In Protocol 4 to the EEA Agreement, the following is added after Article 40:

*'Article 41***Transitional arrangements regarding the accession of the Republic of Croatia to the European Union**

1. Proof of origin properly issued by an EFTA State or the Republic of Croatia or made out in the framework of a preferential agreement applied between the EFTA States and the Republic of Croatia shall be considered being proof of EEA preferential origin, provided that:

- (a) the proof of origin and the transport documents were issued or made out no later than the day before the date of accession of the Republic of Croatia to the European Union; and
- (b) the proof of origin is submitted to the customs authorities within the period of four months from the date of accession of the Republic of Croatia to the European Union.

Where goods were declared for importation from an EFTA State or the Republic of Croatia in, respectively, the Republic of Croatia or an EFTA State prior to the date of accession of the Republic of Croatia to the European Union, under preferential agreements applied between an EFTA State and the Republic of Croatia at that time, proof of origin issued retrospectively under those agreements may also be accepted in the EFTA States or the Republic of Croatia provided that it is submitted to the customs authorities within the period of four months from the date of accession of the Republic of Croatia to the European Union.

2. The EFTA States, on the one hand, and the Republic of Croatia, on the other hand, are authorised to retain the authorisations with which the status of "approved exporters" has been granted in the framework of agreements concluded between the EFTA States, on the one hand, and the Republic of Croatia, on the other hand, provided that the approved exporters apply the rules of origin of this Protocol.

4. The provisions of the Agreement may be applied to goods exported from either the Republic of Croatia to the EFTA States or from the EFTA States to the Republic of Croatia, which comply with the provisions of this Protocol and that on the date of accession of the Republic of Croatia to the European Union are either in transit or in temporary storage in a customs warehouse or in a free zone in an EFTA State or in the Republic of Croatia.

DECISION OF THE EEA JOINT COMMITTEE**No 71/2015****of 20 March 2015****amending Protocol 4 (rules of origin) to the EEA Agreement [2016/754]**

THE EEA JOINT COMMITTEE,

Having regard to the Agreement on the European Economic Area ('the EEA Agreement'), and in particular Article 98 thereof,

As a consequence, in application of its Article 10(3), the Convention entered into force in relation to the EU and Iceland on 1 May 2012 and in relation to Norway and Liechtenstein on 1 January 2012.
- (5) The Convention includes the participants in the Stabilisation and Association Process in the pan-Euro-Mediterranean zone of cumulation of origin.
- (6) Where the transition towards the Convention is not simultaneous for all Contracting Parties thereto within the pan-Euro Mediterranean cumulation zone, it should not lead to a situation which is less favourable than what would have been the case under the previous version of Protocol 4.
- (7) Article 6 of the Convention provides that each Contracting Party shall take appropriate measures to ensure that the Convention is effectively applied. As a consequence, in the Agreement, Protocol 4 concerning the rules of origin should be replaced by a new Protocol which is aligned to the Convention.

- (a) products wholly obtained in the EEA within the meaning of Article 4;
- (b) products obtained in the EEA incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in the EEA within the meaning of Article 5.

For this purpose, the territories of the Contracting Parties to which the Agreement applies, shall be considered as a single territory.

2. Notwithstanding paragraph 1, the territory of the Principality of Liechtenstein shall be excluded from that of the EEA, for the purpose of determining the origin of the products referred to in Tables I and II of Protocol 3 and such products shall be considered to be originating in the EEA only if they have been either wholly obtained or sufficiently worked or processed in the territories of the other Contracting Parties.

Article 3

Diagonal cumulation of origin

1. Without prejudice to the provisions of Article 2, products shall be considered as originating in the EEA if they are obtained there, incorporating materials originating in Switzerland (including Liechtenstein) ⁽¹⁾, Iceland, Norway, the Faroe Islands, Turkey, the European Union or in any participant in the European Union's Stabilisation and Association Process ⁽²⁾, provided that the working or processing carried out in the EEA goes beyond the operations referred to in Article 6. It shall not be necessary for such materials to have undergone sufficient working or processing.

