REGULATIONS

COUNCIL REGULATION (EU) 2018/511**of 23 March 2018****amending Regulation (EU) 2018/120 as regards certain fishing opportunities**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(3) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) Council Regulation (EU) 2018/120 ⁽¹⁾ fixes the fishing opportunities for 2018 for certain fish stocks and groups of fish stocks applicable in Union waters and, for Union vessels, in certain non-Union waters.
- (2) Certain reporting codes should be modified in order to allow for accurate reporting of catches. Certain references to the footnotes and their wording should be corrected.
- (3) In Regulation (EU) 2018/120, the total allowable catch (TAC) for sandeel in ICES divisions 2a and 3a and ICES subarea 4 was set at zero. Sandeel is a short-lived species and the relevant scientific advice becomes available in the second half of February, while fishing activities start in April.
- (4) The catch limits for sandeel in ICES divisions 2a and 3a and ICES subarea 4 should now be amended in line with the latest scientific advice from the International Council for the Exploration of the Sea (ICES), issued on 23 February 2018.
- (5) For sandeel fisheries, ICES divisions 2a and 3a and ICES subarea 4 are divided into management areas, on the basis of scientific advice. Management area 3r is mainly located in Norwegian waters. However, it also includes Union waters, and some important fishing banks straddled across management areas 2r and 3r. ICES advice sets out that on average 8 % of catches in management area 3r are taken in Union waters. Catch limits for Union waters of management area 3r should be established in accordance with that advice.
- (6) The TAC for cod in ICES subarea 1 and division 2b should be amended to correctly reflect the fishing opportunities available for Union vessels in that area.
- (7) The maximum number of longliners allowed for Malta in the ICCAT Convention area that may be authorised to fish for, retain on board, tranship, transport, or land bluefin tuna in the eastern Atlantic and Mediterranean should be amended, to take account of the increased number of vessels that are so authorised.
- (8) Regulation (EU) 2018/120 should therefore be amended accordingly.

⁽¹⁾ Council Regulation (EU) 2018/120 of 23 January 2018 fixing for 2018 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters, and amending Regulation (EU) 2017/127 (OJ L 27, 31.1.2018, p. 1).

- (9) The catch limits provided for in Regulation (EU) 2018/120 apply from 1 January 2018. The provisions introduced by this Regulation concerning catch limits should therefore also apply from that date. Such retroactive application is without prejudice to the principles of legal certainty and protection of legitimate expectations as the fishing opportunities concerned have not yet been exhausted,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes IA, IB and IV to Regulation (EU) 2018/120 are amended in accordance with the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2018.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 23 March 2018.

For the Council

The President

E. ZAHARIEVA

Information from the narrative summary of reasons for listing provided by the Sanctions Committee:

Report from Human Rights Watch states they have a memo dated 13 February 2004 from a local government office in North Darfur ordering 'security units in the locality' to 'allow the activities of the mujahedeen and the volunteers under the command of the Sheikh Musa Hilal to proceed in the areas of [North Darfur] and to secure their vital needs'. On 28 September 2005, 400 Arab militia attacked the villages of Aro Sharrow (including its IDP camp), Acho, and Gozmena in West Darfur. We also believe that Musa Hilal was present during the attack on Aro Sharrow IDP camp: his son had been killed during the SLA attack on Shareia, so he was now involved in a personal blood feud. There are reasonable grounds to believe that as the Paramount Chief he had direct responsibility for these actions and is responsible for violations of international humanitarian and human rights law and other atrocities.

Information from the narrative summary of reasons for listing provided by the Sanctions Committee:

SLA soldiers under the command of Adam Yacub Shant violated the ceasefire agreement by attacking a Government of Sudan military contingent that was escorting a convoy of trucks near Abu Hamra, Northern Darfur on July 23, 2005, killing three soldiers. After the attack Government military weapons and ammunition were looted. The Panel of Experts has information establishing that the attack by SLA soldiers took place and was clearly organized; consequently it was well planned. It is therefore reasonable to assume, as the Panel concluded, that Shant, as the confirmed SLA Commander in the area, must have had knowledge of and approved/or ordered the attack. He therefore bears direct responsibility for the attack and meets the criteria for being listed.

