(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1107/2009, of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC ⁽¹⁾, and in particular Article 20(1) in conjunction with Article 22(1) thereof,

Whereas:

- (1) Commission Directive 2008/127/EC ⁽²⁾ included quartz sand as an active substance in Annex I to Council Directive 91/414/EEC ⁽³⁾.
- (2) According to Article 78(3) of Regulation (EC) No 1107/2009, active substances included in Annex I to Directive 91/414/EEC are deemed to have been approved under Regulation (EC) No 1107/2009 and are listed in Part A of the Annex to Commission Implementing Regulation (EU) No 540/2011 ⁽⁴⁾.
- (3) The approval of the active substance quartz sand, as set out in Part A of the Annex to Implementing Regulation (EU) No 540/2011, expires on 31 August 2023 ⁽⁵⁾.

⁽¹⁾ OJ L 309, 24.11.2009, p. 1.

⁽²⁾ Commission Directive 2008/127/EC of 18 December 2008 amending Council Directive 91/414/EEC to include several active substances (OJ L 344, 20.12.2008, p. 89).

⁽³⁾ Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market (OJ L 230, 19.8.1991, p. 1).

⁽⁵⁾ Commission Implementing Regulation (EU) 2022/708 of 5 May 2022 amending Implementing Regulation (EU) No 540/2011 as regards the extension of the approval periods of the active substances 2,5-dichlorobenzoic acid methylester, acetic acid, aclonifen, aluminium ammonium sulphate, aluminium phosphide, aluminium silicate, beflubutamid, benthiavalicarb, boscalid, calcium carbide, captan, cymoxanil, dimethomorph, dodemorph, ethephon, ethylene, extract from tea tree, fat distillation residues, fatty acids C7 to C20, fluoxastrobin, flurochloridone, folpet, formetanate, gibberellic acid, gibberellins, hydrolysed proteins, iron sulphate, magnesium phosphide, metam, metamitron, metazachlor, metribuzin, milbemectin, phenmedipham, pirimiphos-methyl, plant oils/clove oil, plant oils/rape seed oil, plant oils/spear mint oil, propamocarb, proquinazid, prothioconazole, pyrethrins, quartz sand, fish oil, repellents by smell of animal or plant origin/sheep fat, S-metolachlor, Straight Chain Lepidopteran Pheromones, sulcotrione, tebuconazole and urea (OJ L 133, 10.5.2022, p. 1).

- (4) An application for the renewal of the approval of the active substance quartz sand was submitted to Latvia, the rapporteur Member State, and Romania, the co-rapporteur Member State, in accordance with Article 1 of Commission Implementing Regulation (EU) No 844/2012 ⁽⁶⁾ and within the time period provided for in that Article.
- (5) The applicants also submitted the supplementary dossiers required by Article 6 of Implementing Regulation (EU) No 844/2012 to the rapporteur Member State, the co-rapporteur Member State, the Commission and the European Food Safety Authority ('the Authority'). The application was found to be admissible by the rapporteur Member State.
- (6) The rapporteur Member State prepared a draft renewal assessment report in consultation with the co-rapporteur Member State and submitted it to the Authority and the Commission on 2 March 2021. In its draft renewal assessment report, the rapporteur Member State proposed to renew the approval of quartz sand.
- (7) The Authority made the supplementary summary dossier available to the public. The Authority also circulated the draft renewal assessment report to the applicants and to the Member States for comments and launched a public consultation on it. The Authority forwarded the comments received to the Commission.
- (8) On 16 August 2022, the Authority communicated to the Commission its conclusion ⁽⁷⁾ which indicated that quartz sand can be expected to meet the approval criteria provided for in Article 4 of Regulation (EC) No 1107/2009.
- (9) The Commission presented a renewal report regarding quartz sand and a draft of this Regulation to the Standing Committee on Plants, Animals, Food and Feed on 8 December 2022 and on 25 May 2023 respectively.
- (10) The Commission invited the applicants to submit their comments on the conclusion of the Authority and, in accordance with Article 14(1), third subparagraph, of Implementing Regulation (EU) No 844/2012, on the renewal report. The applicants submitted their comments, which have been carefully examined and taken into consideration.
- (11) It has been established with respect to one or more representative uses of at least one plant protection product containing the active substance quartz sand that the approval criteria provided for in Article 4 of Regulation (EC) No 1107/2009 are satisfied.
- (12) The Commission further considers that quartz sand is a low-risk active substance pursuant to Article 22 of Regulation (EC) No 1107/2009. Quartz sand is not a substance of concern and fulfils the conditions set in point 5 of Annex II to Regulation (EC) No 1107/2009.
- (13) It is therefore appropriate to renew the approval of quartz sand as a low-risk active substance.
- (14) In accordance with Article 14(1) of Regulation (EC) No 1107/2009 in conjunction with Article 6 thereof and in the light of current scientific and technical knowledge and the outcome of the risk assessment, it is, however, necessary to set a minimum purity of quartz sand and a maximum amount of the impurity respirable crystalline silica (SiO₂) with a diameter ≤ 10 µm as manufactured in order to underpin the safety of the active substance to be used in plant protection products.
- (15) Implementing Regulation (EU) No 540/2011 should therefore be amended accordingly.

- (16) This Regulation should apply from the day after the date of expiry of the approval of quartz sand.
- (17) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

COMMISSION REGULATION (EU) 2023/1490**of 19 July 2023****amending Regulation (EC) No 1223/2009 of the European Parliament and of the Council as regards the use in cosmetic products of certain substances classified as carcinogenic, mutagenic or toxic for reproduction****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1223/2009 of the European Parliament and of the Council of 30 November 2009 on cosmetic products ⁽¹⁾, and in particular Article 15(1) and Article 15(2), fourth subparagraph, thereof,

Whereas:

- (1) Regulation (EC) No 1272/2008 of the European Parliament and of the Council ⁽²⁾ provides for a harmonised classification of substances as carcinogenic, mutagenic or toxic for reproduction (CMR) based on a scientific assessment by the Risk Assessment Committee of the European Chemicals Agency. The substances are classified as CMR substances of category 1A, CMR substances of category 1B or CMR substances of category 2 depending on the level of evidence of their CMR properties.
- (2) Article 15 of Regulation (EC) No 1223/2009 provides that substances which have been classified as CMR substances of category 1A, category 1B or category 2 under Part 3 of Annex VI to Regulation (EC) No 1272/2008 (CMR substances) are to be prohibited from use in cosmetic products. A CMR substance may however be used in cosmetic products where the conditions laid down in Article 15(1), second sentence, of Regulation (EC) No 1223/2009 or in Article 15(2), second subparagraph of that Regulation are fulfilled.
- (3) In order to uniformly implement the prohibition of CMR substances within the internal market, to ensure legal certainty, in particular for economic operators and national competent authorities, and to ensure a high level of protection of human health, all CMR substances should be included in the list of prohibited substances in Annex II to Regulation (EC) No 1223/2009 and, where relevant, deleted from the lists of restricted or allowed substances in Annexes III to VI to that Regulation. Where the conditions laid down in Article 15(1), second sentence, of Regulation (EC) No 1223/2009 or in Article 15(2), second subparagraph of that Regulation are fulfilled, the lists of restricted or allowed substances in Annexes III to VI to that Regulation should be amended accordingly.
- (4) This Regulation covers substances classified as CMR substances by Commission Delegated Regulation (EU) 2022/692 ⁽³⁾ ('the relevant substances'). Delegated Regulation (EU) 2022/692 will apply from 1 December 2023.
- (5) No request for use in cosmetic products by way of exception has been submitted for the relevant substances.

⁽¹⁾ OJ L 342, 22.12.2009, p. 59.

⁽²⁾ Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (OJ L 353, 31.12.2008, p. 1).

⁽³⁾ Commission Delegated Regulation (EU) 2022/692 of 16 February 2022 amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures (OJ L 129, 3.5.2022, p. 1).

- (6) The relevant substances are currently neither restricted in Annex III to Regulation (EC) No 1223/2009, nor allowed in Annexes IV, V or VI to that Regulation.
- (7) The substance 2-ethylhexanoic acid (CAS No 149-57-5) is currently listed in entry 1024 of Annex II to Regulation (EC) No 1223/2009. However, the salts of that substance, which have been classified as CMR substances [of category 1B] by Delegated Regulation (EU) 2022/692, are not included in that entry. None of the other relevant substances are currently listed in Annex II to Regulation (EC) No 1223/2009. Therefore, those substances should be added to the list of substances prohibited in cosmetic products in Annex II to Regulation (EC) No 1223/2009 and the salts of the substance 2-ethylhexanoic acid should be added in entry 1024 of that Annex.
- (8) Regulation (EC) No 1223/2009 should therefore be amended accordingly.
- (9) The amendments to Regulation (EC) No 1223/2009 are based on the classifications of the relevant substances as CMR substances and should therefore apply from the same date as those classifications.
- (10) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Cosmetic Products,

COMMISSION IMPLEMENTING REGULATION (EU) 2023/1492**of 19 July 2023****amending Annex VII to Implementing Regulation (EU) 2019/2072 as regards the introduction into the Union territory of certain forms of wood originating in Canada and the United States**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/2031 of the European Parliament and of the Council of 26 October 2016 on protective measures against pests of plants, amending Regulations (EU) No 228/2013, (EU) No 652/2014 and (EU) No 1143/2014 of the European Parliament and of the Council and repealing Council Directives 69/464/EEC, 74/647/EEC, 93/85/EEC, 98/57/EC, 2000/29/EC, 2006/91/EC and 2007/33/EC ⁽¹⁾, and in particular Article 41(2) thereof,

Whereas:

- (1) Certain forms of wood of *Chionanthus virginicus* L., *Fraxinus* L., *Juglans ailantifolia* Carr., *Juglans mandshurica* Maxim., *Ulmus davidiana* Planch. and *Pterocarya rhoifolia* Siebold & Zucc., originating from Belarus, Canada, China, the Democratic People's Republic of Korea, Japan, Mongolia, the Republic of Korea, Russia, Taiwan, Ukraine and the United States, may only be introduced into the Union territory if they comply with the requirements set out in point 87 of Annex VII to Commission Implementing Regulation (EU) 2019/2072 ⁽²⁾.
- (2) Those requirements aim to protect the Union from *Agrilus planipennis* Fairmaire ('the specified pest').
- (3) By way of derogation from point 87(a) and (b) of Annex VII to Implementing Regulation (EU) 2019/2072, wood of *Fraxinus* L. ('ash wood') may be introduced into the Union territory from Canada in accordance with the special requirements set out in Commission Implementing Regulation (EU) 2020/918 ⁽³⁾. Those requirements are similar to the requirements established for the same wood from the same origin by Commission Implementing Decision (EU) 2016/412 ⁽⁴⁾. That Regulation expires on 30 June 2023.
- (4) By way of derogation from point 87(a) and (b) of Annex VII to Implementing Regulation (EU) 2019/2072, ash wood may be introduced into the Union territory from the United States in accordance with the special requirements set out in Commission Implementing Regulation (EU) 2020/1002 ⁽⁵⁾. Those requirements are similar to the requirements established by Commission Implementing Decision (EU) 2018/1203 ⁽⁶⁾ for the same wood with the same origin. That Regulation also expires on 30 June 2023.

⁽¹⁾ OJ L 317, 23.11.2016, p. 4.

⁽²⁾ Commission Implementing Regulation (EU) 2019/2072 of 28 November 2019 establishing uniform conditions for the implementation of Regulation (EU) 2016/2031 of the European Parliament and the Council, as regards protective measures against pests of plants, and repealing Commission Regulation (EC) No 690/2008 and amending Commission Implementing Regulation (EU) 2018/2019 (OJ L 319, 10.12.2019, p. 1).

⁽³⁾ Commission Implementing Regulation (EU) 2020/918 of 1 July 2020 establishing a derogation from Implementing Regulation (EU) 2019/2072 as regards the requirements for the introduction into the Union of ash wood originating or processed in Canada (OJ L 209, 2.7.2020, p. 14).

⁽⁴⁾ Commission Implementing Decision 2016/412 of 17 March 2016 authorising Member States to provide for a temporary derogation from certain provisions of Council Directive 2000/29/EC in respect of ash wood originating or processed in Canada (OJ L 74 19.3.2016, p. 41).

⁽⁵⁾ Commission Implementing Regulation (EU) 2020/1002 of 9 July 2020 establishing a derogation from Implementing Regulation (EU) 2019/2072 as regards the requirements for introduction into the Union of ash wood originating or processed in the United States (OJ L 221, 10.7.2020, p. 122).

⁽⁶⁾ Commission Implementing Decision (EU) 2018/1203 of 21 August 2018 authorising Member States to provide for a temporary derogation from certain provisions of Council Directive 2000/29/EC in respect of ash wood originating or processed in the United States of America and repealing Commission Implementing Decision (EU) 2017/204 (OJ L 217, 27.8.2018, p. 7).

- (5) Those special requirements have proven effective, during the application of Implementing Regulations (EU) 2020/918 and (EU) No 2020/1002, to protect the Union territory from the specified pest. Moreover, similar requirements have proven effective during the application of Implementing Decisions (EU) 2016/412 and 2018/1203.
- (6) On the basis of the evidence collected, it is concluded that the phytosanitary risk from the introduction of ash wood into the Union territory from Canada and the United States is reduced to an acceptable level and that appropriate mitigation measures are put in place in those third countries.
- (7) It appears that the special requirements set out in Implementing Regulations (EU) 2020/918 and (EU) No 2020/1002 are appropriate mitigation measures. It is therefore appropriate to include them in point 87 of Annex VII to Implementing Regulation 2019/2072.
- (8) Annex VII should provide that one of the following special requirements for the introduction into the Union territory of ash wood must be fulfilled: ash wood should either undergo ionizing irradiation or originate in a pest free area subject to certain conditions or undergo a process of debarking, sawing, heat treatment and drying, subject to specific conditions and in combination with specific requirements regarding the facilities where the wood is produced, handled or stored. In the last option, and in order to ensure effective controls and transparency, each bundle of the wood should visibly display both a number and a label with the words 'HT-KD' or 'Heat Treated – Kiln Dried'.
- (9) Commission Implementing Regulation (EU) 2020/1164 ⁽⁷⁾ provides that, by way of derogation from point 87 to Annex VII to Implementing Regulation (EU) 2019/2072, certain forms of wood of *Fraxinus* L., *Juglans ailantifolia* Carr., *Juglans mandshurica* Maxim., *Ulmus davidiana* Planch. and *Pterocarya rhoifolia* Siebold and Zucc. ('the specified wood'), originating in Canada and the United States, may be introduced into the Union territory under official statements referred to in options (a) and (b) of that point 87. That Regulation expires on 30 June 2023. It provides for the following two options as requirements for the introduction into the Union territory: the specified wood was to originate in a pest free area subject to certain conditions or to undergo ionizing irradiation under specific conditions.
- (10) Those special requirements have proven effective, during the application of Implementing Regulation (EU) 2020/1164, to protect the Union territory from the specified pest. Moreover, similar requirements have proven effective during the application of Implementing Decisions (EU) 2016/412 and 2018/1203.
- (11) Therefore, it is concluded that the phytosanitary risk from the introduction of ash wood into the Union territory from Canada and the United States is fully assessed and appropriate mitigation measures are put in place in those third countries.
- (12) It is therefore appropriate to include in Annex VII to Implementing Regulation 2019/2072 the special requirements that are provided for in Implementing Regulation (EU) 2020/1164 concerning the introduction into the Union territory of ash wood from Canada and the United States.
- (13) Canada and the United States should thus be removed from the fourth column of point 87 of Annex VII to Implementing Regulation (EU) 2019/2072, and a new point should be added to that Annex, providing for the same two options as those provided for by Implementing Regulation (EU) 2020/1164.
- (14) Annex VII to Implementing Regulation (EU) 2019/2072 should thus be amended accordingly.

⁽⁷⁾ Commission Implementing Regulation (EU) 2020/1164 of 6 August 2020 providing for a temporary derogation from certain provisions of Implementing Regulation (EU) 2019/2072 in respect of measures to prevent the introduction into and the spread within the Union of the pest *Agrilus planipennis* Fairmaire from Canada and the United States (OJ L 258, 7.8.2020, p. 6).

- (15) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,
