## COMMISSION DELEGATED REGULATION (EU) 2018/1063

of 16 May 2018

**amending and correcting Delegated Regulation (EU) 2015/2446 supplementing Regulation (EU) No 952/2013 of the European Parliament and of the Council as regards detailed rules concerning certain provisions of the Union Customs Code**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 952/2013 of the European Parliament and of the Council of 9 October 2013 laying down the Union Customs Code <sup>(1)</sup>, and in particular Articles 2, 7, 24, 65, 88, 99, 142, 151, 156, 160, 212, 216, 231 and 253 thereof,

Whereas:

- (1) The practical implementation of Regulation (EU) No 952/2013 (the Code) together with Commission Delegated Regulation (EU) 2015/2446 <sup>(2)</sup> has shown that some amendments need to be made to that Delegated Regulation in order to better adjust it to the needs of economic operators and customs administrations.
- (2) In Article 1(19) of Delegated Regulation (EU) 2015/2446, the definition of ‘exporter’ should be modified in relation to exports of goods that are not carried by a private individual in his personal baggage, in order to allow greater flexibility to business partners in the choice of the person which may act as exporter. The current definition is problematic insofar as it determines as ‘exporter’ only one person, who has to meet three cumulative requirements: being established in the customs territory of the Union, holding a contract with a consignee in a third country, and having the power to determine that the goods are to be brought outside the customs territory of the Union. Therefore, the new definition of ‘exporter’ should be less restrictive and limit the conditions for being an exporter to the essential requirements for the functioning of the export procedure: the exporter must have the power to determine that the goods are to be taken out of the customs territory of the Union and, in line with Article 170(2) of Regulation (EU) No 952/2013, the exporter must be established in the customs territory of the Union. Only in cases where the business partners do not agree on the person who may act as exporter or the person is not established in the customs territory of the Union, the exporter is determined by the customs legislation.
- (3) In Article 5(1) of Delegated Regulation (EU) 2015/2446, persons requesting proof of customs status of Union goods, irrespective of whether they are established in the customs territory of the Union or not, should be required to register for an EORI number so that they can access the UCC Proof of Union Status system as referred to in the Annex to Commission Implementing Decision (EU) 2016/578 <sup>(3)</sup>.
- (4) The customs authorities need a permanent derogation from the obligation to use electronic data-processing techniques in relation to applications and decisions that occur rarely and for which the obligation to deploy electronic data-processing techniques would require a disproportionate economic effort. Given that the range of

<sup>(1)</sup> OJ L 269, 10.10.2013, p. 1.

<sup>(2)</sup> Commission Delegated Regulation (EU) 2015/2446 of 28 July 2015 supplementing Regulation (EU) No 952/2013 of the European Parliament and of the Council as regards detailed rules concerning certain provisions of the Union Customs Code (OJ L 343, 29.12.2015, p. 1).

<sup>(3)</sup> Commission Implementing Decision (EU) 2016/578 of 11 April 2016 establishing the Work Programme relating to the development and deployment of the electronic systems provided in the Union Customs Code (OJ L 99, 15.4.2016, p. 6).

electronic data-processing techniques differs from Member State to Member State, the applications and decisions in relation to which this derogation should be granted also varies from Member State to Member State. All the Member States must use electronic data-processing techniques with respect to the applications and decisions for which common data requirements exist and for which common electronic systems have been deployed. Accordingly, a new Article 7a of Delegated Regulation (EU) 2015/2446 should be laid down allowing the use of other means than electronic data-processing techniques exclusively for applications and decisions for which the relevant data requirements are not set out in Annex A to Delegated Regulation (EU) 2015/2446.

