COUNCIL IMPLEMENTING REGULATION (EU) 2023/253

of 6 February 2023

implementing Regulation (EU) No 269/2014 concerning restrictive measures in respect of actions undermining or threatening the territorial integrity, sovereignty and independence of Ukraine

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EU) No 269/2014 of 17 March 2014 concerning restrictive measures in respect of actions undermining or threatening the territorial integrity, sovereignty and independence of Ukraine ⁽¹⁾, and in particular Article 14 thereof,

Having regard to the proposal from the High Representative of the Union for Foreign Affairs and Security Policy,

Whereas:

- (1) On 17 March 2014, the Council adopted Regulation (EU) No 269/2014.
- (2) Following the judgment of the General Court in Case T-714/20 ⁽²⁾, one entry should be deleted from the list of natural and legal persons, entities and bodies, set out in the Annex I to Regulation (EU) No 269/2014.
- (3) Annex I to Regulation (EU) No 269/2014 should therefore be amended accordingly,

HAS ADOPTED THIS REGULATION:

Article 1

Annex I to Regulation (EU) No 269/2014 is amended in accordance with the Annex to this Regulation.

*Article 2*This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.⁽¹⁾ OJ L 78, 17.3.2014, p. 6.⁽²⁾ Judgment of the General Court (Fifth Chamber) of 26 October 2022, *Dmitry Vladimirovich Ovsyannikov v Council of the European Union*, T-714/20, ECLI:EU:T:2022:674.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

ANNEX

In Annex I to Regulation (EU) No 269/2014, 'List of natural and legal persons, entities or bodies referred to in Article 2', under the heading 'Persons', the entry concerning the following person is deleted:

161. Dmitry Vladimirovich OVSYANNIKOV.

COMMISSION IMPLEMENTING REGULATION (EU) 2023/254**of 6 February 2023****amending Implementing Regulation (EU) 2020/761 as regards certain technical rules on the management of tariff rate quotas**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 ⁽¹⁾, and in particular Article 187 thereof,

Whereas:

- (1) Commission Implementing Regulation (EU) 2020/761 ⁽²⁾ lays down the rules for the management of import and export tariff quotas for agricultural products managed by a system of import and export licences and provides for specific rules.
- (2) Article 6(4) of Implementing Regulation (EU) 2020/761 provides, that if an applicant submits more applications for a tariff quota than the maximum number set out in Article 6(3) of that Implementing Regulation, all his applications are inadmissible and the securities lodged forfeited. To avoid excessive punishment the possibility to forfeit the security should be eliminated.
- (3) According to Article 9 of Implementing Regulation (EU) 2020/761, operators applying for licences for tariff rate quotas referred to in Article 4 of Commission Delegated Regulation (EU) 2020/760 ⁽³⁾ are bound to lodge the relevant securities before the end of the application period. For licences not related to tariff quotas, instead, operators are to lodge the security on the day of application for a licence. This situation can create difficulties in the management of licences. To avoid any risks of mismanagement and abuse, national licence issuing authorities should be given the possibility to set the deadline for lodging the securities for tariff quota licences.
- (4) Article 3(4) of Regulation (EEC, Euratom) No 1182/71 of the Council ⁽⁴⁾ provides that when a period ends on a public holiday, Saturday, or Sunday, its end is to be postponed to the end of the following working day. Article 13(1) of Implementing Regulation (EU) 2020/761 provides that this rule does not apply to the period of validity of licences for tariff rate quotas. Article 12(1), point (e), of Implementing Regulation (EU) 2020/761 provides that this rule is to be indicated in a specific section of licences for tariff rate quotas where the period of validity of the licence expires on the last day of the tariff quota period. Therefore, Article 12(1) of Implementing Regulation (EU) 2020/761 should be aligned to Article 13(1) of that Implementing Regulation to avoid misinterpretation.
- (5) Article 16(5) of Implementing Regulation (EU) 2020/761 requires Member States to notify to the Commission the unused quantities covered by licences. To improve the quality of the data provided, the Member States should also notify the quantities of products covered by import licences and released into free circulation during the preceding import tariff quota period.

⁽¹⁾ OJ L 347, 20.12.2013, p. 671.

⁽²⁾ Commission Implementing Regulation (EU) 2020/761 of 17 December 2019 laying down rules for the application of Regulations (EU) No 1306/2013, (EU) No 1308/2013 and (EU) No 510/2014 of the European Parliament and of the Council as regards the management system of tariff quotas with licences (OJ L 185, 12.6.2020, p. 24).

⁽³⁾ Commission Delegated Regulation (EU) 2020/760 of 17 December 2019 supplementing Regulation (EU) No 1308/2013 of the European Parliament and of the Council as regards the rules for the administration of import and export tariff quotas subject to licences and supplementing Regulation (EU) No 1306/2013 of the European Parliament and of the Council as regards the lodging of securities in the administration of tariff quotas (OJ L 185, 12.6.2020, p. 1).

⁽⁴⁾ Regulation (EEC, Euratom) No 1182/71 of the Council of 3 June 1971 determining the rules applicable to periods, dates and time limits (OJ L 124, 8.6.1971, p. 1).

- (6) Since the tariff quota with order number 09.4264 lacks volume, its table and the reference to it should be deleted from Annexes I and XII to Implementing Regulation (EU) 2020/761.
- (7) Due to an excessive demand for volumes under the tariff quotas with order numbers 09.4268 and 09.4269, the rules on the registration in the Licence Operator Registration and Identification electronic system (LORI) and on the reference quantity should also apply to those tariff quotas. Moreover, the rules on proof of trade shall apply only if the reference quantity requirement is suspended in accordance with Article 9(9) of Delegated Regulation (EU) 2020/760.
- (8) Tariff quotas with order numbers 09.4281 and 09.4282 are open for beef and pigmeat, respectively, from Canada. According to Articles 46 and 66 of Implementing Regulation (EU) 2020/761 the quantity is expressed in carcass equivalent. To avoid any confusion, this should be clarified also in the relevant tables in Annexes VIII and X to Implementing Regulation (EU) 2020/761. Moreover for the reasons of clarity, the total quantity available in the past years should be removed.
- (9) Tariff quota with order number 09.4226 is open to imports from Iceland of Skyr, whereas tariff quota with order number 09.4227 is open to imports from Iceland of cheeses excluding 'Skyr'. Following the latest update of the TARIC code for Skyr, this code should be integrated in the tables of those tariff quotas in Annex IX to Implementing Regulation (EU) 2020/761.
- (10) Due to difficulties with the full use of tariff quotas with order numbers 09.4225, 09.4226 and 09.4227, the requirement of a proof of trade in case of those quotas should be lifted.
- (11) For clarity reasons the templates for IMA 1 certificates set out in Annex XIV.5 to Implementing Regulation (EU) 2020/761, Parts A.1 and A.2, should indicate – in box 16 – the number of the tariff rate quota to which the certificate refers. Moreover, to avoid any confusion with box 4, box 3 of the template of IMA 1 certificate for tariff quotas with order numbers 09.4195 and 09.4182 set out in Annex XIV.5, Part A.2, to that Implementing Regulation should contain the name of the buyer instead of the number and the date of invoice.
- (12) Implementing Regulation (EU) 2020/761 should therefore be amended accordingly.
- (13) The measures provided for in this Regulation are in accordance with the opinion of the Committee for the Common Organisation of Agricultural Markets,

HAS ADOPTED THIS REGULATION:

Article 1

Amendments to Implementing Regulation (EU) 2020/761

Implementing Regulation (EU) 2020/761 is amended as follows:

- (1) in Article 6, paragraph 4 is replaced by the following:

'4. If an applicant submits more applications for a tariff quota than the maximum number set out in paragraph 3, none of the applications submitted for the tariff quota shall be admissible.';

- (2) Article 9 is replaced by the following:

'Article 9

Security to be lodged upon submission of an application for an import or export licence

Where the issue of a licence is subject to the lodging of a security pursuant to Article 4 of Delegated Regulation (EU) 2020/760, the applicant shall lodge the security with the licence issuing authority before the end of the application period in the amount set out for each tariff quota in Annexes II to XIII to this Regulation.

However, the licence issuing authority may oblige operators to lodge the security pursuant to Article 4 of Delegated Regulation (EU) 2020/760 on the day of application for licences, in accordance with Article 4(2) of Delegated Regulation (EU) 2016/1237.;

(3) in Article 12(1), point (e) is replaced by the following:

‘(e) Section 24 of the import licence or Section 22 of the export licence shall contain the statement that “Article 3(4) of Regulation (EEC, Euratom) No 1182/71 shall not apply” (*).

COMMISSION IMPLEMENTING REGULATION (EU) 2023/255**of 6 February 2023****concerning the renewal of the authorisation of naringin as a feed additive for all animal species and
repealing Implementing Regulation (EU) No 870/2012****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition ⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting and renewing such authorisation.
- (2) Naringin was authorised for a period of 10 years as a feed additive for all animal species by Commission Implementing Regulation (EU) No 870/2012 ⁽²⁾.
- (3) In accordance with Article 14(1) of Regulation (EC) No 1831/2003, an application was submitted for the renewal of the authorisation of naringin as a feed additive for all animal species, requesting the additive to be classified in the additive category 'sensory additives' and in the functional group 'flavouring compounds'. That application was accompanied by the particulars and documents required under Article 14(2) of that Regulation.
- (4) The European Food Safety Authority ('the Authority') concluded in its opinion of 24 March 2022 ⁽³⁾ that the applicant has provided evidence that the additive remains safe for all animal species, the consumers and the environment under the conditions of use currently authorised. It also concluded that naringin does not cause severe irritation or corrosion to eyes, is not irritant to skin and is not classified as a dermal sensitiser, but in the absence of data it could not conclude on the possible respiratory sensitisation of the additive.
- (5) In accordance with Article 5(4), point (c), of Commission Regulation (EC) No 378/2005 ⁽⁴⁾, the Reference Laboratory set up by Regulation (EC) No 1831/2003 considered that the conclusions and recommendations reached in the previous assessment are applicable for the current application.
- (6) The assessment of naringin shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the authorisation of that additive should be renewed.
- (7) The Commission considers that appropriate protective measures should be taken to prevent adverse effects on human health, in particular as regards the users of the additive. Those protective measures should comply with Union legislation on worker safety requirements.

⁽¹⁾ OJ L 268, 18.10.2003, p. 29.

⁽²⁾ Commission Implementing Regulation (EU) No 870/2012 of 24 September 2012 concerning the authorisation of naringin as a feed additive for all animal species (OJ L 257, 25.9.2012, p. 10).

⁽³⁾ EFSA Journal 2022;20(4):7267.

⁽⁴⁾ Commission Regulation (EC) No 378/2005 of 4 March 2005 on detailed rules for the implementation of Regulation (EC) No 1831/2003 of the European Parliament and of the Council as regards the duties and tasks of the Community Reference Laboratory concerning applications for authorisations of feed additives (OJ L 59, 5.3.2005, p. 8).

- (8) Certain conditions should be provided for to allow better control. In particular, a recommended maximum content should be indicated on the label of the additive. Where such content is exceeded, certain information should be indicated on the label of premixtures.
- (9) As a consequence of the renewal of the authorisation of naringin as a feed additive, Implementing Regulation (EU) No 870/2012 should be repealed.
- (10) Since safety reasons do not require the immediate application of the modifications to the conditions of authorisation of naringin, it is appropriate to provide for a transitional period for interested parties to prepare themselves to meet the new requirements resulting from the renewal of the authorisation.
- (11) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Renewal of the authorisation

The authorisation of the substance specified in the Annex, belonging to the additive category 'sensory additives' and to the functional group 'flavouring compounds', is renewed subject to the conditions laid down in that Annex.

Article 2

Repeal

Implementing Regulation (EU) No 870/2012 is repealed.

Article 3

Transitional measures

1. The substance specified in the Annex and premixtures containing that substance, which are produced and labelled before 27 August 2023 in accordance with the rules applicable before 27 February 2023 may continue to be placed on the market and used until the existing stocks are exhausted.
2. Compound feed and feed materials containing the substance specified in the Annex, which are produced and labelled before 27 February 2024 in accordance with the rules applicable before 27 February 2023 may continue to be placed on the market and used until the existing stocks are exhausted if they are intended for food-producing animals.
3. Compound feed and feed materials containing the substance specified in the Annex, which are produced and labelled before 27 February 2025 in accordance with the rules applicable before 27 February 2023 may continue to be placed on the market and used until the existing stocks are exhausted if they are intended for non-food producing animals.

Article 4

Entry into force

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 6 February 2023.

COMMISSION IMPLEMENTING REGULATION (EU) 2023/256**of 6 February 2023****concerning the authorisation of a preparation of *Limosilactobacillus reuteri* DSM 32203 as a feed additive for dogs and a preparation of *Limosilactobacillus reuteri* DSM 32264 as a feed additive for cats (holder of authorisation: NBF Lanes s.r.l.)****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition ⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such an authorisation.
- (2) In accordance with Article 7 of Regulation (EC) No 1831/2003, two applications were submitted, one for the authorisation of a preparation of *Limosilactobacillus reuteri* DSM 32203 and one for the authorisation of a preparation of *Limosilactobacillus reuteri* DSM 32264. Those applications were accompanied by the particulars and documents required under Article 7(3) of Regulation (EC) No 1831/2003.
- (3) The applications concern the authorisation of the preparation of *Limosilactobacillus reuteri* DSM 32203 as a feed additive for dogs and the preparation of *Limosilactobacillus reuteri* DSM 32264 as a feed additive for cats, to be classified in the category 'zootechnical additives' and in the functional group 'gut flora stabilisers'.
- (4) The European Food Safety Authority ('the Authority') concluded in its opinions of 27 November 2018 ⁽²⁾ ⁽³⁾ and of 29 June 2022 ⁽⁴⁾ ⁽⁵⁾ that, under the proposed conditions of use, the preparations of *Limosilactobacillus reuteri* DSM 32203 and of *Limosilactobacillus reuteri* DSM 32264 do not have adverse effects on animal health, consumer safety or the environment. It also concluded that those preparations should be considered a potential respiratory sensitiser, and that in the absence of data, it could not conclude on the irritancy potential of the additives to skin and eyes or on its dermal sensitisation potential. The Authority also concluded that the preparations of *Limosilactobacillus reuteri* DSM 32203 and of *Limosilactobacillus reuteri* DSM 32264 have the potential to be efficacious in improving the faecal consistency. However, the Authority expressed some reservations on linear decrease in the moisture content of faeces, which if maintained over time, might cast doubts on the benefits on the long-term use of the additives since it could lead to constipation. It also verified the report on the methods of analysis of the feed additives in feed submitted by the Reference Laboratory set up by Regulation (EC) No 1831/2003.
- (5) The assessment of the preparations of *Limosilactobacillus reuteri* DSM 32203 and of *Limosilactobacillus reuteri* DSM 32264 shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of those preparations should be authorised. It is appropriate to provide for post-market monitoring and for specific labelling of the additives and premixtures containing them as regards possible long-term adverse effects of the use of the additives. In addition, the Commission considers that appropriate protective measures should be taken to prevent adverse effects on human health, in particular as regards the users of the additives.

HAS ADOPTED THIS REGULATION:

Article 1

The preparations specified in the Annex, belonging to the additive category 'zootechnical additives' and to the functional group 'gut flora stabilisers', are authorised as additives in animal nutrition, subject to the conditions laid down in that Annex.
