REGULATIONS

COMMISSION IMPLEMENTING REGULATION (EU) No 969/2013

of 2 October 2013

entering a name in the register of protected designations of origin and protected geographical indications [Pasta di Gragnano (PGI)]

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1151/2012 of the European Parliament and of the Council of 21 November 2012 on quality schemes for agricultural products and foodstuffs ⁽¹⁾, and in particular Article 52(2) thereof,

Whereas:

- (1) Pursuant to Article 50(2)(a) of Regulation (EU) No 1151/2012, Italy's application to register the name 'Pasta di Gragnano' was published in the *Official Journal of the European Union* ⁽²⁾.

- (2) As no statement of opposition under Article 51 of Regulation (EU) No 1151/2012 has been received by the Commission, the name 'Pasta di Gragnano' should therefore be entered in the register,

HAS ADOPTED THIS REGULATION:

Article 1

The name contained in the Annex to this Regulation is hereby entered in the register.

*Article 2*This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 2 October 2013.

*For the Commission,
On behalf of the President,
Dacian CIOLOŞ
Member of the Commission*

⁽¹⁾ OJ L 343, 14.12.2012, p. 1.

⁽²⁾ OJ C 77, 15.3.2013, p. 25.

ANNEX

Pasta di Gragnano (PGI)

COMMISSION IMPLEMENTING REGULATION (EU) No 970/2013**of 10 October 2013****establishing the standard import values for determining the entry price of certain fruit and vegetables**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation) ⁽¹⁾,

Having regard to Commission Implementing Regulation (EU) No 543/2011 of 7 June 2011 laying down detailed rules for the application of Council Regulation (EC) No 1234/2007 in respect of the fruit and vegetables and processed fruit and vegetables sectors ⁽²⁾, and in particular Article 136(1) thereof,

Whereas:

- (1) Implementing Regulation (EU) No 543/2011 lays down, pursuant to the outcome of the Uruguay Round multi-lateral trade negotiations, the criteria whereby the

Commission fixes the standard values for imports from third countries, in respect of the products and periods stipulated in Annex XVI, Part A thereto.

- (2) The standard import value is calculated each working day, in accordance with Article 136(1) of Implementing Regulation (EU) No 543/2011, taking into account variable daily data. Therefore this Regulation should enter into force on the day of its publication in the *Official Journal of the European Union*,

HAS ADOPTED THIS REGULATION:

Article 1

The standard import values referred to in Article 136 of Implementing Regulation (EU) No 543/2011 are fixed in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 10 October 2013.

*For the Commission,
On behalf of the President,*

DECISIONS

COMMISSION DECISION

of 9 October 2013

on a measure taken by Finland according to Article 11 of Directive 2006/42/EC of the European Parliament and of the Council relating to a screw conveyor for carrots and kohlrabi

*(notified under document C(2013) 6392)***(Text with EEA relevance)**

(2013/494/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2006/42/EC of the European Parliament and of the Council of 17 May 2006 on machinery, and amending Directive 95/16/EC ⁽¹⁾, and in particular Article 11 thereof,

Whereas:

(1) In accordance with the procedure set out in Article 11(2) of Directive 2006/42/EC, the Finnish authorities notified to the Commission and to the other Member States a measure relating to a screw conveyor for carrots and kohlrabi of the type TSF 350 manufactured by Cabinplant A/S, Foresbjergvej 9, 5683 Haarby, Denmark. The machinery bore the CE marking and was accompanied by an EC Declaration of conformity.

(2) The measure was motivated by the non-conformity of the machinery with the following essential health and safety requirements of Annex I to Directive 2006/42/EC:

— 1.3.7 — Risks related to moving parts

— 1.3.8 — Choice of protection against risks arising from moving parts

— 1.4.2.2 — Interlocking moveable guards

— 2.1.1 (d) and (e) — Foodstuffs machinery — cleaning.

(3) The measure followed an accident that occurred during cleaning of the machinery when the operator reached into the drainpipe of the conveyor to free blocked vegetables while the screw was running, sustaining injuries to his fingers. The flap preventing access to the

drain pipe was a fixed guard. Since it had to be opened several times per day for cleaning, the Finnish authorities considered that an interlocking moveable guard should be fitted. Furthermore, the Finnish authorities noted that the machine could not be effectively cleaned while at a standstill as specified in the instructions.

(4) In accordance with Article 11(3) of Directive 2006/42/EC, the Commission asked the manufacturer Cabinplant A/S to present his observations on the measure. The manufacturer replied that the type TSF 350 screw conveyor had been designed and manufactured by a supplier and purchased by Cabinplant A/S for fitting into an integrated system. He stated if future screw conveyors of this type were purchased he would ensure that they complied with the requirements of Directive 2006/42/EC.

(5) Examination of the evidence provided by the Finnish authorities and of the observations communicated by the manufacturer confirms that the screw conveyor of the type TSF 350 not fitted with an interlocking moveable guard to prevent access to the drainpipe while the screw is running fails to comply with the essential health and safety requirements of Annex I to Directive 2006/42/EC and that this non-conformity gives rise to a serious risk of injury to operators,

HAS ADOPTED THIS DECISION:

Article 1

The measure taken by the Finnish authorities prohibiting the placing on the market of screw conveyors of the type TSF 350 not fitted with an interlocking moveable guard to prevent access to the drainpipe while the screw is running is justified.

For the Commission
Antonio TAJANI
Vice-President

COMMISSION DECISION

of 9 October 2013

on a measure taken by Finland according to Directive 2006/42/EC of the European Parliament and of the Council prohibiting a type of wedge splitter

(notified under document C(2013) 6442)

(Text with EEA relevance)

(2013/495/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2006/42/EC of the European Parliament and of the Council of 17 May 2006 on machinery, and amending Directive 95/16/EC ⁽¹⁾ and in particular Article 11 thereof,

Whereas:

(1) In accordance with the procedure set out in Article 11(2) of Directive 2006/42/EC, the Finnish authorities notified to the Commission and to the other Member States a measure prohibiting the placing on the market and use of a hydraulic wedge splitter of the type *Hakki Pilke Z100* manufactured by Maaselän Kone Oy, Valimotie 1, FI-85800 Haapajärvi, SUOMI/FINLAND, and requiring the manufacturer to take corrective action with respect to machines already placed on the market.

(2) The reason for the measure given by the Finnish authorities is the non-conformity of the machinery with the following essential health and safety requirements of Annex I to Directive 2006/42/EC (with reference to the specifications of standards EN 609-1 — *Agricultural and forestry machinery — Safety of log splitters — Part 1: Wedge splitters*, and EN 574 — *Safety of machinery — Two-hand control devices — Functional aspects — Principles for design*):

— 1.1.2 — *Principles of safety integration*;

— 1.2.2 — *Control devices*;

— 1.2.3 — *Starting*;

— 1.3.7 — *Risks related to moving parts*;

— 1.4.3 — *Special requirements for protective devices*.

(3) The measure taken by the Finnish authorities followed an enquiry into a serious accident when the levers of the

two-hand control device used to start the machinery were tied together. The Finnish authorities considered that the two-hand control device fitted to the machinery was not designed to avoid being easily defeated or actuated by one hand or by other parts of the body.

(4) The Commission wrote to the manufacturer inviting him to communicate his observations on the measure taken by Finland. In his reply, the manufacturer indicated that, following the measure, he had brought the design of the machinery into conformity for products manufactured from the autumn of 2010 and proposed corrective measures to deal with machines placed on the market before that date. Since the summer of 2011, the wedge splitter has been sold with the reference *Hakki Pilke HH100*.

(5) The Finnish authorities have confirmed that the wedge splitters of the types *Hakki Pilke Z100* and *HH100* placed on the market since the autumn of 2010 comply with the requirements of Directive 2006/42/EC and that consequently the prohibition on the placing on the market and use of those machines has been lifted. However, the obligation to recall and bring into conformity wedge splitters manufactured before the autumn of 2010 remains in force.

(6) Examination of the evidence provided by the Finnish authorities and of the observations communicated by the manufacturer confirms that wedge splitters of the type *Hakki Pilke Z100* with a two-hand control device that can be easily defeated or actuated by one hand or by other parts of the body do not comply with the essential health and safety requirements of Annex I to Directive 2006/42/EC and that this non-conformity gives rise to a serious risk of injury to users,

HAS ADOPTED THIS DECISION:

Article 1

The measure taken by the Finnish authorities prohibiting the placing on the market and use of wedge splitters of the type *Hakki Pilke Z100* with a two-hand control device that can be easily defeated or actuated by one hand or by other parts of the body, and requiring the manufacturer to recall or bring into conformity non-compliant products already placed on the market is justified.
