DECISIONS

COMMISSION IMPLEMENTING DECISION

of 7 November 2013

adopting a fourth updated list of sites of Community importance for the Macaronesian biogeographical region

(notified under document C(2013) 7340)

(2013/734/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora [1], and in particular the third subparagraph of Article 4(2) thereof,

Whereas:

(1) The Macaronesian biogeographical region referred to in Article 1(c)(iii) of Directive 92/43/EEC comprises the archipelagos of the Azores and Madeira (Portugal) and the Canary Islands (Spain) in the Atlantic Ocean, as specified in the biogeographical map approved on 20 April 2005 by the Committee set up by Article 20 of that Directive, hereinafter the 'Habitats Committee'.

(2) It is necessary in the context of a process which was initiated in 1995 to make further progress in the actual establishment of the Natura 2000 network, which is an essential element of the protection of biodiversity in the Union.

(3) The initial list and the first three updated list of sites of Community importance for the Macaronesian biogeographical region, within the meaning of Directive 92/43/EEC, were adopted by Commission Decisions 2002/11/EC [2], 2008/95/EC [3], 2009/1001/EU [4], and Implementing Decision 2013/25/EU [5]. On the basis of Articles 4(4) and 6(1) of Directive 92/43/EEC, the Member State concerned has to designate the sites included in the list of sites of Community importance for the Macaronesian biogeographical region as special areas of conservation as soon as possible and within six years at most, establishing conservation priorities and the necessary conservation measures.

(4) In the context of a dynamic adaptation of the Natura 2000 network, the lists of sites of Community importance are reviewed. An update of the list of sites of Community importance for the Macaronesian biogeographical region is therefore necessary.

(5) On the one hand, the update of the list of sites of Community importance for the Macaronesian biogeographical region is necessary in order to include additional sites that have been proposed since 2011 by Member States as sites of Community importance for the Macaronesian biogeographical region within the meaning of Article 1 of Directive 92/43/EEC. For those additional sites, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of this Decision.

(6) On the other hand, the update of the list of sites of Community importance for the Macaronesian biogeographical region is necessary in order to reflect any changes in site-related information submitted by Member States following the adoption of the initial and the first three updated Union lists. In that sense, this updated list of sites of Community importance for the Macaronesian biogeographical region constitutes a consolidated version of the list of sites of Community importance for the Macaronesian biogeographical region. It should be stressed that, for any site included in this Decision, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of the list of sites of Community importance in which the site was included for the first time.

[1] OJ L 206, 22.7.1992, p. 7.
[2] OJ L 5, 9.1.2002, p. 16.
[3] OJ L 31, 5.2.2008, p. 39.
[4] OJ L 344, 23.12.2009, p. 46.
[5] OJ L 24, 26.1.2013, p. 370.

(7) For the Macaronesian biogeographical region, lists of sites proposed as sites of Community importance within the meaning of Article 1 of Directive 92/43/EEC were transmitted to the Commission between November 1997 and October 2012 by the Member States concerned in accordance with Article 4(1) of that Directive.

(8) The lists of proposed sites were accompanied by information on each site. Since 2012, that information was supplied in the format established by Commission Implementing Decision 2011/484/EU of 11 July 2011 concerning a site information format for proposed Natura 2000 sites ([1]).

(9) That information includes the map of the site transmitted by the Member States concerned, name, location and extent of the site, and the data yielded by application of the criteria specified in Annex III to Directive 92/43/EEC.

(10) On the basis of the draft list drawn up by the Commission in agreement with each of the Member States concerned, which also identifies sites hosting priority natural habitat types or priority species, an updated list of sites selected as sites of Community importance for the Macaronesian biogeographical region should be adopted.

(11) Knowledge of the existence and distribution of the natural habitat types and species is constantly evolving as a result of the surveillance undertaken in accordance with Article 11 of Directive 92/43/EEC. Therefore, the evaluation and selection of sites at Union level was carried out using the best available information at the time.

(12) Certain Member States have not proposed sufficient sites to meet the requirements of Directive 92/43/EEC for certain habitat types and species. For those habitat types and species it can therefore not be concluded that the Natura 2000 network is complete. Taking into account the delay in receiving the information and reaching agreement with the Member States, it is necessary to adopt an updated list of sites which will need to be reviewed in accordance with Article 4 of Directive 92/43/EEC.

(13) Given that knowledge of the existence and distribution of some of the natural habitat types listed in Annex I and some of the species listed in Annex II to Directive 92/43/EEC remains incomplete, it should not be concluded that the Natura 2000 network is either complete or incomplete. The list should be reviewed, if necessary, in accordance with Article 4 of Directive 92/43/EEC.

(14) In the interests of clarity and transparency, Implementing Decision 2013/25/EU should be repealed.

(15) The measures provided for in this Decision are in accordance with the opinion of the Habitats Committee,

HAS ADOPTED THIS DECISION:

Article 1

The fourth updated list of sites of Community importance for the Macaronesian biogeographical region in accordance with the third subparagraph of Article 4(2) of Directive 92/43/EEC is set out in the Annex to this Decision.

Article 2

Implementing Decision 2013/25/EU is repealed.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 7 November 2013.

For the Commission
Janez POTOČNIK
Member of the Commission

([1]) OJ L 198, 30.7.2011, p. 39.

ANNEX

Fourth updated list of sites of Community importance for the Macaronesian biogeographical region

Each site of Community importance (SCI) is identified by the information supplied in the Natura 2000 format, including the corresponding map. This information has been transmitted by the competent national authorities in accordance with the second subparagraph of Article 4(1) of Directive 92/43/EEC.

The table below gives the following information:

A: SCI code comprising nine characters, the first two being the ISO code for the Member State;

B: name of SCI;

C: * = presence on the SCI of at least one priority natural habitat type and/or species within the meaning of Article 1 of Directive 92/43/EEC;

D: area of SCI in hectares or length of SCI in km;

E: geographical coordinates of SCI (latitude and longitude) in decimal degrees.

All the information given in the Union list below is based on the data proposed, transmitted and validated by Spain and Portugal.

A	B	C	D		E	
SCI code	Name of SCI	*	Area of SCI (ha)	Length of SCI (km)	Geographical coordinates of SCI	
					Longitude	Latitude

COMMISSION IMPLEMENTING DECISION

of 7 November 2013

adopting a fifth updated list of sites of Community importance for the Pannonian biogeographical region

(notified under document C(2013) 7348)

(2013/735/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora [1], and in particular the third subparagraph of Article 4(2) thereof,

Whereas:

(1) The Pannonian biogeographical region referred to in Article 1(c)(iii) of Directive 92/43/EEC comprises parts of the Union territories of the Czech Republic, Romania and Slovakia and the Union territory of Hungary, as specified in the biogeographical map approved on 20 April 2005 by the Committee set up by Article 20 of that Directive, hereinafter 'the Habitats Committee'.

