in accordance with the provisions contained in Article 15(2) of the GSP Regulation, the Commission concluded that the temporary withdrawal of the special incentive arrangement for sustainable development and good governance is not warranted and that the investigation shall be terminated.
- (15) The measures provided for in this Decision are in accordance with the opinion of the Generalised Preferences Committee,

HAS ADOPTED THIS DECISION:

Article 1

The investigation initiated by Implementing Decision 2012/161/EU with respect to the effective implementation of the United Nations Single Convention on Narcotic Drugs in Bolivia is hereby terminated.

Article 2

This Decision is addressed to the Plurinational State of Bolivia.

COMMISSION IMPLEMENTING DECISION

of 15 March 2013

**authorising the use of at risk bovine animals until the end of their productive lives in Spain
following official confirmation of the presence of BSE**

*(notified under document C(2013) 1473)***(Only the Spanish text is authentic)**

(2013/137/EU)

THE EUROPEAN COMMISSION,

HAS ADOPTED THIS DECISION:

Having regard to the Treaty on the Functioning of the European Union,

Article 1

Having regard to Regulation (EC) No 999/2001 of the European Parliament and of the Council of 22 May 2001 laying down rules for the prevention, control and eradication of certain transmissible spongiform encephalopathies ⁽¹⁾, and in particular the second subparagraph of Article 13(1) thereof,

1. By way of derogation from point (c) of the first subparagraph of Article 13(1) of Regulation (EC) No 999/2001, Spain may use bovine animals referred to in the second and third indents of point 1(a) of Annex VII to that Regulation until the end of their productive lives under the conditions provided for in paragraphs 2 and 3 of this Article.

Whereas:

- (1) Regulation (EC) No 999/2001 lays down rules for the prevention, control and eradication of transmissible spongiform encephalopathies (TSEs) in animals. The first subparagraph of Article 13(1) of that Regulation provides for eradication measures to be applied when the presence of a TSE has been officially confirmed. Those measures consist in particular in the killing and complete destruction of the animals and products of animal origin which have been identified as being at risk ('at risk bovine animals') due to an epidemiological link with the affected animals.
- (2) Spain has submitted to the Commission a request for a decision to allow the use of at risk bovine animals until the end of their productive lives by way of derogation from point (c) of the first subparagraph of Article 13(1) of Regulation (EC) No 999/2001.
- (3) The control measures submitted by Spain provide for strict movement restriction and traceability of bovine animals in such a way that the current level of protection of human and animal health is not endangered.
- (4) On the basis of a favourable risk assessment, Spain should therefore be allowed to use at risk bovine animals until the end of their productive lives provided that certain conditions are met.
- (5) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

2. Spain shall ensure that the bovine animals referred to in paragraph 1:

- (a) are permanently traceable in the computerised database provided for in Article 5 of Regulation (EC) No 1760/2000 of the European Parliament and of the Council ⁽²⁾;
- (b) are only moved from their holding under official supervision and for the purpose of destruction;
- (c) are not dispatched to other Member States or exported to third countries.

3. Spain shall carry out regular checks to verify the correct implementation of this Decision.

Article 2

This Decision is addressed to the Kingdom of Spain.