2. Without prejudice to the provisions of Article 2, products shall be considered as originating in the EEA if they are obtained there, incorporating materials originating in any country which is a participant in the Euro-Mediterranean partnership, based on the Barcelona Declaration adopted at the Euro-Mediterranean Conference held on 27 and 28 November 1995, other than Turkey ⁽³⁾, provided that the working or processing carried out in the EEA goes beyond the operations referred to in Article 6. It shall not be necessary for such materials to have undergone sufficient working or processing.

3. Where the working or processing carried out in the EEA does not go beyond the operations referred to in Article 6, the product obtained shall be considered as originating in the EEA only where the value added there is greater than the value of the materials used originating in any one of the countries referred to in paragraphs 1 and 2. If this is not so, the product obtained shall be considered as originating in the country which accounts for the highest value of originating materials used in the manufacture in the EEA.

4. Products, originating in one of the countries referred to in paragraphs 1 and 2, which do not undergo any working or processing in the EEA shall retain their origin if exported into one of these countries.

5. The cumulation provided for in this Article may be applied only provided that:

- (a) a preferential trade agreement in accordance with Article XXIV of the General Agreement on Tariffs and Trade (GATT) is applicable between the countries involved in the acquisition of the originating status and the country of destination;
 - (b) materials and products have acquired originating status by the application of rules of origin identical to those given in this Protocol;
- and
- (c) notices indicating the fulfilment of the necessary requirements to apply cumulation have been published in the *Official Journal of the European Union* (C series) and in the other Contracting Parties according to their own procedures.

The cumulation provided for in this Article shall apply from the date indicated in the notice published in the *Official Journal of the European Union* (C series).

The European Union shall provide the other Contracting Parties, through the European Commission, with details of the Agreements, including their dates of entry into force, and their corresponding rules of origin, which are applied with the other countries referred to in paragraphs 1 and 2.

*Article 5***Sufficiently worked or processed products**

1. For the purposes of Article 2, products which are not wholly obtained shall be considered to be sufficiently worked or processed when the conditions set out in the list in Annex II are fulfilled.

The conditions referred to above indicate, for all products covered by the Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. It follows that if a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list in Annex II, should not be used in the manufacture of a product may nevertheless be used, provided that:

- (a) their total value does not exceed 10 % of the ex-works price of the product;

Article 7

Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonised System.

It follows that:

- (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonised System in a single heading, the whole constitutes the unit of qualification;
 - (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonised System, each product must be taken individually when applying the provisions of this Protocol.
2. Where, under General Rule 5 of the Harmonised System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 8

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 9

Sets

Sets, as defined in General Rule 3 of the Harmonised System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 % of the ex-works price of the set.

Article 10

Neutral elements

In order to determine whether a product is an originating product, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools;
- (d) goods which neither enter into the final composition of the product nor are intended to do so.

TITLE III

2. Except as provided for in Article 3, where originating goods exported from the EEA to another country return, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:

(a) the returning goods are the same as those exported;

and

(b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside the EEA on materials exported from the EEA and subsequently reimported there, provided:

(a) the said materials are wholly obtained in the EEA or have undergone working or processing beyond the operations referred to in Article 6 prior to being exported;

and

(b) it can be demonstrated to the satisfaction of the customs authorities that:

(i) the reimported goods have been obtained by working or processing the exported materials;

and

(ii) the total added value acquired outside the EEA by applying the provisions of this Article does not exceed 10 % of the ex-works price of the end product for which originating status is claimed.

4. For the purposes of paragraph 3, the conditions for acquiring originating status set out in Title II shall not apply to working or processing done outside the EEA. However, where, in the list in Annex II, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the party concerned, taken together with the total added value acquired outside the EEA by applying the provisions of this Article, shall not exceed the stated percentage.

5. For the purposes of applying the provisions of paragraphs 3 and 4, "total added value" shall be taken to mean all costs arising outside the EEA, including the value of the materials incorporated there.

6. The provisions of paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Annex II or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 5(2) is applied.

7. The provisions of paragraphs 3 and 4 shall not apply to products of Chapters 50 to 63 of the Harmonised System.

8. Any working or processing of the kind covered by this Article and done outside the EEA shall be done under the outward processing arrangements, or similar arrangements.

Article 12

Direct transport

1. The preferential treatment provided for under the Agreement applies only to products, satisfying the requirements of this Protocol, which are transported directly within the EEA or through the territories of the countries referred to in Article 3 with which cumulation is applicable. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.

