COMMISSION IMPLEMENTING REGULATION (EU) 2016/1766

of 26 September 2016

entering a name in the register of protected designations of origin and protected geographical indications [Korčulansko maslinovo ulje (PDO)]

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1151/2012 of the European Parliament and of the Council of 21 November 2012 on quality schemes for agricultural products and foodstuffs ⁽¹⁾, and in particular Article 52(2) thereof,

Whereas:

- (1) Pursuant to Article 50(2)(a) of Regulation (EU) No 1151/2012, Croatia's application to register the name 'Korčulansko maslinovo ulje' was published in the *Official Journal of the European Union* ⁽²⁾.
- (2) As no statement of opposition under Article 51 of Regulation (EU) No 1151/2012 has been received by the Commission, the name 'Korčulansko maslinovo ulje' should therefore be entered in the register,

HAS ADOPTED THIS REGULATION:

Article 1

The name 'Korčulansko maslinovo ulje' (PDO) is hereby entered in the register.

The name specified in the first paragraph denotes a product in Class 1.5. Oils and fats (butter, margarine, oil, etc.), as listed in Annex XI to Commission Implementing Regulation (EU) No 668/2014 ⁽³⁾.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

COMMISSION IMPLEMENTING REGULATION (EU) 2016/1767**of 27 September 2016****entering a name in the register of protected designations of origin and protected geographical indications (Paška janjetina (PDO))**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1151/2012 of the European Parliament and of the Council of 21 November 2012 on quality schemes for agricultural products and foodstuffs ⁽¹⁾, and in particular Article 52(2) thereof,

Whereas:

- (1) Pursuant to Article 50(2)(a) of Regulation (EU) No 1151/2012, Croatia's application to register the name 'Paška janjetina' was published in the *Official Journal of the European Union* ⁽²⁾.
- (2) As no statement of opposition under Article 51 of Regulation (EU) No 1151/2012 has been received by the Commission, the name 'Paška janjetina' should therefore be entered in the register,

HAS ADOPTED THIS REGULATION:

Article 1

The name 'Paška janjetina' (PDO) is hereby entered in the register.

The name specified in the first paragraph denotes a product in Class 1.1. Fresh meat (and offal), as listed in Annex XI to Commission Implementing Regulation (EU) No 668/2014 ⁽³⁾.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION IMPLEMENTING REGULATION (EU) 2016/1768**of 4 October 2016****concerning the authorisation of guanidinoacetic acid as a feed additive for chickens for fattening, weaned piglets and pigs for fattening and repealing Commission Regulation (EC) No 904/2009****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition ⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such authorisation.
- (2) Guanidinoacetic acid was authorised for 10 years for chickens for fattening by Commission Regulation (EC) No 904/2009 ⁽²⁾.
- (3) In accordance with Article 7 of Regulation (EC) No 1831/2003 an application was submitted for the authorisation of guanidinoacetic acid as a feed additive. That application was accompanied by the particulars and documents required under Article 7(3) of Regulation (EC) No 1831/2003.
- (4) That application concerns the authorisation of guanidinoacetic acid as a feed additive for chickens for fattening, chickens reared for breeding and pigs to be classified in the additive category 'nutritional additives'.
- (5) The European Food Safety Authority ('the Authority') concluded in its opinion of 27 January 2016 ⁽³⁾ that, under the proposed conditions of use, guanidinoacetic acid does not have an adverse effect on animal health, consumer health or the environment and that it is considered to be a source of creatine and may therefore substitute dietary creatine. The Authority recommended protective measures are taken to avoid inhalation by the users. The Authority stated that maximum safe levels were derived under the assumption that the feed contains sufficient amounts of methyl donors. The Authority does not consider that there is a need for specific requirements of post-market monitoring. It also verified the report on the method of analysis of the feed additive in feed submitted by the Reference Laboratory set up by Regulation (EC) No 1831/2003.
- (6) The assessment of the substance concerned shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of that substance should be authorised as specified in the Annex to this Regulation.
- (7) As a new authorisation is granted in accordance with Regulation (EC) No 1831/2003, Regulation (EC) No 904/2009 should be repealed.
- (8) Since safety reasons do not require the immediate application of the modifications to the conditions of authorisation, it is appropriate to allow a transitional period for the disposal of existing stocks of the additive, pre-mixtures and compound feed containing it, as authorised by Regulation (EC) No 904/2009.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

⁽³⁾ EFSA Journal 2016; 14(2):4394.

HAS ADOPTED THIS REGULATION:

Article 1

The substance specified in the Annex, belonging to the additive category 'nutritional additives' and to the functional group 'amino acids, their salts and analogues', is authorised as an additive in animal nutrition subject to the conditions laid down in that Annex.

Article 2

Regulation (EC) No 904/2009 is repealed.

Article 3

1. The substance specified in the Annex and premixtures containing that substance, which are produced and labelled before 25 April 2017 in accordance with the rules applicable before 25 October 2016 may continue to be placed on the market and used until the existing stocks are exhausted.
2. Feed materials and compound feed containing the substance referred to in paragraph 1 may be placed on the market until 25 October 2017 in accordance with the rules applicable before 25 October 2016 and used until the existing stocks are exhausted.

Article 4

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 4 October 2016.

COMMISSION IMPLEMENTING REGULATION (EU) 2016/1769**of 4 October 2016****establishing the standard import values for determining the entry price of certain fruit and vegetables**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 ⁽¹⁾,

Having regard to Commission Implementing Regulation (EU) No 543/2011 of 7 June 2011 laying down detailed rules for the application of Council Regulation (EC) No 1234/2007 in respect of the fruit and vegetables and processed fruit and vegetables sectors ⁽²⁾, and in particular Article 136(1) thereof,

Whereas:

- (1) Implementing Regulation (EU) No 543/2011 lays down, pursuant to the outcome of the Uruguay Round multilateral trade negotiations, the criteria whereby the Commission fixes the standard values for imports from third countries, in respect of the products and periods stipulated in Annex XVI, Part A thereto.
- (2) The standard import value is calculated each working day, in accordance with Article 136(1) of Implementing Regulation (EU) No 543/2011, taking into account variable daily data. Therefore this Regulation should enter into force on the day of its publication in the *Official Journal of the European Union*,

HAS ADOPTED THIS REGULATION:

Article 1

The standard import values referred to in Article 136 of Implementing Regulation (EU) No 543/2011 are fixed in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market ⁽¹⁾, and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market ⁽²⁾, and in particular Article 10(4) thereof,

Whereas:

- (1) African swine fever is an infectious viral disease affecting domestic and feral pig populations and can have a severe impact on the profitability of pig farming causing disturbance to trade within the Union and exports to third countries.
- (2) In the event of an outbreak of African swine fever, there is a risk that the disease agent may spread to other pig holdings and to feral pigs. As a result, it may spread from one Member State to another Member State and to third countries through trade in live pigs or their products.
- (3) Council Directive 2002/60/EC ⁽³⁾ lays down minimum measures to be applied within the Union for the control of African swine fever. Article 9 of Directive 2002/60/EC provides for the establishment of protection and surveillance zones in the event of outbreaks of that disease where the measures laid down in Articles 10 and 11 of that Directive are to apply.
- (4) Poland has informed the Commission of the current African swine fever situation on its territory, and in accordance with Article 9 of Directive 2002/60/EC, it has established protection and surveillance zones where the measures referred to in Articles 10 and 11 of that Directive are applied.
- (5) In order to prevent any unnecessary disturbance to trade within the Union and to avoid unjustified barriers to trade being imposed by third countries, it is necessary to describe at Union level the areas established as protection and surveillance zones for African swine fever in accordance with Directive 2002/60/EC in Poland in collaboration with that Member State.
- (6) In August 2016, one outbreak occurred in domestic pigs in the powiat moniecki in Poland. Given that Poland provides preliminary evidence that this outbreak is linked to human activity and that there are indications that

⁽¹⁾ OJ L 395, 30.12.1989, p. 13.

⁽²⁾ OJ L 224, 18.8.1990, p. 29.

⁽³⁾ Council Directive 2002/60/EC of 27 June 2002 laying down specific provisions for the control of African swine fever and amending Directive 92/119/EEC as regards Teschen disease and African swine fever (OJ L 192, 20.7.2002, p. 27).

African swine fever is not circulating in the feral pig population in the areas concerned, specific measures in addition to those laid down by Commission Implementing Decision 2014/709/EU ⁽¹⁾ are required, taking into account that this is the 15th outbreak of this disease in pigs this year and that these outbreaks occurred in different areas of Poland which were already under restriction.

- (7) In order to adequately respond to this situation in a precautionary and efficient manner, it is important to lay down specific measures restricting the movement of animals and their products in the areas described in the Annex to this Decision. These measures are justified because of the typology of outbreaks reported in domestic pigs and their underlying causes.
- (8) Given the relatively large distances between the most recent outbreaks which are provisionally ascribed by Poland to the human factor as well as recent epidemiological data and in order to prevent further outbreaks, it is now necessary and proportionate to cover significantly larger regions.
- (9) The measures laid down in this Decision should consist in the application of the measures provided for by Directive 2002/60/EC, in particular with respect to the strict limitations of the movement and transport of pigs as provided for by Articles 10 and 11 of that Directive in areas as described in the Annex to this Decision.
- (10) Accordingly, the areas identified as protection and surveillance zones in Poland should be set out in the Annex to this Decision and the duration of that regionalisation fixed.
- (11) Commission Implementing Decisions (EU) 2016/1406 ⁽²⁾ and (EU) 2016/1452 ⁽³⁾ set certain protective measures relating to African swine fever in Poland. Since their adoption the epidemiological situation of this disease has changed and the measures need to be adapted. For reasons of clarity, Implementing Decisions (EU) 2016/1406 and (EU) 2016/1452 should therefore be repealed and replaced by this Decision.
- (12) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

Poland shall ensure that the protection and surveillance zones established in accordance with Article 9 of Directive 2002/60/EC comprise at least the areas listed as the protection and surveillance zones in the Annex to this Decision.

Article 2

This Decision shall apply until 7 October 2016.

Article 3

Implementing Decisions (EU) 2016/1406 and (EU) 2016/1452 are repealed.

⁽¹⁾ Commission Implementing Decision 2014/709/EU of 9 October 2014 concerning animal health control measures relating to African swine fever in certain Member States and repealing Implementing Decision 2014/178/EU (OJ L 295, 11.10.2014, p. 63).

⁽²⁾ Commission Implementing Decision (EU) 2016/1406 of 22 August 2016 concerning certain protective measures relating to African swine fever in Poland and repealing Implementing Decision (EU) 2016/1367 (OJ L 228, 23.8.2016, p. 46).

⁽³⁾ Commission Implementing Decision (EU) 2016/1452 of 2 September 2016 concerning certain interim protective measures relating to African swine fever in Poland (OJ L 237, 3.9.2016, p. 12).

Article 4

This Decision is addressed to the Republic of Poland.

COMMISSION IMPLEMENTING DECISION (EU) 2016/1771**of 30 September 2016****amending the Annex to Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States, as regards the entries for Lithuania and Poland***(notified under document C(2016) 6103)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market ⁽¹⁾, and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market ⁽²⁾, and in particular Article 10(4) thereof,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption ⁽³⁾, and in particular Article 4(3) thereof,

Whereas:

- (1) Commission Implementing Decision 2014/709/EU ⁽⁴⁾ lays down animal health control measures in relation to African swine fever in certain Member States. The Annex to that Implementing Decision demarcates and lists certain areas of those Member States in Parts I, II, III and IV thereof differentiated by the level of risk based on the epidemiological situation. That list includes certain areas of Poland.
- (2) African swine fever has never been reported in the most northern areas in Poland currently listed in Part II of the Annex to Implementing Decision 2014/709/EU.
- (3) The absence of any outbreak in the most northern areas in Poland needs to be taken into account and Part II of the Annex to Implementing Decision 2014/709/EU should be reviewed. Accordingly, certain areas of Poland currently listed in that Part II should now be listed in Part I of that Annex.
- (4) In September 2016, one outbreak of African swine fever in domestic pigs occurred in the rajono savivaldybė of Kėdainiai in Lithuania in an area currently listed in Part II of the Annex to Implementing Decision 2014/709/EU. The occurrence of this outbreak, together with the recent change in the epidemiological situation constitutes an increase in the level of risk that needs to be taken into account. Accordingly, certain areas of Lithuania listed in Part II of the Annex to Implementing Decision 2014/709/EU should now be listed in Part III of that Annex.
- (5) The evolution of the current epidemiological situation of African swine fever in the affected feral pig populations in the Union should be taken into account in the assessment of the animal health risk posed by that situation as regards that disease in Lithuania and Poland. In order to focus the animal health control measures provided for in Implementing Decision 2014/709/EU and to prevent the further spread of African swine fever, as well as to prevent any unnecessary disturbance to trade within the Union and to avoid unjustified barriers to trade by third countries, the Union list of areas subject to the animal health control measures set out in the Annex to that Implementing Decision should be amended to take into account the changes in the current epidemiological situation as regards that disease in Lithuania and Poland.

⁽¹⁾ OJ L 395, 30.12.1989, p. 13.

⁽²⁾ OJ L 224, 18.8.1990, p. 29.

⁽³⁾ OJ L 18, 23.1.2003, p. 11.

⁽⁴⁾ Commission Implementing Decision 2014/709/EU of 9 October 2014 concerning animal health control measures relating to African swine fever in certain Member States and repealing Implementing Decision 2014/178/EU (OJ L 295, 11.10.2014, p. 63).

- (6) The Annex to Implementing Decision 2014/709/EU should therefore be amended accordingly.
- (7) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision 2014/709/EU is replaced by the text set out in the Annex to this Decision.

Article 2

This Decision is addressed to the Member States.