(2) It is necessary in the context of a process which was initiated in 1995 to make further progress in the actual establishment of the Natura 2000 network, which is an essential element of the protection of biodiversity in the Union.

(3) The initial list and the first four updated lists of sites of Community importance for the Pannonian biogeographical region, within the meaning of Directive 92/43/EEC, were adopted by Commission Decisions 2008/26/EC [2], 2009/90/EC [3], 2011/86/EU [4], and Implementing Decisions 2012/10/EU [5] and 2013/24/EU [6]. On the basis of Articles 4(4) and 6(1) of Directive 92/43/EEC, the Member State concerned has to designate the sites included in the list of sites of Community importance for the Pannonian biogeographical region as special areas of conservation as soon as possible and within six years at most, establishing conservation priorities and the necessary conservation measures.

(4) In the context of a dynamic adaptation of the Natura 2000 network, the lists of sites of Community importance are reviewed. An update of the list of sites of Community importance for the Pannonian biogeographical region is therefore necessary.

(5) On the one hand, the update of the list of sites of Community importance for the Pannonian biogeographical region is necessary in order to include additional sites that have been proposed since 2011 by Member States as sites of Community importance for the Pannonian biogeographical region within the meaning of Article 1 of Directive 92/43/EEC. For those additional sites, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of this Decision.

(6) On the other hand, the update of the list of sites of Community importance for the Pannonian biogeographical region is necessary in order to reflect any changes in site-related information submitted by Member States following the adoption of the initial and the first four updated Union lists. In that sense, this updated list of sites of Community importance for the Pannonian biogeographical region constitutes a consolidated version of the list of sites of Community importance for the Pannonian biogeographical region. It should be stressed that, for any site included in this Decision, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of the list of sites of Community importance in which the site was included for the first time.

[1] OJ L 206, 22.7.1992, p. 7.
[2] OJ L 12, 15.1.2008, p. 678.
[3] OJ L 43, 13.2.2009, p. 1.
[4] OJ L 40, 12.2.2011, p. 300.
[5] OJ L 10, 13.1.2012, p. 103.
[6] OJ L 24, 26.1.2013, p. 344.

(7) For the Pannonian biogeographical region, lists of sites proposed as sites of Community importance within the meaning of Article 1 of Directive 92/43/EEC were transmitted to the Commission between May 2004 and October 2012 by the Member States concerned in accordance with Article 4(1) of that Directive.

(8) The lists of proposed sites were accompanied by information on each site. Since 2012, that information was supplied in the format established by Commission Implementing Decision 2011/484/EU [1].

(9) That information includes the map of the site transmitted by the Member States concerned, name, location and extent of the site, and the data yielded by application of the criteria specified in Annex III to Directive 92/43/EEC.

(10) On the basis of the draft list drawn up by the Commission in agreement with each of the Member States concerned, which also identifies sites hosting priority natural habitat types or priority species, an updated list of sites selected as sites of Community importance for the Pannonian biogeographical region should be adopted.

(11) Knowledge of the existence and distribution of the natural habitat types and species is constantly evolving as a result of the surveillance undertaken in accordance with Article 11 of Directive 92/43/EEC. Therefore, the evaluation and selection of sites at Union level was carried out using the best available information at the time.

(12) Certain Member States have not proposed sufficient sites to meet the requirements of Directive 92/43/EEC for certain habitat types and species. For those habitat types and species it can therefore not be concluded that the Natura 2000 network is complete. Taking into account the delay in receiving the information and reaching agreement with the Member States, it is necessary to adopt an updated list of sites which will need to be reviewed in accordance with Article 4 of Directive 92/43/EEC.

(13) Given that knowledge of the existence and distribution of some of the natural habitat types listed in Annex I and some of the species listed in Annex II to Directive 92/43/EEC remains incomplete, it should not be concluded that the Natura 2000 network is either complete or incomplete. The list should be reviewed, if necessary, in accordance with Article 4 of Directive 92/43/EEC.

(14) In the interests of clarity and transparency, Implementing Decision 2013/24/EU should be repealed.

(15) The measures provided for in this Decision are in accordance with the opinion of the Habitats Committee,

HAS ADOPTED THIS DECISION:

Article 1

The fifth updated list of sites of Community importance for the Pannonian biogeographical region in accordance with the third subparagraph of Article 4(2) of Directive 92/43/EEC is set out in the Annex to this Decision.

Article 2

Implementing Decision 2013/24/EU is repealed.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 7 November 2013.

For the Commission
Janez POTOČNIK
Member of the Commission

[1] OJ L 198, 30.7.2011, p. 39.

ANNEX

Fifth updated list of sites of Community importance for the Pannonian biogeographical region

Each site of Community importance (SCI) is identified by the information supplied in the Natura 2000 format, including the corresponding map. This information has been transmitted by the competent national authorities in accordance with the second subparagraph of Article 4(1) of Directive 92/43/EEC.

The table below gives the following information:

A: SCI code comprising nine characters, the first two being the ISO code for the Member State;

B: name of SCI;

C: * = presence on the SCI of at least one priority natural habitat type and/or species within the meaning of Article 1 of Directive 92/43/EEC;

D: area of SCI in hectares or length of SCI in km;

E: geographical coordinates of SCI (latitude and longitude) in decimal degrees.

All the information given in the Union list below is based on the data proposed, transmitted and validated by the Czech Republic, Hungary, Romania and Slovakia.

COMMISSION IMPLEMENTING DECISION

of 7 November 2013

adopting a second updated list of sites of Community importance for the Steppic biogeographical region

(notified under document C(2013) 7352)

(2013/736/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora [1], and in particular the third subparagraph of Article 4(2) thereof,

Whereas:

(1) The Steppic biogeographical region referred to in Article 1(c)(iii) of Directive 92/43/EEC comprises parts of the Union territory of Romania, as specified in the biogeographical map approved on 20 April 2005 by the Committee set up by Article 20 of that Directive, hereinafter the 'Habitats Committee'.

(2) It is necessary in the context of a process which was initiated in 1995 to make further progress in the actual establishment of the Natura 2000 network, which is an essential element of the protection of biodiversity in the Union.

(3) The initial list and the first updated list of sites of Community importance for the Steppic biogeographical region, within the meaning of Directive 92/43/EEC, were adopted by Commission Decision 2008/966/EC [2] and Commission Implementing Decision 2013/28/EU [3]. On the basis of Articles 4(4) and 6(1) of Directive 92/43/EEC, the Member State concerned has to designate the sites included in the list of sites of Community importance for the Steppic biogeographical region as special areas of conservation as soon as possible and within six years at most, establishing conservation priorities and the necessary conservation measures.

(4) In the context of a dynamic adaptation of the Natura 2000 network, the lists of sites of Community importance are reviewed. An update of the list of sites of Community importance for the Steppic biogeographical region is therefore necessary.

(5) On the one hand, the update of the list of sites of Community importance for the Steppic biogeographical region is necessary in order to include additional sites that have been proposed since 2011 by Romania as sites of Community importance for the Steppic biogeographical region within the meaning of Article 1 of Directive 92/43/EEC. For those additional sites, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of this Decision.

(6) On the other hand, the update of the list of sites of Community importance for the Steppic biogeographical region is necessary in order to reflect any changes in site-related information submitted by Romania following the adoption of the initial and the first updated Union lists. In that sense, the updated list of sites of Community importance for the Steppic biogeographical region constitutes a consolidated version of the list of sites of Community importance for the Steppic biogeographical region. It should be stressed that, for any site included in this Decision, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of the list of sites of Community importance in which the site was included for the first time.

(7) For the Steppic biogeographical region, lists of sites proposed as sites of Community importance within the meaning of Article 1 of Directive 92/43/EEC were transmitted to the Commission between June 2007 and October 2012 in accordance with Article 4(1) of that Directive.

(8) The lists of proposed sites were accompanied by information on each site. Since 2012, that information was supplied in the format established by Commission Implementing Decision 2011/484/EU of 11 July 2011 concerning a site information format for Natura 2000 sites [4].

[1] OJ L 206, 22.7.1992, p. 7.
[2] OJ L 344, 20.12.2008, p. 117.
[3] OJ L 24, 26.1.2013, p. 643.
[4] OJ L 198, 30.7.2011, p. 39.

(9) That information includes the map of the site transmitted by the Member State concerned, name, location and extent of the site, and the data yielded by application of the criteria specified in Annex III to Directive 92/43/EEC.

(10) On the basis of the draft list drawn up by the Commission in agreement with the Member State concerned, which also identifies sites hosting priority natural habitat types or priority species, an updated list of sites selected as sites of Community importance for the Steppic biogeograpical region should be adopted.

(11) Knowledge of the existence and distribution of the natural habitat types and species is constantly evolving as a result of the surveillance undertaken in accordance with Article 11 of Directive 92/43/EEC. Therefore, the evaluation and selection of sites at Union level was carried out using the best available information at the time.

(12) The Member State concerned has not proposed sufficient sites to meet the requirements of Directive 92/43/EEC for certain habitat types and species. For those habitat types and species it can therefore not be concluded that the Natura 2000 network is complete. Taking into account the delay in receiving the information and reaching agreement with the Member State, it is necessary to adopt an updated list of sites which will need to be reviewed in accordance with Article 4 of Directive 92/43/EEC.

(13) Given that knowledge of the existence and distribution of some of the natural habitat types listed in Annex I and some of the species listed in Annex II to Directive 92/43/EEC remains incomplete, it should not be concluded that the network is either complete or incomplete. The list should be reviewed, if necessary, in accordance with Article 4 of Directive 92/43/EEC.

(14) In the interests of clarity and transparency, Implementing Decision 2013/28/EU should be repealed.

(15) The measures provided for in this Decision are in accordance with the opinion of the Habitats Committee,

HAS ADOPTED THIS DECISION:

Article 1

The second updated list of sites of Community importance for the Steppic biogeographical region in accordance with the third subparagraph of Article 4(2) of Directive 92/43/EEC is set out in the Annex to this Decision.

Article 2

Implementing Decision 2013/28/EU is repealed.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 7 November 2013.

ANNEX

Second updated list of sites of Community importance for the Steppic biogeographical region

Each site of Community importance (SCI) is identified by the information supplied in the Natura 2000 format, including the corresponding map. This information has been transmitted by the competent national authorities in accordance with the second subparagraph of Article 4(1) of Directive 92/43/EEC.

The table below gives the following information:

A: SCI code comprising nine characters, the first two being the ISO code for the Member State;

B: name of SCI;

C: * = presence on the SCI of at least one priority natural habitat type and/or species within the meaning of Article 1 of Directive 92/43/EEC;

D: area of SCI in hectares or length of SCI in km;

E: geographical coordinates of SCI (latitude and longitude) in decimal degrees.

All the information given in the Union list below is based on the data proposed, transmitted and validated by Romania.

A	B	C	D		E	
SCI code	Name of SCI	*	Area of SCI (ha)	Length of SCI (km)	Geographical coordinates of SCI	
					Longitude	Latitude
ROSCI0005	Balta Albă — Amara — Jirlău — Lacul Sărat Câineni	*	6 300,3		27,3162	45,2895

COMMISSION IMPLEMENTING DECISION

of 7 November 2013

adopting a second updated list of sites of Community importance for the Black Sea biogeographical region

(notified under document C(2013) 7353)

(2013/737/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora [1], and in particular the third subparagraph of Article 4(2) thereof,

Whereas:

(1) The Black Sea biogeographical region referred to in Article 1(c)(iii) of Directive 92/43/EEC comprises parts of the Union territories of Bulgaria and Romania, as specified in the biogeographical map approved on 20 April 2005 by the Committee set up by Article 20 of that Directive, hereinafter 'the Habitats Committee'.

(2) It is necessary in the context of a process which was initiated in 1995 to make further progress in the actual establishment of the Natura 2000 network, which is an essential element of the protection of biodiversity in the Union.

(3) The initial list and the first updated list of sites of Community importance for the Black Sea biogeographical region, within the meaning of Directive 92/43/EEC, were adopted by Commission Decision 2009/92/EC [2] and Implementing Decision 2013/30/EU [3]. On the basis of Articles 4(4) and 6(1) of Directive 92/43/EEC, the Member State concerned has to designate the sites included in the list of sites of Community importance for the Black Sea biogeographical region as special areas of conservation as soon as possible and within six years at most, establishing conservation priorities and the necessary conservation measures.

(4) In the context of a dynamic adaptation of the Natura 2000 network, the lists of sites of Community importance are reviewed. An update of the list of sites of Community importance for the Black Sea biogeographical region is therefore necessary.

(5) On the one hand, the update of the list of sites of Community importance for the Black Sea biogeographical region is necessary in order to include additional sites that have been proposed since 2011 by Member States as sites of Community importance for the Black Sea biogeographical region within the meaning of Article 1 of Directive 92/43/EEC. For those additional sites, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of this Decision.

(6) On the other hand, the update of the list of sites of Community importance for the Black Sea biogeographical region is necessary in order to reflect any changes in site-related information submitted by Member States following the adoption of the initial and the first updated Union lists. In that sense, this updated list of sites of Community importance for the Black Sea biogeographical region constitutes a consolidated version of the list of sites of Community importance for the Black Sea biogeographical region. It should be stressed that, for any site included in this Decision, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of the list of sites of Community importance in which the site was included for the first time.