Originating products may be transported by pipeline across territory other than that of the EEA.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:

- (a) a single transport document covering the passage from the exporting country through the country of transit; or
- (b) a certificate issued by the customs authorities of the country of transit:
 - (i) giving an exact description of the products;

Article 13

1. Originating products, sent for exhibition in a country other than those referred to in Article 3 with which cumulation is applicable and sold after the exhibition for importation in the EEA shall benefit on importation from the provisions of the Agreement provided it is shown to the satisfaction of the customs authorities that:

- (a) an exporter has consigned these products from one of the Contracting Parties to the country in which the exhibition is held and has exhibited them there;
 - (b) the products have been sold or otherwise disposed of by that exporter to a person in another Contracting Party;
 - (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition;

Article 14

Prohibition of drawback of, or exemption from, customs duties

1. Non-originating materials used in the manufacture of products originating in the EEA or in one of the countries referred to in Article 3 for which a proof of origin is issued or made out in accordance with the provisions of Title V shall not be subject in any of the Contracting Parties to drawback of, or exemption from, customs duties of whatever kind.

2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in any of the Contracting Parties to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.
3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.
4. The provisions of paragraphs 1 to 3 shall also apply in respect of packaging within the meaning of Article 7(2), accessories, spare parts and tools within the meaning of Article 8 and products in a set within the meaning of Article 9 when such items are non-originating.

2. The method must be able to ensure that, for a specific reference period, the number of products obtained which could be considered as “originating” is the same as that which would have been obtained had there been physical segregation of the stocks.
3. The customs authorities may make the grant of authorisation referred to in paragraph 1, subject to any conditions deemed appropriate.
4. The method shall be applied and on the application thereof shall be recorded on the basis of the general accounting principles applicable in the country where the product was manufactured.

Article 23

Validity of proof of origin

1. A proof of origin shall be valid for four months from the date of issue in the exporting country and shall be submitted within the said period to the customs authorities of the importing country.

2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.

3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 24

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.

Article 25

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonised System falling within sections XVI and XVII or headings 7308 and 9406 of the Harmonised System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 26

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on customs declaration CN22/CN23 or on a sheet of paper annexed to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.
3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

Article 27

Supplier's declaration

1. When a movement certificate EUR.1 is issued, or an origin declaration is made out, in one of the Contracting Parties for originating products, in the manufacture of which goods coming from other Contracting Parties which have undergone working or processing in the EEA without having obtained preferential originating status have been used, account shall be taken of the supplier's declaration given for these goods in accordance with this Article.
2. The supplier's declaration referred to in paragraph 1 shall serve as evidence of the working or processing undergone in the EEA by the goods concerned for the purpose of determining whether the products in the manufacture of which these goods are used, may be considered as products originating in the EEA and fulfil the other requirements of this Protocol.

3. A separate supplier's declaration shall, except in cases provided in paragraph 4, be made out by the supplier for each consignment of goods in the form prescribed in Annex V on a sheet of paper annexed to the invoice, the delivery note or any other commercial document describing the goods concerned in sufficient detail to enable them to be identified.

4. Where a supplier regularly supplies a particular customer with goods for which the working or processing undergone in the EEA is expected to remain constant for considerable periods of time, he may provide a single supplier's declaration to cover subsequent consignments of those goods, hereinafter referred to as a "long-term supplier's declaration".

A long-term supplier's declaration may normally be valid for a period of up to one year from the date of making out the declaration. The customs authorities of the country where the declaration is made out lay down the conditions under which longer periods may be used.

The long term supplier's declaration shall be made out by the supplier in the form prescribed in Annex VI and shall describe the goods concerned in sufficient detail to enable them to be identified. It shall be provided to the customer concerned before he is supplied with the first consignment of goods covered by this declaration or together with his first consignment.

The supplier shall inform his customer immediately if the long-term supplier's declaration is no longer applicable to the goods supplied.

5. The supplier's declaration referred to in paragraphs 3 and 4 shall be typed or printed using one of the languages in which the Agreement is drawn up, in accordance with the provisions of the national law of the country where it is made out, and shall bear the original signature of the supplier in manuscript. The declaration may also be hand-written; in such a case, it shall be written in ink in printed characters.

