REGULATIONS

COMMISSION IMPLEMENTING REGULATION (EU) 2023/1470

of 17 July 2023

laying down the methodological and technical specifications in accordance with Regulation (EU) 2016/792 of the European Parliament and of the Council as regards the house price index and the owner-occupied housing price index, and amending Commission Regulation (EU) 2020/1148

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/792 of the European Parliament and of the Council of 11 May 2016 on harmonised indices of consumer prices and the house price index, and repealing Council Regulation (EC) No 2494/95 ⁽¹⁾, and in particular Articles 3(9), 3(10), 4(4), 7(6) and 9(4) thereof,

Whereas:

- (1) Regulation (EU) 2016/792 lays down a common framework for the production of the harmonised index of consumer prices (HICP), the harmonised index of consumer prices at constant tax rates (HICP-CT), the owner-occupied housing (OOH) price index and the house price index (HPI).
- (2) Pursuant to Article 3(9) of Regulation (EU) 2016/792, the Commission is to adopt implementing acts specifying the breakdowns of the HPI and the OOH price index.
- (3) Pursuant to Article 3(10) of Regulation (EU) 2016/792, Member States are to update annually sub-index weights for the HPI and the OOH price index. Therefore, it is necessary to specify uniform conditions for the quality of weights of the harmonised indices.
- (4) In accordance with Article 3(2) of Regulation (EU) 2016/792, the HPI and the OOH price index are to be annually chain-linked Laspeyres-type indices. Therefore, pursuant to Article 4(4)(iv) of Regulation (EU) 2016/792, the Commission should further specify methods for the compilation of sub-indices and elementary price indices.
- (5) Price indices related to purchases of dwellings should be representative of all relevant transactions. Therefore, pursuant to Article 4(4)(i) of Regulation (EU) 2016/792, the Commission should further specify rules for the representativity of the data sources used.

⁽¹⁾ OJ L 135, 24.5.2016, p. 11.

- (6) Price indices related to purchases of dwellings should not be affected by quality differences between transacted dwellings. Therefore, pursuant to Article 4(4)(ii) and (iv) of Regulation (EU) 2016/792, the Commission should further specify rules for data collection and index compilation.
- (7) In accordance with Article 2(10) of Regulation (EU) 2016/792, the HPI measures changes in transaction prices of dwellings purchased by households. Therefore, pursuant to Article 4(4)(ii) of Regulation (EU) 2016/792, the Commission should further specify rules on treatment of prices used in the calculation of the HPI.
- (8) The OOH price index aims at improving the relevance and comparability of the HICP. Therefore, for the compilation of the OOH price index, it is necessary to specify a methodological framework that is consistent with a methodological framework for the compilation of the HICP.
- (9) In its report on the suitability of the OOH price index for integration into the HICP coverage ⁽²⁾, the Commission assessed that the OOH price index is currently not suitable for integration into the coverage of the HICP. In accordance with Article 3(7) of Regulation (EU) 2016/792 and in close cooperation with the European Central Bank and the Member States, the Commission should pursue the methodological work required for the integration of the OOH price index into the HICP coverage.
- (10) Since it is not possible to observe all transactions of the target universe of the OOH price index, the Commission, pursuant to Article 4(4)(i) of Regulation (EU) 2016/792, should further specify rules for sampling.
- (11) In accordance with Article 2(9) of Regulation (EU) 2016/792, the OOH price index measures changes in the transaction prices of dwellings new to the household sector and of other products that the households acquire in their role as owner-occupiers. Therefore, pursuant to Article 4(4)(ii) of Regulation (EU) 2016/792, the Commission should further specify rules for the treatment of prices used in the calculation of the OOH price index.
- (12) The OOH price index should provide a measure of pure change in prices that is unaffected by quality change. Therefore, pursuant to Article 4(4)(iii) of Regulation (EU) 2016/792, the Commission should further specify rules for replacements and quality adjustments that should be applied in relation to products other than dwellings.
- (13) In accordance with Article 7(5) of Regulation (EU) 2016/792, the HPI, the OOH price index and their sub-indices that have already been published may be revised. Therefore, pursuant to Article 7(6) of Regulation (EU) 2016/792, the Commission should specify the uniform conditions for the revision of the HPI, the OOH price index and their sub-indices.
- (14) In accordance with Article 9(2) of Regulation (EU) 2016/792, Member States are to provide Eurostat with standard quality reports and inventories. Therefore, pursuant to Article 9(4) of Regulation (EU) 2016/792, the Commission should establish the deadline for providing these reports and inventories.
- (15) Pursuant to Article 7(4) of Regulation (EU) 2016/792, Member States should provide data and metadata to the Commission (Eurostat) in accordance with specified exchange standards and procedures. Therefore, pursuant to Article 7(6) of Regulation (EU) 2016/792, the Commission should specify the data and metadata exchange standards.
- (16) Commission Regulation (EU) 2020/1148 ⁽³⁾ should therefore be amended.

⁽²⁾ Report from the Commission to the European Parliament and the Council on the suitability of the owner-occupied housing (OOH) price index for integration into the harmonised index of consumer prices (HICP) coverage, COM(2018)768.

⁽³⁾ Commission Implementing Regulation (EU) 2020/1148 of 31 July 2020 laying down the methodological and technical specifications in accordance with Regulation (EU) 2016/792 of the European Parliament and of the Council as regards harmonised indices of consumer prices and the house price index (OJ L 252, 4.8.2020, p. 12).

- (17) It is appropriate to set a transitional period to take into account the specific situation of competent authorities in the Member States that need to make the necessary arrangements to ensure compliance with this Regulation.
- (18) The measures provided for in this Regulation are in accordance with the opinion of the European Statistical System Committee established by Article 7 of Regulation (EC) No 223/2009 of the European Parliament and of the Council ⁽⁴⁾,

HAS ADOPTED THIS REGULATION:

CHAPTER 1

GENERAL PROVISIONS

Article 1

Subject matter

This Regulation establishes uniform conditions for producing the following indexes:

- (a) the house price index (HPI);
- (b) the owner-occupied housing (OOH) price index.

Article 2

Definitions

For the purposes of this Regulation, the following definitions apply:

- (1) 'dwelling' means a self-contained immovable residential unit, either part of a block of flats or built on its own plot of land, which is appropriate for occupation by one household and can provide housing services;
- (2) 'housing cooperative' means a legal entity that grants each of their shareholders the right to occupy a certain dwelling in the cooperative;
- (3) 'transacted dwelling' means a dwelling the legal ownership of which was transferred as a result of a sales transaction including the purchase of shares in a housing cooperative that gives the right to occupy a dwelling in the cooperative;
- (4) 'newly built dwelling' means a transacted dwelling that is newly constructed or is created by converting an existing non-residential building or a non-residential part of an existing residential building;
- (5) 'existing dwelling' means a transacted dwelling that comes from the existing stock of dwellings;
- (6) 'sub-index' means the price index for any of the expenditure categories set out in Articles 3 and 11 of this Regulation;
- (7) 'elementary aggregate' means the smallest aggregate used in a Laspeyres-type index;
- (8) 'market price' means the amount of money that a willing buyer pays to acquire a good, service or asset from a willing seller where the exchanges are made between independent parties based on commercial considerations only;

⁽⁴⁾ Regulation (EC) No 223/2009 of the European Parliament and of the Council of 11 March 2009 on European statistics and repealing Regulation (EC, Euratom) No 1101/2008 of the European Parliament and of the Council on the transmission of data subject to statistical confidentiality to the Statistical Office of the European Communities, Council Regulation (EC) No 322/97 on Community Statistics, and Council Decision 89/382/EEC, Euratom establishing a Committee on the Statistical Programmes of the European Communities (OJ L 87, 31.3.2009, p. 164).

- (9) 'target universe of the HPI' means all transacted dwellings purchased at market prices, regardless of which institutional sector they were bought from and of the purchase purpose, and where:
- (a) the purchasing party is a household as defined in Article 2(18) of Regulation (EU) 2016/792;
 - (b) the subject of the transaction is any type of newly built or existing dwelling;
 - (c) the dwelling is located on the economic territory of a Member State as defined in Article 2(19) of Regulation (EU) 2016/792;
 - (d) the transaction is a monetary transaction;
- (10) 'HPI expenditure share' means a percentage of total household expenditure on purchases of dwellings belonging to the target universe of the HPI;
- (11) 'stratum' means a subgroup of elements belonging to the target universe of HPI or OOH price index within an elementary aggregate, for which a price index adjusted for any quality differences is calculated and to which a weight is assigned;
- (12) 'quality difference between transacted dwellings' means a difference between the type, physical characteristics, age or location of transacted dwellings in two periods, where it is relevant from the purchaser's perspective;
- (13) 'type of dwelling' means a category of dwellings having common characteristics. Two main types of dwelling are flats and houses. Depending on country circumstances, further types may be distinguished, such as detached houses, semi-detached houses and terraced houses;
- (14) 'transaction price' means the total price paid by a household for the acquisition of a dwelling, including value added type taxes and excluding subsidies influencing the final prices of dwellings, and covering the price of both the structure and the underlying land where relevant;
- (15) 'value added type tax' means a tax on goods or services collected in stages by enterprises and which is ultimately charged in full to the final purchaser, as defined in paragraph 4.17 of Chapter 4 of Annex A to Regulation (EU) No 549/2013 of the European Parliament and of the Council ^(*);
- (16) 'hedonic index' means a price index that uses a hedonic regression as a tool for its compilation. A hedonic regression refers to the statistical analysis of a functional form used to estimate the impact of price-determining characteristics on the price of a dwelling;
- (17) 'stratified median or mean index' means a price index that is constructed on the basis of a measure of central tendency, which is calculated for each stratum of transacted dwellings belonging to the target universe of the HPI among which there are no significant quality differences;
- (18) 'method that replicates the matched model approach' means a method to compile a price index that compares transaction prices from repeated sales of the same dwellings or compares actual transaction prices with appraisals to compute price relatives for the same dwellings;
- (19) 'owner-occupiers' means households that live in a dwelling that they own;
- (20) 'new dwelling' means a dwelling that, when ready to be used, is considered to provide a new housing service and is seen as an addition to the existing stock of dwellings;
- (21) 'prefabricated house' means a house that is manufactured off-site and is ready to assemble;
- (22) 'self-build dwelling' means a dwelling built by a household for its own occupation, either through its own labour or by employing a professional builder or by buying a prefabricated house and where land is acquired separately from the building;

(*) Regulation (EU) No 549/2013 of the European Parliament and of the Council of 21 May 2013 on the European system of national and regional accounts in the European Union (OJ L 174, 26.6.2013, p. 1).

- (23) 'major renovations' means improvements that increase a dwelling's underlying standard of providing accommodation services, or substantially lengthen its previously expected service life and therefore increase its value, and go beyond activities required to keep the dwelling functioning and usable;
- (24) 'major repairs and maintenance' means works typically undertaken by the dwelling owner in order to bring the dwelling back to its original state or the state after the last major renovation which helps to extend its life but not to increase its value compared with its original state or its state after the last major renovation;
- (25) 'insurance connected with dwellings' means a non-life insurance, taken out by a dwelling owner, against fire, storm, flood, theft and vandalism typically covering the building structure and immovable parts such as fitted kitchens, fitted wardrobes;
- (26) 'target universe of the OOH price index' means all transactions included in owner-occupiers' housing expenditure, as defined in the Annex;
- (27) 'OOH expenditure share' means a percentage of total household expenditure on transactions belonging to the target universe of the OOH price index;
- (28) 'producer price index for construction' means an index that shows the development of prices paid by the client to the construction company, as defined in Annex IV to Commission Implementing Regulation (EU) 2020/1197 ⁽⁶⁾;
- (29) 'product-offer' means a product specified by its characteristics, the timing and place of purchase and the terms of supply, and for which a price is observed;
- (30) 'homogeneous product' means a set of product-offers among which there are no significant quality differences and for which an average price is calculated;
- (31) 'individual product' means a product-offer or a homogeneous product;
- (32) 'observed price' means the price of an individual product, used by the Member State for the compilation of certain sub-indices of the OOH price index;
- (33) 'target sample for the OOH price index' means a set of transacted dwellings and individual products that pertain to transactions from the target universe of the OOH price index and for which price data are to be used for OOH price index compilation;
- (34) 'replacement product' means an individual product that replaces another individual product in the target sample for the OOH price index;
- (35) 'estimated price' means a price based on an appropriate estimation procedure;
- (36) 'actual premiums' means the amounts paid for a specific insurance policy to obtain insurance cover over a stated time period;
- (37) 'inducement' means a change, often temporary, in the characteristics of an individual product by increasing the quantity of the product, attaching another individual product free of charge or offering other benefits to the consumer;
- (38) 'quality difference' means a difference between the characteristics, timing, place of purchase or terms of supply of two individual products, where this is relevant from the consumer's perspective;
- (39) 'elementary price index' means an index for an elementary aggregate or an index for a stratum within an elementary aggregate;
- (40) 'transitivity' means the property whereby an index that compares periods (a) and (b) indirectly through period (c) is identical to one that compares periods (a) and (b) directly;

⁽⁶⁾ Commission Implementing Regulation (EU) 2020/1197 of 30 July 2020 laying down technical specifications and arrangements pursuant to Regulation (EU) 2019/2152 of the European Parliament and of the Council on European business statistics repealing 10 legal acts in the field of business statistics (OJ L 271, 18.8.2020, p. 1).

- (41) 'time reversibility' means the property whereby the index between two periods (a) and (b) is equal to the inverse of that same index between two periods (b) and (a);
- (42) 'revision' means a change in price indices or weights published by the Commission (Eurostat);
- (43) 'provisional data' means price indices and weights that a Member State is expected to finalise in a subsequent quarter;
- (44) 'implicit service charge' means the output of insurance companies, as defined in paragraph 16.51 of Annex A to Regulation (EU) No 549/2013.

CHAPTER 2

HOUSE PRICE INDEX

Article 3

Breakdown of the house price index

The HPI shall cover the following expenditure categories:

- (a) H.1. Purchases of dwellings;
- (b) H.1.1. Purchases of newly built dwellings;
- (c) H.1.2. Purchases of existing dwellings.

Article 4

Weights reflecting the structure of expenditure on purchases of dwellings

1. Each year, Member States shall compile and transmit to the Commission (Eurostat) one set of weights for the HPI, in accordance with the expenditure categories set out in Article 3.
2. Member States shall derive sub-index and elementary aggregate weights reflecting the structure of housing expenditure, used in the index of year t , as follows:
 - (a) data sources providing information on household expenditure on transacted dwellings that belong to the target universe of the HPI in year $t-1$ or year $t-2$ shall be used to obtain sub-index HPI expenditure shares and divide them among the elementary aggregates of the sub-index;
 - (b) the HPI expenditure shares based on data from the year $t-2$ shall be reviewed and updated to make them representative of the year $t-1$;
 - (c) the HPI expenditure shares for the elementary aggregates shall be adjusted with an appropriate price change between the year $t-1$ and the fourth quarter of the year $t-1$.
3. Sub-index and elementary aggregate weights shall be kept constant throughout the calendar year.
4. The sum of all sub-index weights shall equal 1 000.
5. The sub-index weight shall be equal to the sum of weights for elementary aggregates distinguished within the given expenditure category.
6. Member States shall use stratum weights that are representative of household expenditure on transacted dwellings belonging to the target universe of the HPI in the comparison period, or in any period that precedes the current year by no more than 2 years.

*Article 5***Weights reflecting the level of expenditure on purchases of dwellings**

Member States shall derive sub-index and total HPI weights reflecting the level of expenditure on purchases of dwellings in the year $t-1$.

*Article 6***Collection of prices and price-determining characteristics**

1. Member States shall acquire the basic information needed for the definition of the strata or elementary aggregates, or of both, and the compilation of the HPI.
2. Member States shall ensure that data collection covers relevant price-determining characteristics that allow the compilation of a price index that is unaffected by quality differences between transacted dwellings.

*Article 7***Representativity**

1. Member States shall ensure that the data used as a source of information on transacted dwellings is representative of the target universe of each sub-index of the HPI in each reference period.
2. Member States may exclude from the HPI one or more types of dwelling and one or more regions, provided that the total share of excluded dwellings in the value of all purchases of dwellings by households does not exceed five parts per hundred. Expenditure on purchases of dwellings for excluded types of dwelling or regions should be allocated to the most similar type of dwelling or region.

*Article 8***Treatment of prices**

1. The HPI shall be based on transaction prices of dwellings.
2. A transaction price of a dwelling shall be included in the HPI for the quarter in which the legal ownership of the dwelling is transferred from the seller to the buyer.

*Article 9***Index compilation**

1. Member States shall obtain sub-indices using one of the following options:
 - (a) as an aggregation of stratum indices calculated either as hedonic indices or indices based on a method that replicates the matched model approach;
 - (b) as hedonic indices or indices based on a method that replicates the matched model approach;
 - (c) as a stratified median or mean index.
2. Where a Member State uses a hedonic index, it shall ensure that the applied method controls for quality differences between transacted dwellings in the comparison and reference periods.
3. Where a Member State uses a method that replicates the matched model approach, it shall ensure that matched price comparisons are made for the same dwellings in the comparison and reference periods, in such a way which ensures that quality differences between transacted dwellings are controlled for.

4. Where a Member State uses a stratified median or mean index, it shall determine stratification variables on the basis of statistical analysis and ensure that the defined strata are sufficiently homogeneous.

Article 10

Estimates

1. Where the available number of transacted dwellings is insufficient to enable the calculation of a reliable price index for a certain stratum, Member States shall estimate the price change for that stratum as the price change for a stratum or a combination of strata characterised by comparable market conditions.

2. Member States shall not carry forward the previous quarter's prices or impute the same price change as in a previous quarter, unless it can be justified as an appropriate estimate.

CHAPTER 3

OWNER-OCCUPIED HOUSING PRICE INDEX

Article 11

Breakdown of the owner-occupied housing price index

The OOH price index shall cover the following expenditure categories:

- (a) O.1. Owner-occupiers' housing expenditure;
- (b) O.1.1. Acquisitions of dwellings;
- (c) O.1.1.1. New dwellings;
- (d) O.1.1.1.1. Purchases of newly built dwellings;
- (e) O.1.1.1.2. Self-build dwellings and major renovations;
- (f) O.1.1.2. Existing dwellings new to households;
- (g) O.1.1.3. Other services related to the acquisition of dwellings;
- (h) O.1.2. Ownership of dwellings;
- (i) O.1.2.1. Major repairs and maintenance;
- (j) O.1.2.2. Insurance connected with dwellings;
- (k) O.1.2.3. Other services related to ownership of dwellings.

Article 12

Owner-occupied housing price index compilation

The OOH price index shall be based on the 'net acquisitions' approach, which measures changes in prices paid by households for the acquisition of dwellings that are new to the household sector and changes in other costs related to the ownership, and transfer of ownership, of dwellings.

Article 13

Weights reflecting the structure of owner-occupiers' housing expenditure

1. Each year, Member States shall compile and transmit to the Commission (Eurostat) one set of weights for OOH price indices, in accordance with the expenditure categories referred to in Article 11.

2. Member States shall derive the sub-index and elementary aggregate weights reflecting the structure of owner-occupiers' housing expenditure, as defined in the Annex, used in the index for year t as follows:
 - (a) national accounts data for year $t-2$ combined with any available and relevant information from other data sources shall be used to obtain sub-index OOH expenditure shares and divide them among the elementary aggregates of the sub-index;
 - (b) the OOH expenditure shares based on data from the year $t-2$ shall be reviewed and updated to make them representative of year $t-1$;
 - (c) the OOH expenditure shares for elementary aggregates shall be adjusted with an appropriate price change between the year $t-1$ and the fourth quarter of the year $t-1$.
3. Sub-index and elementary aggregate weights shall be kept constant throughout the calendar year.
4. The sum of all sub-index weights shall equal 1 000.
5. The sub-index weight shall be equal to the sum of weights for elementary aggregates distinguished within the given expenditure category.
6. Member States shall use stratum weights that are representative of owner-occupiers' housing expenditure that belongs to the target universe of the OOH price index in the comparison period, or in any period that precedes the current year by no more than 2 years.

Article 14

Weights reflecting the level of owner-occupiers' housing expenditure

Member States shall derive total OOH weights reflecting the level of owner-occupiers' housing expenditure by determining the sum of all categories of owner-occupiers' housing expenditure in the year $t-1$.

Article 15

Purchases of newly built dwellings and existing dwellings new to households

1. Member States shall obtain the OOH sub-indices for purchases of newly built dwellings and existing dwellings new to households in accordance with paragraphs 2 to 12.
2. Member States shall acquire the basic information needed for the definition of the strata or elementary aggregates, or of both, and the compilation of the sub-indices referred to in paragraph 1.
3. Member States shall ensure that data collection covers relevant price-determining characteristics that enable the compilation of a price index that is unaffected by quality differences between transacted dwellings.
4. Member States shall ensure that the data used as a source of information on transacted dwellings is representative of the target universe of each sub-index in each reference period.
5. Member States may exclude from the sub-indices referred to in paragraph 1, one or more types of dwelling and one or more regions, provided that the total share of excluded dwellings in the household expenditure on purchases of dwellings belonging to the target universe of the OOH price index does not exceed five parts per hundred. Expenditure on purchases of dwellings for excluded types of dwelling or regions shall be allocated to the most similar type of dwelling or region.
6. The sub-indices referred to in paragraph 1 shall be based on transaction prices of dwellings. A transaction price of a dwelling shall be included in those sub-indices for the quarter in which the legal ownership of the dwelling is transferred from the seller to the buyer.

7. Member States shall obtain the sub-indices referred to in paragraph 1 using one of the following options:
 - (a) as an aggregation of stratum indices calculated either as hedonic indices or indices based on a method that replicates the matched model approach;
 - (b) as hedonic indices or indices based on a method that replicates the matched model approach;
 - (c) as a stratified median or mean index.
8. Where a Member State uses a hedonic index, it shall ensure that the applied method controls for quality differences between transacted dwellings in the comparison and reference periods.
9. Where a Member State uses a method that replicates the matched model approach, it shall ensure that matched price comparisons are made for the same dwellings in the comparison and reference periods, in such a way which ensures that quality differences between transacted dwellings are controlled for.
10. Where a Member State uses a stratified median or mean index it shall determine stratification variables on the basis of statistical analysis and ensure that the defined strata are sufficiently homogeneous.
11. Where the available number of transacted dwellings is insufficient to enable the calculation of a reliable price index for a certain stratum, Member States shall estimate the price change for that stratum as the price change for a stratum or a combination of strata characterised by comparable market conditions.
12. Member States shall not carry forward the previous quarter's prices or impute the same price change as in a previous quarter, unless it can be justified as an appropriate estimate.

Article 16

Self-build dwellings and major renovations

When compiling the OOH sub-index for self-build dwellings and major renovations, Member States shall take into account the specifics of the construction process and in particular the following elements:

- (a) where households undertake the work themselves and purchase only the materials, the price index shall be based on prices of purchased materials;
- (b) where households involve building firms, the price index shall be based on the producer price index for construction adjusted for possible changes in value added type taxes rates applicable to households. Where the producer price index for construction is not available, the index shall be based on a sample of products and suppliers taking into account the types of constructed dwellings and materials and services used;
- (c) where households purchase a prefabricated dwelling, the price index shall reflect changes in prices of prefabricated houses, delivery costs and prices of purchased construction works.

Article 17

Other services related to the acquisition of dwellings

1. Where the price of a service is determined as a proportion of the transaction price of the dwelling, the price index for the service shall be based on that proportion multiplied by the price of a representative transaction.
2. The change in the price of a representative transaction shall be estimated by using the HPI or an appropriate sub-index of the HPI.

*Article 18***Application of articles 19 to 25**

1. Articles 19 to 25 shall apply where elementary aggregates of any sub-index of the OOH price index are compiled from observed prices that are collected specifically for that purpose.
2. Articles 19 to 25 of this Regulation shall not apply where the elementary aggregates referred to in paragraph 1 are covered by Article 15 of this Regulation.

*Article 19***Sampling and representativity**

1. Member States shall make a target sample for the OOH price index that is representative of the target universe of the OOH price index by defining elementary aggregates and selecting individual products for those elementary aggregates.
2. The number of individual products and elementary aggregates shall depend on the weight of the expenditure category and the variance of price movements of the individual products belonging to it.
3. Member States shall ensure that the target sample for the OOH price index remains representative of the target universe of the OOH price index over time by conducting at least an annual review and update of the target sample for the OOH price index, and selecting replacement products.

*Article 20***Treatment of prices**

1. Member States shall use observed prices to compile the OOH price index. They shall use estimated prices only for the purposes laid down in Articles 22 and 24.
2. Observed prices for the sub-index 'insurance connected with dwellings' shall be actual premiums.
3. Where a product related to the acquisition or the ownership of dwellings has been made available free of charge and a price is subsequently charged, it shall be shown as a price increase in the OOH price index. Conversely, where a price has been charged for an individual service that is subsequently made available free of charge, it shall be shown as a price decrease in the OOH price index.

*Article 21***Discounts and inducements**

1. Member States shall take account of discounts that:
 - (a) can be attributed to an observed individual product; and
 - (b) can be claimed at the time of purchase.
2. Where possible, account shall be taken of discounts that are available only to a restricted group of purchasers.
3. Inducements shall be treated in accordance with Articles 23 and 24.

*Article 22***Estimation of prices**

1. If the price of an individual product in the target sample for the OOH price index cannot be observed within the reference quarter, an estimated price shall be used only for that quarter, after which a replacement product shall be selected. This paragraph shall not apply to individual products that are expected to become available again.
2. A previously observed price shall not be used as an estimated price unless it can be justified as an appropriate estimate.

*Article 23***Replacements**

1. Member States shall select a replacement product that is similar to the disappearing product, while ensuring that the target sample for the OOH price index remains representative.
2. Member States shall not select replacement products on the basis of a similar price.

*Article 24***Quality adjustment**

1. If there is no difference between a replaced product and its replacement in terms of their characteristics, timing, place of purchase or terms of supply, Member States shall compare the observed prices directly. Otherwise, Member States shall make a quality adjustment.
2. Member States shall make a quality adjustment equal to the whole price difference between the replaced product and its replacement only if this can be justified as an appropriate estimate of the quality difference.

*Article 25***Elementary price index**

1. The prices of individual products shall be aggregated to obtain elementary price indices using either of the following options:
 - (a) an index formula that ensures transitivity. The price index of prior periods shall not be revised when using transitive index formulae; or
 - (b) an index formula that ensures time reversibility and compares the prices of individual products in the comparison period with the prices of those products in the reference period. The reference period shall not be changed frequently if such change leads to significant violation of the transitivity principle.
2. An index formula that is consistent with those described in paragraph 1 shall be used to obtain a price index for an elementary aggregate from two or more elementary price indices.

*Article 26***Integrating sub-indices after the index reference period**

Any sub-index that is integrated into the OOH price index after the index reference period shall be linked to the last quarter of a particular year and used as from the first quarter of the following year.

CHAPTER 4

REVISIONS

*Article 27***Revisions due to mistakes**

1. Member States shall correct mistakes and transmit to the Commission (Eurostat) the revised sub-indices or sub-index weights without unjustified delay.
2. Member States shall provide the Commission (Eurostat) with information on the cause of the mistake at the latest with the transmission of the revised data.

*Article 28***Revisions of provisional data**

1. Without prejudice to Article 27, Member States may revise provisional sub-indices and weights in the quarter following the first transmission.
2. Following a revision referred to in paragraph 1, and still without prejudice to Article 27, Member States may only revise provisional sub-indices and weights in the calendar year following the first transmission, at the time of the data transmission for the first quarter of the following year.

*Article 29***Other revisions**

1. The timing and length of revisions other than those made pursuant to Articles 27 and 28 shall be coordinated with the Commission (Eurostat).
2. Member States shall provide the Commission (Eurostat) with estimates of the revised sub-indices and weights no later than 3 months prior to the planned implementation of the proposed revision.

CHAPTER 5

DATA AND METADATA EXCHANGE STANDARDS AND DEADLINES*Article 30***Data and metadata exchange standards**

1. Member States shall transmit data and metadata to the Commission (Eurostat) in electronic form via the single entry point services in accordance with the statistical data and metadata exchange standards.
2. Confidential data, as defined in Article 3(7) of Regulation (EC) No 223/2009 shall be flagged appropriately when transmitted to the Commission (Eurostat).

*Article 31***Metadata exchange deadlines**

Member States shall annually review and update their HPI and OOH price index metadata for the current year and transmit them to the Commission (Eurostat) by 30 June.

CHAPTER 6

FINAL PROVISIONS

*Article 32***Amendments to Regulation (EU) 2020/1148**

Regulation (EU) 2020/1148 is amended as follows:

(1) Article 1 is replaced by the following:

'Article 1

This Regulation establishes uniform conditions for producing the harmonised index of consumer prices (HICP) and the harmonised index of consumer prices at constant tax rates (HICP-CT).';

(2) Articles 22 to 25 are deleted;

(3) in Article 27, paragraph 2 is deleted.

*Article 33***Entry into force**

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply to all data transmissions as of 1 January 2024. Already transmitted data shall be revised where necessary and where data sources are available.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 17 July 2023.

For the Commission

The President

Ursula VON DER LEYEN

ANNEX

Owner-occupiers' housing expenditure

The categories of owner-occupiers' housing expenditure covered by the owner-occupied housing ('OOH') price index are set out in Article 11. They are defined below.

- (a) The categories 'purchases of newly built dwellings' (O.1.1.1.1) and 'existing dwellings new to households' (O.1.1.2) include households' expenditure on gross fixed capital formation, as defined in paragraph 3.124 of Annex A to Regulation (EU) No 549/2013, of all transacted dwellings purchased at market prices, where:
- (i) the purchasing party is a household as defined in Article 2(18) of Regulation (EU) 2016/792;
 - (ii) the selling party is not a household;
 - (iii) the subject of the transaction is either a newly built dwelling (for category O.1.1.1.1) or an existing dwelling (for category O.1.1.2) purchased for owner occupancy;
 - (iv) the dwelling is located on the economic territory of the Member State as defined in Article 2(19) of Regulation (EU) 2016/792;
 - (v) the transaction is a monetary transaction.

The value of land associated with the transacted dwellings is excluded, in accordance with the definition of gross fixed capital formation.

- (b) The category 'self-build dwellings and major renovations' (O.1.1.1.2) includes households' expenditure on gross fixed capital formation, as defined in paragraph 3.124 of Annex A to Regulation (EU) No 549/2013, of all goods and services purchased as inputs for:
- (i) new dwellings built by households acting as self-builders;
 - (ii) major renovations of existing owner-occupied dwellings.
- (c) The category 'other services related to the acquisition of dwellings' (O.1.1.3) includes households' expenditure on costs of ownership transfer that are included in gross fixed capital formation in accordance with the second subparagraph of point 3.133 of Annex A to Regulation (EU) No 549/2013, and are related to:
- (i) the process of buying and selling a dwelling for own use, regardless of which institutional sector the dwelling was bought from;
 - (ii) the process of self-building and carrying out major renovations of existing owner-occupied dwellings.
- (d) The category 'major repairs and maintenance' (O.1.2.1) includes households' expenditure on intermediate consumption, as defined in paragraph 3.88 of Annex A to Regulation (EU) No 549/2013, as regards all materials and services for major repairs and maintenance.
- (e) The category 'insurance connected with dwellings' (O.1.2.2) includes households' expenditure on intermediate consumption as regards all implicit service charges for insurance connected with owner-occupied dwellings.
- (f) The category 'Other services related to ownership of dwellings' (O.1.2.3) includes households' expenditure on intermediate consumption as regards any services provided to owners of dwellings not included in any of the categories referred to in points (d) and (e) and purchased by households in connection with owner-occupied dwellings.
-

COMMISSION IMPLEMENTING REGULATION (EU) 2023/1471**of 17 July 2023****amending Regulation (EU) No 468/2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1005/2008 of 29 September 2008 establishing a Community system to prevent, deter and eliminate illegal, unreported and unregulated fishing, amending Regulations (EEC) No 2847/93, (EC) No 1936/2001 and (EC) No 601/2004 and repealing Regulations (EC) No 1093/94 and (EC) No 1447/1999 ⁽¹⁾, and in particular Article 30 thereof,

Whereas:

- (1) Chapter V of Regulation (EC) No 1005/2008 lays down procedures for the identification of fishing vessels engaged in illegal, unreported and unregulated fishing ('IUU fishing') as well as procedures for establishing a Union list of such vessels ('the Union list'). Article 37 of that Regulation provides for actions to be taken against fishing vessels included in that list.
- (2) The Union list was established by Commission Regulation (EU) No 468/2010 ⁽²⁾ and subsequently amended by Implementing Regulations (EU) No 724/2011 ⁽³⁾, (EU) No 1234/2012 ⁽⁴⁾, (EU) No 672/2013 ⁽⁵⁾, (EU) No 137/2014 ⁽⁶⁾, (EU) 2015/1296 ⁽⁷⁾, (EU) 2016/1852 ⁽⁸⁾, (EU) 2017/2178 ⁽⁹⁾, (EU) 2018/1883 ⁽¹⁰⁾, (EU) 2020/269 ⁽¹¹⁾, (EU) 2021/1120 ⁽¹²⁾ and (EU) 2022/1184 ⁽¹³⁾.

⁽¹⁾ OJ L 286, 29.10.2008, p. 1.

⁽²⁾ Commission Regulation (EU) No 468/2010 of 28 May 2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing (OJ L 131, 29.5.2010, p. 22).

⁽³⁾ Commission Implementing Regulation (EU) No 724/2011 of 25 July 2011 amending Regulation (EU) No 468/2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing (OJ L 194, 26.7.2011, p. 14).

⁽⁴⁾ Commission Implementing Regulation (EU) No 1234/2012 of 19 December 2012 amending Regulation (EU) No 468/2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing (OJ L 350, 20.12.2012, p. 38).

⁽⁵⁾ Commission Implementing Regulation (EU) No 672/2013 of 15 July 2013 amending Regulation (EU) No 468/2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing (OJ L 193, 16.7.2013, p. 6).

⁽⁶⁾ Commission Implementing Regulation (EU) No 137/2014 of 12 February 2014 amending Regulation (EU) No 468/2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing (OJ L 43, 13.2.2014, p. 47).

⁽⁷⁾ Commission Implementing Regulation (EU) 2015/1296 of 28 July 2015 amending Regulation (EU) No 468/2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing (OJ L 199, 29.7.2015, p. 12).

⁽⁸⁾ Commission Implementing Regulation (EU) 2016/1852 of 19 October 2016 amending Regulation (EU) No 468/2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing (OJ L 284, 20.10.2016, p. 5).

⁽⁹⁾ Commission Implementing Regulation (EU) 2017/2178 of 22 November 2017 amending Regulation (EU) No 468/2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing (OJ L 307, 23.11.2017, p. 14).

⁽¹⁰⁾ Commission Implementing Regulation (EU) 2018/1883 of 3 December 2018 amending Regulation (EU) No 468/2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing (OJ L 308, 4.12.2018, p. 30).

⁽¹¹⁾ Commission Implementing Regulation (EU) 2020/269 of 26 February 2020 amending Regulation (EU) No 468/2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing (OJ L 56, 27.2.2020, p. 7).

⁽¹²⁾ Commission Implementing Regulation (EU) 2021/1120 of 8 July 2021 amending Regulation (EU) No 468/2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing (OJ L 243, 9.7.2021, p. 18).

⁽¹³⁾ Commission Implementing Regulation (EU) 2022/1184 of 8 July 2022 amending Regulation (EU) No 468/2010 establishing the EU list of vessels engaged in illegal, unreported and unregulated fishing (OJ L 184, 11.7.2022, p. 9).

- (3) According to Article 30(1) of Regulation (EC) No 1005/2008, vessels included in the IUU vessel lists adopted by regional fisheries management organisations are to be included in the Union list.
- (4) All regional fishery management organisations provide for the establishment and regular up-date of IUU vessel lists in accordance with their respective rules ⁽¹⁴⁾.
- (5) According to Article 30 of Regulation (EC) No 1005/2008, upon the receipt from regional fisheries management organisations of the lists of fishing vessels presumed or confirmed to be involved in IUU fishing, the Commission is to update the Union list. Since the Commission has received new lists from the regional fisheries management organisations, the Union list should now be updated.
- (6) Considering that the same vessel might be listed under different names and/or flags depending on the time of its inclusion on the regional fisheries management organisations lists, the updated Union list should include the different names and/or flags as established by the relevant regional fisheries management organisations.
- (7) The vessel 'Eros Dos' ⁽¹⁵⁾ has been removed from the list established by the North-East Atlantic Fisheries Commission ('NEAFC'), in line with Article 44 of NEAFC Scheme of Control and Enforcement. As the decision was taken by the relevant regional fisheries management organisation, under the terms of Article 30(1) of Regulation (EC) No 1005/2008, this vessel is not included in the Union list, despite the fact that it has not yet been deleted from the list established by the Indian Ocean Tuna Commission ('IOTC').
- (8) Regulation (EU) No 468/2010 should therefore be amended accordingly.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Committee for Fisheries and Aquaculture,

HAS ADOPTED THIS REGULATION:

Article 1

Part B of the Annex to Regulation (EU) No 468/2010 is replaced by the text in the Annex to this Regulation.

⁽¹⁴⁾ Last updates of RFMOs IUU vessels lists: CCAMLR: NCP-IUU Vessel List and CP-IUU Vessel List adopted at the 41st annual meeting, 24 October-4 November 2022; CCSBT: CCSBT IUU vessel List adopted at the 29th annual meeting of the Commission, 10-14 October 2022, effective from 12 January 2023; GFCM: IUU List adopted at the 45th session of the Commission, 7-11 November 2022; IATTC: IATTC IUU Vessel List adopted at the 100th Meeting of IATTC, 1-5 August 2022, updated on 7 April 2023; ICCAT: IUU list adopted at the 23rd special meeting of the Commission, 13-21 November 2022; IOTC: IOTC IUU Vessels List, adopted at the 26th session of the IOTC, 16-20 May 2022, updated on 26 May 2022; NAFO: NAFO IUU List adopted at the 44th annual meeting of NAFO, 19-23 September 2022, updated on 20 April 2023; NEAFC: IUU B list adopted at 41st annual meeting of the NEAFC, 15-18 November 2022, updated on 13 January 2023; NPFC: NPFC IUU List adopted at the 6th annual session of the Commission, 23-25 February 2021; SEAFO: SEAFO IUU Vessel List 2022 adopted at the 19th annual Commission meeting, 30 November-1 December 2022, approved on 30 December 2022; SIOFA: SIOFA IUU Vessel List adopted at the 9th Meeting of the Parties, 4-8 July 2022, updated on 5 January 2023; SPRFMO: IUU Vessel List adopted at the 11th annual meeting, 13-17 February 2023; WCPFC: WCPFC IUU Vessel List for 2023 adopted at the 19th regular session of the Commission, 27 November-3 December 2022, effective from 2 February 2023.

⁽¹⁵⁾ IMO ship identification number: 8604668.

Article 2

This Regulation shall enter into force on the seventh day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 17 July 2023.

For the Commission
The President
Ursula VON DER LEYEN

⁽¹⁾ International Maritime Organization.

⁽²⁾ For any additional information, consult the websites of the regional fisheries management organisations (RFMOs).

⁽³⁾ This vessel has been listed several times by certain RFMOs; therefore all information have been copied in the same row. For any additional information, consult the websites of the RFMOs.

⁽⁴⁾ NEAFC and NAFO inserted one vessel named "UNKNOWN" in their IUU vessel lists, following cross-listing with NPFC list; however it is impossible to identify to which vessel they refer to. Therefore, a reference to NEAFC and NAFO is made for both "UNKNOWN" vessels.'

COMMISSION IMPLEMENTING REGULATION (EU) 2023/1472**of 17 July 2023****amending Regulation (EC) No 1055/2008 as regards the frequency with which the Member States supply their quality report****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 184/2005 of the European Parliament and of the Council of 12 January 2005 on Community statistics concerning balance of payments, international trade in services and foreign direct investment ⁽¹⁾, and in particular Article 4(3) thereof,

Whereas:

- (1) The quality assessment of the data in the field of balance of payments (BOP) statistics, international investment position (IIP) statistics, international trade in services statistics and foreign direct investment statistics is performed in accordance with Regulation (EC) No 223/2009 of the European Parliament and of the Council ⁽²⁾. Furthermore, Commission Regulation (EC) No 1055/2008 ⁽³⁾ sets out the quality criteria and content and frequency of the quality reports.
- (2) Monitoring of quality of data is critical and it should be carried out in a timely manner. The right balance should be achieved between the need for monitoring and the frequency of the reporting of the relevant information to the European Parliament and the Council in order to avoid disproportionate burden.
- (3) The annual frequency with which the Member States provide the Commission (Eurostat) with a quality report should therefore be changed to biennial reporting.
- (4) Member States should submit their next quality report to the Commission (Eurostat) not later than 31 May 2025, and then every two years.
- (5) Regulation (EC) No 1055/2008 should therefore be amended accordingly.
- (6) The measures provided for in this Regulation are in accordance with the opinion of the European Statistical System Committee,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EC) No 1055/2008 is amended as follows:

- (a) Article 1 is replaced by the following:

‘Article 1

As from the year 2025 and starting that year, Member States shall supply on a biennial basis a quality report drawn up in accordance with the rules laid down in the Annex.’;

⁽¹⁾ OJ L 35, 8.2.2005, p. 23.

⁽²⁾ Regulation (EC) No 223/2009 of the European Parliament and of the Council of 11 March 2009 on European statistics and repealing Regulation (EC, Euratom) No 1101/2008 of the European Parliament and of the Council on the transmission of data subject to statistical confidentiality to the Statistical Office of the European Communities, Council Regulation (EC) No 322/97 on Community Statistics, and Council Decision 89/382/EEC, Euratom establishing a Committee on the Statistical Programmes of the European Communities (OJ L 87, 31.3.2009, p. 164).

⁽³⁾ Commission Regulation (EC) No 1055/2008 of 27 October 2008 implementing Regulation (EC) No 184/2005 of the European Parliament and of the Council, as regards quality criteria and quality reporting for balance of payments statistics (OJ L 283, 28.10.2008, p. 3).

(b) Article 2 is replaced by the following:

'Article 2

Member States shall supply their quality report not later than 31 May every second year';

(c) the Annex is replaced by the text in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 17 July 2023.

For the Commission
The President
Ursula VON DER LEYEN

ANNEX

‘ANNEX

1. Introduction

The quality report shall contain both quantitative and qualitative indicators of quality. The Commission (Eurostat) shall provide the results of the quantitative indicators for each Member State, calculated on the basis of data provided. Member States shall interpret and comment on them, in the light of their collection methodology.

2. Timeline

- Every second year, by the end of the first quarter, the Commission (Eurostat) shall supply the Member States with draft documents for quality reports, based on data sent the previous year, partially pre-filled with most of the quantitative indicators and other information available to the Commission (Eurostat).
- Every second year, within two months of receiving the pre-filled quality report and not later than 31 May, Member States shall supply the Commission (Eurostat) with the completed quality report.

3. Quality criteria

The quality report shall contain quantitative and qualitative indicators covering all the quality criteria set out in Article 12(1) of Regulation (EC) No 223/2009.’

DECISIONS

COMMISSION IMPLEMENTING DECISION (EU) 2023/1473

of 17 July 2023

amending Implementing Decision (EU) 2019/450 as regards the publication of references of European Assessment Documents for membranes for use as roof or wall underlays or both and other construction products

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 305/2011 of the European Parliament and of the Council of 9 March 2011 laying down harmonised conditions for the marketing of construction products and repealing Council Directive 89/106/EEC ⁽¹⁾, and in particular Article 22 thereof,

Whereas:

- (1) In accordance with Regulation (EU) No 305/2011, Technical Assessment Bodies are to use methods and criteria provided in European Assessment Documents, the references of which have been published in the *Official Journal of the European Union*, for assessing performance of construction products covered by those documents in relation to their essential characteristics.
- (2) In accordance with Article 19 of Regulation (EU) No 305/2011, following several requests by manufacturers for European Technical Assessments, the organisation of Technical Assessment Bodies has drawn up and adopted 20 European Assessment Documents.
- (3) The European Assessment Documents that have been drawn up and adopted by the organisation of Technical Assessment Bodies relate to the following construction products:
 - membranes for use as roof or wall underlays or both;
 - humidity-dependent vapour control layers;
 - flexible polymer modified mineral thick coatings;
 - thermal insulation for buildings made of straw bales;
 - factory-made bonded foam to be used as acoustic and thermal insulation;
 - insulating boards made of recycled polyurethane to be used as acoustic and thermal insulation;
 - kit of polyurethane elements for thermal insulation frame around windows made of unplasticized polyvinyl chloride profiles;
 - sootfire resistant chimney kits with clay/ceramic flue liner, working under wet conditions and negative/positive pressure (superseding technical specifications '060001-00-0802, 060003-00-0802 and 060008-00-0802');
 - strength graded and finger jointed structural boards with closed finger base – softwood;
 - prefabricated wood slab of milled softwood timber to be used as structural elements in buildings;
 - underlays made of granulated polyurethane-foam with or without granulated cork;
 - steel spring elements;
 - wood based composite panels for indoor wall or ceiling design or both;

⁽¹⁾ OJ L 88, 4.4.2011, p. 5.

- kits for green roofs;
 - road markings – retro-reflective elements;
 - glass panels, tiles and mosaic;
 - cast-in anchors with internal threaded socket (superseding technical specification 'EAD 330012-00-0601');
 - glass fibre-reinforced plastic connectors for use in sandwich and element walls made of concrete;
 - anchor devices for fastening personal fall protection systems to timber substructures;
 - bonded screw fasteners for use in concrete.
- (4) The European Assessment Documents that have been drawn up and adopted by the organisation of Technical Assessment Bodies satisfy the demands to be met in relation to the basic requirements for construction works set out in Annex I to Regulation (EU) No 305/2011. It is therefore appropriate to publish the references to those European Assessment Documents in the *Official Journal of the European Union*.
- (5) The list of references to European Assessment Documents for construction products is published pursuant to Commission Implementing Decision (EU) 2019/450 ⁽²⁾. For reasons of clarity, references to new European Assessment Documents should be added to that list.
- (6) Implementing Decision (EU) 2019/450 should therefore be amended accordingly.
- (7) In order to enable the use of the European Assessment Documents as early as possible, this Decision should enter into force on the day of its publication,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision (EU) 2019/450 is amended in accordance with the Annex to this Decision.

Article 2

This Decision shall enter into force on the day of its publication in the *Official Journal of the European Union*.

Done at Brussels, 17 July 2023.

'331846-00-0603	Anchor devices for fastening personal fall protection systems to timber substructures'
'332795-00-0601	Bonded screw fasteners for use in concrete'.

ACTS ADOPTED BY BODIES CREATED BY INTERNATIONAL AGREEMENTS

DECISION No 1/2023 OF THE ACP-EU COMMITTEE OF AMBASSADORS of 30 June 2023

to amend Decision No 3/2019 of the ACP-EU Committee of Ambassadors to adopt transitional measures pursuant to Article 95(4) of the ACP-EU Partnership Agreement [2023/1474]

THE ACP-EU COMMITTEE OF AMBASSADORS,

Having regard to the Partnership Agreement between the members of the African, Caribbean and Pacific Group of States of the one part, and the European Community and its Member States, of the other part ⁽¹⁾, and in particular Article 15(4) and Article 16(2) in conjunction with Article 95(4) thereof,

Whereas:

- (1) The Partnership Agreement between the members of the African, Caribbean and Pacific Group of States of the one part, and the European Community and its Member States, of the other part (the 'ACP-EU Partnership Agreement') was signed in Cotonou on 23 June 2000 and entered into force on 1 April 2003. In accordance with Decision No 3/2019 of the ACP-EU Committee of Ambassadors ⁽²⁾ (the 'decision on transitional measures'), it is to be applied until 30 June 2023.
- (2) Pursuant to Article 95(4), first subparagraph, of the ACP-EU Partnership Agreement, negotiations towards a new ACP-EU Partnership Agreement (the 'new Agreement') were launched in September 2018. The new Agreement will not be ready to be applied by 30 June 2023, the expiry date of the current legal framework. It is therefore necessary to amend the decision on transitional measures to further extend the application of the provisions of the ACP-EU Partnership Agreement.
- (3) Article 95(4), second subparagraph, of the ACP-EU Partnership Agreement provides for the ACP-EU Council of Ministers to adopt any transitional measures that may be required until the new Agreement comes into force.
- (4) Pursuant to Article 15(4) of the ACP-EU Partnership Agreement, on 23 May 2019, the ACP-EU Council of Ministers delegated the powers to adopt the transitional measures to the ACP-EU Committee of Ambassadors ⁽³⁾.
- (5) It is therefore appropriate that the ACP-EU Committee of Ambassadors adopt a decision, pursuant to Article 95(4) of the ACP-EU Partnership Agreement, to amend the decision on transitional measures in order to extend the application of the provisions of the ACP-EU Partnership Agreement until 31 October 2023, or until the entry into force of the new Agreement or the provisional application between the Union and the ACP States of the new Agreement, whichever comes first.
- (6) The provisions of the ACP-EU Partnership Agreement will continue to be applied with the aim of maintaining continuity in relations between the Union and its Member States, on the one hand, and the ACP States, on the other. Accordingly, the amended transitional measures are not intended as amendments to the ACP-EU Partnership Agreement as provided for in Article 95(3) thereof,

⁽¹⁾ OJ L 317, 15.12.2000, p. 3. The ACP-EU Partnership Agreement was amended by the Agreement signed in Luxembourg on 25 June 2005 (OJ L 209, 11.8.2005, p. 27) and by the Agreement signed in Ouagadougou on 22 June 2010 (OJ L 287, 4.11.2010, p. 3).

⁽²⁾ Decision No 3/2019 of the ACP-EU Committee of Ambassadors of 17 December 2019 to adopt transitional measures pursuant to Article 95(4) of the ACP-EU Partnership Agreement (OJ L 1, 3.1.2020, p. 3).

⁽³⁾ Decision No 1/2019 of the ACP-EU Council of Ministers of 23 May 2019 on the delegation of powers to the ACP-EU Committee of Ambassadors on the decision to adopt transitional measures pursuant to Article 95(4) of the ACP-EU Partnership Agreement (OJ L 146, 5.6.2019, p. 114).

HAS ADOPTED THIS DECISION:

Article 1

In Article 1 of Decision No 3/2019 of the ACP-EU Committee of Ambassadors, the date '30 June 2023' shall be replaced by that of '31 October 2023'.

Article 2

This Decision shall enter into force on 1 July 2023.

Done at Brussels, 30 June 2023.