(7) For the Black Sea biogeographical region, lists of sites proposed as sites of Community importance within the meaning of Article 1 of Directive 92/43/EEC were transmitted to the Commission between March 2007 and October 2012, in accordance with Article 4(1) of that Directive 92/43/EEC.

[1] OJ L 206, 22.7.1992, p. 7.
[2] OJ L 43, 13.2.2009, p. 59.
[3] OJ L 24, 26.1.2013, p. 740.

(8) The lists of proposed sites were accompanied by information on each site. Since 2012, that information was supplied in the format established by Commission Implementing Decision 2011/484/EU of 11 July 2011 concerning a site information format for Natura 2000 sites [1].

(9) That information includes the map of the site transmitted by the Member States concerned, name, location and extent of the site, and the data yielded by application of the criteria specified in Annex III to Directive 92/43/EEC.

(10) On the basis of the draft list drawn up by the Commission in agreement with each of the Member States concerned, which also identifies sites hosting priority natural habitat types or priority species, an updated list of sites selected as sites of Community importance for the Black Sea biogeographical region should be adopted.

(11) Knowledge of the existence and distribution of the natural habitat types and species is constantly evolving as a result of the surveillance undertaken in accordance with Article 11 of Directive 92/43/EEC. Therefore, the evaluation and selection of sites at Union level was carried out using the best available information at the time.

(12) Certain Member States concerned have not proposed sufficient sites to meet the requirements of Directive 92/43/EEC for certain habitat types and species. For those habitat types and species it can therefore not be concluded that the Natura 2000 network is complete. Taking into account the delay in receiving the information and reaching agreement with the Member States, it is necessary to adopt an updated list of sites which will need to be reviewed in accordance with Article 4 of Directive 92/43/EEC.

(13) Given that knowledge of the existence and distribution of some of the natural habitat types listed in Annex I and some of the species listed in Annex II to Directive 92/43/EEC remains incomplete, it should not be concluded that the network is either complete or incomplete. The list should be reviewed, if necessary, in accordance with Article 4 of Directive 92/43/EEC.

(14) In the interests of clarity and transparency, Implementing Decision 2013/30/EU should be repealed.

(15) The measures provided for in this Decision are in accordance with the opinion of the Habitats Committee,

HAS ADOPTED THIS DECISION:

Article 1

The second updated list of sites of Community importance for the Black Sea biogeographical region in accordance with the third subparagraph of Article 4(2) of Directive 92/43/EEC is set out in the Annex to this Decision.

Article 2

Implementing Decision 2013/30/EU is repealed.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 7 November 2013.

COMMISSION IMPLEMENTING DECISION

of 7 November 2013

adopting a seventh updated list of sites of Community importance for the Alpine biogeographical region

(notified under document C(2013) 7355)

(2013/738/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora [1], and in particular the third subparagraph of Article 4(2) thereof,

Whereas:

(1) The Alpine biogeographical region referred to in Article 1(c)(iii) of Directive 92/43/EEC comprises the Union territories of the Alps (Germany, France Italy, Austria and Slovenia), the Pyrenees (Spain and France), the Apennine mountains (Italy), the northern Fennoscandian mountains (Finland and Sweden), the Carpathian mountains (Poland, Romania and Slovakia) and the Balkan, Rila, Pirin, Rhodope and the Sashtinska Sredna Gora Mountains (Bulgaria), as specified in the biogeographical map approved on 20 April 2005 by the Committee set up by Article 20 of that Directive, hereinafter the 'Habitats Committee'.

(2) It is necessary in the context of a process which was initiated in 1995 to make further progress in the actual establishment of the Natura 2000 network, which is an essential element of the protection of biodiversity in the Union.

(3) The initial list and the first six updated lists of sites of Community importance for the Alpine biogeographical region, within the meaning of Directive 92/43/EEC, were adopted by Commission Decisions 2004/69/EC [2], 2008/218/EC [3], 2009/91/EC [4], 2010/42/EU [5], 2011/62/EU [6], and Implementing Decisions 2012/12/EU [7] and 2013/22/EU [8]. On the basis of Articles 4(4) and 6(1) of Directive 92/43/EEC, the Member State concerned has to designate the sites included in the list of sites of Community importance for the Alpine biogeographical region as special areas of conservation as soon as possible and within six years at most, establishing conservation priorities and the necessary conservation measures.

(4) In the context of a dynamic adaptation of the Natura 2000 network, the lists of sites of Community importance are reviewed. An update of the list of sites of Community importance for the Alpine biogeographical region is therefore necessary.

(5) On the one hand, the update of the list of sites of Community importance for the Alpine biogeographical region is necessary in order to include additional sites that have been proposed since 2011 by Member States as sites of Community importance for the Alpine biogeographical region within the meaning of Article 1 of Directive 92/43/EEC. For those additional sites, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of this Decision.

(6) On the other hand, the update of the list of sites of Community importance for the Alpine biogeographical region is necessary in order to reflect any changes in site-related information submitted by Member States following the adoption of the initial and the first six updated Union lists. In that sense, this updated list of sites of Community importance for the Alpine biogeographical region constitutes a consolidated version of the list of sites of Community importance for the Alpine biogeographical region. It should be stressed that, for any site included in this Decision, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of the list of sites of Community importance in which the site was included for the first time.

(7) For the Alpine biogeographical region, lists of sites proposed as sites of Community importance within the meaning of Article 1 of Directive 92/43/EEC were transmitted to the Commission between March 2002 and October 2012 by the Member States concerned in accordance with Article 4(1) of that Directive.

[1] OJ L 206, 22.7.1992, p. 7.
[2] OJ L 14, 21.1.2004, p. 21.
[3] OJ L 77, 19.3.2008, p. 106.
[4] OJ L 43, 13.2.2009, p. 21.
[5] OJ L 30, 2.2.2010, p. 1.
[6] OJ L 33, 8.2.2011, p. 1.
[7] OJ L 10, 13.1.2012, p. 339.
[8] OJ L 24, 26.1.2013, p. 1.

(8) The lists of proposed sites were accompanied by information on each site. Since 2012, that information was supplied in the format established by Commission Implementing Decision 2011/484/EU of 11 July 2011 concerning a site information format for Natura 2000 sites [1].

(9) That information includes the map of the site transmitted by the Member States concerned, name, location and extent of the site, and the data yielded by application of the criteria specified in Annex III to Directive 92/43/EEC.

(10) On the basis of the draft list drawn up by the Commission in agreement with each of the Member States concerned, which also identifies sites hosting priority natural habitat types or priority species, an updated list of sites selected as sites of Community importance for the Alpine biogeographical region should be adopted.

(11) Knowledge of the existence and distribution of the natural habitat types and species is constantly evolving as a result of the surveillance undertaken in accordance with Article 11 of Directive 92/43/EEC. Therefore, the evaluation and selection of sites at Union level was carried out using the best available information at the time.

