Whereas:

- (1) Regulation (EU) 2016/429 provides that consignments of animals, germinal products and products of animal origin from third countries or territories are only to be allowed to enter into the Union if the third countries or territories concerned are listed in accordance with Article 230(1) of that Regulation.
- (2) Commission Delegated Regulation (EU) 2020/692 <sup>(2)</sup> lays down the animal health requirements that consignments of certain species and categories of animals, germinal products and products of animal origin, from third countries, territories, or zones thereof, or compartments thereof in the case of aquaculture animals, must comply with in order to enter the Union.
- (3) Commission Implementing Regulation (EU) 2021/404 <sup>(3)</sup> lays down the lists of third countries, territories, or zones thereof, from which the entry into the Union of the species and categories of animals, germinal products and products of animal origin, falling within the scope of Delegated Regulation (EU) 2020/692, is permitted. **Fylgiskjal 3.****COMMISSION IMPLEMENTING REGULATION (EU) 2026/2227****of 1 October 2026****amending Annexes V and XIV to Implementing Regulation (EU) 2021/404 as regards the entries for Canada and the United States in the lists of third countries, territories, or zones thereof authorised for the entry into the Union of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') <sup>(1)</sup>, and in particular Article 230(1), Article 232(1), point (b) and Article 232(3), point (b) thereof,

Whereas:

- (1) Regulation (EU) 2016/429 provides that consignments of animals, germinal products and products of animal origin from third countries or territories are only to be allowed to enter into the Union if the third countries or territories concerned are listed in accordance with Article 230(1) of that Regulation.
- (2) Commission Delegated Regulation (EU) 2020/692 <sup>(2)</sup> lays down the animal health requirements that consignments of certain species and categories of animals, germinal products and products of animal origin, from third countries, territories, or zones thereof, or compartments thereof in the case of aquaculture animals, must comply with in order to enter the Union.
- (3) Commission Implementing Regulation (EU) 2021/404 <sup>(3)</sup> lays down the lists of third countries, territories, or zones thereof, from which the entry into the Union of the species and categories of animals, germinal products and products of animal origin, falling within the scope of Delegated Regulation (EU) 2020/692, is permitted. Those lists and certain general rules concerning those lists are set out in Annexes I to XXII to that Implementing Regulation.
- (4) More particularly, Annexes V and XIV to Implementing Regulation (EU) 2021/404 set out the lists of third countries, territories, or zones thereof, authorised for the entry into the Union, respectively, of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds.
- (5) On 22 September 2026 and 24 September 2026, Canada has notified the Commission of a total of four outbreaks of highly pathogenic avian influenza (HPAI) in poultry in the province of Manitoba, which were confirmed on 10 September 2026 and 21 September 2026 by laboratory analysis (RT-PCR).

<sup>(1)</sup> OJ L 84, 31.3.2016, p. 1, ELI: <http://data.europa.eu/eli/reg/2016/429/oj>.

<sup>(2)</sup> Commission Delegated Regulation (EU) 2020/692 of 30 January 2020 supplementing Regulation (EU) 2016/429 of the European Parliament and of the Council as regards rules for entry into the Union, and the movement and handling after entry of consignments of certain animals, germinal products and products of animal origin (OJ L 174, 3.6.2020, p. 379, ELI: [http://data.europa.eu/eli/reg\\_del/2020/692/oj](http://data.europa.eu/eli/reg_del/2020/692/oj)).

<sup>(3)</sup> Commission Implementing Regulation (EU) 2021/404 of 24 March 2021 laying down the lists of third countries, territories or zones thereof from which the entry into the Union of animals, germinal products and products of animal origin is permitted in accordance with Regulation (EU) 2016/429 of the European Parliament and of the Council (OJ L 114, 31.3.2021, p. 1, ELI: [http://data.europa.eu/eli/reg\\_impl/2021/404/oj](http://data.europa.eu/eli/reg_impl/2021/404/oj)).

- (6) On 21 September 2026 and 24 September 2026, the United States has notified the Commission of a total of seven new outbreaks of HPAI in poultry in the states of Minnesota, Montana, and Wisconsin, which were confirmed between 15 September 2026 and 23 September 2026 by laboratory analysis (RT-PCR).
- (7) Following those recent outbreaks of HPAI, the veterinary authorities of Canada and the United States notified the establishment of restricted zones of at least 10 km around the affected establishments and the implementation of a stamping-out policy to control the presence of HPAI and limit the spread of that disease.
- (8) Canada and the United States have submitted further information to the Commission on the epidemiological situation on their respective territories and the measures that were taken to prevent the further spread of HPAI following those recent HPAI outbreaks.
- (9) The information provided by Canada and the United States has been evaluated by the Commission. In view of the animal health situation in the areas under restrictions established by the veterinary authorities of Canada and the United States, it is appropriate to suspend the entry into the Union of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds from the areas concerned by the new outbreaks in those third countries in order to protect the animal health status of the Union, taking into account the dates when the outbreaks were confirmed. Therefore, the entries for Canada and the United States in the tables set out in Section B of Part 1 and in Part 2 of Annex V, and the table set out in Section B of Part 1 of Annex XIV to Implementing Regulation (EU) 2021/404 should be amended accordingly.
- (10) In addition, the United States has provided updated information to the Commission in relation to the epidemiological situation on its territory as regards earlier outbreaks of HPAI that gave rise to the suspension of the entry into the Union of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds, as set out in the table in Section B of Part 1 of Annex V, and in the table in Section B of Part 1 of Annex XIV to Implementing Regulation (EU) 2021/404.
- (11) In particular, on 18 September 2026, the United States submitted updated information on the animal health situation and the measures it had taken in relation to 66 outbreaks of HPAI in poultry in the states of Indiana, North Dakota, and Utah, which were confirmed between 14 October 2025 and 13 July 2026 by laboratory analysis (RT-PCR).
- (12) The United States has informed the Commission that, following those earlier outbreaks of HPAI, it had implemented a stamping out policy in order to control and limit the spread of that disease, and it had also completed the requisite cleaning and disinfection following the implementation of the stamping out policy in the infected poultry establishments.
- (13) The Commission has evaluated the information submitted by the United States in that regard and considers that it has provided appropriate guarantees that the animal health situation that had given rise to the suspension of the entry of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds into the Union from the affected zones, as set out in the table in Section B of Part 1 of Annex V, and in the table in Section B of Part 1 of Annex XIV to Implementing Regulation (EU) 2021/404, no longer represents a threat to animal or public health in the Union, and that, consequently, the entry into the Union of those consignments from the affected zones of the United States, from which entry into the Union had been suspended, should be re-authorised. Therefore, the entries for the United States in those tables in those Annexes should be amended accordingly.
- (14) Taking into account the HPAI outbreaks in Canada and the United States, and in order to avoid any unnecessary disruption in trade with the United States, the amendments to be made to Annexes V and XIV to Implementing Regulation (EU) 2021/404 by this Regulation should take effect as a matter of urgency.
- (15) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

*Article 1*

Annexes V and XIV to Implementing Regulation (EU) 2021/404 are amended in accordance with the Annex to this Regulation.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
