INTERNATIONAL AGREEMENTS

Information concerning the entry into force of the Multilateral Agreement between the European Community and its Member States, the Republic of Albania, Bosnia and Herzegovina, the Republic of Bulgaria, the Republic of Croatia, the former Yugoslav Republic of Macedonia, the Republic of Iceland, the Republic of Montenegro, the Kingdom of Norway, Romania, the Republic of Serbia and the United Nations Interim Administration Mission in Kosovo* on the establishment of a European Common Aviation Area (ECAA)

The Multilateral Agreement between the European Community and its Member States, the Republic of Albania, Bosnia and Herzegovina, the Republic of Bulgaria, the Republic of Croatia, the former Yugoslav Republic of Macedonia, the Republic of Iceland, the Republic of Montenegro, the Kingdom of Norway, Romania, the Republic of Serbia and the United Nations Interim Administration Mission in Kosovo on the establishment of a European Common Aviation Area (ECAA), signed in Luxembourg and Brussels in 2006, entered into force on 1 December 2017, in accordance with Article 29(2) of the Agreement, as the last notification was given on 25 October 2017.

* This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.

REGULATIONS

COMMISSION IMPLEMENTING REGULATION (EU) 2019/49

of 4 January 2019

concerning the authorisation of sodium selenite, coated granulated sodium selenite and zinc-L-selenomethionine as feed additives for all animal species

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition ⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such authorisation. Article 10 of that Regulation provides for the re-evaluation of additives authorised pursuant to Council Directive 70/524/EEC ⁽²⁾.
- (2) Sodium selenite was authorised without a time limit as a feed additive for all animal species in accordance with Directive 70/524/EEC. This substance was subsequently entered in the Register of feed additives as an existing product, in accordance with Article 10(1) of Regulation (EC) No 1831/2003.
- (3) In accordance with Article 10(2) of Regulation (EC) No 1831/2003 in conjunction with Article 7 thereof, an application was submitted for the re-evaluation of sodium selenite as a feed additive for all animal species. In the framework of the re-evaluation an application was submitted also for a coated granulated form of sodium selenite.
- (4) In accordance with Article 7 of Regulation (EC) No 1831/2003 an application was submitted for the authorisation of zinc-L-selenomethionine as a feed additive for all animal species.
- (5) The applicants requested that sodium selenite, coated granulated sodium selenite and zinc-L-selenomethionine be classified in the additive category 'nutritional additives'. Those applications were accompanied by the particulars and documents required under Article 7(3) of Regulation (EC) No 1831/2003.
- (6) The European Food Safety Authority ('the Authority') concluded in its opinions of 20 October 2015 ⁽³⁾, 28 January 2016 ⁽⁴⁾, 8 March 2016 ⁽⁵⁾ and 20 February 2018 ⁽⁶⁾ that, under the proposed conditions of use, sodium selenite, coated granulated sodium selenite and zinc-L-selenomethionine do not have adverse effects on animal health, human health or the environment. With respect to the limitation of the supplementation with organic selenium established for other organic compounds of selenium, the Authority concluded that it should also apply to zinc-L-selenomethionine. Moreover, the Authority concluded that sodium selenite, coated granulated sodium selenite and zinc-L-selenomethionine may be considered as efficient sources of selenium for all animal species. The Authority does not consider that there is a need for specific requirements of post-market monitoring. It also verified the reports on the method of analysis of the feed additives in feed submitted by the Reference Laboratory set up by Regulation (EC) No 1831/2003.
- (7) The assessment of sodium selenite, coated granulated sodium selenite and zinc-L-selenomethionine shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied.

⁽¹⁾ OJ L 268, 18.10.2003, p. 29.

⁽²⁾ Council Directive 70/524/EEC of 23 November 1970 concerning additives in feedingstuffs (OJ L 270, 14.12.1970, p. 1).

⁽³⁾ EFSA Journal 2015;13(11):4271.

⁽⁴⁾ EFSA Journal 2016;14(2):4398.

⁽⁵⁾ EFSA Journal 2016;14(3):4442.

⁽⁶⁾ EFSA Journal 2018;16(3):5197.

- (8) Since safety reasons do not require the immediate application of the modifications to the conditions of authorisation for the substance sodium selenite, it is appropriate to allow a transitional period for interested parties to prepare themselves to meet the new requirements resulting from the authorisation.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Authorisation

The substances specified in the Annex, belonging to the additive category 'nutritional additives' and to the functional group 'compounds of trace elements', are authorised as feed additives in animal nutrition, subject to the conditions laid down in that Annex.

Article 2

Transitional measures

1. Sodium selenite and premixtures containing that substance, which are produced and labelled before 3 August 2019 in accordance with the rules applicable before 3 February 2019 may continue to be placed on the market and used until the existing stocks are exhausted.
2. Feed materials and compound feed containing sodium selenite which are produced and labelled before 3 February 2020 in accordance with the rules applicable before 3 February 2019 may continue to be placed on the market and used until the existing stocks are exhausted if they are intended for food-producing animals.
3. Feed materials and compound feed containing sodium selenite which are produced and labelled before 3 February 2021 in accordance with the rules applicable before 3 February 2019 may continue to be placed on the market and used until the existing stocks are exhausted if they are intended for non-food-producing animals.

Article 3

Entry into force

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 4 January 2019.

COMMISSION REGULATION (EU) 2019/50**of 11 January 2019****amending Annexes II, III, IV and V to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for chlorantraniliprole, clomazone, cyclaniliprole, fenazaquin, fenpicoxamid, fluoxastrobin, lambda-cyhalothrin, mepiquat, onion oil, thiacloprid and valifenalate in or on certain products****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 5(1), Article 14(1)(a) and Article 18(1)(b) thereof,

Whereas:

- (1) For clomazone, fluoxastrobin, lambda-cyhalothrin, mepiquat and thiacloprid, maximum residue levels (MRLs) were set in Annex II to Regulation (EC) No 396/2005. For chlorantraniliprole, fenazaquin and valifenalate, MRLs were set in Part A of Annex III to that Regulation. For cyclaniliprole, fenpicoxamid and onion oil, no specific MRLs were set nor were those substances included in Annex IV to that Regulation, so the default value of 0,01 mg/kg laid down in Article 18(1)(b) thereof applies.
- (2) On 4 July 2009, Codex Alimentarius Commission adopted a Codex maximum residue limit (CXL) for lambda-cyhalothrin in rye ⁽²⁾.
- (3) In accordance with Article 5(3) of Regulation (EC) No 178/2002 of the European Parliament and of the Council ⁽³⁾, where international standards exist or their completion is imminent, they are to be taken into consideration in the development or adaptation of food law, except where such standards or relevant parts would be an ineffective or inappropriate means for the fulfilment of the legitimate objectives of food law or where there is a scientific justification, or where they would result in a different level of protection from the one determined as appropriate in the Union. Moreover, in accordance with point (e) of Article 13 of that Regulation, the Union is to promote consistency between international technical standards and food law while ensuring that the high level of protection adopted in the Union is not reduced.
- (4) The CXL for lambda-cyhalothrin in rye is safe for consumers in the Union ⁽⁴⁾ and should therefore be included in Regulation (EC) No 396/2005 as MRL.
- (5) In the context of a procedure for the authorisation of the use of a plant protection product containing the active substance clomazone on chamomile and plantains, an application was submitted in accordance with Article 6(1) of Regulation (EC) No 396/2005 for modification of the existing MRLs.
- (6) As regards fluoxastrobin, such an application was submitted for garlic, rapeseed, linseeds, poppy seeds, mustard seeds and gold of pleasure seeds. As regards mepiquat, such an application was submitted for rapeseed, linseeds,

⁽¹⁾ OJ L 70, 16.3.2005, p. 1.

Joint FAO/WHO food standards programme Codex Alimentarius Commission. Appendices III and IV. Thirty-second Session. Rome, Italy, 29 June-4 July 2009.

⁽³⁾ Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety (OJ L 31, 1.2.2002, p. 1).

⁽⁴⁾ Revision of the review of the existing maximum residue levels for the active substance lambda-cyhalothrin. *EFSA Journal* 2015;13(12):4324.

poppy seeds, mustard seeds, gold of pleasure seeds, sunflower seeds, liver (from swine, sheep and goat), kidney (from swine), milks and eggs. As regards thiacloprid, such an application was submitted for borage seeds and radishes. As regards valifenalate, such an application was submitted for tomatoes, aubergines, lettuces, onions, shallots and garlic.

- (7) In accordance with Article 6(2) and (4) of Regulation (EC) No 396/2005 applications were submitted for chlorantraniliprole and fenazaquin used in the United States on hops and almonds, respectively. The applicants claim that the authorised uses of those substances on such crops in the United States lead to residues exceeding the MRLs contained in Regulation (EC) No 396/2005 and that higher MRLs are necessary to avoid trade barriers for the importation of those crops.
- (8) In accordance with Article 8 of Regulation (EC) No 396/2005, those applications were evaluated by the Member States concerned and the evaluation reports were forwarded to the Commission.
- (9) The European Food Safety Authority, hereinafter 'the Authority', assessed the applications and the evaluation reports, examining in particular the risks to the consumer and, where relevant, to animals and gave reasoned opinions on the proposed MRLs ⁽⁵⁾. It forwarded those opinions to the applicants, the Commission and the Member States and made them available to the public.
- (10) As regards fluoxastrobin in garlic, the Authority assessed an application with a view of setting an MRL for onions and gave a reasoned opinion on the proposed MRL ⁽⁶⁾. In accordance with the existing Union guidelines on extrapolation of MRLs, it is appropriate to set the MRL for onions also for garlic.
- (11) As regards all other applications, the Authority concluded that all requirements with respect to data were met and that the modifications to the MRLs requested by the applicants were acceptable with regard to consumer safety on the basis of a consumer exposure assessment for 27 specific European consumer groups. It took into account the most recent information on the toxicological properties of the substances. Neither the lifetime exposure to these substances via consumption of all food products that may contain them, nor the short-term exposure due to high consumption of the relevant products showed that there is a risk that the acceptable daily intake or the acute reference dose is exceeded.
- (12) For mepiquat temporary MRLs were set by Commission Regulation (EU) 2016/1003 ⁽⁷⁾ for cultivated fungi until 31 December 2018 to address a cross-contamination that affected untreated cultivated fungi with straw lawfully treated with mepiquat. Member States and the Authority have submitted recent monitoring data showing that residues of mepiquat still occur at levels above the relevant limit of determination. It is therefore appropriate to extend the validity of the current MRL set at 0,09 mg/kg. The MRL will be reviewed; the review will take into account the information available within four years from the publication of this Regulation.

⁽⁵⁾ EFSA scientific reports available online:

Reasoned opinion on the modification of the existing maximum residue levels for mepiquat in various oilseeds and animal commodities. *EFSA Journal* 2018;16(7):5380.

Reasoned opinion on the modification of the existing maximum residue levels for thiacloprid in corn gromwell seeds and radish. *EFSA Journal* 2018;16(6):5313.

Reasoned opinion on the modification of the existing maximum residue levels for valifenalate in various crops. *EFSA Journal* 2018;16(6):5289.

Reasoned opinion on the setting of an import tolerance for chlorantraniliprole in hops. *EFSA Journal* 2018;16(6):5312.

Reasoned opinion on the setting of an import tolerance for fenazaquin in almonds. *EFSA Journal* 2018;16(7):5330.

⁽⁶⁾ Reasoned opinion on the review of the existing maximum residue levels (MRLs) for fluoxastrobin according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2012;10(12):3012.

⁽⁷⁾ Commission Regulation (EU) 2016/1003 of 17 June 2016 amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for abamectin, acequinocyl, acetamiprid, benzovindiflupyr, bromoxynil, fludioxonil, fluopicolide, fosetyl, mepiquat, proquinazid, propamocarb, prohexadione and tebuconazole in or on certain products (OJ L 167, 24.6.2016, p. 46).

- (13) As regards lambda-cyhalothrin, several MRLs were modified by Commission Regulation (EU) 2018/960 ⁽⁸⁾. That Regulation lowers the MRL for rye to the limit of determination, omitting the existing CXL for rye, as of 26 January 2019. In the interest of legal certainty, it is appropriate for the MRL provided for by this Regulation, to apply from the same date.
- (14) In the context of the approval of the active substance fenpicoxamid, an MRL application was included in the summary dossier in accordance with Article 8(1)(g) of Regulation (EC) No 1107/2009 of the European Parliament and of the Council ⁽⁹⁾. Such application was evaluated by the Member State concerned in accordance with Article 11(2) of that Regulation. The Authority assessed the application and delivered a conclusion on the peer review of the pesticide risk assessment of the active substance, where it recommended setting MRLs covering the representative uses on rye and wheat according to Good Agricultural Practices (GAPs) in the Union and an import tolerance request for bananas from Panama ⁽¹⁰⁾.
- (15) Onion oil is approved as basic substance by Commission Implementing Regulation (EU) 2018/1295 ⁽¹¹⁾. The conditions of use of that substance are not expected to lead to the presence of residues in food or feed commodities that may pose a risk to the consumer. It is therefore appropriate to include that substance in Annex IV to Regulation (EC) No 396/2005.
- (16) The active substance cyclaniliprole was not approved by Commission Implementing Regulation (EU) 2017/357 ⁽¹²⁾. As no MRLs were set in Regulation (EC) No 396/2005, it is appropriate to include the substance in Annex V to that Regulation.
- (17) Based on the reasoned opinions and the conclusion of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (18) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (19) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes II, III, IV and V to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2019. However, it shall apply from 26 January 2019 for the MRL for lambda-cyhalothrin in rye.

⁽¹¹⁾ Commission Implementing Regulation (EU) 2018/1295 of 26 September 2018 approving the basic substance Onion oil in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market, and amending the Annex to Commission Implementing Regulation (EU) No 540/2011 (OJ L 243, 27.9.2018, p. 7).

⁽¹²⁾ Commission Implementing Regulation (EU) 2017/357 of 28 February 2017 concerning the non-approval of the active substance cyclaniliprole, in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market (OJ L 54, 1.3.2017, p. 4).

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 11 January 2019.

For the Commission

The President

Jean-Claude JUNKER

ANNEX

Annexes II, III, IV and V to Regulation (EC) No 396/2005 are amended as follows:

(1) Annex II is amended as follows:

- (a) the columns for clomazone, fluoxastrobin, lambda-cyhalothrin, mepiquat and thiacloprid are replaced by the following:

Pesticide residues and maximum residue levels (mg/kg)

Code number	Groups and examples of individual products to which the MRLs apply ^(a)	Clomazone	Fluoxastrobin (sum of fluoxastrobin and its Z-isomer) (R)	Lambda-Cyhalothrin (F) (R)	Mepiquat (sum of mepiquat and its salts, expressed as mepiquat chloride)	Thiacloprid

(*) Limit of analytical determination

(a) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

(F) = Fat soluble

Clomazone

(+) The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 17 August 2015, or, if that information is not submitted by that date, the lack of it.

0232010 Cucumbers

0233010 Melons

0244000 (d) kohlrabies

Fluoxastrobin (sum of fluoxastrobin and its Z-isomer) (R)

(R) = The residue definition differs for the following combinations pesticide-code number:

Fluoxastrobin — code 1000000 except 1040000: "Fluoxastrobin (sum of fluoxastrobin, its Z-isomer and its metabolite 6-(2-chlorophenoxy)-5-fluoro-4-pyrimidinol, expressed as fluoxastrobin) (F)"

(+) The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 29 June 2018, or, if that information is not submitted by that date, the lack of it.

0500010 Barley

0500050 Oat

Lambda-Cyhalothrin (F) (R)

(R) = The residue definition differs for the following combinations pesticide-code number:

Lambda-Cyhalothrin - code 1000000 except 1040000: Lambda-cyhalothrin, including other mixed isomeric constituents (sum of isomers)

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0110000 Citrus fruits

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0120000 Tree nuts

0130000 Pome fruits

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0140010 Apricots

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0140020 Cherries (sweet)

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0140030 Peaches

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0140040 Plums

0140990 Others (2)

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia and XI) formed under sterilization conditions and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0150000 Berries and small fruits

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0151000 (a) grapes

0152000 (b) strawberries

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions, residue trials and storage stability as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0153000 (c) cane fruits

0154000 (d) other small fruits and berries

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0161000 (a) edible peel

0162000 (b) inedible peel, small

0163010 Avocados

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0163020 Bananas

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0163030 Mangoes

0163040 Papayas

0163050 Granate apples/pomegranates

0163060 Cherimoyas

0163070 Guavas

0163080 Pineapples

0163090 Breadfruits

0163100 Durians

0163110 Soursops/guanabanas

0163990 Others (2)

0210000 Root and tuber vegetables

0220010 Garlic

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0220020 Onions

0220030 Shallots

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0220040 Spring onions/green onions and Welsh onions

0220990 Others (2)

0231000 (a) Solanaceae and Malvaceae

0232000 (b) cucurbits with edible peel

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0232010 Cucumbers

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0232020 Gherkins

0232030 Courgettes

0232990 Others (2)

0233000 (c) cucurbits with inedible peel

0234000 (d) sweet corn

0239000 (e) other fruiting vegetables

0241000 (a) flowering brassica

0242000 (b) head brassica

0243000 (c) leafy brassica

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0243010 Chinese cabbages/pe-tsai

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0243020 Kales

0243990 Others (2)

0244000 (d) kohlrabies

0251010 Lamb's lettuces/corn salads

0251020 Lettuces

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0251030 Escaroles/broad-leaved endives

0251040 Cresses and other sprouts and shoots

0251050 Land cresses

0251060 Roman rocket/rucola

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0251070 Red mustards

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0251080 Baby leaf crops (including brassica species)

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0251990 Others (2)

0252000 (b) spinaches and similar leaves

0253000 (c) grape leaves and similar species

0254000 (d) watercresses

0255000 (e) witloofs/Belgian endives

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0256000 (f) herbs and edible flowers

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0260000 Legume vegetables

0270010 Asparagus

0270020 Cardoons

0270030 Celeries

0270040 Florence fennels

0270050 Globe artichokes

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0270060 Leeks

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0270070 Rhubarbs

0270080 Bamboo shoots

0270090 Palm hearts

0270990 Others (2)

0280000 Fungi, mosses and lichens

0290000 Algae and prokaryotes organisms

0300000 PULSES

0400000 OILSEEDS AND OIL FRUITS

0500010 Barley

0500020 Buckwheat and other pseudocereals

0500030 Maize/corn

0500040 Common millet/proso millet

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0500050 Oat

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0500060 Rice

0500070 Rye

0500080 Sorghum

0500090 Wheat

0500990 Others (2)

0600000 TEAS, COFFEE, HERBAL INFUSIONS, COCOA AND CAROBS

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions, residue trials and analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0700000 HOPS

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0800000 SPICES

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

0900000 SUGAR PLANTS

1000000 PRODUCTS OF ANIMAL ORIGIN -TERRESTRIAL ANIMALS

1010000 Commodities from

1011000 (a) swine

1011010 Muscle

1011020 Fat

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and on the toxicological properties of some others (compounds Ia and XI) as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

1011030 Liver

1011040 Kidney

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

1011050 Edible offals (other than liver and kidney)

1011990 Others (2)

1012000 (b) bovine

1012010 Muscle

1012020 Fat

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and on the toxicological properties of some others (compounds Ia and XI) as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

1012030 Liver

1012040 Kidney

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

1012050 Edible offals (other than liver and kidney)

1012990 Others (2)

1013000 (c) sheep

1013010 Muscle

1013020 Fat

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and on the toxicological properties of some others (compounds Ia and XI) as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

1013030 Liver

1013040 Kidney

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

1013050 Edible offals (other than liver and kidney)

1013990 Others (2)

1014000 (d) goat

1014010 Muscle

1014020 Fat

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions and on the toxicological properties of some others (compounds Ia and XI) as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

1014030 Liver

1014040 Kidney

- (+) The European Food Safety Authority identified some information on certain metabolites (compounds Ia, IV and gamma-lactone) formed under sterilization conditions as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 6 July 2020, or, if that information is not submitted by that date, the lack of it.

1014050 Edible offals (other than liver and kidney)

(*) Limit of analytical determination

(^a) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

Fenpicoxamid (F) (R)

(R) = The residue definition differs for the following combinations pesticide-code number:

Fenpicoxamid - code 1000000 except 1040000: X12326349 expressed as fenpicoxamid'

(2) In Part A of Annex III, the columns for chlorantraniliprole, fenazaquin and valifenalate are replaced by the following:

Pesticide residues and maximum residue levels (mg/kg)

Code number	Groups and examples of individual products to which the MRLs apply (^a)	Chlorantraniliprole (DPX E-2Y4 5) (F)	Fenazaquin	Valifenalate

COMMISSION IMPLEMENTING REGULATION (EU) 2019/51**of 11 January 2019****amending Council Regulation (EC) No 1210/2003 concerning certain specific restrictions on economic and financial relations with Iraq**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1210/2003 of 7 July 2003 concerning certain specific restrictions on economic and financial relations with Iraq and repealing Regulation (EC) No 2465/96 ⁽¹⁾, and in particular Article 11(b) thereof,

Whereas:

- (1) Annex III to Regulation (EC) No 1210/2003 lists public bodies, corporations and agencies and natural and legal persons, bodies and entities of the previous government of Iraq covered by the freezing of funds and economic resources that were located outside Iraq on the date of 22 May 2003 under that Regulation.
- (2) On 8 January 2019, the Sanctions Committee of the United Nations Security Council decided to remove three entries from the list of persons or entities to whom the freezing of funds and economic resources should apply.
- (3) Annex III to Regulation (EC) No 1210/2003 should therefore be amended accordingly,

HAS ADOPTED THIS REGULATION:

Article 1

Annex III to Regulation (EC) No 1210/2003 is amended as set out in the Annex to this Regulation.

*Article 2*This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 11 January 2019.

*For the Commission,**On behalf of the President,**Head of the Service for Foreign Policy Instruments*

⁽¹⁾ OJ L 169, 8.7.2003, p. 6.

ANNEX

In Annex III to Council Regulation (EC) No 1210/2003, the following entries are deleted:

- ‘42. GENERAL ESTABLISHMENT FOR DESIGNS AND RESEARCH. Address: P.O. Box 6061, Aamiriya, 7 Nisan, Aamiriya, Iraq.’
 - ‘126. STATE ENTERPRISE FOR ALUMINUM SEMI PRODUCTS. Address: P.O. Box 38, Nasiriyah, Iraq.’
 - ‘130. STATE ENTERPRISE FOR CABLES AND WIRES (alias STATE CABLES AND WIRES ENTERPRISE). Address: P.O. Box 44, Nassiriyah, Iraq.’
-

DECISIONS

COUNCIL DECISION (EU) 2019/52

of 20 December 2018

authorising the opening of negotiations for an agreement amending the existing tariff rate quota for poultry meat and poultry meat preparations and amending the existing tariff regime for other poultry cuts, set out in Annex I-A to Chapter 1 of the Association Agreement between the European Union and its Member States, of the one part, and Ukraine, of the other part

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular the first subparagraph of Article 207(4), in conjunction with Article 218(3) and (4) thereof,

Having regard to the recommendation from the European Commission,

Whereas:

- (1) The Association Agreement between the European Union and the European Atomic Energy Community and their Member States, of the one part, and Ukraine, of the other part ⁽¹⁾ ('the Association Agreement') was signed at Brussels on 21 March and 27 June 2014. It was applied provisionally from 1 January 2016 and entered into force on 1 September 2017.
- (2) A new type of poultry cut under the tariff lines CN 0207 13 70 ('other cuts fresh or chilled') and CN 0207 14 70 ('other cuts frozen') have been imported into the Union from Ukraine since mid-2016. Those imports have risen sharply and reached 25 000 tons in the first six months of 2018. Under the Association Agreement, those imports can enter the Union market at zero duty without any quantitative limits.
- (3) The new type of poultry cut consists of a traditional breast cap with the humerus bones of the wings attached and can, after minimal transformation in the Union, be marketed in the Union as poultry breast. Unlimited imports of those cuts therefore risk undermining the conditions under which traditional poultry breast cuts may be imported into the Union under the Association Agreement, in particular the quantitative restrictions in the form of a tariff rate quota.
- (4) Negotiations should therefore be opened with a view to concluding an agreement amending the Association Agreement as regards the volume of the tariff rate quota for poultry meat and poultry meat preparations, and the reinstatement of the Most Favoured Nation duty for imports from Ukraine in excess of that tariff rate quota,

HAS ADOPTED THIS DECISION:

Article 1

The Commission is hereby authorised to negotiate on behalf of the Union an amendment to the tariff schedule of the Union for the two tariff lines CN 0207 13 70 ('other cuts fresh or chilled') and CN 0207 14 70 ('other cuts frozen') in Annex I-A to Chapter 1 and to the tariff rate quota for poultry meat and poultry meat preparations in the Appendix to Annex I-A to the Association Agreement.

Article 2

The negotiations shall be conducted on the basis of the negotiating directives of the Council set out in the addendum to this Decision.

Article 3

The negotiations shall be conducted in consultation with the Trade Policy Committee as provided for in the third subparagraph of Article 207(3) of the Treaty on the Functioning of the European Union.

The President
E. KÖSTINGER

COUNCIL DECISION (EU) 2019/53**of 20 December 2018****on the position to be taken on behalf of the European Union at the Conference of the Parties to the Rotterdam Convention regarding compliance procedures**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Articles 192(1) and 207(3), in conjunction with Article 218(9) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) The Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade ('the Convention') was concluded on behalf of the Union by means of Council Decision 2006/730/EC ⁽¹⁾ and entered into force on 24 February 2004.
- (2) Pursuant to Article 22 of the Convention, the Conference of the Parties may adopt additional annexes to the Convention that relate to procedural, scientific, technical or administrative matters.
- (3) At the 9th ordinary meeting of the Conference of the Parties, which is to take place from 29 April to 10 May 2019, the Parties will consider the adoption of an additional procedural annex in order to introduce a non-compliance mechanism as required by Article 17 of the Convention.
- (4) It is appropriate to establish the position to be taken on the Union's behalf in the Conference of the Parties, as the additional procedural annex will be binding on the Union.
- (5) The Union reaffirms that it is crucial to promote and to commit globally towards a better implementation of multilateral environmental agreements and standards.
- (6) To the extent that the Convention falls both within the competence of the Union and the competence of the Member States, the Commission and the Member States should cooperate closely for the adoption of a compliance mechanism, aiming for unity in the international representation of the Union,

HAS ADOPTED THIS DECISION:

Article 1

The position to be taken on the Union's behalf in the upcoming Conference of the Parties to the Rotterdam Convention shall be to support the draft act on compliance attached to this Decision.

Minor changes to the draft act on compliance attached to this Decision may be agreed to, in the light of developments at the upcoming Conference of the Parties, by representatives of the Union, in consultation with Member States, during on-the-spot coordination meetings, without a further decision of the Council.

Article 2

This Decision shall enter into force on the date of its adoption.

⁽¹⁾ Council Decision 2006/730/EC of 25 September 2006 on the conclusion, on behalf of the European Community, of the Rotterdam Convention on the Prior Informed Consent Procedure for certain hazardous chemicals and pesticides in international trade (OJ L 299, 28.10.2006, p. 23).

Article 3

This Decision shall be published in the *Official Journal of the European Union*.

Done at Brussels, 20 December 2018.

ANNEX

Draft decision RC-9/[]: Procedures and mechanisms on compliance with the Rotterdam Convention**Submission by ...**

Decides to adopt Annex VII to the Convention, setting out procedures and mechanisms on compliance with the Rotterdam Convention, as contained in the annex to the present decision.

*Appendix***Annex VII: Procedures and mechanisms on compliance with the Rotterdam Convention**

- (1) A compliance committee (hereinafter referred to as 'the Committee') is hereby established.

Members

- (2) The Committee shall consist of 15 members. Members shall be nominated by parties and elected by the Conference of the Parties on the basis of equitable geographical representation of the five regional groups of the United Nations.
- (3) Members shall have expertise and specific qualifications in the subject matter covered by the Convention. They shall serve objectively and in the best interests of the Convention.

Election of members

- (4) At its first meeting after the entry into force of this annex, the Conference of the Parties shall elect eight members of the Committee for one term and seven members for two terms. The Conference of the Parties shall, at each ordinary meeting thereafter, elect for two full terms new members to replace those members whose period of office has expired or is about to expire. Members shall not serve for more than two consecutive terms. For the purpose of this annex, 'term' shall mean the period that begins at the end of one ordinary meeting of the Conference of the Parties and ends at the end of the next ordinary meeting of the Conference of the Parties.
- (5) If a member of the Committee resigns or is otherwise unable to complete his or her term of office or to perform his or her functions, the party who nominated that member shall nominate an alternate to serve for the remainder of the term.

Officers

- (6) The Committee shall elect its own Chair. A vice-chair and a rapporteur shall be elected, on a rotating basis, by the Committee in accordance with rule 30 of the rules of procedure of the Conference of the Parties.

Meetings

- (7) The Committee shall hold meetings as necessary and wherever possible in conjunction with meetings of the Conference of the Parties or other Convention bodies.
- (8) Subject to paragraph 9 below, the meetings of the Committee shall be open to parties and the public unless the Committee decides otherwise.

When the Committee is dealing with submissions pursuant to paragraph 12 or 13, the meetings of the Committee shall be open to parties and closed to the public unless the party whose compliance is in question agrees otherwise.

The parties or observers to whom the meeting is open shall not have a right to participate in the meeting unless the Committee and the party whose compliance is in question agree otherwise.

- (9) Where a submission is made with regard to the possible non-compliance of a party, it shall be invited to participate in the consideration of the submission by the Committee. Such a party, however, may not take part in the elaboration and adoption of a recommendation or conclusion of the Committee.
- (10) The Committee shall make every effort to reach agreement on all matters of substance by consensus. Where this is not possible, the report shall reflect the views of all the Committee members. If all efforts to reach consensus have been exhausted and no agreement has been reached, any decision shall, as a last resort, be taken by a four-fifths majority of the members present and voting or by eight members, whichever is greater. Ten members of the Committee shall constitute a quorum.
- (11) Each member of the Committee shall, in respect of any matter that is under consideration by the Committee, avoid direct or indirect conflicts of interest. When a member finds himself or herself faced with a direct or indirect conflict of interest, or is a citizen of a party whose compliance is in question, that member shall bring the issue to the attention of the Committee before consideration of the matter. The concerned member shall not participate in the elaboration and adoption of a recommendation of the Committee in relation to that matter.

- (12) Submissions may be made in writing, through the Secretariat where subparagraphs (a) and (b) apply, by:
- (a) A party which believes that, despite its best endeavours, it is, or will be, unable to comply with certain obligations under the Convention. Such a submission should include details as to which specific obligations are concerned and an assessment of the reason why the party may be unable to meet those obligations. Where possible, substantiating information, or advice as to where such substantiating information may be found, may be provided. The submission may include suggestions for solutions which the party considers may be most appropriate to its particular needs.
 - (b) A party that is directly affected or likely to be directly affected by another party's alleged failure to comply with the obligations of the Convention. A party intending to make a submission under this subparagraph should before so doing undertake consultations with the party whose compliance is in question. The submission should include details as to which specific obligations are concerned, and information substantiating the submission, including how the party is affected or likely to be affected.
- (13) The Committee in order to assess possible difficulties faced by parties in fulfilling their obligations under the Articles 4(1), 5 (1) and (2) and 10 of the Convention, upon receipt of information from the Secretariat provided by such Parties pursuant to those provisions, shall notify the party in writing regarding the matter of concern. If the matter has not been resolved within 90 days by consultation through the Secretariat with the party concerned and the Committee considers the matter further, it shall do so in accordance with paragraphs 16 to 24.
- (14) The Secretariat shall forward submissions made under subparagraph 12 (a) above, within two weeks of receiving such submissions, to the members of the Committee for consideration at the Committee's next meeting.
- (15) The Secretariat shall, within two weeks of its receiving any submission made under subparagraph 12 (b) or in furtherance to paragraph 13, send a copy to the party whose compliance with the Convention is in question and to the members of the Committee for consideration at the Committee's next meeting.
- (16) Parties whose compliance is in question may present responses or comments at every step of the proceedings described in the present decision.
- (17) Without prejudice to paragraph 16 above, additional information, provided by a party whose compliance is in question in response to a submission, should be forwarded to the Secretariat within three months of the date of receipt of the submission by that party, unless the circumstances of a particular case require an extended period of time. Such information shall be immediately transmitted to the members of the Committee for consideration at the Committee's next meeting. Where a submission has been made pursuant to subparagraph 12 (b) above, the information shall be forwarded by the Secretariat also to the party that made the submission.
- (18) The Committee may decide not to proceed with submissions which it considers to be:
- (a) De minimis;
 - (b) Manifestly ill-founded.

Facilitation

- (19) The Committee shall consider any submission made to it in accordance with paragraph 12 or in furtherance of paragraph 13 above with a view to establishing the facts and the root causes of the matter of concern and to assisting in its resolution, taking into account Article 16 of the Convention. To that end, the Committee may provide a party with:
- (a) Advice;
 - (b) Non-binding recommendations;
 - (c) Any further information required to assist the party in developing a compliance plan, including timelines and targets.

Possible measures to address compliance issues

- (20) If, after undertaking the facilitation procedure set forth in paragraph 19 above and taking into account the cause, type, degree and frequency of compliance difficulties, including financial and technical capacities of the parties whose compliance is in question, the Committee considers it necessary to propose further measures to address a party's compliance problems, it may recommend to the Conference of the Parties, bearing in mind its ability under Article 18, paragraph 5 (c), of the Convention, that it consider the following measures, to be taken in accordance with international law, to attain compliance:
- (a) Further support under the Convention for the party concerned, including facilitation, as appropriate, of access to financial resources, technical assistance and capacity-building;

- (b) Providing advice regarding future compliance in order to help parties to implement the provisions of the Convention and to promote cooperation between all parties;
- (c) Requesting the Party concerned to update on its efforts;
- (d) Issuing a statement of concern regarding possible future non-compliance;
- (e) Issuing a statement of concern regarding current non-compliance;
- (f) Requesting the Executive Secretary to make public cases of non-compliance;
- (g) Recommending that a non-compliant situation be addressed by the non-compliant party with the aim of resolving the situation.

Handling of information

- (21) (1) The Committee may receive relevant information, through the Secretariat, from:
 - (a) The parties;
 - (b) Relevant sources, as it considers necessary and appropriate, with the prior consent of the party concerned or as directed by the Conference of the Parties;
 - (c) The Convention clearing-house mechanism and relevant intergovernmental organizations. The Committee shall provide the Party concerned with such information and invite it to present comments thereon.
- (2) The Committee may also request information from the Secretariat, where appropriate in the form of a report, on matters under the Committee's consideration.
- (22) For the purposes of examining systemic issues of general compliance under paragraph 25, the Committee may:
 - (a) Request information from all parties;
 - (b) In accordance with relevant guidance by the Conference of the Parties, request relevant information from any reliable sources and outside experts; and
 - (c) Consult with the Secretariat and draw upon its experience and knowledge base.
- (23) Subject to Article 14 of the Convention, the Committee, any party and any person involved in the deliberations of the Committee shall protect the confidentiality of information received in confidence.

Monitoring

- (24) The Compliance Committee should monitor the consequences of action taken in pursuance of paragraphs 19 or 20 above.

General compliance issues

- (25) The Compliance Committee may examine systemic issues of general compliance of interest to all parties where:
 - (a) The Conference of the Parties so requests;
 - (b) The Committee, on the basis of information obtained by the Secretariat, while acting pursuant to its functions under the Convention, from Parties and submitted to the Committee by the Secretariat, decides that there is a need for an issue of general non-compliance to be examined and for a report on it to be made to the Conference of the Parties.

Reports to the Conference of the Parties

- (26) The Committee shall submit a report to each ordinary meeting of the Conference of the Parties reflecting:
 - (a) The work that the Committee has undertaken;
 - (b) The conclusions or recommendations of the Committee;
 - (c) The future programme of work of the Committee, including the schedule of expected meetings which it considers necessary for the fulfilment of its programme of work, for the consideration and approval of the Conference of the Parties.

Other subsidiary bodies

- (27) Where the activities of the Committee in respect of particular issues overlap with the responsibilities of another Rotterdam Convention body, the Conference of the Parties may direct the Committee to consult with that body.

Information sharing with other relevant multilateral environmental agreements

- (28) Where relevant, the Committee may solicit specific information, upon request by the Conference of the Parties, or directly, from compliance committees dealing with hazardous substances and wastes under the auspices of other relevant multilateral environmental agreements and report on these activities to the Conference of the Parties.

Review of the compliance mechanism

- (29) The Conference of the Parties shall regularly review the implementation of the procedures and mechanisms set forth in this annex.

Relationship with settlement of disputes

- (30) These procedures and mechanisms shall be without prejudice to Article 20 of the Convention.
-

COMMISSION IMPLEMENTING DECISION (EU) 2019/54
of 9 January 2019
concerning the validity of certain binding tariff information
(notified under document C(2019) 142)
(Only the Polish text is authentic)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 952/2013 of the European Parliament and of the Council of 9 October 2013 laying down the Union Customs Code ⁽¹⁾, and in particular Article 34(11) and Art 37(2)(a) thereof,

After consulting the Customs Code Committee,

Whereas:

- (1) The decision relating to binding tariff information (BTI) referred to in the Annex contains a tariff classification incompatible with the Combined Nomenclature (CN) set out in Annex I to Council Regulation (EEC) No 2658/87 ⁽²⁾. In particular, that BTI is incompatible with the general rules for the interpretation of the CN and the wording of CN code 2833 11 00, read in conjunction with note 1 to chapter 25 of the CN and the wording of CN code 2530 90 00.
- (2) Note 1 to chapter 25 of the CN stipulates that the headings of that chapter cover only products which are in the crude state or which have been treated by a limited number of mechanical or physical processes (except crystallisation), but not products which have been roasted, calcined, obtained by mixing or subjected to processing beyond that mentioned in each heading.
- (3) The product covered by the BTI referred to in the Annex is identical by its objective characteristics and properties to the product described in WCO HSC classification opinion 2530.90/2 as a ‘free flowing white powder containing more than 99,2 % by weight of anhydrous disodium sulphate, obtained only by mechanical collection of thenardite (anhydrous disodium sulphate) formed naturally in the open air on the surface of mirabilite (disodium sulphate decahydrate) which crystallised from natural lake brine due to low temperature in winter. Prior to packing, the product is passed through a sieve with an aperture of 0,65 mm’. In that WCO HSC classification opinion the classification of the product is under subheading 2530 90 of the Harmonized System, which corresponds to subheading 2530 90 00 of the Combined Nomenclature.
- (4) That product, mechanically collected, is in the crude state. It is clear from the wording of note 1 to chapter 25 that only crystallisation induced by a man-made process is excluded. In the case of the product at issue, crystallisation takes place naturally without any human intervention. The pumping of the natural lake brine from one pond to another (where the actual crystallisation takes place) cannot be considered as a processing of a raw material within the meaning of note 1 to chapter 25, as it is merely a transport process. Consequently, the tariff classification of the product as set out in the BTI referred to in the Annex is not in accordance with CN code 2530 90 00 notably under the light of WCO HSC classification opinion 2530.90/2.
- (5) The Union is, by Council Decision 87/369/EEC ⁽³⁾, a contracting party of the International Convention on the Harmonized Commodity Description and Coding System (known as the ‘Harmonized System’ or ‘HS’), drawn up by the Customs Cooperation Council (known as the ‘World Customs Organisation’ or ‘WCO’). The HS Committee (HSC) of the WCO approves WCO HSC classification opinions which in principle are guidance instruments for Union tariff measures.
- (6) The HSC approved during its 58th Session in October 2016 a classification opinion classifying a product identical to the product covered by the BTI referred to in the Annex in HS subheading 2530.90 (WCO HSC classification opinion 2530.90/2).
- (7) With a view to securing uniformity in the interpretation and application of the Harmonized System on an international level and considering that the decision is in conformity with the wording of HS subheading 2530.90, the Union should apply this WCO HSC classification opinion.

⁽¹⁾ OJ L 269, 10.10.2013, p. 1.

⁽²⁾ Council Regulation (EEC) No 2658/87 of 23 July 1987 on the tariff and statistical nomenclature and on the Common Customs Tariff (OJ L 256, 7.9.1987, p. 1).

⁽³⁾ Council Decision 87/369/EEC of 7 April 1987 concerning the conclusion of the International Convention on the Harmonized Commodity Description and Coding System and of the Protocol of Amendment thereto (OJ L 198, 20.7.1987, p. 1).

- (8) Communication from the Commission in accordance with Article 34(7)(a)(iii) of Regulation (EU) No 952/2013 on decisions relating to binding information issued by the customs authorities of the Member States concerning the classification of goods in the customs nomenclature (information 2017/C 128/01) ⁽⁴⁾ lists, among others, WCO HSC classification opinion 2530.90/2. Consequently, customs authorities are under the obligation to revoke decisions relating to binding information if they become incompatible with the interpretation of the customs nomenclature as a result of, inter alia, classification opinions adopted by the Customs Cooperation Council.
- (9) To ensure a correct and uniform tariff classification of goods, the BTI referred to in the Annex should be revoked. The customs authority which issued the information should therefore revoke it as soon as possible following the notification of the present Decision and notify the Commission to that effect,

HAS ADOPTED THIS DECISION:

Article 1

1. The binding tariff information referred to in column 1 of the table set out in the Annex issued by the customs authority specified in column 2 of that table for the tariff classification specified in column 3 of that table shall be revoked in accordance with paragraph 2.
2. The customs authority specified in column 2 of the table set out in the Annex shall revoke the binding tariff information referred to in column 1 of that table and notify the holder thereof at the earliest possible date and in any case not later than 10 days from the notification of this Decision.
3. When the customs authority revokes binding tariff information and makes the notification pursuant to paragraph 2, it shall notify the Commission thereof.

Article 2

This Decision is addressed to the Republic of Poland.

Done at Brussels, 9 January 2019.

COMMISSION IMPLEMENTING DECISION (EU) 2019/55**of 10 January 2019****correcting the Bulgarian and French language versions of Decision 2004/558/EC implementing Council Directive 64/432/EEC as regards additional guarantees for intra-Community trade in bovine animals relating to infectious bovine rhinotracheitis and the approval of the eradication programmes presented by certain Member States***(notified under document C(2019) 8)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 64/432/EEC of 26 June 1964 on animal health problems affecting intra-Community trade in bovine animals and swine ⁽¹⁾, and in particular Articles 9(2) and 10(2) thereof,

Whereas:

- (1) The Bulgarian and French language versions of Commission Decision 2004/558/EC ⁽²⁾ contain an error in Article 3(1)(b). The Bulgarian and French versions refer to blood samples from bovine animals for breeding and production to be taken less than 21 days after their arrival at the isolation facility, whereas the correct guarantee for blood samples to be taken is not earlier than 21 days after their arrival at the isolation facility.
- (2) The Bulgarian and French language versions of Decision 2004/558/EC should therefore be corrected accordingly. The other language versions are not affected.
- (3) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

*Article 1**(does not concern the English language)**Article 2*

This Decision is addressed to the Member States.

Done at Brussels, 10 January 2019.

For the Commission

Günther OETTINGER

Member of the Commission