(12) Certain Member States have not proposed sufficient sites to meet the requirements of Directive 92/43/EEC for certain habitat types and species. For those habitat types and species it can therefore not be concluded that the Natura 2000 network is complete. Taking into account the delay in receiving the information and reaching agreement with the Member States, it is necessary to adopt an updated list of sites which will need to be reviewed in accordance with Article 4 of Directive 92/43/EEC.

(13) Given that knowledge of the existence and distribution of some of the natural habitat types listed in Annex I and some of the species listed in Annex II to Directive 92/43/EEC remains incomplete, it should not be concluded that the Natura 2000 network is either complete or incomplete. The list should be reviewed, if necessary, in accordance with Article 4 of Directive 92/43/EEC.

(14) In the interests of clarity and transparency, Implementing Decision 2013/22/EU should be repealed.

(15) The measures provided for in this Decision are in accordance with the opinion of the Habitats Committee,

HAS ADOPTED THIS DECISION:

Article 1

The seventh updated list of sites of Community importance for the Alpine biogeographical region in accordance with the third subparagraph of Article 4(2) of Directive 92/43/EEC is set out in the Annex to this Decision.

Article 2

Implementing Decision 2013/22/EU is repealed.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 7 November 2013.

For the Commission

Janez POTOČNIK

Member of the Commission

[1] OJ L 198, 30.7.2011, p. 39.

ANNEX

Seventh updated list of sites of Community importance for the Alpine biogeographical region

Each site of Community importance (SCI) is identified by the information supplied in the Natura 2000 format, including the corresponding map. This information has been transmitted by the competent national authorities in accordance with the second subparagraph of Article 4(1) of Directive 92/43/EEC.

The table below gives the following information:

A: SCI code comprising nine characters, the first two being the ISO code for the Member State;

B: name of SCI;

C: * = presence on the SCI of at least one priority natural habitat type and/or species within the meaning of Article 1 of Directive 92/43/EEC;

D: area of SCI in hectares or length of SCI in km;

E: geographical coordinates of SCI (latitude and longitude) in decimal degrees.

All the information given in the Union list below is based on the data proposed, transmitted and validated by Bulgaria, Germany, Spain, France, Italy, Austria, Poland, Romania, Slovenia, Slovakia, Finland and Sweden.

COMMISSION IMPLEMENTING DECISION

of 7 November 2013

adopting a seventh updated list of sites of Community importance for the Mediterranean biogeographical region

(notified under document C(2013) 7356)

(2013/739/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora [1], and in particular the third subparagraph of Article 4(2) thereof,

Whereas:

(1) The Mediterranean biogeographical region referred to in Article 1(c)(iii) of Directive 92/43/EEC comprises the Union territories of Greece, Cyprus, in accordance with Article 1 of Protocol No 10 of the 2003 Act of Accession [2], and Malta, parts of the Union territories of Spain, France, Italy and Portugal, and, in accordance with Article 355(3) of the Treaty, the territory of Gibraltar, for which the United Kingdom is responsible for external relations, as specified in the biogeographical map approved on 20 April 2005 by the Committee set up by Article 20 of that Directive, hereinafter 'the Habitats Committee'.

(2) It is necessary in the context of a process which was initiated in 1995 to make further progress in the actual establishment of the Natura 2000 network, which is an essential element of the protection of biodiversity in the Union.

(3) The initial list and the first six updated lists of sites of Community importance for the Mediterranean biogeographical region, within the meaning of Directive 92/43/EEC, were adopted by Commission Decisions 2006/613/EC [3], 2008/335/EC [4], 2009/95/EC [5], 2010/45/EU [6], 2011/85/EU [7], and Implementing Decisions 2012/9/EU [8] and 2013/29/EU [9]. On the basis of Articles 4(4) and 6(1) of Directive 92/43/EEC, the Member State concerned has to designate the sites included in the list of sites of Community importance for the Mediterranean biogeographical region as special areas of conservation as soon as possible and within six years at most, establishing conservation priorities and the necessary conservation measures.

(4) In the context of a dynamic adaptation of the Natura 2000 network, the lists of sites of Community importance are reviewed. An update of the list of sites of Community importance for the Mediterranean biogeographical region is therefore necessary.

(5) On the one hand, the update of the list of sites of Community importance for the Mediterranean biogeographical region is necessary in order to include additional sites that have been proposed since 2011 by Member States as sites of Community importance for the Mediterranean biogeographical region within the meaning of Article 1 of Directive 92/43/EEC. For those additional sites, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of this Decision.

(6) On the other hand, the update of the list of sites of Community importance for the Mediterranean biogeographical region is necessary in order to reflect any changes in site-related information submitted by Member States following the adoption of the initial and the first six updated Union lists. In that sense, the updated list of sites of Community importance for the Mediterranean biogeographical region constitutes a consolidated version of the list of sites of Community importance for the Mediterranean biogeographical region. It should be stressed that, for any site included in this Decision, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of the list of sites of Community importance in which the site was included for the first time.

(7) For the Mediterranean biogeographical region, lists of sites proposed as sites of Community importance within the meaning of Article 1 of Directive 92/43/EEC were transmitted to the Commission between January 2003 and October 2012 by the Member States concerned in accordance with Article 4(1) of that Directive.

[8] OJ L 10, 13.1.2012, p. 1.
[9] OJ L 24, 26.1.2013, p. 647.

(8) The lists of proposed sites were accompanied by information on each site. Since 2012, that information was supplied in the format established by Commission Implementing Decision 2011/484/EU of 11 July 2011 concerning a site information format for Natura 2000 sites [1].

(9) That information includes the map of the site transmitted by the Member States concerned, name, location and extent of the site, and the data yielded by application of the criteria specified in Annex III to Directive 92/43/EEC.

(10) On the basis of the draft list drawn up by the Commission in agreement with each of the Member States concerned, which also identifies sites hosting priority natural habitat types or priority species, an updated list of sites selected as sites of Community importance for the Mediterranean biogeographical region should be adopted.

(11) Knowledge of the existence and distribution of the natural habitat types and species is constantly evolving as a result of the surveillance undertaken in accordance with Article 11 of Directive 92/43/EEC. Therefore, the evaluation and selection of sites at Union level was carried out using the best available information at the time.

(12) Certain Member States have not proposed sufficient sites to meet the requirements of Directive 92/43/EEC for certain habitat types and species. For those habitat types and species it can therefore not be concluded that the Natura 2000 network is complete. Taking into account the delay in receiving the information and reaching agreement with the Member States, it is necessary to adopt an updated list of sites which will need to be reviewed in accordance with Article 4 of Directive 92/43/EEC.