- (5) In order to avoid that the decision-making procedure is unduly delayed by an applicant not providing the right information to the customs authorities despite having been given the opportunity to do so, Article 10(a) of Delegated Regulation (EU) 2015/2446 should not extend the right to be heard to applicants who have been asked to provide relevant information and have failed to do so, resulting in the customs authorities not being able to accept their application.
- (6) The definition of registered exporter in Article 37(21) of Delegated Regulation (EU) 2015/2446 should be clarified to also cover exporters established in a Member State and registered with the customs authorities of that Member State, for the purpose of exporting products originating in the Union to a country or territory with which the Union has a preferential trade arrangement, so as to allow those exporters to make out origin declarations for benefitting from the preferential trade arrangement concerned. By contrast, the definition should not include the registration of Union exporters for the purpose of replacing statements on origin when goods are re-consigned to Turkey, because replacement of a proof of origin in the EU when goods are re-consigned to Turkey is not applicable.
- (7) Article 40 of Delegated Regulation (EU) 2015/2446 provides for the possibility to use means other than electronic data-processing techniques when submitting applications to become a registered exporter. This permanent derogation should be extended to all communication and exchanges of information in relation to applications and decisions concerning the status of a registered exporter and in relation to any subsequent applications and acts relating to the management of those decisions, as the existing electronic data processing system for registered exporters, the Registered Exporter System (REX) referred to in the Annex to Implementing Decision (EU) 2016/578, does not currently include a harmonised interface for communications with economic operators. The derogation is temporary and will not be needed once the REX system will provide that harmonized interface.
- (8) In order to ensure compliance with the rules on origin of the goods, the customs authorities in Member States and the competent authorities in beneficiary countries applying bilateral or regional cumulation, as set out in Article 53 and Article 55(8) of Delegated Regulation (EU) 2015/2446, should carry out all the necessary verifications and controls of origin and not only control the issue or making out of proofs of origin.
- (9) In order to make clearer the rule for determination of origin in the case of regional cumulation, the second and third subparagraphs of Article 55(4) and of Article 55(6) of Delegated Regulation (EU) 2015/2446 should be merged.
- (10) In order to ensure consistency with the terms used in Article 166(1)(b) and (c), Article 167(1)(s), Article 168 and Article 169 of Delegated Regulation (EU) 2015/2446, the wording in Article 76 of that Delegated Regulation concerning the derogation for the calculation of the amount of import duty on processed products resulting from inward processing should be amended.
- (11) For reasons of clarity, Article 82 of Delegated Regulation (EU) 2015/2446 should refer to the Annexes in which the relevant common data requirements for the undertaking of the guarantor are set out.
- (12) In order to ensure consistency of the provisions concerning guarantees, the reference in Article 83 of Delegated Regulation (EU) 2015/2446 to Member States should be replaced by a reference to customs authorities.
- (13) The time-limit for taking decisions on repayment or remission provided for in Article 97 of Delegated Regulation (EU) 2015/2446 should be extended where it is not possible for the competent customs authority to complete an assessment and take a decision on repayment or remission in the due period of time because the decision to be taken depends on the outcome of a case involving identical or comparable questions of facts and of law pending before the Court of Justice of the European Union in accordance with Article 267 of the Treaty on the Functioning of the European Union or of specific pending administrative procedures which may affect that decision. In order to ensure that the extension of the period to decide does not adversely affect the applicant, that extension should be possible only if the applicant does not oppose to it and should be clearly limited to those specific situations.

