REGULATIONS

COMMISSION REGULATION (EU) 2017/1777

of 29 September 2017

amending Annexes II, III and IV to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for *Bacillus amyloliquefaciens* strain FZB24, *Bacillus amyloliquefaciens* strain MBI 600, clayed charcoal, dichlorprop-P, ethephon, etridiazole, flonicamid, fluazifop-P, hydrogen peroxide, metaldehyde, penconazole, spinetoram, tau-fluvalinate and *Urtica* spp. in or on certain products

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 5(1) and Article 14(1)(a) thereof,

Whereas:

- (1) For dichlorprop-P, ethephon, flonicamid, fluazifop-P and metaldehyde, maximum residue levels (MRLs) were set in Annex II to Regulation (EC) No 396/2005. For penconazole, MRLs were set in Annex II and Part B of Annex III to that Regulation. For etridiazole, spinetoram and tau-fluvalinate, MRLs were set in Part A of Annex III to that Regulation. For *Bacillus amyloliquefaciens* strain FZB24, *Bacillus amyloliquefaciens* strain MBI 600, clayed charcoal, hydrogen peroxide and *Urtica* spp., no specific MRLs were set nor were those substances included in Annex IV to that Regulation, so the default value of 0,01 mg/kg laid down in Article 18(1)(b) thereof applies.
- (2) In the context of a procedure for the authorisation of the use of a plant protection product containing the active substance dichlorprop-P on citrus fruits, an application was submitted in accordance with Article 6(1) of Regulation (EC) No 396/2005 for modification of the existing MRLs.
- (3) As regards ethephon, such an application was submitted for Japanese persimmons. As regards etridiazole, such an application was submitted for cucurbits with edible peel. As regards flonicamid, such an application was submitted for apricots, head cabbage, beans and peas (with pods) and sugar beet roots. As regards fluazifop-P, such an application was submitted for carrots and courgettes. As regards metaldehyde, such an application was submitted for leeks. As regards penconazole, such an application was submitted for grapes. As regards spinetoram, such an application was submitted for cherries, cane fruit, 'other small fruits and berries', 'lettuces and salad plants', 'spinaches and similar leaves', 'herbs and edible flowers', leeks and herbal infusions from leaves and herbs. As regards tau-fluvalinate, such an application was submitted for citrus fruits.
- (4) In accordance with Article 8 of Regulation (EC) No 396/2005, those applications were evaluated by the Member States concerned and the evaluation reports were forwarded to the Commission.

⁽¹⁾ OJ L 70, 16.3.2005, p. 1.

- (5) The European Food Safety Authority, hereinafter 'the Authority', assessed the applications and the evaluation reports, examining in particular the risks to the consumer and, where relevant, to animals and gave reasoned opinions on the proposed MRLs ⁽¹⁾. It forwarded those opinions to the applicants, the Commission and the Member States and made them available to the public.
- (6) The Authority concluded in its reasoned opinion on spinetoram that, as regards its use on scarole, a risk to the consumer could not be excluded. The existing MRL should therefore be kept.
- (7) As regards flonicamid, the Authority recommended increasing the existing MRLs for several products of animal origin in order to accommodate for the intended uses of that active substance on sugar beet.
- (8) As regards etridiazole, the Authority could not conclude on the dietary risk assessment for consumers as some information was not available and further consideration by risk managers was required. The Standing Committee on Plants, Animals, Food and Feed noted at its meeting on 29 May 2015 that the substance concerned does not produce relevant metabolites of significant toxicity or at levels leading to an exposure higher than negligible ⁽²⁾. It is therefore appropriate to set the MRL for cucurbits with edible peel in Regulation (EC) No 396/2005 at the level of 0,4 mg/kg, which reflects the Good Agricultural Practice.
- (9) As regards all other applications, the Authority concluded that all requirements with respect to data were met and that the modifications to the MRLs requested by the applicants were acceptable with regard to consumer safety on the basis of a consumer exposure assessment for 27 specific European consumer groups. It took into account the most recent information on the toxicological properties of the substances. Neither the lifetime exposure to these substances via consumption of all food products that may contain them, nor the short-term exposure due to high consumption of the relevant products showed that there is a risk that the acceptable daily intake or the acute reference dose is exceeded.
- (10) For *Bacillus amyloliquefaciens* strain FZB24 and *Bacillus amyloliquefaciens* strain MBI 600, the Authority submitted conclusions on the peer review of the pesticide risk assessment of those active substances ⁽³⁾. For all of these substances, the Authority could not conclude on the dietary risk assessment for consumers as some information was not available and further consideration by risk managers was required. Such further consideration was

reflected in the respective review reports ⁽¹⁾ which concluded that the risk to humans through metabolites from these substances is negligible. In view of those conclusions, the Commission considers that the inclusion of those substances in Annex IV to Regulation (EC) No 396/2005 is appropriate.

- (11) Clayed charcoal, hydrogen peroxide and *Urtica* spp. are approved as basic substances by Commission Implementing Regulation (EU) 2017/428 ⁽²⁾, Commission Implementing Regulation (EU) 2017/409 ⁽³⁾ and Commission Implementing Regulation (EU) 2017/419 ⁽⁴⁾, respectively. The conditions of use of those active substances are not expected to lead to the presence of residues in food or feed commodities that may pose a risk to the consumer. It is therefore appropriate that those substances are included in Annex IV to Regulation (EC) No 396/2005.
- (12) Based on the reasoned opinions and the conclusions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (13) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (14) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

COMMISSION IMPLEMENTING REGULATION (EU) 2017/1778**of 29 September 2017****amending Regulation (EC) No 891/2009 as regards certain provisions concerning the first sub-period of the 2017/2018 import tariff quota period in the sugar sector and the full-time refiners' regime**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 ⁽¹⁾, and in particular point (e) of Article 187 thereof,

Whereas:

- (1) Article 3(1) of Commission Regulation (EC) No 891/2009 ⁽²⁾ provides that tariff quotas in the sugar sector are to be opened on an annual basis for the period from 1 October to 30 September.
- (2) Article 192(3) of Regulation (EU) No 1308/2013 provides that import licences for sugar for refining shall be issued during the first three months of each marketing year only to full-time refiners provided that the quantities concerned do not exceed the quantities of the exclusive import capacity for full-time refiners set out in paragraph 1 of that Article. In accordance with Article 192(1) of Regulation (EU) No 1308/2013, exclusive import capacity for full-time refiners was only granted until the end of the 2016-2017 marketing year.
- (3) Article 14(1) of Regulation (EC) No 891/2009 provides that only full-time refiners may apply for import licences for sugar intended for refining with a start validity date during the first three months of each marketing year.
- (4) In accordance with the second subparagraph of Article 5(1) of Regulation (EC) No 891/2009, licence applications for the first sub-period of the 2017/2018 import tariff quota period were to be submitted from the eighth to the 14th day of September 2017.
- (5) For reasons of legal certainty as regards the right of operators other than full-time refiners to submit applications for import licenses for the first sub-period of the 2017/2018 import tariff quota period, Article 14 of Regulation (EC) No 891/2009 should be deleted. Moreover, the period for the submission of applications for the first sub-period of the 2017/2018 import tariff quota period should be extended until 9 October 2017 and, as a consequence, the period of issuance of import licences and the period of notification of applications received by Member States adjusted.
- (6) Operators should also be given the possibility to withdraw applications already submitted between 8 and 14 September 2017 in case they wish to reconsider their application or introduce a revised application.
- (7) It is therefore necessary to amend Regulation (EC) No 891/2009 accordingly.
- (8) Given that the 2017/2018 import tariff quota period starts on 1 October, the proposed amendments should apply from the date of publication of this Regulation.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Committee for the Common Organisation of Agricultural Markets,

⁽¹⁾ Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 (OJ L 347, 20.12.2013, p. 671).
