COMMISSION IMPLEMENTING REGULATION (EU) 2023/1603

of 4 August 2023

amending Annexes V and XIV to Implementing Regulation (EU) 2021/404 as regards the entries for Canada, Chile, the United Kingdom and the United States in the lists of third countries authorised for the entry into the Union of consignments of poultry, germinal products of poultry and fresh meat of poultry and game birds

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') ⁽¹⁾, and in particular Articles 230(1) and 232(1) and (3) thereof.

Whereas:

- (1) Regulation (EU) 2016/429 provides that consignments of animals, germinal products and products of animal origin must come from a third country or territory, or zone or compartment thereof, listed in accordance with Article 230(1) of that Regulation in order to enter the Union.
- (2) Commission Delegated Regulation (EU) 2020/692 ⁽²⁾ lays down the animal health requirements that consignments of certain species and categories of animals, germinal products and products of animal origin, from third countries or territories, or zones thereof, or compartments thereof in the case of aquaculture animals, must comply with in order to enter the Union.
- (3) Commission Implementing Regulation (EU) 2021/404 ⁽³⁾ establishes the lists of third countries, or territories, or zones or compartments thereof, from which the entry into the Union of the species and categories of animals, germinal products and products of animal origin falling within the scope of Delegated Regulation (EU) 2020/692 is permitted.
- (4) More particularly, Annexes V and XIV to Implementing Regulation (EU) 2021/404 set out the lists of third countries, or territories, or zones thereof authorised for the entry into the Union, respectively, of consignments of poultry, germinal products of poultry, and of fresh meat of poultry and game birds.

⁽¹⁾ OJ L 84, 31.3.2016, p. 1.

⁽²⁾ Commission Delegated Regulation (EU) 2020/692 of 30 January 2020 supplementing Regulation (EU) 2016/429 of the European Parliament and of the Council as regards rules for entry into the Union, and the movement and handling after entry of consignments of certain animals, germinal products and products of animal origin (OJ L 174, 3.6.2020, p. 379).

⁽³⁾ Commission Implementing Regulation (EU) 2021/404 of 24 March 2021 laying down the lists of third countries, territories or zones thereof from which the entry into the Union of animals, germinal products and products of animal origin is permitted in accordance with Regulation (EU) 2016/429 of the European Parliament and of the Council (OJ L 114, 31.3.2021, p. 1).

- (5) The United Kingdom has notified the Commission of an outbreak of highly pathogenic avian influenza (HPAI) in poultry in the county of Kent, England, which was confirmed on 20 July 2023 by laboratory analysis (RT-PCR).
- (6) Furthermore, the United States has notified the Commission of an outbreak of highly pathogenic avian influenza (HPAI) in poultry in the state of New York, which was confirmed on 25 July 2023 by laboratory analysis (RT-PCR).
- (7) Following those recent outbreaks of HPAI, the veterinary authorities of the United Kingdom and the United States established restricted zones of at least 10 km around the affected establishments and implemented a stamping-out policy in order to control the presence of HPAI and limit the spread of that disease.
- (8) The United Kingdom and the United States have submitted information to the Commission on the epidemiological situation on their territories and the measures taken to prevent the further spread of HPAI.
- (9) That information has been evaluated by the Commission. The Commission considers that, in view of the animal health situation in the areas under restrictions established by the veterinary authorities of the United Kingdom and the United States, the entry into the Union of consignments of poultry, germinal products of poultry, and fresh meat of poultry and game birds from those areas should be suspended, in order to protect the animal health status of the Union.
- (10) Canada, Chile and the United States have provided updated information in relation to epidemiological situations on their territories as regards HPAI that gave rise to the suspension of the entry of certain products into the Union, as set out in Annexes V and XIV to Implementing Regulation (EU) 2021/404.
- (11) In particular, Canada has submitted updated information on the epidemiological situation on its territory in relation to an outbreak of HPAI in a poultry establishment in the province of British Columbia which was confirmed on 28 April 2023.
- (12) In addition, Chile has submitted updated information on the epidemiological situation on its territory in relation to an outbreak of HPAI in a poultry establishment in the region of Metropolitan which was confirmed on 4 June 2023.
- (13) Moreover, the United States has submitted updated information on the epidemiological situation on its territory in relation to thirteen outbreaks of HPAI in poultry establishments in the states of Michigan (3), Nebraska (1), New York (1), North Dakota (3), Pennsylvania (3), South Dakota (1) and Wisconsin (1), which were confirmed between 8 April 2022 and 3 March 2023.
- (14) Canada, Chile and the United States have also submitted information on the measures that were taken to prevent the further spread of HPAI. In particular, following those outbreaks of that disease, Canada, Chile and the United States have implemented a stamping out policy in order to control and limit the spread of that disease, and they have also completed the requisite cleaning and disinfection following the implementation of the stamping out policy on the infected poultry establishments on their territories.
- (15) The Commission has evaluated the information submitted by Canada, Chile and the United States. The Commission considers that Canada, Chile and the United States have provided appropriate guarantees that the animal health situation that gave rise to the suspensions, no longer represents a threat to animal or public health within the Union, and that, consequently, the entry into the Union of poultry commodities from the concerned zones of Canada, Chile and the United States from which entry into the Union had been suspended, should be reauthorised.
- (16) Annexes V and XIV to Implementing Regulation (EU) 2021/404 should therefore be amended to take account of the current epidemiological situation as regards HPAI in Canada, Chile, the United Kingdom and the United States.

- (17) Taking into account the current epidemiological situation in Canada, Chile, the United Kingdom and the United States as regards HPAI, the amendments to be made to Annexes V and XIV to Implementing Regulation (EU) 2021/404 by this Regulation should take effect as a matter of urgency.
- (18) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes V and XIV to Implementing Regulation (EU) 2021/404 are amended in accordance with the Annex to this Regulation.

Article 2

Entry into force and applicability

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 4 August 2023.

For the Commission
The President
Ursula VON DER LEYEN

DECISIONS

COMMISSION IMPLEMENTING DECISION (EU) 2023/1604

of 31 July 2023

amending the Annex to Implementing Decision (EU) 2021/641 concerning emergency measures in relation to outbreaks of highly pathogenic avian influenza in certain Member States

(notified under document C(2023) 5330)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') ⁽¹⁾, and in particular Article 259(1), point (c), thereof,

Whereas:

- (1) Highly pathogenic avian influenza (HPAI) is an infectious viral disease in birds and may have a severe impact on the profitability of poultry farming causing disturbance to trade within the Union and exports to third countries. HPAI viruses can infect migratory birds, which can then spread these viruses over long distances during their autumn and spring migrations. Therefore, the presence of HPAI viruses in wild birds poses a continuous threat for the direct and indirect introduction of these viruses into establishments where poultry or captive birds are kept. In the event of an outbreak of HPAI, there is a risk that the disease agent may spread to other establishments where poultry or captive birds are kept.
- (2) Regulation (EU) 2016/429 establishes a new legislative framework for the prevention and control of diseases that are transmissible to animals or humans. HPAI falls within the definition of a listed disease in that Regulation, and it is subject to the disease prevention and control rules laid down therein. In addition, Commission Delegated Regulation (EU) 2020/687 ⁽²⁾ supplements Regulation (EU) 2016/429 as regards the rules for the prevention and control of certain listed diseases, including disease control measures for HPAI.
- (3) Commission Implementing Decision (EU) 2021/641 ⁽³⁾ was adopted within the framework of Regulation (EU) 2016/429 and it lays down emergency measures at Union level in relation to outbreaks of HPAI.
- (4) More particularly, Implementing Decision (EU) 2021/641 provides that the protection, surveillance and further restricted zones established by the Member States following outbreaks of HPAI, in accordance with Delegated Regulation (EU) 2020/687, are to comprise at least the areas listed as protection, surveillance and further restricted zones in the Annex to that Implementing Decision.

⁽¹⁾ OJ L 84, 31.3.2016, p. 1.

⁽²⁾ Commission Delegated Regulation (EU) 2020/687 of 17 December 2019 supplementing Regulation (EU) 2016/429 of the European Parliament and the Council, as regards rules for the prevention and control of certain listed diseases (OJ L 174, 3.6.2020, p. 64).

⁽³⁾ Commission Implementing Decision (EU) 2021/641 of 16 April 2021 concerning emergency measures in relation to outbreaks of highly pathogenic avian influenza in certain Member States (OJ L 134, 20.4.2021, p. 166).

- (5) The Annex to Implementing Decision (EU) 2021/641 was recently amended by Commission Implementing Decision (EU) 2023/1520 ⁽⁴⁾ following outbreaks of HPAI in poultry or captive birds in Denmark, Germany, France, Italy, Poland and Sweden that needed to be reflected in that Annex.
- (6) Since the date of adoption of Implementing Decision (EU) 2023/1520, the Netherlands have notified the Commission of an outbreak of HPAI in an establishment where poultry were kept, located in Flevoland Province.
- (7) The competent authority of the Netherlands has taken the necessary disease control measures required in accordance with Delegated Regulation (EU) 2020/687, including the establishment of protection and surveillance zones around the outbreak.
- (8) The Commission has examined the disease control measures taken by the Netherlands in collaboration with that Member State, and it is satisfied that the boundaries of the protection and surveillance zones established by the competent authority of that Member State are at a sufficient distance from the establishment where the outbreak of HPAI has been confirmed.
- (9) In the Annex to Implementing Decision (EU) 2021/641, there are currently no areas listed as protection and surveillance zones for the Netherlands.
- (10) In order to prevent any unnecessary disturbance to trade within the Union and to avoid unjustified barriers to trade being imposed by third countries, it is necessary to rapidly describe at Union level, in collaboration with the Netherlands, the protection and surveillance zones duly established by that Member State in accordance with Delegated Regulation (EU) 2020/687.
- (11) Therefore, protection and surveillance zones should be listed for the Netherlands in the Annex to Implementing Decision (EU) 2021/641.
- (12) Accordingly, the Annex to Implementing Decision (EU) 2021/641 should be amended to update regionalisation at Union level to take account of the protection and surveillance zones duly established by the Netherlands in accordance with Delegated Regulation (EU) 2020/687, and the duration of the measures applicable therein.
- (13) Implementing Decision (EU) 2021/641 should therefore be amended accordingly.
- (14) Given the urgency of the epidemiological situation in the Union as regards the spread of HPAI, it is important that the amendments to be made to Implementing Decision (EU) 2021/641 by this Decision take effect as soon as possible.
- (15) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision (EU) 2021/641 is replaced by the text set out in the Annex to this Decision.
