Regulation No 161 ⁽³⁰⁾, UN Regulation No 162 ⁽³¹⁾ and UN Regulation No 163 ⁽³²⁾. It is therefore appropriate to include in Annex I to Regulation (EU) 2019/2144 references to those regulations.

- (3) UN Regulation No 0 on the International Whole Vehicle Type Approval ⁽³³⁾ was adopted in order to reduce barriers to trade between the UNECE Contracting Parties and to provide an increased level of certainty for vehicle manufacturers seeking recognition of their type-approval in those Contracting Parties. The Union is a Contracting Party applying UN Regulation No 0. In order to consider a Universal International Whole Vehicle Type Approval equivalent to an EU type-approval, the versions of the UN Regulations listed in Annex I to Regulation (EU) 2019/2144 should be taken into account.
- (4) Annex II to Regulation (EU) 2019/2144 contains the list of requirements with which vehicles, systems, components and separate technical units should comply with pursuant to Articles 4(5) and 5(3) of that Regulation. That Annex does, however, not contain references to the regulatory acts laying down the detailed technical requirements as regards advanced emergency braking systems with pedestrians and cyclists detection, pedestrian and cyclist collision warning systems, blind spot information systems, emergency lane-keeping assistance systems, reversing detection, emergency stop signal and event data recorders. It is therefore necessary to add references to the respective regulatory acts in that Annex.
- (5) Compliance with UN Regulation No 90 ⁽³⁴⁾ is compulsory for replacement brake lining assemblies, drum-brake linings, discs and drums for power-driven vehicles and their trailers. New replacement brake lining assemblies, drum-brake linings, discs and drums for existing types of vehicles with vehicle type-approval granted with regard to braking in accordance with UN Regulation No 13 ⁽³⁵⁾ or UN Regulation No 13-H ⁽³⁶⁾ before the date of application of Regulation (EU) 2019/2144, should be permitted to be made available on the market or entered into service in accordance with Annex I to that Regulation.
- (6) As of 1 September 2023, UN Regulation No 129 ⁽³⁷⁾ will replace UN Regulation No 44, thus, ceasing the possibility child restraint systems that are not built in motor vehicles to be type-approved under that Regulation. Additional time is necessary to allow for the production in stock and in the distribution channels to be sold out. Therefore, child restraint systems approved in accordance with UN Regulation No 44 before 1 September 2023, should be allowed to be made available on the market and entered into service until 1 September 2024.

⁽³⁰⁾ UN Regulation No 161 – Uniform provisions concerning the protection of motor vehicles against unauthorized use and the approval of the device against unauthorized use (by means of a locking system) [2021/2274] (OJ L 470, 30.12.2021, p. 1).

⁽³¹⁾ UN Regulation No 162 – Uniform technical prescriptions concerning approval of immobilizers and approval of a vehicle with regard to its immobilizer [2021/2275] (OJ L 470, 30.12.2021, p. 23).

⁽³²⁾ UN Regulation No 163 – Uniform provisions concerning the approval of vehicle alarm system and approval of a vehicle with regard to its vehicle alarm system [2021/2276] (OJ L 470, 30.12.2021, p. 48).

⁽³³⁾ Regulation No 0 of the Economic Commission for Europe of the United Nations (UNECE) – Uniform provisions concerning the International Whole Vehicle Type Approval (IWVTA) [2018/780] (OJ L 135, 31.5.2018, p. 1).

⁽³⁴⁾ Regulation No 90 of the Economic Commission for Europe of the United Nations (UN/ECE) – Uniform provisions concerning the approval of replacement brake lining assemblies and drum brake linings for power-driven vehicles and their trailers (OJ L 130, 28.5.2010, p. 19).

⁽³⁵⁾ Regulation No 13 of the Economic Commission for Europe of the United Nations (UN/ECE) – Uniform provisions concerning the approval of vehicles of categories M, N and O with regard to braking [2016/194] (OJ L 42, 18.2.2016, p. 1).

⁽³⁶⁾ Regulation No 13-H of the Economic Commission for Europe of the United Nations (UN/ECE) – Uniform provisions concerning the approval of passenger cars with regard to braking [2015/2364] (OJ L 335, 22.12.2015, p. 1).

⁽³⁷⁾ Regulation No 129 of the Economic Commission for Europe of the United Nations (UN/ECE) – Uniform provisions concerning the approval of enhanced Child Restraint Systems used on board of motor vehicles (ECRS) (OJ L 97, 29.3.2014, p. 21).

- (7) The provisions of UN Regulation No 13-H related to brake assists systems and electronic stability control systems were transferred to UN Regulation No 139 ⁽³⁸⁾ and UN Regulation No 140 ⁽³⁹⁾, whereas the provisions concerning braking were shifted to the 01 series of amendments to UN Regulation No 13-H. Given that the requirements for brake assists systems and electronic stability control systems remained unchanged, type-approvals granted in accordance with the original version of UN Regulation 13-H, and their extensions, should be considered equivalent to a type-approval granted to the original versions of UN Regulation No 139 and UN Regulation No 140.
- (8) The requirements with regard to child restraint anchorages were transferred without changes from the 07 series of amendments to UN Regulation No 14 to UN Regulation No 145. Therefore, type-approvals granted in accordance with UN Regulation No 14 should be considered equivalent to a type-approval granted to the original version of UN Regulation No 145.
- (9) The requirements with regard to safety of electric power train at rear-end collision were transferred without changes from the 03 series of amendments to UN Regulation No 34 to UN Regulation No 153. Therefore, type-approvals granted in accordance with UN Regulation No 34 should be considered equivalent to a type-approval granted to the original version of UN Regulation No 153.
- (10) The requirements with regard to tyre pressure monitoring were transferred without changes from the 02 series of amendments to UN Regulation No 64 ⁽⁴⁰⁾ to UN Regulation No 141. Therefore, type-approvals granted in accordance with UN Regulation No 64 should be considered equivalent to a type-approval granted to the original version of UN Regulation No 141.
- (11) Regulation (EU) 2019/2144 should therefore be amended accordingly,

DECISIONS

COMMISSION IMPLEMENTING DECISION (EU) 2022/1400

of 11 August 2022

amending Council Directive 2008/72/EC to extend the period during which Member States may decide on the import conditions for vegetable propagating and planting material, other than seed, from third countries

(notified under document C(2022) 5723)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2008/72/EC of 15 July 2008 on the marketing of vegetable propagating and planting material, other than seed ⁽¹⁾, and in particular Article 16(2), second subparagraph, thereof,

Whereas:

- (1) Pursuant to Article 16(1) of Directive 2008/72/EC, the Commission is to decide whether vegetable propagating and planting material, other than seed, produced in a third country and affording the same guarantees as regards obligations on the supplier, identity, characteristics, plant health, growing medium, packaging, inspection arrangements, marking and sealing, is equivalent in all these respects to vegetable propagating and planting material, other than seed, produced in the Union and complying with the requirements and conditions of that Directive.
- (2) Currently, pending such decision by the Commission, Member States importing such material from third countries may, until 31 December 2022, apply to such products import conditions at least equivalent to those applicable to similar Union products.
- (3) However, the information presently available on the conditions applying in third countries is not sufficient to enable the Commission to adopt any such decision in respect of any third country.
- (4) In order to prevent trade patterns from being disrupted, the period during which Member States are allowed to apply to such products conditions at least equivalent to those applicable to similar Union products should be extended beyond 31 December 2022. Considering the investments and the time needed for the production of those products in accordance with the import conditions, it is appropriate to extend that period by 7 years.
- (5) Directive 2008/72/EC should therefore be amended accordingly.
- (6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

In Article 16(2), first subparagraph, of Directive 2008/72/EC, the date ‘31 December 2022’ is replaced by ‘31 December 2029’.

Article 2

This Decision is addressed to the Member States.

COMMISSION IMPLEMENTING DECISION (EU) 2022/1401**of 12 August 2022****amending Implementing Decision (EU) 2019/1698 as regards European standards for certain child care articles, children's furniture, gymnastic equipment, lighters, and information and communication technology equipment****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2001/95/EC of the European Parliament and of the Council of 3 December 2001 on general product safety ⁽¹⁾, and in particular the first subparagraph of Article 4(2) thereof,

Whereas:

- (1) In accordance with the second subparagraph of Article 3(2) of Directive 2001/95/EC a product is to be presumed safe as far as the risks and risk categories covered by the relevant national standards are concerned when it conforms to voluntary national standards transposing European standards, the references of which have been published by the Commission in the *Official Journal of the European Union* in accordance with Article 4 of that Directive.
- (2) By letter M/264 of 16 December 1997, the Commission made a request to the European Committee for Standardisation ('CEN') to prepare European standards related to the safety of childcare articles ('request M/264').
- (3) On the basis of that request, CEN adopted standard EN 716-1:2017 'Furniture – Children's cots and folding cots for domestic use – Part 1: Safety requirements' and, further to that, a consolidated standard EN 716-1:2017+AC:2019, to include corrigendum AC:2019. The consolidated standard EN 716-1:2017+AC:2019 complies with the general safety requirement set out in Directive 2001/95/EC. The reference of standard EN 716-1:2017+AC:2019 should therefore be published in the *Official Journal of the European Union*.
- (4) On 27 July 2011 the Commission adopted Decision 2011/479/EU ⁽²⁾ on the safety requirements to be met by the European standards for gymnastic equipment.
- (5) By letter M/507 of 5 September 2012, the Commission made a request to CEN to prepare European standards on gymnastic equipment. On the basis of that request, CEN adopted a standard EN 914:2008 'Gymnastic equipment – Parallel bars and combination asymmetric/parallel bars – Requirements and test methods including safety', the references of which was published in the *Official Journal of the European Union* ⁽³⁾.
- (6) Taking into account new knowledge and the development of the market, CEN drafted the new standard EN 914:2020 which complies with the general safety requirement set out in Directive 2001/95/EC. Its reference should therefore be published in the *Official Journal of the European Union* replacing the reference of standard EN 914:2008.

⁽²⁾ Commission Decision 2011/479/EU of 27 July 2011 on the safety requirements to be met by European standards for gymnastic equipment pursuant to Directive 2001/95/EC of the European Parliament and of the Council (OJ L 197, 29.7.2011, p. 13).

⁽³⁾ Commission Implementing Decision (EU) 2019/1698 of 9 October 2019 on European standards for products drafted in support of Directive 2001/95/EC of the European Parliament and of the Council on general product safety (OJ L 259, 10.10.2019, p. 65).

- (7) On 2 July 2010 the Commission adopted Decision 2010/376/EU ⁽⁴⁾ on the safety requirements to be met by European standards for certain products in the sleep environment of children.
- (8) By letter M/497 of 20 October 2011, the Commission made a request to CEN to prepare European standards on the safety of childcare articles, cluster 2 – risks in the sleep environment. On the basis of that request, CEN adopted the standard EN 1130-1:1996 'Furniture – Cribs and cradles for domestic use – Part 1: Safety requirements' and EN 1130-2:1996 'Furniture – Cribs and cradles for domestic use – Part 2: Test methods'. The references of those standards were published in the *Official Journal of the European Union* ⁽⁵⁾.
- (9) Taking into account new knowledge and the development of the market, CEN adopted the new standard EN 1130:2019 'Children's furniture – Cribs – Safety requirements and test methods' which complies with the general safety requirement set out in Directive 2001/95/EC. The reference of standard EN 1130:2019 should therefore replace the references to standards EN 1130-1:1996 and EN 1130-2:1996.
- (10) Then CEN drafted corrigendum EN 1130:2019/AC:2020 to correct the chemical abbreviation for Manganese. Therefore, in order to ensure the correct application of EN 1130:2019, it is appropriate to publish the reference to corrigendum EN 1130:2019/AC:2020 in the *Official Journal of the European Union* together with EN 1130:2019.

The reference of standard EN 1272:2017 should therefore be published in the *Official Journal of the European Union*.
- (14) On the basis of request M/264, CEN adopted standard EN 1400:2013+A2:2018 'Child use and care articles – Soothers for babies and young children – Safety requirements and test methods' which complies with the general safety requirement set out in Directive 2001/95/EC. The reference of standard EN 1400:2013+A2:2018 should therefore be published in the *Official Journal of the European Union*.
- (15) On the basis of request M/264, CEN drafted corrigendum EN 1466:2014/AC:2015 'Child use and care articles – Carry cots and stands – Safety requirements and test methods' to EN 1466:2014. The reference of standard EN 1466:2014 was published in the *Official Journal of the European Union* ⁽⁸⁾. In view of the fact that corrigendum EN 1466:2014/AC:2015 includes technical corrections, and in order to ensure correct and consistent application of EN 1466:2014, it is appropriate to publish the reference of corrigendum EN 1466:2014/AC:2015 in the *Official Journal of the European Union* together with EN 1466:2014 that was previously published.

⁽⁴⁾ Commission Decision 2010/376/EU of 2 July 2010 on the safety requirements to be met by European standards for certain products in the sleep environment of children pursuant to Directive 2001/95/EC of the European Parliament and of the Council (OJ L 170, 6.7.2010, p. 39).

⁽⁵⁾ Commission Implementing Decision (EU) 2019/1698.

⁽⁶⁾ Commission Decision 2013/121/EU of 7 March 2013 on the safety requirements to be met by European standards for certain seats for children pursuant to Directive 2001/95/EC of the European Parliament and of the Council on general product safety (OJ L 65, 8.3.2013, p. 23).

⁽⁷⁾ Commission Implementing Decision C(2014) 5058 final of 22 July 2014 on a standardisation request to the European standardisation organisations to draft European standards for certain seats for children in support of Directive 2001/95/EC of the European Parliament and of the Council.

⁽⁸⁾ Commission Implementing Decision (EU) 2019/1698.

- (16) By letter M/266 of 16 December 1997, the Commission made a request to CEN to prepare standards related to lighters for the safety of consumers and children. On the basis of that request, CEN adopted standard EN ISO 9994:2006 'Lighters – Safety specification (ISO 9994:2005)'. The reference of standard EN ISO 9994:2006 was published in the *Official Journal of the European Union* ⁽⁹⁾.
- (17) Taking into account new knowledge, CEN adopted the new standard EN ISO 9994:2019 'Lighters – Safety specification (ISO 9994:2018)' which complies with the general safety requirement set out in Directive 2001/95/EC. Therefore, the reference of standard EN ISO 9994:2019 should replace the reference of EN ISO 9994:2006.
- (18) On the basis of the request M/527, CEN adopted the standard EN 14988:2017+A1:2020 'Children's high chairs – Requirements and test methods' which complies with the general safety requirement set out in Directive 2001/95/EC. The reference of standard EN 14988:2017+A1:2020 should therefore be published in the *Official Journal of the European Union*.
- (19) On the basis of the request M/527, CEN adopted the standard EN 16120:2012+A2:2016 'Child use and care articles – Chair mounted seat' which complies with the general safety requirement set out in Directive 2001/95/EC. The reference of standard EN 16120:2012+A2:2016 should therefore be published in the *Official Journal of the European Union*.
- (20) On 23 June 2009 the Commission adopted Decision 2009/490/EC ⁽¹⁰⁾ on the safety requirements to be met by European standards for personal music players.
- (21) By letter M/452 of 28 September 2009, the Commission made a request to the European Committee for Electrotechnical Standardization ('Cenelec') to draw up European standards for personal music players. On the basis of this request, Cenelec adopted standard EN IEC 62368-1:2020 on 'Audio/video, information and communication technology equipment – Part 1: Safety requirements' and, further to that, the amendment EN IEC 62368-1:2020/A11:2020. EN IEC 62368-1:2020 is proposed with its amendment A11:2020, which complies with the general safety requirement set out in Directive 2001/95/EC. Its reference should be published in the *Official Journal of the European Union* replacing the references EN 60065:2002 'Audio, video and similar electronic apparatus – Safety requirements' and EN 60950-1:2006 'Information technology equipment – Safety – Part 1: General requirements'. However, the publication of those references should be limited to the clauses 3.3.19 'Sound exposure' and 10.6 'Safeguard against acoustic energy sources', given that the purpose of Commission Decision 2009/490/EC is limited to ensuring that exposure to sound from personal music players does not pose a risk to hearing.
- (22) References of European standards adopted in support of Directive 2001/95/EC are published by Implementing Decision (EU) 2019/1698. In order to ensure that the references of European standards drafted in support of Directive 2001/95/EC are listed in one act, the relevant references of new standards, amendments and corrections to standards should be included in Implementing Decision (EU) 2019/1698.
- (23) Implementing Decision (EU) 2019/1698 should therefore be amended accordingly.
- (24) Compliance with the relevant national standard transposing European standard the references of which have been published in the *Official Journal of the European Union* confers a presumption of safety as far as the risks and risk categories covered by the relevant national standard are concerned from the date of publication of the reference of the European standard in the *Official Journal of the European Union*. This Decision should therefore enter into force on the date of its publication.
- (25) The measures provided for in this Decision are in accordance with the opinion of the Committee established pursuant to Article 15 of Directive 2001/95/EC,

⁽⁹⁾ Commission Implementing Decision (EU) 2019/1698.

⁽¹⁰⁾ Commission Decision 2009/490/EC of 23 June 2009 on the safety requirements to be met by European standards for personal music players pursuant to Directive 2001/95/EC of the European Parliament and of the Council (OJ L 161, 24.6.2009, p. 38).

COMMISSION IMPLEMENTING DECISION (EU) 2022/1402**of 12 August 2022****amending the Annex to Implementing Decision (EU) 2021/641 concerning emergency measures in relation to outbreaks of highly pathogenic avian influenza in certain Member States****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') ⁽¹⁾, and in particular Article 259(1), point (c), thereof,

Whereas:

- (1) Highly pathogenic avian influenza (HPAI) is an infectious viral disease in birds and may have a severe impact on the profitability of poultry farming causing disturbance to trade within the Union and exports to third countries. HPAI viruses can infect migratory birds, which can then spread these viruses over long distances during their autumn and spring migrations. Therefore, the presence of HPAI viruses in wild birds poses a continuous threat for the direct and indirect introduction of these viruses into holdings where poultry or captive birds are kept. In the event of an outbreak of HPAI, there is a risk that the disease agent may spread to other holdings where poultry or captive birds are kept.
- (2) Regulation (EU) 2016/429 establishes a new legislative framework for the prevention and control of diseases that are transmissible to animals or humans. HPAI falls within the definition of a listed disease in that Regulation, and it is subject to the disease prevention and control rules laid down therein. In addition, Commission Delegated Regulation (EU) 2020/687 ⁽²⁾ supplements Regulation (EU) 2016/429 as regards the rules for the prevention and control of certain listed diseases, including disease control measures for HPAI.
- (3) Commission Implementing Decision (EU) 2021/641 ⁽³⁾ has been adopted within the framework of Regulation (EU) 2016/429 and it lays down disease control measures in relation to outbreaks of HPAI.
- (4) More particularly, Implementing Decision (EU) 2021/641 provides that the protection, surveillance and further restricted zones established by the Member States following outbreaks of HPAI, in accordance with Delegated Regulation (EU) 2020/687, are to comprise at least the areas listed as protection, surveillance and further restricted zones in the Annex to that Implementing Decision.
- (5) The Annex to Implementing Decision (EU) 2021/641 was recently amended by Commission Implementing Decision (EU) 2022/1351 ⁽⁴⁾ following outbreaks of HPAI in poultry or captive birds in Germany, the Netherlands and Poland that needed to be reflected in that Annex.

⁽¹⁾ OJ L 84, 31.3.2016, p. 1.

⁽²⁾ Commission Delegated Regulation (EU) 2020/687 of 17 December 2019 supplementing Regulation (EU) 2016/429 of the European Parliament and the Council, as regards rules for the prevention and control of certain listed diseases (OJ L 174, 3.6.2020, p. 64).

⁽³⁾ Commission Implementing Decision (EU) 2021/641 of 16 April 2021 concerning emergency measures in relation to outbreaks of highly pathogenic avian influenza in certain Member States (OJ L 134, 20.4.2021, p. 166).

⁽⁴⁾ Commission Implementing Decision (EU) 2022/1351 of 2 August 2022 amending the Annex to Implementing Decision (EU) 2021/641 concerning emergency measures in relation to outbreaks of highly pathogenic avian influenza in certain Member States (OJ L 203, 3.8.2022, p. 3).

- (6) Since the date of adoption of Implementing Decision (EU) 2022/1351, France, Germany and the Netherlands have notified the Commission of further outbreaks of HPAI in establishments where poultry was kept, located in the Manche and Somme Départements in France, in the Lower Saxony Land in Germany and in the Overijssel province in the Netherlands.
- (7) In addition, Spain has notified the Commission of an outbreak of HPAI in an establishment where poultry were kept, located in the Huelva Province of that Member State.
- (8) The competent authorities of France, Germany, Spain and the Netherlands have taken the necessary disease control measures required in accordance with Delegated Regulation (EU) 2020/687, including the establishment of protection and surveillance zones around those outbreaks.
- (9) The Commission has examined the disease control measures taken by Germany, Spain, France and the Netherlands in collaboration with those Member States and it is satisfied that the boundaries of the protection and surveillance zones in Germany, Spain, France and the Netherlands established by the competent authority of those Member States are at a sufficient distance from the establishments where the outbreaks of HPAI have been confirmed.
- (10) In the Annex to Implementing Decision (EU) 2021/641, there are currently no areas listed as protection and surveillance zones for Spain.
- (11) In order to prevent any unnecessary disturbance to trade within the Union and to avoid unjustified barriers to trade being imposed by third countries, it is necessary to rapidly describe at Union level, in collaboration with Germany, Spain, France and the Netherlands, the protection and surveillance zones established by Germany, Spain, France and the Netherlands in accordance with Delegated Regulation (EU) 2020/687.
- (12) Therefore, the areas listed as protection and surveillance zones for Germany, France and the Netherlands in the Annex to Implementing Decision (EU) 2021/641 should be amended.
- (13) In addition, protection and surveillance zones should be listed for Spain in the Annex to Implementing Decision (EU) 2021/641.
- (14) Accordingly, the Annex to Implementing Decision (EU) 2021/641 should be amended to update regionalisation at Union level to take account of the protection and surveillance zones duly established by Germany, Spain, France and the Netherlands in accordance with Delegated Regulation (EU) 2020/687, and the duration of the measures applicable therein.
- (15) Implementing Decision (EU) 2021/641 should therefore be amended accordingly.
- (16) Given the urgency of the epidemiological situation in the Union as regards the spread of HPAI, it is important that the amendments to be made to Implementing Decision (EU) 2021/641 by this Decision take effect as soon as possible.
- (17) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:
