(Annex VII to the Agreement referred to in Article 99 of the Agreement)

SCHEDULE OF SPECIFIC COMMITMENTS ON SERVICES

PART A

COMMUNITY'S SCHEDULE

Introductory note

1. The specific commitments in this schedule apply only to the territories in which the Treaties establishing the Community are applied and under the conditions laid down in these Treaties. These commitments apply only to the relations between the Community and its Member States on the one hand, and non-Community countries on the other. They do not affect the rights and obligations of Member States arising from Community law.
2. The following abbreviations are used to indicate the Member States:

AT Austria

BE Belgium

3. A glossary of terms used by individual Member States is attached to this schedule.

‘Subsidiary’ of a legal person means a legal person which is effectively controlled by another legal person.

‘Branch’ of a legal person means a place of business not having legal personality which has the appearance of permanency, such as the extension of a parent body, has a management and is materially equipped to negotiate business with third parties so that the latter, although knowing that there will, if necessary, be a legal link with the parent body, the head office of which is abroad, do not have to deal directly with such parent body but may transact business at the place of business constituting the extension.

Modes of supply: (1) Cross-border		(2) Consumption abroad		(3) Commercial presence	(4) Presence of natural persons	
Sector or Sub-sector		Limitations on Market Access		Limitations on National Treatment	Additional Commitments	
I. HORIZONTAL COMMITMENTS						
ALL SECTORS INCLUDED IN THIS SCHEDULE		(3) In all Member States ⁽¹⁾ services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators ⁽²⁾ .		(3) (a) Treatment accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State and having their registered office, central administration or principal place of business within the Community is not extended to branches or agencies established in a Member State by a Chilean company. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a Chilean company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Community law. (b) Treatment less favourable may be accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State which have only their registered office or central administration in the territory of the Community, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States. Formation of Legal Entity (3) RO: The sole administrator or the Chairman of the Board of Administration as well as half of a total number of administrators of a commercial company shall be Romanian citizens unless otherwise stipulated in the company contract or in its statutes. The majority of the commercial company's auditors and their deputies shall be Romanian citizens.		

⁽¹⁾ In the case of Austria, Finland and Sweden no horizontal reservation has been taken for services considered as public utilities.

⁽²⁾ Explanatory Note: Public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical.

Modes of supply: (1) Cross-border		(2) Consumption abroad	(3) Commercial presence	(4) Presence of natural persons
Sector or Sub-sector	Limitations on Market Access	Limitations on National Treatment	Additional Commitments	
		SE: A limited liability company (joint stock company) may be established by one or several founders. A founding party shall either reside within the EEA (European Economic Area) or be an EEA legal entity. A partnership can only be a founding party if each partner resides within the EEA ⁽¹⁾ . Corresponding conditions prevail for establishment of all other types of legal entities.

(2) C Telecommunications services				

Telecommunications services are the transport of electro-magnetic signals - sound, data image and any combinations thereof, excluding broadcasting ⁽³⁾. Therefore, commitments in this schedule do not cover the economic activity consisting of content provision which require telecommunications services for its transport. The provision of that content, transported via a telecommunications service, is subject to the specific commitments undertaken by the Community and its Member States in other relevant sectors.

BG: Measures Applicable to All Sectors in Communication Services:

1. The setting up of public or private telecommunications networks is subject to licensing. All services have to be provided over licensed networks or over leased lines as part of licensed networks. Licences are issued by a Bulgarian authorised body to the applicant personally and cannot be transferred to a third party. Simple resale of telecommunication services is not permitted.
2. The connection to a public network is permitted according to the licence conditions for the public network and depending on technical possibilities. Terminal equipment intended for direct or indirect connection to a public or private telecommunications network can be connected to a network termination point if it is assessed for conformity with essential requirements.
3. Natural and juridical persons exercising statistical activity and setting up information systems are to use concepts, nomenclatures and classifications which are compatible with those established by the National Statistical Institute.

⁽¹⁾ Express delivery services may include, in addition to greater speed and reliability, value added elements such as collection from point of origin, personal delivery to addressee, tracing and tracking, possibility of changing the destination and addressee in transit, confirmation of receipt.

⁽²⁾ Provision of means, including the supply of ad hoc premises as well as transportation by a third party, allowing self-delivery by mutual exchange of postal items between users subscribing to this service. Postal item refers to items handled by any type of commercial operator, whether public or private.

⁽³⁾ Broadcasting is defined as the uninterrupted chain of transmission required for the distribution of tv and radio programme signals to the general public, but does not cover contribution links between operators.