(13) Given that knowledge of the existence and distribution of some of the natural habitat types listed in Annex I and some of the species listed in Annex II to Directive 92/43/EEC remains incomplete, it should not be concluded that the Natura 2000 network is either complete or incomplete. The list should be reviewed, if necessary, in accordance with Article 4 of Directive 92/43/EEC.

(14) In the interests of clarity and transparency, Implementing Decision 2013/29/EU should be repealed.

(15) The measures provided for in this Decision are in accordance with the opinion of the Habitats Committee,

HAS ADOPTED THIS DECISION:

Article 1

The seventh updated list of sites of Community importance for the Mediterranean biogeographical region in accordance with the third subparagraph of Article 4(2) of Directive 92/43/EEC is set out in the Annex to this Decision.

Article 2

Implementing Decision 2013/29/EU is repealed.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 7 November 2013.

For the Commission
Janez POTOČNIK
Member of the Commission

[1] OJ L 198, 30.7.2011, p. 39.

ANNEX

Seventh updated list of sites of Community importance for the Mediterranean biogeographical region

Each site of Community importance (SCI) is identified by the information supplied in the Natura 2000 format, including the corresponding map. This information has been transmitted by the competent national authorities in accordance with the second subparagraph of Article 4(1) of Directive 92/43/EEC.

The table below gives the following information:

A: SCI code comprising nine characters, the first two being the ISO code for the Member State;

B: name of SCI;

C: * = presence on the SCI of at least one priority natural habitat type and/or species within the meaning of Article 1 of Directive 92/43/EEC;

D: area of SCI in hectares or length of SCI in km;

E: geographical coordinates of SCI (latitude and longitude) in decimal degrees.

All the information given in the Union list below is based on the data proposed, transmitted and validated by Greece, Spain, France, Cyprus, Italy, Malta, Portugal and the United Kingdom.

A	B	C	D		E

COMMISSION IMPLEMENTING DECISION

of 7 November 2013

adopting a seventh updated list of sites of Community importance for the Atlantic biogeographical region

(notified under document C(2013) 7357)

(2013/740/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora [1], and in particular the third subparagraph of Article 4(2) thereof,

Whereas:

(1) The Atlantic biogeographical region referred to in Article 1(c)(iii) of Directive 92/43/EEC comprises the Union territories of Ireland, the Netherlands and the United Kingdom, and parts of the Union territories of Belgium, Denmark, Germany, Spain, France and Portugal as specified in the biogeographical map approved on 20 April 2005 by the Committee set up by Article 20 of that Directive, hereinafter the 'Habitats Committee'.

(2) It is necessary in the context of a process which was initiated in 1995 to make further progress in the actual establishment of the Natura 2000 network, which is an essential element of the protection of biodiversity in the Union.

(3) The initial list and the first six updated lists of sites of Community importance for the Atlantic biogeographical region, within the meaning of Directive 92/43/EEC, were adopted by Commission Decisions 2004/813/EC [2], 2008/23/EC [3], 2009/96/EC [4], 2010/43/EU [5], 2011/63/EU [6], and Implementing Decisions 2012/13/EU [7] and 2013/26/EU [8]. On the basis of Articles 4(4) and 6(1) of Directive 92/43/EEC, the Member State concerned has to designate the sites included in the list of sites of Community importance for the Atlantic biogeographical region as special areas of conservation as soon as possible and within six years at most, establishing conservation priorities and the necessary conservation measures.

(4) In the context of a dynamic adaptation of the Natura 2000 network, the lists of sites of Community importance are reviewed. An update of the list of sites of Community importance for the Atlantic biogeographical region is therefore necessary.

(5) On the one hand, the update of the list of sites of Community importance for the Atlantic biogeographical region is necessary in order to include additional sites that have been proposed since 2011 by Member States as sites of Community importance for the Atlantic biogeographical region within the meaning of Article 1 of Directive 92/43/EEC. For those additional sites, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of this Decision.

(6) On the other hand, the update of the list of sites of Community importance for the Atlantic biogeographical region is necessary in order to reflect any changes in site-related information submitted by Member States following the adoption of the initial and the first six updated Union lists. In that sense, this updated list of sites of Community importance for the Atlantic biogeographical region constitutes a consolidated version of the list of sites of Community importance for the Atlantic biogeographical region. It should be stressed that, for any site included in this Decision, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of the list of sites of Community importance in which the site was included for the first time.

(7) For the Atlantic biogeographical region, lists of sites proposed as sites of Community importance within the meaning of Article 1 of Directive 92/43/EEC were transmitted to the Commission between March 2002 and February 2013 by the Member States concerned in accordance with Article 4(1) of that Directive.

[1] OJ L 206, 22.7.1992, p. 7.
[2] OJ L 387, 29.12.2004, p. 1.
[3] OJ L 12, 15.1.2008, p. 1.
[4] OJ L 43, 13.2.2009, p. 466.
[5] OJ L 30, 2.2.2010, p. 43.
[6] OJ L 33, 8.2.2011, p. 52.
[7] OJ L 11, 13.1.2012, p. 1.
[8] OJ L 24, 26.1.2013, p. 379.

(8) The lists of proposed sites were accompanied by information on each site. Since 2012, that information was supplied in the format established by Commission Implementing Decision 2011/484/EU [1].

(9) That information includes the map of the site transmitted by the Member States concerned, name, location and extent of the site, and the data yielded by application of the criteria specified in Annex III to Directive 92/43/EEC.

(10) On the basis of the draft list drawn up by the Commission in agreement with each of the Member States concerned, which also identifies sites hosting priority natural habitat types or priority species, an updated list of sites selected as sites of Community importance for the Atlantic biogeographical region should be adopted.

(11) Knowledge of the existence and distribution of the natural habitat types and species is constantly evolving as a result of the surveillance undertaken in accordance with Article 11 of Directive 92/43/EEC. Therefore, the evaluation and selection of sites at Union level was carried out using the best available information at the time.

(12) Certain Member States have not proposed sufficient sites to meet the requirements of Directive 92/43/EEC for certain habitat types and species. For those habitat types and species it can therefore not be concluded that the Natura 2000 network is complete. Taking into account the delay in receiving the information and reaching agreement with the Member States, it is necessary to adopt an updated list of sites which will need to be reviewed in accordance with Article 4 of Directive 92/43/EEC.

(13) Given that knowledge of the existence and distribution of some of the natural habitat types listed in Annex I and some of the species listed in Annex II to Directive 92/43/EEC remains incomplete, it should not be concluded that the Natura 2000 network is either complete or incomplete. The list should be reviewed, if necessary, in accordance with Article 4 of Directive 92/43/EEC.

(14) In the interests of clarity and transparency, Implementing Decision 2013/26/EU should be repealed.

(15) The measures provided for in this Decision are in accordance with the opinion of the Habitats Committee,

HAS ADOPTED THIS DECISION:

Article 1

The seventh updated list of sites of Community importance for the Atlantic biogeographical region in accordance with the third subparagraph of Article 4(2) of Directive 92/43/EEC is set out in the Annex to this Decision.

Article 2

Implementing Decision 2013/26/EU is repealed.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 7 November 2013.

For the Commission

Janez POTOČNIK

Member of the Commission

[1] OJ L 198, 30.7.2011, p. 39.

ANNEX

Seventh updated list of sites of Community importance for the Atlantic biogeographical region

Each site of Community importance (SCI) is identified by the information supplied in the Natura 2000 format, including the corresponding map. This information has been transmitted by the competent national authorities in accordance with the second subparagraph of Article 4(1) of Directive 92/43/EEC.

The table below gives the following information:

A: SCI code comprising nine characters, the first two being the ISO code for the Member State;

B: name of SCI;

C: * = presence on the SCI of at least one priority natural habitat type and/or species within the meaning of Article 1 of Directive 92/43/EEC;

D: area of SCI in hectares or length of SCI in km;

E: geographical coordinates of SCI (latitude and longitude) in decimal degrees.

All the information given in the Union list below is based on the data proposed, transmitted and validated by Belgium, Denmark, Germany, Ireland, Spain, France, Netherlands, Portugal and the United-Kingdom.

COMMISSION IMPLEMENTING DECISION

of 7 November 2013

adopting a seventh updated list of sites of Community importance for the Continental biogeographical region

(notified under document C(2013) 7358)

(2013/741/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora [1], and in particular the third subparagraph of Article 4(2) thereof,

Whereas:

(1) The Continental biogeographical region referred to in Article 1(c)(iii) of Directive 92/43/EEC comprises the Union territory of Luxembourg and parts of the Union territories of Belgium, Bulgaria, the Czech Republic, Denmark, Germany, France, Italy, Austria, Poland, Romania, Slovenia and Sweden, as specified in the biogeographical map approved on 20 April 2005 by the Committee set up by Article 20 of that Directive, hereinafter the 'Habitats Committee'.

(2) It is necessary in the context of a process which was initiated in 1995 to make further progress in the actual establishment of the Natura 2000 network, which is an essential element of the protection of biodiversity in the Union.

(3) The initial list and the first six updated lists of sites of Community importance for the Continental biogeographical region, within the meaning of Directive 92/43/EEC, were adopted by Commission Decisions 2004/798/EC [2], 2008/25/EC [3], 2009/93/EC [4], 2010/44/EU [5], 2011/64/EU [6], and Implementing Decisions 2012/14/EU [7] and 2013/23/EU [8]. On the basis of Articles 4(4) and 6(1) of Directive 92/43/EEC, the Member State concerned has to designate the sites included in the list of sites of Community importance for the Continental biogeographical region as special areas of conservation as soon as possible and within six years at most, establishing conservation priorities and the necessary conservation measures.

(4) In the context of a dynamic adaptation of the Natura 2000 network, the lists of sites of Community importance are reviewed. An update of the list of sites of Community importance for the Continental biogeographical region is therefore necessary.

(5) On the one hand, the update of the list of sites of Community importance for the Continental biogeographical region is necessary in order to include additional sites that have been proposed since 2011 by Member States as sites of Community importance for the Continental biogeographical region within the meaning of Article 1 of Directive 92/43/EEC. For those additional sites, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of this Decision.

(6) On the other hand, the update of the list of sites of Community importance for the Continental biogeographical region is necessary in order to reflect any changes in site-related information submitted by Member States following the adoption of the initial and the first six updated Union lists. In that sense, this updated list of sites of Community importance for the Continental biogeographical region constitutes a consolidated version of the list of sites of Community importance for the Continental biogeographical region. It should be stressed that, for any site included in this Decision, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of the list of sites of Community importance in which the site was included for the first time.

(7) For the Continental biogeographical region, lists of sites proposed as sites of Community importance within the meaning of Article 1 of Directive 92/43/EEC were transmitted to the Commission between November 2003 and October 2012 by the Member States concerned in accordance with Article 4(1) of that Directive.

[7] OJ L 11, 13.1.2012, p. 105.
[8] OJ L 24, 26.1.2013, p. 58.

(8) The lists of proposed sites were accompanied by information on each site. Since 2012, that information was supplied in the format established by Commission Implementing Decision 2011/484/EU of 11 July 2011 concerning a site information format for Natura 2000 sites [1].

(9) That information includes the map of the site transmitted by the Member States concerned, name, location and extent of the site, and the data yielded by application of the criteria specified in Annex III to Directive 92/43/EEC.

(10) On the basis of the draft list drawn up by the Commission in agreement with each of the Member States concerned, which also identifies sites hosting priority natural habitat types or priority species, an updated list of sites selected as sites of Community importance for the Continental biogeographical region should be adopted.

(11) Knowledge of the existence and distribution of the natural habitat types and species is constantly evolving as a result of the surveillance undertaken in accordance with Article 11 of Directive 92/43/EEC. Therefore, the evaluation and selection of sites at Union level was carried out using the best available information at the time.

(12) Certain Member States have not proposed sufficient sites to meet the requirements of Directive 92/43/EEC for certain habitat types and species. For those habitat types and species it can therefore not be concluded that the Natura 2000 network is complete. Taking into account the delay in receiving the information and reaching agreement with the Member States, it is necessary to adopt an updated list of sites which will need to be reviewed in accordance with Article 4 of Directive 92/43/EEC.

(13) Given that knowledge of the existence and distribution of some of the natural habitat types listed in Annex I and some of the species listed in Annex II to Directive 92/43/EEC remains incomplete, it should not be concluded that the Natura 2000 network is either complete or incomplete. The list should be reviewed, if necessary, in accordance with Article 4 of Directive 92/43/EEC.

(14) In the interests of clarity and transparency, Implementing Decision 2013/23/EU should be repealed.

(15) The measures provided for in this Decision are in accordance with the opinion of the Habitats Committee,

HAS ADOPTED THIS DECISION:

Article 1

The seventh updated list of sites of Community importance for the Continental biogeographical region in accordance with the third subparagraph of Article 4(2) of Directive 92/43/EEC is set out in the Annex to this Decision.

Article 2

Implementing Decision 2013/23/EU is repealed.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 7 November 2013.

For the Commission
Janez POTOČNIK
Member of the Commission

[1] OJ L 198, 30.7.2011, p. 39.

ANNEX

Seventh updated list of sites of Community importance for the Continental biogeographical region

Each site of Community importance (SCI) is identified by the information supplied in the Natura 2000 format, including the corresponding map. This information has been transmitted by the competent national authorities in accordance with the second subparagraph of Article 4(1) of Directive 92/43/EEC.

The table below gives the following information:

A: SCI code comprising nine characters, the first two being the ISO code for the Member State;

B: name of SCI;

C: * = presence on the SCI of at least one priority natural habitat type and/or species within the meaning of Article 1 of Directive 92/43/EEC;

D: area of SCI in hectares or length of SCI in km;

E: geographical coordinates of SCI (latitude and longitude) in decimal degrees.

All the information given in the Union list below is based on the data proposed, transmitted and validated by Belgium, Bulgaria, the Czech Republic, Denmark, Germany, France, Italy, Luxembourg, Austria, Poland, Romania, Slovenia and Sweden.

A	B	C	D		E

COMMISSION IMPLEMENTING DECISION

of 7 November 2013

adopting a seventh updated list of sites of Community importance for the Boreal biogeographical region

(notified under document C(2013) 7361)

(2013/742/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora [1], and in particular the third subparagraph of Article 4(2) thereof,

Whereas:

(1) The Boreal biogeographical region referred to in Article 1(c)(iii) of Directive 92/43/EEC comprises parts of the Union territories of Finland and Sweden and the Union territories of Estonia, Latvia and Lithuania, as specified in the biogeographical map approved on 20 April 2005 by the Committee set up by Article 20 of that Directive, hereinafter the 'Habitats Committee'.

(2) It is necessary in the context of a process which was initiated in 1995 to make further progress in the actual establishment of the Natura 2000 network, which is an essential element of the protection of biodiversity in the Union.

(3) The initial list and the first six updated lists of sites of Community importance for the Boreal biogeographical region, within the meaning of Directive 92/43/EEC, were adopted by Commission Decisions 2005/101/EC [2], 2008/24/EC [3], 2009/94/EC [4], 2010/46/EU [5], 2011/84/EU [6], and Implementing Decisions 2012/11/EU [7] and 2013/27/EU [8]. On the basis of Articles 4(4) and 6(1) of Directive 92/43/EEC, the Member State concerned has to designate the sites included in the list of sites of Community importance for the Boreal biogeographical region as special areas of conservation as soon as possible and within six years at most, establishing conservation priorities and the necessary conservation measures.

(4) In the context of a dynamic adaptation of the Natura 2000 network, the lists of sites of Community importance are reviewed. An update of the list of sites of Community importance for the Boreal biogeographical region is therefore necessary.

(5) On the one hand, the update of the list of sites of Community importance for the Boreal biogeographical region is necessary in order to include additional sites that have been proposed since 2011 by Member States as sites of Community importance for the Boreal biogeographical region within the meaning of Article 1 of Directive 92/43/EEC. For those additional sites, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of this Decision.

(6) On the other hand, the update of the list of sites of Community importance for the Boreal biogeographical region is necessary in order to reflect any changes in site-related information submitted by Member States following the adoption of the initial and the first six updated Union lists. In that sense, this updated list of sites of Community importance for the Boreal biogeographical region constitutes a consolidated version of the list of sites of Community importance for the Boreal biogeographical region. It should be stressed that, for any site included in this Decision, the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC should apply as soon as possible and within six years at most from the adoption of the list of sites of Community importance in which the site was included for the first time.

(7) For the Boreal biogeographical region, lists of sites proposed as sites of Community importance within the meaning of Article 1 of Directive 92/43/EEC were transmitted to the Commission between January 2003 and October 2012 by the Member States concerned in accordance with Article 4(1) of that Directive.

[2] OJ L 40, 11.2.2005, p. 1.
[3] OJ L 12, 15.1.2008, p. 118.
[4] OJ L 43, 13.2.2009, p. 245.
[5] OJ L 30, 2.2.2010, p. 403.
[6] OJ L 40, 12.2.2011, p. 1.
[7] OJ L 10, 13.1.2012, p. 130.
[8] OJ L 24, 26.1.2013, p. 464.

(8) The lists of proposed sites were accompanied by information on each site. Since 2012, that information was supplied in the format established by Commission Implementing Decision 2011/484/EU of 11 July 2011 concerning a site information format for Natura 2000 sites [1].

(9) That information includes the map of the site transmitted by the Member States concerned, name, location and extent of the site, and the data yielded by application of the criteria specified in Annex III to Directive 92/43/EEC.

(10) On the basis of the draft list drawn up by the Commission in agreement with each of the Member States concerned, which also identifies sites hosting priority natural habitat types or priority species, an updated list of sites selected as sites of Community importance for the Boreal biogeographical region should be adopted.

(11) Knowledge of the existence and distribution of the natural habitat types and species is constantly evolving as a result of the surveillance undertaken in accordance with Article 11 of Directive 92/43/EEC. Therefore, the evaluation and selection of sites at Union level was carried out using the best available information at the time.

(12) Certain Member States have not proposed sufficient sites to meet the requirements of Directive 92/43/EEC for certain habitat types and species. For those habitat types and species it can therefore not be concluded that the Natura 2000 network is complete. Taking into account the delay in receiving the information and reaching agreement with the Member States, it is necessary to adopt an updated list of sites which will need to be reviewed in accordance with Article 4 of Directive 92/43/EEC.

(13) Given that knowledge of the existence and distribution of some of the natural habitat types listed in Annex I and some of the species listed in Annex II to Directive 92/43/EEC remains incomplete, it should not be concluded that the Natura 2000 network is either complete or incomplete. The list should be reviewed, if necessary, in accordance with Article 4 of Directive 92/43/EEC.

(14) In the interests of clarity and transparency, Implementing Decision 2013/27/EU should be repealed.

(15) The measures provided for in this Decision are in accordance with the opinion of the Habitats Committee,

HAS ADOPTED THIS DECISION:

Article 1

The seventh updated list of sites of Community importance for the Boreal biogeographical region in accordance with the third subparagraph of Article 4(2) of Directive 92/43/EEC is set out in the Annex to this Decision.

Article 2

Implementing Decision 2013/27/EU is repealed.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 7 November 2013.

For the Commission
Janez POTOČNIK
Member of the Commission

[1] OJ L 198, 30.7.2011, p. 39.

ANNEX

Seventh updated list of sites of Community importance for the Boreal biogeographical region

Each site of Community importance (SCI) is identified by the information supplied in the Natura 2000 format, including the corresponding map. This information has been transmitted by the competent national authorities in accordance with the second subparagraph of Article 4(1) of Directive 92/43/EEC.

The table below gives the following information:

A: SCI code comprising nine characters, the first two being the ISO code for the Member State;

B: name of SCI;

C: * = presence on the SCI of at least one priority natural habitat type and/or species within the meaning of Article 1 of Directive 92/43/EEC;

D: area of SCI in hectares or length of SCI in km;

E: geographical coordinates of SCI (latitude and longitude) in decimal degrees.

All the information given in the Union list below is based on the data proposed, transmitted and validated by Estonia, Latvia, Lithuania, Finland and Sweden.