6. The supplier making out a declaration must be prepared to submit at any time, at the request of the customs authorities of the country where the declaration is made out, all appropriate documents proving that the information given on this declaration is correct.

Article 28

Supporting documents

The documents referred to in Articles 16(3), 21(5) and 27(6) used for the purpose of proving that products covered by a movement certificate EUR.1 or EUR-MED or an origin declaration or origin declaration EUR-MED may be considered as products originating in the EEA or in one of the countries referred to in Article 3 and fulfil the other requirements of this Protocol and that the information given in a supplier's declaration is correct, may consist, inter alia, of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal book keeping;
- (b) documents proving the originating status of materials used, issued or made out in the Contracting Party where these documents are used in accordance with national law;
- (c) documents proving the working or processing of materials in the EEA, issued or made out in the Contracting Party where these documents are used in accordance with national law;
- (d) movement certificates EUR.1 or EUR-MED or origin declarations or origin declarations EUR-MED proving the originating status of materials used, issued or made out in the Contracting Parties in accordance with this Protocol, or in one of the countries referred to in Article 3, in accordance with rules of origin which are identical to the rules in this Protocol.
- (e) supplier's declarations proving the working or processing undergone in the EEA by materials used, made out in the Contracting Parties in accordance with this Protocol;
- (f) appropriate evidence concerning working or processing undergone outside the EEA by application of Article 11, proving that the requirements of that Article have been satisfied.

2. The exporter making out an origin declaration or origin declaration EUR-MED shall keep for at least three years a copy of this origin declaration as well as the documents referred to in Article 21(5).
3. The supplier making out a supplier's declaration shall keep for at least three years copies of the declaration and of the invoice, delivery notes or other commercial document to which this declaration is annexed as well as the documents referred to in Article 27(6).

The supplier making out a long-term supplier's declaration shall keep for at least three years copies of the declaration and of all the invoices, delivery notes or other commercial documents concerning goods covered by that declaration sent to the customer concerned, as well as the documents referred to in Article 27(6). This period shall begin from the date of expiry of validity of the long-term supplier's declaration.

4. The customs authorities of the exporting country issuing a movement certificate EUR.1 or EUR-MED shall keep, for at least three years, the application form referred to in Article 16(2).
5. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and EUR-MED and the origin declarations and origin declarations EUR-MED submitted to them.

*Article 30***Discrepancies and formal errors**

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

*Article 31***Amounts expressed in euro**

1. For the application of the provisions of Article 21(1)(b) and Article 26(3) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the Member States of the European Union and of the countries referred to in Article 3 equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.
2. A consignment shall benefit from the provisions of Article 21(1)(b) or Article 26(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.
3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October each year. The amounts shall be communicated to the European Commission by 15 October and shall apply from 1 January the following year. The European Commission shall notify all countries concerned of the relevant amounts.

4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 %. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 % cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion were to result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the EEA Joint Committee at the request of the Contracting Parties. When carrying out this review, the EEA Joint Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

TITLE VI

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 32

Administrative cooperation

1. The customs authorities of the Contracting Parties shall provide each other, through the European Commission, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and EUR-MED, and with the addresses of the customs authorities responsible for verifying those certificates, origin declarations and origin declarations EUR-MED or suppliers' declarations.

2. In order to ensure the proper application of this Protocol, the Contracting Parties shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1 and EUR-MED, the origin declarations and the origin declarations EUR-MED or the suppliers' declarations and the correctness of the information given in these documents.

Article 33

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.

2. For the purposes of implementing paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 or EUR-MED and the invoice, if it has been submitted, the origin declaration or the origin declaration EUR-MED, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. These results shall indicate clearly whether the documents are authentic and whether the products concerned may be considered as products originating in the EEA or in one of the countries referred to in Article 3 and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within 10 months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

Article 34

Verification of supplier's declarations

1. Subsequent verifications of suppliers' declarations or long-term suppliers' declarations may be carried out at random or whenever the customs authorities of the country, where such declarations have been taken into account to issue a movement certificate EUR.1 or EUR-MED or to make out an origin declaration or origin declaration EUR-MED, have reasonable doubts as to the authenticity of the document or the correctness of the information given in this document.

2. For the purposes of implementing paragraph 1, the customs authorities of the country referred to in paragraph 1 shall return the supplier's declaration and invoice(s), delivery note(s) or other commercial documents concerning goods covered by this declaration, to the customs authorities of the country where the declaration was made out, giving, where appropriate, the reasons of substance or form for the request for verification.

They shall forward, in support of the request for subsequent verification, any documents and information that have been obtained suggesting that the information given in the supplier's declaration is incorrect.

3. The verification shall be carried out by the customs authorities of the country where the supplier's declaration was made out. For this purpose, they shall have the right to call for any evidence and carry out any inspection of the supplier's accounts or any other check which they consider appropriate.

4. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. These results shall indicate clearly whether the information given in the supplier's declaration is correct and make it possible for them to determine whether and to what extent this supplier's declaration could be taken into account for issuing a movement certificate EUR.1 or EUR-MED or for making out an origin declaration or origin declaration EUR-MED.

Article 35

Dispute settlement

Where disputes arise in relation to the verification procedures of Articles 33 and 34 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the EEA Joint Committee.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall take place under the legislation of that country.

Article 36

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

*Article 37***Free zones**

1. The Contracting Parties shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.
2. By way of derogation from paragraph 1, when products originating in the EEA are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 or EUR-MED at the exporter's request, if the treatment or processing undergone complies with the provisions of this Protocol.

ANNEX V

Supplier's declaration

The supplier's declaration, the text of which is given below, must be made out in accordance with the footnotes. However, the footnotes do not have to be reproduced.

SUPPLIER'S DECLARATION

for goods which have undergone working or processing in the EEA without having obtained preferential origin status

I, the undersigned, supplier of the goods covered by the annexed document, declare that:

1. The following materials which do not originate in the EEA have been used in the EEA to produce these goods:

Description of the goods supplied ⁽¹⁾	Description of non-originating materials used	Heading of non-originating materials used ⁽²⁾	Value of non-originating materials used ⁽²⁾ ⁽³⁾
.....			
.....			
.....			
Total			

2. All the other materials used in the EEA to produce these goods originate in the EEA.
3. The following goods have undergone working or processing outside the EEA in accordance with Article 11 of Protocol 4 to the Agreement and have acquired the following total added value there:

Description of the goods supplied	Total added value acquired outside the EEA ⁽⁴⁾
.....	
.....	
.....	
.....	

(Place and date)

(Address and signature of the supplier;
in addition the name of the person signing the
declaration must be indicated in clear script)

- (¹) When the invoice, delivery note or other commercial document to which the declaration is annexed relates to different kinds of goods, or to goods which do not incorporate non-originating materials to the same extent, the supplier must clearly differentiate them.

Example:

The document relates to different models of electric motor of heading 8501 to be used in the manufacture of washing machines of heading 8450. The nature and value of the non-originating materials used in the manufacture of these motors differ from one model to another. The models must therefore be differentiated in the first column and the indications in the other columns must be provided separately for each of the models to make it possible for the manufacturer of washing machines to make a correct assessment of the originating status of his products depending on which model of electrical motor he uses.

- (²) The indications requested in these columns should only be given if they are necessary.

Examples:

The rule for garments of ex Chapter 62 says that non-originating yarn may be used. If a manufacturer of such garments in France uses fabric imported from Norway which has been obtained there by weaving non-originating yarn, it is sufficient for the European Union supplier to describe in his declaration the non-originating material used as yarn, without it being necessary to indicate the heading and value of such yarn.

A producer of iron of heading 7217 who has produced it from non-originating iron bars should indicate in the second column "bars of iron". Where this wire is to be used in the production of a machine, for which the rule contains a limitation for all non-originating materials used to a certain percentage value, it is necessary to indicate in the third column the value of non-originating bars.

- (³) "Value of materials" means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the EEA. The exact value for each non-originating material used must be given per unit of the goods specified in the first column.
- (⁴) "Total added value" shall mean all costs accumulated outside the EEA, including the value of all materials added there. The exact total added value acquired outside the EEA must be given per unit of the goods specified in the first column.
-

ANNEX VI

Long-term supplier's declaration

The long-term supplier's declaration, the text of which is given below, must be made out in accordance with the footnotes. However, the footnotes do not have to be reproduced.