Mayu openly attempts to thwart the AMIS mission through intimidation; for example he threatened to shoot down African Union (AU) helicopters in the Jebel Moon area in November 2005. COMMISSION DECISION (EU) 2018/517**of 21 March 2018****on the proposed citizens' initiative entitled 'British friends — stay with us in EU'***(notified under document C(2018) 1730)***(Only the English text is authentic)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 211/2011 of the European Parliament and of the Council of 16 February 2011 on the citizens' initiative ⁽¹⁾, and in particular Article 4 thereof,

Whereas:

- (1) The subject matter of the proposed initiative entitled 'British friends — stay with us in EU' is stated as follows: 'Brexit in 2016 was not a binding plebiscite, but only a public referendum in order for the British parliament to judge the opinion of the British populations at that moment'.
- (2) The main objectives of the proposed initiative are: 'Our aim will be to create a platform which would enable all European citizens to take part in this initiative and to reach a majority of British citizens (including those which live in the EU who were effectively disenfranchised in the original referendum) thereby giving to all British citizens an opportunity to voice their opinion.'
- (3) The Treaty on European Union (TEU) reinforces citizenship of the Union and enhances further the democratic functioning of the Union by providing, *inter alia*, that every citizen is to have the right to participate in the democratic life of the Union by way of a European citizens' initiative.
- (4) To this end, the procedures and conditions required for the citizens' initiative should be clear, simple, user-friendly and proportionate to the nature of the citizens' initiative so as to encourage participation by citizens and to make the Union more accessible.
- (5) The right of any Member State to withdraw from the European Union is enshrined in Article 50(1) of the TEU, according to which any Member State may decide to withdraw from the Union in accordance with its own constitutional requirements.
- (6) While the European Commission regrets the decision of the United Kingdom to withdraw from the European Union, as stated by Jean-Claude Juncker, President of the European Commission, jointly with Martin Schulz, President of the European Parliament, Donald Tusk, President of the European Council, and Mark Rutte, Holder of the Presidency of the Council of the European Union, on 24 June 2016 ⁽²⁾, there is no legal basis in the Treaties which would allow for the adoption of a legal act relating to the decision-making process within a Member State in connection with the notification of that Member State' intention to withdraw from the Union pursuant to Article 50 TEU.
- (7) For these reasons, the proposed citizens' initiative entitled 'British friends — stay with us in EU' manifestly falls outside the framework of the Commission's powers to submit a proposal for a legal act of the Union for the purpose of implementing the Treaties within the meaning of Article 4(2)(b) of the Regulation, read in conjunction with Article 2, point 1, thereof,

HAS ADOPTED THIS DECISION:

Article 1

The registration of the proposed initiative entitled 'British friends — stay with us in EU' is hereby refused.

COMMISSION IMPLEMENTING DECISION (EU) 2018/518**of 26 March 2018**

laying down the animal health and veterinary certification conditions for the re-entry of registered horses for competition after temporary export to Indonesia, amending Annex I to Decision 93/195/EEC as regards the entry for Indonesia and amending Annex I to Decision 2004/211/EC as regards the entry for Indonesia in the list of third countries and parts thereof from which imports into the Union of live equidae and semen, ova and embryos of the equine species are authorised

(notified under document C(2018) 1725)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2009/156/EC of 30 November 2009 on animal health conditions governing the movement and importation from third countries of equidae ⁽¹⁾, and in particular Article 12(1) and (4), Article 16(2), and points (a) and (b) of Article 19 thereof,

Whereas:

- (1) Directive 2009/156/EC lays down animal health conditions for the importation into the Union of live equidae. It provides that imports of equidae into the Union are only authorised from third countries that meet certain animal health requirements.
- (2) Annex I to Commission Decision 93/195/EEC ⁽²⁾ sets out lists of third countries assigned to sanitary groups A to E. Annex VII to that Decision contains, amongst others, a model health certificate to be used for the re-entry of registered horses after temporary export for less than 60 days to participate in the equestrian events of the Asian Games and the Endurance World Cup.
- (3) The equestrian events of the 18th Asian Games will take place in Jakarta, Indonesia from 18 August to 2 September 2018. Those events will include Show Jumping, Dressage and Eventing competitions under the auspices of the Fédération Equestre Internationale and will also attract Union-based rider-horse combinations.
- (4) In order to authorise the re-entry into the Union between 10 August 2018 and 10 September 2018 of registered horses for competition after their temporary export for the purposes of taking part in the Asian Games, and, in order to provide for a model health certificate to accompany such registered horses, it is necessary to provide that those horses may re-enter the Union only when accompanied by a health certificate in accordance with the model set out in Annex VII to Decision 93/195/EEC. For that purpose, it is also necessary to include Indonesia in the appropriate sanitary group in Annex I to that Decision.
- (5) As Annex I has undergone several amendments, it should be updated and replaced in its entirety for the sake of legal clarity.
- (6) Decision 93/195/EEC should therefore be amended accordingly.

⁽¹⁾ OJ L 192, 23.7.2010, p. 1.

⁽²⁾ Commission Decision 93/195/EEC of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (OJ L 86, 6.4.1993, p. 1).

- (7) Annex I to Commission Decision 2004/211/EC ⁽¹⁾ establishes a list of third countries, or parts thereof where regionalisation applies, from which Member States authorise the importation of equidae and semen, ova and embryos thereof, and indicates the conditions applicable to such imports.
- (8) In order to host the equestrian events of the 2018 Asian Games, the competent authorities of Indonesia requested that a part of the territory of that country, being a zone situated on and around a fully fenced race course located in a residential area of the centre of Jakarta city and which has been emptied of equidae since May 2016, be recognised as an equine disease-free zone. This equine disease free zone has been established in accordance with the recommendations of the World Organisation for Animal Health (OIE) ⁽²⁾ and with the assistance of experts.
- (9) The competent authorities of Indonesia provided a number of guarantees, in particular as regards the notifiability of the diseases listed in Annex I to Directive 2009/156/EC in their country and the undertaking to fully comply with Article 12(2)(f) of that Directive as regards the immediate notification of equine disease to the Commission and the Member States.
- (10) According to information made available by Indonesia and the World Organisation for Animal Health (OIE), African horse sickness, Venezuelan equine encephalomyelitis and vesicular stomatitis have never been reported in Indonesia.
- (11) While there are no reports available as regards the occurrence of dourine and glanders during the previous years, Indonesia has carried out a comprehensive serological survey on the equine population in the surveillance and protection zones surrounding the core zone of the equine disease free zone in the Metropolitan area of Jakarta, with negative results in all cases for African horse sickness and dourine. However, in one out of 600 horses which were included in the survey, glanders was diagnosed by serology.
- (12) For a period of 6 months, which formally commenced on 15 February 2018, the core zone comprising the venue designated for the Asian Games, will remain free of equidae and all control and biosecurity measures related to the equine disease free zone will be in place until participating horses are introduced according to the agreed quarantine protocol.
- (13) In order to ensure the sustainable protection of the health status of the equine population within the equine disease free zone, the Indonesian authorities have undertaken to operate a quarantine facility within this zone to control the entry of equidae from holdings in other parts of Indonesia and from certain third countries not listed in Annex I to Decision 2004/211/EC. During this pre-entry quarantine the animals will be subjected to the animal health tests in line with Union import conditions applicable to countries of the same sanitary group.
- (14) Taking into account the satisfactory information and guarantees provided by Indonesia, Indonesia should be included in the list of third countries set out in Annex I to Decision 2004/211/EC for the re-entry of registered horses during the period of 10 August to 10 September 2018. At the same time, Indonesia should be regionalised for certain equine diseases. From an epidemiological point of view, the equine disease free zone in Indonesia should be assigned to sanitary group C in the list in Annex I to that Decision.
- (15) Decision 2004/211/EC should therefore be amended accordingly.
- (16) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

Member States shall authorise the re-entry of registered horses for competition after temporary export to the part of the territory of Indonesia regionalised for the participation in the 2018 Asian Games in Jakarta, provided that each of the horses is accompanied by a duly completed health certificate in accordance with the model health certificate set out in Annex VII to Decision 93/195/EEC, and provided also that the horses and the accompanying health certificates are presented to the border inspection post of entry into the Union within the period of time indicated in Annex I to Decision 2004/211/EC.