- (14) In order to ensure the smooth flow in the trade of Union goods between parts of the customs territory of the Union to which Council Directive 2006/112/EC <sup>(1)</sup> or Council Directive 2008/118/EC <sup>(2)</sup> apply and parts of that territory where those provisions do not apply (special fiscal territories), Articles 114 and 134 of Delegated Regulation (EU) 2015/2446 should establish certain simplifications concerning the customs formalities and controls that are applicable to that trade when it takes place within the same Member State.
- (15) Under Article 115 of Delegated Regulation (EU) 2015/2446 a place other than the competent customs office may be approved for the purposes of the presentation of goods under the condition that the goods are declared for a customs procedure or are re-exported within a very short period of time. That period should be slightly extended so that more economic operators can comply with that condition. The same extension should apply to the condition regarding the approval of a place other than a temporary storage facility for temporary storage of goods.
- (16) In order to protect the information on the place of catch of the fishery products when the printout of the fishing logbook is provided to the authorities of third countries so that those authorities can certify that sea-fishing products and goods transhipped and transported through their country or territory have not been manipulated, the economic operators should be allowed to remove that information from the fishing logbook printout for the purposes of that certification. In order to enable the allocation of the sea-fishing products and goods to the respective fishing logbook in the cases where the certification of non-manipulation is provided on a form or document other than the printout of the fishing logbook, the economic operator should include in that other form or document a reference to the respective fishing logbook.
- (17) The possibility in Article 136 of Delegated Regulation (EU) 2015/2446 to declare a means of transport for temporary admission orally should be extended to cover the specific situations referred to Articles 214, 215 and 216 of that Delegated Regulation because the standard customs formalities are normally unnecessary for such goods.
- (18) The calculation of the amount of import duty in certain cases of inward processing has been provided for twice in the same way in Articles 76(b) and 168(2) of Delegated Regulation (EU) 2015/2446. This overlap should be removed by deleting Article 168(2).
- (19) End-use authorisations allowing the storage together of different products falling within Chapters 27 and 29 of the Combined Nomenclature ('mixed storage') should establish sufficient guarantees for the subsequent identification of the different goods that have been mixed and for enabling their supervision by customs. A similar provision to that existing under the repealed Commission Regulation (EEC) No 2454/93 <sup>(3)</sup> should be introduced into Delegated Regulation (EU) 2015/2446.
- (20) In order to ensure consistency with Article 118(4) of the Code, Article 189 of Delegated Regulation (EU) 2015/2446 should allow for defective goods or goods not complying with the terms of the contract to be placed under external transit procedure, instead of being taken out of the customs territory of the Union, both of which leads for those goods to the loss of their customs status of Union goods.
- (21) With a view to simplifying the use of the export procedure followed by a transit procedure and in order to eliminate the risk that a customs debt and a debt for other charges not covered by a guarantee arises, Union goods exported to a third country and moved through the customs territory of the Union under a TIR operation or under a transit procedure in accordance with the ATA/Istanbul Convention should be required to be placed under the external transit procedure and hence become non-Union goods.
- (22) In order to facilitate the supervision by the customs authorities of movements of goods referred to in Article 1 of Council Directive 2008/118/EC placed under the export procedure followed by the transit procedure, those goods should be allowed to be placed under the external transit procedure, by which they lose their customs status of Union goods.

<sup>(1)</sup> Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax (OJ L 347, 11.12.2006, p. 1).

<sup>(2)</sup> Council Directive 2008/118/EC of 16 December 2008 concerning the general arrangements for excise duty and repealing Directive 92/12/EEC (OJ L 9, 14.1.2009, p. 12).

<sup>(3)</sup> Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code (OJ L 253, 11.10.1993, p. 1).

- (23) In order to facilitate the processing of applications by customs authorities and to make the application process more efficient for economic operators authorised consignors should be allowed to submit applications for an authorisation to use seals of a special type to the customs authority which is competent to grant the status of authorised consignor.
- (24) A number of provisions relating to temporary admission refer to means of transport used privately or commercially. The meaning of those terms should be clarified for the purposes of all the rules on total relief from import duty in the context of temporary admission. The definitions laid down in Article 215(4) of Delegated Regulation (EU) 2015/2446 should therefore be converted into a more general rule in Article 207 of that Delegated Regulation.
- (25) A new paragraph should be introduced into Article 215 of Delegated Regulation (EU) 2015/2446, so that natural persons who have their habitual residence in the customs territory of the Union may benefit from the temporary admission procedure so that they can use privately hired non-Union means of road transport in the Union. Opening this possibility would solve some problems facing car rental agencies and encourage border tourism. However, as temporary admission is mainly designed for persons established outside of the Union, Article 218 should limit such private use to a short period of time.
- (26) The use of the temporary admission procedure in accordance with Article 218, Article 220, Article 223, Article 228 and Articles 231 to 236 of Delegated Regulation (EU) 2015/2446 should also be allowed where the holder of the procedure is established inside the customs territory of the Union. This flexibility is needed because there is no reason justifying a different treatment of persons established in and outside the customs territory of the Union for the purposes of temporary import of certain goods, such as goods to be exhibited or used at a public event.
- (27) In order to ensure that the legal provisions are properly implemented in the relevant electronic systems, certain provisions of Annexes A and B to Delegated Regulation (EU) 2015/2446 should be amended.
- (28) By Decision 94/800/EC <sup>(1)</sup> the Council approved the Agreement on Rules of Origin annexed to the final act signed in Marrakesh on 15 April 1994. Annex 22-01 to Delegated Regulation (EU) 2015/2446 provides for specific rules for determining the country where certain goods underwent their last substantial transformation within the meaning of Article 32 of the same Regulation. Such a list of rules should be extended to include additional products in order to allow a uniform interpretation of the principle of the last substantial transformation for those products. In addition, to ensure that the rules are properly applied, the list is updated to the last version of the goods nomenclature established under the International Convention on the Harmonized Commodity Description and Coding System (Harmonised System).
- (29) Following the publication of Delegated Regulation (EU) 2015/2446, some errors of different types have been detected and need to be corrected. In Articles 124a, 126a, 129a, 129d, 131, 193, 195 and 197, the reference to the Articles of the Code being supplemented needs to be more precise. In Annexes A and B, certain data element need to be better defined. To ensure consistency, the specimens in Annexes B-03 and B-05 containing an error in the numerical reference to the element 'Reference number/UCR' should be replaced and an error in the reference to the common data element 'CN code, net quantity, value (M)' in Annex 71-05 should be corrected. Some wrong references to Council Regulation (EEC) No 2913/92 <sup>(2)</sup>, to Regulation (EEC) No 2454/93 and to the Code should be corrected in Annex 90.
- (30) The amending provisions of this Regulation modify several provisions of Delegated Regulation (EU) 2015/2446 that have proved difficult to apply in practice. They should ensure that the Code and the Delegated Regulation are implemented more in line with economic reality and are therefore urgently needed. This Regulation should therefore enter into force on the day following that of its publication.
- (31) For the sake of legal certainty, the new provision regarding the use of means other than electronic data-processing techniques in relation to applications and decisions for which the relevant data requirements are not set out in Annex A to Delegated Regulation (EU) 2015/2446 should apply from 2 October 2017. On that date,

<sup>(2)</sup> Council Regulation (EEC) No 2913/92 of 12 October 1992 establishing the Community Customs Code (OJ L 302, 19.10.1992, p. 1).

the UCC Customs Decision System referred to in the Annex to Implementing Decision (EU) 2016/578 was deployed and since then, pursuant to Article 2 of Commission Delegated Regulation (EU) 2016/341 <sup>(1)</sup>, the customs authorities can no longer allow the use of means other than electronic data processing techniques for customs decisions and applications. However, after 2 October 2017, certain applications and decisions in the paper form still have had to be used. These should produce effects for a certain period of time and it is neither in the economic operator's interest nor the Member State's interest that their validity is put into question for the lack of due form.

(32) Delegated Regulation (EU) 2015/2446 should therefore be amended and corrected accordingly,

HAS ADOPTED THIS REGULATION:

Where the condition laid down in the first subparagraph is not fulfilled, the country to be stated as country of origin on the proof of origin for the purposes of exporting the products to the Union shall be the country participating in the cumulation where the highest share of the value of the materials used in the manufacture of the final product originates.;

2. Where point (b) of the second subparagraph of Article 116(3) of the Code applies, the time-limit for taking the decision on repayment or remission shall be suspended until such time as the Member State concerned has received the notification of the Commission’s decision on the case involving comparable issues of fact and of law.

3. Where the decision on repayment or remission may be affected by the outcome of one of the following pending administrative procedure or court proceeding, the time-limit for taking the decision on repayment or remission may, with the agreement of the applicant, be extended as follows:

- (a) If a case involving identical or comparable issues of fact and of law is pending before the Court of Justice of the European Union in accordance with Article 267 of the Treaty on the Functioning of the European Union, the time-limit for taking the decision on repayment or remission may be extended for a period ending not later than 30 days after the date of delivery of the judgment of the Court of Justice;

(13) Article 114 is replaced by the following:

‘Article 114

#### **Trade with special fiscal territories**

(Article 1(3) of the Code)

1. Member States shall apply Articles 115 to 118 of this Regulation and Articles 133 to 152 of the Code to Union goods which are brought from or to a special fiscal territory to or from another part of the customs territory of the Union which is not a special fiscal territory and is not located within the same Member State.

2. Where Union goods are dispatched from a special fiscal territory to another part of the customs territory of the Union, which is not a special fiscal territory, but which is located within the same Member State, they shall be presented to customs immediately upon their arrival at that other part of the customs territory of the Union. However, subject to the approval of the customs authority of the Member State concerned, the goods may be presented at the designated customs office or at any other place designated or approved by that customs authority before their departure from the special fiscal territory.

The goods shall be presented to customs by the person who brings the goods to the other part of the customs territory or by the person in whose name or on whose behalf the goods are brought to that part of the customs territory of the Union.

3. Where Union goods are dispatched from a part of the customs territory of the Union, which is not a special fiscal territory, to a special fiscal territory within the same Member State, they shall be presented to customs immediately upon their arrival at the special fiscal territory. **COMMISSION REGULATION (EU) 2018/1065****of 27 July 2018****amending Regulation (EU) No 1178/2011 as regards the automatic validation of Union flight crew licences and take-off and landing training**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 216/2008 of the European Parliament and of the Council of 20 February 2008 on common rules in the field of civil aviation and establishing a European Aviation Safety Agency, and repealing Council Directive 91/670/EEC, Regulation (EC) No 1592/2002 and Directive 2004/36/EC <sup>(1)</sup>, and in particular Article 7(6) thereof,

Whereas:

- (1) Commission Regulation (EU) No 1178/2011 <sup>(2)</sup> lays down technical requirements for the certification of flight simulation training devices, the certification of pilots involved in the operation of certain aircraft, and the certification of persons and organisations involved in the pilot training, testing and checking.
- (2) Following ramp inspections outside the territory of the Member States, when flight crew members were found to be operating aircraft registered in a Member State other than the Member State that had issued their pilot licences, International Civil Aviation Organization (ICAO) amended Annex 1 to the Chicago Convention on International Civil Aviation in order to facilitate the automatic validation of licences through Regional Safety Oversight Organizations' agreements.
- (3) That amendment should be reflected in Regulation (EU) No 1178/2011 so as to allow for the automatic validation of Union flight crew licences in third countries. In accordance with Amendment 174 to ICAO Annex 1, point 1.2.2.3.2.1, there should be a transitional period to allow for the necessary changes to be made to existing pilot licences.
- (4) Since the entry into force of Annex I (Part-FCL) to Regulation (EU) No 1178/2011, which was drafted on the basis of the conditions laid down in Joint Aviation Requirements Flight Crew Licensing 1 (JAR-FCL 1), the Union is pursuing a more competency-based approach to ensure the implementation of proportionate and performance-based requirements for flight crew licences. Therefore, the take-off and landing training requirement during the advanced phase of a multi-crew pilot licence training course should be amended to align it with the ICAO recommendations in Doc 9868 'Procedures for Air Navigation Services — Training' (PANS-TRG).
- (5) The European Aviation Safety Agency submitted draft implementing rules to the Commission together with its Opinion No 16/2016 and Opinion No 03/2017.
- (6) Regulation (EU) No 1178/2011 should therefore be amended accordingly.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the Committee established by Article 65 of Regulation (EC) No 216/2008 of the European Parliament and of the Council,

HAS ADOPTED THIS REGULATION:

*Article 1*

<sup>(\*)</sup> Commission Regulation (EU) 2018/1065 of 27 July 2018 amending Regulation (EU) No 1178/2011 as regards the automatic validation of Union flight crew licences and take-off and landing training (OJ L 192, 30.7.2018, p. 31).’;

(b) in Appendix 5, point 11 is replaced by the following:

‘11. The training course shall include at least 12 take-offs and landings to ensure competency. Those take-offs and landings may be reduced to at least six, provided that prior to delivering the training, the ATO and the operator ensure that:

- (a) a procedure is in place to assess the required level of competency of the student pilot; and
- (b) a process is in place to ensure that corrective action is taken if in-training evaluation indicates the need to do so.

Those take-offs and landings shall be performed under the supervision of an instructor in an aeroplane for which the type rating shall be issued.’;

(3) Annex VI (Part-ARA) is amended as follows:

(a) ARA.GEN.105 is amended as follows:

(i) the following points 3a and 3b are inserted:

‘3a. “ARO.RAMP” means the Subpart RAMP of Annex II to the Regulation on Air Operations;

3b. “Automatically validated” means the acceptance, without formalities, by an ICAO contracting State listed in the ICAO attachment of a flight crew licence issued by a State in accordance with Annex I to the Chicago Convention;’;

(ii) point 12 is replaced by the following:

‘12. “ICAO attachment” means an attachment to an automatically validated flight crew licence issued in accordance with Annex 1 to the Chicago Convention, which is mentioned under item XIII of the flight crew licence;’;

(b) ARA.FCL.200 is amended as follows:

If a pilot intends to fly outside Union territory on an aircraft registered in a Member State other than the Member State that issued the flight crew licence, the competent authority shall:

- (1) add the following remark on the flight crew licence under item XIII: “This licence is automatically validated as per the ICAO attachment to this licence”; and
- (2) make the ICAO attachment available to the pilot in print or electronic format.’;

(c) in Appendix I, point (a)(2)(XIII) is replaced by the following:

‘(XIII) remarks: i.e. special endorsements relating to limitations and endorsements for privileges, including endorsements of language proficiency, remarks on the automatic validation of the licence, and ratings for Annex II aircraft, when used for commercial air transportation; and’.

## COMMISSION IMPLEMENTING DECISION (EU) 2018/1067

of 26 July 2018

**amending Decision 2011/163/EU on the approval of plans submitted by third countries in accordance with Article 29 of Council Directive 96/23/EC**

*(notified under document C(2018) 4804)*

**(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 96/23/EC of 29 April 1996 on measures to monitor certain substances and residues thereof in live animals and animal products and repealing Directives 85/358/EEC and 86/469/EEC and Decisions 89/187/EEC and 91/664/EEC <sup>(1)</sup>, and in particular the fourth subparagraph of Article 29(1) thereof,

Whereas:

- (1) Article 29 of Directive 96/23/EC requires that third countries from which Member States are authorised to import animals and animal products covered by that Directive submit residue monitoring plans providing required guarantees ('the plans'). The plans should cover at least the groups of residues and substances listed in Annex I to that Directive.
- (2) Commission Decision 2011/163/EU <sup>(2)</sup> approves the plans submitted by certain third countries concerning specified animal and animal products listed in the Annex to that Decision ('the list').
- (3) In the light of the recent plans submitted by certain third countries and additional information obtained by the Commission, it is necessary to update the list.
- (4) Bosnia and Herzegovina has submitted a plan for bovine, ovine and porcine meat to the Commission. That plan provides sufficient guarantees and should be approved. The entries for Bosnia and Herzegovina for bovine, ovine and porcine meat should therefore be included in the list.
- (5) Greenland is included in the list for ovine meat, farmed and wild game. However, Greenland informed the Commission that it is no longer interested to export wild game meat to the Union, as the wild game meat is sold only domestically. The entry for Greenland for wild game should therefore be removed from the list.
- (6) Decision 2011/163/EU should therefore be amended accordingly.
- (7) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

**COMMISSION IMPLEMENTING DECISION (EU) 2018/1068****of 27 July 2018****amending the Annex to Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States***(notified under document C(2018) 5121)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market <sup>(1)</sup>, and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market <sup>(2)</sup>, and in particular Article 10(4) thereof,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption <sup>(3)</sup>, and in particular Article 4(3) thereof,

Whereas:

- (1) Commission Implementing Decision 2014/709/EU <sup>(4)</sup> lays down animal health control measures in relation to African swine fever in certain Member States, where there have been confirmed cases of that disease in domestic or feral pigs (the Member States concerned). The Annex to that Implementing Decision demarcates and lists certain areas of the Member States concerned in Parts I to IV thereof, differentiated by the level of risk based on the epidemiological situation as regards that disease. The Annex to Implementing Decision 2014/709/EU has been amended several times to take account of changes in the epidemiological situation in the Union as regards African swine fever that need to be reflected in that Annex. The Annex to Implementing Decision 2014/709/EU was last amended by Commission Implementing Decision (EU) 2018/1036 <sup>(5)</sup>, following recent instances of African swine fever in Latvia, Lithuania, Poland and Romania.
- (2) The risk of the spread of African swine fever in wildlife is linked to the natural slow spread of that disease among feral pig populations, and also the risks linked to human activity, as demonstrated by the recent epidemiological evolution of that disease in the Union, and as documented by the European Food Safety Authority (EFSA) in the Scientific Opinion of the Panel on Animal Health and Welfare, published on 14 July 2015; in the Scientific Report of EFSA on Epidemiological analyses on African swine fever in the Baltic countries and Poland, published on 23 March 2017; and in the Scientific Report of EFSA on Epidemiological analyses of African swine fever in the Baltic States and Poland, published on 7 November 2017 <sup>(6)</sup>.
- (3) Since the date of adoption of Implementing Decision (EU) 2018/1036, the epidemiological situation in the Union has evolved as regards African swine fever, and there have been further instances of that disease that need to be reflected in the Annex to Implementing Decision 2014/709/EU.
- (4) In July 2018, three outbreaks of African swine fever in domestic pigs were observed in the counties of Chełm, Włodawa and Hrubieszów in Poland. These outbreaks of African swine fever in domestic pigs constitute an increased level of risk which should be reflected in the Annex to Implementing Decision 2014/709/EU. Accordingly, these areas of Poland affected by African swine fever should now be listed in Part III of that Annex instead of in Part II thereof.

<sup>(2)</sup> OJ L 224, 18.8.1990, p. 29.

<sup>(4)</sup> Commission Implementing Decision 2014/709/EU of 9 October 2014 concerning animal health control measures relating to African swine fever in certain Member States and repealing Implementing Decision 2014/178/EU (OJ L 295, 11.10.2014, p. 63).

<sup>(5)</sup> Commission Implementing Decision (EU) 2018/1036 of 19 July 2018 amending the Annex to Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States (OJ L 185, 23.7.2018, p. 29).

- (5) In July 2018, two outbreaks of African swine fever in domestic pigs were observed in the counties of Marijampolė and Šiauliai in Lithuania. These outbreaks of African swine fever in domestic pigs constitute an increased level of risk which should be reflected in the Annex to Implementing Decision 2014/709/EU. Accordingly, these areas of Lithuania affected by African swine fever should now be listed in Part III of that Annex instead of in Part I and Part II thereof.
- (6) In July 2018, one outbreak of African swine fever in domestic pigs was observed in the county of Kuldīga in Latvia. This outbreak of African swine fever in domestic pigs constitutes an increased level of risk which should be reflected in the Annex to Implementing Decision 2014/709/EU. Accordingly, this area of Latvia affected by African swine fever should now be listed in Part III of that Annex instead of in Part II thereof.
- (7) In July 2018, four cases of African swine fever in feral pigs were observed in the counties of Kętrzyn, Koźienice and Lubartów in Poland. These cases of African swine fever in feral pigs constitute an increased level of risk which should be reflected in the Annex to Implementing Decision 2014/709/EU. Accordingly, these areas of Poland affected by African swine fever should now be listed in Part II of that Annex instead of in Part I thereof.
- (8) In July 2018, one case of African swine fever in feral pig was observed in the county of Klaipėda in Lithuania. This case of African swine fever in feral pig constitutes an increased level of risk which should be reflected in the Annex to Implementing Decision 2014/709/EU. Accordingly, this area of Lithuania affected by African swine fever should now be listed in Part II of that Annex.
- (9) In order to take account of recent developments in the epidemiological evolution of African swine fever in the Union, and in order to combat the risks associated with the spread of that disease in a proactive manner, new high-risk areas of a sufficient size should be demarcated for Latvia, Lithuania and Poland and duly listed in the Annex to Implementing Decision 2014/709/EU. That Annex should therefore be amended accordingly.
- (10) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:
