INTERNATIONAL AGREEMENTS

Information on the entry into force of the Council Implementing Decision authorising the United Kingdom to express its consent, in its own capacity, to be bound by certain international agreements to be applied during the transition period in the area of the Union's common fisheries policy

The Council Implementing Decision authorising the United Kingdom to express its consent, in its own capacity, to be bound by certain international agreements to be applied during the transition period in the area of the Union's common fisheries policy of 18 September 2020 was notified to the United Kingdom on the date of its adoption. In accordance with the final sentence of the second paragraph of Article 297 TFEU, that decision took effect 18 September 2020.

REGULATIONS

COUNCIL REGULATION (EU) 2020/1323

of 21 September 2020

amending Regulation (EU) 2020/123 as regards certain fishing opportunities for 2020 in Union and non-Union waters

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(3) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) Council Regulation (EU) 2020/123 ⁽¹⁾ fixes for 2020 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in Union waters and, for Union vessels, in certain non-Union waters.
- (2) In Regulation (EU) 2020/123, the total allowable catch (TAC) for anchovy (*Engraulis encrasicolus*) in International Council for the Exploration of the Sea (ICES) subareas 9 and 10 and in Union waters of Fishery Committee for the Eastern Central Atlantic (CECAF) division 34.1.1 was set at zero. In Council Regulation (EU) 2020/900 ⁽²⁾, which amends the Regulation (EU) 2020/123, a provisional TAC was established to allow fishing activity to continue. Anchovy is a shortlived species and the latest scientific advice was issued by ICES on 18 June 2020. The catch limits for anchovy in ICES subareas 9 and 10 and in Union waters of CECAF division 34.1.1 should be amended in line with that scientific advice and set at 15 699 tonnes.
- (3) In the Agreed Record of fisheries consultations between the Faroe Islands and the European Union for 2020 both parties have agreed to grant each other reciprocal access to one another's waters to fish for blue whiting (*Micromesistius poutassou*) in Union and international waters of 1, 2, 3, 4, 5, 6, 7, 8a, 8b, 8d, 8e, 12 and 14 and Faroese waters, within a limit of 37 500 tonnes. A special condition in the TAC table grants the Union access to Faroese waters and limits, in the form of a percentage of the total Union share, the amount of blue whiting that Member States may fish from their own quotas in the Faroese waters. That percentage should represent the proportion of the Union access rights in Faroese waters of 37 500 tonnes compared to the total Union share of 326 484 tonnes of blue whiting. 37 500 tonnes amounts to a percentage of 11,4 % of the total Union share of 326 484 tonnes of blue whiting. Since the percentage of the total Union share of blue whiting that Member States may fish from their own quotas in Faroese waters is currently set at 7 %, that percentage should be amended accordingly.
- (4) In the Agreed Record of fisheries consultations between Norway and the European Union on ad hoc fisheries arrangements on the management of blue whiting and Norwegian spring-spawning (Atlanto-Scandian) herring for 2020, both parties are granted access to fish 190 809 tonnes of blue whiting in each other's waters. In the TAC table for blue whiting granting Norway's fishing access in Union waters of 2, 4a, 5, 6 north of 56° 30' N and 7 west of 12° W, a special condition limits the catch in 4a to no more than 40 000 tonnes (in accordance with the Agreed Record on fisheries consultations between Norway and the European Union for 2020). That catch limit in 4a amounts to 21 % of Norway's total access quota. That percentage, currently set at 18 %, should be amended accordingly.

⁽¹⁾ Council Regulation (EU) 2020/123 of 27 January 2020 fixing for 2020 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters (OJ L 25, 30.1.2020, p. 1).

⁽²⁾ Council Regulation (EU) 2020/900 of 25 June 2020 amending Regulation (EU) 2019/1838 as regards certain fishing opportunities for 2020 in the Baltic Sea and amending Regulation (EU) 2020/123 as regards certain fishing opportunities in 2020 in Union and non-Union waters (OJ L 207, 30.6.2020, p. 4).

- (5) The Fisheries Partnership Agreement between the European Community on the one hand, and the Government of Denmark and the Home Rule Government of Greenland, on the other hand ⁽³⁾, and the Protocol ⁽⁴⁾ thereto, provides that the Union is to receive 7,7 % of the TAC for capelin (*Mallotus villosus*) to be fished in Greenland waters of ICES subareas 5 and 14. In accordance with that Protocol, on 12 June 2020 Greenland offered the Union 13 053 tonnes of capelin to be fished between 20 June 2020 and 15 April 2021. The fishing opportunities table for capelin should therefore be amended accordingly.
- (6) Regulation (EU) 2020/123 should therefore be amended accordingly.
- (7) The catch limits provided for in Regulation (EU) 2020/123 apply from 1 January 2020 for blue whiting in Union waters of 2, 4a, 5, 6 north of 56° 30' N and 7 west of 12° W, from 20 June 2020 for capelin in Greenland waters of ICES subareas 5 and 14, and from 1 July 2020 for anchovy in ICES subareas 9 and 10 and in Union waters of CECAF division 34.1.1. The provisions introduced by this Regulation concerning catch limits should therefore enter in force as soon as possible and should apply retroactively for blue whiting from 1 January 2020, for capelin from 20 June 2020, and for anchovy from 1 July 2020. Such retroactive application does not affect the principles of legal certainty and protection of legitimate expectations as the fishing opportunities concerned are increased and have not yet been exhausted.
- (8) According to the scientific advice of ICES, catches of Norway pout (*Trisopterus esmarkii*) in ICES subarea 4 and ICES division 3a in the period from 1 November 2019 to 31 October 2020 should not exceed 167 105 tonnes. From that stock, the Union reserved a share of 92 000 tonnes and set a preliminary Union quota of 65 000 tonnes in Council Regulation (EU) 2019/1838 ⁽⁵⁾. Following consultations, in December 2019, the Union transferred only 14 500 and 5 000 tonnes from the remaining reserved amount to Norway and the Faroe Islands respectively. As a result, the remaining 7 500 tonnes should be added to the current Union quota.
- (9) The United Kingdom has been consulted in accordance with Article 130(1) of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community ⁽⁶⁾,

HAS ADOPTED THIS REGULATION:

Article 1

Amendment of Regulation (EU) 2020/123

Regulation (EU) 2020/123 is amended as follows:

(1) Annex IA is amended as follows:

- (a) the fishing opportunities table for anchovy in ICES subareas 9 and 10 and Union waters of CECAF division 34.1.1 is replaced by the following:

'Species: Anchovy <i>Engraulis encrasicolus</i>			Zone: 9 and 10; Union waters of CECAF 34.1.1 (ANE/9/3411)
Spain	7 494	⁽¹⁾	Precautionary TAC
Portugal	8 175	⁽¹⁾	
Union	15 669	⁽¹⁾	
TAC	15 669	⁽¹⁾	

⁽¹⁾ The quota may only be fished from 1 July 2020 to 30 June 2021.'

⁽³⁾ OJ L 172, 30.6.2007, p. 4.

⁽⁴⁾ Protocol setting out the fishing opportunities and financial contribution provided for by the Fisheries Partnership Agreement between the European Community on the one hand, and the Government of Denmark and the Home Rule Government of Greenland, on the other hand (OJ L 305, 21.11.2015, p. 3).

⁽⁵⁾ Council Regulation (EU) 2019/1838 of 30 October 2019 fixing for 2020 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in the Baltic Sea and amending Regulation (EU) 2019/124 as regards certain fishing opportunities in other waters (OJ L 281, 31.10.2019, p. 1).

⁽⁶⁾ OJ L 29, 31.1.2020, p. 7.

- (b) in the fishing opportunities table for blue whiting in Union and international waters of 1, 2, 3, 4, 5, 6, 7, 8a, 8b, 8d, 8e, 12 and 14, footnote 1 is replaced by the following:

‘(1) Special condition: within a total access quantity of 37 500 tonnes for the Union, Member States may fish up to the following percentage of their quotas in Faroese waters (WHB/*05-F.): 11,4 %;’

- (c) in the fishing opportunities table for blue whiting in Union waters of 2, 4a, 5, 6 north of 56° 30' N and 7 west of 12° W, footnote 2 is replaced by the following:

‘(2) Special condition: the catch in 4a shall be no more than the following amount (WHB/*04A-C): 40 000

This catch limit in 4a amounts to the following percentage of Norway’s access quota: 21 %;

- (d) the fishing opportunities table for Norway pout and associated by-catches in ICES division 3a and Union waters of ICES division 2a and ICES subarea 4 is replaced by the following:

‘Species:	Norway pout and associated by-catches	Zone:	3a; Union waters of 2a and 4
	<i>Trisopterus esmarkii</i>		(NOP/2A3A4.)
Year	2020		
Denmark	72 433	(¹⁾ (³⁾	Analytical TAC
Germany	14	(¹⁾ (²⁾ (³⁾	Article 3 of Regulation (EC) No 847/96 shall not apply
The Netherlands	53	(¹⁾ (²⁾ (³⁾	Article 4 of Regulation (EC) No 847/96 shall not apply
Union	72 500	(¹⁾ (³⁾	
Norway	14 500	(⁴⁾	
Faroe Islands	5 000	(⁵⁾	
TAC	Not relevant		

(¹) Up to 5 % of the quota may consist of by-catches of haddock and whiting (OT2/*2A3A4). By-catches of haddock and whiting counted against the quota pursuant to this provision and by-catches of species counted against the quota pursuant to Article 15(8) of Regulation (EU) No 1380/2013 shall, together, not exceed 9 % of the quota.

(²) Quota may be fished in Union waters of ICES zones 2a, 3a and 4 only.

(³) Union quota may only be fished from 1 November 2019 to 31 October 2020.

(⁴) A sorting grid shall be used.

(⁵) A sorting grid shall be used. Includes a maximum of 15 % of unavoidable by-catches (NOP/*2A3A4), to be counted against this quota.’

- (2) In Annex IB, the fishing opportunities table for capelin in Greenland waters of 5 and 14 is replaced by the following:

‘Species: Capelin <i>Mallotus villosus</i>		Zone: Greenland waters of 5 and 14 (CAP/514GRN)	
Denmark	2 595	Analytical TAC	
Germany	113	Article 3 of Regulation (EC) No 847/96 shall not apply	
Sweden	186	Article 4 of Regulation (EC) No 847/96 shall not apply	

‘Species: Capelin <i>Mallotus villosus</i>		Zone: Greenland waters of 5 and 14 (CAP/514GRN)	
United Kingdom	24		
All Member States	134	(¹)	
Union	3 053	(²)	
Norway	10 000	(²)	
TAC	Not relevant		

(¹) Denmark, Germany, Sweden and the United Kingdom may access the “All Member States” quota only once they have exhausted their own quota. However, Member States with more than 10 % of the Union quota shall not access the “All Member States” quota at all.

(²) For a fishing period from 20 June 2020 to 15 April 2021.’

Article 2

Entry into force and application

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

Article 1(1) point (a) shall apply from 1 July 2020, points (b) and (c) shall apply from 1 January 2020.

Article 1(2) shall apply from 20 June 2020.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 21 September 2020.

For the Council
The President
J. KLOECKNER

DECISIONS

COUNCIL DECISION (EU) 2020/1324

of 21 September 2020

on the position to be taken on behalf of the European Union within the International Grains Council concerning the accession of the United Kingdom to the Grains Trade Convention, 1995

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular the first subparagraph of Article 207(4), in conjunction with Article 218(9) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) The Grains Trade Convention, 1995 ('the Convention') was concluded by the Union by means of Council Decision 96/88/EC ⁽¹⁾ and entered into force on 1 July 1995. The Convention was concluded for a period of three years.
- (2) Pursuant to Article 33 of the Convention, the International Grains Council is able to extend the Convention for successive periods not exceeding two years on each occasion. Since its conclusion, the Convention has regularly been extended for further periods of two years. The Convention was last extended by decision of the International Grains Council on 10 June 2019 ⁽²⁾ and remains in force until 30 June 2021.
- (3) Pursuant to Article 27(2) of the Convention, the Convention is open for accession by the Governments of all States upon such conditions as the International Grains Council considers appropriate.
- (4) On 9 April 2020, the United Kingdom formally applied for accession to the Convention as from 1 January 2021.
- (5) The United Kingdom is a major producer of cereals, in particular barley and wheat. Should approval of the United Kingdom's application to accede to the Convention and consequently to participate in the International Grains Council be granted, the United Kingdom will be an importing member in accordance with Article 12 of the Convention. As the Union is an exporting member, the accession of the United Kingdom will not impact the number of votes allocated to the Union for voting purposes under Article 12 of the Convention. The accession of the United Kingdom will, however, reduce, as from the financial year 2021/22, the number of votes allocated to the Union under Article 11 of the Convention, which determines the financial contribution of members.
- (6) It is appropriate to establish the position to be taken on the Union's behalf in the International Grains Council and to approve the accession of the United Kingdom to the Convention provided that the accession does not take effect and the Convention is not provisionally applied in respect of the United Kingdom before the end of the transition period referred to in Article 126 of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community ⁽³⁾,

⁽¹⁾ Council Decision 96/88/EC of 19 December 1995 concerning the approval by the European Community of the Grains Trade Convention and the Food Aid Convention, constituting the International Grains Agreement 1995 (OJ L 21, 27.1.1996, p. 47).

⁽²⁾ Council Decision (EU) 2019/813 of 17 May 2019 on the position to be taken on behalf of the European Union in the International Grains Council with respect to the extension of the Grains Trade Convention, 1995 (OJ L 133, 21.5.2019, p. 19).

⁽³⁾ OJ L 29, 31.1.2020, p. 7.

HAS ADOPTED THIS DECISION:

Article 1

The position to be taken on the Union's behalf in the International Grains Council shall be to approve the accession of the United Kingdom to the Grains Trade Convention, 1995, provided that the accession does not take effect and the Convention is not provisionally applied in respect of the United Kingdom before the end of the transition period referred to in Article 126 of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community.

Article 2

This Decision shall enter into force on the date of its adoption.

Done at Brussels, 21 September 2020.

For the Council

The President

J. KLOECKNER

COUNCIL DECISION (EU) 2020/1325**of 21 September 2020****on the position to be taken on behalf of the European Union in the framework of the Convention on Future Multilateral Cooperation in the North-East Atlantic Fisheries as regards the application for accession to that Convention submitted by the United Kingdom, and repealing Decision (EU) 2019/510**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43 in conjunction with Article 218(9) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) The Convention on Future Multilateral Cooperation in the North-East Atlantic Fisheries ⁽¹⁾ ('the NEAFC Convention') was approved by Council Decision 81/608/EEC ⁽²⁾ and entered into force on 17 March 1982.
- (2) The NEAFC Convention currently applies to the United Kingdom as a result of the Union being a Contracting Party to that Convention, while Article 20(4) of the NEAFC Convention excludes the accession of Member States to that Convention.
- (3) Pursuant to Article 20(4) of the NEAFC Convention, any State can accede to the NEAFC Convention provided that an application for accession of that State is approved by three-fourths of all Contracting Parties to the Convention within 90 days from the date of notification by the Depositary of the receipt of the application.
- (4) On 8 January 2019, the United Kingdom submitted an application to accede to the NEAFC Convention as a Contracting Party. On the same date, the Depositary notified the Commission thereof.
- (5) On 25 March 2019, the Council adopted Decision (EU) 2019/510 ⁽³⁾. That decision was favourable to the United Kingdom's accession to the NEAFC Convention and was adopted in order to anticipate the situation where the United Kingdom would leave the Union without a withdrawal agreement. Consequently, Decision (EU) 2019/510 only authorised the Commission to notify the Union's position in the event that no withdrawal agreement was concluded.
- (6) The application for accession by the United Kingdom was not approved by the required number of the Contracting Parties to the NEAFC Convention as the quorum of three-fourths was not reached.
- (7) Pursuant to Article 129(4) of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community ⁽⁴⁾ ('the Withdrawal Agreement'), during the transition period, the United Kingdom may negotiate, sign and ratify international agreements entered into in its own capacity in the areas of exclusive competence of the Union, provided that those agreements do not enter into force or apply during the transition period, unless so authorised by the Union. Council Decision (EU) 2020/135 ⁽⁵⁾ sets out the conditions and procedure for granting such authorisations.

⁽¹⁾ OJ L 227, 12.8.1981, p. 22.

⁽²⁾ Council Decision 81/608/EEC of 13 July 1981 concerning the conclusion of the Convention on Future Multilateral Cooperation in the North-East Atlantic Fisheries (OJ L 227, 12.8.1981, p. 21).

⁽³⁾ Council Decision (EU) 2019/510 of 25 March 2019 on the position to be taken on behalf of the European Union in the framework of the Convention on future multilateral cooperation in the North-East Atlantic fisheries as regards the application for accession to that Convention submitted by the United Kingdom (OJ L 85, 27.3.2019, p. 22).

⁽⁴⁾ OJ L 29, 31.1.2020, p. 7.

⁽⁵⁾ Council Decision (EU) 2020/135 of 30 January 2020 on the conclusion of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community (OJ L 29, 31.1.2020, p. 1).

- (8) By means of its letter of 3 April 2020, the United Kingdom notified the Commission of its intention to express its consent, in its own capacity, to be bound by the NEAFC Convention during the transition period. On 6 July 2020, the United Kingdom submitted a new application for accession to that Convention, seeking an accession which would take effect during the transition period in a manner consistent with the Withdrawal Agreement.
- (9) Council Implementing Decision (EU) 2020/1305 ⁽⁶⁾ authorises the United Kingdom to express its consent, in its own capacity, to be bound by the NEAFC Convention as the conditions set out in Article 3(1) of Decision (EU) 2020/135 are fulfilled.
- (10) Pursuant to Articles 56, 63 and 116 of the United Nations Convention on the Law of the Sea ⁽⁷⁾ (UNCLOS), the United Kingdom has legitimate fishing interests within the Convention Area provided for in the NEAFC Convention (high seas) as a coastal State, insofar as the waters under the exclusive economic zone of the United Kingdom fall within that Convention Area.
- (11) In order to prevent unsustainable fisheries, it is in the interest of the Union that the United Kingdom cooperate in the management of the stocks of common interest in full compliance with the provisions of UNCLOS and the United Nations Agreement on the implementation of the provisions of the United Nations Convention on the Law of the Sea of 10 December 1982 relating to the conservation and management of straddling fish stocks and highly migratory fish stocks ⁽⁸⁾ (UNFSA), and of any other international agreement or rule of international law.
- (12) As provided for in Article 63(2) UNCLOS and in Article 8 UNFSA, where the same stock or stocks of associated species occur both within the exclusive economic zone and in an area beyond and adjacent to that zone, the coastal State and the States fishing for such stocks in the adjacent area are to cooperate with a view to agreeing upon the measures necessary for the conservation of those stocks in the adjacent area. Such cooperation can be established in the framework of regional fisheries management organisations. The accession of the United Kingdom to the NEAFC Convention will allow the United Kingdom to cooperate on the necessary fishery management measures, with a view to ensuring that fishing activities are carried out in a way that results in the sustainable exploitation of the stock or stocks concerned.
- (13) Accession before the expiry of the transition period would enable the United Kingdom to give full effect to the obligations resulting from UNCLOS with regard to conservation and management measures taking effect as from the moment the transition period ends and Union law ceases to apply to it. It is therefore in the interest of the Union to approve the application for accession to the NEAFC Convention submitted by the United Kingdom by the expiry of the notification period referred to in Article 20(4) of the NEAFC Convention.
- (14) In the interests of clarity and legal certainty, Decision (EU) 2019/510 should be repealed,

HAS ADOPTED THIS DECISION:

Article 1

1. The position to be taken on behalf of the Union in the framework of the Convention on Future Multilateral Cooperation in the North-East Atlantic Fisheries ('the NEAFC Convention') shall be to approve the application for accession of the United Kingdom to the NEAFC Convention.
2. The Commission shall be authorised to notify the Depositary of the NEAFC Convention of the Union's position by the expiry of the notification period referred to in Article 20(4) of the NEAFC Convention.

Article 2

Decision (EU) 2019/510 is repealed.

⁽⁶⁾ Council Implementing Decision (EU) 2020/1305 of 18 September 2020 authorising the United Kingdom to express its consent, in its own capacity, to be bound by certain international agreements to be applied during the transition period in the area of the Union's common fisheries policy (OJ L 305, 21.9.2020, p. 27).

⁽⁷⁾ OJ L 179, 23.6.1998, p. 3.

⁽⁸⁾ OJ L 189, 3.7.1998, p. 16.

Article 3

This Decision shall enter into force on the day of its adoption.

Done at Brussels, 21 September 2020.

CORRIGENDA

Corrigendum to Directive (EU) 2018/2001 of the European Parliament and of the Council of 11 December 2018 on the promotion of the use of energy from renewable sources

(Official Journal of the European Union L 328 of 21 December 2018)

On page 132, Article 29(7), point (a):

- for:* ‘(a) the country or regional economic integration organisation of origin of the forest biomass:
- (i) is a Party to the Paris Agreement;
 - (ii) has submitted a nationally determined contribution (NDC) to the United Nations Framework Convention on Climate Change (UNFCCC), covering emissions and removals from agriculture, forestry and land use which ensures that changes in carbon stock associated with biomass harvest are accounted towards the country's commitment to reduce or limit greenhouse gas emissions as specified in the NDC; or
 - (iii) has national or sub-national laws in place, in accordance with Article 5 of the Paris Agreement, applicable in the area of harvest, to conserve and enhance carbon stocks and sinks, and providing evidence that reported LULUCF-sector emissions do not exceed removals;’,
- read:* ‘(a) the country or regional economic integration organisation of origin of the forest biomass is a Party to the Paris Agreement and:
- (i) it has submitted a nationally determined contribution (NDC) to the United Nations Framework Convention on Climate Change (UNFCCC), covering emissions and removals from agriculture, forestry and land use which ensures that changes in carbon stock associated with biomass harvest are accounted towards the country's commitment to reduce or limit greenhouse gas emissions as specified in the NDC; or
 - (ii) it has national or sub-national laws in place, in accordance with Article 5 of the Paris Agreement, applicable in the area of harvest, to conserve and enhance carbon stocks and sinks, and provides evidence that reported LULUCF-sector emissions do not exceed removals;’.

On page 135, Article 30(5), second subparagraph:

- for:* ‘... set out in Annex IX to Regulation (EU) 2018/1999. [...],’
- read:* ‘... set out in Annex XI to Regulation (EU) 2018/1999. [...].’

On page 142, Annex II, first paragraph, the formula:

- for:* ‘ $(Q_{N(norm)}) (C_N [((i)(N-14)) (Q_i C_i)] 15)$ ’,
- read:* ‘ $Q_{N(norm)} = C_N \times \left[\sum_{i=N-14}^N \frac{Q_i}{C_i} \right] / 15$ ’.

On page 142, Annex II, second paragraph, the formula:

for: $'(Q_{N(norm)})((C_N - C_{N-1})2)((/i)(Nn))Q_i (/i)(Nn))(C_j - C_{j-1})2)''$,

read:
$$Q_{N(norm)} = \frac{C_N + C_{N-1}}{2} \times \frac{\sum_{i=N-n}^N Q_i}{\sum_{j=N-n}^N \frac{C_j + C_{j-1}}{2}}.$$

On page 142, Annex II, third paragraph, the formula:

for: $'(Q_{N(norm)})((C_N - C_{N-1})2)((/i)(Nn))Q_i (/i)(Nn))(C_j - C_{j-1})2)''$,

read:
$$Q_{N(norm)} = \frac{C_N + C_{N-1}}{2} \times \frac{\sum_{i=N-n}^N Q_i}{\sum_{j=N-n}^N \frac{C_j + C_{j-1}}{2}}.$$

On page 148, Annex V, Part (A), seventh entry on that page:

for:	'palm oil biodiesel (open effluent pond)	32 %	19 %
------	--	------	------

read:	'palm oil biodiesel (open effluent pond)	33 %	20 %
-------	--	------	------

On page 149, Annex V, Part (B), second, fourth, sixth, and eight entries:

for:	'waste wood Fischer-Tropsch diesel in free-standing plant	85 %	85 %
	waste wood Fischer-Tropsch petrol in free-standing plant	85 %	85 %
	waste wood dimethylether (DME) in free-standing plant	86 %	86 %
	waste wood methanol in free-standing plant	86 %	86 %

read:	'waste wood Fischer-Tropsch diesel in free-standing plant	83 %	83 %
	waste wood Fischer-Tropsch petrol in free-standing plant	83 %	83 %
	waste wood dimethylether (DME) in free-standing plant	84 %	84 %
	waste wood methanol in free-standing plant	84 %	84 %

On page 156, Annex V, Part (D), tenth and sixteenth entries on that page:

<i>for:</i>	'palm oil biodiesel	26,2	26,2
	hydrotreated vegetable oil from palm oil	27,4	27,4'
<i>read:</i>	'palm oil biodiesel	26,0	26,0
	hydrotreated vegetable oil from palm oil	27,3	27,3'

On page 159, Annex V, Part (D), sixteenth entry on that page:

<i>for:</i>	'pure vegetable oil from rape seed	3,7	5,2'
<i>read:</i>	'pure vegetable oil from rape seed	3,7	5,2'

On page 162, Annex V, Part (D), eight entry on that page:

<i>for:</i>	'animal fats from rendering biodiesel (**)	1,7	1,7'
<i>read:</i>	'animal fats from rendering biodiesel (**)	1,6	1,6'

On page 165, Annex V, Part (D), fourteenth and fifteenth entries on that page:

<i>for:</i>	'other cereals excluding maize ethanol (forest residues as process fuel in CHP plant (*))	30,7	31,4
	sugar cane ethanol	28,1	28,6'
<i>read:</i>	'other cereals excluding maize ethanol (forest residues as process fuel in CHP plant (*))	30,7	31,4
	sugar cane ethanol	28,1	28,6'

On page 166, Annex V, Part (D), fourth, fifth, seventh, eleventh, twelfth, eighteenth and nineteenth entries on that page:

<i>for:</i>	'palm oil biodiesel (open effluent pond)	63,5	75,7
	palm oil biodiesel (process with methane capture at oil mill)	46,3	51,6
	animals fats from rendering biodiesel (**)	15,3	20,8
	hydrotreated vegetable oil from palm oil (open effluent pond)	62,2	73,3

hydrotreated vegetable oil from palm oil (process with methane capture at oil mill)	44,1	48,0
pure vegetable oil from palm oil (open effluent pond)	56,3	65,4
pure vegetable oil from palm oil (process with methane capture at oil mill)	38,4	57,2'

read:

'palm oil biodiesel (open effluent pond)	63,3	75,5
palm oil biodiesel (process with methane capture at oil mill)	46,1	51,4
animals fats from rendering biodiesel (**)	15,2	20,7
hydrotreated vegetable oil from palm oil (open effluent pond)	62,1	73,2
hydrotreated vegetable oil from palm oil (process with methane capture at oil mill)	44,0	47,9
pure vegetable oil from palm oil (open effluent pond)	56,4	65,5
pure vegetable oil from palm oil (process with methane capture at oil mill)	38,5	40,3'

On page 167, Annex V, Part (E), first table on that page, fourth and fifth entries:

for:

'waste wood Fischer-Tropsch petrol in free-standing plant	8,2	8,2
farmed wood Fischer-Tropsch petrol in free-standing plant	12,4	12,4'

read:

'waste wood Fischer-Tropsch petrol in free-standing plant	3,3	3,3
farmed wood Fischer-Tropsch petrol in free-standing plant	8,2	8,2'

On page 169, Annex V, Part (E), second table on that page, second, fourth, sixth and eighth entries

for:

'waste wood Fischer-Tropsch diesel in free-standing plant	10,3	10,3
waste wood Fischer-Tropsch petrol in free-standing plant	10,3	10,3
waste wood dimethylether (DME) in free-standing plant	10,4	10,4
waste wood methanol in free-standing plant	10,4	10,4'

read:

'waste wood Fischer-Tropsch diesel in free-standing plant	12,2	12,2
waste wood Fischer-Tropsch petrol in free-standing plant	12,2	12,2
waste wood dimethylether (DME) in free-standing plant	12,1	12,1
waste wood methanol in free-standing plant	12,1	12,1'

On page 171, Annex V, Part (E), second table on that page, second, fourth, sixth and eighth entries:

for:

'waste wood Fischer-Tropsch diesel in free-standing plant	13,7	13,7
waste wood Fischer-Tropsch petrol in free-standing plant	13,7	13,7
waste wood dimethylether (DME) in free-standing plant	13,5	13,5
waste wood methanol in free-standing plant	13,5	13,5'

read:

'waste wood Fischer-Tropsch diesel in free-standing plant	15,6	15,6
waste wood Fischer-Tropsch petrol in free-standing plant	15,6	15,6
waste wood dimethylether (DME) in free-standing plant	15,2	15,2
waste wood methanol in free-standing plant	15,2	15,2'

On page 180, Annex VI, Part (B)(1), point (b), the first formula:

for:

$$E = \sum_1^n \cdot E_n'$$

read:

$$E = \sum_1^n S_n \cdot E_n'$$

On page 180, Annex VI, Part (B)(1), point (b), the second formula:

for:

$$S_n = \frac{P_n \cdot W_n}{\sum_1^n W_n}$$

read:

$$S_n = \frac{P_n \cdot W_n}{\sum_1^n P_n \cdot W_n}$$

On page 186, Annex VI, Part (B)(18), second subparagraph :

for:

'In the case of biogas and biomethane, all co-products that do not fall under the scope of point 7 shall be taken into account for the purposes of that calculation. [...]',

read:

'In the case of biogas and biomethane, all co-products shall be taken into account for the purposes of that calculation. [...]'.
