REGULATIONS

COMMISSION REGULATION (EU) 2017/1413**of 3 August 2017****amending Annex IV to Regulation (EC) No 1223/2009 of the European Parliament and of the Council on cosmetic products****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1223/2009 of the European Parliament and of the Council of 30 November 2009 on cosmetic products ⁽¹⁾, and in particular Article 31(1) thereof,

Whereas:

- (1) Zinc oxide is authorised as a colorant in cosmetic products under entry 144 of Annex IV to Regulation (EC) No 1223/2009.
- (2) In its opinion of 18 September 2012 ⁽²⁾, which was revised in 23 September 2014 ⁽³⁾, the Scientific Committee on Consumer Safety (SCCS) concluded that the use of zinc oxide is safe when used as colorant, in its uncoated non-nano form, in cosmetics for dermal application. However, the SCCS also considered that in view of the lung inflammation induced by zinc oxide particles after inhalation, the use of zinc oxide in cosmetic products that may result in exposure of the consumer's lungs to zinc oxide by inhalation was of concern.
- (3) In light of the SCCS opinions, the use of zinc oxide as a colorant, in its uncoated non-nano form, in cosmetic products should be restricted to those applications which may not lead to exposure of the end-user's lungs by inhalation.
- (4) Annex IV to Regulation (EC) No 1223/2009 should therefore be amended accordingly.
- (5) The industry should be allowed a reasonable period of time to make the necessary adjustments to product formulations in view of their placing on the market and for the withdrawal of non-compliant products from the market.
- (6) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Cosmetic Products,

HAS ADOPTED THIS REGULATION:

Article 1

Annex IV to Regulation (EC) No 1223/2009 is amended in accordance with the Annex to this Regulation.

⁽¹⁾ OJ L 342, 22.12.2009, p. 59.⁽²⁾ SCCS/1489/12 Revision of 11 December 2012, http://ec.europa.eu/health/scientific_committees/consumer_safety/docs/sccs_o_103.pdf⁽³⁾ SCCS/1539/14 Revision of 25 June 2015, http://ec.europa.eu/health/scientific_committees/consumer_safety/docs/sccs_o_163.pdf

Article 2

From 24 February 2018 only cosmetic products which comply with this Regulation shall be placed on the Union market.

From 24 May 2018 only cosmetic products which comply with this Regulation shall be made available on the Union market.

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 3 August 2017.

For the Commission
The President
Jean-Claude JUNKER

ANNEX

Entry 144 of Annex IV to Regulation (EC) No 1223/2009 is replaced by the following:

Reference number	Substance identification					Conditions			Wording of conditions of use and warnings
	Chemical Name	Colour index Number/Name of Common Ingredients Glossary	CAS number	EC number	Colour	Product type, Body parts	Maximum concentration in ready for use preparation	Other	
a	b	c	d	e	f	g	h	i	j
'144	Zinc oxide (*)	77947	1314-13-2	215-222-5	White			Not to be used in applications that may lead to exposure of the end-user's lungs by inhalation.	

(*) For use as a UV-filter, see Annex VI, No 30 and No 30a.'.

COMMISSION IMPLEMENTING REGULATION (EU) 2017/1414**of 3 August 2017****amending Annex I to Regulation (EC) No 798/2008 as regards the entries for the former Yugoslav Republic of Macedonia, the United States, South Africa and Zimbabwe in the list of third countries, territories, zones or compartments from which certain poultry commodities may be imported into or transit through the Union in relation to highly pathogenic avian influenza****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption ⁽¹⁾, and in particular the introductory phrase of Article 8, the first subparagraph of point 1 of Article 8, point 4 of Article 8 and Article 9(4)(c) thereof,

Having regard to Council Directive 2009/158/EC of 30 November 2009 on animal health conditions governing intra-Community trade in, and imports from third countries of, poultry and hatching eggs ⁽²⁾, and in particular Articles 23(1), 24(2) and 25(2) thereof,

Whereas:

- (1) Commission Regulation (EC) No 798/2008 ⁽³⁾ lays down veterinary certification requirements for imports into and transit, including storage during transit, through the Union of poultry and poultry products (the commodities). It provides that the commodities are only to be imported into and transit through the Union from the third countries, territories, zones or compartments listed in columns 1 and 3 of the table in Part 1 of Annex I thereto.
- (2) Regulation (EC) No 798/2008 also lays down the conditions for a third country, territory, zone or compartment to be considered as free from highly pathogenic avian influenza (HPAI).
- (3) The former Yugoslav Republic of Macedonia is listed in Part 1 of Annex I to Regulation (EC) No 798/2008 as a third country from which imports into and transit through the Union of certain poultry commodities are authorised from the whole of its territory.
- (4) On 28 January 2017, the former Yugoslav Republic of Macedonia confirmed the presence of HPAI of subtype H5N8 in a poultry holding on its territory. Due to that confirmed outbreak of HPAI, the territory of the former Yugoslav Republic of Macedonia could no longer be considered as free from that disease and the veterinary authorities of the former Yugoslav Republic of Macedonia were no longer in a position to certify consignments of meat of poultry for human consumption for import into, or transit through, the Union. It is appropriate therefore to indicate in Part 1 of Annex I to Regulation (EC) No 798/2008, the date as of which that third country could no longer be considered as free from HPAI.
- (5) Following the outbreak of HPAI in January 2017, the former Yugoslav Republic of Macedonia has implemented a stamping-out policy in order to control and limit the spread of that disease. The former Yugoslav Republic of Macedonia has submitted updated information on the epidemiological situation on its territory and the measures it has taken to prevent the further spread of HPAI which has now been evaluated by the Commission. In addition, the former Yugoslav Republic of Macedonia has reported the completion of cleaning and disinfection measures following the stamping out policy on the poultry holding where the HPAI outbreak was detected in January 2017.
- (6) On the basis of the evaluation of the information provided by the former Yugoslav Republic of Macedonia, it is also appropriate to indicate in Part 1 of Annex I to Regulation (EC) No 798/2008 the date as of when that third country may again, in accordance with Article 9 of Regulation (EC) No 798/2008, be considered free of HPAI and imports into, and transit through the Union, of certain poultry commodities originating from that third country should be authorised again.

⁽¹⁾ OJ L 18, 23.1.2003, p. 11.

⁽²⁾ OJ L 343, 22.12.2009, p. 74.

⁽³⁾ Commission Regulation (EC) No 798/2008 of 8 August 2008 laying down a list of third countries, territories, zones or compartments from which poultry and poultry products may be imported into and transit through the Community and the veterinary certification requirements (OJ L 226, 23.8.2008, p. 1).

- (7) The entry for the former Yugoslav Republic of Macedonia in the list in Part 1 of Annex I to Regulation (EC) No 798/2008 should therefore be amended to take account of the recent epidemiological situation in that third country.
- (8) The United States is listed in Part 1 of Annex I to Regulation (EC) No 798/2008 as a third country from which imports into and transit through the Union of the commodities are authorised from certain parts of its territory depending on the presence of HPAI. That regionalisation was set out in Part 1 of Annex I to Regulation (EC) No 798/2008, as amended by Commission Implementing Regulation (EU) 2017/481 ⁽¹⁾, following an outbreak of HPAI of subtype H7N9 in a poultry holding in the State of Tennessee on 4 March 2017.
- (9) On 15 March 2017, the United States confirmed the presence of HPAI of subtype H7N9 in another holding in the State of Tennessee. That outbreak was located in an area that was already subject to regionalisation, due to the earlier outbreak of 4 March 2017, and that area is duly covered by the amendments made to Part 1 of Annex I to Regulation (EC) No 798/2008 by Implementing Regulation (EU) 2017/481. Therefore no further regionalisation of the third country is necessary in respect of that latest outbreak.
- (10) An Agreement between the European Community and the United States of America on sanitary measures to protect public and animal health in trade in live animals and animal products (the Agreement) ⁽²⁾, which was approved by Council Decision 98/258/EC ⁽³⁾, provides for a swift mutual recognition of regionalisation measures in the event of outbreaks of a disease in the Union or in the United States.
- (11) Following the outbreaks of HPAI in March 2017, the United States has implemented a stamping-out policy in order to control and limit the spread of that disease. The veterinary authorities of the United States have continued to suspend issuing veterinary certificates for consignments of the commodities intended for export to, or transit through, the Union from the affected counties of the States of Tennessee and Alabama, which were placed under restrictions due to the presence of that disease, and which are subject to Union regionalisation measures in accordance with Regulation (EC) No 798/2008.
- (12) Since mid-March 2017, no further outbreaks of HPAI have been detected in the United States. The United States has submitted updated information on the epidemiological situation on its territory and the measures it has taken to prevent the further spread of HPAI which has now been evaluated by the Commission. In addition, the United States has reported the completion of cleaning and disinfection measures following the stamping out policy on the holdings in the State of Tennessee where the outbreaks of HPAI were detected in March 2017.
- (13) On the basis of the evaluation of the information provided by the United States, as well as the commitments laid down in the Agreement and the guarantees provided by the United States, it is appropriate to indicate the date as of when the affected counties in the States of Tennessee and Alabama that were placed under veterinary restrictions in relation to the outbreaks of HPAI in March 2017, may again, in accordance with Article 9 of Regulation (EC) No 798/2008, be considered free of HPAI and imports into, and transit through the Union, of certain poultry commodities originating from those areas should be authorised again.
- (14) The entry for the United States in the list in Part 1 of Annex I to Regulation (EC) No 798/2008 should therefore be amended to take account of the current epidemiological situation in that third country.
- (15) South Africa is listed in Part 1 of Annex I to Regulation (EC) No 798/2008 as a third country from which imports into and transit through the Union of certain poultry commodities are authorised from the whole of its territory. In particular, imports into and transit through the Union of meat of farmed ratites for human consumption (RAT) is authorised under specific condition 'H' as established in Part 2 of Annex I to Regulation (EC) No 798/2008, which provides that, under specific conditions, in the case of an outbreak of HPAI, imports of such meat may still be authorised, if it is obtained from ratites coming from a registered closed ratite holding free of HPAI.

⁽¹⁾ Commission Implementing Regulation (EU) 2017/481 of 20 March 2017 amending Annex I to Regulation (EC) No 798/2008 as regards the entry for the United States in the list of third countries, territories, zones or compartments from which certain poultry commodities may be imported into or transit through the Union in relation to highly pathogenic avian influenza (OJ L 75, 21.3.2017, p. 15).

⁽²⁾ OJ L 118, 21.4.1998, p. 3.

⁽³⁾ Council Decision 98/258/EC of 16 March 1998 on the conclusion of the Agreement between the European Community and the United States of America on sanitary measures to protect public and animal health in trade in live animals and animal products (OJ L 118, 21.4.1998, p. 1).

- (16) On 22 June 2017, South Africa confirmed the presence of HPAI of subtype H5N8 in a poultry holding on its territory. Due to that confirmed outbreak of HPAI, the territory of South Africa can no longer be considered as free from that disease and the veterinary authorities of South Africa can therefore no longer certify consignments of meat of farmed ratites for import into, or transit through, the Union, unless it is obtained from ratites coming from a registered closed ratite holding free of HPAI under specific condition 'H'.
- (17) The veterinary authorities of South Africa have submitted preliminary information on the outbreak of HPAI and confirmed that they have immediately suspended issuing veterinary certificates for consignments of meat of farmed ratites for human consumption intended for import into, or transit through, the Union.
- (18) The entry for South Africa in the list in Part 1 of Annex I to Regulation (EC) No 798/2008 should therefore be amended to take account of the current epidemiological situation in that third country.
- (19) Zimbabwe is listed in Part 1 of Annex I to Regulation (EC) No 798/2008 as a third country from which imports into and transit through the Union of certain poultry commodities are authorised from the whole of its territory.
- (20) On 1 June 2017, Zimbabwe confirmed the presence of HPAI of subtype H5N8 in a poultry holding on its territory. Due to that confirmed outbreak of HPAI, the territory of Zimbabwe can no longer be considered as free from that disease and the veterinary authorities of Zimbabwe can therefore no longer certify consignments of meat of farmed ratites for human consumption for import into, or transit through, the Union.
- (21) The entry for Zimbabwe in the list in Part 1 of Annex I to Regulation (EC) No 798/2008 should therefore be amended to take account of the current epidemiological situation in that third country.
- (22) Annex I to Regulation (EC) No 798/2008 should therefore be amended accordingly.
- (23) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Part 1 of Annex I to Regulation (EC) No 798/2008 is amended in accordance with the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the third day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 3 August 2017.

For the Commission
The President
Jean-Claude JUNCKER

Part 1 of Annex I to Regulation (EC) No 798/2008 is amended as follows:

(1) the entry for the former Yugoslav Republic of Macedonia is replaced by the following:

ISO code and name of third country or territory	Code of third country, territory, zone or compartment	Description of third country, territory, zone or compartment	Veterinary certificate		Specific conditions	Specific conditions		Avian influenza surveillance status	Avian influenza vaccination status	Salmonella Control Status ⁽⁶⁾
			Model(s)	Additional guarantees		Closing date ⁽¹⁾	Opening date ⁽²⁾

DECISIONS

COMMISSION IMPLEMENTING DECISION (EU) 2017/1415

of 3 August 2017

amending the Annex to Implementing Decision (EU) 2017/247 on protective measures in relation to outbreaks of the highly pathogenic avian influenza in certain Member States

(notified under document C(2017) 5571)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market ⁽¹⁾, and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market ⁽²⁾, and in particular Article 10(4) thereof,

Whereas:

- (1) Commission Implementing Decision (EU) 2017/247 ⁽³⁾ was adopted following outbreaks of highly pathogenic avian influenza of subtype H5 in a number of Member States ('the concerned Member States'), and the establishment of protection and surveillance zones by the competent authority of the concerned Member States in accordance with Council Directive 2005/94/EC ⁽⁴⁾.
- (2) Implementing Decision (EU) 2017/247 provides that the protection and surveillance zones established by the competent authorities of the concerned Member States in accordance with Directive 2005/94/EC are to comprise at least the areas listed as protection and surveillance zones in the Annex to that Implementing Decision. Implementing Decision (EU) 2017/247 also lays down that the measures to be applied in the protection and surveillance zones, as provided for in Article 29(1) and Article 31 of Directive 2005/94/EC, are to be maintained until at least the dates for those zones set out in the Annex to that Implementing Decision.
- (3) The Annex to Implementing Decision (EU) 2017/247 was subsequently amended by Commission Implementing Decisions (EU) 2017/417 ⁽⁵⁾, (EU) 2017/554 ⁽⁶⁾, (EU) 2017/696 ⁽⁷⁾, (EU) 2017/780 ⁽⁸⁾, (EU) 2017/819 ⁽⁹⁾, (EU) 2017/977 ⁽¹⁰⁾, (EU) 2017/1139 ⁽¹¹⁾, (EU) 2017/1240 ⁽¹²⁾ and (EU) 2017/1397 ⁽¹³⁾ in order to take account of changes to the protection and surveillance zones established by the competent authorities of the Member States in accordance with Directive 2005/94/EC, following further outbreaks of highly pathogenic avian influenza of subtype H5 in the Union. In addition, Implementing Decision (EU) 2017/247 was amended by Implementing Decision (EU) 2017/696 in order to lay down rules regarding the dispatch of consignments of day-old chicks from the areas listed in the Annex to Implementing Decision (EU) 2017/247, following certain improvements in the epidemiological situation as regards that virus in the Union.
- (4) The overall disease situation in the Union has been steadily improving. However, since the date of the last amendment made to Implementing Decision (EU) 2017/247 by Implementing Decision (EU) 2017/1397, Italy has detected new outbreaks of highly pathogenic avian influenza of subtype H5N8 in poultry holdings, namely in the regions of Lombardia and Veneto of that Member State. Italy has also notified the Commission that it has taken the necessary measures required in accordance with Directive 2005/94/EC, including the establishment of protection and surveillance zones around the infected poultry holdings.

- (5) The Commission has examined the measures taken by Italy in accordance with Directive 2005/94/EC, following the recent outbreaks of avian influenza of subtype H5N8 in that Member State, and it has satisfied itself that the boundaries of the protection and surveillance zones, established by the competent authority of Italy, are at a sufficient distance to any holding where an outbreak of highly pathogenic avian influenza of subtype H5N8 has been confirmed.
- (6) In order to prevent any unnecessary disturbance to trade within the Union, and to avoid unjustified barriers to trade being imposed by third countries, it is necessary to rapidly describe at Union level, in collaboration with Italy, the protection and surveillance zones established in Italy, in accordance with Directive 2005/94/EC, following the recent outbreaks of highly pathogenic avian influenza of subtype H5N8 in that Member State. Therefore, the entries for Italy in the Annex to Implementing Decision (EU) 2017/247 should be updated to take account of the current epidemiological situation in that Member State as regards that disease.
- (7) The Annex to Implementing Decision (EU) 2017/247 should therefore be amended to update regionalization at Union level to include the protection and surveillance zones established by Italy, in accordance with Directive 2005/94/EC and the duration of the restrictions applicable therein.
- (8) Implementing Decision (EU) 2017/247 should therefore be amended accordingly.
- (9) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision (EU) 2017/247 is amended in accordance with the Annex to this Decision.

Article 2

This Decision is addressed to the Member States.

Done at Brussels, 3 August 2017.

COMMISSION IMPLEMENTING DECISION (EU) 2017/1416
of 3 August 2017
concerning certain protective measures relating to African swine fever in Romania

(notified under document C(2017) 5570)

(Only the Romanian text is authentic)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market ⁽¹⁾, and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market ⁽²⁾, and in particular Article 10(4) thereof,

Whereas:

- (1) African swine fever is an infectious viral disease affecting domestic and feral pig populations and can have a severe impact on the profitability of pig farming causing disturbance to trade within the Union and exports to third countries.
- (2) In the event of an outbreak of African swine fever, there is a risk that the disease agent may spread to other pig holdings and to feral pigs. As a result, it may spread from one Member State to another Member State and to third countries through trade in live pigs or their products.
- (3) Council Directive 2002/60/EC ⁽³⁾ lays down minimum measures to be applied within the Union for the control of African swine fever. Article 9 of Directive 2002/60/EC provides for the establishment of protection and surveillance zones in the event of outbreaks of that disease where the measures laid down in Articles 10 and 11 of that Directive are to apply.
- (4) Romania has informed the Commission of the up-to-date African swine fever situation on its territory, and in accordance with Article 9 of Directive 2002/60/EC, it has established protection and surveillance zones where the measures referred to in Articles 10 and 11 of that Directive are applied.
- (5) In order to prevent any unnecessary disturbance to trade within the Union and to avoid unjustified barriers to trade being imposed by third countries, it is necessary to describe at Union level the areas established as protection and surveillance zones for African swine fever in accordance with Directive 2002/60/EC in Romania in collaboration with that Member State.
- (6) Accordingly, the areas identified as protection and surveillance zones in Romania should be set out in the Annex to this Decision and the duration of that regionalisation fixed.
- (7) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

Romania shall ensure that the protection and surveillance zones established in accordance with Article 9 of Directive 2002/60/EC comprise at least the areas listed as the protection and surveillance zones in the Annex to this Decision.

⁽¹⁾ OJ L 395, 30.12.1989, p. 13.

⁽²⁾ OJ L 224, 18.8.1990, p. 29.

⁽³⁾ Council Directive 2002/60/EC of 27 June 2002 laying down specific provisions for the control of African swine fever and amending Directive 92/119/EEC as regards Teschen disease and African swine fever (OJ L 192, 20.7.2002, p. 27).

Article 2

This Decision shall apply until 15 October 2017.

Article 3

This Decision is addressed to Romania.

Done at Brussels, 3 August 2017.

For the Commission
Vytenis ANDRIUKAITIS
Member of the Commission

ANNEX

Romania	Areas as referred to in Article 1	Date until applicable
Protection zone	Limits of the protection zone: — 3 km around outbreak (latitude 47.7567, longitude 22.8394)	15 October 2017
Surveillance zone	Localities and municipalities included: — Satu Mare municipality (urban area) — Satmarel locality, Satu Mare municipality — Porumbesti locality, Halmeu commune — Mesteacan locality, Halmeu commune — Halmeu locality, Halmeu commune — Turulung locality, Turulung commune — Draguseni locality, Turulung commune — Adrian locality, Livada commune — Livada locality, Livada commune — Livada Mica locality, Livada commune — Iojib locality, Mediesu Aurit commune — Medies Raturi locality, Mediesu Aurit commune — Mediesu Aurit locality, Mediesu Aurit commune — Apa locality, Apa commune — Someseni locality, Apa commune — Lunca Apei locality, Apa commune — Potau locality, Mediesu Aurit commune — Romanesti locality, Mediesu Aurit commune — Babasesi locality, Mediesu Aurit commune — Caraseu locality, Culciu commune — Culciu Mare locality, Culciu commune — Lipau locality, Culciu commune — Valea Vinului locality, Valea Vinului commune — Rosiori locality, Valea Vinului commune — Culciu Mic locality, Culciu commune — Eteni locality, Odoreu commune — Bercu Nou locality, Micula commune — Micula Noua locality, Micula commune — Micula locality, Micula commune — Bercu locality, Lazuri commune — Nisipeni locality, Lazuri commune — Agris locality, Agris commune — Ciuperceni locality, Agris commune — Dumbrava locality, Livada commune — Vanatoresti locality, Odoreu commune — Botiz locality, Botiz commune — Noroieni locality, Lazuri commune — Pelisor locality, Lazuri commune — Peles locality, Lazuri commune	15 October 2017

Romania	Areas as referred to in Article 1	Date until applicable
	— Atea locality, Dorolt commune — Petea locality, Dorolt commune — Dorolt locality, Dorolt commune — Lazuri locality, Lazuri commune — Dara locality, Dorolt commune — Oar locality, Vetis commune — Vetis locality, Vetis commune — Decebal locality, Vetis commune — Traian locality, Doba commune — Bochiş locality, Doba commune — Doba locality, Doba commune — Aliza locality, Terebesti commune — Gelu locality, Terebesti commune — Madars locality, Ardud municipality — Baba Novac locality, Ardud municipality — Ardud municipality (urban area) — Gherausa locality, Ardud municipality — Medisa locality, Viile Satu Mare commune — Solduba locality, Homoroade commune — Homorodu de Sus locality, Homoroade commune — Homorodu de Jos locality, Homoroade commune — Homorodu de Mijloc Jos locality, Homoroade commune — Chilia locality, Homoroade commune — Sai locality, Valea Vinului commune — Necopoi locality, Homoroade commune — Saratura locality, Ardud municipality — Ardud-Vii locality, Ardud municipality — Viile Satu Mare municipality — Cioncheşti locality, Viile Satu Mare commune — Ruseni locality, Paulesti commune — Tatareşti locality, Viile Satu Mare commune — Tireac locality, Viile Satu Mare commune — Hrip locality, Paulesti commune — Amati locality, Paulesti commune — Ambud locality, Paulesti commune — Paulesti locality, Paulesti commune — Petin locality, Paulesti commune — Apateu locality, Culciu commune — Berindan locality, Odoreu commune — Odoreu municipality (urban area) — Terebesti locality, Terebesti commune — Bocicau locality, Tarna Mare commune — Valea Seaca locality, Tarna Mare commune — Sirlau locality, Bataci commune — Comlausa locality, Bataci commune