Definitions Concerning Maritime Transport

1. Without prejudice to the scope of activities which may be considered as 'cabotage' under the relevant national legislation, this schedule does not include 'maritime cabotage services', which are assumed to cover transportation of passengers or goods between a port located in a Member State and another port located in the same Member State and traffic originating and terminating in the same port located in a Member State provided that this traffic remains within this Member State's territorial waters.
2. 'Other forms of commercial presence for the supply of international maritime transport services' means the ability of international maritime transport service suppliers of the other Party to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service within which the maritime transport constitutes a substantial element. (This commitment shall not, however, be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:

- (a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
 - (b) the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated services;
 - (c) the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;
 - (d) the provision of business information by any means, including computerised information systems and electronic data interchange (subject to the provisions of this Agreement);
 - (e) the setting up of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency;
 - (f) acting on behalf of the companies, organising the call of the ship or taking over cargoes when required.
3. 'Multimodal transport operators' means the person on whose behalf the bill of lading/multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.

‘Subsidiary’ of a legal person means a legal person which is effectively controlled by another legal person.

‘Branch’ of a legal person means a place of business not having legal personality which has the appearance of permanency, such as the extension of a parent body, has a management and is materially equipped to negotiate business with third parties so that the latter, although knowing that there will if necessary be a legal link with the parent body, the head office of which is abroad, do not have to deal directly with such parent body but may transact business at the place of business constituting the extension.

I. HORIZONTAL COMMITMENTS							
ALL SECTORS INCLUDED IN THIS SCHEDULE							
	(3) In all Member States ⁽¹⁾ services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators ⁽²⁾ .	(3) (a) Treatment accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State and having their registered office, central administration or principal place of business within the Community is not extended to branches or agencies established in a Member State by a Chilean company. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a Chilean company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Community law. (b) Treatment less favourable may be accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State which have only their registered office or central administration in the territory of the Community, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States. Formation of Legal Entity (3) RO: The sole administrator or the Chairman of the Board of Administration as well as half of the total number of administrators of the commercial companies shall be Romanian citizens unless otherwise stipulated in the company contract or in its statutes. The majority of the commercial companies' auditors and their deputies shall be Romanian citizens.					

⁽¹⁾ In the case of Austria, Finland and Sweden no horizontal reservation has been taken for services considered as public utilities.

⁽²⁾ Explanatory Note: Public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical.

With respect to the non-discriminatory measures referred to in subparagraphs 6(a) and (b), the Community shall endeavour not to limit or restrict the present degree of market opportunities nor the benefits already enjoyed by financial service suppliers of Chile as a class in the territory of the Community, provided that this commitment does not result in unfair discrimination against financial service suppliers of the Community.

"Subsidiary" of a legal person means a legal person which is effectively controlled by another legal person.

"Branch" of a legal person means a place of business not having legal personality which has the appearance of permanency, such as the extension of a parent body, has a management and is materially equipped to negotiate business with third parties so that the latter, although knowing that there will if necessary be a legal link with the parent body, the head office of which is abroad, do not have to deal directly with such parent body but may transact business at the place of business constituting the extension.

Sector or subsector	Limitations on national treatment to establishment
1. HORIZONTAL COMMITMENTS	
ALL SECTORS INCLUDED IN THIS SCHEDULE	
	(a) Treatment accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State and having their registered office, central administration or principal place of business within the Community is not extended to branches or agencies established in a Member State by a Chilean company. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a Chilean company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Community law.
	(b) Treatment less favourable may be accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State which have only their registered office or central administration in the territory of the Community, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States.
	Formation of Legal Entity AT: Without prejudice to existing treaties, foreign natural persons may exercise a business on equal terms as Austrian nationals. However, evidence has to be presented to the competent authority that Austrian natural persons are in no way discriminated in the exercise of the relevant business in the foreigner's home country. If this evidence cannot be presented the foreign natural person has to apply formally for equal status with nationals. If the holder of a business permit is not a permanent resident of Austria, the appointment of a professional representative ("gewerberechtlicher Geschäftsführer") permanently residing in Austria is necessary. In order to acquire a business permit, foreign juridical persons or partnerships must set up an establishment and appoint a professional representative permanently residing in Austria. Without prejudice to existing treaties a foreign professional representative has to apply for equal status with nationals.

Sector or subsector	Limitations on national treatment to establishment

Before registering in the Commercial Register, foreign legal persons must set up an establishment in the Czech Republic and appoint a professional representative permanently residing in the Czech Republic.
	MT: Applications by non-residents for the issue, acquisition, sale and redemption of securities not listed on the Malta Stock Exchange in local companies established, or to be established, in Malta have to be cleared by the Registrar of Companies at the Malta Financial Services Authority (MFSA).