LONG-TERM SUPPLIER'S DECLARATION

for goods which have undergone working or processing in the EEA without having obtained preferential origin status

I, the undersigned, supplier of the goods covered by this document, which are regularly supplied to (1) declare that:

1. The following materials which do not originate in the EEA have been used in the EEA to produce these goods:

Description of the goods supplied (2)	Description of non-originating materials used	Heading of non-originating materials used (3)	Value of non-originating materials used (3) (4)
.....			
.....			
.....			
Total			

2. All the other materials used in the EEA to produce these goods originate in the EEA;

3. The following goods have undergone working or processing outside the EEA in accordance with Article 11 of Protocol 4 to the Agreement and have acquired the following total added value there:

Description of the goods supplied	Total added value acquired outside the EEA (5)
.....	
.....	
.....	

This declaration is valid for all subsequent consignments of these goods dispatched from

to (6)

I undertake to inform (1) immediately if this declaration is no longer valid.

.....
(Place and date)

.....
.....
(Address and signature of the supplier;
in addition the name of the person signing
the declaration must be indicated in clear script)

- (¹) Name and address of the customer.
- (²) When the invoice, delivery note or other commercial document to which the declaration is annexed relates to different kinds of goods, or to goods which do not incorporate non-originating materials to the same extent, the supplier must clearly differentiate them.
Example:
The document relates to different models of electric motor of heading 8501 to be used in the manufacture of washing machines of heading 8450. The nature and value of the non-originating materials used in the manufacture of these motors differ from one model to another. - (⁶) Insert dates. The period of validity of the long term supplier's declaration should not normally exceed 12 months, subject to the conditions laid down by the customs authorities of the country where the long term supplier's declaration is made out.

JOINT DECLARATION

concerning the acceptance of proofs of origin issued within the framework of the agreements referred to in Article 3 of Protocol 4 for products originating in the European Union, Iceland or Norway

1. Proofs of origin issued within the framework of the agreements referred to in Article 3 of Protocol 4 for products originating in the European Union, Iceland or Norway shall be accepted for the purpose of granting preferential tariff treatment provided for by the EEA Agreement.
2. Such products shall be considered as materials originating in the EEA when incorporated into a product obtained there. It shall not be necessary for such materials to have undergone sufficient working or processing.
3. Furthermore, in so far as such products are covered by the EEA Agreement they shall be considered as originating in the EEA when re-exported to another EEA Contracting Party.

JOINT DECLARATION

concerning the Principality of Andorra

1. Products originating in the Principality of Andorra falling within Chapters 25 to 97 of the Harmonised System shall be accepted by Iceland, Liechtenstein and Norway as originating in the European Union within the meaning of the Agreement.
2. Protocol 4 shall apply, *mutatis mutandis*, for the purpose of defining the originating status of the abovementioned products.

JOINT DECLARATION**concerning the Republic of San Marino**

1. Products originating in the Republic of San Marino shall be accepted by Iceland, Liechtenstein and Norway as originating in the European Union within the meaning of the Agreement.
2. Protocol 4 shall apply, *mutatis mutandis* for the purpose of defining the originating status of the abovementioned products.

JOINT DECLARATION**concerning the withdrawal of a Contracting Party from the Regional Convention on pan-Euro-Mediterranean preferential rules of origin**

1. Should a Contracting Party to the EEA give notice in writing to the depositary of the Regional Convention on pan-Euro-Mediterranean preferential rules of origin of their intention to withdraw from the Convention according to its Article 9, the withdrawing Contracting Party shall immediately enter into negotiations on rules of origin with all other EEA Contracting Parties for the purpose of implementing this Agreement.
2. Until the entry into force of such newly negotiated rules of origin, the rules of origin contained in Appendix I and, where appropriate, the relevant provisions of Appendix II to the Regional Convention on pan-Euro-Mediterranean preferential rules of origin, applicable at the moment of withdrawal, shall apply *mutatis mutandis* between the withdrawing Contracting Party and the other EEA Contracting Parties. However, as of the moment of withdrawal, the rules of origin contained in Appendix I and, where appropriate, the relevant provisions of Appendix II to the Convention shall be construed so as to allow bilateral cumulation between the withdrawing Contracting Party and the other EEA Contracting Parties only.
